**CERT is what you make it!**

**The weekly CERT Brief is available on our webpage at:**

<http://www.nassaucountyny.gov/agencies/OEM/CC/CERT/brief.html>

**If you have any suggestions including training or comments on how to make CERT better, please send an email to [oemcert@nassaucountyny.gov](mailto:oemcert@nassaucountyny.gov). Or call us at 573-0648 and leave a message.**

**All responses are kept strictly confidential unless otherwise expressed.**

## **A MESSAGE FROM BOB**

On behalf of County Executive Tom Suozzi and Commissioner James J Callahan III thank you for your dedication and commitment to CERT and Citizen Preparedness.

Please see the new Basic course instructor sign up posted below. We need instructors to step up and help out! I am sure there are many members who would be able to assist our volunteer instruction staff with some classes. You can just help out with the exercises by coaching the table teams! You don't have to be the person in the front of the room! Give back to the team!

We have scheduled an EOC class (see below) and we are working on ID photo times and locations! Please stay tuned for the latest on this! I would like to have all POD volunteer workers ID badges before we open PODs this fall! Keep an eye on the Weekly Briefs!

I am extremely disappointed in the amount of members who have signed up for the exercise this September 13<sup>th</sup> 2009. The Exercise team has spent enormous amounts of energy developing this exercise and there are only 42 members signed up. If you are attending please make sure you registered!

What an exciting week for the Nassau CERT program. Thanks to the support of our County Executive Tom Suozzi and our Commissioner James Callahan III, CERT went to Washington, D.C. to participate in the National Conference on Community Preparedness -The Power of Citizen Corps.

I had the distinct honor to be asked by the Mike Moriarty, FEMA Region II, Federal Preparedness Coordinator, to address the entire Conference to talk about what Nassau County CERT is doing to prepare for the Flu season this fall! We should all be extremely proud of our team and the amazing strides that we've made in establishing such a highly respected team. The respect was evident whenever anyone mentioned "Nassau CERT" The reaction was always the same, everyone listened! We addressed many inquiries from other teams and Emergency Managers requesting information on how we became such a successful program. Kudos to Nassau County CERT!

### **Nassau CERT is planning for the Flu Season!**

Every CERT member should be preparing themselves, their family, neighbor to neighbor, friend to friend!

#### **Some things to think about and speak to your friends and neighbors about:**

- ⌚ Get your seasonal flu vaccine! (All ages!!)
- ⌚ The importance of washing hands or using hand sanitizers when washing hands is not possible,
- ⌚ Coughing or sneezing into your sleeve,
- ⌚ Cleaning surfaces (phones, desks, etc) frequently,
- ⌚ Staying home from work or school, when sick,
- ⌚ Stocking up on over the counter analgesics, juices and water

### **A Few Words About The Conference**

The Citizens Corp conference was a great opportunity to hear about and see examples of outreach to diverse cultures in other areas of the country. Websites, programs and literature were all available and sharing was encouraged. The highlights of the CERT teams from all regions identified additional means of cooperation and competition, such as CERT games and rodeos, among teams and some interesting initiatives we may be able to emulate.

Kathy S

I found it exciting to hear what other Citizen Corps groups are doing in the rest of the country. It was great to see that people from all over the country know who Nassau County CERT is. I enjoyed the keynote speaker Amanda Ripley speaking about her book "*The Unthinkable-Who Survives When Disaster Strikes-And Why.*"

Jerry B

I felt that the Citizens Corp conference was a great opportunity for volunteers and first responders from all over the country to share successes, concerns and problems. It provided an mechanism for us to learn from each other as well as from our national leaders at Homeland Security, FEMA, and Citizen Corps. After many hours of discussion and lectures, we see we have different types of disasters affecting different regions of the country. The west coast has earthquakes, the middle of the country has tornados, and the east coast has hurricanes. Yet the preparation and response is not all that different. We all need to be prepared for sheltering in place, go bags, fire response, community shelters, medical response, pet response, debris management, etc. We all share the challenges of obtaining and training volunteers, retaining volunteers, and managing spontaneous volunteers.

## OTHER NEWS AND INFORMATION

### NY-Alert- A notification system you can join

Unexpected disasters can destroy communities and devastate families. Whether it's a natural emergency like high winds, flooding or an ice storm, or it's a man-made threat, the more information we have the better we can respond to emergencies. Signing up for NY-Alert is free. By doing so, you will receive warnings and emergency information, including road closures, inclement weather events and terrorist alerts issued by New York State and local governments. Information can be sent to you via your cell phone, your home phone, e-mail and other technologies. You can list up to three phone numbers, two e-mail addresses and three cell phones to receive text messages. Receiving alerts through these modern, high-tech devices accelerates communication, which allows you to be aware of any perilous events that may be affecting your community in a faster and more convenient way. In addition, once you sign up for NY-Alert, you will also be able to customize locations, types of emergencies and the threat level, from minor to extreme, you would like to receive information about. Most alerts are issued by your county or local municipality. Every emergency is different and alerts are tailored to meet the notification needs of each incident. **To sign up for NY-Alert, go to [www.nyalert.gov](http://www.nyalert.gov) or call (888) 697-6972.**
