Hinck is the leading installer of submarine cables on Long Island having completed dozens of such installations over the past 30 years. One such installation pictured below shows a staging barge prepared and located to do the underwater installation of 5 reels of 2000 MCM positive cables on one side of the LIRR's Wreck Lead Bridge. This Project involved replacing a total of 12 reels of 2000 MCM traction power submarine cables as well as 2 reels of 37/C#14 Control submarine cable directly for the LIRR and as can be seen had to be done while keeping the existing LIRR drawbridge operational. This job was successfully completed in December 2008.

Re: ***NCBA Atlantic Beach Bridge Over Reynolds Channel Electrical, Mechanical, Structural Rehabilitation.***

To Whom it may concern,

Hinck Electric, in the early summer of 2012, had installed a broad band Ethernet link between PLCC's in each bridge tower so as to maintain operational communication between the towers as there were no spare communication conductors available in the submarine cable. The work done by Hinck included a site survey to assure no conflict with JFK approach guidance radios, placement to assure clear signal path during raised leaf operation of the bridge and IP addressing of radios to work with the PLCC system. In addition, Hinck has maintained this temporary system right up until the present time with it projected to be removed by Dec. of this year. Hinck did a very good job throughout not just on the installation and maintenance of the Ethernet Link but also on the complete electrical system rehabilitation of the entire bridge. I would highly recommend Hinck for any Ethernet work you may have as well as Bascule Span Drawbridge electrical work.

Very truly yours,

Dear John,

After hurricane Sandy struck N.Y., we lost power to a large number of our bridges including all of our drawbridges. I was very much appreciative of Hinck Electric's response in making critical and immediate repairs to the submarine cable at the Loop Parkway drawbridge. Additionally, getting the temporary generator on line at the WSP drawbridge and performing repairs to the transfer switch at the MSP drawbridge were also of great benefit. Although I am sure that you had your hands full, Hinck Electric's immediate and effective response to our call for assistance allowed our crews to focus on, and resolve, other storm related issues. On behalf of Bridge Maintenance, I would like to thank you, but I would also like to say a special thank you to the men that went out and did all of the good work, namely: Pete Bonziglia, Pat Bonziglia, Carlos Dominguez and Tommy Thompson.

Electrical System Modifications – Phase II
Project Completion

The Electrical System Modifications – Phase II project is now complete. It was my privilege to be a part of an excellent team that took this project through the conceptual, design, planning and execution stages to its successful completion.

My appreciation goes to Abass Wessen, whose design documents translated into a construction package that is now successfully operating as a much improved electrical infrastructure for the Laboratory. Helping the effort was Roy Butler's inspection services.

The contractor's performance, especially that of Hinck Electric Company's supervisor, Tom Thompson, is commendable. The construction work was carried out over a two-year period, without any safety violations and without any major technical deficiency.

Last but not the least, Plant Engineering's Line Crew support was invaluable. John Dowd, Jim Boomer and their whole group worked tirelessly to prepare for temporary power and electrical shutdowns to support the construction effort. John and Jim were the extra set of eyes and hands that were vigilant in testing, checking and correcting the extensive activities that continued for two years. Their support at any hour of the day or night was instrumental in bringing this project to a successful completion.

The final shutdown work that extended to every weekend during the months of August and September, often continuing past midnight, has been stressful but was performed in a great spirit of cooperation. My heartfelt appreciation goes to you all.

I thank my Managers, Gregg Flett and Marty Fallier, for their expert guidance throughout the project, and all the co-workers in E&CS for their help, whenever it was needed.

Att: John Buck, Jr.

Dear Mr. Buck:

This will serve as a letter of reference for work performed by Hinck Electrical Contracting for the Village of Rockville Centre's recently completed substation project.

The project involved the construction of two electric substations: one, a 33kV open air substation that serves as a supply point for the Village's electric system; the other, a 33kV to 4kV distribution substation. The project required concurrent construction of both sites.

Hinck's performance on this project met all expectations. The personnel assigned to this project were qualified to perform the work required during all phases of construction. The level of cooperation between the contractor's personnel and the Village was above average.

I would not hesitate to recommend Hinck Electrical Contracting for work similar to the project at our two substation sites.

Very truly yours,

PAUL J. PALLAS

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposes," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may check the Nonprocurement List.

The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposes," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled, "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transaction," without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of reports in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, such breach being determined solely by the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Firm acknowledges that Firm Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Firm of such request prior to disclosure of the Information so that the Firm may take such action as it deems appropriate.

(b) The Firm shall deliver services under this Agreement in a professional manner consistent with the best practices of the industry in which the Firm operates. The Firm shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Firm Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

9. Indemnification; Defense; Cooperation.

(a) The Firm shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Firm or a Firm Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Firm shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Firm shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Firm's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Firm is responsible under this Section, and, further to the Firm's indemnification obligations, the Firm shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Firm shall, and shall cause Firm Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Firm and/or a Firm Agent in connection with this Agreement.

The Firm shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Firm under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Firm shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Firm shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Firm to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Firm to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

11. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

12. Termination.

(a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Firm, (ii) for "Cause" by the County immediately upon the receipt by the Firm of written notice of termination, (iii) upon mutual written Agreement of the County and the Firm, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Firm. This Agreement may be terminated by the Firm if performance becomes impracticable through no fault of the Firm, where the impracticability relates to the Firm's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Firm delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Firm is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Firm's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

In connection with the termination or impending termination of this Agreement the Firm shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Firm's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

13. Accounting Procedures; Records. The Firm shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Firm is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

14. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief the Firm shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Firm shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Firm shall allege that the above-described actions and inactions preceded the Firm's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

15. Work Performance Liability. The Firm is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Firm is using a Firm Agent to perform some, or all of the work contemplated by this Agreement, and irrespective of whether the use of such Firm Agent has been approved by the County.

16. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

17. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Firm shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Firm, to the attention of the person who executed this Agreement on behalf of the Firm at the address specified above for the Firm, or in each case to such other persons or addresses as shall be designated by written notice.

18. All Legal Provisions Deemed Included; Severability; Supremacy and Construction.

(a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

19. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

20. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

21. Administrative Service Charge. The Firm agrees to pay the County an administrative service charge of Five Hundred Thirty Three Dollars ($533.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 128-2006. DETAILED SCOPE OF SERVICES

The County requires the Construction Manager (CM) to provide comprehensive construction phase services and to coordinate these services with the County's third party Program Manager, (PM). The scope of services to be performed in the respective phases (which will overlap) is summarized below:

2.1 Construction Phase Services

2.1.1 Commencement and Duration - The Construction Phase will commence with the award of a construction contract for the project and will terminate upon final acceptance of the Project in its entirety by the County. The construction phase is scheduled for 24 months. The CM should include one (1) month of pre-construction duties and one (1) month of post-construction duties as noted in Section 1 in their proposal.

2.1.2 General Construction Administration - The CM shall provide administration of the Project and shall administer all construction contracts on the County's behalf. This project is being built under a Project Labor Agreement (PLA) using a single prime Construction Contractor ("CC") . The CM will perform as the PLA administrator of Nassau County's Master Project Labor Agreement as amended for this project and will advise the CC of the PLA requirements for this particular project. The CM will be provided a copy of "the Procedure Manual for Project Management" prepared by the Nassau County Department of Public Works, as a guide to the County's standard administrative procedures, as well as a copy of the Program Construction Management Manual, prepared on behalf of the County by the PM. Administer the construction of the Project, including scheduling of the Work and coordination of the CC. The CM shall maintain competent full-time staff at the project site to administer the project, at all times Work is being performed by CC. The FIRM shall furnish his staff with personal equipment required for project administration, including, but not limited to personal protective equipment, digital cameras, cellular telephones, etc.

2.1.3 Site Conditions - As portions of the Work become accessible, CM shall promptly and diligently investigate existing conditions and report to the County, the Program Manager and the Design Engineer, those conditions which differ substantially from the information contained in the Construction Documents. Collaborate with the County, the Program Manager and the Design Engineer to devise appropriate modifications to the Contract Documents.

2.1.4 Quality Assurance - The FIRM shall create and implement a Quality Assurance Program consisting, at the minimum, of testing, controlled inspection, and the CM's routine observation of the Work of the CC with respect to conformance to the Construction Documents, based upon the guidelines presented in the Cedar Creek Program Construction Management Manual. The CM shall endeavor to guard the Owner against defects and deficiencies in the Work, and shall coordinate testing and controlled inspection by third parties with the Work of the CC. The CM shall promptly notify the County, Program Manager, Design Engineer, and CC, as applicable, of defective, deficient, and/or non-conforming Work, and shall make recommendations for correction/resolution. Track all defective and non-conforming Work through correction until final acceptance by the County.

2.1.5 Scheduling - The CC shall prepare the Master Construction Schedule (baseline) and monthly updates. This Schedule shall be prepared using the critical path method and Primavera P6 (or later version) software as approved, and shall be broken down in sufficient detail to be useful for monitoring progress, delay analysis, and administering the CC's contract provisions. The schedule shall be cost and resource loaded by the CC. The CM is responsible for monitoring the accuracy and completeness of the CPM Schedule, to review the Baseline and updates, provide analysis of delay, preparation of reports as required by the County, negotiation of delay claims and recommendation for recovery or necessary changes to complete the project within budget and schedule. The CM is responsible for the detailed review of all logic, logic changes, durations, Work Breakdown Structure (WBS), resource and cost loading and acceptance. The CM shall evaluate CC's requests for extension of the Contract time, and advise the County confidentially on the quantum and merits of such requests. The CC shall update the Master Schedule monthly to show progress, compile 2-week look-ahead schedules from the Master Schedule and augment same. The CM shall follow up with the CC who will prepare Schedule updates as necessary to reflect changes and show the impact of changes to the critical path and completion milestones. The CM shall review in a timely manner as per contract specifications. Upon approval of the baseline and subsequent to each monthly update, the CM shall prepare/distribute the schedule report consisting of project status, current critical issues, upcoming concerns, analysis of attribution of delays and suggested recovery by CC, and shall provide information to the PM for integration to and updating of the Program Master Schedule and shall discuss and agree upon recovery steps with the Program Manager.

2.1.6 Cash Flow Forecast - With the cooperation of the CC, CM shall prepare a cash flow forecast for the entire project, based on the project schedule, and shall revise same, whenever there is a significant change in the schedule that would warrant a revision to the cash flow forecast. The baseline cash flow forecast and all revisions shall also be forwarded to the PM for integration into the Master Program Budget and Cost Forecasting Tool.

2.1.7 Monitor Progress - Monitor the progress of the CC's work and prepare written daily reports documenting the type and location of work performed, the CC's trade labor and equipment, and all pertinent details relative to the progress of the Work. Augment the written reports with photographic documentation of the work in progress. Photographs are required when unforeseen conditions, disputed work, or deficiencies in the Work are encountered. Pro-actively monitor the progress of the Work, taking such steps (on behalf of the County) as are authorized under the CC's contract, to ensure that the CC's workforce is sufficient and the work is being diligently prosecuted. Where progress is impeded by actions/inactions of the Design Engineer, or others, bring such matters promptly to the attention of the County for resolution. Appendix "EE"

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

COUNTY OF NASSAU
DEPARTMENT OF PUBLIC WORKS
Inter-Departmental Memo

TO: Office of the County Executive
Att: Brian J. Schneider, Deputy County Executive

FROM: Department of Public Works

DATE: August 3, 2018

SUBJECT: Proposed Personal Services Agreement with
LiRo Program & Construction Management, PE P.C.
Recommendation of Firm for Construction Management Services
Glen Cove Wastewater Treatment Plant
Sludge Dewatering Facility Improvements
Proposed Agreement No. S35114-06M

This Department intends to procure construction management services regarding modifications and improvements to the Sludge Dewatering Facility at the Glen Cove Wastewater Treatment Plant. Major components of the project include the provision of two (2) new belt filter presses, three (3) new sludge feed pumps, and modifications to the sludge cake conveyor and truck loading system, along with requisite HVAC, electrical and mechanical improvements.

A "Request for Proposals" was prepared in conformance with the Department's policy for assessing technical understanding, statement of qualification, and a proposed project schedule. The Request for Proposals was posted on the County's website and advertised in *Newsday*.

Technical and Cost Proposals were received from six (6) firms (listed below) on August 21, 2017. The Technical Proposals were evaluated by professionals from within the Department of Public Works. Following the review, the technical rank was established, and the cost proposals were reviewed. The results of the technical evaluation are summarized below, along with each firm's total proposed fee (based upon an estimated construction budget of $6,200,000.00).

Firm Name	Tech Rank	Tech Rating	Base Fee Multiplier	Total Fee (Div. A through E)	Total Fee with 30% Contingency
LiRo Engineering	2	88.25	2.1	$999,090.00	$1,298,817.00
CDM Smith	3	84.75	2.3	$637,562.00	$828,831.00
de Bruin Engineering	4	84.50	2.3	$712,000.00	$925,600.00
LKB	6	81.25	2.3	$1,240,013.00	$1,612,017.00

A proposal from D&B Engineers & Architects, P.C. was received and was subsequently withdrawn by the Firm on May 1, 2018. A proposal was also received from HAKS PC, who is also the subject of an ongoing investigation. The integrity monitor for HAKS PC has not issued findings to date resulting in their bid being determined as non-responsive. A comparison of the proposals from the remaining firms, LiRo, CDM Smith, de Bruin Engineering and LKB, found the LiRo proposal to provide the most value to the County based on several factors:

- Resident Engineering: the deBruin proposal provides a part time Resident Engineer at forty-percent (40%) of the full-time schedule required to staff the project. The CDM proposal provides a Resident Engineer three hundred and seventy-two (372) hour short of the Resident Engineering hours proposed by LiRo (3840 hours) which are seen as adequate to staff a twenty-three (23) month (3986 hours) assignment.

Subject: Proposed Personal Services Agreement with
LiRo Program & Construction Management, PE P.C.

Proposed Agreement No. S35114-06M

- Office Engineering: An office engineer during the Contractor's technical submission phase is proposed by LiRo and is not included in the CDM and de Bruin proposals.
- Estimating: Part time services of an estimator are included in the LiRo proposal and important to comply with the County's policy of providing independent estimates to reconcile Contractor costs for changed conditions & extra work.
- The LiRo base fee multiplier is 0.2 lower than both CDM & de Bruin.
- When normalized for staffing and multiplier discrepancy, the LiRo proposal offers roughly ten-percent (10%) savings over CDM & de Bruin.

Accordingly, in our professional judgment, the proposal submitted by LiRo Program and Construction Management, PE P.C. has the highest responsive technical rating and the lowest base fee multiplier and thus represents the best overall value to the County.

The funding for these professional services is available under Capital Project 35114.

In accordance with the procedural guidelines, CSEA has been notified of this proposed agreement.

SYOSSET, NY 11791

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. Section II – **Who Is An Insured** is amended to include as an additional insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement. Such person or organization is an additional insured only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf,

in the performance of your ongoing operations or "your work" as included in the "products-completed operations hazard", which is the subject of the written contract or written agreement.

However, the insurance afforded to such additional insured:

1. Only applies to the extent permitted by law; and
2. Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to:

"Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services including:

a. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

C. The following is added to Paragraph **2.** Duties In The Event Of Occurrence, Offense, Claim Or Suit of Section **IV – Commercial General Liability Conditions**:

The additional insured must see to it that:

1. We are notified as soon as practicable of an "occurrence" or offense that may result in a claim;
2. We receive written notice of a claim or "suit" as soon as practicable; and
3. A request for defense and indemnity of the claim or "suit" will promptly be brought against any policy issued by another insurer under which the additional insured may be an insured in any capacity. This provision does not apply to insurance on which the additional insured is a Named Insured if the written contract or written agreement requires that this coverage be primary and non-contributory.

D. For the purposes of the coverage provided by this endorsement:

1. The following is added to the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

Primary and Noncontributory insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured provided that:

a. The additional insured is a Named Insured under such other insurance; and

b. You are required by written contract or written agreement that this insurance be primary and not seek contribution from any other insurance available to the additional insured.

2. The following paragraph is added to Paragraph **4.b.** of the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

This insurance is excess over:

Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by a written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

E. This endorsement does not apply to an additional insured which has been added to this policy by an endorsement showing the additional insured in a Schedule of additional insureds, and which endorsement applies specifically to that identified additional insured.

F. With respect to the insurance afforded to the additional insureds under this endorsement, the following is added to Section **III – Limits Of Insurance**:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the written contract or written agreement referenced in Paragraph **A.** of this endorsement; or
2. Available under the applicable Limits of Insurance shown in the Declarations,

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

All other terms and conditions of this policy remain unchanged.

For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. ☐ This is a public works contract for the provision of architectural, engineering or surveying services. Appendix EE
Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan

and any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

(i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement. This shall include updating the county on the location of all stenographic records and include the transcriptions of these records upon request.

(d) The contractor shall ensure all their staff possess the necessary requirements that qualify them, as described more fully in the RFP attached hereto as Exhibit 1.

8. Indemnification; Defense; Cooperation. (b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the Executive Director of Nassau County Traffic & Parking Violations Agency (the "Executive Director"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Executive Director shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Executive Director.

(c) Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this

Agreement.

Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

15. Work Performance Liability. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

16. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

17. Notices. Any notice, request, demand or other communication required to be given or

made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

18. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

19. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

20. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

Re: Berkshire Farm Center & Services for Youth Preventative Services (2020 Renewal)

Dear Michael Kanowitz:

Please allow this letter to serve as a response to the Nassau County correspondence received on Nov.1, 2019 regarding the above mentioned assignment of CSEA Unit work to persons not in the CSEA Unit.

Your notification of intent to subcontract fails to offer sufficient detail of the "County's needs" pursuant to Section 32-3 of the CSEA/County C.B.A.

Not withstanding the lack of sufficient detail provided by the County regarding said proposed subcontract and pursuant to Section 32-3(b) of the C.B.A., CSEA proposes as an "alternative to satisfy the County's needs", that current or anticipated County employees (who are or would be CSEA bargaining unit members), perform the duties requested in the proposed subcontract. Pursuant to Section 32-3, the County is required to provide notice to CSEA of its needs and in order to propose alternatives we need the following information: Proposed vendor; cost analysis for CSEA members to perform said duties for contracted service, anticipated start date and specific good faith efforts made to avoid the unnecessary assignment of CSEA unit work to said subcontractor.

Further, due to the fact that Class Specifications of the Nassau County Civil Service allow for civil servants and therefore *CSEA Bargaining Unit Employees* to perform said proposed tasks, it is only logical and in "Good Faith" that County employees be allowed to "satisfy the County's needs", thereby avoiding "the unnecessary assignment of CSEA unit work to persons not in the CSEA Unit", (section 32-1 of the C.B.A.).

Our contention, as always, is that this our work and we refuse to accept a lack of staffing as a reason for subcontracting.

Finally, pursuant to Section 32-3, **I am ready, willing and able to meet with you at your earliest convenience to meet and confer with respect to CSEA's proposals.**

Please immediately advise as to your availability.

Thank you for your anticipated cooperation. If you have any questions, please feel free to contact me.

Very Truly Yours,

Richard Dopkin

The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take any action, or omit to take any action, that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain (i) Workers' Compensation Insurance shall render this contract void and of no effect and (ii) the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10 Assignment; Amendment; Waiver; Subcontracting. (a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment or other disposal without such prior written consent shall be null and void. The provisions of this subsection shall survive the termination of this Agreement.

(e) Payments in Connection with Termination or Notice of Termination. Unless a provision of this Agreement expressly states otherwise, payments to the Contractor following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

12. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. The Inventory shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental

authority with jurisdiction over the disposition or use of funds paid to the Contractor in connection with this Agreement, and any of their duly designated representatives.

(c) Within thirty (30) days of the termination of this Agreement, the Contractor shall file with the Department and the Comptroller a final Inventory. The Contractor shall dispose of the Equipment in accordance with instructions of the County. If the County does not provide disposition instructions within thirty (30) days of termination, then the Contractor shall contact the Commissioner in writing and request disposition instructions.

(d) The provisions of this Section shall survive the termination of this Agreement.

14. Limitations on Actions and Special Proceedings Against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents sent or delivered to the Applicable DCE under this Section to each of (i) the Department and (ii) the County Attorney, at the address specified above for the County, on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Berkshire Farm Center and Services for Youth
The Family Connections Program
An Evidenced Informed Intensive Preventive Service

a. **Service Summary**

The Family Connections Program is a trauma informed, intensive home, community and school based program designed to address Nassau County's need for Preventive services for youth and families at imminent risk of out-of-home placement. Family Connections provides an array of services to help strengthen family functioning so youth can remain safely in their homes and communities. The target population for the Family Connections Program is children and families identified by the Nassau Department of Social Service who are involved with the Child Welfare System, families that are at immediate risk of having their children placed in foster care, and those with children in foster care for reunification. Services include intake and comprehensive assessments, crisis intervention, individual and family counseling, linkages to community resources, and instruction/assistance in interpersonal, parenting, problem solving and decision making skills. These services are provided by Family Specialists who work with a maximum of four families at a time. This level of intensity allows staff to meet with families multiple times each week, often during non-business hours to accommodate work and school schedules, to ensure that services address the strengths and needs of each family member and to be available to respond to families when they need assistance 24 hours a day, seven days a week.

The goals of the Family Connections Program are to avoid the need for children to be placed out of the home or to facilitate reunification of children and families as children return home from foster care. Outcomes for the program include rapid engagement of and service delivery to families, reduction in the number of children needing to be removed from their homes to enter out-of-home placement, and an improvement in parenting skills.

Berkshire Farm Center and Services for Youth (Berkshire) has been providing Family Connections to the children and families of Nassau County for two decades. In that time, Berkshire and Nassau County have developed a strong, effective partnership, tailoring the program to address the specific needs of the County and its children and families. As a result, the program has become a vital and prominent resource for youth and families in need of prevention services. Because of the success of Family Connections, hundreds of children have averted the need for out-of-home placement, and families have developed the skills to live and thrive as independent and productive members of their communities throughout the County.

b. **Proposed Service**

Program Overview

The Family Connections Program, a trauma-informed, intensive home, community and school based program, is based on the Homebuilders Model of service delivery, which was developed by the Behavioral Sciences Institute of Tacoma, Washington in 1974. This model formed the basis for family preservation programs in many states. Homebuilders' primary goal is to avoid the unnecessary placement of children outside of their homes; since its inception, it has been evaluated both formally and informally and has shown repeated positive outcomes for placement prevention and child and family functioning. The program is designed to diffuse the immediate crisis and teach family members the skills they need to live together safely. This is the foundation for Family Connections.

The Family Connections Program is built on the promotion and support of frequent and positive parent-child interactions. Based on Berkshire's years of experience providing this service, the agency has determined that the most effective strategy is to provide frequent, multiple face-to-face home visits weekly and unlimited collateral contacts for each family. The focus of these contacts is to foster the parent-child relationship in order to avoid out-of-home placement or to stabilize the family upon a child's return from foster care. Family Connections is centered on finding the strengths of each child and family member from which to build the foundation for enhanced growth and development of positive family interactions, thus avoiding out-of-home placements.

The primary consideration of the program is the safety of all family members. The major domains of life for youth include physical and mental health, family relationships, peer relationships, community relationships, education, occupational readiness and leisure/recreation. Any or all of these domains can create conflict and ultimately unsafe situations for the youth and/or families. Therefore, the *end state* for Family Connections is:

- Families will learn to prevent crises and to handle crises that do occur in a productive and safe manner, so that youth at imminent risk of placement can remain in their homes.
- Families and youth in crisis will be supported and be taught problems resolutions that encourage family unity.
- Parents/caregivers will learn skills to better parent and support their youth.
- Families will demonstrate the ability to advocate for their own basic needs and identify the array of community services available to them.

Family Connections is a short-term program. However, due to the nature and extent of problems being experienced by families served by the program, some families may need ongoing services to continue and reinforce the changes begun while in the Family Connections Program. Once the families are stabilized, program staff will link the family with appropriate community resources. It is expected that the trusting relationship established with the Family Specialists will enable families to build positive relationships with other service providers in the community, enabling them to use and benefit from community-based services while preventing the need for more costly out-of-home placement.

The Family Connections Program is founded on best practice principles:

- *Individualized, strength based, client centered family focused program design*: Family Connections is designed to empower youth and families in the program and in their lives, and families are considered 'partners' in all aspects of service delivery.
- *Cultural competence*: Berkshire is committed to ensuring cultural competence, and has developed programs to be culturally sensitive to the needs of youth, families and their communities.
- *Focus on safety, permanency planning and well-being*: All services provided by Family Specialists are designed to ensure safety and stable, permanent home environments for youth and families.
- *Specific strategies to work with persons experiencing issues related to child welfare, juvenile justice, mental health and/or substance abuse*: Throughout Berkshire's long and distinguished history of working with the population served by Family Connections to assist them with challenges that span a wide array of systems, programming has been developed and refined to address the complex and often multi-system needs of this population and their families.
- *Strategies that are trauma informed*: Berkshire has implemented the Sanctuary Model®, a trauma-informed, evidence-supported, whole culture approach designed to create or change an organizational culture. Sanctuary's objective is to improve the organization's ability to more effectively facilitate healing from psychological and social traumatic experiences and extended exposure to adversity. It promotes the development of structures, processes, and behaviors on the part of staff, clients and even the community at large. This model is being infused into all programming agency wide.
- *Strategies that promote positive youth development*: The Family Connections Program, either directly or through linkages to community based resources, provides opportunities for youth to enhance their interests, skills, and abilities to help them succeed at home, in school and in the community. These opportunities help pave the way for youth to make the transition to adulthood as productive and healthy members of their community.
- *Linkages to natural community supports*: One of the cornerstones of the Family Connections Program is to facilitate the linking of youth and families to supports in their community that they can access once their participation in the program ends. The goal of this is to promote independent, appropriate family functioning that will avert the need for out-of-home placement.
- *Working knowledge of theory and practice in child welfare, juvenile justice, children's mental health, youth services, and compliance with all rules and regulations*: Berkshire has a strong, experienced staff that has considerable expertise in the areas of child welfare, juvenile justice, mental health and youth services. Furthermore, Berkshire has developed strong relationships with local departments of social services, probation, mental health and youth services, and is a state leader in providing preventive programming. Because of Berkshire's statewide network of programming and extensive experience, Family Connections staff will have full access to this wealth of knowledge and expertise.

All Berkshire Farm programs operate in compliance with local, State and Federal rules and regulations.

Target Population: The target population for the Family Connections Program will be identified by the Nassau County Department of Social Services (NCDSS) as children and families being involved with the Child Welfare System, families that are at immediate risk of having their children placed in foster care, and those with children in foster care for reunification. The program is intended to provide intensive services to those families that are willing to commit to addressing the issues that are placing their children at imminent risk of out-of-home placement or issues that are preventing their children from returning to their care. Imminent risk is defined as "a child who will enter foster care within seven days unless there is an immediate intervention."

The Family Connections Program, as with all Berkshire Prevention programs, operates from its No Reject Policy. Every child and family will be given the opportunity to voluntarily receive services that will enable the youth to remain safely and successfully in their homes and communities.

Scope of Services

The Family Connections Program is an intensive, short-term, crisis response program that emphasizes the development of resiliency and skills that help children and their families or caregivers live safely, independently and productively within their homes and communities. The program has the following services and characteristics in order to achieve the outcome of preventing children from entering the foster care system or helping them reunify with families safely and successfully in a timely fashion:

- **Referrals:** Referrals will be accepted from the Nassau County Department of Social Services during business hours, Monday through Friday. The referrals will be responded to within 24 business hours by the Family Specialist, who will rapidly engage the family and explain the program, conduct an assessment, and determine the family's interest in and/or appropriateness for participation in the program. Over the last 30 years in Nassau County, at least 90% of referrals received by Berkshire's current Family Connections Program have been responded to the same day as receiving the referral for intake and assessment in recognition of the importance of rapid engagement for this high-need, high-risk population.

- **Crisis Intervention:** Family Specialists will respond to families immediately during times of crisis, no matter the day or time, and the Program Coordinator will be available for assistance and support. Each Family Specialist uses the energy of the crisis to move the family through and mediate the crisis. Through this process, families learn to use skills that will help them avoid crises, or respond more appropriately, in the future.

  After stabilizing the crisis, the Family Specialist uses various techniques to assist the family with problem resolution, developing new behavior management skills to ease family conflicts, and with negotiating positive changes. To reinforce skills, the Family Specialist participates with the family in activities, including household chores, family discussion, communication exercises, problem solving, and activities using community resources. The

ultimate goal is to empower the family to live safely, avoid or minimize risk and/or crisis situations, and function effectively and independently.

- **Case Load Size:** Family Connections' Family Specialists will serve up to 4 youth and their families daily, with multiple home visits weekly as well as unlimited collateral contacts to coordinate services. While working with these youth and their families, the Family Specialists will also provide services to other youth within the family in an effort to avoid any or all youth from being removed from the home; therefore, the program serves the entire family and does not specifically target one youth. The Family Connections Program will provide services to a minimum of 96 families during the program year.

- **Length of Service:** The family will generally receive intensive services for 6 weeks with an option to extend up to 8 weeks. The short term, intensive nature of the Family Connections Program is significant, not only because it has proven to be highly effective, but also because it keeps the staff and family energized and motivated, helps families stay focused on immediate and specific goals to resolve the presenting crisis, and enables staff to teach whatever skills are needed to enable the family to live safely without intensive outside intervention.

- **Hours of Service:** Each Family Specialist works a flexible schedule to be available to respond to referrals and to accommodate all families' schedules and time constraints. This will include early mornings, evenings, weekends and holidays. The program operates under an immediate crisis response 24 hours a day, seven days a week, for program participants, which entails each Family Specialist being on-call for their individual caseload. The Program Coordinator is also available for assistance and supervision regardless of day or time. Each family will have cell phone numbers to contact either the Family Specialist or Coordinator in the event of a crisis situation.

- **Aftercare Services:** Families will be offered 30 days of aftercare at the County's request, *at no cost to the county,* consisting of one contact per week to ensure families are following through with community linkages and to provide support and assistance as needed.

- **Rapid Family Engagement:** The Family Connections Program utilizes a combination of models of treatment to rapidly engage the youth and families. Each Family Specialist will work intensively with youth and families by embracing Berkshire's "do whatever it takes" philosophy. Historically, this means utilizing basic counseling skills that are internalized within each Family Specialist. The strategies involved in rapid engagement involve a worker that displays empathy, understanding and foremost a non-judgmental attitude. This demeanor is a necessary condition for the family to respond to services and treatment.

  Functionally, this translates into unlimited phone contacts, face-to-face contacts, immediate crisis response, transportation, and any/all needed interventions with youth and families as well as aftercare services. Specifically, Family Connections staff will go out to the home the same day of receiving the referral. While meeting with the youth and family, the Family Specialist will explain the scope of the program and have all necessary program releases signed. Prior to ending the first visit, the next return visit will be scheduled and all

emergency numbers will be given to the family (i.e. Family Specialist and Program Coordinator contact information).

- **Family Assessment:** Once the family has completed the Service Agreement, Initial Intake and Safety Assessment, the Family Specialist will begin the full assessment process. This process is strength based and family focused, and serves as the basis for the development and implementation of treatment plans for each family. The assessment process will be completed within the first seven (7) to 30 days of services, and includes:
  - *Berkshire Home Safety Assessment*: is a comprehensive assessment completed at the initial visit which identifies safety/risk factors and develops a plan to address them immediately. This is completed by the Family Specialist with youth and families within 24 hours of intake, at 30 days and again at discharge.
  - *Basic Needs Assessment:* is completed by Family Specialist with parent(s) within 48 hours of intake and again at discharge to document how the family is meeting the youth's basic needs, and helps guide planning to meet unmet needs. Areas covered include safety and risk factors, food, housing, clothing, medical/dental, educational and day care if needed.
  - *Berkshire Assessment*: to be completed within the first seven days of service to assess and identify areas of need to determine subsequent short and long term intervention strategies. Areas covered include: prior trauma, legal/law enforcement, medical, mental health/psychiatric, family, school, behavioral issues including aggression and/or domestic violence, and substance abuse.
  - *Parenting Assessment*: is completed by Family Specialist with parent(s) within 48 hours of intake and again at discharge to assess parenting communication and skills, to develop a plan to address needs or challenges identified in the assessment, to assess progress made during program participation, and to identify areas where further support and/or instruction will benefit family functioning.
  - *Psychosocial Assessment of the Youth and Family*: completed by the Family Specialist within 30 days of intake. This assessment collects information regarding the family's perception of the problem(s), family strengths and needs, and a diagnostic assessment of the youth and family's level of functioning.
  - *Ansell Casey Life Skills Assessment*: conducted with youth ages 14-21 to identify strengths and needs in preparing them to make the transition to the community and adulthood. Topics covered in the assessment include career planning, communication, work and study skills, daily living, housing & money management, home life, self-care, and social relationships. All of the needs revealed through the assessment will be incorporated into the treatment plan for direct and/or referred services.
  - *Please see attached assessments*

- **Treatment Planning Process:** The comprehensive assessment and treatment provided by the program is multi-systemic and strength-based, focused on targeting the skills and behaviors necessary for youth to develop positive decision making skills and social

connections and for parents to learn skills to improve family functioning and maintain safe households. An Initial Safety Treatment Plan is developed through a collaborative effort with the youth, family, Family Specialist, community service providers, school personnel, and the Department. The plan enumerates youth and family issues, establishes goals and outcomes to achieve them, itemizes tasks or activities to be completed by each team member, and identifies strengths and resources of the youth and family to be utilized to achieve success.

On at least a weekly basis, the Family Specialist evaluates the progress made and continuing needs with the family. Barriers to achieving outcomes and relevancy of goals are also evaluated. This immediate, ongoing and intensive response to their needs is very effective in engaging the participation of the families. From this base of trust built, the program is then able to move on to the broader set of challenges facing the families.

Thirty days after opening, the Initial Conference Safety Meeting with NCDSS and Berkshire Staff takes place. The Initial Conference Safety Summary is reviewed and the case is discussed for progress, barriers, current functioning and needs, and length of service. Depending on the determination of length of service, at six or eight weeks, the Final Conference Safety Meeting is conducted with NCDSS, Berkshire Staff and transferring agency if additional General Preventive Services are warranted. The Final Conference Safety Summary is reviewed and discussed for progress, barriers and recommended additional services. *Please see attached Initial Treatment Safety Plan, Weekly and Final Goal Review Sheet, and Initial and Final Conference Safety Summary.*

- **Therapeutic/Clinical Services:** The Family Specialist will do "whatever it takes" to address home, community and school related issues that are impacting functionality. This translates into strategies that are individualized and flexible based on the needs of each family; these are solution focused and address interpersonal (individual) and/or systemic (family, peers, school, community) factors. Interventions can occur in a number of different domains depending on the needs of the family (family, peer, school, community) and draw from a number of treatment strategies that include but are not limited to cognitive behavioral, crisis intervention, parent training and family skills building (e.g., advocacy, developing and maintaining community support), group counseling and support groups. Through the treatment process, barriers (such as poor parenting skills, mental health issues, fear of the school environment, peer pressure) that are causing issues for the family are identified, addressed, and resolved, directly or through community linkages, prior to discharge from the program. In the event additional, appropriate clinical services are deemed necessary, Berkshire staff will work closely with NCDSS to refer.

  The Family Specialist will provide services that are individualized, family and community centered, flexible, culturally competent, cost-effective, and provided within established time frames. The Family Specialist will work closely with NCDSS to assure that services are being delivered and performance targets are being met.

- **Family Team Meetings:** Family Team Meetings are a family-led decision-making process that brings together individuals concerned with the safety, permanency and well-being of the children to make the best possible plans and decisions. These meeting will take place determined on the family's individual needs.

- **Counseling:** Since the goal of the program is to help youth and families live successfully and safely in their homes and communities, a major element of the program will be the provision of individual and family counseling. Counseling will focus on helping youth and families address the issues that led to crisis at home, school and/or the community, and more importantly, on helping participants develop the skills, knowledge and resources necessary to achieve outcomes and live safely and independently in the community.

- **Case Documentation:** Each Family Specialist will provide all the necessary case documentation, utilizing the New York State's Connections System as well as all required NCDSS documentation and Berkshire's clinical case management paperwork. All Berkshire services are currently standardized upon a comprehensive case management policy. This comprehensive case management policy has been updated to reflect the changes required with Connections and adheres to all Administrative Directives published by the New York State Office of Children and Family Services, as well as best practice standards set by The Council of Accreditation (COA). Berkshire's Information Technology Department ensures that all programs and program staff are able to fully utilize all electronic data systems. Progress notes will be entered within five business days of event and within two days of opening in Connections.

- **Interpreter Services:** Because family participation is so critical to goal development and treatment planning, ensuring their ability to communicate effectively during all meetings and contacts is essential. Each Family Specialist will provide assistance to parents and families in communicating with all service providers regarding issues or concerns that would affect the family's stability within the community. This will include providing interpreter services that will encompass vision or hearing impairments, as well as linguistic challenges, that interfere with communication. Since at least two program staff will be Spanish-speaking, most linguistic needs will be addressed internally, and Family Specialists will work with families to access interpreters for other language needs. Berkshire's Long Island programs, including the VISION Program, utilize the services of Sally J. Maldonado, American Sign Language Interpreter, PO Box 146, Huntington Station, NY 11746, 631-312-7245.

- **Stand-By Guardian:** Each Family Specialist will work with a family to identify an agreeable stand-by guardian for each youth in the family in case of a family crisis or emergency or in the event a family needs a "break" from one another to effectively work on treatment plans.

- **Respite Services:** The Family Connections Program will work closely with NCDSS to evaluate the need for respite on an as needed basis. In addition to situations where a family needs a "break" from one another, respite may also be used when parents do not have child care, or in cases where children are at imminent risk of placement in order to ensure their safety while that issue is addressed and resolved. Berkshire has certified foster homes that can be utilized for respite services and Family Connections staff will help coordinate those services. The Respite Rate is not included in the budget.

- **Referral Services/Community Linkages:** The Family Specialists will ensure that all family members are linked to needed services and resources based on needs identified through the intake and assessment process, or during ongoing participation in the program. The Family Specialist will facilitate linkages to the appropriate community based service provider and provide/arrange for transportation as needed. Berkshire has established working relationships with and will reach out to the following:
  - Mental Health Services
    - Freeport Pride
    - Hispanic Counseling Services
    - Central Nassau Guidance and Counseling Services

- **Identification of Community Based Resources:** In addition to identified needed support services, Family Specialists will help youth and families identify recreational and leisure activities, facilities and groups to access during and after program services end. This is of particular importance in order to connect youth with positive activities during non-school and work hours, so unsupervised time is minimized. Family activities will also be explored and encouraged. Possible resources will include:
  - Big Brothers Big Sisters of Long Island

- Cornell Cooperative Extension of Nassau County
- Boy Scouts/Girl Scouts
- Art League of Long Island
- Local libraries in each Community
- Local Museums throughout the County
- Performing Arts Groups throughout the County – music, dance and theater
- Nassau County Parks

- **Transportation:** With Berkshire Prevention Programs, all transportation needs will be immediately addressed through the Family Specialist until formal services are put in place. This will include ensuring that youth get to school on time and that youth and families are present for all appointments, activities and Family Court appearances.

- **Safety:** A primary consideration for Berkshire staff is the safety of all family members. The major domains of life for youth include physical and mental health, family relationships, peer relationships, community relationships, education, occupational readiness and leisure/recreation. Any or all of these domains can create conflict and ultimately unsafe situations for the youth and/or families. Therefore, the Family Connections Program will help families learn to handle life stressors in certain domain areas in a productive and safe manner so that youth receive the instruction and support they need.

- **Parenting Skills:** Family Specialists will provide support and education to parents to help them learn the skills necessary to keep their children safe in the home. This will happen during individual and family sessions, using age-appropriate skill-building, role playing and direct instruction.

- **Parent Aide Services:** Depending on results of assessments, the Family Specialist will work with parents, assisting them with needed concrete instruction/support. Areas that parents may need assistance with may include: setting rules, rewards and consequences, appropriate discipline, infant care, potty training, transportation for shopping or laundry, developing morning and evening routines with children, and household organization.

- **Social and Interpersonal Skills Building:** During individual sessions with the youth and family, each Family Specialist utilizes Albert Bandura's Social Learning Theory, which stresses the importance of observational learning. Using this theoretical framework, interpersonal and daily living skills are demonstrated consistently by the Family Specialist through role modeling and interacting whenever in contact with the family.

- **Independent Skill Building:** For youth ages 14 and older, independent living skills programming will be available. Starting with the Ansell Casey Life Skills Assessment to determine areas of strengths and needs, individual and group instruction will be held to teach and rehearse skills as youth prepare for their futures at home and in the community. Needs identified in the Ansell Casey will also serve as a guide for linkages to community resources in areas such as vocational training and career planning.

- **Basic Skills Development**: Basic skills development will be taught and nurtured through advocacy, support, instruction, and other activities. Through these techniques, the Family Specialist will assist the parent(s) in developing crucial life skills such as age-appropriate parenting, meal planning and preparation, developing and adhering to budgets, learning to appropriately advocate for services (academic, medical, mental health, etc.) and navigating the social services system. Other skills include helping parents apply for and maintain long term benefits such as food stamps, SSI, subsidized child care, medical insurance assistance and subsidized housing, and identifying and visiting food pantries and thrift stores. As appropriate, families will be connected with community resources to ensure they are able to always meet basic needs. Food pantries, churches and thrift stores in each community will be utilized.
- **Problem Solving/Decision Making Activities**: During visits with families, Family Specialists will devote time to helping family members develop effective problem solving and decision-making skills in order to more effectively manage crises and problem situations in the future. This is an important aspect of services and will be a focal point of all home visits with both the youth and family members.

- **Educational Support and Advocacy**: When academic issues are identified in assessments or during discussions with school administrators and staff, appropriate goals and strategies to achieve them will become part of the treatment plan. Berkshire has a long history of reducing truancy and the risk of school failure, and the strategies developed through this experience will be used in Family Connections. The Family Specialist will also provide parents with assistance and support to advocate for their youth's needs, and provide youth with skills and services to succeed in school. Family Specialists will also help families identify appropriate after school programs that enhance performance and behavior and provide constructive use of leisure time.

- **Tutoring**: Tutoring services will be offered to each family member on an as needed basis. Possible resources will include local colleges such as the Hofstra and the State University of New York at Farmingdale. Any academic needs will be immediately addressed through the Family Specialist until formal services are put in place.

- **Developmentally and Age-Appropriate Programming**: Youth and families in the Family Connections Program will be offered programming that is appropriate for their ages and developmental levels.

- **Flexible Emergency Fund**: The Flexible Emergency Fund is money needed/used to help families with items and situations that are beyond the "normal" scope of program services. Examples of uses for this fund may include purchasing provisions needed to ensure the family's basic needs are met, appropriate school clothes for a child who lacks this or paying for an American Sign Language interpreter for a parent who is hearing impaired.

In summary, the core features of the program include, but are not limited to:

16. Individualized, trauma-informed, strength-based, culturally sensitive, family-focused treatment.

17. Responding to referrals from the Department within 24 hours of receipt, resulting in diffusion of the crisis in the family and stabilization of the family system.
18. Engaging families quickly to enable them to accept the services offered.
19. Direct treatment including school, home, and community-based interventions.
20. Intervening directly with issues as they develop in order to reduce potentially dangerous situations and defuse the potential for violence.
21. Striving toward the development of better coping skills, parenting skills and the ability to organize and manage more effectively the responsibilities of family life.
22. Increasing the ability of families to use the array of community resources available in Nassau County.
23. Staff is available 24 hours a day, seven days a week, for crisis intervention, consultation by telephone and face-to-face contacts.
24. Working collaboratively with multiple systems in the youth's life, such as family court, law enforcement, school personnel, the youth's family, community agencies, NCDSS caseworkers, etc.
25. Intensive services consisting of small caseloads of up to 4 families with multiple home visits weekly as well as unlimited collateral contacts to coordinate services.
26. Staff work with families where and when it is most convenient for the family; however, at least half of the contacts will occur in the home.
27. Family Specialist will work flexible hours to accommodate family schedules.
28. Families are active participants in problem resolution and change, rather than passive recipients for services or treatment.
29. Aftercare services will be provided to each family for an additional 30 days after discharge.

Staffing Requirements

The Families Together Program will have a Program Coordinator, six (6) Family Specialists and one (1) Program Secretary. Berkshire intends to employ staff with the following characteristics:

- Representative of and sensitive to the community served, in terms of culture and language. This will include at least 1-2 direct service staff members who are bilingual in English and Spanish to ensure appropriate services to the large Hispanic population in the community.
- Appreciative and respectful of the cultural diversity, values and traditions of the youth and families served as well as the community as a whole.

- Experienced in a variety of concepts and practices regarding individual and family treatment, domestic violence issues, mental health and substance abuse assessment and treatment.
- Comfortable with and able to reach out to and develop relationships with community based service providers.

Berkshire's Supervisory Philosophy

Berkshire ensures that all staff, regardless of department, program or position, receives regular supervision. For direct care staff such as Family Specialists, supervision occurs on a weekly/bi-

weekly basis for at least one hour. The philosophy behind the supervisory process is "Supervision For Success." This model is punctuated by the premise that all employees want to succeed in their job, and it is the supervisor's responsibility to provide them with the tools, knowledge and resources so they can succeed. Starting with recognizing strengths and accomplishments, the model empowers employees to take responsibility for their actions and strive to enhance performance.

For Family Connections, the Program Coordinator will provide clinical and administrative supervision to the Family Specialists, as well as administrative supervision to the Program Secretary. The Program Coordinator will receive clinical and administrative supervision from the Assistant Director of Prevention.

Recruitment

- With the existing Family Connections Program in place there will be no delay in startup for the 2013 year. Any additional recruitment of program staff will be initiated by Berkshire and will include the placing of advertisements in local newspapers and penny savers, information on Berkshire's website, distribution of flyers, placing of newspaper articles about the program, speaking to local business and civic groups, and meeting with community groups and members.
- Candidates will be interviewed by Berkshire's staff as well as representatives from the Nassau County Department of Social Services. The process will include an initial interview, followed by a second interview for final candidates.
- Candidates will be cleared by the New York State Child Abuse Registry, and undergo criminal background checks. References and past employment will be checked as part of the recruitment and hiring process.

Training

Berkshire is committed to providing staff with trainings that optimize their performance and understanding of program services. Berkshire's philosophy is that its training and staff development programs meet and exceed all regulatory and accreditation requirements for training. Trainings are designed to provide staff with a broad understanding of the needs of youth and families with the goal of empowering them to reach their highest potential. Trainings emphasize the concept of partnership in working with children, families, communities and collateral agencies. In addition, staff is educated in policies, procedures and guidelines to assure they are prepared to exercise the responsibilities of their positions. Topics for training include but are not limited to:

- History of Berkshire, and its mission and values
- Agency Policies including: Discrimination/Harassment, HIPAA/Confidentiality and Media Relations
- Incident reporting and Casework documentation
- Professionalism and boundaries
- Safety and emergency procedures
- Therapeutic Crisis Intervention – 3 day training focused on therapeutic de-escalation techniques

- Court Proceedings
- Culturally Competent Care
- Worker safety in the field
- Team building
- Trauma Informed care/Sanctuary Model training
- Clinical training
  - Child, adolescent and adult development
  - Adventure Based Counseling Model
  - Learning Theory
  - Maslow's hierarchy of needs
  - Common mental health diagnoses and issues
  - Suicide prevention
  - Intake process and treatment planning
  - Solution Focused Therapy
  - Structural Family Therapy
  - Trauma Focused Cognitive Behavioral Treatment
  - Functional Behavioral Assessment

The initial training will take approximately one week and include the following: youth development and human behavior, HIV/Universal Precautions, how to work with a child who has ADHD, crisis intervention, the community, and how to be an effective team member. Program staff will also receive formal training at least quarterly on topics such as how to handle a crisis, work effectively with oppositional behaviors, handle loss, and other trainings identified by staff. Attendance at regional and statewide training sessions will be encouraged and team members will be included in all pertinent workshops/training sessions sponsored by Berkshire.

Training also occurs in a less formal, but extremely valuable manner in the form of peer mentoring. Family Connections Program staff, as part of Berkshire's Prevention Program Department, is part of the team of staff currently providing Prevention Services to children and families. Prevention staff is available to one another to offer assistance and answer questions regarding working with this population and working in collaboration with the County and its communities. In addition, the statewide Director of Prevention, Assistant Directors, other Program Coordinators and experienced community based staff members will be available to offer expertise and assistance.

As indicated earlier in this proposal, Berkshire pays close attention to ensuring that staff is reflective of and/or knowledgeable about the languages and cultures within the communities to be served. This starts with hiring staff from the community whenever possible and then providing them with thorough training on the characteristics of the target population and community. This is stressed at all times during program operations and includes ongoing training when appropriate.

All Family Specialists providing preventive services will successfully complete the appropriate OCFS CORE Training Program. All staff training services will be an in-kind contribution.

Effectiveness of Program

The success of Berkshire's preventive services over the past 30+ years has been based on five key beliefs/values:

1. Placement is not an option. We will continue to work day and night with the youth and families no matter the resistance or issues at hand. The only cause for removal is for safety reasons due to the level of risk for harm to self and/or others.
2. Prevention services must occur in the home. Only within the home environment will the Family Specialist truly learn the family dynamics and real issues. It is also the only way to successfully engage the family members.
3. Prevention Family Specialists must have a **passion** for the job. It is not only about their past professional experiences and education (degrees), it is much more about a commitment to do whatever it takes to truly make a difference.
4. Prevention Family Specialists must be able to "roll up their sleeves" and directly provide the needed services/treatment. This is not a case manager position. Although the Family Specialist will help locate needed community resources (i.e. substance abuse, mental health, medical, housing, etc.), their focus is direct care to the youth and families.
5. Although usually there is an identified youth needing services, Berkshire's Family Specialists will always work with the entire family. Resolutions to issues usually include the involvement of various family members – not just the identified youth or a parent.

Berkshire has been providing Prevention services for over three decades in counties around New York State including Suffolk, Nassau, Bronx, Schenectady, Albany, Schoharie, Orange, Saratoga, Columbia, Montgomery, Niagara and many more. In that time, the agency has developed and refined programming to become a leader in community-based prevention service provision. As a result of the quality of programs, 19 counties currently have contracts with Berkshire for Prevention services. Below are recent statistics that demonstrate the extent of that success:

- 100% of children and families had access to their Family Specialists or Program Coordinator twenty-four hours a day, seven days a week.
- 98% of children remained safely in their homes, avoiding placement.
- 97% of parents increased their involvement in school and community-based activities and services.
- 90% of children improved their attendance and/or reduced their tardiness in school.
- 97 % of children avoided the filing of a PINS petition during the program year.
- 95% of children remained successful in their home and communities.

For the Family Connections Programs in Nassau County, the following outcomes were achieved in 2011:

- Family Specialists provided individual and family counseling in the school and home setting for ninety seven (97) or one hundred percent (100%) of the families and their children in the program.

- Two hundred thirty-three (233) or ninety-six percent (96%) of children served in 2011 averted out-of home placement while in the program.
- Child care services were secured for twenty-one (21) or one-hundred percent (100%) of families requiring assistance in order to maintain attendance in day treatment programs, educational services and employment searches.
- Family Specialists linked seventy-two (72) or one-hundred percent (100%) of families requiring services, with mental health providers and counselors in their communities.
- Family Specialists assisted/arranged one hundred (100) or one hundred percent (100%) Early Intervention Screenings for all children under age of five.

In addition to the outcomes listed above, Family Connections resulted in significant cost savings for Nassau County. Based on the 242 youth involved in the program, the cost of the nine (9) youth placed in Foster Care plus the cost of operating the Family Connections Program, the cost savings to Nassau County, based on a 12-month placement, is calculated as follows:

Placement	# of Children	Per Diem Rate	Yearly Rate
Foster Care	233	$63.32	$5,385,049
Subtotal			$5,385,049
Less the cost of the nine (9) children place at Foster Care level			$208,006
Less the cost of the Family Connections Program			$547,713
Estimated savings for 2011			$4,629,330

Estimated savings are conservatively calculated by utilizing the least restrictive environment in determining the level of care that would have been needed by the 233 children who averted placement in 2011.

Tracking Mechanism	Success will be measured by case records, contact tracking and monthly reports.

The strategies used to achieve these outcomes and performance targets include the following:

- The strategies used to achieve the outcomes of *24 hour intake and assessment, rapid engagement, 72 hour face-to-face contact and rapid service delivery of youth and families* include: unlimited phone contact, home visits, and immediate crisis response by Family Specialists who exhibit empathy, understanding and a non-judgmental attitude. In addition, Family Specialists have flexible schedules to accommodate families' availability, and provide transportation whenever needed to facilitate family participation.
- The strategies used to achieve the outcomes of *reducing the number of youth removed from their homes into Nassau County custody during program participation and assisting families to remain intact* include: intensive home based interventions, crisis response and linkages of

youth with community resources for services surrounding such areas as financial, mental health, substance abuse and domestic violence concerns. Further strategies include: individual and family counseling, skills building and positive decision making activities.

- The strategies used to achieve the outcome of *increasing parenting skills* include: immediate crisis response, individual and family counseling, parenting instruction and assistance, problem solving and decision making activities.

These outcomes will be tracked by the Program Coordinator through staff supervision, case reviews, quarterly file audits, behavioral referrals, treatment reviews, Berkshire's internal Quality Assurance Protocols, and the Department's Weekly Prevention Reports. All program outcomes will be reviewed with the Department throughout the life of the case.

Program Monitoring and Evaluation

Evaluation will be an integral part of the program, and is designed to determine the success of the program and monitor ongoing program operations. To this end, Berkshire gathers and provides information related to program effectiveness, client long-term outcomes, client and family satisfaction, and coordinates the agency-wide program for quality improvement.

- **Supervision:** The Program Coordinator will review cases during supervision and prepare weekly reports for the Department. Supervision will occur weekly beginning the first week of program implementation. In addition, bi-weekly team meetings will be held with the entire program staff. All program forms and documentation will be reviewed and approved in order to monitor individual youth and family's progress, and ensure that all staff is providing high quality service.

- **Submitted Department Reports:** Weekly department reports will be submitted to NCDSS, including Conference invitations, weekly current cases, Connections reports, Initial and Final Conference Safety Summaries and all other reports as directed by NCDSS. Additionally, quarterly and annual reports will be submitted to the NCDSS.

- **Case Records:** case record audits will be conducted on all case files to ensure program compliance with all federal, State and local rules and regulations during and at close of a case.

- **Program Outcomes:** Information is collected from youth and families in all Berkshire's programs. This information includes how youth are progressing in relationship to specific issues such as parenting skills and family functioning.

- **Quality Improvement:** Berkshire's Performance and Quality Improvement Program (PQI) includes the agency's stakeholders in PQI processes and directly supports all programs in their full realization of program goals and the goals of the Agency. Specific QA activities are:
  - *Case Documentation Reviews*: are overseen by key agency leaders responsible for program supervision and oversight. Case documentation review criteria, procedures, and schedules are established by program area Directors and their Program Coordinators, ensuring that accrediting standards are fully met, reviews are performed quarterly, and that at least the required cumulative numbers of open and closed cases are reviewed in any fiscal year.

Results of case documentation reviews are discussed at department forums, staff meetings and individual supervision. Based on these reviews, supervisors and their teams establish lists of strengths, issues of concerns, and patterns that are used to formulate improvement plans. Staff leaders responsible for these reviews for this program are the Director and Assistant Director for Prevention.

- *Utilization Review*: Berkshire's utilization review (UR) process measures the safety, permanency and well-being goals achieved for each client, based on case documentation. The agency UR Committee, comprised of leaders of all program areas, meets regularly to ensure the review process is in place, and assesses the results of reviews. Results of the utilization reviews are summarized by the PQI Specialist and communicated to program area leaders; these results are also shared with the UR Committee that allows them to identify strengths, issues of concern, individual patterns, and overarching trends. The Committee requests corrective action steps in response to review findings in order to improve programs.
- *Program Outcomes*: PQI coordinates data collection on program outcomes. Each program conducts monthly data collection that reflects family progress in specified target areas, such as suspension from school or increased family involvement; or achievement of standards, such as minimum case contacts and after hours assistance. PQI coordinates quarterly reviews of outcomes to ensure quality and identify any deficiencies in service delivery. These deficiencies and steps taken to rectify them are explored during case reviews between program coordinators and staff members.
- *Satisfaction Surveys*: On an annual basis, youth and families, agency personnel, volunteers, and referring agencies are asked for their input and levels of satisfaction regarding various elements of the agency's services. Results of the survey help the agency as a whole, and each program, identify successes and weaknesses in service delivery and make adjustments to enhance services.
- The PQI Department oversees health and safety issues, the incident and child abuse review and reporting process, and the services utilization review. Health and safety monitors physical environment, recreation, health, and nutritional issues for each youth. The incident and child abuse review and reporting system monitors the types, indicators and frequency of any critical incidents occurring within the Agency, as well as follow-up to incidents and any allegations of child abuse. Services utilization review monitors appropriateness of admissions and the timeliness and appropriateness of aspects of the treatment process such as assessments, the quality of treatment, record maintenance and discharge planning.

Family Involvement:
Berkshire is committed to including families in every aspect of service. Regardless of program or identified client, youth, parents/caregivers and other family members are involved in family team meetings, assessments, treatment plan development and implementation, and program evaluation. This is because ultimately, it is the family's needs and strengths that determine service delivery and achievement of outcomes. Together with program staff, families' natural

supports, and relevant service providers, families will identify and secure the community supports and services they need to live safely and successfully in their homes and communities.

Evidence-Based Programs and Practice Utilized by Berkshire Farm Center and Services for Youth

Berkshire has begun implementing the Sanctuary Model® which is a trauma-informed, evidence-supported, whole culture approach designed to create or change an organizational culture. Its objective is to improve the organization's ability to more effectively facilitate healing from psychological and social traumatic experiences and extended exposure to adversity. Sanctuary promotes the development of structures, processes, and behaviors on the part of staff, clients and even the community at large.

By framing program youth's circumstances in a context of "What has happened to you?" rather than "What is wrong?," it becomes easier for not only staff, but the youth themselves to start thinking of terms of healing and growth rather than correction and morality issues as they attempt to set goals and move forward with their lives.

Sanctuary is becoming the guiding principle of inter- and intra-agency relationships as well. There has been a concerted effort in the last two years to train staff in Sanctuary methods and terminology and to have Sanctuary principles and guidelines become how Berkshire staff relates to others within Berkshire as well as to the community beyond. The Seven Commitments of Sanctuary - Nonviolence, Growth & Change, Democracy, Social Responsibility, Open Communication, Social Learning, and Emotional Intelligence - have become the touchstones of both treatment strategies that the agency uses with youth and families in all its programming, and also how the agency itself operates internally.

Berkshire also has implemented the following:

Functional Family Therapy: Functional Family Therapy (FFT) is an evidence-based, highly effective family intervention program for at risk youth and their families. FFT's intent is to prevent the need for placement or re-placement in foster care, to serve as an alternative to detention, and to expedite the reunification of youth transitioning from care. Anticipated outcomes are improvement in school attendance and performance, improved family functioning, and prevention of involvement or further involvement in the juvenile justice/child welfare systems.

Berkshire has a history of providing this model and recently reinstituted the provision of FFT to the youth and families of Schenectady County. While only specific to that one FFT program, the philosophy of the FFT model is compatible with Berkshire's programming philosophy and it resounds throughout Berkshire Prevention programs: FFT stresses the significance of engagement in the therapeutic process; has a supportive supervision model that promotes a strength-based approach to working with staff and clients; and recognizes the importance of working with community based resources to assist youth and families be successful. These premises are central to all Berkshire programming.

Ansell-Casey Life Skills Assessment: The Ansell-Casey Life Skills Assessment, for youth 14 and older, includes a collection of comprehensive online assessments, learning plans, and learning resources that can be of use engaging young people so that they can master independent life skills and build healthy relationships, which are of assistance as they approach adulthood. The tools are strength-based, and built and refined with user input and research. The assessments consist of statements about life skills domains deemed critical by youth and caregivers for successful adult living. Each youth is asked to complete the assessment upon intake and discharge to assess their basic skill level in a variety of daily living modules such as money management, peer relations, and knowledge of and use of community resources.

As mentioned on page 1 the model of practice used in Berkshire's family preservation and other community based programs including Family Connections is an integration of ecological models (MST, Henggeler & Borduin-1990, and Homebuilders; Kinney, Haapala, & Booth, 1991) that are based on Systems and Social Learning theories. These theoretical frameworks are incorporated into all programming agency-wide. In addition, Berkshire's Prevention programs are founded on principles of best practices as discussed on pages 2 and 3. Ultimately, Berkshire believes that each family is unique, with different needs and strengths. Thus, the programs are flexible enough to address the individual youth and their families in the context of, the school, the community, and any other systems in which the youth is imbedded.

Location and Description of Office

Berkshire's Long Island Office, located on the border of Nassau and Suffolk Counties, is "home" to Family Connections staff, but most services are provided in families' homes and local communities. In the event families need to go to the office, its location is easily accessible to the targeted community. It is centrally located off of the Long Island Expressway (I-495) and Route 110 and the Southern State Parkway. The local bus is accessible as well as the Long Island Railroad. This location is ideal as not only is it easily accessible by families throughout the county, but equally important, staff will be able to respond to youth and families without delay.

Understanding of, and Experience in Provision of Services

Berkshire Farm Center and Services for Youth is a statewide nonprofit child welfare agency with a distinguished history of working with children and families for more than 125 years. Founded in 1886, Berkshire is the largest, and one of the oldest, child welfare agencies in New York State. Berkshire's mission is: ***"to strengthen children and families so they can live safely, independently, and productively within their home communities."***

Berkshire's values:

- We treat each child and family with dignity.
- We respect and honor the courage and inherent strengths of the children, families, and communities we serve.
- We view children in the context of their families and communities.
- We embrace families as partners.
- We appreciate and affirm all aspects of diversity, whether the diversity is religious, cultural, ethnic, or gender.
- We ensure children are cared for in safe, therapeutic, and caring environments.

- We ensure all services are individualized, empowering, and effectively provided; we focus on permanency and stability.
- We value and support a confident, well trained, and competent staff.

Throughout its rich history, Berkshire has been a pioneer in responding to local needs across New York State – helping create stronger families, neighborhoods and communities. Currently, the agency provides a system of care that includes community, school, and home-based prevention programs, prevention/reunification programs, therapeutic and treatment foster care, respite services, adoption services, programs for runaway and homeless youth, secure and non-secure detention, group homes, and the residential treatment center.

Berkshire has been providing services to youth and families since 1886 at its Residential Treatment Center and for more than 40 years throughout New York State. Through its system of care, Berkshire works with youth and families who are involved with many systems including Child Welfare, Juvenile Justice and Mental Health. Over time, Berkshire has developed not only strong and effective programming, but also a keen understanding of the myriad of issues, behaviors and environmental factors that are faced by the families served.

Because of this wealth of experience, Berkshire has become extremely familiar with the characteristics of this population. While each youth and family is unique, this population has many commonalities. Compounding problematic behaviors are a host of other challenges – mental health, substance abuse, behavioral, educational and family – that have added to their struggles. These youth predominantly come from impoverished neighborhoods with limited resources; they live in single parent, female-run households, often with generational histories of abuse and/or mental illness and substance abuse; many have experienced school failure; and most do not receive the structure, supervision and support they need. Because of their multiple issues, they require intensive, home and community based services to remain safely in the home. Berkshire's Prevention programs have been enhanced over the years to respond to the multi-faceted needs, challenges, and characteristics of youth, families and the communities in which they live.

Berkshire, through its array of Prevention programs across New York State, has been extremely successful in keeping youth safely in their homes, improving family functioning and averting the need for out-of-home placement, as demonstrated in these outcomes over the last five years:

- 96% of the youth served averted out-of-home placement.
- 98% of youth demonstrated a reduction in problem behaviors at home and in the community.
- 98% of children with truancy issues increased their attendance levels
- 98% of parents increased their involvement in community and school services and activities.
- 100% of youth and families increased their awareness of and access to community supports.

Capability to Provide Services

Berkshire has over 125 years of experience working directly with the target population through community based and congregate care programming. From small programs serving dozens to large, comprehensive programs that serve hundreds at a time, the agency has the capacity to:

effectively hire and maintain staff that is reflective of and responsive to the cultural and linguistic characteristics of the populations in each program; provide high quality services that are tailored to meet the needs of each community and its population; and maintain fiscal responsibility and accountability. This includes operating programs through contracts with State and county agencies and those funded through the Request for Proposal process with local, State and federal funding sources. Funders in this latter category include the New York State Office of Children and Family Services and New York State Education Department at the State level and the Administration for Children and Families and the Department of Labor at the federal level. With all programming, Berkshire is committed to full compliance with all relevant laws, rules and regulations as well as all contractual requirements. All employees maintain appropriate qualifications and licenses for their job responsibilities and the agency leadership team possesses a wealth of knowledge and expertise in issues and challenges related directly to the families served.

Berkshire has over a century of experience working with the Family Connections target population, and through the decades, programming has been tailored and refined to meet the needs of youth and families in their home communities. As a result, staff will have an array of experts and experience from which to draw. This begins with the Chief Executive Officer, Chief Program Officer, Director of Prevention and her leadership team, all who fully support this program. Even more importantly, program staff will be able to draw on Berkshire's current Prevention team, including those working in Nassau County, who can provide tremendous insight into the target population's strengths and challenges, and the communities in which they live. Finally, the Family Connections Program will have assistance of agency departments that work on behalf of all programs to maximize value to youth and families, ensure cost effectiveness for funders and that all programs meet and exceed all standards, laws and regulations. These departments include IT, Human Resources, Finance, PQI, and Development.

Capacity to Establish a Successful Partnership with Nassau County

Berkshire has worked in partnership with Nassau County for over 20 years, providing high quality community-based services to the youth and families of the county. In that time Berkshire and the Nassau County Departments of Social Services and Probation have worked together to ensure that services are refined and tailored to address and meet the specific needs of the children, families and communities of the County. Specific partners and collaborations include:

- *Nassau County Department of Social Services* will provide a liaison to coordinate referrals and support the program. The Family Connections Program staff will work in close collaboration with each youth and family's Department Case Manager.
- *Local Law Enforcement:* Family Specialists will work on a collaborative basis with local law enforcement agencies, to enlist their support in providing services to youth and families. The goal will be to reduce the need for law enforcement intervention.
- *Local School Districts:* Family Specialists will work with school districts of youth in the program who are struggling with attendance, performance and/or school behavior challenges. The goal will be to support youth's academic performance and progress.

In order to provide youth and families with comprehensive services and support, there are an array of other community-based organizations and agencies that Family Connections will reach

out to when appropriate. These are listed earlier on pages 8 and 9. In addition, Family Specialists and the Program Coordinator will reach out to the community to familiarize community members about the program and continually identify resources to expand the network of resources available to youth and families in their local communities.

c. Implementation Schedule

With the existing Family Connections Program in place there will be no delay in startup for the 2013 year. Therefore, program services for the Family Connections Program will begin on January 1, 2013.

d. Reports

At the conclusion of each program year, Berkshire provides the County with an annual report for the program. This report provides an overview of the program for the year and highlights the following:

- Description of referrals
- Presenting problems of youth and families referred to the program
- Average length of stay
- Outcomes for the years
- Success story
- Estimated cost savings
- Program statistics: number of children served, ages, ethnicity, family structure, and outcomes
- *Please see attached annual report for Nassau County Family Connections for 2011.*

e. Staffing

The agency leaders who will oversee the Family Connections Program are:

Stacy Williams, Director of Prevention, has been with Berkshire for eight years. Starting in foster care, Stacy switched her focus to Prevention. She began as a Family Specialist, and then took on more and more responsibilities, first as Program Coordinator, then as District Supervisor and currently as Director of Prevention and Non-Secure Detention Services. In her tenure at the agency, Stacy has refined her clinical skills, her supervisory skills in leading prevention programs, and her relationship-building skills in working with County departments and community based agencies, schools and community members. She is adept at motivating staff to provide the highest level of services and to appreciate the importance of establishing a presence in the community. Stacy provides leadership, support and direction to Program Coordinators and staff across New York State.

Jennifer Dane, LMSW, Assistant Director of Prevention, has been with Berkshire for the past nine years. She started as a Multisystemic Therapy (MST) Therapist in 2003, and was promoted to Prevention Program Coordinator in Schoharie County in 2005. In that role, Jennifer managed five prevention programs, worked closely with the County and community based agencies, and greatly expanded programming. In 2010, in recognition of her commitment and hard work, Jennifer was promoted to Assistant Director of Prevention, enabling her to share her skills and experience with Prevention programs across the state. Jennifer has excelled in this position, as evidenced by the great work she has accomplished overseeing Berkshire programming in New

York City and Long Island, including Berkshire's current programming in Nassau County. Jennifer has also become an active and respected participant within the network of providers of services to youth and families of Nassau County. This is accentuated by her recent invitation to serve as a member of the Nassau County Juvenile Crime Enforcement Coalition and to attend the monthly Juvenile Justice Provider Meetings.

Rene M Stratton, MSW, Program Coordinator, Nassau Family Connections, has been with Berkshire for four years. She began her career at Berkshire as a Social Worker with the Stepping Stones PINS Diversion Prevention Program. She then took on the role of Mentoring Coordinator in 2008 where she helped develop a mentoring program for youth at Berkshire's Residential Treatment Center so they were able to maintain connections with their home communities and assist in their transition when they return home. In recognition of the work she had done in Nassau and Suffolk counties, Rene was promoted to Program Coordinator of the Stepping Stones Program and ACS-funded Bronx Family Connections Program. In September of this year, Rene also became Program Coordinator of the current Family Connections Program in Nassau County. She has a great understanding of the needs of youth and families in Nassau County and has developed strong relationships with County and community based providers. Rene is a member of Long Islanders for Families and Youth, the County's, Substance Abuse Task Force, and the Nassau County Department of Health Perinatal Services Network Consortium

f. Prior Experience

Experience With the RFP services

Berkshire has been providing Family Connections to the children and families of Nassau County for 20 years and Columbia County for 17 years. In addition, Berkshire provides intensive prevention services, comparable to the services in this proposal, in Suffolk, Rensselaer, Clinton, Saratoga, Schoharie and Washington counties. All of these programs require close collaborations with the Departments of Social Services and Probation in each county as well as the network of service providers within each county and its community. Over time, these programs have helped thousands of families, among the highest need and highest risk in their counties, develop the skills, knowledge and resources necessary to avoid the need for out-of-home placement and improve family functioning. Outcomes over the past three years highlight this success:

- 94% averted the need for out-of-home placement during participating in the program
- 82% alleviated factors that placed children at risk for out-of-home placement
- 100% of families were linked with appropriate community based resources for mental health and other service needs and issues
- 96% of parents increased their involvement with services and activities at school and in the community

These outcomes demonstrate the effectiveness of Berkshire's intensive prevention programming, enabling youth to remain safely in their homes and families to function positively and productively within their communities, rather than to require youth to be placed outside of the home.

Experience With Public Sector Clients and Services of Similar Size and Scope

Berkshire has successfully been providing Prevention Services in counties around New York State for well over three decades. These services are designed to provide intensive home, school

and community-based services to preserve and strengthen the family unit and to avoid the unnecessary placement of children outside of their homes. Children and families in these programs are involved with Child Welfare, Probation, and Mental Health, as well as community based agencies and resources throughout communities and counties across New York State. Working in collaboration with county Departments of Social Services and Probation, Berkshire's Prevention Programs have been refined and enhanced to meet the needs of Counties and their youth and families. Berkshire currently has programming in 19 counties across New York State and provides 39 separate programs within those counties. They are:

- Albany County Advantage After School, Home Run, Pathways, Transitional Support Services
- Allegany County Turnabout
- Bronx Family Connections, Power Project
- Cattaraugus County FAR, Turnabout
- Clinton County Stepping Stones
- Columbia County Family Connections, Transitional Services, Prevention
- Hamilton County Home Run
- Montgomery County Stepping Stone
- Nassau County Family Connections, Families Together
- Niagara County Home Run
- Orange County Independent Living Program, Pathway
- Rensselaer County Advantage After School, Stepping Stones
- Saratoga County Short Term Prevention, Long Term Prevention, Turnabout
- Schenectady County Functional Family Therapy, Home Run, Prevention, Vision
- Schoharie County: Home Run, Project Buoyancy, Turnabout, Vision, Independent Living/Respite, Stepping Stones
- Suffolk County Stepping Stones
- Warren County Pathways
- Washington County Stepping Stones
- Columbia/Cattaraugus Pathways

As this list suggests, Berkshire provides Prevention programming across New York State, serving all localities, from small rural communities to large, urban centers. Regardless of location, Berkshire programs are tailored to meet the needs of each County and its youth and families. Similar services to the ones provided by Family Connections are provided in Schenectady, Albany, Columbia, and Saratoga counties as well as in the Bronx. These services have proven effective and helped hundreds of children and families succeed at home, in school and in their community:

- 90% of youth served in Berkshire Prevention programming avoided out-of-home placement
- 98% of parents increased their involvement in services in the community and in the school

g. Additional Information

Berkshire is committed to working with Nassau County to provide high quality programming for its youth and families. In the 20 years Berkshire has provided programs in the County, agency staff has worked in close collaboration with the County to ensure that services are matched to the

needs of the County and its families. Berkshire's commitment was recently reinforced, allowing Berkshire to expand its services in Nassau County even further. In 2010, Berkshire responded to a Request for Proposals from the New York State Office of Children and Family Services for their Community Reinvestment Program for alternative to detention programming. Berkshire reached out to Nassau County to be its partner for this program, recognizing the strength of the established relationship and understanding the need for services in its communities. The proposal, for the Families Together Program, was one of only seven awards statewide and today, that program is an important element in the system of care for the youth and families of Nassau County. In fact, in the first quarter alone, the program exceeded all outcomes for children and families, an indication of the strength of the partnership and an excellent predictor of the high quality of services yet to come.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime

contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

1. In the past five years, Contractor __X__ has _____ has not been found by a court or a government agency to have violated federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed against the Contractor, describe below:

On December 16, 2011, NYS Department of Labor conducted an audit at one of the agency's worksites located in Rochester, NY. The purpose of the audit was to review payroll and time records for the period of December 5, 2005 to December 5, 2011. Correspondence received from NYS Department of Labor on December 28, 2011 indicated two violations as a result of the audit.

Article 5 – Labor regulations require uninterrupted meal periods for employees working a shift of more than 6 hours. Although labor regulations do not require that these meal periods are paid, it is the policy of this agency that meal periods are paid. Because meal breaks are paid, employees may not have punched in or out for their meal period. Therefore, meal periods may not have been reflected on time records.

Article 19 – Labor regulations required that employers keep and have available for inspection records for employees. At the time of the audit, the agency was not able to produce some of the some of the time records from the earlier end of the requested timeframe. Time records from the earlier end of the requested timeframe were prior to agency's use of electronic timekeeping system and not able to be furnished at the time of the audit.

Correspondence received from NYS Department of Labor also directed that $2,637.77 be remitted for payment to eight (8) employees who were identified during the time of the audit to be due wages for overtime worked. This amount included 25% liquidated damages. On January 18, 2012 the agency contacted the NYS Department of Labor to discuss these findings and furnish payroll records which satisfied that these eight (8) employees had, in fact, received some of the wages due. Upon review of the agency's explanation and documentation, the NYS Department of Labor accepted payment in the amount of $1584.22 including 25% liquidated damages.

On January 25, 2013, NYS Department of Labor conducted an audit at one of the agency's worksites located in Valatie, NY. The purpose of the audit was to review payroll and timekeeping records for the period of January 1, 2011 to December 31, 2012. Correspondence received from the NYS Department of Labor on March 15, 2013 indicated one violation as a result of the audit.

Article 5 - Labor regulations require uninterrupted meal periods for employees working a shift of more than 6 hours. Although labor regulations do not require that these meal periods are paid, it is the policy of this agency that meal periods are paid. Because meal breaks are paid, employees may not have punched in or out for their meal period. Therefore, meal periods may not have been reflected on time records.

Correspondence received from NYS Department of Labor also directed that a penalty in the amount of $100.00 be remitted for payment. This amount was paid in full.

Documentation is available upon request.

2. In the past five years, an administrative proceeding, investigation, or government body-initiated judicial action __X__ has _____ has not been commenced against or relating to the Contractor in connection with federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If such a proceeding, action, or investigation has been commenced, describe below:

   On November 24, 2010 the National Labor Relations Board for Region 3 issued correspondence alleging that the agency violated Section 8(a)(1) and (5) of the Act by unilaterally changing the health insurance coverage for bargaining unit employees, establishing Health Reimbursement Accounts (HRA's) for bargaining unit employees and that resulted in increased out-of-pocket expenses for the employees.

   On May 27, 2011 a decision was issued finding that the agency had violated the Act as alleged.

   On November 2, 2011, the parties reached a Board settlement resolving the issues in the above matter which included payment to nine (9) bargaining unit employees for the combined amount of $12,358.16 as a make whole payment for health insurance out-of-pocket expenses incurred.

   On January 4, 2012, the Regional Director approved the settlement. Payment was promptly issued and the mandatory notices to employees were posted for required timeframe.

   On March 27, 2012, the case was closed.

   Documentation is available upon request.

IV. ☐ Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

☐ **A.** The contract has been awarded to the proposer offering the lowest cost proposal; **OR:**

☐ **B.** The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

V. ☐ Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

☐ **A.** There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. ☐ This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

PROJECT NAME: SILVER LAKE DRAINAGE IMPROVEMENTS STUDY

NASSAU COUNTY DEPARTMENT OF PUBLIC WORKS

In 2018, the LKMA completed the Technical Design Report and the 30% Design Plans for the Silver Lake Drainage Improvements Project. This project required an extensive drainage inventory of the upland 2,675 acre watershed as well as creation of a drainage model that would analyze the existing drainage conditions and provide flood mitigation solutions that would fit into the County's limited funds for the project ($1.7 million). As a result of both the drainage study and heavy community participation, LKMA developed four high priority projects that will significantly reduce the occurrence of flooding, improve water quality and improve the overall aesthetics of the park.

PROJECT NAME: BARNUM ISLAND / HARBOR ISLE DRAINAGE STUDY

CLIENT REFERENCE: SEAN SALLIE
NASSAU COUNTY DEPARTMENT OF PUBLIC WORKS
516-571-9342

LKMA was the Lead Consultant for this Governor's Office of Storm Recovery (GOSR)-funded project to investigate existing stormwater deficiencies within the Hamlets of Barnum Island and Harbor Isle, located in the Town of Hempstead; and identify flood reduction projects that, when implemented, will address the existing stormwater deficiencies. During the study phase of this project, the design team coordinated its efforts with the local municipalities including the Town of Hempstead, the Village of Island Park and Nassau County, and held meetings with community groups, including the Island Park Civic Association and the NYRCR Barnum Island/Oceanside/the Village of Island Park/ Harbor Isle Committee. The study evaluated the functionality of eleven (11) different drainage systems with outfalls located on Harbor Isle and thirty (30) drainage systems with outfalls located on Barnum Island. Proposed alternative improvements were developed to identify upgrades to the existing drainage infrastructure to accommodate the design criteria's rainfall and tidal events. An important aspect of the study was the prioritization of the proposed drainage improvement project locations, taking into consideration key variables such as magnitude of flooding, number of homes affected, significance of location (i.e. evacuation routes, schools, emergency services), cost and green infrastructure implementation. Proposed solutions include road raisings, check valves, and drainage system capacity improvements.

PROJECT NAME: NYS ROUTE 110 RECONSTRUCTION DRAINAGE IMPROVEMENTS, HUNTINGTON

CLIENT REFERENCE: GLENN MURRELL, PE
NEW YORK STATE DEPARTMENT OF TRANSPORTATION
631-952-6018

This project evaluated the development of feasible alternatives for roadway and significant drainage improvements on a 0.9 mile section of NYS Route 110 (New York Avenue) in the vicinity of Huntington Harbor, and developed plans for construction. The project area suffers from several contributing factors that create a complex flooding situation, including low and nearly flat elevations of the roadway; steep grade of the surrounding area; a 3,500 acre watershed area; high groundwater table; influence of tidal action due to proximity of the Huntington Bay; and significant development of the area and the stream parallel to Rte. 110.

Hydraulic and hydrologic modeling of the large urban watershed was performed using the USEPA SWMM program and an evaluation of stormwater treatment Best Management Practices was conducted. An innovative drainage solution, including upgrading the capacity of a parallel creek to accommodate stormwater flows, was developed. The project was awarded an "Evergreen" rating—the highest possible rating under NYSDOT's (Green Leadership In Transportation Environmental Sustainability)," a transportation environmental sustainability rating program.

LKMA is the Lead Consultant for this Governor's Office of Storm Recovery (GOSR)-funded project to restore the natural shoreline along Valley Stream from Cloverfield Road north to Mill Road and the adjacent 2,000 foot Path to the Park. A second component of this project is the replacement of the existing deteriorated timber bulkhead at Brook Road Park with a vinyl bulkhead anchored with helical earth anchors. The overall concept of the project is to remove invasive plant species and plant native wetland species that will create a living shoreline that utilizes a combination of both green and hardened features to re-establish the park's shorelines at a higher and more flood resilient elevation.

All proposed upland and wetland plantings were native plant species. Other improvements at the park includes the design of a scenic overlook, pedestrian boardwalk pollinator garden, kayak launch, osprey's nest and pocket-park.

Under a NY State Environmental Facilities Corporation Grant, LKMA developed plans and procured environmental permits for stormwater quality improvements at the site of a former Chevrolet dealer in Patchogue. In addition to establishing a wet meadow for stormwater treatment prior to its entering the adjacent Swan River, a passive-use park was created which showcases a variety of green infrastructure technics with educational signing that explains the features and benefits of the project. Other green infrastructure practices installed include a parking lot and maintenance road constructed of permeable pavers and a bio-retention basin. As part of this project, the original streambed of the Swan River was re-shaped to form a more natural cross sectional geometry and invasive plant species were removed and replaced with native wetland species. Design and permitting of new exterior site improvements to the existing grounds of the recreational facility in Moriches. The improvements were made along the existing sloped area between the existing comfort station building/parking lot and west edge of Kaler's Pond. The sloped area is difficult to vegetate and often is the subject of soil erosion. The improvements designed by LKMA included the construction of ramped paths, rain gardens and new playground areas that promote storm-water management, ADA accessibility and less maintenance to the park grounds. PROJECT NAME: TRACTION BLVD CULVERT & FISH LADDER, PATCHOGUE

CLIENT REFERENCE: DAN LOSQUADRO, HIGHWAY SUPERINTENDENT
TOWN OF BROOKHAVEN DEPARTMENT OF HIGHWAY
631-451-9200

LKMA prepared design plans for the emergency replacement of an existing culvert below Traction Boulevard dam on Canaan Lake. In addition, LKMA coordinated utility relocations, and procured NYSDEC freshwater wetland permits and US Fish & Wildlife approvals. A unique feature of this project is the design of a "Denil" fish ladder as well as a separate an eel passage. The project involved the installation of a new precast concrete culvert structure adjacent to the existing damaged culvert which was demolished once the new culvert was completed. The project also involved the installation of additional drainage, new fencing, new timber bulkhead, guiderail, trash interceptor (rack) and new asphalt pavement. Challenging aspects of the project included the heavy dependency on Traction Blvd. relative to local traffic, dewatering and relocation of utilities above and below the proposed culvert. During construction, LKMA ensured that the contractor maintained detour routes, coordinated access with emergency responders and facilitated access at the end of each work day, which minimized complaints from residences and local businesses.

PROJECT NAME: BAY SHORE MILL POND, TOWN OF ISLIP

CLIENT REFERENCE: HARRY SUNDEN
TOWN OF ISLIP DIVISION OF ENGINEERING
631-224-5360

LKMA developed plans for the creation of a new pond located on the north side of Montauk Highway, west of Southside Hospital and along the Penataquit Creek in downtown Bay Shore. Construction of the pond required mitigation of contaminated soils, sediment sampling and analysis and disposal of the contaminated material at a facility off Long Island. The pond incorporated features such as native wetland and upland plantings, safety benches, boulders, bio-logs and outfalls into the existing fish ladder on the north side of Montauk Highway. LKMA was selected for this project by the Town of Islip because of their previous work on the NYSDOT Penataquit Creek Drainage Study, which created a detailed hydrologic and hydraulic model of the Penataquit Creek watershed.

PROJECT NAME: MCGANN MERCY HIGH SCHOOL WETLAND IMPROVEMENTS

CLIENT REFERENCE: CARL SEMMLER, PRINCIPAL
BISHOP MCGANN-MERCY HIGH SCHOOL

Design and permitting (freshwater wetlands and SWPPP acceptance) of new site improvements to the existing grounds of the McGann Mercy High School property in Riverhead. The improvements included the development of new wetlands within the footprint of the former running track. The new wetlands would be constructed in a manner that enables the school to collect and treat (through bio -remediation) its storm-water runoff from the site. The project allows stormwater from the Town road (Middle Road) to be managed by weir boards and treated on site through the new freshwater wetland vegetation that removes some pollutants from the storm-water runoff. The project will allow the filling of an existing artificial wetland (recharge basin) located in the northeast corner of the school property. LKMA obtained the required environmental approvals from the NYSDEC's Freshwater Wetlands Division and the Town of Riverhead's Engineering Department (Stormwater Management Office). LKMA obtained the required environmental approvals from the NYSDEC's Freshwater Wetlands Division and the Town of Riverhead's Engineering Department (Stormwater Management Office). CONTRACT FOR SERVICES

THIS AGREEMENT (together with the schedules, appendices, attachments and exhibits, if any, this "Agreement"), dated as of the date this Agreement is executed by the County of Nassau, between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "County") acting on behalf of the County Department of Public Works, having its principal office at 1194 Prospect Avenue, Westbury, New York 11590 (the "Department") and (ii) Louis K. McLean Associates Engineers & Surveyors, PC, a consultant engineering firm having its principal office at 437 South Country Road, Brookhaven, NY 11719 (the "Firm" or the "Contractor").

W I T N E S S E T H:

WHEREAS, the County desires to hire the Firm to perform the services described in this Agreement; and

WHEREAS, this is a personal service contract within the intent and purview of Section 2206 of the County Charter;

WHEREAS, the Firm desires to perform the services described in this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants contained in this Agreement, the parties agree as follows:

1. Term. The term of this Agreement shall commence on the date on which this Agreement is executed by the County (the "Commencement Date") and terminate three (3) years from the Commencement Date (the "Expiration Date") unless sooner terminated or extended in accordance with its terms. Notwithstanding the foregoing, the Department, in its sole discretion, shall have the right to extend this Agreement for a period of up to one (1) year by delivering a notice of extension to the Firm at least thirty (30) days prior to the Expiration Date. The Agreement so extended shall be on the same terms, conditions and covenants as during the initial term except that the Expiration Date shall be modified in accordance with the notice of extension. Any work started by the firm, prior to the expiration date of the Agreement, may be completed in its entirety, even if the work is performed beyond the expiration date of the Agreement. An Amendment will not be required for the sole purpose of extending the term of the contract.

2. Services.

(a) The services to be provided by the Firm under this Agreement consist of the development of a **Technical Design Report (TDR), ADA Report, Surveying Services, Detailed Design Plans, Construction Estimates, Specifications and Special Specification for Resurfacing Phase 54.** The specific work divisions and deliverables related to this

project are more particularly described in the "Detailed Scope of Services," attached hereto and hereby made a part hereof as Exhibit "A".

(b) At any time during the term of this Agreement, the County may, in its sole and absolute discretion, require the Contractor to perform Extra Services. The Firm shall not perform, nor be compensated for, Extra Services without the prior written approval of the Commissioner or his or her duly designated deputy. The Contractor agrees to perform any such Extra Services in accordance with the terms and conditions contained in this Agreement. As used herein, "Extra Services" means additional services which are (i) generally within the scope of services set forth in this Agreement, (ii) necessary or in furtherance of the goals of this Agreement and (iii) not due to the fault or negligence of the Contractor.

3. Payment.

(a) Amount of Consideration. The amount to be paid to the Firm as full consideration for the Firm's services under this Agreement shall be payable as set forth in the "Payment Schedule," attached hereto and made a hereby part hereof as Exhibit "B". Notwithstanding the foregoing, **the maximum amount to be paid to the Firm for the Firm's services under this Agreement shall not exceed Five Hundred Eighty Five Thousand Dollars ($585,000.00)** including contingency for additional expenses relating to reimbursable/out-of-pocket expenses, or unforeseen or unspecified work needed to meet the Scope of Work.

(b) Vouchers; Voucher Review, Approval and Audit. Payments shall be made to the Firm in arrears and shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) states with reasonable specificity the services provided and the payment requested as consideration for such services, (b) certifies that the services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by a progress report, in a form satisfactory to the County, indicating the percentage and description of work completed and other documentation satisfactory to the County supporting the amount claimed, and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(c) Timing of Payment Claims. The Firm shall submit claims no later than three (3) months following the County's receipt of the services that are the subject of the claim and no more frequently than once a month.

(d) No Duplication of Payments. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between the Firm and any funding source including the County.

(e) Payments in Connection with Termination or Notice of Termination. Unless a provision of this Agreement expressly states otherwise, payments to the Firm following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by

this Agreement to be performed, and (iii) not performed after the Firm received notice that the County did not desire to receive such services.

(f) Payments Relating to Services Rendered by Subcontractors. The County retains the right, but not the obligation, prior to making any payment to the Firm, to demand that the Firm furnish to the County, proof acceptable to the County, in its sole and absolute discretion, that all due and payable claims made by subcontractors in connection with this Agreement have been paid to date or are included in the amount being requested by the Firm.

4. Ownership and Control of Work Product

(a) Copyrights.

(i) Upon execution of this Agreement, any reports, documents, data, photographs and/or other materials produced pursuant to this Agreement, and any and all drafts and/or other preliminary materials in any format related to such items, shall become the exclusive property of the County.

(ii) Any reports, documents, data, photographs and/or other materials produced pursuant to this Agreement ("Copyrightable Materials") shall be considered "work-made-for-hire" within the meaning and purview of Section 101 of the United States Copyright Act, 17 U.S.C. §101, and the County shall be the copyright owner thereof and of all aspects, elements and components thereof in which copyright protection might exist. To the extent that the Copyrightable Materials do not qualify as "work-made-for-hire," the Contractor hereby irrevocably transfers, assigns and conveys exclusive copyright ownership in and to the Copyrightable Materials to the County, free and clear of any liens, claims, or other encumbrances. The Contractor shall retain no copyright or intellectual property interest in the Copyrightable Materials, and they shall be used by the Contractor for no other purpose without the prior written permission of the County.

(iii) The Contractor acknowledges that the County may, in its sole discretion, register copyright in the Copyrightable Materials with the U.S. Copyright Office or any other government agency authorized to grant copyright registrations. The Contractor shall cooperate in this effort and agrees to provide any further documentation necessary to accomplish this.

(iv) The Contractor represents and warrants that the Copyrightable Materials: (1) are wholly original material not published elsewhere (except for material that is in the public domain); (2) do not violate any copyright law; (3) do not constitute defamation or invasion of the right of privacy or publicity, and (4) are not an infringement of any kind, of the rights of any third party. To the extent that the Copyrightable Materials incorporate any non-original material, the Contractor has obtained all necessary permissions and clearances, in writing, for the use of such non-original material under this Agreement, copies of which shall be provided to the County upon execution of this Agreement.

(b) Patents and Inventions. Any discovery or invention arising out of or developed in the course of performance of this Agreement shall be promptly and fully reported to the Department, and if this work is supported by a federal grant of funds, shall be promptly and fully reported to the Federal Government for determination as to whether patent protection on such invention shall be sought and how the rights in the invention or discovery, including rights under any patent issued thereon, shall be disposed of and administered in order to protect the public interest.

(c) Pre-existing Rights. In no case shall 4(a) or 4(b) above apply to or prevent the Contractor from asserting or protecting its rights in any report, document or other data, or any invention which existed prior to or was developed or discovered independently from the activities directly related to this Agreement.

(d) Infringements of Patents, Trademarks, and Copyrights. The Contractor shall indemnify and hold the County harmless against any claim for any infringement by the Contractor of any copyright, trade secrets, trademark or patent rights of design, systems, drawings, graphs, charts, specifications or printed matter furnished or used by the Contractor in the performance of this Agreement. The Contractor shall indemnify and hold the County harmless regardless of whether or not the infringement arises out of compliance with the scope of services/scope of work.

(e) Antitrust. The Contractor hereby assigns, sells, and transfers to the County all right, title and interest in and to any claims and causes of action arising under the antitrust laws of the State of New York or of the United States relating to the particular goods or services procured by the County under this Agreement.

5. Independent Contractor. The Firm is an independent Contractor of the County. The Firm shall not, nor shall any officer, director, employee, servant, agent or independent Contractor of the Firm (a "Firm Agent"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "Person" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

6. No Arrears or Default. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

7. Compliance with Law.

(a) Generally. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, and disclosure of information, in connection with its performance under this Agreement. In furtherance of the foregoing, the Firm is bound by and shall comply with the terms of Appendice (Appendix) "EE" attached hereto and hereby made a part hereof. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

(i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;

(ii) Failure to comply with the Living Wage Law, as amended, constitutes a material breach of this Agreement, such breach being determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

(iii) On a yearly basis, Contractor shall provide the County with any material changes to its Certificate of Compliance, attached hereto and hereby made a part hereof as Appendix "L."

(c) Records Access. The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

(d) Protection of Client Information. The Firm acknowledges and agrees that all information that the Firm acquires in connection with performance under this Agreement shall be strictly confidential, used solely for the purpose of performing services to or on behalf of the County, and shall not be disclosed to third parties except (i) as permitted under this Agreement, (ii) with the written consent of the County (and then only to the extent of the consent), or (iii) upon legal compulsion.

(e) Prohibition of Gifts. In accordance with County Executive Order 2-2018, the Contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. The Contractor shall include the provisions of this subsection in each subcontract entered into under this Agreement.

(f) Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, the Contractor has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where the Contractor employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. The
Contractor shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

(g) Vendor Code of Ethics. By executing this Agreement, the Contractor hereby certifies and covenants that:

(iii) All Participating Employees have completed the acknowledgment required by the Vendor Code of Ethics;

(iv) The Contractor will retain all of the signed Participating Employee acknowledgements for the period it is required to retain other records pertinent to performance under this Agreement;

(v) The Contractor will continue to distribute the Vendor Code of Ethics, obtain signed Participating Employee acknowledgments as new Participating Employees are added or changed during the term of this Agreement, and retain such signed acknowledgments for the period the Contractor is required to retain other records pertinent to performance under this Agreement; and

The Contractor has obtained the certifications required by the Vendor Code of Ethics from any subcontractors or other lower tier participants who have participated in procurements for work performed under this Agreement.

8. Minimum Service Standards. Regardless of whether required by Law:

(a) The Firm shall, and shall cause Firm Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

9. Indemnification; Defense; Cooperation.

(a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith as related to Contractor's indemnification obligation pursuant to this section.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

10. Insurance.

(a) Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit liability of not less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate coverage, (iii) compensation insurance for the benefit of the Contractor's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. (c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

11. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

12. Termination.

(a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Firm, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Firm. ADA Report

The County will require a separate report with photo, GPS coordinates and description of every ramp of potential pedestrian crossing within the project limits. The description will indicate whether there is an ADA ramp at the studied location, if a ramp is there, the ramps percent of slope and drawing dimensions shall be included. The ramps that are not in compliance but can "easily" be brought into compliance will be addressed in this project indicating ramp type. Ramps that cannot be brought into compliance at this time shall be explained with justification. The format of the report will be provided by the County.

The chosen firm will be required to collect field data pertaining to ADA compliance using a County- supplied mobile application. The Consultants shall provide their own mobile device (must be equal to latest generation Apple or Android smartphone or tablet (preferred)) enabled with cellular data service (4G or higher). A.3 Division C Services

Surveying Services

AutoCAD plans are available with the County for review for Wantagh Avenue between Hempstead Turnpike (SR 24) and the Southern State Parkway North exit ramp. Firm will need to evaluate and update conditions of features noted in plans. The survey is based on LIDAR technology.

The Firm will be required to perform surveying services in order to extend available AutoCAD plans to the intersection of Wantagh Avenue and Park Avenue.

Upon Nassau County DPW approval, surveying procedures other than traditional methods will be accepted if the following basic requirements are satisfied.

A. Horizontal Control

Establish a precise base line with at least two ties into the Nassau County Geographic Information System (GIS), with a maximum error of closure of 1:50,000. The error of closure shall be distributed according to standard procedures and all angle points coordinated. Before the survey work is started, the Firm shall submit their procedure to the County for approval. The Firm shall use this base line as the reference line for locating all topography, and aboveground and underground facilities. The base line shall be monumented and referenced as necessary to later serve for laying out the construction. Traverse worksheets shall be submitted to the County for review, when completed. Where feasible, the theoretical grade line of the proposed improvement should be used for laying out the construction contract and for cross-sections. The theoretical grade line should be referenced to the aforementioned base line on the Coordinated Detail Map.

B. Vertical Control

Provide highest order vertical control system possible, with ties into the same two monuments of the Nassau County GIS as used for base line control, for topographic work and construction mapping. Benchmarks shall be established and documented within the project limits. They should be located in such a place so that they will not be destroyed by any anticipated construction work. Bench run worksheets shall be submitted to the County for review, when completed.

C. Base Map

The Base Map shall include all topographic data required for the preparation of detailed contract plans, including, but not limited to the following: horizontal control line and benchmarks; existing elevations obtained by cross sections at a maximum fifty foot stations with additional elevations on driveways, structures, steps, manhole covers, first floors, etc., and any abrupt changes in slope; underground utilities shall be plotted from survey of utility mark out; drain and sewer structures shall be opened to obtain inverts, pipe sizes and brickwork and plotted on profile portion of plan; house connections shall be plotted from information supplied by the respective sewer agency; buildings and other manmade structures shall be accurately plotted, described (number of stories, type of structure, etc.) and addressed on the plan. Topographical data shall be shown on the plans at a scale of one (1) inch equals twenty (20) feet or larger, as directed. For both the Base Map and Detail Map, existing line weight and numbers shall be fine and proposed details shall be bolder. Said data shall be furnished to the County in a digital format as prescribed in the latest version of the NCGIS Geographic Data Standards, or in a mutually agreeable format.

D. Detail Map (For Intersection Improvements)

Prepare a CAD generated coordinated Detail Map to three decimal places, showing all property line data relative to the survey base line, the proposed center line (or theoretical grade line), the existing and proposed right-of-way lines, and all parcels within the project limits. Said parcels shall be completely defined as per deeds, filed maps or other legal descriptions. This map shall be to a scale of one (1) inch equals twenty (20) feet, where possible, and shall include field measurements as well as computed values. Liber and Page of the document relating to the most recent ownership shall be shown on this map. Upon

acceptance of the Final Detailed Construction Drawings and Specifications, the Consultant shall submit a reproducible copy of the Detail Map which shall indicate field ties in detail for all critical base line stations, as well as coordinates for all property corners. These coordinates shall indicate existing field points, as well as final theoretical coordinates held. For both the Base Map and Detail Map, existing line weight and numbers shall be fine and proposed details shall be bolder. Said data shall be furnished to the County in a digital format as prescribed in the latest version of the NCGIS Geographic Data Standards, or in a mutually agreeable format.

E. Right-of-Way Maps (For Intersection Improvements)

1. Prepare a Right-of-Way Acquisition Map on 21 inch by 31-1/2 inch (border to border) standard size sheets showing the fee parcel (acquisition), highway easement, slope easement, drainage easement, sewer easement, working easement, release parcel, or excess parcel to be acquired at a scale of one inch equals twenty feet (1"=20') in accordance with the current standards of the Nassau County Department of Public Works. Changes to this scale require prior County approval.
2. Type a description of each parcel to be acquired using the heading shown on the Property Data Form (EXHIBIT "B") for each such parcel with information effective not more than thirty (30) days prior to the delivery of the said acquisition map to the Commissioner. Descriptions should be delivered to the County on a computer disc.
3. Supply on a computer disc, a list for each parcel in "Microsoft Excel" or approved equivalent format, all in accordance with County requirements. The information supplied for each parcel shall include the parcel number, name of owner, address of parcel, section, block, and lot of the parcel, and, if applicable, address of absentee owner.

3. This will be considered extra work, and contract Allowance will be utilized for reimbursement of this work.

C. Coordination with Public and Private Utilities & Municipalities

1. Contact all public utility agencies and private utility companies known to have installations in the construction area to determine the locations and sizes of all existing subsurface installations, and determine the scope of any future plans being considered in the area of the work. This data shall be further supplemented with data obtained by field reconnaissance.

2. Perform the necessary liaison work associated with relocation of utilities. However, the Firm shall not be required to design such relocation work, except where such installations are owned by municipalities or special districts. Appendix "EE"

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall

not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

Inter-Departmental Memo

TO: Office of the County Executive
Att: Brian J. Schneider, Deputy County Executive

FROM: Department of Public Works

DATE: November 25, 2019

SUBJECT: Design Services for Phase 54
Wantagh Avenue Resurfacing and Traffic Safety Improvements
RFP No. PW-H61587-54C
RECOMMENDATION OF AWARD

The Nassau County Department of Public Works (NCDPW) desires to procure Design Services for Wantagh Avenue Resurfacing and Traffic Safety Improvements, Phase 54. The scope of work includes the following: Repairs and/or replacement of deteriorated concrete panels and sealing of joints, asphalt resurfacing at specified locations within the project limits to extend the roadway service life. Evaluation of all existing curbs, curb ramps and driveway aprons within the project limits, and within Nassau County's jurisdiction to propose repairs/replacements of deteriorated cross-section elements. Address all necessary drainage issues within the project corridor. Pavement marking design, as mandated by the New York Manual of Uniform Traffic Control Devices (MUTCD) and the NYS Supplement, will also be required.

The "Request for Proposal" (RFP) was prepared in conformance with the Department's Policy for assessing understanding, technical approach, statement qualification, firm capability and past relevant experiences. The RFP was posted on the County's website utilizing E-Procure, New York State Contract Reporter, and in Newsday.

The County received seven (7) responses to the Request for Proposals (RFP), all the proposals were eligible for review.

The technical proposals were evaluated by professional staff within the Department: Rakhal Maitra, P.E., Deputy Commissioner; Richard Iadevaio, Jr., Superintendent of Highway & Construction; Harold T. Lutz, P.E., Director of Traffic Engineering and Garry Desyr, Civil Engineer II.

After tabulating the combined technical scores and establishing ranking order, as noted in the table below, it was determined that LKB Consulting Engineering (LKB) (88.25), L.K. McLean Associates, P.C. (LKMA) (82) and Hardesty & Hanover, LLC (H&H) (81), were respectively ranked the best three (3) technical proposals. The Committee after open discussion and deliberation, decided to open the cost proposals of the top three (3) rank firms.

The Committee after open discussion and deliberation determined that Hardesty & Hanover, LLC cost proposal for Division D Detail Design & Construction Documents was impractical. The TRC felt that the firm did not take into consideration the work associated with the anticipated acquisition of parcels required for widening and implementation of traffic safety improvements and opted not to request a BAFO from H & H. The TRC, after consultation, reached the conclusion that only the top two (2) ranked firms, LKB and LKMA, will need to submit a BAFO that includes all the associated costs for the assumptions made in the submitted proposal. Upon review of the submitted BAFO it was determined that LKMA's revised cost estimates was $266,000.00 lower than LKB. Following the evaluation of the submitted revised cost estimates, the Committee concluded that L.K. McLean Associates, P.C. with an overall cost of $531,000.00 represents the best value for the County.

For contracting purposes, a ten percent contingency will be added to LKMA's proposed amount, resulting in a contract award amount of $585,000.00.

TO: Civil Service Employees Association, Nassau Local 830
Att: Ronald Gurrieri, Executive Vice President

FROM: Department of Public Works

DATE: May 3, 2017

SUBJECT: CSEA Notification of a Proposed DPW Contract
Proposed Contract No: H61001-0XC
Project No. 61587

The following notification is to comply with the spirit and intent of Section 32 of the County/CSEA contract. It should not be implied that the proposed DPW authorization is for work, which has "historically and exclusively been performed by bargaining unit members."

1. DPW plans to recommend a contract/agreement for the following services: Resurfacing Wantagh Avenue between Southern State Parkway and Hempstead Turnpike (SR24) in Wantagh and Levittown (approximately twelve [12] lane miles).

   Design of this mission will include the following: Resurfacing the existing road in order to extend service life. This maintains capacity while not increasing paved surfaces. New pavement markings are installed after the road is resurfaced. Resurfacing provides the motorist with a smooth road surface, and a clearly defined traveled way, which decreases accidents and driver frustrations. The existing drainage system will be evaluated for capacity and structural integrity. If this investigation of drainage system identifies a problem or cause safety concerns, improvements and repairs will be designed to eliminate the problem. Also, evaluation of all existing curbs, sidewalks, curb ramps and driveway aprons.

   Design of this is anticipated to involve a great volume of research, specialized staff knowledge and skills will be essential. The County has researched and performed various repairs. These in-house designs and construction activities have not completely eradicated the problems.

2. The work involves the following: Development of a complete package of bid documents including detailed design plans, an estimate and any non-standard specifications required.

3. An estimate of the cost is: $300,000.00

4. An estimate of the duration is: Ninety (90) Days

Should you wish to propose an alternative to the proposed contract/agreement, please respond within ten (10) days to: Department of Public Works, Att: Kenneth G. Arnold, Assistant to Commissioner, telephone 1-9607, fax 1-9657.

Summary of Relevant Accomplishments

The professional experience and knowledge of the Discover Long Island® senior staff is exemplified in the levels of demonstrable productivity outlined below:

Consumer advertising

- In 2019, Discover Long Island conducted a multifaceted advertising campaign in the Philadelphia market which delivered 8,136,100 targeted impressions. After campaign completion, for the months of June, July and August 2019, Philadelphia was the number one inbound visitation to Long Island for the first time ever.

- In 2018, Discover Long Island entered into partnership with the Professional Golfers Association (PGA) in order to assist in the organization and promotion of the 2019 PGA Championship played at Bethpage Black Course. 2019 advertising executions were placed in Golf Week and on CBS, driving 1,497,478 impressions. As a result of these cumulative year-long efforts, the PGA plans a continued partnership for the 2024 Ryder Cup at Bethpage.

- In 2019, major updates to www.discoverlongisland.com were made, including a content overhaul, enhanced partner accessibility, inclusion of user generated social content and a customized itinerary creation tool for visitors. If there is no response or if satisfactory repayments are not made, the County may recoup overpayments for any amount due or becoming due to the Bureau from the County under this Agreement or otherwise. The provisions of this subparagraph shall survive the expiration or termination of the Agreement.

(c) Payments made under this Agreement are subject to revisions based on audits and inspections conducted by the Comptroller of the County or his duly designated representative.

19. Limitations on Actions and Special Proceedings against the County

Appendix EE

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined by such title and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make Best Efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, including the granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work.

Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a

determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation..

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and

publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation.

c. Proof or affidavit of follow up or telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation.

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBEs.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in Best Efforts with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation.

I. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director, except in the case of final determinations issued pursuant to Section (a) through (i) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

EXHIBIT "A"
POLICIES AND STANDARDS FOR MARKETING AND ADVERTISING

I. PURPOSE

A. Objectives. Through this policy, Nassau County (the "County") intends to establish definite, objective, uniform, and enforceable standards for advertising and marketing on County-owned properties, assets and events ("Advertising"). In setting such standards, the County seeks to fulfill certain goals and objectives, including but not limited to:

(a) maintaining the safe and orderly operation of Departments facilities;
(b) maximization of revenue generated by Advertising;
(c) maintaining a safe and welcoming environment for County residents and visitors, including minors;
(d) avoiding the identification of the County with advertisements or the viewpoints of the advertisers;
(e) maintaining an image of neutrality on political matters and other noncommercial issues that are the subject of public debate and concern; and

B. Nonpublic Forum. By allowing limited types of Advertising, the County does not intend to create a public forum for public discourse or expressive activity, or to provide a forum for all types of advertisements. Advertising is intended only to generate revenue for the County. The County intends that Departments assets and events constitute nonpublic forums that are subject to the restrictions set forth in Section II.

C. Reservation of Rights. The County reserves the right, from time to time, to waive, suspend, modify, or revoke the application of any or all of these policies and standards as it deems necessary to comply with legal mandates and to fulfill the goals and objectives referred to herein. All of the provisions of these policies and standards shall be deemed severable.

D. Disclaimer. The County reserves the right, in all circumstances, to require that an advertisement include a disclaimer indicating that it is not sponsored by, and does not necessarily reflect the views of, the County.

E. Applicability. These policies and standards shall apply to all property governed by the Departments pursuant to this Agreement.

II. ADVERTISING STANDARDS

A. Commercial Advertisements Only. Except for Advertising defined in Section II.C or Section II.D., only advertisements promoting primarily the sale of commercial goods or services are permitted.

B. Prohibited Advertising. Advertisements shall not be accepted, displayed or maintained on Departments assets or events if the advertisements fall within one or more of the following categories:

1) Demeaning or disparaging. The advertisement contains material that demeans or disparages an individual, group, or entity. An advertisement will be deemed to contain

such material where a reasonably prudent person using prevailing community standards would believe that the advertisement contains material that ridicules or mocks, is abusive or hostile to, or debases the dignity or stature of, an individual, group, or entity.

2) Tobacco. The advertisement's purpose or effect is to identify a brand of a tobacco product (any substance which contains tobacco, including, but not limited to, cigarettes, cigars, pipe tobacco and chewing tobacco), a trademark of a tobacco product or a trade name associated exclusively with a tobacco product, or to promote the use or sale of a tobacco product.

3) Profanity. The advertisement contains profane, vulgar, or scatological language.

4) Firearms. The advertisement either (a) contains an image of a firearm in the foreground of the main visual; or (b) contains image(s) of firearm(s) that occupy 15% or more of the overall advertisement; or (c) contain images or depictions of illegal firearms or other illegal weapons, or the unlawful use of firearms or other weapons.

5) Violence. The advertisement contains an image or description of graphic violence, including, but not limited to (1) the depiction of human or animal bodies or body parts, or fetuses, in states of mutilation, dismemberment, decomposition, or disfigurement, and (2) the depiction of weapons or other implements or devices used in the advertisement in an act or acts of violence or harm on a person or animal.

6) Unlawful goods or services. The advertisement contains any material that promotes or encourages, or appears to promote or encourage, the use or possession of unlawful or illegal goods or services.

7) Unlawful conduct. The advertisement contains any material that promotes or encourages, or appears to promote or encourage, unlawful or illegal behavior or activities.

8) Obscenity. The advertisement contains obscene material. For purposes of these policies and standards, the term "obscene" shall have the meaning contained in New York Penal Law Section 235.00, as such provision may be amended, modified or supplemented from time to time.

9) Indecent Material. The advertisement contains material which, if sold or loaned to a minor for monetary consideration with knowledge of its character and content would give rise to a violation of New York Penal Law Section 235.21, as such provision may be amended, modified, or supplemented from time to time.

10) Offensive Sexual Material. The advertisement contains material which constitutes public display of offensive sexual material in violation of New York Penal Law Section 245.11, as such provision may be amended, modified, or supplemented from time to time.

11) Patently Offensive Material. The advertisement contains material that would be deemed patently offensive by a reasonably prudent person of average sensitivity in the community.

12) Political or "Issues" Advertising. The advertisement (1) refers to a specific ballot question, initiative petition, or referendum; (2) refers to any candidate for public office; or (3) promotes, opposes or otherwise directly relates to issues of public debate on

economic, political, or social issues.

13) Endorsement. The advertisement contains any material that implies or declares an endorsement by the County of any service, product or point of view, without prior written authorization of the County.

14) False, misleading, or deceptive material. The advertisement contains any material which is false, misleading, or deceptive.

15) Libelous speech, copyright infringement, etc. The advertisement contains any material which is libelous or an infringement of any copyright, trade or service mark, title or slogan, or is otherwise unlawful or illegal or likely to subject the County to litigation.

16) Right of Privacy. The advertisement contains any material which violates New York Civil Rights Law Section 50, as such provision may be amended, modified, or supplemented from time to time.

17) Adult-oriented goods or services. The advertisement promotes or encourages, or appears to promote or encourage, a transaction related to, or uses brand names, trademarks, slogans or other materials which are identifiable with films rated "X" or "NC-17," adult book stores, adult video stores, nude dance clubs and other adult entertainment establishments, adult telephone services, adult Internet sites, and escort services, or other similar places, things or services.

18) Distractions and Interference. The advertisement (i) displays the words "Stop," "Drive In," "Danger," or any other word, phrase, symbol or character that, as determined by the County, may interfere with, mislead, direct or distract vehicular traffic and/or (ii) comprises rotating, revolving, or flashing light devices or any moving parts.

19) Advertisements Adverse to the County. The advertisement is (i) directly adverse to the commercial or administrative interests of the County, or (ii) harmful to the morale of County employees.

20) Alcohol Advertising. The advertisement promotes the sale of wine, liquor, beer, or distilled spirits or other alcoholic beverages; provided, however, that such advertisement may be accepted, displayed or maintained if it would not otherwise qualify under one of the above categories, does not promote the abuse alcoholic products and does not use lewd or salacious content. In addition, such advertising must be removed in the event that a municipality in which the advertising is located requests that such advertising be removed. In such event, the County shall endeavor to work with the Franchisee to locate another suitable location for such advertising. However, the Franchisee shall not be entitled to a reduction in any of its payment obligations to the County in the event another suitable location cannot be found.

C. County Operations. Nothing in this policy shall limit the County's right to display on Departments assets and events any advertisements and notices that pertain to County operations or initiatives.

D. Existing Laws. All advertisements must comply with all applicable federal, state, and local laws, rules, and regulations.

III. REVIEW OF ADVERTISING DECISIONS

A. Initial Reviews. The Licensee will review each advertisement to determine whether the advertisement is in conformity with the policies and standards set forth in Section II. If Licensee determines that an advertisement is not or may not be in conformity with such standards:

a) The Licensee shall promptly notify designated County staff of its determination and the reasons for its determination. Upon receipt of such notification, the County shall advise the Licensee whether the County concurs with the contractor's determination concerning the advertisement.

b) In the event that the County concurs in the determination of the Licensee, the Licensee may, in consultation with designated County staff, discuss with the advertiser one or more revisions to the advertisement, in order to bring the advertisement into conformity with the policies and standards set forth in Section II. The advertiser shall then have the option of submitting a revised advertisement for review in accordance with these policies and standards.

(c) In the event that the Licensee and the advertiser do not reach agreement with regard to a revision of the advertisement, or in the event that the Licensee and the County determine that no appropriate revision could bring the advertisement into conformity with the policies and standards set forth in Section II, the Licensee shall promptly provide the advertiser with a copy of these Policies and Standards and written notice of the determination, the reason(s) for the determination, and the advertiser's right to a review before the County's Designated Advertising Review Committee. The Licensee shall provide such committee with a copy of the written notice to the advertiser and the advertisement at issue.

B. Appeals to Advertising Review Committee. An advertiser may appeal a decision to reject or remove an advertisement by filing a written request with the Advertising Review Committee within ten (10) business days after receipt of the rejection or removal decision. The advertiser's request must state why the advertiser disagrees with the decision in light of the County's Advertising policies and standards. The Advertising Review Committee at a minimum shall consist of supervisory personnel from the Planning Department and the County Attorney's Office. The Advertising Review Committee shall review the basis for the rejected or removed advertisement and shall consider the advertiser's reasons for filing the request. The Advertising Review Committee shall make a decision on the request and shall notify the advertiser of its decision in writing within fifteen (15) business days after receiving the advertiser's request.

NASSAU COUNTY

INTER-OFFICE MEMORANDUM

To: To Whom It May Concern

From: Jeffrey M. Stein
Chief Administrative Officer

Dated: December 13, 2019

Subject: Safe Center LI, Inc.

This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. The Safe Center LI, Inc., exists as a result of the merger of two former non-profit agencies that separately served the victims of domestic abuse and child abuse, the Nassau County Coalition Against Domestic Violence (NCCADV) and the Coalition Against Child Abuse and Neglect (CACAN). Each of these organizations had provided services to victims of abuse for over thirty years. The Safe Center LI offers a broad spectrum of services including, but not limited to, group counseling, shelter and housing assistance, immigration services, individual therapy, medical referrals, entitlement assistance, adult basic education, and the service provided under this agreement, the Adult Victim Advocates program. These services are provided by a highly trained, nurturing, and compassionate staff of professionals well qualified to enhance the recovery of trauma victims and their non-offending family members.

No other organizational entity in this geographical area possesses the expetience, staff, resources, facilities, reputation, and affiliations to be able to provide the services called for in this agreement.

Both NCCADV and CACAN had a long history of collaboration with the District Attorney's Office, the Nassau County Police Department and other local police agencies within Nassau County prior to their merger. For these reasons, no other alternative organizations were considered for this program.

Conflict of Interest Policy

Section 1. Purpose. The purpose of this "Conflicts of Interest Policy" (the "Policy") is to protect the interests of the Corporation when it is contemplating entering into a transaction or arrangement that might benefit the private interest of a Director, Officer, or Key Employee of the Corporation. The Corporation will not enter into any such transaction or arrangement unless it is determined by the Board in the manner described below to be fair, reasonable and in the best interests of the Corporation at the time of such determination.

This Policy is intended to supplement, but not replace, any applicable state and federal laws governing conflicts of interest applicable to non-for-profit and charitable organizations. All capitalized terms not defined in this Policy shall have the meaning assigned to them in Appendix A, attached.

Section 2. Related Party Transactions and Duty to Disclose. A Related Party Transaction is not necessarily a prohibited transaction. Under this Policy, if the Corporation contemplates entering into a Related Party Transaction, the Independent Directors of the Board must determine if the transaction is fair, reasonable, and in the best interests of the Corporation at the time of such determination.

If at any time during his or her term of service a Related Party acquires any Financial Interest or when any matter for decision or approval comes before the Board in which a Related Party has a Financial Interest, that Financial Interest or potential Related Party Transaction must be promptly disclosed in writing to each member of the Board, the President, and to the Chair of any appropriate Board Committee, together with all material facts. The Board will then follow the procedures in Section 4 of this Policy.

Section 3. Disclosure and Voting.

Disclosure. Any Related Party shall disclose in good faith all material facts of his or her Financial Interest to the Board.

Non-Participation and Review. All transactions, agreements or any other arrangements between the Corporation and a Related Party, and any other transactions which may involve a potential conflict of interest, shall be reviewed by the Independent Directors of the Board. All Related Parties with a Financial Interest shall leave the room in which such deliberations are conducted. The Independent Directors of the Board will then determine whether the contemplated Related Party Transaction is fair, reasonable, and in the best interests of the Corporation at the time of such determination. The Corporation will not enter into any Related Party Transaction unless it is determined to be fair, reasonable and in the best interest of the Corporation at the time of such determination.

Consideration of Alternate Transactions and Comparability Data.

If the contemplated Related Party Transaction pertains to compensation for services or the transfer of property or other economic benefit to a Related Party, the Independent Directors of

the Board must determine that the value of the economic benefit provided by the Corporation to the Related Party does not exceed the value of the consideration received in exchange by obtaining and reviewing appropriate comparable data prior to entering the transaction.

In those instances where the contemplated Related Party Transaction does not involve compensation, transfer of property or benefits to a Related Party, the Independent Directors of the Board must consider alternative transactions to the extent possible, prior to entering into such transaction.

Comparability Data. When considering the comparability of compensation, for example, the types of relevant Comparability Data that the Independent Directors of the Board may consider include, but are not limited to (1) compensation levels paid by similarly situated organizations, both exempt and non-exempt; (2) the availability of similar services within the same geographic area; (3) current compensation surveys compiled by independent firms; and (4) written offers from similar institutions competing for the same person's services. When the transaction involves the transfer of real property as consideration, the relevant factors include, but are not limited to (i) current independent appraisals of the property, and (ii) offers received in a competitive bidding process.

Voting. The Board shall, after considering alternate transactions and/or comparability data, determine in good faith by vote of the Independent Directors of the Board whether the transaction or arrangement is fair, reasonable, and in the best interest of the Corporation at the time of such decision. The transaction shall be approved by not less than a majority vote of the Independent Directors or Committee members present at the meeting. In conformity with the above criteria, the Board shall make its decision as to whether to enter into the transaction or arrangement and shall document the meeting contemporaneously under Section 5 of this Policy.

All Related Parties with a Financial Interest must not be present for deliberations and voting on the transaction or arrangement in which he or she has a Financial Interest. However, Related Parties are not prohibited from providing information regarding the transaction to the Board prior to the Board's deliberations. Only Independent Directors of the Board shall vote on Related Party Transactions. No Director or Officer shall vote, act, or attempt to influence improperly the deliberations on any matter in which he or she has been determined by the Board to have a Financial Interest. Any attempt to vote, act, or improperly influence deliberations by a Related Party on any matter with which such person has a Financial Interest may be grounds for removal from the Board or termination from the Corporation.

Compensation.
A voting member of the Board of Directors or an Officer who receives compensation directly or indirectly from the Corporation for services or a Director serving as a voting member of any Committee whose jurisdiction includes compensation matters is precluded from voting or acting on matters pertaining to that Director's or Officer's compensation.

No voting member of the Board or any Committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Corporation, either individually or collectively, is prohibited from providing information to any Committee

regarding compensation.

Section 4. Audit Committee Review. The Board may delegate to the Audit Committee, which shall be composed solely of Independent Directors, the adoption, implementation of and compliance with this policy. The Board may delegate to the Audit Committee review and approval of any Related Party Transaction involving a Related Party and the Corporation, as contained in this Policy; provided that if the Related Party Transaction is of a magnitude that would otherwise require full Board approval, the Committee shall submit the Related Party Transaction to the Board for consideration, providing its recommendation as to whether or not to approve it.

In the event the Board delegates the review and approval of Related Party transactions to a committee, all references to Board in this Policy shall be deemed to refer to such Committee and all references to a majority of the Board shall be deemed to refer to a majority of such Committee.

Section 5. Records of Proceedings. The minutes of all meetings of the Board and all Committee meetings at which a Related Party Transaction is considered shall contain:

- The names of the persons who disclosed or otherwise were determined to have a potential or actual Financial Interest and/or conflict of interest, the nature of the potential or actual Financial Interest and/or conflict of interest, any action taken to determine whether a Financial Interest or conflict of interest exists, and the Board's decision as to whether a Financial Interest and/or conflict of interest exists.

- The names of the persons who were present for discussions and votes relating to any determinations under Section 3 above, including whether the Related Party and any members not considered to be Independent Directors left the room during any such discussions, the content of such discussions, including discussion of alternative transactions, and whether or not the transaction with the Related Party was approved by the Board.

- The minutes shall be documented contemporaneously to the decision and discussion regarding the Financial Interest or conflict of interest.

Section 6. Initial and Annual Written Disclosures. Prior to a Director's initial election to the Board, or an Officer or Key Employee's employment at the Corporation, and thereafter on an annual basis, all Directors, Officers, and Key Employees shall disclose in writing to the Secretary of the Corporation:

(i) Any entity of which such person or a Relative of such person is an officer, director, trustee, member, owner, or employee and with which the Corporation has a relationship,

(ii) Any Financial Interest such person may have in any corporation, organization, partnership or other entity which provides professional or other goods or services to Corporation for a fee or other compensation, and

(iii) Any position or other material relationship such Director, Officer, Key Employee, or Relative of such person, may have with any not-for-profit corporation with which the Corporation has a business relationship.

A copy of each disclosure statement shall be kept in Corporation's files and made available to any Director, Officer, or Key Employee upon request.

Section 7. Annual Statements. Each Director, Officer, and Key Employee shall annually sign and submit to the Secretary of the Corporation a statement which affirms such person: (a) has received a copy of this Policy, (b) has read and understands the Policy, and (c) has agreed to comply with the Policy.

I hereby confirm that I have read The Safe Center LI, Inc.'s Conflict of Interest Policy, and that my responses to the above questions are complete and correct to the best of my knowledge and belief. I will promptly report any information of which I become aware that may change this disclosure or require disclosure under this Policy.

A LETTER FROM THE SAFE CENTER LI'S BOARD PRESIDENT AND EXECUTIVE DIRECTOR

2018 was a year of perseverance, partnership, prevention and progress.

Regardless of the unique set of challenges presented by individuals seeking assistance, The Safe Center tirelessly worked to ensure that each victim as well as his/her non-offending family members were provided with a safe and healing environment.

In 2018, agency Advocates, Counselors, Lawyers and volunteers:

- Responded to 836 allegations of child abuse through referrals to the Child Advocacy Center.
- Assisted 4,881 survivors and families impacted by Domestic Violence, Sexual Assault, Trafficking and Child Abuse.
- Collectively provided more than 50,786 vital services to survivors and their families, including mental health services, group counseling sessions, housing, legal assistance, emergency assistance and advocacy within the Criminal Justice, Civil, and Family Court systems.
- Responded to 5,645 hotline calls from survivors and community members seeking guidance and services.

Relationships with existing community partners continued to grow and strengthen and new partnerships with those intent on ending systemic cycles of abuse were formed. Notably:

- With generous grant funding from The Phyllis Backer Foundation, The Safe Home's 17 bed facility was upgraded to include new bedroom furniture, bedding, and a safer outdoor playground area.
- Through the UJA—Federation of NY's Project Hope, victims of domestic violence and rape/sexual assault living in underserved south shore communities can now easily access counseling and legal services provided by The Safe Center at an off-site location.
- The Ilene Barshay Impact Fund was formed to maintain and support emerging and growing client service needs and to provide clinical staff with increased access to cutting edge and emerging best practices for working with victims of trauma.
- Educators reached new audiences and provided age and industry appropriate trainings to nearly 19,200 individuals. This included a bilingual domestic violence awareness training to a group of mostly indigent immigrant workers employed at Belmont Park and Aqueduct Race Track.
- Safe Center Champions continued to hold fundraising events on behalf of the agency and helped to increase educational outreach and exposure to the 24-hour, seven days a week hotline: 516.542.0404.

As you continue to read about The Safe Center's programs and services and its accomplishments this past year, please know that we could not have provided this level of service without your continued support.

It is with great pride that we present our 2018 Restoring Hope Annual Report.

CRISIS INTERVENTION

THROUGH THE HOTLINE (516.542.0404)

24-hours a day, seven days a week, The Safe Center hotline staff provide those in need of crisis intervention easy access to agency services. Crisis Intervention Counselors are prepared to assess each situation and offer emotional support and service assistance, whether the caller seeks information or expresses needs that must be addressed immediately. The safety of the caller is always a primary concern and all calls are confidential.

In 2018, the Safe Center Hotline responded to 4512 calls from victims of domestic violence; 1089 calls from victims of rape/sexual assault and 44 calls from victims of sex and labor trafficking. In addition to those housed at the Safe Home, the hotline secured alternative or out-of-area housing for 89 adults and 66 children.

IN THE EMERGENCY ROOM

SAFER (Survivor Advocate for Emergency Response) Advocates are volunteers who complete a 30-hour training program. Upon completion of the program, the volunteers are prepared and are on call to provide emergency room advocacy to victims of rape, sexual assault and/or domestic violence and child victims of sexual abuse and/or assault who have been brought to hospitals in Nassau County and surrounding areas.

25 individuals were trained to be SAFER volunteers in 2018. Along with others trained in previous years, Safe Center Safer volunteers provided hospital advocacy support to 123 rape/sexual assault victims and 37 domestic violence victims during the year.

IN COLLABORATION WITH THE POLICE

Through the Police Project, Law Enforcement connects victims of interpersonal violence to The Safe Center. The Nassau County Police Department and municipal police departments responding to a domestic violence incident provide the victim with information about The Safe Center's services while also notifying agency staff who will then contact the victim to inform him/her of available help. This collaborative outreach is a first step to ensure the future safety of a victim and their non-offending family members.

1486 people were given access to The Safe Center's programs and services through its collaboration with Nassau County law enforcement on the Police Project.

DOMESTIC VIOLENCE AND RAPE & SEXUAL ASSAULT SERVICES

ADULT VICTIM ADVOCATE PROGRAM

Safe Center Advocates provide a wide range of services to adult victims of domestic violence and rape/sexual assault, including the elderly who can be mistreated physically and/or emotionally or exploited financially. Services offered include intake and application assistance, telephone and face-to-face support, follow-up contacts with victims and their non-offending family members, advocacy, information and referrals, emergency assistance, as well as accompaniment to forensic interviews, medical exams, and Criminal and Family Court proceedings.

284 people received over 2690 services from The Safe Center's Adult Victim Advocate Program in 2018.

RAPE & SEXUAL ASSAULT COUNSELING

Sexual Violence takes many different forms, including attempted rape, fondling or unwanted sexual touching, incest or molestation, or forcing a victim to perform sexual acts and penetration of victim's body by any object, also known as rape. However, one thing always remains the same: it is never the victim's fault. Victims, regardless of gender, that suffer from sexual violence (including adult victims of current assaults and/or adult survivors of childhood sexual abuse) respond uniquely to the various types of trauma, and each victim's recovery process is different. When a victim of sexual violence connects with The Safe Center, specially-trained trauma-informed Counselors immediately begin offering them services that include individual and group counseling. The effect of sexual violence can be devastating. However, with support, compassion, and time, a victim can heal and rebuild their lives.

336 victims received counseling through the Rape & Sexual Assault Services Program in 2018. Counselors facilitated 127 support group sessions and 2050 individual counseling sessions.

DOMESTIC VIOLENCE COUNSELING

Victims of domestic violence live with fear, secrecy, isolation, and shame and overcoming these barriers to healing is essential if victims are to establish safe, independent, productive lives and healthy relationships in the future. Through one-on-one counseling, victims build trusting, supportive relationships with trained counselors who specialize in helping domestic abuse victims. Group counseling offers victims a chance to connect with others and regain hope.

478 domestic violence victims received counseling services in 2018. Counselors facilitated 125 group sessions and 2397 individual counseling sessions during the year.

Exciting New Initiative: Through the generous fundraising efforts of the UJA Federation, Project Hope is positioned to provide culturally competent domestic violence services to the underserved Orthodox Jewish community. By locating a counselor at a site that is both easily accessible to victims and that allows them to utilize services without fear of community exposure, the project is reaching victims who have not previously had services. In the first four months of operation, the project served 20 victims.

"Last week marked a year of my being a client at The Safe Center. Why do I keep coming back every week, by Long Island Railroad and taxi, often a two-hour trip, one way? Because I've been given the exceptional, extraordinary gift of expert, compassionate counseling, and the fellowship of being with my peers, as a victim of sexual assault, and being the recipient of their genuine empathy and understanding of my issues. The past year has been a rewarding experience beyond my expectations. My gratitude is more than I can express".

HUMAN TRAFFICKING SERVICES

COUNSELING AND ADVOCACY

Within the past decade, individuals living and working in Nassau and Suffolk Counties have become increasingly more aware that sex and labor trafficking exist in their communities. To address this prevalent issue, The Safe Center is available as the leading provider of services on Long Island to victims of human trafficking. The Department provides female and male domestic and foreign-born victims of sex and labor trafficking with vital services which include individual and group therapy provided by licensed clinicians, court advocacy, crisis counseling, community referrals, supportive services, and case management. Services are bi-lingual and include English, Spanish, Mandarin, Cantonese and Russian languages. Department staff offer trainings to professionals and community members on how to recognize human trafficking and commercial sexual exploitation of both adults and minors.

90 adult victims of human trafficking were served in 2018.

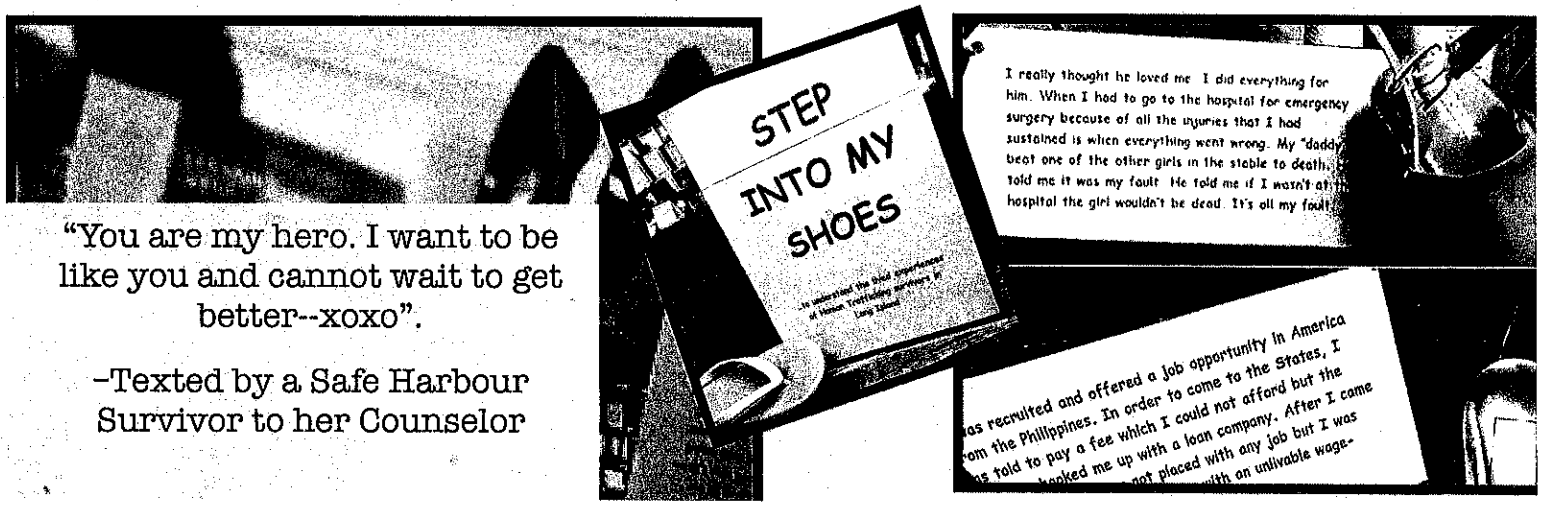
HUMAN TRAFFICKING INTERVENTION COURT

The Safe Center is the lead service provider for the Nassau County Human Trafficking Intervention Court which was created with the goal of shifting the perception of individuals arrested for prostitution from a criminal-based perspective to a victim-centered approach. The Court has a diversion program that enables a victim to rehabilitate through services provided by The Safe Center rather than being sentenced to jail. Victim services include individual trauma-informed and group counseling, case management, and court advocacy. Through this initiative, there has been a significant shift in the way prostitution is viewed by the justice system and community, supporting individuals who have been systematically exploited by pimps, buyers, traffickers, and johns.

SAFE HARBOUR PROGRAM

The Safe Harbour program is a collaborative network of child welfare professionals, law enforcement, prosecutors, medical personnel and service providers trained to identify and respond to the commercial and technology-facilitated sexual exploitation (child pornography) of children. The Department of Social Services designated The Safe Center as the facilitator and primary referral source for child trafficking cases in Nassau County. Safe Harbour Counselors and Advocates work directly with the Child Advocacy Center and in the community to ensure that both the child and their families receive a trauma- informed, multi-disciplinary response.

In 2018, 134 new referrals were received by the Safe Harbour Program while agency staff continued to work with minors from 43 cases received in 2017.



"You are my hero. I want to be like you and cannot wait to get better--xoxo".

SAFE HOME & SHORT TERM HOUSING

EMERGENCY HOUSING AT THE SAFE HOME

Safe housing is a critical component of the response to domestic violence. Individuals fleeing from an unsafe home environment find safety and respite from desperate and often dangerous living situations at The Safe Center's Safe Home. This comfortable 17-bed facility, situated in a confidential location, is Nassau County's only safe house for victims of domestic violence and their children.

The stable, safe, and supportive environment provided by The Safe Home gives survivors time to explore options and take the next step in establishing a life free of abuse. Under the guidance of experienced staff, survivors start the healing process and think about a new future. Services provided include counseling, case management, advocacy, and legal services.

In 2018, 119 domestic violence victims and 81 children received safe housing through The Safe Center. Of those, 56 adults (55 women and 1 male) and 23 children were housed at the Safe Home.

HORIZONS HOUSING PROGRAM

Funded on the federal level by the Department of Housing and Urban Development, this program is considered a Rapid Re-Housing program. Services provided include short-term housing support for survivors of domestic violence that are considered homeless or fleeing a domestic violence situation and do not have other resources.

Eligible individuals and families who participate in this program receive assistance in identifying and securing housing. Once housed they receive continued case management and advocacy services. In addition, monthly rental subsidies are provided based on each participant's income.

The goal of the program is to rapidly house individuals and families, provide them with supports and connect them with resources that will help them to sustain permanent housing once they have moved on from the program.

33 adults and 26 of their children were housed in The Safe Center's Housing Programs in 2018.

Marian's Challenges and Concerns of Safe Home Living:
Ambivalence; helping her two children to adjust; lack of financial resources; struggles with community living; concerns about future housing and employment; and limited English proficiancy

Notable Successes After Her Stay:
Both Marian and her children engaged in counseling; received legal services; found future housing and employment; had access to ESL classes; celebrated daughter's birthday with others at the house; increased hope and confidence; reduced migraines; better coping skills with setting boundaries; Marian and her children will continue to receive services from The Safe Center as long as they need support.

LEGAL SERVICES

LEGAL SERVICES AND COURT ADVOCACY

To further ensure that victims of interpersonal violence and their children are protected and free of their abusers, legal services are a critical component to the array of services available. The Safe Center's Legal Department provides various legal services and advocacy to victims of domestic abuse, dating violence, elder abuse, rape and sexual assault in Nassau County. Attorney representation and advocacy are available for custody and visitation matters, child and spousal support, family offenses, divorces, immigration, and for other legal issues arising from the abuse. To meet those needs, the agency's attorneys, advocates, and Pro Bono attorneys who collaborate with the Legal Department provide services in the Supreme Court and Family Court of Nassau County, the Domestic Violence and Integrated Domestic Violence Courts, and also advocate with the criminal justice and law enforcement systems. The Legal Department is familiar with and is prepared to address the unique challenges the legal system poses for the unserved and underserved populations such as the Latino and Muslim communities, victims who are monolingual, and those lacking proficiency in the English language. In addition to having attorneys on staff and coordinating Pro Bono attorney services, the Legal Department further increases awareness, education, and the availability of services by offering internships and externships to qualified law students who exhibit a sincere interest in assisting victims of abuse.

In 2018, 708 Safe Center clients received 5297 legal services. Attorneys worked with 304 individuals

"The most helpful thing about the program was having someone who understands domestic violence (and) knows how hard it is to face an abuser in or out of Court. I would never have been able to do this alone". – Domestic Violence Survivor

PRO BONO PROJECT

The Safe Center Pro Bono Project supplements the availability of legal services provided by the agency and recruits attorneys for pro bono representation to underserved clients. The agency also offers an established Mentor/Mentee program which pairs inexperienced lawyers with seasoned matrimonial attorneys. Trainings offered through the Pro Bono Project include the "Impact of DV in your Legal Practice" and the "Effect of DV in Matrimonial Proceedings".

In 2018, pro bono lawyers accepted 80 new cases and continued to work on approximately 45-50 cases that were assigned prior to 2018. The Pro Bono Project recruited and trained 35 potential new volunteer attorneys and currently has a total of 150 attorneys participating in the program.

Pro Bono Project Impact: *A female survivor of human sex trafficking, age 18, with arrests in multiple counties was referred to The Safe Center for professional services for herself and her family. The young woman feared that having a criminal record would derail any attempts at securing stable employment which was key to her being able to break away from her victimizers.*

Pro Bono Attorney, Elizabeth Kase, Esq. of Abrams Fensterman compassionately and skillfully provided representation for the young woman and was able to get an Adjournment in Contemplation of Dismissal in all counties. This major victory paved the way for the victim to rebuild her life as a survivor!

CHILDREN'S PROGRAMS

CHILD ADVOCACY CENTER MULTIDISCIPLINARY TEAM

The Safe Center is proud to facilitate the Nassau County Child Advocacy Center (CAC). The CAC is a child friendly facility in which multidisciplinary professionals work together to investigate child abuse, help children heal from abuse, and hold offenders accountable. The Child Abuse Multidisciplinary Team (MDT) approach helps investigative team members obtain information in a developmentally appropriate manner to evaluate child abuse allegations and because this information is shared with all team partners, it ensures each member can do their part to support children and their families. Together with our MDT partners, the Nassau County CAC responds to more than 700 allegations of child abuse per year. The MDT partnership consists of the following programs:

- The Safe Center - Child Victim Advocate, Forensic Interview, Children's Mental Health, and Rape & Sexual Assault Programs
- Nassau County Police Department- Special Victims Squad
- Nassau County Child Protective Services- Sex Abuse and Severe Physical Abuse Units
- District Attorney's Office- Special Victims Bureau
- County Attorney's Office- Family Court Bureau

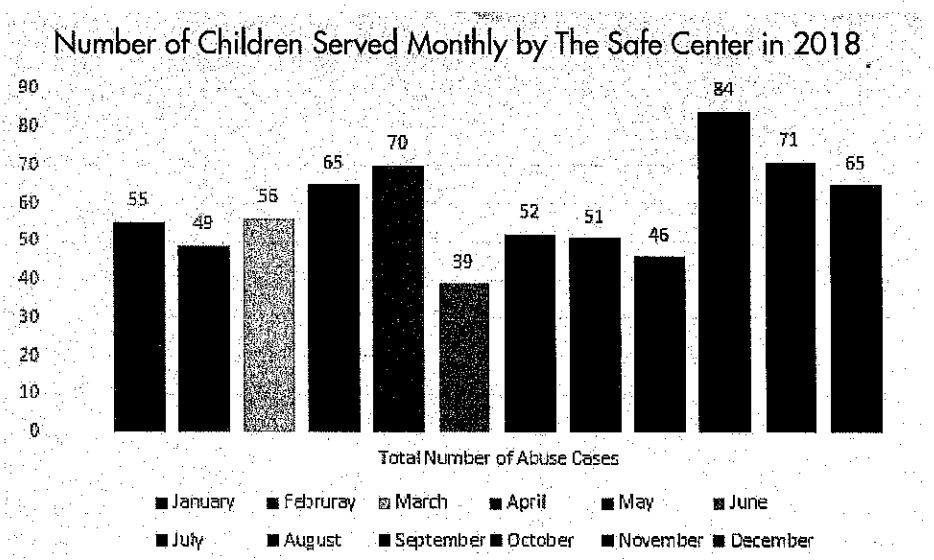
CHILD VICTIM ADVOCATE PROGRAM

The Child Victim Advocate Program assists families in addressing concrete needs (i.e., transportation, housing referrals, etc.) as well as providing information and support for families involved with the Child Advocacy Center. Support provided by the trained staff Advocates increases engagement and lessens anxiety about interactions with the criminal justice and child protective systems. Advocates are available to accompany families to medical appointments, meetings with the District Attorney and any court appointments, including Grand Jury, trial proceedings and sentencing. Referrals for community services are provided, and ongoing follow-up contact is maintained as needed throughout the life of the case.

In 2018, the Child Victim Advocate Program provided 2550 direct services to 924 individuals.



CHILDREN'S MENTAL HEALTH SERVICES

The Safe Center's Children's Mental Health Department works to help children heal and break the cycle of abuse. These services include:

  - Counseling services to Safe Home Shelter Clients

"A male child survivor of domestic violence living at The Safe Home was having difficulty opening up during counseling sessions. After taking the child outdoors to the new Safe Home playground, he started showing off all the tricks he knew and the games he made up. When we went back into the counseling session, the child was able to relax, connect and talk about some things that had been bothering him."

CHILDREN'S PROGRAMS

PROJECT KIDZ TALK©
Project Kidz Talk© is a group work program for children who have been sexually abused and their non-offending family members. Its purpose is to increase social support, reduce isolation, and help families cope with the effects of sexual abuse. In 2018, Spanish-speaking programming for Project Kidz Talk© was strategically moved to a location in Hempstead creating easier access for Latinx families. Families are now more engaged and enrollment has increased significantly.

In 2018, 145 children received mental health services at The Safe Center. Counselors facilitated 60 group sessions and 1485 individual and family sessions.

HEALTHY RELATIONSHIPS GROUP
The Safe Center's Healthy Relationships Group is a support group for teen dating violence victims and at-risk teens. In 2018, the agency further developed and expanded services for this underserved, often hidden, population.

Girls Retreat

Sponsored by a generous grant from CA Technologies, The Safe Center welcomed 36 girls to the "We Run the World" Girl's Retreat in August. This all-day retreat, held at Nassau County BOCES, provided an opportunity for developing supportive social relationships following an incident of abuse. Attendees participated in canvas painting, making friendship bracelets, STEM and yoga activities. The highlight of the day was when 1-800 FLOWERS presented a beautiful Planter Decorating Workshop for all to learn and enjoy. This all-day annual event is geared towards encouraging camaraderie, boosting self-esteem, team building, trust and fun.

"I LOOK FORWARD TO THE GIRL'S RETREAT EVERY YEAR. IT IS MY FAVORITE EVENT OF THE SUMMER" – GIRLS RETREAT ATTENDEE

SUBSTANCE ABUSE SERVICES

The Safe Center's Substance Abuse Specialist and Substance Abuse Case Coordinator work collaboratively with Nassau County Child Protective Services to address cases where there is suspicion that substance usage has impacted a caregiver's ability to safely care for their child(ren), in order to support their ability to parent their child effectively.

The Substance Abuse Specialist provides substance abuse testing, assistance with case planning and disposition, and participates in joint field visits with Child Protective Services workers. The Substance Abuse Case Coordinator facilitates linkages with local substance abuse treatment centers and assists with connecting caregivers with the appropriate level of care.

The trauma of abuse can often be a causal element in substance abuse. For victims in substance abuse recovery, domestic violence can be a relapse trigger. The Safe Center's DV/Substance Abuse Counselor works with victims who are impacted by both domestic violence and substance abuse, whether they struggle with substance use themselves or are affected by another's usage.

In 2018, the Substance Abuse Specialist received 243 referrals and conducted 134 tests on behalf of the Department of Social Services. The Substance Abuse Case Coordinator collaborated on 31 cases to discuss substance abuse treatment.

PROFESSIONAL AND COMMUNITY EDUCATION

ENOUGH IS ENOUGH

The Safe Center's Enough is Enough Initiative is funded by New York's Department of Health to collaborate with Colleges and Universities in Nassau County. The goal is to reach students in their daily lives to raise awareness of the prevalence of sexual violence and how it can be prevented. The Safe Center, in partnership with colleges and universities throughout Nassau County, is engaging students in the critical dialogue regarding how to keep their campus communities safe.

The Safe Center is currently working with New York Institute of Technology, Adelphi University, Hofstra University, Molloy College, LIU Post, Nassau Community College SUNY Old Westbury, New York School of Professional Medicine, and Cold Spring Harbor Laboratories.

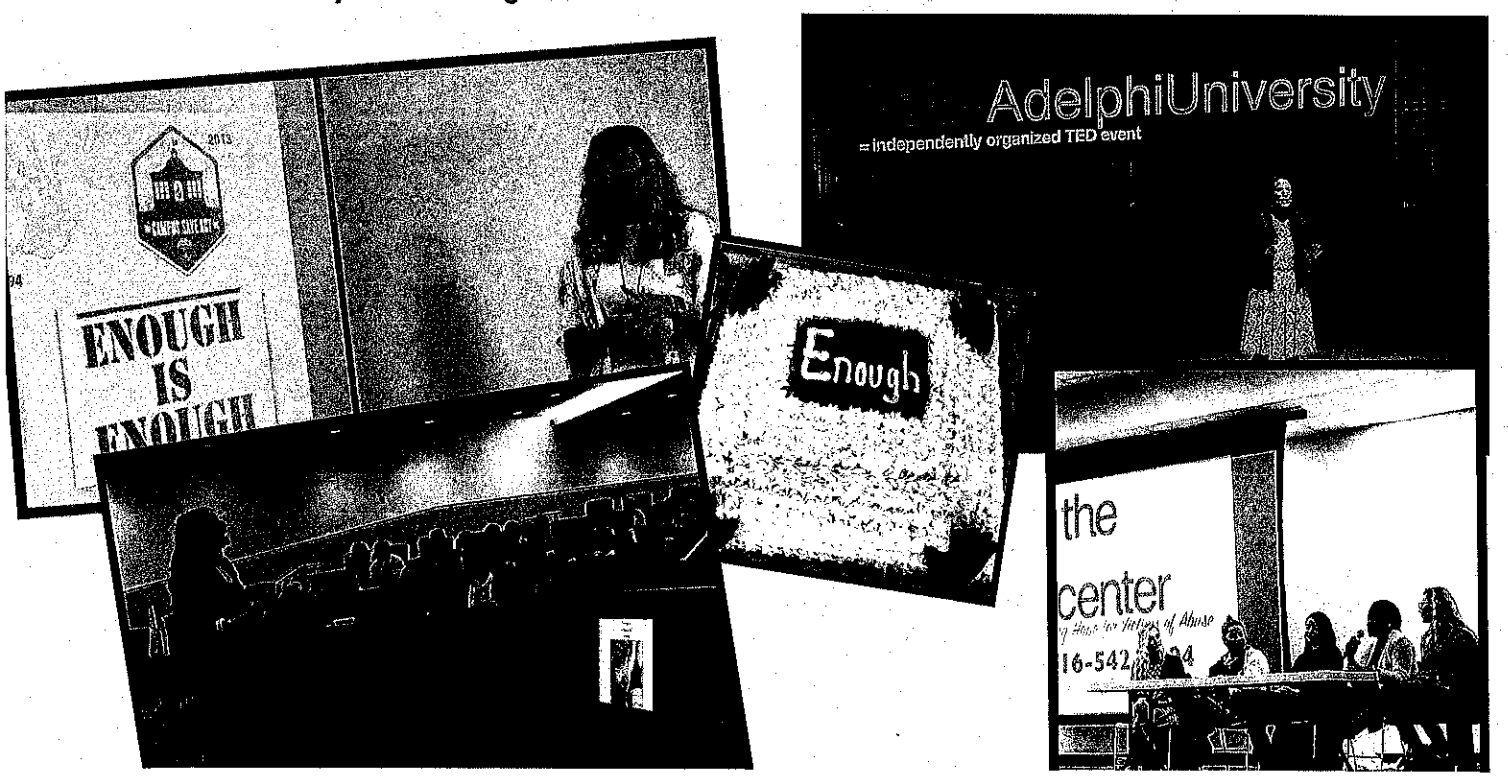
The Safe Center facilitated 74 Enough is Enough trainings in 2018 reaching 4,274 attendees consisting of faculty, staff, and students.

ENOUGH ABUSE CAMPAIGN

The Enough Abuse Campaign is a prevention initiative designed to empower parents and community members to reduce the occurrence of child sexual abuse. The Safe Center is one of the only approved Enough Abuse training site on Long Island. Through ongoing trainings, the agency continues to expand the network of community members who have been trained to protect children.

In June 2018, The Safe Center recruited and trained 12 volunteers, which increased the pool of available Enough Abuse facilitators to nearly 50. These trainers are available to go into the community to train parents, professionals and community members on how to keep children safe from abuse.

In 2018, a total of 390 people received training on how to recognize and keep children safe from abuse during 20 different facilitated Enough Abuse trainings. 28 additional volunteer trainers joined the Enough Abuse campaign in 2018. To date, we have educated over 1,500 adults throughout the Long Island community about Enough Abuse.



MANY FACES OF FAMILY VIOLENCE CONFERENCE

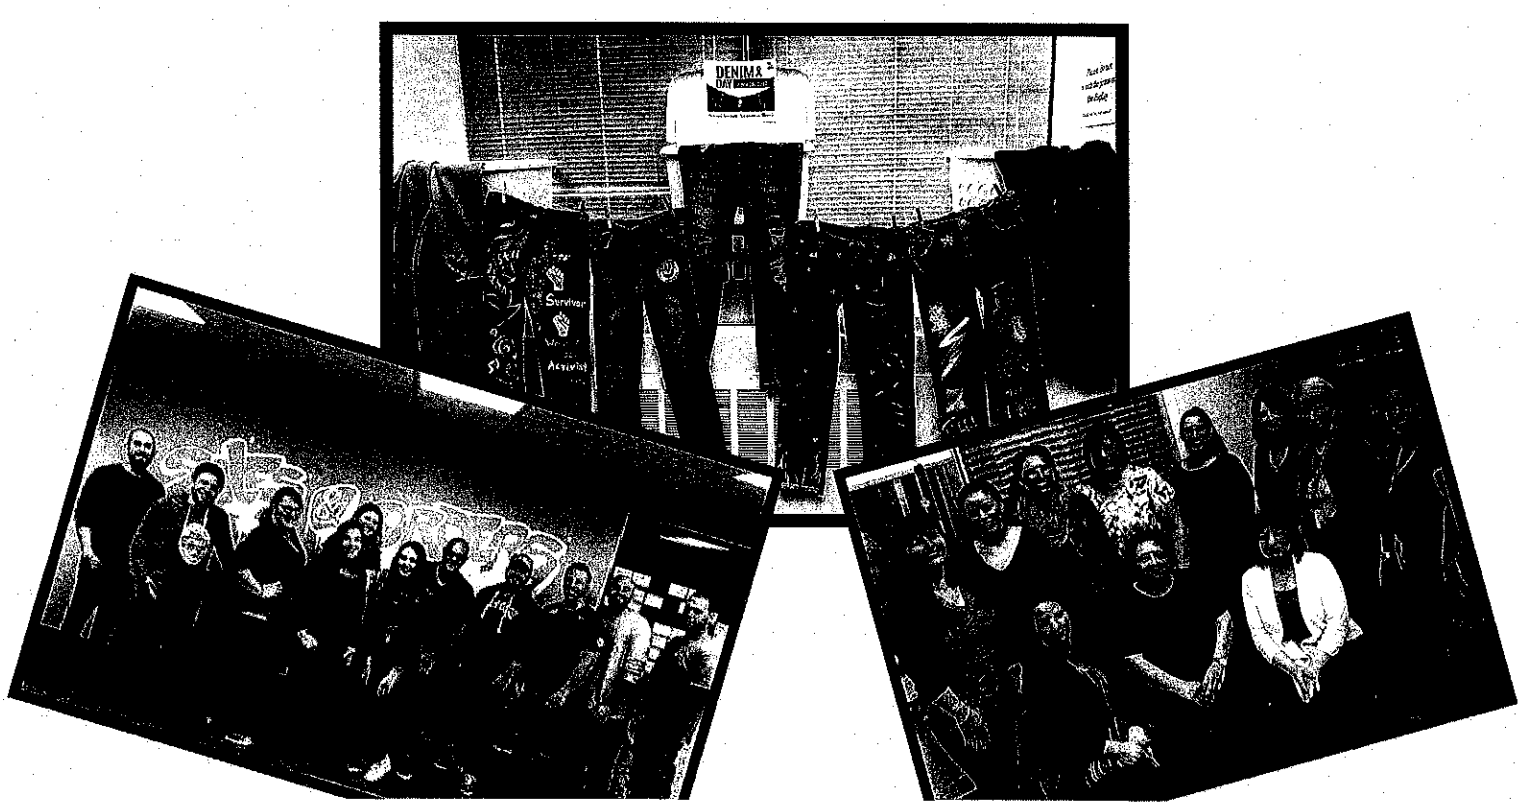
In April, The Safe Center, in collaboration with LIU Post and the Nassau County Executive's Family Violence Task Force facilitated the 9th Annual Many Faces of Family Violence Conference. Nationally known speaker Emily May provided the keynote address and a workshop on bystander intervention.

The event was a full day of workshops related to various facets of interpersonal violence attended by nearly 400 social workers, human services practitioners, psychologists, Child Protective Services caseworkers, law enforcement officers, teachers and school staff, juvenile justice workers and counselors from Long Island and New York City.

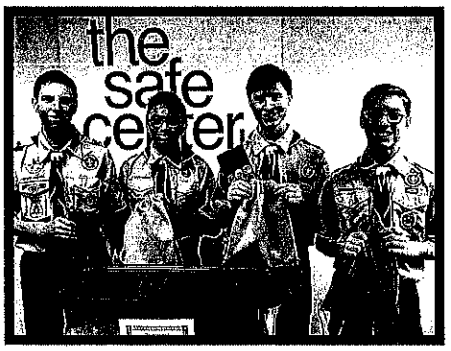
April is Sexual Assault Awareness Month. On April 25th, Denim Day, The Safe Center hosted a screening of a series of sexual harassment PSAs entitled "That's Harassment." The five clips were created by the Ad Council, Rape Abuse and Incest National Network (RAINN), and the National Women's Law Center to highlight the prevalence of harassment and assault in different life situations. Attendees were engaged in discussion with professionals from the agency. The room was surrounded by a display of the denim jeans decorated by clients were on display to honor survivors of sexual violence.

Ask Me Why I Wear Denim on April 25th

Denim Day is an international day of awareness that encourages individuals to wear jeans (denim) to honor survivors of Rape and Sexual Assault. The day was developed as a response to a 1992 case tried in Italy in which a judge later overturned a conviction of rape because the young female victim wore tight jeans. It was argued that she must have had to help her attacker remove her jeans, making the act consensual.



SUPPORTING THE SAFE CENTER



Although The Safe Center is largely supported through government contracts and grants, 15% of annual revenue for 2018 was raised through individual support, foundation grants, special events and campaign fundraisers which included Taste That Jazz Food and Beverage Tasting, Swing for Hope Golf Outing, Every Home A Safe Home Gala and 2018 Season of Giving. In-Kind Donations of Products and Services

In addition to generous monetary donations received in 2018, The Safe Center accepted in-kind donations of products and services from members of the Long Island community throughout the year. These donations which included baby care items, new clothing and bed linens, household and cleaning supplies, kitchen essentials, paper goods, toiletries and gift cards to local Target, Walmart & Stop and Shop helped to offset expenses incurred for client needs at both the Safe Home and the agency. Local businesses, restaurants, and retail stores also contributed to our fundraising efforts by providing products and services which were used as raffle and silent auction items at special events.

Message to all Safe Center Champions

Administrative staff work very hard to present a complete listing of all who make donations in support of Safe Center's programs and services. The listing of Association, Corporate, and Individual Donors include those who have contributed $500 or more in the 2018 calendar year. The Safe Center apologizes if an acknowledgement of support was inadvertently missed and extends its heartfelt appreciation to each of you who had provided support at any level. Support provided by Safe Center Champions is invaluable. Thank you for being an important part of The Safe Center family.

STAFF & VOLUNTEERS

Employees and volunteers of The Safe Center work tirelessly to ensure that adult and child victims of abuse and their non-offending family members are safe, receive the necessary services to heal from abuse without shame, and restore hope for a better future. Staff members of The Safe Center include Attorneys, Counselors, Social Workers, Advocates, Educators, program interns, and administrative personnel, many of whom are bilingual service providers. The Safe Center requires new staff to attend educational trainings that provide an overview of the types of abuses addressed by the agency including child abuse, domestic violence, rape and sexual assault, and human trafficking. Appendix EE
Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the

Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The

award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a

County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

III. X **This is a renewal, extension or amendment of an existing contract.**
The contract was originally executed by Nassau County on March 19, 2018. This is an amendment within the scope of the contract (copies of the relevant pages are attached). The original contract was entered following a streamlined procurement process, where three proposals were solicited. Manatt was chosen as the lowest responsible bidder.

IV. Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

☐ **A.** The contract has been awarded to the proposer offering the lowest cost proposal; **OR:**

☐ **B.** The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

V. ☐ **Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.**

☐ **A.** There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.

☐ **B.** The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).

For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. ☐ This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

Instructions with respect to Sections VIII, IX and X: **All Departments must check the box for VIII. Then, check the box for either IX or X, as applicable.**

VIII. X Participation of Minority Group Members and Women in Nassau County Contracts. The selected contractor has agreed that it has an obligation to utilize best efforts to hire MWBE sub-contractors. Proof of the contractual utilization of best efforts as outlined in Exhibit "EE" may be requested at any time, from time to time, by the Comptroller's Office prior to the approval of claim vouchers.

IX. ☐ Department MWBE responsibilities. To ensure compliance with MWBE requirements as outlined in Exhibit "EE", Department will require vendor to submit list of sub-contractor requirements prior to submission of the first claim voucher, for services under this contract being submitted to the Comptroller.

X. X Vendor will not require any sub-contractors.

Appendix EE

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Instructions: **Please check the appropriate box ("☑") after one of the following roman numerals and provide all the requested information.**

I. ☐ The contract was awarded to the lowest, responsible bidder after advertisement for sealed bids. The contract was awarded after a request for sealed bids was published in _____ [newspaper] on _____ [date]. The sealed bids were publicly opened on _____ [date]. _____ [#] of sealed bids were received and opened.

II. ☐ The contractor was selected pursuant to a Request for Proposals.
The Contract was entered into after a written request for proposals was issued on _____ [date]. Potential proposers were made aware of the availability of the RFP by advertisement in _____ [newspaper], posting on industry websites, via email to interested parties and by publication on the County procurement website. Proposals were due on _____ [date]. _____ [state #] proposals were received and evaluated. The evaluation committee consisted of: _____

_____

_____ (list # of persons on committee and their respective departments). The proposals were scored and ranked. As a result of the scoring and ranking, the highest-ranking proposer was selected.

III. X This is a renewal, extension or amendment of an existing contract.
The contract was originally executed by Nassau County on March 27, 2018. This is an amendment to extend the term of the contract (copies of the relevant pages are attached). Based off the proposals that were solicited under a prior contract with the County (prior contract began in 2007 where four firms were solicited and three firms submitted a proposal), it was determined that the type of services Bishop could provide to the municipality, the special skill set in lobbying on behalf of a municipality, the same rates as the prior year, and the ability of Bishop to continue to provide lobbying services to the County while other lobbying firms were determined to be conflicted out of lobbying on behalf of the County, it was determined to continue the lobbying contract with Bishop.

IV. Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

☐ **A.** The contract has been awarded to the proposer offering the lowest cost proposal; **OR:**

☐ **B.** The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

V. ☐ Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

☐ **A.** There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.

☐ **B.** The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).

☐ **C.** Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no._____, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.

☐ **D.** Pursuant to General Municipal Law Section 119-o, the department is purchasing the services required through an inter-municipal agreement.

VI. ☐ This is a human services contract with a not-for-profit agency for which a

competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. ☐ This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

Instructions with respect to Sections VIII, IX and X: **All Departments must check the box for VIII. Then, check the box for either IX or X, as applicable.**

IX. ☐ Department MWBE responsibilities. To ensure compliance with MWBE requirements as outlined in Exhibit "EE", Department will require vendor to submit list of sub-contractor requirements prior to submission of the first claim voucher, for services under this contract being submitted to the Comptroller.

X. X Vendor will not require any sub-contractors.

11. Insurance. (a) Types and Amounts. The Lobbyist shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit liability of not less than three million dollar s ($3,000,000.00) per claim and three million dollars ($3,ooo,ooo.oo) in the aggregate; (ii) compensation insurance for the benefit of the Lobbyist's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iii) such additional insurance as the County may from time to time specify.

Appendix EE

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

f. INTER-DEPARTMENTAL MEMO

To: Robert Cleary, Chief Procurement Officer

From: Keith Cromwell, Deputy Medical Examiner for Administration

Date: February 13, 2020

Subject: Sole Source: Dr. Peter M. Farmer, Neuropathologist

Our candidate, Dr. Peter M. Farmer, is the only board- certified Forensic Neuropathologist available for consultation in Nassau County. He is willing and able to effectively and efficiently serve the only Medical Examiner's Office in Nassau County. He is the sole source for this position. Please be advised that hospital-based neuropathologists have no exposure to forensics and no expertise required for this kind of work. Dr. Farmer has been performing this work for the Nassau County Medical Examiner's Office for over decades.

We are seeking to enter into a five-year contract with Dr. Famer to provide forensic neuropathology services to the Medical Examiner's Office. Dr. Farmer's work consists of the following: gross examinations of brains and/or spinal cords, cutting specimens for submission of tissue for further examination, microscopic examination of brain tissues to determine cause of, or causes contributing to death, analyzing the structural or functional changes in the brain tissue which caused death; and generating neuropathological reports enumerating medical findings of deceased persons in the care of the Department.

With respect to the fee being charged to the County for services provided, Dr. Farmer continues to charge the County the same hourly rate that he has been charging since 1982, which is ninety ($90.00) dollars per hour.

Further, please be advised that there are over one hundred (100) cases each year that require forensic neuropathology expertise. Dr. Farmer is not only a Nassau County resident, he lives within walking distance of the Medical Examiner's Office and continues to be available on an "on call" basis to this Department.

Dr. Farmer's work is necessary for the completion of autopsy reports, which bereaved families are reliant upon for many reasons, including legal and financial ones. At this point in time, there are autopsy reports that are awaiting completion and bereaved family members are calling the office seeking final autopsy reports that have been delayed due to the lapse between the expiration of the old contract and the creation of the new contract. Time is of the essence to establish this contract, so that this work can be conducted and the outstanding autopsy reports completed.

Business History Form

The contract shall be awarded to the responsible proposer who, at the discretion of the County, taking into consideration the reliability of the proposer and the capacity of the proposer to perform the services required by the County, offers the best value to the County and who will best promote the public interest.

In addition to the submission of proposals, each proposer shall complete and submit this questionnaire. The questionnaire shall be filled out by the owner of a sole proprietorship or by an authorized representative of the firm, corporation or partnership submitting the Proposal.

RE: Procurement initiative for forensic neuro pathologist

Our candidate, Dr. Peter Farmer, is the only board certified forensic neuro pathologist residing in Nassau County who is willing and able to effectively and efficiently serve the only Medical Examiner's Office, (MEO), in Nassau County. Essentially, he is sole source. Efforts to solicit alternative practitioners within our catchment area have proved futile. Moreover, soliciting alternative vendors beyond the MEO's geographic catchment area would be unsuitable and consequently undesirable relative to their inability to satisfy the MEO's operational criteria.

Cc: T. Bloom, M.D.

THIS AGREEMENT, (together with the schedules, appendices, attachments and exhibits, if any, this "Agreement"), dated as of the date this Agreement is executed by the **County of Nassau**, is entered into by and between (i) Nassau County, a municipal corporation having its principal office at One West Street, Mineola, New York 11501 (the "County"), acting on behalf of the County Department of the Nassau County Medical Examiner, having its principal office at 2251 Hempstead Turnpike, East Meadow, NY 11554 (the "Department") and (ii) **[Peter M. Unless a provision of this Agreement expressly states otherwise, payments to the Contractor following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

4. Independent Contractor. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "Contractor Agent"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. 6. Compliance with Law. (a) Generally. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, discrimination, a living wage, disclosure of information, Health Insurance Portability and Accountability Act of 1996 (HIPPA) and vendor registration, in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's vendor registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

(i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

(iii) It shall be a continuing obligation of the Contractor to inform the County of any material changes in the content of its certification of compliance and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) Records Access. In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

(d) Protected Information. The Contractor acknowledges and agrees that all information that the Contractor acquires in connection with performance under this Agreement is strictly confidential, shall be held in the strictest confidence and shall be used solely for the purpose of performing services for or on behalf of the County. Such confidential information shall not be disclosed to third parties except (i) as permitted under this Agreement, or (ii) in accordance with Law or (iii) upon legal compulsion. The provisions of this Section shall survive the termination of this Agreement and any breach of these provisions shall be cause for immediate termination of this Agreement.

7. Minimum Service Standards. Regardless of whether required by Law: (a) The Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver Services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or

appropriate in connection with this Agreement.

8. Indemnification; Defense; Cooperation. (a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

9. Insurance. (a) Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit liability of not less one million dollars ($1,000,000.00) per claim and two million dollars ($2,000,000.00) aggregate coverage; (iii) compensation insurance for the benefit of the Contractor's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the

date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

11. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

(c) Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

12. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

13. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

14. Work Performance Liability. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

15. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

16. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand

delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

17. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

18. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

19. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

20. Administrative Service Charge. The Contractor agrees to pay the County an administrative service charge of One Hundred Sixty Dollars ($160.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 201-2001. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

21. Executory Clause. Notwithstanding any other provision of this Agreement:

(a) Approval and Execution. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all County approvals have been obtained, including, if required, approval by the County Legislature, and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) Availability of Funds. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the County from the state and/or federal governments.

IN WITNESS WHEREOF, the Contractor and the County have executed this Agreement as of the date first above written.

Appendix EE
Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the

Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination

of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Appendix EE
Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the

Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination

of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

Appendix EE

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the

Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination

of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of

performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

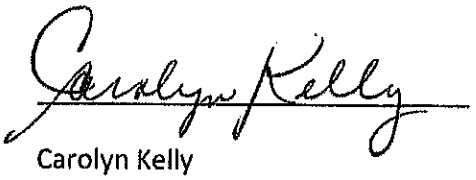
Subject: Delay Memo (Contract ID: CQME14000001 / NIFS ID: CLME 20000001)

Please be advised that there was a delay in providing Amendment #4 for the above Contract ID Number in the Electronic Routing System. This delay was the result of a culmination of a series of events that have now been remedied. There was an insufficient transfer of knowledge among staff members, who have since left their position of employment. Further, there was the overhaul of the contract system from a paper process to an electronic process. This contract came up for a one-year amendment renewal during that transition phase. In addition, an incorrect email address was catalogued for the vendor. This error went unrecognized for many months before it was rectified. Finally, there were several parties involved—including the vendor—who had limited skills with computers and ever evolving and advancing electronic technology.

New systems have been established within the department to prevent this type of delay from occurring again. First, we now have the ability to extend the term of the contract beyond a one-year period, which we will be availing ourselves of going forward. Second, we now have a group calendar with an alert system that will notify all involved parties that a contract term is expiring in the next few months and should be addressed, whether that be in the form of a renewal, completing the necessary work for an advisement or drafting a new contract.

as I had limited knowledge in using this system and I had to resubmit the documents multiple times to ensure all information was appropriately attached. Please let me know if you require any further information or details.

Sincerely,



Carolyn Kelly

In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII. ☐ This is a public works contract for the provision of architectural, engineering or surveying services.
