#### Overview

When the new administration completed its review and update to the Multi-year Plan (MYP) issued by the previous Administration, it discovered shocking levels of deficits beginning only months from now and growing disastrously into the future. Its review of the 2010-2013 MYP, adopted during October 2009, reveals that the finances of the County are dramatically worse than previously projected. Our review indicates that the County Executive has inherited a budget gap of \$133.2 million in 2010, \$286.5 million in 2011, and projected to grow to \$330.7 million in 2012 and \$378.3 million in 2013. Since January 1, 2010, County Executive Edward Mangano has been focused on managing the County to address the 2010 deficit and the deficits which soar beginning in 2011.

2010-13 MYP GAP UPDATE

Revised Gap	(133.2)	(286.5)	(330.7)	(378.3)

The projected \$286.5 million gap in 2011, that the new administration will have to confront in its initial budget, is the largest first-year gap ever seen in Nassau County.

This gap is largely driven by a dysfunctional tax assessment system that had not been successfully addressed in the past; long-term, costly and restrictive labor agreements negotiated by the prior Administration; and State and Federal mandates passed on to the County. These issues confront the new County Executive, Edward Mangano, as he embarks on his program of reducing the tax burden on Nassau's residents, fixing the costly and malfunctioning assessment and certiorari systems, cutting wasteful spending and shrinking the size and cost of government.

Nassau County faces significant historical liabilities and unsustainable annual spending related to tax certiorari refunds. Annual settlements of \$100 million and annual debt service cost of

another \$150 million, (resulting from total outstanding certiorari debt exceeding \$1.2 billion) cost Nassau residents \$250 million annually. Unique among New York State jurisdictions, the County is currently paying these refund payments without having received the tax levy or getting reimbursed for taxes that were collected by the school districts, towns and cities. This problem is unique to Nassau County and addressing it is a cornerstone of the Mangano Administration. State legislation is currently being finalized that seeks to move the County to a cyclical assessment process that, together with other reforms and improved management of the assessment system, is expected to significantly reduce prospective claims.

The financial condition of Nassau County as inherited by the Mangano Administration represents one in which a set of labor agreements, negotiated by the prior administration, constrain the County's flexibility in managing wages and benefits. It is important to note that the labor extensions were enacted in a period that many economists view as the worst financial crisis since the Great Depression. Examples of some of these short-term, harmful financial strategies utilized by the previous administration include, but are not limited to the following:

Renegotiation and extension of labor agreements through 2015 with substantial salary increases, step increases, longevity enhancements, additional education stipends and "reopener" clauses;

Extension of labor contracts that limit the County from obtaining savings by implementing work force reductions through layoffs, furloughs, or contributions to health insurance;

Implementation of an employee lag payroll to be paid out to employees upon their ultimate termination at higher salary amounts; and

Deferral of cost of living adjustments and other expenses into later years.

These agreements, designed to obtain immediate short-term benefits, are financially detrimental to the County in years 2010 and beyond. The County does not have the funds to pay for these contracts.

In light of current high levels of property taxes in the County and current economic conditions, the ability of County residential and commercial property taxpayers to bear property tax increases is severely limited. Instead, the County will be seeking union assistance in generating over \$100 million annually in recurring savings in out-year labor costs. The scale of this challenge creates an opportunity for fundamental and structural redefinition of the role of County government. County Executive Mangano's management philosophy is to create a new government model that is streamlined to address the County's top priorities in a more efficient manner. The result will be a smaller, lower cost, more agile and mission-focused County government that minimizes overlap with towns, cities and villages; and uses cutting edge

technology and management practices to create greater responsiveness to citizen service needs at a manageable cost. The County Executive is also focused on creating new sources of revenues without raising taxes.

The Administration recognizes the monumental task that lies ahead in rectifying the current imbalances and providing structurally balanced budgets. To accomplish this difficult task, the Mangano Administration is committed to working with its partners in government at all levels, as well as the county's citizens and business community. We will work closely with the County Legislature and our workforce in making the hard choices and difficult changes necessary to rein in spending and bolster our economy to ensure that Nassau County lives within its means.

The chart below provides options for dealing with the operating gaps and structural deficit. The gap closing solutions are grouped into five areas: assessment reform changes; labor concessions and early retirements; expense reductions; revenue initiatives; and financing options and asset sales. Over the ensuing four months the County will be working towards implementation of these initiatives and evaluating which are to be included in the budget and MYP proposals due September 15, 2010.

Surplus/(Deficit) After Gap Closing Measures	26.8	31.6	59.0	16.4

### Assessment Reform:

Items	2010	2011	2012	2013
Assessment Reform Changes	0.0	20.0	40.0	60.0
Bond Tax Certs	25.0	80.0	60.0	40.0
Bond Tax Certs (Add'l DS)	<u>0.0</u>	<u>(8.4)</u>	(13.2)	(16.4)
Subtotal - Assessment Reform	25.0	91.6	86.8	83.6

The County is fully engaged in its efforts to reduce its liability stemming from tax grievances. The County Executive has issued four Executive Orders as steps towards assessment reform. Executive Order No. 1 created a Property Tax Assessment Review Team "ART", comprised of residential and commercial property owners, charged with: determining how to improve the residential Small Claims Assessment Review process for single family residences; determining how to resolve fairly and expeditiously the current commercial property tax certiorari backlog; and advising with respect to freezing the assessment rolls and implementing cyclical assessments. Executive Order No. 2 lowered the interest rate payable on commercial tax certiorari settlements to 3%. It also instituted a program of mandatory settlement conferences before each case, relating to commercial property, is considered by the courts. Executive Order No. 5 requires commercial property owners to provide appraisals or settlement offers; and Executive Order No. 6 moved the County to a four year cyclical assessment, effective in 2011, which is in line with approximately two-thirds of the State's taxing jurisdictions.

Legislation to reform and change the assessment process is currently being finalized. The Administration has already adopted other reforms and imposed aggressive management of the assessment system, which together have begun to reduce assessment liability. The plan envisions a financing component to transition to a pay as you go basis "PAYGO" when savings from the reform package have been realized.

### Labor Concessions & Early Retirements:

Items	2010	2011	2012	2013
Labor Concessions & Early Retirements	<u>15.0</u>	60.0	120.0	120.0
Subtotal - Labor Concessions & Early Retirements	15.0	60.0	120.0	120.0

The County recognizes the dedication of the labor force and the major contribution it makes to the overall success of County government. However, the County is enmeshed in financial difficulties left over from the prior Administration. The County does not have the ability to pay the existing labor contracts and will be seeking savings from its respective labor partners to remedy the current financial gaps.

### **Expense Reductions:**

Items	2010	2011	2012	2013
Departmental Reductions and Eliminations	0.0	24.6	24.6	24.6
Expense Reductions	<u>9.3</u>	<u>13.7</u>	<u>13.7</u>	<u>13.7</u>
Subtotal - Expense Reductions	9.3	38.3	38.3	38.3

The County has a number of avenues to explore on this front, including reductions in subsidies paid to third parties, recoveries from the current NYSHIP audit, and departmental reductions and eliminations.

#### Revenue Initiatives:

Items	2010	2011	2012	2013
Red Light Camera Phase II	0.0	7.0	0.0	0.0
House Suffolk Inmates at Correctional Center	1.0	3.0	3.0	3.0
Increase Police Ambulance Fees	3.0	5.0	5.0	5.0
Video Lottery Terminals	0.0	0.0	21.4	21.4
Patrolling of the LIE	0.0	5.0	5.0	5.0
Parks Marketing Initiative	<u>0.0</u>	<u>4.0</u>	<u>4.0</u>	<u>4.0</u>
Subtotal - Revenue Enhancements	4.0	24.0	38.4	38.4

In order to bring the County budget back into structural balance, additional targeted revenues will need to be achieved. Some will be generated by using our existing assets more fully, getting better reimbursements for services, and adding to the menu of recurring revenue streams.

### **Financing Options and Asset Sales:**

Items	2010	2011	2012	2013
Bond Termination Payments (2010)	29.3	(3.5)	(3.5)	(3.5)
NIFA & County Debt Restructuring	0.0	25.0	25.0	(8.8)
Sale of County Buildings	0.0	0.0	20.0	20.0
Securitization of Mitchel Field Leases	0.0	0.0	0.0	<u>40.0</u>
Subtotal - Financing Options	29.3	21.5	41.5	47.7

The final, and of lowest priority, pillar of the plan is the limited use of financing options and asset sales. These include the bonding of termination pay, debt restructuring and sale of surplus properties. This option will be used as a bridge to the goal of a smaller, more targeted County government.

#### SUMMARY OF 2009 FINANCIAL PERFORMANCE

Nassau County ended its 2009 fiscal year with a small \$3.5 million surplus (un-audited) on its \$2.6 billion operating budget. This surplus is the net total for the County's five major funds (General, Police Headquarters, Police Districts, Fire Safety, and Debt Service Funds). It was comprised of an \$8.3 million surplus in the Police Districts Fund, partially offset by a \$4.8 million deficit in the General Fund.

The 2009 surplus would not have been possible without significant funding generated from non-recurring revenues and cost reductions, commonly referred to as one-shots. As noted by the County Comptroller, these one-shots mask an increasing structural budgetary imbalance, and amounted to approximately one quarter of a billion dollars, or nearly ten percent of the operating budget.

One-shots are an appropriate component of a budget balancing plan, especially during periods of temporary economic downturn. However, every effort must be made to maximize recurring revenues and cut recurring costs. The level of structural imbalance inherited by the Mangano administration is alarming. In a year when sales tax revenues fell \$108.6 million below the adopted budget, renegotiated and extended labor agreements were put in place. These agreements included substantial salary increases and preserved fringe benefits, with considerable amounts of pay and budgetary impact deferred to future years.

At year-end, the \$8.3 million police surplus was transferred to unreserved fund balance in the Police Districts Fund, and the \$4.8 million General Fund deficit reduced accumulated unreserved fund balance.

### SIGNIFICANT 2009 VARIANCES – Surplus/(Deficit)

### **EXPENSES**

\$74.2 million in salaries from bonding budgeted termination pay in conjunction with a County early retirement incentive program, implementation of a payroll lag, and vacancies in budgeted personnel positions;

\$19.2 million in equipment purchases, general expenses, and contractual services resulting from restricting departmental procurement;

\$19.1 million in fringe benefits from lower than budgeted health insurance rates resulting from NYSHIP drawing down a portion of accumulated reserves, and vacancies in budgeted personnel positions;

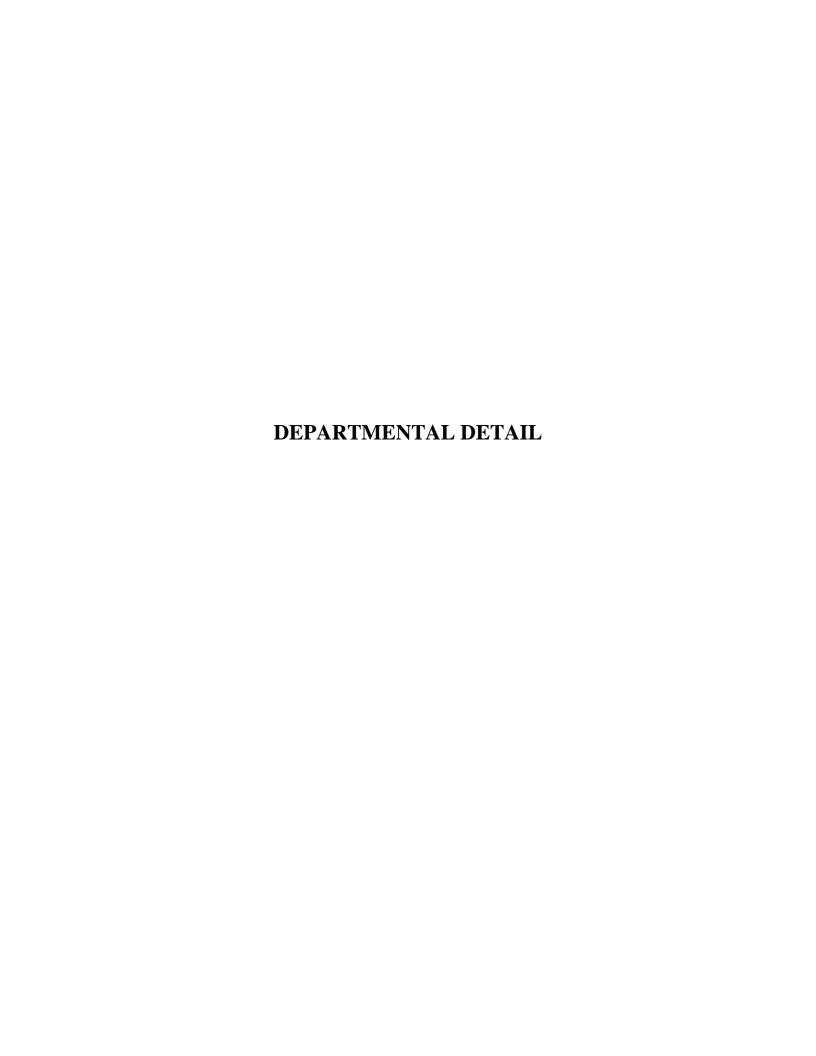

- \$10.8 million in interest on borrowings from lower interest rates and borrowings that took place later in the year than projected in the budget;
- \$6.3 million in local government assistance since the amount of sales tax revenues shared with local municipalities is a percentage of actual receipts and both were under budget;
- (\$9.7) million in non-Medicaid social services resulting from higher than budgeted caseload and rates for various direct aid programs; and
- (\$5.1) million in workers compensation due to a one-time expense acceleration resulting from new NYS Workers' Compensation Board guidelines related to award timeline constraints.

#### **REVENUES**

- \$42.6 million in federal aid due to funding from the Federal Medical Assistance Percentage (FMAP) program, partially offset by lower than budgeted reimbursements for Child Care Block Grant and Back to School program expenses;
- \$21.9 million from the sales tax extension to residential energy;
- \$12.4 million in debt service from capital primarily attributable to higher than budgeted premiums received in conjunction with debt issuance;
- (\$108.6) million in non-energy sales tax revenues that reflect decreased spending during an economic period that has been described as the worst financial crisis since the Great Depression;
- (\$14.7) million in investment income resulting from lower interest rates than estimated in the adopted budget;
- (\$10.8) million in departmental revenues resulting from a budgeted parks advertising initiative that did not materialize, lower than estimated parks attendance, and a lower than projected number of documents processed by the County Clerk's office; and
- (\$13.6) million from the red light camera initiative primarily attributable to cameras being rolled out slower than projected in the budget.

#### Major Assumptions

- 1) Salary growth is based on commitments from collective bargaining agreements. Out years where no agreements exist are projected at increases consistent with current contract increases.
- Fringe Benefit growth is based on the latest estimated percentage increases and assumptions available.
- 3) Increased costs from the Optional Retirement Plan legislation and the MTA Patrol Tax (Unfunded Mandates) are not reflected in the Fringe Benefit line for presentation purposes. They are therefore shown separately in this plan.
- 4) Other Than Personnel Service (OTPS) costs reflect funding for on-going operations with minimal additional appropriations to address strategic plan efforts, with the exception of the Stewart Avenue lease.
- 5) State Aid for 2010 is calculated on aid per FTE of \$2,545 and FTE enrollment of 18,426.8 (2009 final). State aid for 2011 and beyond is based on \$2,260 per FTE and enrollment of 19,221.0 (2010 projection). An additional \$100k is included for Categorical aid (excluding Rental Aid). Rental Aid is based on 50% of only the rental portion of the lease cost for Endo & Stewart.
- 6) FY09/10 Fall enrollment increased 4.3% over prior year. Spring FY 09/10 is projected to be 5.41 over prior year. Winterim +15.33% and Summer -2% for weighted average increase of 4.31%. Enrollment increases for 2011 and beyond are assumed to be zero before gap closers. Current Tuition is \$3,622 per full time student. Each \$50 increase in tuition is worth about \$1Million.
- 7) Property tax revenue shown above reflects no increase in FY 2010 and no increases in the out years. Each 1% Increase is worth about \$500k.
- 8) Revenue in Lieu of Sponsor Share varies with the changes in the level of non-resident enrollmen net operating costs, and the level of sponsor support. Since there is no assumptions being made for additional non resident enrollment or sponsor support this amount remains level.
