## Contract Summary

**Purpose:** This is an EMERGENCY CONTRACT for repair of Correction Center 832 Building. In the interest of expediency this RFP was issued to a select group of seven (7) construction management firms that have been previously selected to provide "On Call" Construction Management Services to the Building Construction Group. Note that due to the Emergency it is likely that a Notice to Proceed will be issued to the selected firm( s) prior to legislative approval of the Contract for these services.

**Method of Procurement:** A formal Request for Proposals (RFP) process was conducted to procure the services.

**Procurement History:** A Request for Proposal was prepared in conformance with the Department's policy for assessing technical understanding, statement of qualifications and proposed project schedule. The RPF was e-mailed to seven qualified Vendors due to the Emergency. Proposals were received from five (5) firms on July 28, 2023. Following the review, the technical rank was

established and the cost proposals were opened. All of the proposals were eligible for review. The technical proposals were evaluated by professional staff within the Department: Douglas Tuman, Deputy Commissioner, Vincent Falkowski, Deputy Commissioner, Robert LaBaw, Chief Architect, Valiant Yeung, Architect III and Joseph Amerigo, Project Manager IV. As a result, the review committee recommends that ENTECH be retained to provide Construction Management services for the Nassau County Correctional Center 832 Building Remedial Repair Project.

**Description of General Provisions:** New agreement for construction management services. This Emergency Agreement shall commence on November 27th, 2023 and shall terminate on the date that a Certificate of Completion is issued to the Construction Contractor.

**Impact on Funding / Price Analysis:** A contract will be processed in the amount of one million nine hundred thirty six thousand dollars (\$1,936,000.00) adding a twenty (20%) percent contingency to the above referenced cost. Funding is available under Capital Project No. 51037.

**Change in Contract from Prior Procurement:** There is no prior procurement.

**Recommendation:** Approve as submitted

The Firm shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. - 1.1.2 General Construction Administration – The CM shall provide administration of the Project and shall administer all construction contracts on the County’s behalf. The CM will be provided a copy of “the Procedure Manual for Project Management” prepared by the Nassau County Department of Public Works, as a guide to the County’s standard administrative procedures. Administer the construction of the project, including scheduling of the Work and coordination of the Construction Contractor (CC), building end-users, and any other persons/entities on the site, so that the Work may be accomplished timely and efficiently, and with minimum inconvenience to the existing Facility occupants. Coordinate the installation of County-furnished material, equipment, and furniture with the work of the CC. The CM shall maintain competent full-time staff at the project site to administer the project at all times Work is being performed by CC. The CM shall furnish his staff with personal equipment required for project administration, including, but not limited to personal protective equipment, lap top computers, digital cameras, cellular telephones, etc. The CM recognizes that the construction will have to be closely monitored, and work (especially potentially disruptive work) will need to be scheduled accordingly.
- 1.1.3 Site Conditions - As portions of the Work become accessible, CM shall promptly and diligently investigate existing conditions and report to the County, the Program Manager and the Design Engineer, those conditions which differ substantially from the information contained in the Construction Documents. Collaborate with the County, the Program Manager, and the Design Engineer to devise appropriate modifications to the Contract Documents.

The CM shall endeavor to guard the Owner against defects and deficiencies in the Work, and shall coordinate testing and controlled inspection by third parties with the Work of the CC. The CM shall promptly notify the County, Design Engineer, and CC, as applicable, of defective,

Track all defective and non-conforming Work through correction until final acceptance by the County. The CM shall provide all required testing equipment such as slump cone, air entrainment testing kit and thermometers as required for the Project.

- 1.1.5 Scheduling - The CC shall prepare the Master Construction Schedule (baseline) and monthly updates. This Schedule shall be prepared using the critical path method and Primavera P6 (or later version) software as approved and shall be broken down in sufficient detail to be useful for monitoring progress, delay analysis, and administering the CC's contract provisions. The schedule shall be cost and resource loaded by the CC. The CM is responsible for monitoring the accuracy and completeness of the CPM Schedule, to review the Baseline and updates, provide analysis of delay, preparation of reports as required by the County, negotiation of delay claims and recommendation for recovery or necessary changes to complete the project within budget and schedule. The CM is responsible for the detailed review of all logic, logic changes, durations, Work Breakdown Structure (WBS), resource and cost loading and acceptance. The CM shall evaluate CC's requests for extension of the Contract time and advise the County confidentially on the quantum and merits of such requests. The CC shall update the Master Schedule monthly to show progress, compile 2-week look-ahead schedules from the Master Schedule and augment same. The CM shall follow up with the CC who will prepare Schedule updates as necessary to reflect changes and show the impact of changes to the critical path and completion milestones. The CM shall review in a timely manner as per contract specifications. Upon acceptance of the baseline and subsequent to each monthly update, the CM shall prepare/distribute the schedule report consisting of project status, current critical issues, upcoming concerns, analysis of attribution of delays and suggested recovery by CC and shall discuss and agree upon recovery steps with the County.
- 1.1.6 Cash Flow Forecast - With the cooperation of the CC, CM shall prepare a cash flow forecast for the entire project, based on the project schedule, and shall revise same, whenever there is a significant change in the schedule that would warrant a revision to the cash flow forecast. Augment the written reports with photographic documentation of the work in progress. Photographs are required when unforeseen conditions, disputed work, or deficiencies in the Work are encountered. Pro-actively monitor the progress of the

Work, taking such steps (on behalf of the County) as are authorized under the CC's contract, to ensure that the CC's workforce is sufficient, and the work is being diligently prosecuted. Where progress is impeded by actions/inactions of the Design Engineer, or others, bring such matters promptly to the attention of the County for resolution. The CM shall monitor the progress in such a manner as to complete the project within the schedule and budget, on behalf of Nassau County.

## **Appendix “EE”**

### **Equal Employment Opportunities for Minorities and Women**

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled “Participation by Minority Group Members and Women in Nassau County Contracts,” governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor’s obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises (“Certified M/WBEs”) as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County’s Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor

and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general

circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.
- h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation
- i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary

for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

The objective of this task order was to perform Lidar Mobile Scanning for Wantagh Avenue for approximately 2 miles from Southern State Parkway to Hempstead Turnpike. The area subject to scanning includes the County's right of way (ROW) which is 50 ft. each way from the centerline, totaling 100 ft. wide, and included concrete road, asphalt shoulders, curbs and sidewalks. To the extent that technology limitations and physical conditions of the site allowed, the proposed scope of work was performed and the survey revealed condition of the existing road, major cracks and joints.

Work scope was broken down in to several items:

Item 1: Lidar Mobile Scanning and Data Acquisition

- The work included collecting scan data along Wantagh Avenue for topographic map preparation purpose

Item 2: Wantagh Avenue ROW

- The approximate location of the Wantagh Avenue ROW was developed graphically. This was not a legal determination of the horizontal location of the right of way lines

Item 3: Base Map Preparation

- The surveyed data was compiled into an appropriately scaled CAD format
- The locations included visible surface features such as buildings, curbs, driveways, islands, pedestrian ramps, parking aprons, fences, jersey barriers, walks, ramps striping, columns, walls, freestanding lighting, signage and visible street hardware
- Visible expansion joints in the pavement was shown
- Visible surface utilities such as utility mark outs, manholes, catch basins, valves, vaults, utility poles, pedestrian and traffic signals, overhead wires and free standing lighting were located
- The locations of trees was extracted within project limits and their trunk diameters were noted
- Elevations were extracted at approximate 50-ft. intervals, and abrupt grade changes, such as high points or low points, along the ROW, top/bottom of curb, centerline and opposite bottom of curb
- A 20 ft. topographic and location overlap provided past the approximate Wantagh Avenue ROW and intersecting side streets

**COUNTY OF NASSAU**  
**DEPARTMENT OF PUBLIC WORKS**  
**Inter-Departmental Memo**

**TO:** Office of the County Executive  
Att: Arthur T. Walsh, Deputy County Executive

**FROM:** Department of Public Works

**DATE:** August 29, 2023

**SUBJECT:** Nassau County Correctional Facility- 832 Building Remedial Repairs  
Construction Management Services  
RFP No. PW-B51037-02-CM  
**Recommendation of Award**

The Department of Public Works intends to retain a Firm to provide Construction Management Services in connection with the Nassau County Correctional Center 832 Building Remedial Repairs project.

In the interest of expediency this RFP is being issued to a select group of seven (7) construction management firms that have been previously selected to provide "On Call" Construction Management Services to the Building Construction Group. Note that due to the Emergency it is likely that a Notice to Proceed will be issued to the selected firm(s) prior to legislative approval of the Contract for these services.

The County received five (5) responses to the Request for Proposals (RFP), all the proposals were eligible for review. The technical proposals were evaluated by professional staff within the Department: Douglas Tuman, Deputy Commissioner, Vincent Falkowski, Deputy Commissioner, Robert LaBaw, Chief Architect, Valiant Yeung, Architect III and Joseph Amerigo, Project Manager IV.

The results of the Technical Evaluation including Cost Proposals are indicated in the table below.

	Firms	Rating	Multiplier	Cost
1	Jacobs	90.8	2.10	\$2,293,360.00
2	ENTECH	89.8	2.50	\$1,614,000.00
3	AECOM	88.2	2.26	\$1,517,908.00
4	Elite/KSE	80	2.15	\$1,915,535.09
5	M & J Engineering	75.6	2.25	\$2,832,100.00

Following the initial rating of the firms, the Evaluators discussed the staffing of the top three firms in detail, we determined that AECOM had insufficient staffing for the complexity of the Project.

The NCDPW evaluators considered the cost proposals of the two remaining top-rated firms, Jacobs and ENTECH. The Jacobs Project Management Co. cost proposal is excessive, the review committee agreed that ENTECH, the number two rated firm provides the best value to Nassau County. The review committee recommends that ENTECH be retained to provide Construction Management services for the Nassau County Correctional Center 832 Building Remedial Repair Project.
