Minority Affairs was given a copy of the bid. Two (2) bids were received. The two (2) bids received are a good result considering that this type of service requires specialized skills and equipment to perform.

**Impact on Funding:** The annual estimated amount for this contract will exceed One Hundred Thousand Dollars (\$100,000) from general funds.

**Recommendation:** Office of Purchasing recommends awarding a Blanket Purchase Order to Henrich Equipment Co., Inc. as the lowest responsible bidder meeting specifications.

#### Appendix EE

#### EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

# FORMAL SEALED BID PROPOSAL 10031-11227-172

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(1) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefore or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

#### Appendix EE

#### EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgrading's, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgrading's, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. "Public Works" and "Building Services" - Definitions a.

i. Public Works Labor Law Article 8 applies to county contracts for public improvements in which laborers, workers or mechanics are employed on a "public works" project (distinguished from public "procurement" or "service" contracts).

ii. Building Services Labor Law Article 9 applies to Contracts for building service work with the county, that: (i) involve the care or maintenance of an existing building, or (ii) involve the transportation of office furniture or equipment to or from such building, or (iii) involve the transportation and delivery of fossil fuel to such building, and (iv) the principal purpose of which is to furnish services through use of building service employees.

b. Prevailing Wage Rate Applicable to Bid Submissions A copy of the applicable prevailing wage rates to be paid or provided are annexed to the Bid Documents. Bidders may not submit Bids based upon hourly wage rates and supplements below the applicable prevailing wage rates as established by the New York State Department of Labor. Bids that fail to comply with this requirement will be disqualified. Information indicating that prevailing wages are not being paid on a public works project will be forwarded to the New York State Department of Labor for investigation. Willful violations of the prevailing wage provisions of the Labor Law may result in debarment from the bidding and award of public contracts.

Wage Rate Payments / Changes During Contract Term The wages to be paid under any resulting Contract shall not c. be less than the prevailing rate of wages and supplements as set forth by law. It is required that the Contractor keep informed of all changes in the Prevailing Wage Rates during the Contract term that apply to the classes of individuals supplied by the Contractor on any projects resulting from this Contract, subject to the provisions of the Labor Law. iii. Submission of Certified Payroll Transcripts for Public Works Contracts Only Contractors and Subcontractors on public works projects must submit monthly payroll transcripts to the project manager for a public works project.

iv. Records Retention Contractors and Subcontractors must preserve copies of such certified transcripts for a period of three years from the date of completion of work on the awarded contract.

### The County will be selecting one vendor. The County will determine whether it will be hosted or not hosted by the County solely at the County's discretion.

#### OVERVIEW:

THE DEPARTMENT OF ASSESSMENT IS IN NEED OF A SYSTEM OR PROGRAM THAT WILL PROVIDE THEM WITH A COMPARIBLE MARKET ANALYSIS EN MASSE ON A PARCEL LEVEL CONTAINING NO LESS THAN FIVE (5) COMPARIBLE SALES FOR THE UNIVERSE OF CASES THAT FILE A SMALL CLAIMS ASSESSMENT REVIEW IN NASSAU COUNTY SUPREME COURT AGAINST THE COUNTY FOR

2018/2019 TAX YEAR. IN ADDITION TO THE COMPARABLE MARKET ANALYSIS, THE PRODUCT TO BE SUPPLIED SHOULD INCLUDE AN ARIAL MAP SHOWING THE LOCATION OF THE SUBJECT, COMPARABLES SALES AND A RADIUS SEARCH.

### SPECIFICATIONS:

Assessment SOW

Assumptions:

- Applications will be used by 10-20 concurrent users (the program is capable of handling 50 to 60 concurrent users)
- Applications will be needed from March 1, 2018 through August 31, 2018

(The program is currently in use, supporting 17 municipalities throughout Nassau, Suffolk and Westchester, simplifying dispositions of their small claim filings. Changes required to make the program comply with Nassau County specifications are minimal and can be completed well within the required timeframe.)

- The County prefers a HOSTED Solution (Hosting would be provided through a well know third party vendor which we currently are under contract with.)
- If NOT hosted, the vendor is to provide technical specs as part of their response. Ex OS, CPU, RAM, Platforms needed (OS: Windows sever 2003 or newer & Windows XP (SP3) or newer), CPU: Intel Pentium 4, AMD Athlon 64 or later), (RAM: 2GB of available Ram(4 GB recommended)), (Platform: R:Base Technologies, Inc)

• Data dump to be provided by the Nassau County Assessment Department (Our database servers are capable of handling large datafiles with incremental backups completed routinely)

MANDATORY REQUIREMENTS	HOSTED COST	NON-HOSTED COST
1) Provide one cost for the Application / licensing for items 1.1 through 1.9 below.	\$ <u>375,000</u>	\$_350,000

1.1) The CMAs must include for the subject and comparable sales the parcel ID, distance in miles from the subject, school district, location within a Village, the most recent picture, selling price, buyer and seller, sales date, liber-page, class, lot size, house style, stories, year built, rooms/bath, square feet, garage, extras, location influences and a calculation of total adjustments and adjusted sales prices and subject value by average.

(As stated earlier, the program is in use disposing of small claims filing for many municipalities. Making the program compliant with Nassau County specifications would require the addition of 5 data fields to the CMA: Village 2 letter flag, buyer/seller, Liber-page, stories and rooms. The program also includes the ability to select comparable sales on a neighborhood basis. The minimal changes as indicated can be completed well within the required timeframe.) (see attachment 1.1)

1.2) The CMAs must be prepared using standard appraisal practices but that the adjustments be determined by the NCDept. of Assessment and that the adjustments are able to be made en masse pertaining to all parcels or en masse at various price points.

(The program was designed to comply with typical appraisal practices having the ability to adjust on a per parcel basis or mass basis.) (see attachment 1.2)

1.3) Each CMA must have the ability to be manipulated individually, so that comparable sales can be put in or removed as seen fit by the individual handling the case and with the calculations modified to reflect the changes in live time and then being able to be run/printed as modified.

(Knowing that an appraiser will not always agree with comparable sales selected through the use of an algorithm, the program has the full flexibility of replacing comparable sales on the fly.)

(see attachment 1.3)

1.4) The CMA program must be capable of being set in an "comparability mode", such that no comparable is chosen for a CMA that is less than a certain percentage off the price of the subject.

(The rational was realized in the early stages of development, feedback from appraisers indicated that picking comparable that were truly not comparable, did not provide reliable values. Therefore, adjustable paraments were incorporated into the system.) (see attachment 1.4)

1.5) The program must be flexible, so it could be run by court date or the representative in addition to its being run all at one time.

(The program is currently designed to run batch files by court date. Updating it with the ability to run by SCAR Rep. would be of minimal effort.) (see attachment 1.5)

1.6) The program must allow the Department of Assessment to set the date parameters for choosing of the comparable sales.

(Date parameters are fully flexible, permitting current valuation or historic valuation where needed in an Article 7 filing. Sale price trending is provided for a 7-year period having the ability to utilize more sales in less active communities.) (see attachment 1.6)

1.7) The program must be flexible for the Department of Assessment to be able to determine the weight given to various factors in choosing comparable sales, i.e. distance from the subject, school district, and such additional parameters as the Department sees fit to institute.

(The ability to weight variables such as distance, school district, waterfront, style and so on, is the backbone of our system, providing the ability to fine tune external influences when needed.) (see attachment 1.7)

1.8) The provider must submit to the Dept. of Assessment, a comparable market analysis report in an electronic format that is capable of interfacing with the County's printing services to allow the County to print the reports when completed.

# (The program is fully Microsoft compliant and permits use of all standard print drivers along with ODBC connections.)

1.9) The program must have the ability to provide a "bucket list" of sales (radius search) in distance from the subject. The program must have the ability to provide a default distance in choosing sales, but also have the ability to be adjusted by the Tax Specialist for individual properties when necessary. The sales in the bucket list must include the name of the buyer and seller for verification relative to the validity of the transaction.

(One of our earliest updates incorporated the use of radius reports. It was realized by our appraisers that we had no method to qualify if the program was missing the mark on value as indicated by the surrounding sales. The feature is fully adjustable on a mass or individual basis. Minor work to the report would require addition of buyer/seller.) (see attachment 1.9)

- The Company has recently completed the monitoring of the reassessment for the Towns of Greenburgh, Ossining and North Salem.
- Working closely with Senator Martins, the Senator was able to facilitate a change to New York State law providing "Advisory Appraisals" to villages during an annual reassessment. Prior to the changes, only counties and towns were eligible for these reports, requiring villages to retrieve dated data from towns and counties or maintain static values therefor preventing a village from having a fair and equitable assessment roll.
- The Company's project manager has been a member of the Real Property Tax Administration Committee (RPTC), equalization subcommittee for ten years. He has been instrumental in writing procedures pertaining to Equalization Rates and Residential Assessment Ratios. This board position provides the Company with insight to New York State goals and procedures long before the general assessment community is aware of them.

viii) Copies of all state and local licenses and permits.

See immediately following.

- A. Indicate number of years in business. 48
- B. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

We believe that the Company's track record of providing CMA's which is based on continually evolving systems/computer programs for municipalities over a 25-year period makes us qualified to meet goals required for this Bid. Our CMA system precludes possibilities of producing inconsistent valuations. This has been proven numerous times after our village annual revaluations and subsequent small claim appraisals.

The Company has recently completed the first part of a systematic review of all commercial and multi-family properties within Nassau County.

The Company maintains various systems for research purposes as aids in the valuation and consulting services it provides. These include a hard copy/digital/micro-film library, contracted services such as Real Quest, Comps. Inc., CoStar, LoopNet and the Multiple Listing Service of Long Island, and an in-house proprietary database including thousands of sale and lease abstracts. A high speed internet connection is in place and operational and the entire office staff has complete access to it.

The company is located in an owner occupied two story office building in the heart of Mineola, two blocks from the Assessment Department offices and a short drive to the County Attorney's and Assessment Review Commission's offices. The firm has remained in business since 1968 because of the quality of its work and its ongoing commitment to be as responsive as possible to the needs of its clients.

C. Provide names and addresses for no fewer than three references for whom the Proposer has provided similar services or who are qualified to evaluate the Proposer's capability to perform this work.

#### The Business History of Judge Family Enterprises, Inc.

Founded on December 20, 2013 by Brian Judge along with his spouse Megan, Judge Family Enterprises bought the assets and rights from Interstate Batteries System of America to distribute Interstate Batteries products on Long Island as an independent distributor.

As an independent distributor, Brian and Megan have grown the business by nearly 2 million dollars in their four years of ownership. The growth didn't happen by accident, but though providing great service on a great product. Brian and Megan brought a wealth of knowledge of experience to the business as well. Brian has been an independent distributor since 1995 in the NYC area. During that time, the business revenue increased nearly 6 fold, through the same method of providing great service on a great product. As an owner of BMS Battery Inc. we received awards for Top Volume, Top Market Share, National Account service, and Most improved to name a few. This same philosophy and management style has carried over to Judge Family Enterprises, Inc. and will keep the company growing for years to come.

#### Appendix EE

#### EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

**NON-ASSIGNMENT:** In accordance with Section 138 of the State Finance Law, the contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of Nassau County and any attempts to assign the contract without the County's written consent are null and void.

**REDUCTION IN PRICES:** If an award is made, the Contractor agrees, should prices be reduced to the general trade during the requirement period, the County shall receive the benefit of such reduction immediately upon effect. It shall be incumbent upon the Contractor to notify the Purchasing Department of such price reductions.

**APPROXIMATE QUANTITIES:** The estimated usage quantities or estimated annual dollar value, when indicated, are merely estimated quantities based on experience and are given for information purposes only. The County will not be compelled to order the total estimated amount of any item; but the quantity to be ordered will be such as may be actually required by the respective County Department's during the period specified. Additional quantities of any items or quantity specified therein may be ordered during the period of the Blanket Order at the prices indicated.

**TERMINATION PREROGATIVE:** The Director reserves the right to cancel the Blanket Order by giving not less than thirty (30) days written notice that, on or after a date therein specified, the contract shall be deemed terminated and cancelled.

#### **DISCLAIMER**

Any Blanket Purchase Order issued as a result of this bid will establish terms and conditions pursuant to which certain materials and/or services are to be supplied or performed, from time to time, for a specified period upon issuance by the County of Delivery Orders. The Blanket Purchase Order is non-exclusive and the County is not bound to purchase, and no materials are to be delivered or services performed without a Delivery Order. The County shall be under no obligation whatsoever to issue such Delivery Orders. The Blanket Purchase shall not apply in any way to items of material or service deemed by the County in its sole discretion to be extraordinary or involve any special conditions, quantities, circumstances or complexities.

**VENDOR RESPONSIBILITY CRITERIA:** The Director of Purchasing reserves the right before making an award to make investigations as to whether or not the qualifications, services, facilities or items offered by the bidder meet the requirements set forth herein and are ample and sufficient to ensure the proper performance in the event of an award. The bidder must be prepared, if requested by the Director of Purchasing, to present evidence of experience, ability, financial standing, as well as a statement as to plant, machinery, trained personnel and capacity for the rendition of the service on which the vendor is bidding. Upon request of the Director, the successful bidder shall file certification from the manufacturer relative to authorization, delivery, service and guarantees. If it is found that the conditions of the bid are not complied with or that the services or equipment proposed to be furnished do not meet the requirements called for, or that the qualifications, financial standing, or facilities are not satisfactory, the Director may reject such bids. It is distinctly understood, however, that nothing in the forgoing shall mean or imply that it is obligatory upon the Director to make any examinations before an award; and it is further understood that, if such examination is made, it in no way relieves the bidder from fulfilling all requirements and conditions of the bid.

#### Appendix EE

#### EQUAL EMPLOYMENT OPPORTUNITIES FOR MINORITIES AND WOMEN

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(1) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation..

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefore or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition,

### **Business History Form**

13,

On June 20 of 2016, the New York State Office of Children and Family Services (OCFS) placed the Residential Treatment Center (RTC) of Berkshire Farm Center and Services for Youth (Berkshire) on Critical Incident Reporting Status based on OCFS's monitoring of Berkshire. This status was not placed on other Berkshire programs such as Foster Care, Prevention or Group Homes. Additionally it was not due to one particular incident but was based on OCFS's concerns relating to the quality of staffing, provision of clinical and therapeutic services, recreational and age appropriate activities, and physical cleanliness and physical plant issues. Critical Incident Reporting status entailed weekly unannounced site visits, weekly meetings with OCFS, and all incidents and their documentation were submitted to OCFS.

On 9/5/16, while Berkshire was still on Critical Incident Reporting Status, there was an incident at the RTC where a youth injured three youth and a staff member with a box cutter. Fortunately the injuries were relatively minor. On 9/8/16, OCFS closed the RTC's intake (no new youth could be admitted to the RTC) and the RTC remained on Critical Incident Reporting Status. OCFS conducted an investigation of the incident. OCFS finished the investigation and submitted their investigation to the Justice Center. The Justice Center has yet to issue a final determination; however Berkshire has responded to the concerns that were identified by OCFS in their investigation with a Corrective Action Plan. OCFS opened the RTC intake on a limited basis on 12/8/16 and then officially was opened without limitation on 2/8/17 but remained on Critical Incident Reporting Status.

Steps taken to improve quality of staffing, provision of clinical and therapeutic services, etc, which were designed to prevent similar incidents from reoccurring, were the following:

- The leadership of the Residential and Clinical programs was changed.
- A Risk Management Coordinator was assigned to provide full time quality assurance exclusively to the RTC program by independently monitoring and reporting on key areas of performance, such as documentation and physical plant issues.
- The RTC incident review committee meets weekly to review all incidents that occurred on campus.
- All Youth Care Counselors attended 6 weeks of enhanced weekly trainings provided by the training department.
- A Recreation staff member was hired to schedule and organize recreational activities and to provide therapeutic recreation programs.
- Therapeutic Support Specialists were based in the cottages to assist staff in identifying, and preventatively responding to potential crisis situations.
- Cottage supervisors now conduct random camera reviews and in-person spot checks on direct care staff and process that information with staff in supervision meetings.
- Maintenance staff conduct daily walk-throughs of each living unit on campus to check for any maintenance or physical plant issues.
- The Positive Behavior Intervention and Supports (PBIS) system was implemented. Youth earn points throughout the day in school or in the cottage and those points are used to earn privileges.

- Clinicians now meet weekly with the cottage supervisor and attend the weekly cottage staff meeting to speak toward clinical issues affecting the youth. Additionally, Clinicians read and make regular entries into the cottage log to enhance communication.
- Clinicians receive weekly group supervision, in addition to their regular individual supervision, with the Chief Clinical Officer.

• Weekly Power Source and independent living groups are conducted with youth. Power Source is a model that teaches self-regulation skills to youth.

On 4/7/17, Berkshire's status changed from Critical Incident Review status to Heightened Supervision status. Instead of meeting weekly with OCFS and having weekly unannounced site visits we now have a monthly meeting with OCFS and a monthly unannounced site visit.

Berkshire's mission is: "to strengthen children and families so they can live safely, independently, and productively within their home communities." The agency is driven by its core values: passion, excellence, innovation, community, self-care, and impact. Berkshire reaches more than 5,000 children and families throughout New York State annually with community-based prevention, foster care, group home and residential services. The Agency has more than a dozen regional offices around the state, as well as six group homes, two non-secure detention facilities, and hundreds of foster homes. ÷

Berkshire has been providing community -based Prevention programming in New York State for over four decades. In that time and in response to local needs, the agency has honed its skills and developed flexible, yet consistent program models to become a leader in community-based Prevention service provision to children and families. The agency has successfully been providing Prevention Services in counties around New York State for well over four decades. As a result of the success in helping children and families, 23 counties across New York, including Albany, Schenectady, Saratoga, Columbia, Montgomery, Nassau, Erie, Niagara and Orange, currently have contracts with Berkshire specifically for Prevention Services. Below are recent statistics compiled from program annual reports to local Departments of Social Services that demonstrate the extent of that success:

- 100 percent of children and families had access to agency staff twenty-four hours a day, seven days a week.
- 96 percent of children remained safely in their homes, avoiding placement.
- 93 percent of parents increased their involvement in school and community-based activities and services.
- 90 percent of children improved their attendance and/or reduced their tardiness in school
- 98 percent avoided the filing of a PINS petition during the program year.

| То:   | Robert Cleary<br>Director of Procurement Compliance                                |
|-------|------------------------------------------------------------------------------------|
| From: | Paul F. Broderick PAS<br>Deputy Commissioner, Department of Social Services (DCCO) |

Date: February 21, 2018

Subject: Berkshire Farm Center & Services for Youth (CLSS18000034) (Preventive Services)

Let this memo serve to confirm that DSS has previously made you aware of the fact that the above referred to contract CQSS13000013 (CLSS18000034) is being submitted after the starting date of the services.

The 2018 contract document was originally submitted to the vendor in and around October 2017 following the submission of a proposed Line Item Budget and review of the same by DSS Accounting and Administration.

The 2017 renewal however was still being processed at that time due to, inter alia, delays caused by confusion on the part of the vendor resulting from personnel changes.

As a result of the delay, the date of execution of the 2017 renewal could not be placed into the 2018 document.

DSS was advised that the 2017 contract renewal was fully certified on February 20, 2018 and that it had been executed on behalf of Nassau County on February 13, 2018.

The appropriate revision was made to the 2018 renewal and approved by the vendor as of February 21, 2018.

The package was reviewed and a few matters required correction before submission.

The services being provided are mandated preventive services to children and concern children who are at imminent risk of foster care placement.

## Berkshire Farm Center and Services for Youth The Family Connections Program An Evidenced Informed Intensive Preventive Service

### a. Service Summary

The Family Connections Program is a trauma informed, intensive home, community and school based program designed to address Nassau County's need for Preventive services for youth and families at imminent risk of out-of-home placement. Family Connections provides an array of services to help strengthen family functioning so youth can remain safely in their homes and communities. The target population for the Family Connections Program is children and families identified by the Nassau Department of Social Service who are involved with the Child Welfare System', families that are at immediate risk of having their children placed in foster care, and those with children in foster care for reunification. Services include intake and comprehensive assessments, crisis intervention, individual and family counseling, linkages to community resources, and instruction/assistance in interpersonal, parenting, problem solving and decision making skills. These services are provided by Family Specialists who work with a maximum of four families at a time. This level of intensity allows staff to meet with families multiple times each week, often during non-business hours to accommodate work and school schedules, to ensure that services address the strengths and needs of each family member and to be available to respond to families when they need assistance 24 hours a day, seven days a week.

The goals of the Family Connections Program are to avoid the need for children to be placed out of the home or to facilitate reunification of children and families as children return home from foster care. Outcomes for the program include rapid engagement of and service delivery to families, reduction in the number of children needing to be removed from their homes to enter out-of-home placement, and an improvement in parenting skills.

Berkshire Farm Center and Services for Youth (Berkshire) has been providing Family Connections to the children and families of Nassau County for two decades. In that time, Berkshire and Nassau County have developed a strong, effective partnership, tailoring the program to address the specific needs of the County and its children and families. As a result, the program has become a vital and prominent resource for youth and families in need of prevention services. Because of the success of Family Connections, hundreds of children have averted the need for out-of-home placement, and families have developed the skills to live and thrive as independent and productive members of their communities throughout the County.

## b. Proposed Service

## **Program Overview**

The Family Connections Program, a trauma-informed, intensive home, community and school based program, is based on the Homebuilders Model of service delivery, which was developed by the Behavioral Sciences Institute of Tacoma, Washington in 1974. This model formed the basis for family preservation programs in many states. Homebuilders' primary goal is to avoid the unnecessary placement of children outside of their homes; since its inception, it has been evaluated both formally and informally and has shown repeated positive outcomes for placement prevention and child and family functioning. The program is designed to diffuse the immediate crisis and teach family members the skills they need to live together safely. This is the foundation for Family Connections.

The Family Connections Program is built on the promotion and support of frequent and positive parent-child interactions. Based on Berkshire's years of experience providing this service, the agency has determined that the most effective strategy is to provide frequent, multiple face-to-face home visits weekly and unlimited collateral contacts for each family. The focus of these contacts is to foster the parent-child relationship in order to avoid out-of-home placement or to stabilize the family upon a child's return from foster care. Family Connections is centered on finding the strengths of each child and family member from which to build the foundation for enhanced growth and development of positive family interactions, thus avoiding out-of-home placements.

The primary consideration of the program is the safety of all family members. The major domains of life for youth include physical and mental health, family relationships, peer relationships, community relationships, education, occupational readiness and leisure/recreation. Any or all of these domains can create conflict and ultimately unsafe situations for the youth and/or families. Therefore, the *end state* for Family Connections is:

- Families will learn to prevent crises and to handle crises that do occur in a productive and safe manner, so that youth at imminent risk of placement can remain in their homes.
- Families and youth in crisis will be supported and be taught problems resolutions that encourage family unity.
- Parents/caregivers will learn skills to better parent and support their youth.
- Families will demonstrate the ability to advocate for their own basic needs and identify the array of community services available to them.

Family Connections is a short-term program. However, due to the nature and extent of problems being experienced by families served by the program, some families may need ongoing services to continue and reinforce the changes begun while in the Family Connections Program. Once the families are stabilized, program staff will link the family with appropriate community resources. It is expected that the trusting relationship established with the Family Specialists will enable families to build positive relationships with other service providers in the community, enabling them to use and benefit from community-based services while preventing the need for more costly out-of-home placement.

The Family Connections Program is founded on best practice principles:

- Individualized, strength based, client centered family focused program design: Family Connections is designed to empower youth and families in the program and in their lives, and families are considered 'partners' in all aspects of service delivery.
- *Cultural competence*: Berkshire is committed to ensuring cultural competence, and has developed programs to be culturally sensitive to the needs of youth, families and their communities.
- Focus on safety, permanency planning and well-being: All services provided by Family Specialists are designed to ensure safety and stable, permanent home environments for youth and families.
- Specific strategies to work with persons experiencing issues related to child welfare, juvenile justice, mental health and/or substance abuse: Throughout Berkshire's long and distinguished history of working with the population served by Family Connections to assist them with challenges that span a wide array of systems, programming has been developed and refined to address the complex and often multi-system needs of this population and their families.
- Strategies that are trauma informed: Berkshire has implemented the Sanctuary Model®, a trauma-informed, evidence-supported, whole culture approach designed to create or change an organizational culture. Sanctuary's objective is to improve the organization's ability to more effectively facilitate healing from psychological and social traumatic experiences and extended exposure to adversity. It promotes the development of structures, processes, and behaviors on the part of staff, clients and even the community at large. This model is being infused into all programming agency wide.
- Strategies that promote positive youth development: The Family Connections Program, either directly or through linkages to community based resources, provides opportunities for youth to enhance their interests, skills, and abilities to help them succeed at home, in school and in the community. These opportunities help pave the way for youth to make the transition to adulthood as productive and healthy members of their community.
- Linkages to natural community supports: One of the cornerstones of the Family Connections Program is to facilitate the linking of youth and families to supports in their community that they can access once their participation in the program ends. The goal of this is to promote independent, appropriate family functioning that will avert the need for out-of-home placement.
- Working knowledge of theory and practice in child welfare, juvenile justice, children's mental health, youth services, and compliance with all rules and regulations: Berkshire has a strong, experienced staff that has considerable expertise in the areas of child welfare, juvenile justice, mental health and youth services. Furthermore, Berkshire has developed strong relationships with local departments of social services, probation, mental health and youth services, and is a state leader in providing preventive programming. Because of Berkshire's statewide network of programming and extensive experience, Family Connections staff will have full access to this wealth of knowledge and expertise.

All Berkshire Farm programs operate in compliance with local, State and Federal rules and regulations.

Target Population: The target population for the Family Connections Program will be identified by the Nassau County Department of Social Services (NCDSS) as children and families being involved with the Child Welfare System, families that are at immediate risk of having their children placed in foster care, and those with children in foster care for reunification. The program is intended to provide intensive services to those families that are willing to commit to addressing the issues that are placing their children at imminent risk of out-of-home placement or issues that are preventing their children from returning to their care. Imminent risk is defined as "a child who will enter foster care within seven days unless there is an immediate intervention."

The Family Connections Program, as with all Berkshire Prevention programs, operates from its No Reject Policy. Every child and family will be given the opportunity to voluntarily receive services that will enable the youth to remain safely and successfully in their homes and communities.

### Scope of Services

The Family Connections Program is an intensive, short-term, crisis response program that emphasizes the development of resiliency and skills that help children and their families or caregivers live safely, independently and productively within their homes and communities. The program has the following services and characteristics in order to achieve the outcome of preventing children from entering the foster care system or helping them reunify with families safely and successfully in a timely fashion:

- Referrals: Referrals will be accepted from the Nassau County Department of Social Services during business hours, Monday through Friday. The referrals will be responded to within 24 business hours by the Family Specialist, who will rapidly engage the family and explain the program, conduct an assessment, and determine the family's interest in and/or appropriateness for participation in the program. Over the last 30 years in Nassau County, at least 90% of referrals received by Berkshire's current Family Connections Program have been responded to the same day as receiving the referral for intake and assessment in recognition of the importance of rapid engagement for this high-need, high-risk population.
- Crisis Intervention: Family Specialists will respond to families immediately during times of crisis, no matter the day or time, and the Program Coordinator will be available for assistance and support. Each Family Specialist uses the energy of the crisis to move the family through and mediate the crisis. Through this process, families learn to use skills that will help them avoid crises, or respond more appropriately, in the future.

After stabilizing the crisis, the Family Specialist uses various techniques to assist the family with problem resolution, developing new behavior management skills to ease family conflicts, and with negotiating positive changes. To reinforce skills, the Family Specialist participates with the family in activities, including household chores, family discussion, communication exercises, problem solving, and activities using community resources. The ultimate goal is to empower the family to live safely, avoid or minimize risk and/or crisis situations, and function effectively and independently.

- Case Load Size: Family Connections' Family Specialists will serve up to 4 youth and their families daily, with multiple home visits weekly as well as unlimited collateral contacts to coordinate services. While working with these youth and their families, the Family Specialists will also provide services to other youth within the family in an effort to avoid any or all youth from being removed from the home; therefore, the program serves the entire family and does not specifically target one youth. The Family Connections Program will provide services to a minimum of 96 families during the program year.
- Length of Service: The family will generally receive intensive services for 6 weeks with an option to extend up to 8 weeks. The short term, intensive nature of the Family Connections Program is significant, not only because it has proven to be highly effective, but also because it keeps the staff and family energized and motivated, helps families stay focused on immediate and specific goals to resolve the presenting crisis, and enables staff to teach whatever skills are needed to enable the family to live safely without intensive outside intervention.
- Hours of Service: Each Family Specialist works a flexible schedule to be available to respond to referrals and to accommodate all families' schedules and time constraints. This will include early mornings, evenings, weekends and holidays. The program operates under an immediate crisis response 24 hours a day, seven days a week, for program participants, which entails each Family Specialist being on-call for their individual caseload. The Program Coordinator is also available for assistance and supervision regardless of day or time. Each family will have cell phone numbers to contact either the Family Specialist or Coordinator in the event of a crisis situation.
- Aftercare Services: Families will be offered 30 days of aftercare at the County's request, *at no cost to the county*, consisting of one contact per week to ensure families are following, through with community linkages and to provide support and assistance as needed.
- Rapid Family Engagement: The Family Connections Program utilizes a combination of models of treatment to rapidly engage the youth and families. Each Family Specialist will work intensively with youth and families by embracing Berkshire's "do whatever it takes" philosophy. Historically, this means utilizing basic counseling skills that are internalized within each Family Specialist. The strategies involved in rapid engagement involve a worker that displays empathy, understanding and foremost a non-judgmental attitude. This demeanor is a necessary condition for the family to respond to services and treatment.

Functionally, this translates into unlimited phone contacts, face-to-face contacts, immediate crisis response, transportation, and any/all needed interventions with youth and families as well as aftercare services. Specifically, Family Connections staff will go out to the home the same day of receiving the referral. While meeting with the youth and family, the Family Specialist will explain the scope of the program and have all necessary program releases signed. Prior to ending the first visit, the next return visit will be scheduled and all

emergency numbers will be given to the family (i.e. Family Specialist and Program Coordinator contact information).

- Family Assessment: Once the family has completed the Service Agreement, Initial Intake and Safety Assessment, the Family Specialist will begin the full assessment process. This process is strength based and family focused, and serves as the basis for the development and implementation of treatment plans for each family. The assessment process will be completed within the first seven (7) to 30 days of services, and includes:
  - Berkshire Home Safety Assessment: is a comprehensive assessment completed at the initial visit which identifies safety/risk factors and develops a plan to address them immediately. This is completed by the Family Specialist with youth and families within 24 hours of intake, at 30 days and again at discharge.
  - Basic Needs Assessment: is completed by Family Specialist with parent(s) within 48 hours of intake and again at discharge to document how the family is meeting the youth's basic needs, and helps guide planning to meet unmet needs. Areas covered include safety and risk factors, food, housing, clothing, medical/dental, educational and day care if needed.
  - *Berkshire Assessment*: to be completed within the first seven days of service to assess and identify areas of need to determine subsequent short and long term intervention strategies. Areas covered include: prior trauma, legal/law enforcement, medical, mental health/psychiatric, family, school, behavioral issues including aggression and/or domestic violence, and substance abuse.
  - *Parenting Assessment*: is completed by Family Specialist with parent(s) within 48 hours of intake and again at discharge to assess parenting communication and skills, to develop a plan to address needs or challenges identified in the assessment, to assess progress made during program participation, and to identify areas where further support and/or instruction will benefit family functioning.
  - *Psychosocial Assessment of the Youth and Family*: completed by the Family Specialist within 30 days of intake. This assessment collects information regarding the family's perception of the problem(s), family strengths and needs, and a diagnostic assessment of the youth and family's level of functioning.
  - Ansell Casey Life Skills Assessment: conducted with youth ages 14-21 to identify strengths and needs in preparing them to make the transition to the community and adulthood. Topics covered in the assessment include career planning, communication, work and study skills, daily living, housing & money management, home life, self-care, and social relationships. All of the needs revealed through the assessment will be incorporated into the treatment plan for direct and/or referred services.
  - Please see attached assessments
  - Treatment Planning Process: The comprehensive assessment and treatment provided by the program is multi-systemic and strength-based, focused on targeting the skills and behaviors necessary for youth to develop positive decision making skills and social

connections and for parents to learn skills to improve family functioning and maintain safe households. An Initial Safety Treatment Plan is developed through a collaborative effort with the youth, family, Family Specialist, community service providers, school personnel, and the Department. The plan enumerates youth and family issues, establishes goals and outcomes to achieve them, itemizes tasks or activities to be completed by each team member, and identifies strengths and resources of the youth and family to be utilized to achieve success.

On at least a weekly basis, the Family Specialist evaluates the progress made and continuing needs with the family. Barriers to achieving outcomes and relevancy of goals are also evaluated. This immediate, ongoing and intensive response to their needs is very effective in engaging the participation of the families. From this base of trust built, the program is then able to move on to the broader set of challenges facing the families.

Thirty days after opening, the Initial Conference Safety Meeting with NCDSS and Berkshire Staff takes place. The Initial Conference Safety Summary is reviewed and the case is discussed for progress, barriers, current functioning and needs, and length of service. Depending on the determination of length of service, at six or eight weeks, the Final Conference Safety Meeting is conducted with NCDSS, Berkshire Staff and transferring agency if additional General Preventive Services are warranted. The Final Conference Safety Summary is reviewed and discussed for progress, barriers and recommended additional services. *Please see attached Initial Treatment Safety Plan, Weekly and Final Goal Review Sheet, and Initial and Final Conference Safety Summary,* 

• Therapeutic/Clinical Services: The Family Specialist will do "whatever it takes" to address home, community and school related issues that are impacting functionality. This translates into strategies that are individualized and flexible based on the needs of each family; these are solution focused and address interpersonal (individual) and/or systemic (family, peers, school, community) factors. Interventions can occur in a number of different domains depending on the needs of the family (family, peer, school, community) and draw from a number of treatment strategies that include but are not limited to cognitive behavioral, crisis intervention, parent training and family skills building (e.g., advocacy, developing and maintaining community support), group counseling and support groups. Through the treatment process, barriers (such as poor parenting skills, mental health issues, fear of the school environment, peer pressure) that are causing issues for the family are identified, addressed, and resolved, directly or through community linkages, prior to discharge from the program. In the event additional, appropriate clinical services are deemed necessary, Berkshire staff will work closely with NCDSS to refer.

The Family Specialist will provide services that are individualized, family and community centered, flexible, culturally competent, cost-effective, and provided within established time frames. The Family Specialist will work closely with NCDSS to assure that services are being delivered and performance targets are being met.

• Family Team Meetings: Family Team Meetings are a family-led decision-making process that brings together individuals concerned with the safety, permanency and well-being of the children to make the best possible plans and decisions. These meeting will take place determined on the family's individual needs.

• **Counseling:** Since the goal of the program is to help youth and families live successfully and safely in their homes and communities, a major element of the program will be the provision of individual and family counseling. Counseling will focus on helping youth and families address the issues that led to crisis at home, school and/or the community, and more importantly, on helping participants develop the skills, knowledge and resources necessary to achieve outcomes and live safely and independently in the community.

t t

- Case Documentation: Each Family Specialist will provide all the necessary case documentation, utilizing the New York State's Connections System as well as all required NCDSS documentation and Berkshire's clinical case management paperwork. All Berkshire services are currently standardized upon a comprehensive case management policy. This comprehensive case management policy has been updated to reflect the changes required with Connections and adheres to all Administrative Directives published by the New York State Office of Children and Family Services, as well as best practice standards set by The Council of Accreditation (COA). Berkshire's Information Technology Department ensures that all programs and program staff are able to fully utilize all electronic data systems. Progress notes will be entered within five business days of event and within two days of opening in Connections.
- Interpreter Services: Because family participation is so critical to goal development and treatment planning, ensuring their ability to communicate effectively during all meetings and contacts is essential. Each Family Specialist will provide assistance to parents and families in communicating with all service providers regarding issues or concerns that would affect the family's stability within the community. This will include providing interpreter services that will encompass vision or hearing impairments, as well as linguistic challenges, that interfere with communication. Since at least two program staff will be Spanish-speaking, most linguistic needs will be addressed internally, and Family Specialists will work with families to access interpreters for other language needs. Berkshire's Long Island programs, including the VISION Program, utilize the services of Sally J. Maldonado, American Sign Language Interpreter, PO Box 146, Huntington Station, NY 11746, 631-312-7245.
- Stand-By Guardian: Each Family Specialist will work with a family to identify an agreeable stand-by guardian for each youth in the family in case of a family crisis or emergency or in the event a family needs a "break" from one another to effectively work on treatment plans.
- Respite Services: The Family Connections Program will work closely with NCDSS to evaluate the need for respite on an as needed basis. In addition to situations where a family needs a "break" from one another, respite may also be used when parents do not have child care, or in cases where children are at imminent risk of placement in order to ensure their safety while that issue is addressed and resolved. Berkshire has certified foster homes that can be utilized for respite services and Family Connections staff will help coordinate those services. The Respite Rate is not included in the budget.

- Referral Services/Community Linkages: The Family Specialists will ensure that all family members are linked to needed services and resources based on needs identified through the intake and assessment process, or during ongoing participation in the program. The Family Specialist will facilitate linkages to the appropriate community based service provider and provide/arrange for transportation as needed. Berkshire has established working relationships with and will reach out to the following:

    - Freeport Pride
    - Hispanic Counseling Services

    - Long Island Fair Housing
- Identification of Community Based Resources: In addition to identified needed support services, Family Specialists will help youth and families identify recreational and leisure activities, facilities and groups to access during and after program services end. This is of particular importance in order to connect youth with positive activities during non-school and work hours, so unsupervised time is minimized. Family activities will also be explored and encouraged. Possible resources will include:
  - Big Brothers Big Sisters of Long Island

- Cornell Cooperative Extension of Nassau County
- Boy Scouts/Girl Scouts
- Art League of Long Island
- Local libraries in each Community
- Local Museums throughout the County
- Performing Arts Groups throughout the County music, dance and theater
- Nassau County Parks
- Transportation: With Berkshire Prevention Programs, all transportation needs will be immediately addressed through the Family Specialist until formal services are put in place. This will include ensuring that youth get to school on time and that youth and families are present for all appointments, activities and Family Court appearances.
- Safety: A primary consideration for Berkshire staff is the safety of all family members. The major domains of life for youth include physical and mental health, family relationships, peer relationships, community relationships, education, occupational readiness and leisure/recreation. Any or all of these domains can create conflict and ultimately unsafe situations for the youth and/or families. Therefore, the Family Connections Program will help families learn to handle life stressors in certain domain areas in a productive and safe manner so that youth receive the instruction and support they need.
- **Parenting Skills:** Family Specialists will provide support and education to parents to help them learn the skills necessary to keep their children safe in the home. This will happen during individual and family sessions, using age-appropriate skill-building, role playing and direct instruction.
- Parent Aide Services: Depending on results of assessments, the Family Specialist will work with parents, assisting them with needed concrete instruction/support. Areas that parents may need assistance with may include: setting rules, rewards and consequences, appropriate discipline, infant care, potty training, transportation for shopping or laundry, developing morning and evening routines with children, and household organization.
- Social and Interpersonal Skills Building: During individual sessions with the youth and family, each Family Specialist utilizes Albert Bandura's Social Learning Theory, which stresses the importance of observational learning. Using this theoretical framework, interpersonal and daily living skills are demonstrated consistently by the Family Specialist through role modeling and interacting whenever in contact with the family.
- Independent Skill Building: For youth ages 14 and older, independent living skills programming will be available. Starting with the Ansell Casey Life Skills Assessment to determine areas of strengths and needs, individual and group instruction will be held to teach and rehearse skills as youth prepare for their futures at home and in the community. Needs identified in the Ansell Casey will also serve as a guide for linkages to community resources in areas such as vocational training and career planning.

- Basic Skills Development: Basic skills development will be taught and nurtured through advocacy, support, instruction, and other activities. Through these techniques, the Family Specialist will assist the parent(s) in developing crucial life skills such as age-appropriate parenting, meal planning and preparation, developing and adhering to budgets, learning to appropriately advocate for services (academic, medical, mental health, etc.) and navigating the social services system. Other skills include helping parents apply for and maintain long term benefits such as food stamps, SSI, subsidized child care, medical insurance assistance and subsidized housing, and identifying and visiting food pantries and thrift stores. As appropriate, families will be connected with community resources to ensure they are able to always meet basic needs. Food pantries, churches and thrift stores in each community will be utilized.
- Problem Solving/Decision Making Activities: During visits with families, Family Specialists will devote time to helping family members develop effective problem solving and decision-making skills in order to more effectively manage crises and problem situations in the future. This is an important aspect of services and will be a focal point of all home visits with both the youth and family members.
- Educational Support and Advocacy: When academic issues are identified in assessments or during discussions with school administrators and staff, appropriate goals and strategies to achieve them will become part of the treatment plan. Berkshire has a long history of reducing truancy and the risk of school failure, and the strategies developed through this experience will be used in Family Connections. The Family Specialist will also provide parents with assistance and support to advocate for their youth's needs, and provide youth with skills and services to succeed in school. Family Specialists will also help families identify appropriate after school programs that enhance performance and behavior and provide constructive use of leisure time.
- Tutoring: Tutoring services will be offered to each family member on an as needed basis. Possible resources will include local colleges such as the Hofstra and the State University of New York at Farmingdale. Any academic needs will be immediately addressed through the Family Specialist until formal services are put in place.
- Developmentally and Age-Appropriate Programming: Youth and families in the Family Connections Program will be offered programming that is appropriate for their ages and developmental levels.
- Flexible Emergency Fund: The Flexible Emergency Fund is money needed/used to help families with items and situations that are beyond the "normal" scope of program services. Examples of uses for this fund may include purchasing provisions needed to ensure the family's basic needs are met, appropriate school clothes for a child who lacks this or paying for an American Sign Language interpreter for a parent who is hearing impaired.

The Assistant Director is supervised by and works closely with the Director of Prevention; they serve as liaisons to Berkshire's Executive Council and Leadership Team.

#### Staffing Requirements

The Families Together Program will have a Program Coordinator, six (6) Family Specialists and one (1) Program Secretary. Berkshire intends to employ staff with the following characteristics:

- Experienced in a variety of concepts and practices regarding individual and family treatment, domestic violence issues, mental health and substance abuse assessment and treatment.
- Comfortable with and able to reach out to and develop relationships with community based service providers.

#### Berkshire's Supervisory Philosophy

Berkshire ensures that all staff, regardless of department, program or position, receives regular supervision. For direct care staff such as Family Specialists, supervision occurs on a weekly/bi-

weekly basis for at least one hour. The philosophy behind the supervisory process is "Supervision For Success." This model is punctuated by the premise that all employees want to succeed in their job, and it is the supervisor's responsibility to provide them with the tools, knowledge and resources so they can succeed. Starting with recognizing strengths and accomplishments, the model empowers employees to take responsibility for their actions and strive to enhance performance.

For Family Connections, the Program Coordinator will provide clinical and administrative supervision to the Family Specialists, as well as administrative supervision to the Program Secretary. The Program Coordinator will receive clinical and administrative supervision from the Assistant Director of Prevention.

#### Recruitment

- With the existing Family Connections Program in place there will be no delay in startup for the 2013 year. Any additional recruitment of program staff will be initiated by Berkshire and will include the placing of advertisements in local newspapers and penny savers, information on Berkshire's website, distribution of flyers, placing of newspaper articles about the program, speaking to local business and civic groups, and meeting with community groups and members.
- Candidates will be interviewed by Berkshire's staff as well as representatives from the Nassau County Department of Social Services. The process will include an initial interview, followed by a second interview for final candidates.
- Candidates will be cleared by the New York State Child Abuse Registry, and undergo criminal background checks. References and past employment will be checked as part of the recruitment and hiring process.

#### Training

Berkshire is committed to providing staff with trainings that optimize their performance and understanding of program services. Berkshire's philosophy is that its training and staff development programs meet and exceed all regulatory and accreditation requirements for training. Trainings are designed to provide staff with a broad understanding of the needs of youth and families with the goal of empowering them to reach their highest potential. Trainings emphasize the concept of partnership in working with children, families, communities and collateral agencies. In addition, staff is educated in policies, procedures and guidelines to assure they are prepared to exercise the responsibilities of their positions. Topics for training include but are not limited to:

- History of Berkshire, and its mission and values
- Agency Policies including: Discrimination/Harassment, HIPAA/Confidentiality and Media Relations
- Incident reporting and Casework documentation
- Professionalism and boundaries
- Safety and emergency procedures
- Therapeutic Crisis Intervention 3 day training focused on therapeutic de-escalation techniques

- Court Proceedings
- Culturally Competent Care
- Worker safety in the field
- Team building
- Trauma Informed care/Sanctuary Model training
- Clinical training
  - Child, adolescent and adult development
  - Adventure Based Counseling Model
  - Learning Theory
  - Maslow's hierarchy of needs
  - Common mental health diagnoses and issues
  - Suicide prevention
  - Intake process and treatment planning
  - Solution Focused Therapy
  - Structural Family Therapy
  - Trauma Focused Cognitive Behavioral Treatment
  - Functional Behavioral Assessment

The initial training will take approximately one week and include the following: youth development and human behavior, HIV/Universal Precautions, how to work with a child who has ADHD, crisis intervention, the community, and how to be an effective team member. Program staff will also receive formal training at least quarterly on topics such as how to handle a crisis, work effectively with oppositional behaviors, handle loss, and other trainings identified by staff. Attendance at regional and statewide training sessions will be encouraged and team members will be included in all pertinent workshops/training sessions sponsored by Berkshire.

Training also occurs in a less formal, but extremely valuable manner in the form of peer mentoring. Family Connections Program staff, as part of Berkshire's Prevention Program Department, is part of the team of staff currently providing Prevention Services to children and families. Prevention staff is available to one another to offer assistance and answer questions regarding working with this population and working in collaboration with the County and its communities. In addition, the statewide Director of Prevention, Assistant Directors, other Program Coordinators and experienced community based staff members will be available to offer expertise and assistance.

As indicated earlier in this proposal, Berkshire pays close attention to ensuring that staff is reflective of and/or knowledgeable about the languages and cultures within the communities to be served. This starts with hiring staff from the community whenever possible and then providing them with thorough training on the characteristics of the target population and community. This is stressed at all times during program operations and includes ongoing training when appropriate.

All Family Specialists providing preventive services will successfully complete the appropriate OCFS CORE Training Program. All staff training services will be an in-kind contribution.

#### Effectiveness of Program

The success of Berkshire's preventive services over the past 30+ years has been based on five key beliefs/values:

- 1. Placement is not an option. We will continue to work day and night with the youth and families no matter the resistance or issues at hand. The only cause for removal is for safety reasons due to the level of risk for harm to self and/or others.
- 2. Prevention services must occur in the home. Only within the home environment will the Family Specialist truly learn the family dynamics and real issues. It is also the only way to successfully engage the family members.
- 3. Prevention Family Specialists must have a passion for the job. It is not only about their past professional experiences and education (degrees), it is much more about a commitment to do whatever it takes to truly make a difference.
- 4. Prevention Family Specialists must be able to "roll up their sleeves" and directly provide the needed services/treatment. This is not a case manager position. Although the Family Specialist will help locate needed community resources (i.e. substance abuse, mental health, medical, housing, etc.), their focus is direct care to the youth and families.
- 5. Although usually there is an identified youth needing services, Berkshire's Family Specialists will always work with the entire family. Resolutions to issues usually include the involvement of various family members not just the identified youth or a parent.

Berkshire has been providing Prevention services for over three decades in counties around New York State including Suffolk, Nassau, Bronx, Schenectady, Albany, Schoharie, Orange, Saratoga, Columbia, Montgomery, Niagara and many more. In that time, the agency has developed and refined programming to become a leader in community-based prevention service provision. As a result of the quality of programs, 19 counties currently have contracts with Berkshire for Prevention services. Below are recent statistics that demonstrate the extent of that success:

- 100% of children and families had access to their Family Specialists or Program Coordinator twenty-four hours a day, seven days a week.
- 98% of children remained safely in their homes, avoiding placement.
- 97% of parents increased their involvement in school and community-based activities and services.
- 90% of children improved their attendance and/or reduced their tardiness in school.
- 97 % of children avoided the filing of a PINS petition during the program year.
- 95% of children remained successful in their home and communities.

For the Family Connections Programs in Nassau County, the following outcomes were achieved in 2011:

• Family Specialists provided individual and family counseling in the school and home setting for ninety seven (97) or one hundred percent (100%) of the families and their children in the program.

- Two hundred thirty-three (233) or ninety-six percent (96%) of children served in 2011 averted out-of home placement while in the program.
- Child care services were secured for twenty-one (21) or one-hundred percent (100%) of families requiring assistance in order to maintain attendance in day treatment programs, educational services and employment searches.
- Family Specialists linked seventy-two (72) or one-hundred percent (100%) of families requiring services, with mental health providers and counselors in their communities.
- Family Specialists assisted/arranged one hundred (100) or one hundred percent (100%) Early Intervention Screenings for all children under age of five.

In addition to the outcomes listed above, Family Connections resulted in significant cost savings for Nassau County. Based on the 242 youth involved in the program, the cost of the nine (9) youth placed in Foster Care plus the cost of operating the Family Connections Program, the cost savings to Nassau County, based on a 12-month placement, is calculated as follows:

| Placement                                                         | # of Children                                           | # of Children Per Diem Rate Yearly Rate |                        |  |

Estimated savings are conservatively calculated by utilizing the least restrictive environment in determining the level of care that would have been needed by the 233 children who averted placement in 2011.

The strategies used to achieve these outcomes and performance targets include the following:

- The strategies used to achieve the outcomes of 24 hour intake and assessment, rapid engagement, 72 hour face-to-face contact and rapid service delivery of youth and families include: unlimited phone contact, home visits, and immediate crisis response by Family Specialists who exhibit empathy, understanding and a non-judgmental attitude. In addition, Family Specialists have flexible schedules to accommodate families' availability, and provide transportation whenever needed to facilitate family participation.
- The strategies used to achieve the outcomes of reducing the number of youth removed from their homes into Nassau County custody during program participation and assisting families to remain intact include: intensive home based interventions, crisis response and linkages of

youth with community resources for services surrounding such areas as financial, mental health, substance abuse and domestic violence concerns. Further strategies include: individual and family counseling, skills building and positive decision making activities.

• The strategies used to achieve the outcome of *increasing parenting skills* include: immediate crisis response, individual and family counseling, parenting instruction and assistance, problem solving and decision making activities.

These outcomes will be tracked by the Program Coordinator through staff supervision, case reviews, quarterly file audits, behavioral referrals, treatment reviews, Berkshire's internal Quality Assurance Protocols, and the Department's Weekly Prevention Reports. All program outcomes will be reviewed with the Department throughout the life of the case.

#### Program Monitoring and Evaluation

Evaluation will be an integral part of the program, and is designed to determine the success of the program and monitor ongoing program operations. To this end, Berkshire gathers and provides information related to program effectiveness, client long-term outcomes, client and family satisfaction, and coordinates the agency-wide program for quality improvement.

- Supervision: The Program Coordinator will review cases during supervision and prepare weekly reports for the Department. Supervision will occur weekly beginning the first week of program implementation. In addition, bi-weekly team meetings will be held with the entire program staff. All program forms and documentation will be reviewed and approved in order to monitor individual youth and family's progress, and ensure that all staff is providing high quality service.
- Submitted Department Reports: Weekly department reports will be submitted to NCDSS, including Conference invitations, weekly current cases, Connections reports, Initial and Final Conference Safety Summaries and all other reports as directed by NCDSS. Additionally, quarterly and annual reports will be submitted to the NCDSS.
- Case Records: case record audits will be conducted on all case files to ensure program compliance with all federal, State and local rules and regulations during and at close of a case.
- **Program Outcomes:** Information is collected from youth and families in all Berkshire's programs. This information includes how youth are progressing in relationship to specific issues such as parenting skills and family functioning.
- Quality Improvement: Berkshire's Performance and Quality Improvement Program (PQI) includes the agency's stakeholders in PQI processes and directly supports all programs in their full realization of program goals and the goals of the Agency. Specific QA activities are:
  - Case Documentation Reviews: are overseen by key agency leaders responsible for program supervision and oversight. Case documentation review criteria, procedures, and schedules are established by program area Directors and their Program Coordinators, ensuring that accrediting standards are fully met, reviews are performed quarterly, and that at least the required cumulative numbers of open and closed cases are reviewed in any fiscal year.

Results of case documentation reviews are discussed at department forums, staff meetings and individual supervision. Based on these reviews, supervisors and their teams establish lists of strengths, issues of concerns, and patterns that are used to formulate improvement plans. Staff leaders responsible for these reviews for this program are the Director and Assistant Director for Prevention.

- Utilization Review: Berkshire's utilization review (UR) process measures the safety, permanency and well-being goals achieved for each client, based on case documentation. The agency UR Committee, comprised of leaders of all program areas, meets regularly to ensure the review process is in place, and assesses the results of reviews. Results of the utilization reviews are summarized by the PQI Specialist and communicated to program area leaders; these results are also shared with the UR Committee that allows them to identify strengths, issues of concern, individual patterns, and overarching trends. The Committee requests corrective action steps in response to review findings in order to improve programs.
- *Program Outcomes*: PQI coordinates data collection on program outcomes. Each program conducts monthly data collection that reflects family progress in specified target areas, such as suspension from school or increased family involvement; or achievement of standards, such as minimum case contacts and after hours assistance. PQI coordinates quarterly reviews of outcomes to ensure quality and identify any deficiencies in service delivery. These deficiencies and steps taken to rectify them are explored during case reviews between program coordinators and staff members.
- Satisfaction Surveys: On an annual basis, youth and families, agency personnel, volunteers, and referring agencies are asked for their input and levels of satisfaction regarding various elements of the agency's services. Results of the survey help the agency as a whole, and each program, identify successes and weaknesses in service delivery and make adjustments to enhance services.
- The PQI Department oversees health and safety issues, the incident and child abuse review and reporting process, and the services utilization review. Health and safety monitors physical environment, recreation, health, and nutritional issues for each youth. The incident and child abuse review and reporting system monitors the types, indicators and frequency of any critical incidents occurring within the Agency, as well as follow-up to incidents and any allegations of child abuse. Services utilization review monitors appropriateness of admissions and the timeliness and appropriateness of aspects of the treatment process such as assessments, the quality of treatment, record maintenance and discharge planning.

#### Family Involvement:

Berkshire is committed to including families in every aspect of service. Regardless of program or identified client, youth, parents/caregivers and other family members are involved in family team meetings, assessments, treatment plan development and implementation, and program evaluation. This is because ultimately, it is the family's needs and strengths that determine service delivery and achievement of outcomes. Together with program staff, families' natural supports, and relevant service providers, families will identify and secure the community supports and services they need to live safely and successfully in their homes and communities.

#### Evidence-Based Programs and Practice Utilized by Berkshire Farm Center and Services for Youth

Berkshire has begun implementing the Sanctuary Model® which is a trauma-informed, evidencesupported, whole culture approach designed to create or change an organizational culture. Its objective is to improve the organization's ability to more effectively facilitate healing from psychological and social traumatic experiences and extended exposure to adversity. Sanctuary promotes the development of structures, processes, and behaviors on the part of staff, clients and even the community at large.

By framing program youth's circumstances in a context of "What has happened to you?" rather than "What is wrong?," it becomes easier for not only staff, but the youth themselves to start thinking of terms of healing and growth rather than correction and morality issues as they attempt to set goals and move forward with their lives.

Sanctuary is becoming the guiding principle of inter- and intra-agency relationships as well. There has been a concerted effort in the last two years to train staff in Sanctuary methods and terminology and to have Sanctuary principles and guidelines become how Berkshire staff relates to others within Berkshire as well as to the community beyond. The Seven Commitments of Sanctuary - Nonviolence, Growth & Change, Democracy, Social Responsibility, Open Communication, Social Learning, and Emotional Intelligence - have become the touchstones of both treatment strategies that the agency uses with youth and families in all its programming, and also how the agency itself operates internally.

Berkshire also has implemented the following:

<u>Functional Family Therapy</u>: Functional Family Therapy (FFT) is an evidence-based, highly effective family intervention program for at risk youth and their families. FFT's intent is to prevent the need for placement or re-placement in foster care, to serve as an alternative to detention, and to expedite the reunification of youth transitioning from care. Anticipated outcomes are improvement in school attendance and performance, improved family functioning, and prevention of involvement or further involvement in the juvenile justice/child welfare systems.

Berkshire has a history of providing this model and recently reinstituted the provision of FFT to the youth and families of Schenectady County. While only specific to that one FFT program, the philosophy of the FFT model is compatible with Berkshire's programming philosophy and it resounds throughout Berkshire Prevention programs: FFT stresses the significance of engagement in the therapeutic process; has a supportive supervision model that promotes a strength-based approach to working with staff and clients; and recognizes the importance of working with community based resources to assist youth and families be successful. These premises are central to all Berkshire programming. Ansell-Casey Life Skills Assessment: The Ansell-Casey Life Skills Assessment, for youth 14 and older, includes a collection of comprehensive online assessments, learning plans, and learning resources that can be of use engaging young people so that they can master independent life skills and build healthy relationships, which are of assistance as they approach adulthood. The tools are strength-based, and built and refined with user input and research. The assessments consist of statements about life skills domains deemed critical by youth and caregivers for successful adult living. Each youth is asked to complete the assessment upon intake and discharge to assess their basic skill level in a variety of daily living modules such as money management, peer relations, and knowledge of and use of community resources.

. . . . .

As mentioned on page 1 the model of practice used in Berkshire's family preservation and other community based programs including Family Connections is an integration of ecological models (MST, Henggeler & Borduin-1990, and Homebuilders; Kinney, Haapala, & Booth, 1991) that are based on Systems and Social Learning theories. These theoretical frameworks are incorporated into all programming agency-wide. In addition, Berkshire's Prevention programs are founded on principles of best practices as discussed on pages 2 and 3. Ultimately, Berkshire believes that each family is unique, with different needs and strengths. Thus, the programs are flexible enough to address the individual youth and their families in the context of, the school, the community, and any other systems in which the youth is imbedded.

#### Location and Description of Office

Berkshire's Long Island Office, located on the border of Nassau and Suffolk Counties, is "home" to Family Connections staff, but most services are provided in families' homes and local communities. In the event families need to go to the office, its location is easily accessible to the targeted community. It is centrally located off of the Long Island Expressway (I-495) and Route 110 and the Southern State Parkway. The local bus is accessible as well as the Long Island Railroad. This location is ideal as not only is it easily accessible by families throughout the county, but equally important, staff will be able to respond to youth and families without delay.

#### Understanding of, and Experience in Provision of Services

Berkshire Farm Center and Services for Youth is a statewide nonprofit child welfare agency with a distinguished history of working with children and families for more than 125 years. Founded in 1886, Berkshire is the largest, and one of the oldest, child welfare agencies in New York State. Berkshire's mission is: *"to strengthen children and families so they can live safely, independently, and productively within their home communities."* 

Berkshire's values:

- We treat each child and family with dignity.
- We respect and honor the courage and inherent strengths of the children, families, and communities we serve.
- We view children in the context of their families and communities.
- We embrace families as partners.
- We appreciate and affirm all aspects of diversity, whether the diversity is religious, cultural, ethnic, or gender.
- We ensure children are cared for in safe, therapeutic, and caring environments.

- We ensure all services are individualized, empowering, and effectively provided; we focus on permanency and stability.
- We value and support a confident, well trained, and competent staff.

Throughout its rich history, Berkshire has been a pioneer in responding to local needs across New York State – helping create stronger families, neighborhoods and communities. Currently, the agency provides a system of care that includes community, school, and home-based prevention programs, prevention/reunification programs, therapeutic and treatment foster care, respite services, adoption services, programs for runaway and homeless youth, secure and nonsecure detention, group homes, and the residential treatment center.

Berkshire has been providing services to youth and families since 1886 at its Residential Treatment Center and for more than 40 years throughout New York State. Through its system of care, Berkshire works with youth and families who are involved with many systems including Child Welfare, Juvenile Justice and Mental Health. Over time, Berkshire has developed not only strong and effective programming, but also a keen understanding of the myriad of issues, behaviors and environmental factors that are faced by the families served.

Because of this wealth of experience, Berkshire has become extremely familiar with the characteristics of this population. While each youth and family is unique, this population has many commonalities. Compounding problematic behaviors are a host of other challenges – mental health, substance abuse, behavioral, educational and family – that have added to their struggles. These youth predominantly come from impoverished neighborhoods with limited resources; they live in single parent, female-run households, often with generational histories of abuse and/or mental illness and substance abuse; many have experienced school failure; and most do not receive the structure, supervision and support they need. Because of their multiple issues, they require intensive, home and community based services to remain safely in the home. Berkshire's Prevention programs have been enhanced over the years to respond to the multi-faceted needs, challenges, and characteristics of youth, families and the communities in which they live.

Berkshire, through its array of Prevention programs across New York State, has been extremely successful in keeping youth safely in their homes, improving family functioning and averting the need for out-of-home placement, as demonstrated in these outcomes over the last five years:

- 96% of the youth served averted out-of-home placement.
- 98% of youth demonstrated a reduction in problem behaviors at home and in the community.
- 98% of children with truancy issues increased their attendance levels
- 98% of parents increased their involvement in community and school services and activities.
- 100% of youth and families increased their awareness of and access to community supports.

#### Capability to Provide Services

Berkshire has over 125 years of experience working directly with the target population through community based and congregate care programming. From small programs serving dozens to large, comprehensive programs that serve hundreds at a time, the agency has the capacity to: effectively hire and maintain staff that is reflective of and responsive to the cultural and linguistic characteristics of the populations in each program; provide high quality services that

ند و به بو به بو تر از از از

are tailored to meet the needs of each community and its population; and maintain fiscal responsibility and accountability. This includes operating programs through contracts with State and county agencies and those funded through the Request for Proposal process with local, State and federal funding sources. Funders in this latter category include the New York State Office of Children and Family Services and New York State Education Department at the State level and the Administration for Children and Families and the Department of Labor at the federal level. With all programming, Berkshire is committed to full compliance with all relevant laws, rules and regulations as well as all contractual requirements. All employees maintain appropriate qualifications and licenses for their job responsibilities and the agency leadership team possesses a wealth of knowledge and expertise in issues and challenges related directly to the families served.

Berkshire has over a century of experience working with the Family Connections target population, and through the decades, programming has been tailored and refined to meet the needs of youth and families in their home communities. As a result, staff will have an array of experts and experience from which to draw. This begins with the Chief Executive Officer, Chief Program Officer, Director of Prevention and her leadership team, all who fully support this program. Even more importantly, program staff will be able to draw on Berkshire's current Prevention team, including those working in Nassau County, who can provide tremendous insight into the target population's strengths and challenges, and the communities in which they live. Finally, the Family Connections Program will have assistance of agency departments that work on behalf of all programs to maximize value to youth and families, ensure cost effectiveness for funders and that all programs meet and exceed all standards, laws and regulations. These departments include IT, Human Resources, Finance, PQI, and Development.

# Capacity to Establish a Successful Partnership with Nassau County

Berkshire has worked in partnership with Nassau County for over 20 years, providing high quality community-based services to the youth and families of the county. In that time Berkshire and the Nassau County Departments of Social Services and Probation have worked together to ensure that services are refined and tailored to address and meet the specific needs of the children, families and communities of the County. Specific partners and collaborations include:

- Nassau County Department of Social Services will provide a liaison to coordinate referrals and support the program. The Family Connections Program staff will work in close collaboration with each youth and family's Department Case Manager.
- Local Law Enforcement: Family Specialists will work on a collaborative basis with local law enforcement agencies, to enlist their support in providing services to youth and families. The goal will be to reduce the need for law enforcement intervention.
- *Local School Districts:* Family Specialists will work with school districts of youth in the program who are struggling with attendance, performance and/or school behavior challenges. The goal will be to support youth's academic performance and progress.

In order to provide youth and families with comprehensive services and support, there are an array of other community-based organizations and agencies that Family Connections will reach

out to when appropriate. These are listed earlier on pages 8 and 9. In addition, Family Specialists and the Program Coordinator will reach out to the community to familiarize community members about the program and continually identify resources to expand the network of resources available to youth and families in their local communities.

#### c. Implementation Schedule

With the existing Family Connections Program in place there will be no delay in startup for the 2013 year. Therefore, program services for the Family Connections Program will begin on January 1, 2013.

#### d. Reports

At the conclusion of each program year, Berkshire provides the County with an annual report for the program. This report provides an overview of the program for the year and highlights the following:

- Description of referrals
- Presenting problems of youth and families referred to the program
- Average length of stay
- Outcomes for the years
- Success story
- Estimated cost savings
- Program statistics: number of children served, ages, ethnicity, family structure, and outcomes
- Please see attached annual report for Nassau County Family Connections for 2011.

#### e. Staffing

The agency leaders who will oversee the Family Connections Program are:

Stacy Williams, Director of Prevention, has been with Berkshire for eight years. Starting in foster care, Stacy switched her focus to Prevention. She began as a Family Specialist, and then took on more and more responsibilities, first as Program Coordinator, then as District Supervisor and currently as Director of Prevention and Non-Secure Detention Services. In her tenure at the agency, Stacy has refined her clinical skills, her supervisory skills in leading prevention programs, and her relationship-building skills in working with County departments and community based agencies, schools and community members. She is adept at motivating staff to provide the highest level of services and to appreciate the importance of establishing a presence in the community. Stacy provides leadership, support and direction to Program Coordinators and staff across New York State.

Jennifer Dane, LMSW, Assistant Director of Prevention, has been with Berkshire for the past nine years. She started as a Multisystemic Therapy (MST) Therapist in 2003, and was promoted to Prevention Program Coordinator in Schoharie County in 2005. In that role, Jennifer managed five prevention programs, worked closely with the County and community based agencies, and greatly expanded programming. In 2010, in recognition of her commitment and hard work, Jennifer was promoted to Assistant Director of Prevention, enabling her to share her skills and experience with Prevention programs across the state. Jennifer has excelled in this position, as evidenced by the great work she has accomplished overseeing Berkshire programming in New York City and Long Island, including Berkshire's current programming in Nassau County. Jennifer has also become an active and respected participant within the network of providers of services to youth and families of Nassau County. This is accentuated by her recent invitation to serve as a member of the Nassau County Juvenile Crime Enforcement Coalition and to attend the monthly Juvenile Justice Provider Meetings.

Rene M Stratton, MSW, Program Coordinator, Nassau Family Connections, has been with Berkshire for four years. She began her career at Berkshire as a Social Worker with the Stepping Stones PINS Diversion Prevention Program. She then took on the role of Mentoring Coordinator in 2008 where she helped develop a mentoring program for youth at Berkshire's Residential Treatment Center so they were able to maintain connections with their home communities and assist in their transition when they return home. In recognition of the work she had done in Nassau and Suffolk counties, Rene was promoted to Program Coordinator of the Stepping Stones Program and ACS-funded Bronx Family Connections Program. In September of this year, Rene also became Program Coordinator of the current Family Connections Program in Nassau County. She has a great understanding of the needs of youth and families in Nassau County and has developed strong relationships with County and community based providers. Rene is a member of Long Islanders for Families and Youth, the County's, Substance Abuse Task Force, and the Nassau County Department of Health Perinatal Services Network Consortium

#### f. Prior Experience

#### Experience With the RFP services

Berkshire has been providing Family Connections to the children and families of Nassau County for 20 years and Columbia County for 17 years. In addition, Berkshire provides intensive prevention services, comparable to the services in this proposal, in Suffolk, Rensselaer, Clinton, Saratoga, Schoharie and Washington counties. All of these programs require close collaborations with the Departments of Social Services and Probation in each county as well as the network of service providers within each county and its community. Over time, these programs have helped thousands of families, among the highest need and highest risk in their counties, develop the skills, knowledge and resources necessary to avoid the need for out-of-home placement and improve family functioning. Outcomes over the past three years highlight this success:

- 94% averted the need for out-of-home placement during participating in the program
- 82% alleviated factors that placed children at risk for out-of-home placement
- 100% of families were linked with appropriate community based resources for mental health and other service needs and issues
- 96% of parents increased their involvement with services and activities at school and in the community

These outcomes demonstrate the effectiveness of Berkshire's intensive prevention programming, enabling youth to remain safely in their homes and families to function positively and productively within their communities, rather than to require youth to be placed outside of the home.

# Experience With Public Sector Clients and Services of Similar Size and Scope

Berkshire has successfully been providing Prevention Services in counties around New York State for well over three decades. These services are designed to provide intensive home, school and community-based services to preserve and strengthen the family unit and to avoid the unnecessary placement of children outside of their homes. Children and families in these programs are involved with Child Welfare, Probation, and Mental Health, as well as community based agencies and resources throughout communities and counties across New York State. Working in collaboration with county Departments of Social Services and Probation, Berkshire's Prevention Programs have been refined and enhanced to meet the needs of Counties and their youth and families. Berkshire currently has programming in 19 counties across New York State and provides 39 separate programs within those counties. They are:

- Albany County Advantage After School, Home Run, Pathways, Transitional
  - Support Services
- Allegany County Turnabout
- Bronx Family Connections, Power Project
- Cattaraugus County FAR, Turnabout
- Clinton County Stepping Stones
- Columbia County Family Connections, Transitional Services, Prevention
- Hamilton County Home Run
- Montgomery County Stepping Stone
- Nassau County Family Connections, Families Together
- Niagara County Home Run
- Orange County Independent Living Program, Pathway

As this list suggests, Berkshire provides Prevention programming across New York State, serving all localities, from small rural communities to large, urban centers. Regardless of location, Berkshire programs are tailored to meet the needs of each County and its youth and families. Similar services to the ones provided by Family Connections are provided in Schenectady, Albany, Columbia, and Saratoga counties as well as in the Bronx. These services have proven effective and helped hundreds of children and families succeed at home, in school and in their community:

- 90% of youth served in Berkshire Prevention programming avoided out-of-home placement
- 98% of parents increased their involvement in services in the community and in the school

#### g. Additional Information

Berkshire is committed to working with Nassau County to provide high quality programming for its youth and families. In the 20 years Berkshire has provided programs in the County, agency staff has worked in close collaboration with the County to ensure that services are matched to the needs of the County and its families. Berkshire's commitment was recently reinforced, allowing Berkshire to expand its services in Nassau County even further. In 2010, Berkshire responded to a Request for Proposals from the New York State Office of Children and Family Services for their Community Reinvestment Program for alternative to detention programming. Berkshire reached out to Nassau County to be its partner for this program, recognizing the strength of the established relationship and understanding the need for services in its communities. The proposal, for the Families Together Program, was one of only seven awards statewide and today, that program is an important element in the system of care for the youth and families of Nassau County. In fact, in the first quarter alone, the program exceeded all outcomes for children and families, an indication of the strength of the partnership and an excellent predictor of the high quality of services yet to come.

Appendix EE

#### Equal Employment Opportunities for Minorities and Women

1

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

ан 3 **н** 1 авгост 1

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(1) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

1. In the past five years, Contractor <u>X</u> has <u>has</u> has not been found by a court or a government agency to have violated federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed against the Contractor, describe below:

On December 16, 2011, NYS Department of Labor conducted an audit at one of the agency's worksites located in Rochester, NY. The purpose of the audit was to review payroll and time records for the period of December 5, 2005 to December 5, 2011. Correspondence received from NYS Department of Labor on December 28, 2011 indicated two violations as a result of the audit.

Article 5 – Labor regulations require uninterrupted meal periods for employees working a shift of more than 6 hours. Although labor regulations do not require that these meal periods are paid, it is the policy of this agency that meal periods are paid. Because meal breaks are paid, employees may not have punched in or out for their meal period. Therefore, meal periods may not have been reflected on time records.

Article 19 – Labor regulations required that employers keep and have available for inspection records for employees. At the time of the audit, the agency was not able to produce some of the some of the time records from the earlier end of the requested timeframe. Time records from the earlier end of the requested timeframe were prior to agency's use of electronic timekeeping system and not able to be furnished at the time of the audit.

Correspondence received from NYS Department of Labor also directed that \$2,637.77 be remitted for payment to eight (8) employees who were identified during the time of the audit to be due wages for overtime worked. This amount included 25% liquidated damages. On January 18, 2012 the agency contacted the NYS Department of Labor to discuss these findings and furnish payroll records which satisfied that these eight (8) employees had, in fact, received some of the wages due. Upon review of the agency's explanation and documentation, the NYS Department of Labor accepted payment in the amount of \$1584.22 including 25% liquidated damages.

On January 25, 2013, NYS Department of Labor conducted an audit at one of the agency's worksites located in Valatie, NY. The purpose of the audit was to review payroll and timekeeping records for the period of January 1, 2011 to December 31, 2012. Correspondence received from the NYS Department of Labor on March 15, 2013 indicated one violation as a result of the audit.

Article 5 - Labor regulations require uninterrupted meal periods for employees working a shift of more than 6 hours. Although labor regulations do not require that these meal periods are paid, it is the policy of this agency that meal periods are paid. Because meal breaks are paid, employees may not have punched in or out for their meal period. Therefore, meal periods may not have been reflected on time records. Correspondence received from NYS Department of Labor also directed that a penalty in the amount of \$100.00 be remitted for payment. This amount was paid in full.

Documentation is available upon request.

On May 27, 2011 a decision was issued finding that the agency had violated the Act as alleged.

On November 2, 2011, the parties reached a Board settlement resolving the issues in the above matter which included payment to nine (9) bargaining unit employees for the combined amount of \$12,358.16 as a make whole payment for health insurance out-of-pocket expenses incurred.

On January 4, 2012, the Regional Director approved the settlement. Payment was promptly issued and the mandatory notices to employees were posted for required timeframe.

On March 27, 2012, the case was closed.
