

Historic changes to voting come to Nassau County

Beginning this Fall, lever voting machines will be replaced with electronic voting machines.
-- State and Federal laws require us to make this change --
This guide will show you what to expect at your polling place on Primary Day and Election Day.

STEP ONE: RECEIVE YOUR BALLOT

After signing the Poll Book (this part has not changed) you will receive a ballot and privacy sleeve from the poll worker. Take them to a privacy booth, where you can mark your ballot in private. You will insert the completed ballot into the privacy sleeve to shield it from view when you take it to the Scanner.

STEP TWO: MARK YOUR VOTES

You will see an oval above the name of each candidate. To vote for a candidate, make sure that you completely fill in their oval. For write-in-candidates, fill in the oval above the words **“WRITE IN”** and write the candidate’s name on the line. Note – check both sides of the ballot.

As required by federal law, ballots will be printed in English and Spanish. Special ballot-marking devices will be available at every polling place, to assist those who may be physically unable to mark a ballot on their own.

STEP THREE: INSERT YOUR BALLOT INTO THE SCANNER

Insert your completed ballot into the Scanner.

STEP FOUR: WATCH THE SCREEN

By watching the message on the Scanner’s screen, you will know when your vote has been cast successfully. Your vote has now been counted!

If there is a problem with your ballot, follow the instructions on the screen. For example, if you voted for too many candidates (an “Over Vote”), or perhaps left a race blank (an “Under Vote”), the machine will give you a chance to get your ballot back. To do that, select **“DON’T CAST – RETURN”** on the screen. If you would like to cast the ballot without correcting it, select **“ACCEPT.”**
