Are you interested in helping your fellow CERT Team members cope with the stressors associated with responding to a disaster? IF you are, we need you to join the CERT CARE Team. The CERT CARE Team (CCT) is comprised of trained mental health professionals and CERT volunteers like you, all of whom will be drawn from existing CERT teams. The CARE Team was developed to help prepare CERT members for the emotional stresses they will encounter in responding to disasters, and to function as a support system for CERT volunteers during team activations. Our CARE Team was the first of its kind created in the nation and remains on the cutting edge today. In an effort to provide the best care possible we have adopted Psychological First Aid (PFA) as our model for caring to the needs of those individuals who have been exposed to a disaster. PFA is a way to give emotional support and help to people of any age, ethnic and cultural heritage, and social and economic background in the immediate aftermath of disaster. SEE below for more info on PFA. **Therefore, all existing CERT CARE team members and interested CERT members MUST attend one of the two sessions being given at the Office of Emergency Management.**
