Hon. Siela Bynoe
Nassau County Legislature
1 West Street
Mineola, NY 11501

Dear Legislator Bynoe:

Thank you for your recent correspondence regarding body cameras for Nassau County Police Department members. As you may be aware, this technology has advanced in recent years.

Building trust with all of our communities in Nassau County is essential to good policing. Commissioner Ryder has made this a centerpiece of his efforts. Technology which advances this goal will be beneficial for everyone. To survey the technology opportunities and costs associated with body cameras, Nassau County will soon be issuing a Request For Expressions of Interest. This will be the first step in a full procurement process.

Without question, we look forward to appropriate and productive conversations with our labor organizations in bargaining and with regard to procurement requirements.

Thank you for your ongoing interest.

Sincerely,
