ROOSEVELT	327.054	654.108	621.197	-5.03%

Actual Tax Rates for the 2005-2006 school tax year were based on a Level of Assessment of one-half of one percent of full market value. Since the Level of Assessment was lowered to one-quarter of one percent of full market value for 2006-2007, to determine the true percentage of increase or decrease in the tax rates, the 2005-2006 rates were doubled for factual comparison purposes to properly measure tax rates based on equal levels of assessment.
