#### **ORDINANCE NO.** 5-A - 2018

AN ORDINANCE to amend Ordinance No. 13-2016, adopting the Capital Budget for the year two thousand sixteen for the County of Nassau, corresponding to the first year of the four year Capital Plan, pursuant to the provisions of Section 310 of the County Government Law of Nassau County.

WHEREAS, on February 22, 2016, pursuant to Section 310 of the County Government Law of Nassau County, the Nassau County Legislature by Ordinance No. 13-2016 approved and adopted the Capital Budget (as amended, the "Capital Budget") of the County of Nassau for the fiscal year beginning January 1, 2016 and ending December 31, 2016; and

WHEREAS, on February 22, 2016, pursuant to Section 310 of the County Government Law of Nassau County, the Nassau County Legislature by Resolution No. 27-2016 approved and adopted the four-year Capital Plan for the County of Nassau for the fiscal year beginning January 1, 2016 (the "Capital Plan"); and

WHEREAS, pursuant to Section 310 of such County Government Law, the County Executive may propose, at any time subsequent to the passage of the ordinance approving the Capital Budget, an ordinance to amend the Capital Budget; and

WHEREAS, the County Executive, based upon a review of the Capital Budget priorities by the Nassau County Department of Public Works, proposes that the amounts described herein be authorized in the Capital Budget for certain projects as hereinafter set forth in Appendix A attached hereto and incorporated herein; and

WHEREAS, the Office of Management and Budget has recommended this amendment to the capital budget with respect to the amendment contained in this ordinance; now, therefore, BE IT ORDAINED by County Legislature of the County of Nassau as follows:

Section 1. The Capital Budget, as adopted by Ordinance No. 13-2016, is amended as follows:

(i) under the column heading, "Parks", project title, "41829 – Various Parks Outdoor Lighting Rehabilitation", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$13,187,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$13,072,581", the amount listed under the column heading "Carry Forward", shall read "\$114,419", the amount listed under the column heading "2016 County Debt", shall read "\$3,125,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$3,125,000;" and

(ii) under the column heading, "Infrastructure", project title, "70086 – NCC West/South Campus Parking Lot Rehab", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$14,550,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$11,888,385", the amount listed under the column heading "Carry Forward", shall read "\$2,661,615", the amount listed under the column heading "2016 County Debt", shall read "\$1,475,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$1,475,000" and the amount listed under the column heading, "2016 TOTAL", shall read "\$2,950,000;" and

(iii) under the column heading, "Infrastructure", project title, "70088 – NCCRenovation of Cluster C", the amount listed under the column heading "Cumulative Budget (Pre

2016 Budget)", shall read "\$8,950,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$2,335,130", the amount listed under the column heading "Carry Forward", shall read "\$6,614,870", the amount listed under the column heading "2016 County Debt", shall read "\$6,000,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$6,000,000" and the amount listed under the column heading, "2016 TOTAL", shall read "\$12,000,000;" and

(iv) under the column heading, "Infrastructure", project title, "70092 – NCC Road and Parking Paving", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$5,400,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$3,117,590", the amount listed under the column heading "Carry Forward", shall read "\$2,282,410", the amount listed under the column heading "2016 County Debt", shall read "\$3,100,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$3,100,000" and the amount listed under the column heading, "2016 TOTAL", shall read "\$6,200,000;" and

(v) under the column heading, "Infrastructure", project title, "70094 – NCC Performing Arts Center", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$2,250,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$186,390", the amount listed under the column heading "Carry Forward", shall read "\$2,063,610", the amount listed under the column heading "2016 County Debt", shall read "\$7,000,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$7,000,000" and the amount listed under the column heading, "2016 TOTAL", shall read "\$14,000,000;" and

(vi) under the column heading, "Infrastructure", project title, "70097 – NCC Elevator Restorations", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$4,000,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$1,140,619", the amount listed under the column heading "Carry Forward", shall read "\$2,859,381", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(vii) under the column heading, "Infrastructure", project title, "70105 – NCC Various Facility Upgrades Phase II", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$500,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$500,000", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(viii) under the column heading, "Infrastructure", project title, "70107 – NCC Concrete Repair", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$1,200,000", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$1,200,000", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(ix) under the column heading, "Infrastructure", project title, "70114 – NCC Campus Building Systems Upgrades", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$0", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "2016 County Debt", shall read "\$500,000", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$500,000" and the amount listed under the column heading, "2016 TOTAL", shall read "\$1,000,000;" and

(x) under the column heading, "Infrastructure", project title, "70117 – NCC Campus Wide Rehab", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$0", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(xi) under the column heading, "Infrastructure", project title, "70118 – Food
 Service Rehab", the amount listed under the column heading "Cumulative Budget (Pre 2016
 Budget)", shall read "\$0", the amount listed under the column heading "Expenditures Through

2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(xii) under the column heading, "Infrastructure", project title, "70120 – Tunnel Repair", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$0", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

(xiii) under the column heading, "Infrastructure", project title, "70121 – Theater Building Renovation", the amount listed under the column heading "Cumulative Budget (Pre 2016 Budget)", shall read "\$0", the amount listed under the column heading "Expenditures Through 2015", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "Carry Forward", shall read "\$0", the amount listed under the column heading "2016 County Debt", shall read "\$0", the amount listed under the column heading "2016 County Self-Funding", shall read "\$0", the amount listed under the column heading "2016 Non-County", shall read "\$0" and the amount listed under the column heading, "2016 TOTAL", shall read "\$0;" and

Section 2. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said

ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

Section 3. This ordinance shall take effect immediately.

# **APPENDIX** A

## ORDINANCE NO. 5–2018

AN ORDINANCE supplemental to the annual appropriation ordinance in connection with the Police Headquarters Fund and a transfer of appropriations.

WHEREAS, Nassau County has received certain revenue; and

WHEREAS, such sums have not been otherwise appropriated; and

WHEREAS, the County Executive, by communication dated January 17, 2018 addressed to the County Legislature, has recommended the appropriation of such sums not otherwise appropriated and requested the simultaneous transfer of such sums between budgetary funds; and,

WHEREAS, this simultaneous supplemental appropriation and transfer of appropriations is within the scope of Section 307 of the County Government Law; and

WHEREAS, in order to accomplish the aforementioned supplemental appropriation, it is necessary that the simultaneous transfer of the subject sums between budgetary funds occur; and

WHEREAS, the simultaneous transfer and supplemental appropriation has been reviewed and approved by the Office of Management and Budget and the Office of the County Executive now, therefore,

BE IT ORDAINED by the County Legislature of the County of Nassau, as follows:

Section 1. There is hereby a transfer of appropriations within the budget year 2017 which is known as BT-17000052 and will be as follows:

§3. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

§ 4. It is hereby determined, pursuant to the provisions of the State Environmental Quality Review Act, 8 N.Y.E.C.L. section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that this supplemental appropriation ordinance is a "Type II" Action within the meaning of Section 617.5(c)(20) of 6 N.Y.C.R.R. ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"), and, accordingly, is of a class of actions which do not have a significant effect on the environment; and no further review is required.

§ 5. This ordinance shall take effect immediately.

## **PROPOSED ORDINANCE NO.** 6 - 2018

BOND ORDINANCE PROVIDING FOR A CAPITAL EXPENDITURE TO FINANCE THE CAPITAL PROJECT(S) IDENTIFIED HEREIN WITHIN THE COUNTY OF NASSAU AND AUTHORIZING \$3,125,000 OF BONDS OF THE COUNTY OF NASSAU TO FINANCE SUCH EXPENDITURE PURSUANT TO THE LOCAL FINANCE LAW OF NEW YORK AND THE COUNTY GOVERNMENTAL LAW OF NASSAU COUNTY.

WHEREAS, this bond ordinance is necessary to authorize bonds for the purpose of funding project(s) contemplated by capital budgets as provided in Section 310 of the County Government Law of Nassau County; and

WHEREAS, all necessary Federal, State, County and local permits, approvals and determinations of environmental impact for the purpose or purposes hereinafter referred to have been obtained or will have been obtained prior to the expenditure of proceeds of obligations to be authorized pursuant to this ordinance; NOW, THEREFORE,

BE IT ORDAINED, by the by the affirmative vote of not less than two-thirds (2/3<sup>rd</sup>) of the total voting strength of the County Legislature of the County of Nassau, New York, as follows:

Section 1. A capital expenditure for financing the cost of Project 41829 – Various Parks Outdoor Lighting Rehab, in the County of Nassau (hereinafter referred to as the "County"), is hereby authorized upon recommendation of the County Executive, the amount of such capital expenditure to be \$3,125,000 which shall be financed with the proceeds from the issuance of \$3,125,000 bonds.

Section 2. The County may issue its bonds in the aggregate principal amount of \$3,125,000 pursuant to the Local Finance Law of New York (hereinafter referred to as the "LFL") in order to finance such class of objects or purposes (hereinafter referred to as the "Purpose").

Section 3. The County Legislature has determined and hereby states that the estimated aggregate maximum cost of such Purpose, including preliminary costs and costs incidental thereto and the financing thereof, is \$3,125,000. The plan of financing includes \$3,125,000 to be raised by the issuance of bonds authorized by this ordinance, and the levy and collection of taxes on all the taxable real property of the County to pay the principal of said bonds and the interest thereon as the same shall be come due and payable.

Section 4. The County Legislature hereby determines that the period of probable usefulness of the Purpose for which said \$3,125,000 bonds authorized pursuant to this ordinance are to be issued, within the limitations of subdivision 19(c) of paragraph a. of Section 11.00 of the Law, is 15 years.

Section 5. Subject to the terms and conditions of this ordinance and the LFL, and pursuant to the provisions of the LFL, the powers and duties of the County Legislature relative to authorizing the issuance of and to sell bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the County Treasurer, the chief fiscal officer. Such notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said County Treasurer, consistent with the provisions of the LFL.

Section 6. All other matters except as provided herein relating to the bonds herein authorized including the date, denominations, maturities and interest payment dates, within the limitations prescribed herein and the manner of execution of the same, including the consolidation with other bond issues, and also the ability to issue bonds with substantially level or declining annual debt service, shall be determined by the County Treasurer, the chief fiscal officer of such County.

Section 7. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such bonds and notes as the same become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such bonds and notes becoming due and payable in such year.

Section 8. The validity of such bonds and bond anticipation notes may be contested only if:

- Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or
- 2) The provisions of law which should be complied with as the date of publication of this ordinance are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or
- Such obligations are authorized in violation of the provisions of the Constitution.

Section 9. This ordinance shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150-2. Other than as specified in this ordinance, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 10. This ordinance, which takes effect immediately, shall be published in summary in the official newspaper of said County together with a notice of the Clerk of the County Legislature in substantially the form set forth in paragraph a of Section 81.00 of the Local Finance Law.

Section 11. It is hereby determined pursuant to the provisions of the State Environmental Quality Review Act ("SEQRA"), 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that the Purpose identified herein is a Type II action within the meaning of Section 617.5(c)(2) of 6 N.Y.C.R.R., and, accordingly, is of a class of actions which do not have a significant effect on the environment and no further review is required. A record of each such determination shall be maintained in a file, readily accessible to the public, at the office of the Clerk of the Legislature.

Section 12. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of said Legislature.

## **PROPOSED ORDINANCE NO.** 7 - 2018

BOND ORDINANCE PROVIDING FOR A CAPITAL EXPENDITURE TO FINANCE THE CAPITAL PROJECT(S) IDENTIFIED HEREIN WITHIN THE COUNTY OF NASSAU AND AUTHORIZING \$500,000 OF BONDS OF THE COUNTY OF NASSAU TO FINANCE SUCH EXPENDITURE PURSUANT TO THE LOCAL FINANCE LAW OF NEW YORK AND THE COUNTY GOVERNMENTAL LAW OF NASSAU COUNTY.

WHEREAS, this bond ordinance is necessary to authorize bonds for the purpose of funding project(s) contemplated by capital budgets as provided in Section 310 of the County Government Law of Nassau County; and

WHEREAS, all necessary Federal, State, County and local permits, approvals and determinations of environmental impact for the purpose or purposes hereinafter referred to have been obtained or will have been obtained prior to the expenditure of proceeds of obligations to be authorized pursuant to this ordinance; NOW, THEREFORE,

BE IT ORDAINED, by the by the affirmative vote of not less than two-thirds (2/3<sup>rd</sup>) of the total voting strength of the County Legislature of the County of Nassau, New York, as follows:

Section 1. A capital expenditure for financing the cost of Project 41858 – County Pools Improvements and Code Compliance, in the County of Nassau (hereinafter referred to as the "County"), is hereby authorized upon recommendation of the County Executive, the amount of such capital expenditure to be \$500,000 which shall be financed with the proceeds from the issuance of \$500,000 bonds.

Section 2. The County may issue its bonds in the aggregate principal amount of \$500,000 pursuant to the Local Finance Law of New York (hereinafter referred to as the "LFL") in order to finance such class of objects or purposes (hereinafter referred to as the "Purpose").

Section 3. The County Legislature has determined and hereby states that the estimated aggregate maximum cost of such Purpose, including preliminary costs and costs incidental thereto and the financing thereof, is \$500,000. The plan of financing includes \$500,000 to be raised by the issuance of bonds authorized by this ordinance, and the levy and collection of taxes on all the taxable real property of the County to pay the principal of said bonds and the interest thereon as the same shall be come due and payable.

Section 4. The County Legislature hereby determines that the period of probable usefulness of the Purpose for which said \$500,000 bonds authorized pursuant to this ordinance are to be issued, within the limitations of subdivision 61 of paragraph a. of Section 11.00 of the Law, is 15 years.

Section 5. Subject to the terms and conditions of this ordinance and the LFL, and pursuant to the provisions of the LFL, the powers and duties of the County Legislature relative to authorizing the issuance of and to sell bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the County Treasurer, the chief fiscal officer. Such notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said County Treasurer, consistent with the provisions of the LFL.

Section 6. All other matters except as provided herein relating to the bonds herein authorized including the date, denominations, maturities and interest payment dates, within the limitations prescribed herein and the manner of execution of the same, including the consolidation with other bond issues, and also the ability to issue bonds with substantially level or declining annual debt service, shall be determined by the County Treasurer, the chief fiscal officer of such County.

Section 7. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such bonds and notes as the same become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such bonds and notes becoming due and payable in such year.

Section 8. The validity of such bonds and bond anticipation notes may be contested only if:

- Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or
- 2) The provisions of law which should be complied with as the date of publication of this ordinance are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or
- Such obligations are authorized in violation of the provisions of the Constitution.

Section 9. This ordinance shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150-2. Other than as specified in this ordinance, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 10. This ordinance, which takes effect immediately, shall be published in summary in the official newspaper of said County together with a notice of the Clerk of the County Legislature in substantially the form set forth in paragraph a of Section 81.00 of the Local Finance Law.

Section 11. It is hereby determined pursuant to the provisions of the State Environmental Quality Review Act ("SEQRA"), 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that the Purpose identified herein is a Type II action within the meaning of Section 617.5(c)(2) of 6 N.Y.C.R.R., and, accordingly, is of a class of actions which do not have a significant effect on the environment and no further review is required. A record of each such determination shall be maintained in a file, readily accessible to the public, at the office of the Clerk of the Legislature.

Section 12. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of said Legislature.

### **PROPOSED ORDINANCE NO.** 8- 2018

BOND ORDINANCE PROVIDING FOR A CAPITAL EXPENDITURE TO FINANCE THE CAPITAL PROJECT(S) IDENTIFIED HEREIN WITHIN THE COUNTY OF NASSAU AND AUTHORIZING \$2,768,010 OF BONDS OF THE COUNTY OF NASSAU TO FINANCE SUCH EXPENDITURE PURSUANT TO THE LOCAL FINANCE LAW OF NEW YORK AND THE COUNTY GOVERNMENTAL LAW OF NASSAU COUNTY.

WHEREAS, this bond ordinance is necessary to authorize bonds for the purpose of funding project(s) contemplated by capital budgets as provided in Section 310 of the County Government Law of Nassau County; and

WHEREAS, all necessary Federal, State, County and local permits, approvals and determinations of environmental impact for the purpose or purposes hereinafter referred to have been obtained or will have been obtained prior to the expenditure of proceeds of obligations to be authorized pursuant to this ordinance; NOW, THEREFORE,

BE IT ORDAINED, by the by the affirmative vote of not less than two-thirds (2/3<sup>rd</sup>) of the total voting strength of the County Legislature of the County of Nassau, New York, as follows:

Section 1. A capital expenditure for financing the cost of Project 70092 – NCC Road & Parking Paving, in the County of Nassau (hereinafter referred to as the "County"), is hereby authorized upon recommendation of the County Executive, the amount of such capital expenditure to be \$2,768,010 which shall be financed with the proceeds from the issuance of \$2,768,010 bonds.

Section 2. The County may issue its bonds in the aggregate principal amount of \$2,768,010 pursuant to the Local Finance Law of New York (hereinafter referred to as the "LFL") in order to finance such class of objects or purposes (hereinafter referred to as the "Purpose").

Section 3. The County Legislature has determined and hereby states that the estimated aggregate maximum cost of such Purpose, including preliminary costs and costs incidental thereto and the financing thereof, is \$2,768,010. The plan of financing includes \$2,768,010 to be raised by the issuance of bonds authorized by this ordinance, and the levy and collection of taxes on all the taxable real property of the County to pay the principal of said bonds and the interest thereon as the same shall be come due and payable.

Section 4. The County Legislature hereby determines that the period of probable usefulness of the Purpose for which said \$2,768,010 bonds authorized pursuant to this ordinance are to be issued, within the limitations of subdivision 20(b),(f) of paragraph a. of Section 11.00 of the Law, is 10 years.

Section 5. Subject to the terms and conditions of this ordinance and the LFL, and pursuant to the provisions of the LFL, the powers and duties of the County Legislature relative to authorizing the issuance of and to sell bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the County Treasurer, the chief fiscal officer. Such notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said County Treasurer, consistent with the provisions of the LFL.

Section 6. All other matters except as provided herein relating to the bonds herein authorized including the date, denominations, maturities and interest payment dates, within the limitations prescribed herein and the manner of execution of the same, including the consolidation with other bond issues, and also the ability to issue bonds with substantially level or declining annual debt service, shall be determined by the County Treasurer, the chief fiscal officer of such County.

Section 7. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such bonds and notes as the same become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such bonds and notes becoming due and payable in such year.

Section 8. The validity of such bonds and bond anticipation notes may be contested only if:

- Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or
- 2) The provisions of law which should be complied with as the date of publication of this ordinance are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or
- Such obligations are authorized in violation of the provisions of the Constitution.

Section 9. This ordinance shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150-2. Other than as specified in this ordinance, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 10. This ordinance, which takes effect immediately, shall be published in summary in the official newspaper of said County together with a notice of the Clerk of the County Legislature in substantially the form set forth in paragraph a of Section 81.00 of the Local Finance Law.

Section 11. It is hereby determined pursuant to the provisions of the State Environmental Quality Review Act ("SEQRA"), 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that the Purpose identified herein is a Type II action within the meaning of Section 617.5(c)(4) of 6 N.Y.C.R.R., and, accordingly, is of a class of actions which do not have a significant effect on the environment and no further review is required. A record of each such determination shall be maintained in a file, readily accessible to the public, at the office of the Clerk of the Legislature.

Section 12. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of said Legislature.

### **PROPOSED ORDINANCE NO.** 9 - 2018

BOND ORDINANCE PROVIDING FOR A CAPITAL EXPENDITURE TO FINANCE THE CAPITAL PROJECT(S) IDENTIFIED HEREIN WITHIN THE COUNTY OF NASSAU AND AUTHORIZING \$600,000 OF BONDS OF THE COUNTY OF NASSAU TO FINANCE SUCH EXPENDITURE PURSUANT TO THE LOCAL FINANCE LAW OF NEW YORK AND THE COUNTY GOVERNMENTAL LAW OF NASSAU COUNTY.

#### PROPOSED ORDINANCE NO. 12 –2018

AN ORDINANCE supplemental to the annual appropriation ordinance in connection with the Police Department.

WHEREAS, Nassau County has received certain revenue; and

WHEREAS, such funds have not been otherwise appropriated; and

WHEREAS, the County Executive, by communication dated January 18, 2018, addressed

to the County Legislature, has recommended the appropriation of such funds not otherwise appropriated; and,

WHEREAS, this supplemental appropriation is within the scope of Section 307 of the County Government Law; now, therefore,

BE IT ORDAINED by the County Legislature of the County of Nassau, as follows:

Section 1. There is hereby appropriated from monies not otherwise appropriated, the

TOTAL AMOUNT	SOURCE OF FUNDS	APPROPRIATED TO:			<u>:</u>
(in dollars)					
		<u>FUND</u>	DEPT.	<u>OBJ.</u>	<b>AMOUNT</b>
			<b>CODE/Index</b>	<u>CODE</u>	(in dollars)
20,000	New York State Division	GRT	PD	AA	20,000
	of Criminal Justice				
	Services				

following sums of money to the following accounts:

§ 2. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

§ 3. It is hereby determined, pursuant to the provisions of the State Environmental Quality Review Act, 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that this supplemental appropriation ordinance is a "Type II" Action within the meaning of Section 617.5(c)(20) of 6 N.Y.C.R.R. ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"), and, accordingly, is of a class of actions which do not have a significant effect on the environment; and no further review is required.

§ 4. This ordinance shall take effect immediately.

#### PROPOSED ORDINANCE NO. 13–2018

AN ORDINANCE supplemental to the annual appropriation ordinance in connection with the Police Department.

WHEREAS, Nassau County has received certain revenue; and

WHEREAS, such funds have not been otherwise appropriated; and

WHEREAS, the County Executive, by communication dated January 18, 2018, addressed

to the County Legislature, has recommended the appropriation of such funds not otherwise appropriated; and,

WHEREAS, this supplemental appropriation is within the scope of Section 307 of the County Government Law; now, therefore,

BE IT ORDAINED by the County Legislature of the County of Nassau, as follows:

Section 1. There is hereby appropriated from monies not otherwise appropriated, the

TOTAL AMOUNT (in dollars)	SOURCE OF FUNDS		<u>APPROPRL</u>	ATED TO	<u>:</u>

		GRT	PD	DD	2,869

following sums of money to the following accounts:

§ 2. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

§ 3. It is hereby determined, pursuant to the provisions of the State Environmental Quality Review Act, 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that this supplemental appropriation ordinance is a "Type II" Action within the meaning of Section 617.5(c)(20) of 6 N.Y.C.R.R. ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"), and, accordingly, is of a class of actions which do not have a significant effect on the environment; and no further review is required.

§ 4. This ordinance shall take effect immediately.

#### PROPOSED ORDINANCE NO. 14 –2018

AN ORDINANCE supplemental to the annual appropriation ordinance in connection with the Medical Examiner's Office of Forensic Services (Crime Lab).

WHEREAS, Nassau County has received certain revenue; and

WHEREAS, such funds have not been otherwise appropriated; and

WHEREAS, the County Executive, by communication dated January 31, 2018, addressed

to the County Legislature, has recommended the appropriation of such funds not otherwise appropriated; and,

WHEREAS, this supplemental appropriation is within the scope of Section 307 of the County Government Law; now, therefore,

BE IT ORDAINED by the County Legislature of the County of Nassau, as follows:

Section 1. There is hereby appropriated from monies not otherwise appropriated, the

following sums of money to the following accounts:

§ 2. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

§ 3. It is hereby determined, pursuant to the provisions of the State Environmental Quality Review Act, 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that this supplemental appropriation ordinance is a "Type II" Action within the meaning of Section 617.5(c)(20) of 6 N.Y.C.R.R. ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"), and, accordingly, is of a class of actions which do not have a significant effect on the environment; and no further review is required.

§ 4. This ordinance shall take effect immediately.

#### PROPOSED ORDINANCE NO. 17 - 2018

AUTHORIZING THE COUNTY EXECUTIVE ON BEHALF OF THE COUNTY OF NASSAU TO EXECUTE AN AMENDMENT TO AMENDED AND RESTATED COLISEUM LEASE, BETWEEN THE COUNTY OF NASSAU, AS LANDLORD, AND NASSAU EVENTS CENTER, LLC, AS TENANT, OF CERTAIN PREMISES LOCATED IN UNIONDALE, TOWN OF HEMPSTEAD, COUNTY OF NASSAU, STATE OF NEW YORK, SAID PROPERTY KNOWN AS SECTION 44, BLOCK F, LOTS 351 AND 410 ON THE LAND AND TAX MAP OF THE COUNTY OF NASSAU, AND AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE ALL PERTINENT DOCUMENTS IN CONNECTION THEREWITH.

WHEREAS, pursuant to Ordinance No. 134-2013 the County of Nassau (the "County") leases to Nassau Events Center, LLC ("Tenant") the above-described property (hereinafter, the "Premises") pursuant to a Lease Agreement originally made between County of Nassau, as landlord, and Nassau Events Center, LLC, as tenant, executed by the County as of October 30, 2013, as amended pursuant to Ordinance No. 32-2015 by that certain First Amendment to Lease dated as of April 27, 2015, and as further amended pursuant to Ordinance No. 125-A-2015 by that certain Second Amendment to Lease dated as of October 16, 2015 (collectively, the "Lease");

WHEREAS, pursuant to the terms of the Lease, the County severed the Lease into two (2) separate leases for portions of the Premises: (i) an Amended and Restated Coliseum Lease dated as of July 30, 2015 (the "Amended and Restated Coliseum Lease") by and between the County and Nassau Events Center, LLC; and (ii) and an Amended and Restated Plaza Lease dated as of July 30, 2015 by and between the County and NEC Plaza, LLC; WHEREAS, the County and Tenant desire to enter into an amendment to the Amended and Restated Coliseum Lease, such amendment entitled, "First Amendment to Amended and Restated Coliseum Lease" (the "Amendment"), to facilitate the return of the New York Islanders NHL hockey team to the NYCB LIVE Nassau Veterans Memorial Coliseum (the "Coliseum") by modifying (i) the AHL Team requirement and (ii) the Enhanced Minimum Rent provisions; all as is set forth in the Amendment, a copy of which is on file in the office of the Clerk of the Nassau County Legislature; and

WHEREAS, as a result of the Amendment, there is no change to the Legislature's SEQRA review and Determination of Non-Significance made in Ordinance No. 134-2013; now, therefore,

## BE IT ORDAINED BY THE LEGISLATURE OF THE COUNTY OF NASSAU AS FOLLOWS:

1. That the County Executive is hereby authorized to execute, on behalf of the County of Nassau, the Amendment, and to execute any and all other instruments and to take such other action as is necessary to effectuate and carry out the purposes of the Amendment.

2. This ordinance shall take effect immediately.

#### PROPOSED ORDINANCE NO. 15 –2018

AN ORDINANCE supplemental to the annual appropriation ordinance in connection with the Health Department.

WHEREAS, Nassau County has received certain revenue; and

WHEREAS, such funds have not been otherwise appropriated; and

WHEREAS, the County Executive, by communication dated January 31, 2018, addressed

to the County Legislature, has recommended the appropriation of such funds not otherwise appropriated; and,

WHEREAS, this supplemental appropriation is within the scope of Section 307 of the County Government Law; now, therefore,

BE IT ORDAINED by the County Legislature of the County of Nassau, as follows:

Section 1. There is hereby appropriated from monies not otherwise appropriated, the

TOTAL AMOUNT (in dollars)	SOURCE OF FUNDS	APPROPRIATED TO:			
		<u>FUND</u>	DEPT. CODE/Index	<u>OBJ.</u> CODE	AMOUNT (in dollars)
302,000	New York State Department of Health	GRT	HE	AA	198,387
		GRT	HE	AB	96,564
		GRT	HE	DD	4,000
		GRT	HE	HH	3,049

following sums of money to the following accounts:

§ 2. This ordinance may be modified to allow for the correction of any mathematical and/or typographical errors subsequent to any approval and adoption of said ordinance without the necessity for a vote to be taken by the County Legislature or by the members of any Standing Committee of said Legislature if said ordinance is passed by the affirmative vote of a majority of said Legislature.

§ 3. It is hereby determined, pursuant to the provisions of the State Environmental Quality Review Act, 8 N.Y.E.C.L. Section 0101 et seq. and its implementing regulations, Part 617 of 6 N.Y.C.R.R., and Section 1611 of the County Government Law of Nassau County, that this supplemental appropriation ordinance is a "Type II" Action within the meaning of Section 617.5(c)(20) of 6 N.Y.C.R.R. ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"), and, accordingly, is of a class of actions which do not have a significant effect on the environment; and no further review is required.

§ 4. This ordinance shall take effect immediately.

### **Contract Summary**

**Purpose:** The broken and unequal assessment system in Nassau County has not only impacted the residents of Nassau County, but also affects the County's ability to stabilize its finances and balance its budget. Due to the freezing of the tax rolls by the previous administration in 2011 to an assessment system that had not been updated since 2009, Nassau County has not provided a fair and accurate assessment in almost a decade. The current administration's analysis has revealed that residential and commercial assessment challenges have shifted the tax burden by \$1.7 billion over the past seven years. Those with the ability to annually grieve their property assessment benefit from the broken system, and those that do not watch their taxes artificially rise. The County has been forced to settle a massive number of tax grievances due to the outdated assessment roll.

Michael Haberman Associates, Inc. and Standard Valuation Services (collectively, ¿Contractors¿) had previously been retained by the County to complete a systematic review of the County¿s assessment system. This has been a good start; however, more work needs to be done. To fix this broken system, the Department of Assessment must be able to provide fair and accurate assessments in compliance with all applicable standards and best practices, including a review by the New York State Office of Real Property Tax Services. Therefore, the County now desires to engage these Contractors to assist the County in producing updated market values that can be utilized for the January 1, 2019 tentative assessment roll. The only way to continue this work in a timely fashion is to amend these contracts.

Method of Procurement: The contract was originally executed by Nassau County on November 24, 2015. This is an amendment to the original contract. The original contract authorized the Contractor to perform a systematic review of the County's assessment system for class 1, class 3, and the utility component of class 4 parcels. In accordance with Section 3(a)(4) of the original contract, the scope of services is being amended and expanded to assist the County in producing market values for class 1, class 3, and the utility component of class 4 parcels. In accordance with Section 3(a)(4) of the original contract, the scope of services is being amended and expanded to assist the County in producing market values for class 1, class 3, and the utility component of class 4 parcels for the January 1, 2019 tentative assessment roll. The Contractor is also now tasked with additional parcels, known as Economic Units, that were originally not part of the original scope of services. This is a logical extension of the original contracted services since the Contractor will be using their previously completed systematic review to perform additional maintenance of the systematic review program to produce market values for the tentative roll. Also, the Economic Units work was part of the Contractor's original proposal, was excluded from the original scope of services, and is now being added under this amendment. Lastly, the fees charged under this amendment are consistent with the fees charged under the original contract.

**Procurement History:** The original contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 8, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor; Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor; Mary Brower, Real Property Appraising-Assessing Supervisor; Randy Yunker, Community Service Representative; and Michael Antic, Real Property Appraising-Assessing Supervisor II. The proposals were scored and ranked. As a result of the scoring and ranking, the two highest-ranking proposers were selected by property class. **Description of General Provisions:** The Contractor shall perform the following services to assist the County in producing market values that can be utilized for the January 1, 2019 tentative assessment roll: (1) maintenance of the systematic review program; and (2) undergo a systematic review and analysis of ¿Economic Units.¿

Impact on Funding / Price Analysis: Funding will be from the appropriate Capital Project, pending bond ordinance approval.

Change in Contract from Prior Procurement: \$1,142,000 increase

Recommendation: (approve as submitted)

OFFICE OF THE COMPTROLLER 240 Old Country Road Mineola, New York 11501

## COMPTROLLER APPROVAL FORM FOR PERSONAL, PROFESSIONAL OR HUMAN SERVICES CONTRACTS

Attach this form along with all personal, professional or human services contracts, contract renewals, extensions and amendments.

CONTRACTOR NAME: <u>Smith Valuation Services</u>, Inc. DBA Standard Valuation Services

CONTRACT OR ADDRESS: 27 East Jericho Turnpike, Mineola, New York 11501

FEDERAL TAX ID #: 112971981

<u>Instructions</u>: Please check the appropriate box (" $\square$ ") after one of the following roman numerals, and provide all the requested information.

I. 
The contract was awarded to the lowest, responsible bidder after advertisement for sealed bids. The contract was awarded after a request for sealed bids was published in \_\_\_\_\_\_ [newspaper] on \_\_\_\_\_\_ [date]. The sealed bids were publicly opened on \_\_\_\_\_\_ [date]. \_\_\_\_\_ [#] of sealed bids were received and opened.

#### II. $\Box$ The contractor was selected pursuant to a Request for Proposals.

(list # of persons on committee and their respective departments). The proposals were scored and ranked. As a result of the scoring and ranking, the highest-ranking proposer was selected.

#### III. X This is a renewal, extension or amendment of an existing contract.

The contract was originally executed by Nassau County on November 24, 2015. This is an amendment to the original contract. The original contract authorized the Contractor to perform a systematic review of the County's assessment system for class 1, class 3, and the utility component of class 4 parcels. In accordance with Section 3(a)(4) of the original contract, the scope of services is being amended and expanded to assist the County in producing market values for class 1, class 3, and the utility component of class 4 parcels for the January 1, 2019 tentative assessment roll. The Contractor is also now tasked with additional parcels, known as Economic Units, that were originally not part of the original scope of services. This is a logical extension of the original contracted services since the Contractor will be using their previously completed systematic review to perform additional maintenance of the systematic review program to produce market values for the tentative roll. Also, the Economic Units work was part of the Contractor's original proposal, was excluded from the original scope of services, and is now being added under this amendment. Lastly, the fees charged under this amendment are consistent with the fees charged under the original contract. The original contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 8, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor; Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor; Mary Brower, Real Property Appraising-Assessing Supervisor; Randy Yunker, Community Service Representative; and Michael Antic, Real Property Appraising-Assessing Supervisor II. proposals were scored and ranked. As a result of the scoring and ranking, the two highest-ranking proposers were selected by property class.

# IV. □ Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

- $\Box$  A. The contract has been awarded to the proposer offering the lowest cost proposal; OR:
- □ B. The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

# V. Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

- □ A. There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.
- □ B. The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).
- □ C. Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no.\_\_\_\_\_\_, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.

D. Pursuant to General Municipal Law Section 119-0, the department is purchasing the services required through an inter-municipal agreement.

VI.  $\Box$  This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII.  $\Box$  This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

Instructions with respect to Sections VIII, IX and X: All Departments must check the box for VIII. Then, check the box for either IX or X, as applicable.

VIII. X Participation of Minority Group Members and Women in Nassau County Contracts. The selected contractor has agreed that it has an obligation to utilize best efforts to hire MWBE sub-contractors. Proof of the contractual utilization of best efforts as outlined in Exhibit "EE" may be requested at any time, from time to time, by the Comptroller's Office prior to the approval of claim vouchers.

**IX. X Department MWBE responsibilities.** To ensure compliance with MWBE requirements as outlined in Exhibit "EE", Department will require vendor to submit list of sub-contractor requirements prior to submission of the first claim voucher, for services under this contract being submitted to the Comptroller.

#### X. Vendor will not require any sub-contractors.

<u>In addition</u>, if this is a contract with an individual or with an entity that has only one or two employees:  $\Box$  a review of the criteria set forth by the Internal Revenue Service, *Revenue Ruling No.* 87-41, 1987-1 C.B. 296, attached as Appendix A to the Comptroller's Memorandum, dated February 13, 2004, concerning independent contractors and employees indicates that the contractor would not be considered an employee for federal tax purposes.

Department Head Signature

SMITH & DEGROAT REAL ESTATE 27 EAST JERICHD TPRE MINEOLA, NY 11501 516-248-6905

4. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify client(s) for each activity listed. See page 4 for a complete description of lobbying activities.

REAL ESTATE ISSUES

5. The name of persons, organizations or governmental entities before whom the lobbyist expects to lobby:

COUNTY LEGISLATURE

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. Within the previous year, has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator? If yes, to what campaign committee? If none, you must so state:

ALL OF THE ABOVE

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

#### Standard Valuation Services – Business History additional pages.

#### A)

Matthew L. Smith – President – 3 Fathers Court, Dix Hills, NY – 24% share
 Andrew W. Albro – Vice President – 269 Roselle St., Mineola, NY – 25% share
 Joanne E. Smith – Secretary – 3 Fathers Court, Dix Hills, NY – 51% share

#### iii. Same as above

vii. Standard Valuation Services has eighteen (18) NYS certified appraisers, including nine (9) designated with the Appraisal Institute, that have experience in preparing commercial and residential tax certiorari appraisals for Nassau County.

Our appraisals have encompassed all types of real property, from Roosevelt Field Mall to Gold Coast residential estates, to hotels and assisted living facilities. We have the depth of staffing and breadth of specialized experience to assign the most qualified expert to each appraisal, or to form a valuation team to tackle the most difficult of assignments within what are frequently very narrow time frames.

Our sizable and highly diverse valuation practice includes the appraisal of all types of properties for many non-tax certiorari assignments/clients, which provides invaluable "real world" insights and access to the market data that is critical – and often lacking – in the tax certiorari arena. Examples include financing and transactional appraisals, construction projects, and property damages cases such as instances of environmental contamination.

The principals of the firm – Matthew Smith and Andrew Albro – are deeply involved in the valuation process and interaction with the County. However, we are proud to have a staff of highly competent valuation professionals that are empowered to and capable of high-level interaction with representatives of Nassau County. This ensures that prompt responses to requests for expedited appraisals, pre-appraisal and pre-trial conferences, settlement analyses, and trial preparation.

Standard Valuation Services offers highly skilled and effective expert witnesses that are familiar and comfortable with the courtroom environment. Both principals of the firm, Matthew Smith and Andrew Albro have extensive experience and success in tax certiorari litigation in Nassau County and other venues including New York City. Where necessary and appropriate, other recognized expert witnesses are available, including Neal Peysner, SRA; Robert Reed, SRA; Albert Babino, SRA; Robert Studwell, MAI, SRA; and Ronald Camilleri, MAI.

Both Mr. Smith and Mr. Albro have earned the respect of both the Court and petitioner's counsel, having effectively represented the County in such high profile cases as the Roosevelt Field Mall. Both have demonstrated their ability to clearly communicate and explain complicated valuation matters, and to offer incisive critiques of adversaries' appraisals to assist the County in effective witness examination. SVS fully understands the complexities of the Nassau County Assessment system having completed projects for various County departments over the past twenty (20) years. These projects include, but are not limited to, Small Claims Assessment Review projects (SCAR), Tax Certiorari Litigation and Support for the County Attorney's Office, support and appraisal services for the Assessment Review Commission (ARC) and real estate appraisal services for Nassau County's Division of Real Estate Services.

Viii Pages following

- C) Each of the three principals has extensive experience in both residential and commercial appraising, including twenty-five (25) years of appraising throughout the region.
- In addition to the above principals, our firm employs a large staff of commercial real estate appraisers including the following:

Robert J. Studwell, MAI, SRA Wayne Covington Ronald Camilleri, MAI Matthew Holtz John Watch Albert Babino, SRA Gregory D'Esposito David Bahr Patrick Smith Matthew Busch Scott Shore Robert Reed, SRA Mark Sauvigne

• Also, our firm utilizes employs several highly qualified residential real estate appraisers, which includes the following personnel:

Albert Babino, SRA Larry Sorenson Joanna Szczesniak Neal Peysner, SRA Kate Chapman Timothy Morgenstern Robert Reed, SRA MaryEllen McDonough

 We have a clerical, computer/systems, and research staff of four (4), experienced and competent to serve large scale and time critical appraisal projects.

#### AMENDMENT NO. 1

AMENDMENT (together with any appendices or exhibits attached hereto, this "<u>Amendment</u>") dated as of the date (the "<u>Effective Date</u>") that this Amendment is executed by Nassau County, between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "<u>County</u>"), acting for and on behalf of the Nassau County Department of Assessment, having its principal office at 240 Old Country Road, Mineola, New York 11501 (the "<u>Department</u>"), and (ii) Smith Valuation Services, Inc. DBA Standard Valuation Services, having its principal office at 27 East Jericho Turnpike, Mineola, New York 11501 (the "<u>Contractor</u>").

#### WITNESSETH:

WHEREAS, pursuant to County contract number CFAS15000002 between the County and Contractor, executed on behalf of the County on November 24, 2015 (the "<u>Original Agreement</u>"), the Contractor performed a systematic review of the County's assessment system, which services are more fully described in the Original Agreement (the services contemplated by the Original Agreement, the "<u>Services</u>"); and

WHEREAS, the term of the Original Agreement is from October 1, 2015 until completion of Services, unless sooner terminated in accordance with the provisions of the Original Agreement (the "<u>Original Term</u>"); and

WHEREAS, the maximum amount that the County agreed to reimburse the Contractor for Services under the Original Agreement, as full compensation for the Services, was Two Million Six Hundred Eight Thousand Dollars (\$2,608,000.00) (the "<u>Maximum Amount</u>"); and

WHEREAS, the Contractor has completed the Services in accordance with the provisions of the Original Agreement.

WHEREAS, in accordance with Section 3(a)(4) of the Original Agreement, the County and Contractor desire to amend and expand the scope of Services provided by the Contractor under the Original Agreement and equitably adjust the Maximum Amount payable under the Original Agreement.

NOW, THEREFORE, in consideration of the promises and mutual covenants contained in this Amendment, the parties agree as follows:

1. <u>Term Extension</u>. The Original Agreement is hereby extended so that the termination date of the Original Agreement, as amended by this Amendment (the "Amended Agreement"), shall be December 31, 2018, provided, however, this Amended Agreement may be sooner terminated in accordance with the terms of the Original Agreement.

2. <u>Time of Performance</u>. The Contractor's timeline to perform the services described under this Amendment (the "Amended Services") shall be as follows:

- (a) For the period March 1, 2018 until December 31, 2018, the Contractor shall perform maintenance on the systematic review program, such services more fully described under Section 4(a) of this Amendment.
- (b) For the period March 1, 2018 until June 30, 2018, the Contractor shall perform a systematic review and analysis of the Economic Units, such services more fully described under Section 4(b) of this Amendment.
- (c) The Contractor acknowledges that the Amended Services shall be performed in a timely manner in accordance with the timeline provided in this Section 2 and shall meet all deadlines in accordance with the terms of this Amendment. The Contractor shall produce monthly status reports to the Department, as more fully described under Section 4(c) of this Amendment. The Contractor shall immediately notify the Department if there are any concerns with the timely completion of the Amended Services and indicate the corrective actions that will be taken so that services will be completed in a timely manner. If the Contractor is unable to complete the Amended Services in accordance with the above timeline, or to meet any of the deadlines described under this Amendment, the County, in its sole discretion, may withhold payments and/or make equitable downward adjustments to the payments owed to the Contractor under this Amendment.
- 3. Payment.
  - (a) <u>Maximum Amount</u>. The Maximum Amount in the Original Agreement shall be increased by One Million One Hundred Forty-two Thousand Dollars (\$1,142,000.00), so that the maximum amount that the County shall pay to the Contractor as full consideration for all services provided under the Amended Agreement shall be Three Million Seven Hundred Fifty Thousand Dollars (\$3,750,000.00) (the "Amended Maximum Amount").
  - (b) <u>Payment Schedule</u>. The increase to the Maximum Amount authorized under this Amendment shall be payable as follows:
    - i. The Contractor shall be paid Eight Hundred Thousand Dollars (\$800,000.00) for the maintenance services, such services more fully described under Section 4(a) of this Amendment. Payments under this Section 3(b)(i) shall be made in arrears in equal monthly installments of Eighty Thousand Dollars (\$80,000.00) for the period March 1, 2018 until December 31, 2018.
    - ii. The Contractor shall be paid Three Hundred Forty-two Thousand Dollars for the systematic review and analysis of the Economic Units, such services more fully described under Section 4(b) of this Amendment. Payments under this Section 3(b)(ii) shall be made in arrears in equal monthly installments of Eighty-five Thousand Five

Hundred Dollars (\$85,500.00) for the period March 1, 2018 until June 30, 2018.

- (c) <u>Payment Adjustments</u>. If the Contractor is unable to complete the Amended Services in accordance with the timeline described in Section 2 of this Amendment, or meet deadlines in accordance with the terms of this Amendment, the Department, in its sole discretion, may withhold payments and make equitable downward adjustments to the payments owed to the Contractor under this Amendment.
- (d) <u>Vouchers; Voucher Review, Approval and Audit</u>. Payments under this Amendment shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (1) states with reasonable specificity the services provided and the payment requested as consideration for such services; (2) certifies that the services rendered and the payment requested are in accordance with the Amended Agreement; and (3) is accompanied by documentation satisfactory to the County supporting the amount claimed, including, but not limited to, a report detailing the services completed during the invoice period that indicate that the Contractor is meeting all deadlines and is on track to timely complete the Amended Services; and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").
- (e) <u>Timing of Payment Claims</u>. The Contractor shall submit claims no later than three (3) months following the County's receipt of the services that are the subject of the claim and no more frequently than once a month.
- (f) <u>No Duplication of Payments</u>. Payments under this Amendment shall not duplicate payments for any work performed or to be performed under other agreements between the Contractor and any funding source, including the County.
- (g) Payments in Connection with Termination or Notice of Termination. Unless a provision of the Amended Agreement expressly states otherwise, payments to the Contractor following the termination of this Amended Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination; (ii) authorized by this Amended Agreement to be performed; and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

4. <u>Services</u>. The Contractor has completed the systematic review of the County's assessment system for Class 1, Class 3, and the utility component of Class 4 parcels in accordance with the terms of the Original Agreement (the "Systematic Review

Program"). The County now desires to engage the Contractor to perform the following Amended Services to assist the County in producing market values that can be utilized for the January 1, 2019 tentative assessment roll:

- (a) <u>Maintenance of the Systematic Review Program to Produce Market Values</u> for the January 1, 2019 Tentative Assessment Roll. After the completion of the Systematic Review Program, the Contractor submitted a report to the County recommending that new assessment values not be released for the January 1, 2018 tentative assessment roll. The Contractor and the Department agree that additional maintenance of the Systematic Review Program is necessary to produce accurate market values. So that accurate market values can be produced for the January 1, 2019 tentative assessment roll, the Contractor shall continue the maintenance of the Systematic Review Program ("Extended Maintenance") as follows:
  - i. The County will provide updated data on an as-needed basis to the Contractor to cross verify the data with available data services.
  - ii. The Contractor shall then update its database and rerun models.
  - iii. The Contractor shall then review the results, which shall include a review of costs and depreciation, and cross check for accuracy.
  - iv. The Contractor shall produce preliminary reports establishing estimated market values by July 1, 2018. These reports must be submitted to the Department in a format that is appropriate for review by the New York State Office of Real Property Tax Services ("ORPTS").
  - v. Once the results are accurate to the satisfaction of the Contractor and the Department, the Contractor shall produce final systematic review reports and assist the Department in producing market values by no later than November 30, 2018 for Class 1 (including "Economic Units" as described below), Class 3, and the utility component of Class 4 parcels for the January 1, 2019 tentative assessment roll.
  - vi. The Contractor acknowledges the importance of producing updated and accurate market values in the County's IAS system and final systematic review reports by November 30, 2018. Therefore, the Contractor shall assist the County in any manner necessary, as determined by the County, to meet this deadline within the maximum amount authorized under this Amendment.
  - vii. After the values have been produced, the Contractor shall, at the Department's direction, meet with ORPTS, respond to any ORPTS inquiries, and make any necessary adjustments.
- (b) <u>Economic Units</u>. The Department excluded approximately 14,500 Class 1 residential vacant land parcels, known as "Economic Units," from the Original Agreement's scope of services. It was the Department's intention to produce

updated values for the Economic Units using Department staff. The Department now understands that using Department staff is not possible and therefore desires to retain the Contractor to undergo a systematic review and analysis of these Economic Units. The Contractor shall undergo this review in the following manner:

- i. Identify the current population of Economic Units.
- ii. Determine the ownership of each parcel.
- iii. Confirm all physical attributes of the property (size, shape, location, improvements, etc.)
- iv. Determine if there is an associated improved parcel (same ownership, location, etc.)
- v. If there is no associated parcel, the parcel must be valued by the Contractor using comparable sales, market models, and any other acceptable method. The Contractor shall develop the sales and market models. The Contractor acknowledges that the Economic Units parcels tend to be unique, including waterfront, underwater, land-locked, irregular in shape, parcels over 10 acres, value-reflected parcels, etc. and therefore will require extensive work in developing models and valuing the parcels.
- vi. If there is an associated parcel, the Contractor shall:
  - (1) Flag and identify parcel(s) in the system as part of an Economic Unit.
  - (2) Create a "new" parcel for the entire Economic Unit containing all the combined physical attributes.
  - (3) Determine if any parcels in the sales database have an associated parcel and are part of an Economic Unit. If so, the Contractor must remove such sales from the population and update the inventory to include the associated parcel.
  - (4) Once inventory is updated, add back the parcel into the sales database and rerun market models.
  - (5) After models are run and values are finalized, reallocate market values for Economic Units back to their respective parcels.
  - (6) Systematically track full values and apportioned values.
  - (7) Thoroughly review all final values, particularly values for Economic Units, for accuracy.

(c) The Contractor shall submit to the Department monthly status reports detailing its progress throughout the term of this Amendment. At the County's request, the Contractor shall meet with County personnel to discuss the project status and address any concerns raised by the County.

5. <u>Subcontracting</u>. The County consents to the Contractor's use of subcontractors previously authorized under Section 11 of the Original Agreement to perform Amended Services. The Contractor's use of subcontractors is subject to the same terms and conditions provided under the Original Agreement.

6. <u>Full Force and Effect</u>. All the terms and conditions of the Original Agreement not expressly amended by this Amendment shall remain in full force and effect and govern the relationship of the parties for the term of the Amended Agreement.

[Remainder of Page Intentionally Left Blank.]

IN WITNESS WHEREOF, the parties have executed this Amendment as of the Effective Date.

#### RULES RESOLUTION NO. 3332015

A RESOLUTION AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE A PERSONAL SERVICES AGREEMENT BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF ASSESSMENT, AND SMITH VALUATION SERVICES, INC. DBA STANDARD VALUATION SERVICES

> Passed by the Rules Committee Nassan County Legislature By Voice Vote en <u>2-21-13</u> VOTING: ayes <u>7</u> hayes <u>0</u> abstalmed <u>0</u> recursed <u>0</u> Logislature present: 7

WHEREAS, the County has negotiated a personal services agreement with Smith Valuation Services, Inc. DBA Standard Valuation Services to provide a systematic review of the County's Assessment System, a copy of which is on file with the Clerk of the Legislature; now, therefore, be it

RESOLVED, that the Rules Committee of the Nassau County Legislature authorizes the County Executive to execute the said agreement with Smith Valuation Services, Inc. DBA Standard Valuation Services,

#### RULES RESOLUTION NO. - 2015

A RESOLUTION AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE A PERSONAL SERVICES AGREEMENT BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF ASSESSMENT, AND SMITH VALUATION SERVICES, INC. DBA STANDARD VALUATION SERVICES

WHEREAS, the County has negotiated a personal services agreement with Smith Valuation Services, Inc. DBA Standard Valuation Services to provide a systematic review of the County's Assessment System, a copy of which is on file with the Clerk of the Legislature; now, therefore, be it

RESOLVED, that the Rules Committee of the Nassau County Legislature authorizes the County Executive to execute the said agreement with Smith Valuation Services, Inc. DBA Standard Valuation Services. George Maragos Comptroller

OFFICE OF THE COMPTROLLER 240 Old Country Road Mineola, New York 11501

#### COMPTROLLER APPROVAL FORM FOR PERSONAL, PROFESSIONAL OR HUMAN SERVICES CONTRACTS

Attach this form along with all personal, professional or human services contracts, contract renewals, extensions and amendments.

#### CONTRACTOR NAME: Standard Valuation Services CONTRACTOR ADDRESS: 27 E. Jericho Turnpike, Mineola, NY 11501

#### FEDERAL TAX ID #: 112971981

<u>Instructions:</u> Please check the appropriate box ("<sup>[D]</sup>") after one of the following roman numerals, and provide all the requested information.

I. 
The contract was awarded to the lowest, responsible bidder after advertisement for sealed bids. The contract was awarded after a request for sealed bids was published in\_\_\_\_\_\_ [ate]. The scaled bids were publicly opened on \_\_\_\_\_\_ [date]. \_\_\_\_\_ [#] of sealed bids were received and opened.

#### II. X The contractor was selected pursuant to a Request for Proposals.

The Contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 08, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor, Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor, Mary Brower, Real Property Appraising-Assessing Supervisor, Randy Yunker, Community Service Representative and Michael Antic, Real Property Appraising-Assessing Supervisor II. The proposals were scored and ranked. As a result of the scoring and ranking (attached), the two highest-ranking proposers were selected by property class.

#### III. This is a renewal, extension or amendment of an existing contract.

The contract was originally executed by Nassau County on November 19, 1997. This is a renewal or extension pursuant to the contract, or an amendment within the scope of the contract or RFP (copies of the relevant pages are attached). The original contract was entered into after proposals were evaluated upon entering into the original agreement. Attach a copy of the most recent evaluation of the contractor's performance for any contract to be renewed or extended. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to continue to contract with the county.

# IV. Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

- □ A. The contract has been awarded to the proposer offering the lowest cost proposal; OR:
- □ B. The attached memorandum contains a detailed explanation as to the reason(s)why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

ļ

## V. $\Box$ Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

- □ A. There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.
- □ B. The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).
- □ C. Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no.\_\_\_\_\_\_, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.
- **D**. Pursuant to General Municipal Law Section 119-0, the department is purchasing the services required through an inter-municipal agreement.

VI. This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII.  $\Box$  This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No.928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

## <u>In addition</u>, if this is a contract with an individual or with an entity that has only one or two employees:

 $\Box$  a review of the criteria set forth by the Internal Revenue Service, *Revenue Ruling No.* 87-41, 1987-1 C.B. 296, attached as Appendix A to the Comptroller's Memorandum, dated February 13, 2004, concerning independent contractors and employees indicates that the contractor would not be considered an employee for federal tax purposes.

Depa rtment Head Signature

8/31/15

<u>NOTE:</u> Any information requested above, or in the exhibit below, may be included in the county's "staff summary" form in lieu of a separate memorandum.

#### CATASTROPHE (OTHER THAN CERTIFIED ACTS OF TERRORISM) PREMIUM ENDORSEMENT

This endorsement is notification that your insurance carrier is charging premium to cover the losses that may occur in the event of a Catastrophe (other than Certified Acts of Terrorism) as that term is defined below. Your policy provides coverage for workers compensation losses caused by a Catastrophe (other than Certified Acts of Terrorism).

This premium charge does not provide funding for Certified Acts of Terrorism Contemplated under the Terrorism Risk Insurance Program Reauthorization Act Disclosure Endorsement (TRI04), attached to this policy.

For purposes of this endorsement, the following definitions apply:

CATASTROPHE: (other than Certified Acts of Terrorism): Any single event, resulting from an Earthquake, Noncertified Act of Terrorism, or Catastrophic Industrial Accident, which results in aggregate workers compensation losses in excess of \$50 million.

EARTHQUAKE: The shaking and vibration at the surface of the earth resulting from underground movement along a fault plane or from volcanic activity.

NONCERTIFIED ACT OF TERRORISM: An event that is not certified as an Act of Terrorism by the Secretary of Treasury pursuant to the Terrorism Risk Insurance Act of 2002 (as amended) but that meets all of the following criteria:

- a. It is an act that is violent or dangerous to human life, property, or infrastructure;
- b. The act results in damage within the United States, or outside of the United States in the case of the premises of United States missions or air carriers or vessels as those terms are defined in the Terrorism Risk insurance Act of 2002 (as amended); and
- c. It is an act that has been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion.

CATASTROPHIC INDUSTRIAL ACCIDENT: A chemical release, large explosion, or small blast that is localized in nature and affects workers in a small perimeter the size of a building.

The premium charge for the coverage your policy provides for workers compensation losses caused by a Catastrophe (other than Certified Acts of Terrorism) is shown in item 4 of the Information Page or in the Schedule below:

#### CONTRACT FOR SERVICES

THIS AGREEMENT, (together with the schedules, appendices, attachments and exhibits, if any, this "<u>Agreement</u>"), dated as of the date (the "<u>Effective Date</u>") that this Agreement is executed by Nassau County, is entered into by and between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "<u>County</u>"), acting for and on behalf of the Nassau County Department of Assessment, having its principal office at 240 Old Country Road, Mineola, New York 11501, and (ii) Smith Valuation Services, Inc. DBA Standard Valuation Services, having its principal office at 27 East Jericho Turnpike, Mineola, New York 11501 (the "<u>Contractor</u>").

#### WITNESSETH:

WHEREAS, the County, acting for and on behalf of the Department, has issued a request for proposals ("RFP"), RFP # AS0518-1509, on May 18, 2015 for the systematic review and analysis of assessments, attached hereto as Exhibit A; and

WHEREAS, the Contractor by proposal dated June 8, 2015, attached hereto as Exhibit B, and as further set forth in supplemental materials dated June 9, 2015, attached hereto as Exhibit C (collectively, the "Proposal"), has submitted a Proposal in response to and in accordance with the RFP; and

WHEREAS, the County has reviewed the proposals submitted in response to the RFP for four different tax classes and has determined that the Contractor has submitted a Proposal that will provide the County with the best value for tax classes 1 and 3, and the utility component of tax class 4; and

WHEREAS, the County desires to hire the Contractor to perform the services described in this Agreement; and

WHEREAS, the Contractor desires to perform the services described in this Agreenient; and

꺌

WHEREAS, this is a personal service contract within the intent and purview of Section 2266 of the County Charter;

NOW, THEREFORE, in consideration of the promises and mutual covenants contained in gradient this Agreement, the parties agree as follows:

1. <u>Term.</u> (a) <u>Period of Agreement</u>. This Agreement shall commence on October 1, 2015 and shall terminate upon completion of the services to be delivered under this Agreement, unless sooner terminated in accordance with the provisions of this Agreement. The Contractor acknowledges that certain obligations under this Agreement shall extend beyond the termination of this Agreement.

(b) <u>Time of Performance</u>. The Contractor's time of performance is set forth in the attached Exhibit D. The Contractor shall deliver the services, as more fully described hereto, in order to ensure its full completion in accordance with the requirements of this Agreement and in accordance with the schedule provided in the attached Exhibit D.

2. <u>Services</u>. (a) The services to be provided by the Contractor under this Agreement shall consist of providing a systematic review of the County's Assessment System, as more fully described

in the project timeline, attached hereto as Exhibit D, and as further set forth herein and in the exhibits attached hereto (the "<u>Services</u>"). To the extent that Exhibit D is inconsistent with the terms and conditions provided in the attached RFP and Proposal, including that Services are only based on tax classes 1, 3, and the utility component of tax class 4, Exhibit D shall control, provided, however, the terms and conditions contained above the signature page shall control over all Exhibits. The Proposal and the RFP are acceptable as a general description of the Services to be rendered by the Contractor, but the terms and conditions set forth in Exhibit D provide a detailed scope of Services related to the tax classes for which the Contractor has been awarded and constitute the Agreement between the parties.

(b) The Contractor specifically acknowledges the County's reliance upon the Contractor's Proposal as Contractor's offer to perform Services on behalf of the County under and pursuant to this fixed price Agreement. The Contractor warrants and represents that any and all services detailed in Exhibit D are included within this fixed price Agreement and the County is relying upon the Contractor's Proposal as a general description of the Services to be provided by the Contractor,

(c) Unless the application of this subsection will cause a provision required by law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. If there is an actual conflict, the following order of priority shall apply:

- (1) Terms and conditions set forth above the signature page to this Agreement;
- (2) Appendix EE: Equal Employment Opportunities for Minorities and Women; and Appendix L: Certificate of Compliance (Nassau County Living Wage Law);
- (3) Exhibit F: Confidentiality agreement;
- (4) Exhibit D: Project timeline;
- (5) Exhibit E: Payment schedule;
- (6) Exhibit A: RFP;
- (7) Exhibit C: Supplemental materials to Proposal dated June 9, 2015;
- (8) Exhibit B: Original Proposal dated June 8, 2015.

Certain conflicts are noted within the terms of this Agreement, however, to the extent possible and as not otherwise noted in this Agreement, all the terms of this Agreement should be read together as not conflicting.

3. <u>Payment</u>. (a)(1) <u>Amount of Consideration</u>. The maximum amount to be paid to the Contractor as full consideration for the Contractor's Services, including expenses, under this Agreement shall not exceed the sum of Two Million Six Hundred Eight Thousand Dollars (\$2,608,000.00) (the "<u>Maximum Amount</u>"), which shall be payable in accordance with the attached Exhibit E. To the extent that Exhibit E is inconsistent with the terms and conditions provided in the attached RFP and Proposal, including that payment is only based on tax classes 1, 3, and the utility component of tax class 4, Exhibit E shall control, provided, however, the terms and conditions contained above the signature page shall control over all Exhibits. The amounts payable under Exhibit E are inclusive of all expenses and all other costs incidental to the Services to be provided by the Contractor under this Agreement, including travel.

(2) Any appearances before the County Legislature, or any committee thereof for the purpose of the approval of this Agreement or any amendment thereto, are to be construed as part of the fee negotiation and approval process and the Contractor agrees that no fee will be charged for any such appearances.

(3) Notwithstanding anything in this Section 3 or in any other provision of this Agreement, the County shall pay, and the Contractor shall accept as payment for the Services described in this Agreement, the amounts detailed in the attached Exhibit E, subject to the availability of funds for this Agreement following approval by the County and encumbrance by the County Comptroller. The County shall not be liable for payment of any amounts which have not been approved by the County and encumbered for this Agreement by the County Comptroller. The parties acknowledge that the parcel count on the assessment roll may fluctuate throughout the term of this Agreement and as such, the parties agree that the payment schedule attached hereto as Exhibit E shall remain fixed despite such fluctuations. Nonetheless, the Department reserves the right to direct the Contractor to not perform a category of Services for which the Contractor shall not be paid, the value of which is to be mutually determined between the parties.

(4) If there is a change in scope of Services or any agreed-upon additional related Services to be provided under this Agreement, at the County's election, the parties shall negotiate in good faith to amend the Services and make an equitable adjustment to the Maximum Amount provided under this Agreement. Such adjustment shall require all requisite governmental and Contractor approvals.

ì.

2

(b) <u>Vouchers: Voucher Review. Approval and Audit</u>. Payments shall be made to the Contractor in accordance with the payment schedule described in the attached Exhibit E and shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) states with reasonable specificity the services provided and the payment requested as consideration for such services, (b) certifies that the services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, including, but not limited to, a report detailing Services completed during the invoice period; and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(c) <u>Timing of Payment Claims</u>. The Contractor shall submit claims no later than three (3) months following the County's receipt of the services that are the subject of the claim and no more frequently than once a month.

(d) <u>No Duplication of Payments</u>. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between the Contractor and any funding source including the County.

(e) <u>Payments in Connection with Termination or Notice of Termination</u>. Unless a provision of this Agreement expressly states otherwise, payments to the Contractor following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

4. <u>Independent Contractor</u>. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "<u>Contractor Agent</u>"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "<u>Person</u>" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

5. <u>No Arrears or Default</u>. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

6. <u>Compliance with Law</u>. (a) <u>Generally</u>. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) <u>Nassau County Living Wage Law.</u> Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

- (i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;
- (ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.
- (iii) It shall be a continuing obligation of the Contractor to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) <u>Records Access.</u> The parties acknowledge and agree that all records, information, and data ("<u>Information</u>") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Contractor shall require all Contractor Agents, Contractor subcontractors, and their respective employees to execute a confidentiality agreement, attached hereto as Exhibit F (the "<u>Confidentiality Agreement</u>"), prior to commencing Services under this Agreement. The Contractor shall provide the executed Confidentiality Agreements to the Department prior to the Contractor Agent or subcontractor commencing Services. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

7. <u>Minimum Service Standards</u>. Regardless of whether required by Law: (a) The

Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver Services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

8. Indemnification: Defense: Cooperation. (a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; <u>provided</u>, <u>however</u>, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith. |

ţ

:

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

9. <u>Insurance</u>. (a) <u>Types and Amounts</u>. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars (\$1,000,000.00) per occurrence and Two Million Dollars (\$2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single limit liability of not less Two Million Dollars (\$2,000,000.00) per claim (iii) compensation insurance for the benefit of the Contractor's employees ("<u>Workers' Compensation Insurance</u>"), which insurance is in compliance with the New York State Workers' Compensation Law, and (<u>iv</u>) such additional insurance as the County may from time to time specify.

(b) <u>Acceptability: Deductibles: Subcontractors</u>. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) <u>Delivery: Coverage Change; No Inconsistent Action</u>. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10. <u>Ownership and Control of Work Product</u>. Upon execution of this Agreement, any reports, documents, data, photographs and/or other materials produced pursuant to this Agreement, and any and all drafts and/or other preliminary materials in any format related to such items, shall become the exclusive property of the County, and the Contractor may not use such materials in any way other than for the compliance of the requirements under this Agreement.

11. <u>Assignment; Amendment; Waiver: Subcontracting</u>. (a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the <u>County Executive</u>"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

(b) Further to the foregoing, the County consents to the Contractor's subcontracting certain Services to the following subcontractors:

(i) Federal Appraisal & Consulting, with an office located at 460 Route 22 West, Suite 403, Whitehouse Station, NJ 08889 for the performance of Class III Utilities Properties.

(ii) Thimgan Inc., with an office located at 14635 West Clarendon Avenue, Goodyear, AZ 85395 for the performance of Project Modeling.

The Contractor is and shall remain primarily liable for the successful completion of all Services in accordance with this Agreement. Nothing in this Agreement or otherwise shall create any contractual relationship between the County and the Contractor's subcontractors. The Contractor agrees to be fully responsible to the County for the acts and omissions of its subcontractors. The Contractor's obligation to pay its subcontractors is an independent obligation from the County's obligation to make payments to the Contractor. Therefore, the County shall have no obligation to pay or to enforce the payment of any moneys to any Contractor subcontractors.

(c) The Contractor shall ensure that their subcontractors shall not further subcontract, or otherwise engage an independent contractor or agent to provide any Services under this Agreement

6

without the prior written consent of the County Executive.

12. <u>Termination</u>. (a) <u>Generally</u>. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "<u>Cause</u>" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "<u>Commissioner</u>"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "<u>Applicable DCE</u>") on the same day that notice is given to the Commissioner.

(c) <u>Contractor Assistance upon Termination</u>. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

.

13. Accounting Procedures: Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

14. <u>Limitations on Actions and Special Proceedings against the County</u>. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) <u>Notice</u>. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the

Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) <u>Time Limitation</u>. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (<u>A</u>) final payment under or the termination of this Agreement, and (<u>B</u>) the accrual of the cause of action, and (<u>ii</u>) the time specified in any other provision of this Agreement.

15. <u>Work Performance Liability</u>. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

16. <u>Consent to Jurisdiction and Venue: Governing Law</u>. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and <u>forum non</u> <u>conveniens</u>. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

17. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

18. <u>All Legal Provisions Deemed Included; Severability; Supremacy</u>. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. If there is an actual conflict, the order of priority provided in Section 2(c) of this Agreement shall apply.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

19. <u>Section and Other Headings</u>. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

20. <u>Administrative Service Charge</u>. The Contractor agrees to pay the County an administrative service charge of Five Hundred Thirty-three Dollars (\$533.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 128-2006. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

21. <u>Executory Clause</u>. Notwithstanding any other provision of this Agreement:

(a) <u>Approval and Execution</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (j) all County approvals, third party approvals and other governmental approvals have been obtained, including, if required, approval by the County Legislature, and (<u>ii</u>) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) <u>Availability of Funds</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the County from the state and/or federal governments.

22. <u>Entire Agreement</u>. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

[Remainder of Page Intentionally Left Blank.]

IN WITNESS WHEREOF, the Contractor and the County have executed this Agreement as of the Effective Date.

Appendix D - Principal Questionnaire Form

Appendix E - Standard Clauses for Nassau County Contracts

Exhibit EE -- Equal Opportunities for Minorities and Women

Exhibit L – Living Wage Law Certificate of Compliance

#### Request for Proposal (RFP)

#### A. Introduction

Nassau County, New York (the "County") is currently seeking *individual* proposals by *Tax Class* from qualified individuals and entities authorized to do business in the State of New York to provide a Systematic Review of the County's Assessment System *by Tax Class*. The purpose of the RFP is to provide Nassau County with proposals and recommendations from entities qualified to provide a thorough systematic analysis of Nassau County's assessment system, including but not limited to inventory management procedures, dynamic inventory issues relating to the effects of Super Storm Sandy, review of neighborhood/submarket parameters for both residential and commercial properties, review and screening of sales data employed in residential valuation modeling, review and updating of economic and market data utilized in commercial valuation modeling, and evaluation of the market value output from the respective modeling systems. The Systematic Review of the County's Assessment System will be completed by year's end 2017 for the purpose of recalibrating the cyclical assessment roll for 2019/20.

Nassau County is committed to a policy of equal opportunity and does not discriminate against vendors on the basis of age, sex, sexual crientation, race, color, creed, religion, ethnicity, national origin, disability, marital status, familial status, veteran status or any other basis protected under federal, state, and local laws, regulations, and ordinances.

#### B. Anticipated Proposal Schedule

RFP Issue Date:	May 18, 2015
Proposal Due Date:	June 08, 2015
Oral Presentation, if necessary:	June 10, 2015
Award Date:	June 15, 2015

Dates indicated above are subject to change at the sole discretion of the County.

#### THE PROPOSER SHOULD PROVIDE A PROPOSAL IN APPENDIX B WHICH MEETS THE SCOPE REQUIREMENTS SET FORTH BELOW, THE COUNTY WILL REVIEW SINGLE OR MULTIPLE PROPOSALS FROM AN INDIVIDUAL OR ENTITY.

#### C. Scope of Services

The Scope of Services ("Scope") outlined below has been established for the purpose of achieving and implementing program goals and objectives described in this document. Although the Scope is intended to serve as a reference in the preparation of the proposal, forthcoming proposals may offer additional services which support the goals of this job title and compensation review and analysis.

# Scope of Systematic Review and Analysis of Nassau County's Assessment System

An assessing unit may revise its assessments as provided for in Real Property Tax Law (RPTL) to maintain uniformity and/or level of assessment, using means other than a full reappraisal in those years in which a full reappraisal is not conducted. The NYS Office of Real Property Tax Services ("ORPTS") will review the assessing unit's documentation showing that it conducted a systematic analysis of all parcels, and then verify the Level of Assessment (LOA) using the tentative roll compared to the estimated market values shared during the Pre-Decisional Collaboration (PDC) process.

The scope of services required for a Systematic Review and Analysis of the County's Assessment System <u>by Tax Class</u> must be completed by the end of calendar year 2017, with corrections and recalibration of the roll available for the tentative roll of the 2019/20 tax year. The Systematic Review and Analysis must be conducted in compliance with the standard of assessment set forth by NYS Real Property Tax Law. The Systematic Review and Analysis will be completed in conjunction with the Nassau County Assessment Department and its staff, within the existing Nassau County assessment system.

The minimum scope of services required for Systematic Review and Analysis of the County's Assessment System are detailed within Appendix A.

#### D. INTENTIONALLY OMITTED

#### E. Mandatory Proposal Response Requirements

All proposals must state the period for which the proposal shall remain in effect (i.e., how much time does the County have to accept or reject the proposal under the terms proposed). Such period shall not be less than 180 (one hundred eighty) days from the proposal date.

#### All Proposals must contain the following:

- 1. Cost Proposal Form attached as Appendix A.
- 2. Proposed approach to the Scope of Work attached as Appendix B, containing a complete written description of proposer's Proposal.
- 3. A duly completed and verified Business History Form attached as Appendix C, together with a current certified or verified financial statement and/or other commercially reliable

i

written evidence of the proposer's credit, financial standing and capacity to perform in accordance with the terms of the Contract.

- 4. All officers and any individuals who hold a ten percent (10%) or greater ownership interest in the proposer shall complete and verify the Principal Questionnaire attached as Appendix D.
- 5. Living Wage Law Certificate of Compliance, attached as Appendix F
- 6. The Proposer's Exceptions to the RFP Requirements, if any.
- 7. All submissions must be signed on the designated signature line by an officer or authorized agent of the proposing party.
- 8. Additional information that you believe pertinent to the County's requirements,
- 9. Statement proposer has registered with the County as a vendor.

#### F. Proposal Submission Instructions

Each proposal shall be prepared simply and economically avoiding the use of elaborate promotional materials beyond those sufficient to provide a complete, accurate, and reliable presentation. For ease of review, the proposals must follow the outline in the section of this Request For Proposal ("RFP") titled Mandatory Proposal Response Requirements. Each response should be clearly numbered and the full question listed.

The proposals must be signed by an individual who is authorized to bind the proposer to all commitments made in the proposal. The original and four (4) copies of the proposal, together with all attachments, must be submitted to the County in a sealed opaque envelope no later than 3:00 p.m. EST on June 8, 2015. No telegraphic or facsimile proposals will be accepted. Any late proposals will be returned unopened. **Proposals received after the above date and time will not be considered**. The County is under no obligation to return proposals.

It is each Proposer's responsibility to carefully review all the requirements of this RFP, including the scope of work, the specifications and terms and conditions. It is further the proposer's responsibility to ask questions, request clarifications, or otherwise advise the County if any language, specifications or requirements of this RFP appear to be ambiguous, contradictory, or to inadvertently restrict or limit the vendors that could meet the requirements of this RFP to a single source.

If a proposer takes exception to any requirement of this RFP, the Proposer must clearly set forth the exception in its proposal, referencing the affected RFP section, paragraph and page. The Proposer must set forth the reason(s) for the exception and indicate what (if any) alternative is being offered by the Proposer. The County shall determine (in its sole discretion) the acceptability of any proposed exception(s). Where the County rejects a proposed exception, the County may offer the vendor an opportunity to withdraw its exception and propose an alternative. However, even where the County does not reject a proposed exception to the RFP prior to the issuance of a Notice of Intent to Award to a Proposer, the County reserves the right to negotiate with the Proposer regarding any such exceptions. Regardless of whether the County rejects proposed exceptions to the RFP, such exceptions will be considered by the County in evaluating the completeness and adequacy of the proposal. Proposers shall be deemed to have accepted all requirements of this RFP to which they have not specifically and clearly stated an exception in their proposal.

The County is under no obligation to respond to any question, inquiry or assertion that is not received in writing. Interested parties may contact the authorized contact person listed below by telephone to advise that a fax transmission has been sent to the above number. Violation of these provisions may result in immediate disqualification. Proposers will submit all proposals and direct all responses, questions, and any other communications to the following authorized contact person:

Steven L. Corte, IAO IFAS SRA ASA CSA-G Deputy County Assessor Nassau County Department of Assessment 240 Old Country Road, Fourth Floor, Room 400 Mineola, New York 11501 Telephone: (516) 571-3587 Email: Systematicreviewrfp2015@nassaucountyny.gov

No contact with any other County personnel other than the authorized contact person is allowed until such times as an award (or awards) has (have) been made.

#### G. Contract Proposal Evaluation Criteria

Proposal elements, as described above, will be reviewed and evaluated for completeness and responsiveness according to pre-determined standards and selection criteria. Proposals will be deemed responsive only if the Vendor responds to and meets all of the requirements of this RFP. Vendors may be invited for interviews to discuss project requirements and proposal elements in more detail should the selection committee request such. The County reserves the right to award all or any parts of this project, and to waive any technical irregularities or omissions, or to cancel this RFP and solicit new proposals if, in the County's sole judgment, the best Interests of the County will be served. <u>The bidder is asked to provide the County with a bid that is based on the combined Tax Classes broken down by each Tax Class or may choose an individual Tax Class according to the bidder's level of expertise. The selection committee will evaluate each proposal and use the following for scoring each submission:</u>

#### Contract Requirements and Proposed Solution

- Overall responsiveness of the proposal.
- Demonstration of a clear understanding of the requirements portion of the RFP.

[30%]

- A clear description of the scope of work needed to satisfy the defined RFP requirements.
- Overall acceptability and efficacy of proposed analysis;
- Management and implementation methods and procedures and supporting systems for ongoing project management and implementation support.
- Previous engagements of similar scope and quality.
- Description of recommendations and alternative approaches that the County might use to improve its management process.

4

# Vendor Profile: Organization, Capacity, Staffing, Resumes [25%]

- A complete substantiation of the organizational structure and capacity to provide and support the proposed Scope of Services. xxx
- Resumes of the proposed personnel (quality / demonstrated skills of proposed personnel).
- A clear description of potential resource utilization methods and approach.
- A complete list of the sub-contractors being utilized in all parts of this process is required, and should include what their respective responsibilities will be. Where the vendor has either limited or no expertise in a particular area(s), a list of those areas must be provided to the DoA along with a list of the sub-contractor(s) information and an outline as to what the sub-contractor(s) responsibilities will be.

#### Related Experience

[35%]

- Prior public sector experience.
- Demonstrated experience and knowledge of Nassau County real estate markets, assessment systems and practices,
- Project management and implementation qualifications and related experiences of the Vendor including references, organizational and technical capacity, and outcome/results of services provided to other similar clients of similar size.
- A comprehensive description of why the Vendor can perform the tasks defined in the RFP.

## Cost of Overall Project

[10%]

Total cost to the County.

The County will consider any other relevant factors as determined by the selection committee.

#### H. General Information

- 1. Incurring Cost. The County shall not be liable for any costs incurred in the preparation and production of a proposal in response to this RFP or for any work performed prior to the issuance of a contract.
- 2. Rejection of Proposals. This RFP does not commit the County to award a contract, or to procure, or to contract for services or supplies. Notwithstanding any other provisions of this RFP, the County reserves the right to award this contract to the vendor(s) that best meet the requirements of the RFP, and not necessarily to the lowest proposer. The County reserves the right to accept or reject any or all proposals received as a result of this request; to negotiate with all qualified sources; or to cancel in part or in its entirety this RFP if it is in the interests of the County.

The County may require the Proposer selected to participate in negotiation and to submit any price, technical, or other revisions, or their proposals as may result from negotiations.

- 3. Addenda to Request for Proposals. Amendments to this RFP may be necessary prior to the closing date and will be furnished by mail to all prospective Proposers who have requested these materials.
- 4. Contract Negotiations. The County intends to enter into contract negotiations with the firm or firms selected by the RFP Evaluation Committee, who shall be required to enter into a written contract with the County in a form approved by legal counsel for the County. The contract usually includes, without limitation, the standard clauses set forth in Appendix "E" attached hereto. This RFP and the proposal, or any part thereof, may be incorporated into and made a part of the contract. The contract may contain provisions not contained herein.

The County reserves the right to negotiate the terms and conditions of the contract with the selected proposer(s), if any. These negotiations could include all aspects of services and fees. Neither the selection of a vendor nor the negotiation of the contract with such vendor(s) shall constitute the County's acceptance of the proposal or a binding commitment on behalf of the County to enter into a contract with such vendor(s), as any binding arrangement must be set forth in the contract signed by both parties and is subject to all requisite approvals.

- 5. Additional Information. The County may award a contract based upon offers received without discussion of such offers with the Proposers. Each offer, therefore, should be submitted in the most favorable terms that the Proposers can offer the County from a price and technical standpoint. However, the County reserves the right to request additional data or oral discussions or presentations in support of written proposals from any and all of the Proposers. In addition, the County reserves the right to make on-site visits to the Proposer's place of business to assess and/or evaluate Proposer's qualifications.
- 6. Disclosure of Proposal Contents. The County will withhold proposals submitted under this RFP from disclosure, unless otherwise required by law, including, but not limited to, the Freedom of Information Law ("FOIL"). Proposers shall indicate in their proposals any information they submit that they feel is exempted from disclosure under FOIL. In the event that the County determines that information is required by applicable law to be disclosed, the County will notify the Proposer in advance of such disclosure to enable the Proposer to take such action as it deems appropriate. Copies of executed contracts are not exempt from FOIL.
- 7. Independent Price Determination: By submission of its offer, the Proposers certify (and in the case of a joint offer, each party thereto certifies as to its own organization) that, in connection with procurement:
  - A. The prices in this offer have been arrived at independently, without consultation, communication, or agreement for the purpose of restricting competition, as to any matters relating to such prices with any other proposer or competitor, and
  - B. Unless otherwise required by law, the prices which have been quoted in this offer have not been knowingly disclosed by the Proposers prior to award, directly or indirectly, to any other Proposer or competitor; and
  - C. No attempt has been made or will be made by the Proposer to Induce any other person or firm to submit or not to submit an offer for the purpose of restricting competition; and

6

- D. No elected or appointed official or employee of the County shall benefit financially or materially from this contract. The County may terminate this contract if gratuities were offered or given by the Proposer or his or her agency to any such official or employee.
- 8. Ownership of Information: All materials submitted in response to this Request for Proposals will become the property of the County.
- 9. Examination of Records: In submitting a proposal, the successful Proposer agrees that the County shall have access to and the right to examine directly all pertinent documents, papers and records of the Proposer and/or any sub-proposer as related to any contract and/or subcontract resulting from this RFP until six years after final payment has been made pursuant to any contract awarded as a result of the County's acceptance of proposal.
- 10. Subcontracting: The Proposer will be responsible for the entire contract performance. The Proposer must indicate in the RFP if it intends to use a sub-contractor for any part of the work. If so, the Proposer shall identify each sub-contractor by name, business address and expertise, and must include the name(s) of the principal(s) of the subcontracting entity. A full description of the tasks to be performed by the subcontractor must be included. The Proposer will not be permitted to subcontract any part of the contract or any of the rights and obligations thereunder without the prior written approval of the County.
- 11. Negotiated Changes: In the event that negotiated changes occur after the awarding of the contract, the same pricing policies called for in the original contract will remain in effect.
- 12. Proposer Conflicts: The Proposer shall not have provided appraisal, consulting or other real estate expert services in any capacity against the County in real property assessment or tax certiorari proceedings within a three (3) year period prior to submission of its proposal. Successful Proposers will agree not to perform such services during the term of their contract with the County.
- 13. Disclaimer: The County and its respective officers, directors, agents, members and employees make no representation or warranty and assume no responsibility for the accuracy of the information set forth in this RFP. Further, the County does not warrant nor make any representations as to the quality, content, accuracy or completeness of the information, text, graphics, links or other facet of this RFP once it has been downloaded or printed from this or any server, and hereby disclaims any liability for technical errors or difficulties of any nature that may arise in connection with the website on which this RFP is posted, or in connection with any other electronic medium utilized by respondents or potential respondents in connection with or otherwise related to the RFP.

7

#### I. General Conditions for Proposers

- 1. The Proposers will be required to pay its employees a "living wage" in compliance with Nassau County Local Law No. 1-2006 (the "Living Wage Law"), if applicable, and also to pay the prevailing wage rate as published by the New York State Department of Labor, if applicable, and comply with all applicable New York State Labor Law.
- Proposer is bound by and shall comply with the terms of Exhibit U and Exhibit EE to the Standard Clauses for Nassau County Contracts, attached hereto as Appendix E, which are hereby made a part hereof, if the proposers would be considered "county contractors", as defined in those exhibits, if awarded this contract.
- 3. The contract shall provide that in the event of any material misrepresentation by the Proposer contained in its proposal. County shall have the right to immediately terminate the agreement. It shall also provide that in the event the Proposer or any of its principals are convicted of a misdemeanor or felony during the term of the agreement, that the County shall also have the right to terminate the agreement.

#### J. Additional Demonstrative Materials

Parties are encouraged to provide as much additional material and detail as possible to completely describe and demonstrate the Proposal.

#### K. Award of Contract

The County shall select a firm by means of a Notice of Award issued by the RFP Evaluation Committee. Neither the selection of a firm nor the issuance of a Notice of Award shall constitute the County's acceptance of the proposal or a binding commitment on behalf of the County to enter into a contract with the firm, as any binding arrangement must be set forth in definitive documentation signed by both parties and shall be subject to all requisite approvals.

#### L. Protest Policy

As indicated in Section F, all questions or concerns regarding this RFP must be directed to the designated contact person. If a Proposer believes that a concern has not been satisfactorily addressed, it may request a copy of the Vendor Protest Procedure from the designated contact person.

# APPENDIX A COST PROPOSAL

The undersigned hereby certifies his or her compliance with the following:

#### "NON-COLLUSIVE PROPOSAL CERTIFICATION"

By submission of this Proposal, each proposer and each person signing on behalf of any other proposer certifies, and in the case of a joint Proposal, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his or her knowledge and belief:

A. The prices of this Proposal have been arrived at independently without collusion, consultation, communication, or agreement for the purpose of restricting competition, as to any matter relating to such prices with any other proposer or with any competitor; and

11111

- B. Unless otherwise required by law, the prices which have been quoted in this Proposal have not been knowingly disclosed by the proposer and will not knowingly be disclosed by the proposer prior to opening, directly or indirectly, to any other proposer or to any competitor; and
- C. No attempt has been made or will be made by the proposer to induce any other person, partnership or corporation to submit or not to submit a Proposal for the purpose of restricting competition.

D. The undersigned has carefully examined the Proposal and Contract Documents and agrees to perform this contract and to provide all services, labor, material and equipment necessary for this contract.

•

#### APPENDIX B Program Description and Staffing

Please provide a complete written description of the Proposal, including the following information:

- a. Staffing: Blos of firm principals as well as staff expected to be assigned to this project.
- b. Detail prior experience in the area of mass assessment modeling.
- c. Detail prior experience with public sector clients (similar size and scope),
- d. Detailed cover letter on the firm's letterhead indicating EIN number and the name of the parties authorized to discuss and/or enter into negotiations with Nassau County with respect this proposal.

(USE ADDITIONAL SHEETS IF NECESSARY)

APPROVED	AND '	SUBMIT	TED BY:

#### Business History Form

The contract shall be awarded to the responsible proposer who, at the discretion of the County, taking into consideration the reliability of the proposer and the capacity of the proposer to perform the services required by the County, offers the best value to the County and who will best promote the public interest.

In addition to the submission of proposals, each proposer shall complete and submit this questionnaire. The questionnaire shall be filled out by the owner of a sole proprietorship or by an authorized representative of the firm, corporation or partnership submitting the Proposal.

(USE ADDITIONAL SHEETS IF NECESSARY TO FULLY ANSWER THE FOLLOWING QUESTIONS).

Date: \_\_\_\_\_

- 4. Are there any outstanding loans, guarantees or any other form of security or lease or any other type of contribution made in whole or in part between you and the business submitting the questionnaire? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details.
- 5. Within the past 3 years, have you been a principal owner or officer of any business or not-for-profit organization other than the one submitting the questionnaire? NO \_\_\_\_ YES \_\_\_; If Yes, provide details.
- 6. Has any governmental entity awarded any contracts to a business or organization listed in Section 5 in the past 3 years while you were a principal owner or officer? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details.

<u>NOTE:</u> An affirmative answer is required below whether the sanction arose automatically, by operation of law, or as a result of any action taken by a government agency.

Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

- 7. In the past 5 years, have you and/or any affiliated businesses or not-for-profit organizations listed in Section 5 in which you have been a principal owner or officer:
  - a. Been debarred by any government agency from entering into contracts with that agency? NO \_\_\_\_\_ YES \_\_\_\_\_ if Yes, provide details for each such instance.
  - b. Been declared in default and/or terminated for cause on any contract, and/or had any contracte cancelled for cause? NO \_\_\_\_\_ YES \_\_\_\_\_ If Yes, provide details for each such instance.
  - c. Been denied the award of a contract and/or the opportunity to bid on a contract, including, but not limited to, failure to meet pre-qualification standards? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such instance.
  - d. Been suspended by any government agency from entering into any contract with it; and/or is any action pending that could formally debar or otherwise affect such business's ability to bid or propose on contract? NO \_\_\_\_\_ YES \_\_\_\_\_ If Yes, provide details for each such instance.
- 8. Have any of the businesses or organizations listed in response to Question 5 filed a bankruptcy petition and/or been the subject of involuntary bankruptcy proceedings during the past 7 years, and/or for any portion of the last 7 years ago and/or is any such business now the subject of any pending bankruptcy proceedings, whenever initiated? If 'Yes', provide details for each such instance. (Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.)
  - a) Is there any felony charge pending against you? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such charge.
  - b) Is there any misdemeanor charge pending against you? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such charge.
  - c) Is there any administrative charge pending against you? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such charge.
  - d) In the past 10 years, have you been convicted, after trial or by plea, of any felony, or of any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? NO \_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such conviction.
  - e) In the past 5 years, have you been convicted, after trial or by plea, of a misdemeanor? NO \_\_\_\_\_ YES \_\_\_\_\_ If Yes, provide details for each such conviction.
  - f) In the past 5 years, have you been found in violation of any administrative or statutory charges? NO \_\_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such occurrence.

- 9. In addition to the information provided in response to the previous questions, in the past 5 years, have you been the subject of a criminal investigation and/or a civil anti-trust investigation by any federal, state or local prosecuting or investigative agency and/or the subject of an investigation where such investigation was related to activities performed at, for, or on behalf of the submitting business entity and/or an affiliated business listed in response to Question 5? NO \_\_\_\_\_ YES \_\_\_\_\_ If Yes, provide details for each such investigation.
- 10. In addition to the information provided, in the past 5 years has any business or organization listed in response to Question 5, been the subject of a criminal investigation and/or a civil anti-trust investigation and/or any other type of investigation by any government agency, including but not limited to federal, state, and local regulatory agencies while you were a principal owner or officer? NO \_\_\_\_\_ YES \_\_\_\_ If Yes; provide details for each such investigation.
- 11. In the past 5 years, have you or this business, or any other affiliated business listed in response to Question 5 had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held? NO \_\_\_\_ YES \_\_\_ If Yes; provide details for each such instance.
- 12. For the past 5 tax years, have you failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges? NO \_\_\_\_\_ YES \_\_\_\_ If Yes, provide details for each such year.

#### CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID OR FUTURE BIDS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

I, \_\_\_\_\_\_\_, being duly sworn, state that I have read and understand all the items contained in the foregoing pages of this questionnaire and the following pages of attachments; that I supplied full and complete answers to each item therein to the best of my knowledge, information and bellef; that I will notify the County in writing of any change in circumstances occurring after the submission of this questionnaire and before the execution of the contract; and that all information supplied by me is true to the best of my knowledge, information and bellef. I understand that the County will rely on the information supplied in this questionnaire as additional inducement to enter into a contract with the submitting business entity.

Sworn to before me this day of 2015

#### STANDARD CLAUSES FOR NASSAU COUNTY CONTRACTS

#### STANDARD CLAUSES FOR NASSAU COUNTY CONTRACTS

1. <u>Independent Contractor</u>. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "<u>Contractor Agent</u>"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "<u>Person</u>" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

2. <u>No Arrears or Default</u>. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

**3.** <u>Compliance with Law</u>. (a) <u>Generally</u>. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.</u>

(b) <u>Nassau County Living Wage Law.</u> Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

- (i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;
- (ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, such breach being determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.
- (iii) On a yearly basis, Contractor shall provide the County with any material changes to its Certificate of Compliance, attached to this Agreement as Appendix L,

۰.

(c) <u>Records Access</u>. The parties acknowledge and agree that all records, information, and data ("<u>Information</u>") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

#### 4. Minimum Service Standards. Regardless of whether required by Law:

(a) The Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

#### 5. Indemnification: Defense; Cooperation.

(a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, reasonable attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether taken pursuant to or authorized by this Agreement and regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section and the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

# APPENDIX E

#### 6. Insurance,

(a) <u>Types and Amounts</u>. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general flability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined ilmit of flability of not less than two million dollars (\$2,000,000) per occurrence, (ii) if contracting in whole or part to provide professional services, one or more policies for professional values, which policy(ies) shall have a minimum single combined limit flability of not less than two million dollars (\$1,000,000) per claim, (iii) compensation insurance for the benefit of the Contractor's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance, including, without limitation, builder's all risk, if applicable, automobile liability insurance and umbrella liability insurance, as the County may from time to time specify.

(b) <u>Acceptability: Deductibles: Subcontractors</u>. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed or authorized to do business in New York State and acceptable to the County; and (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) <u>Delivery: Coverage Change: No Inconsistent Action</u>. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the County Attorney's Office. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the County Attorney's Office of the same and deliver to the County Attorney's Office renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take any action, or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

# 7. Assignment; Amendment; Waiver; Subcontracting.

(a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (jy) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "<u>County Executive</u>"), and any purported assignment, other disposal or modification without such prior written consent shall be null and vold. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

#### 8. Work Performance Liability.

The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and Irrespective of whether the use of such Contractor Agent has been approved by the County.

**9.** <u>Termination</u>. (a) <u>Generally</u>. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "<u>Cause</u>" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (<u>iii</u>) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) <u>By the Contractor</u>. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "<u>Commissioner</u>"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "<u>Applicable DCE</u>") on the same day that notice is given to the Commissioner,

(c) <u>Contractor Assistance upon Termination</u>. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

**10.** <u>Accounting Procedures: Records.</u> The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("<u>Records</u>"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the County Comptroller, the County Attorney's Office, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

11. <u>Limitations on Actions and Special Proceedings Against the County</u>. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) <u>Notice</u>. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii)

the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) <u>Time Limitation</u>. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (<u>A</u>) final payment under or the termination of this Agreement, and (<u>B</u>) the accrual of the cause of action, and (<u>II</u>) the time specified in any other provision of this Agreement.

**12.** <u>Consent to Jurisdiction and Venue; Governing Law</u>. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and <u>forum non convenes</u>. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

### 13. All Legal Provisions Deemed Included; Severability; Supremacy; Construction.

(a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) In the event of a conflict between the terms and conditions of the contract, including any and all attachments thereto and amendments thereof, and the terms of this Appendix A, the terms of this Appendix A shall control.

(d) Each party has cooperated in the negotiation and preparation of this Agreement, so if any construction is made of the Agreement it shall not be construed against either party as drafter.

**14.** <u>Administrative Service Charge</u>. The Contractor agrees to pay the County an administrative service charge of \_\_\_\_\_\_\_ dollars (\$\_\_\_\_\_) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 201-2001. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

Value of contract:	Administrative fee:
\$0 - \$5,000	\$0
\$5,001 - \$50,000	\$160
\$50,001 - \$ 100,000	\$266
\$100,001 or more	\$533

15. Executory Clause. Notwithstanding any other provision of this Agreement:

(a) <u>Approval and Execution</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all County approvals have been obtained, including, if required, approval by the County Legislature, and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) <u>Availability of Funds</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the State and/or federal governments, then beyond funds available to the County from the State and/or federal governments.

# EXHIBIT U

#### Appendix EE

#### Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached,

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002;

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

- (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.
- (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.
- (e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.
- (f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.
- (g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

- (h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.
- (i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.
- (J) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.
- (k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.
- (I) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:
  - a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
  - b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
  - c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (I) adopt the recommendation of the arbitrator (II) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

:

.....

....

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements

appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all subbidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (I) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to intergovernmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

#### Contract Appendix L Certificate of Compliance

In compliance with Local Law 1-2006, as amended, the Proposer/Bidder hereby certifies the following:

1. The chief executive officer of the Proposer/Bidder is:

\_\_\_\_\_\_(Name) \_\_\_\_\_\_\_(Address) \_\_\_\_\_\_\_(Telephone Number)

- 2. The Proposer/Bidder agrees to comply with the requirements of the Nassau County Living Wage Law, and with all applicable federal, state and local laws.
- 3. In the past five years, Proposer/Bldder \_\_\_\_\_ has \_\_\_\_ has not been found by a court or a government agency to have violated federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed by the Proposer/Bidder, describe below:

4. In the past five years, an administrative proceeding, investigation, or government body-initiated judicial action \_\_\_\_\_ has \_\_\_\_\_ has not been commenced against or relating to the Proposer/Bidder in connection with federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If such a proceeding, action, or investigation has been commenced, describe below;

5. Proposer/Bidder agrees to permit access to work sites and relevant payroll records by authorized County representatives for the purpose of monitoring compliance with the Living Wage Law and investigating employee complaints of noncompliance.

I hereby certify that I have read the foregoing statement and, to the best of my knowledge and belief, it is true, correct and complete. Any statement or representation made herein shall be accurate and true as of the date stated below.

Dated Signature of Chief Executive Officer

RE: Systematic Review and Analysis of Assessments Nassau County Department of Assessment RFP # AS0518-1509

Dear Mr. Corte:

On behalf of Standard Valuation Services, we are pleased to submit this proposal to provide a Systematic Review and Analysis of Assessments for the Nassau County Assessment system based on the combined Tax Classes broken down by each Tax Class, to be completed by year's end 2017 for the purpose of recalibrating the Cyclical Assessment roll for 2019/20. Our proposal is responsive to the Italicized instruction at Page 4 of the RFP stating, "The bidder is asked to provide the County with a bid that is based on the combined tax classes broken down by each tax class", following the RFP's proposal evaluation criteria.

Attached please find our firm's response to the referenced RFP, based upon the outline prescribed as Mandatory Proposal Response Requirements.

The scope of work contemplated in this proposal includes an evaluation of inventory management procedures, dynamic inventory issues relating to the effects of Super Storm Sandy, review and refinement of neighborhood/submarket parameters for both residential and commercial properties, review and screening of sales data employed in residential valuation modeling, review and updating of economic and market data used in commercial valuation modeling, and evaluation of the market value output from the respective modeling systems,

Standard Valuation Services is arguably the only firm with the expertise and resources necessary to handle myriad modeling and assessment issues in all four (4) tax classes. Our firm is the largest appraisal firm in Nassau County with over 20 years of experience in dealing with the Nassau County Assessment System. The firm has worked under 3 County Administrations: Guilotta, Suozzi and the current Mangano Administration. Political parties put aside, our firm has been considered the "go to" expert on real estate issues within Nassau County, with an open and working relationship with both sides of the Nassau County Legislature, frequently called upon for guidance throughout the years on assessment and real estate issues.

STANDARD VALUATION SERVICES

Within the submission of this RFP response, please take note that our firm has also included a specialist in the valuation of Utility properties, Federal Appraisal and Consulting (Whitehouse Station, New Jersey), for further expertise in the Class 3 properties and a nationally recognized modeler, Thimgan & Associates (La Junta, Colorado), to provide additional oversight of all valuation issues throughout the modeling process. By committing to retain the aforementioned experts, Standard Valuation Services has developed a strategic plan and highly capable management team to responsibly oversee and implement the best practices necessary to ensure the successful complation of the Systematic Review.

- 1) Our firm on its own has the essential local knowledge and experience of Nassau County's complex real property Assessment System. The Systematic Review and Analysis of Assessments for Nassau County is a daunting task, which will take approximately 32 months to complete. Our firm has the employee base and resources to complete this task with our in-house staff. The workload for this project will likely require staffing that can range from approximately 8 10 employees up to 15 20 employees at any given time. Standard Valuation Services also has the ability to move its employee resources from Class to Class, depending on the needs of the tasks at hand,
- 2) In discussions with Nassau County during the interview process of the first RFP, it was brought to our attention that there was an inherent need for Nassau County to thoroughly examine the Utility Class 3 assessments since it has not been done in many years. Standard Valuation Services has its own Utility experts on staff; however, considering the complexity of many of the utility properties on the Nassau County Assessment roll, the ability to utilize the services of a Nationally regarded firm with extensive experience in assessment matters, would be very beneficial for the successful outcome of the Systematic Review and Analysis of the Class 3 assessments. In this case, a National utility expert would be working on the roll in conjunction with Standard Valuation Services utility and commercial experts to make sure there is consistency between the Class 3 and Class 4 rolls (example; an office building property in Class 3 should be consistent with valuations in Class 4). Lastly, the National modeler would further review the results in the Utility category, thus ensuring both consistency and use of best industry practices in handling these assessment issues, with the ability for very capable experts to speak to these issues in the public arena.
- 3) Standard Valuation Services is very confident with its in-house staff and modelers and has completed many revaluations and/or modeling tasks without having to go to an outside National modeler. However, mindful of the size, scope and complexity of the Nassau County Assessment project, it would be incomprehensible not to provide a National modeler to assist in the oversight of the review and analysis of the County Assessment System. It should be noted that Thimgan & Associates also has vast experience in reviewing issues with Tyler developed assessment Jurisdictions. Note; Nassau County is working off of a Tyler based System. Thimgan & Associates also has experience in valuing properties within Nassau County since 2000, when we originally brought them in to assist in completing the modeling tasks in our valuation of several Super Storm Sandy devastated communities of Staten Island and Long Island. Throughout the years, Thimgan & Associates has developed a great understanding of the local Nassau County real estate market.

STANDARD VALUATION SERVICES

Our submission and response for this RFP includes an overall cost for the entire project and an allocation broken out for each of the 4 classes. It is our firm's belief that a very important issue to consider is the connection between and consistency level of assessing all four tax classes. Specific to "connection and consistency", it is critical to recognize that land valuations for all property classes must be prepared and supported in a consistent manner, and that there are numerous instances where seemingly similar properties (Class 1 v. Class 2 condos, Class 3 v. Class 4 office and industrial buildings) overlap and must be valued consistently, and the real estate experts responsible for the project capable of understanding, explaining and defending all related aspects.

Our firm has the resources to complete the Systematic Review Analysis and Assessment base of Nassau County and will also have the ability to move resources from one Class to another, depending on needs found after the project is underway. This will be further explained in our RFP submission, and we believe it to be of utmost importance when taking on a project of this size and scope.

The Idea of completing a Systematic Review and Analysis of Nassau County Assessments has been in the making for quite some time now, dating back to at least early 2012, after our firm successfully helped settle the Halpern v. Nassau County lawsuit in 2011. On March 25, 2013 the first request for proposal for a Systematic Review and Analysis of Assessment was issued by Nassau County (RFP-ASO320-1312).

Since that time, our firm has been building its resources and has actually grown by over 25%, adding two additional offices on Long Island, located at 888 Veterans Memorial Highway, Hauppauge, NY and 1 The Plaza, Montauk, NY. During this period, our firm has also been ramping up its in-house modeling ablittles by bringing in a National Instructor, Russ Thimgan, to provide classroom hours to more than 10 of our already capable modeling and real estate experts. These classes included SPSS training and interaction with Prognose-SVAS, our proprietary modeling software system. It should be noted that Russ Thimgan of La Junta, Colorado Is one of the most regarded modelers within the Country.

Finally, in early 2015, Standard Valuation Services completed the acquisition of a Nassau County based real estate appraisal firm (J.A. Cowan & Associates Inc.), with experience in preparing tax certiorari appraisals on behalf of Nassau County, integrating the firm's appraisal staff into our Mineola office.

During this period between 2013 through present day 2015, our company has elected not to pursue or accept competing jurisdictional assessment contracts. A prime example of this is the assessment work in Westchester County<sup>1</sup>, which has a similar (competing) time frame to that of Nassau County, which presented a conflict of resources. Recognizing that the prospective Nassau County Systematic Review and Analysis of Assessments would require the full dedication of our management and expert staff, we informed the consortium of municipalities undertaking reassessment in Westchester County on October 11, 2013 that we would decline the opportunity to respond the RFP to monitor tha implementation of their reassessment projects.

In 2013 our firm was also selected and deemed by the Governor's office as the only firm capable of handling the Super Storm Sandy appraisal and modeling work that was required for properties from Staten island all the way through to Flanders on Long island. This project encompassed over 2,000t, homes throughout the Metropolitan area, of which over 1,100 were on located on Long island and

STANDARD VALUATION SERVICES

<sup>&</sup>lt;sup>3</sup> A minimum of 41,000 parcels in 3 municipalities, for 2016 and 2017 assessment rolls; and potentially 103,000± parcels in 9 municipalities

notably, three entire neighborhoods had to be successfully modeled and consistently valued within the Staten Island area, Oakwood Beach (458 parcels), Ocean Breeze (159 parcels) and Graham Beach (286 parcels). This was a very complex assignment that required significant public relations, as one could imagine, and to date our firm has received accolades from the Governor's office down to Jon Kalman, The appointed Storm Recovery Czar, who serves as The Special Advisor of the Long Island Storm Recovery for the New York Rising Program.

On January 29, 2015, Standard Valuation Services received a "Notice of Intent to Award" RFP #ASO320-1312 to our firm. At this time we then negotlated with Nassau County to put forward a contract, which we were able to successfully complete. This contract was then brought forward to the Nassau County Legislators Rules Committee on May 4<sup>th</sup>, Cierks Item # E75-15, which was then tabled to the May 18<sup>th</sup> Rules Committee meeting, at which times issues arose regarding Union procedures and policies. During this period, our firm has mobilized all of its resources and readied its entire staff to hit the ground running and start this project tentatively, at that time, for July 1, 2015. Our firm still stands ready and has cleared a significant amount of resources for this large assignment, at a significant cost to our firm.

On May 27, 2015 Newsday released a front page article on the Nassau County property taxes. This three page article written by Celeste Hendrick, accurately documented the need for a Systematic Review and has brought this issue to the forefront of public awareness. On this same day, News Channel 4 also had a segment on Nassau County property taxes and the effect a Systematic Review could have on the residents. During this interview on Channel 4, Jeff Gold, former Board of Assessment member, spoke stating "he believed all assessments could be going up". We bring this statement forward to your attention because it is Standard Valuation Services opinion that this issue will require Public Relations and the ability for the firm awarded this contract to be able to speak to the residents in a public forum, and for that matter, to public officials such as the legislature.

Our office has demonstrated, significant experience and capabilities in public meetings, from Reassessments that we have completed in many other Cities and Villages throughout Nassau County, to public forums we were requested to provide for residents in Staten Island after Super Storm Sandy.

On May 28, 2015, Newsday's loy Brown penned a column on Assessment issues in Nassau County, bringing forward some very salient points, just to mention a few, she taiked about bringing an "Assessment Czar", and tapping one person to become tha face of the process. This is a worthy recommendation and in fact, I believe in working hand in hand with the Assessment office; the expertise of Standard Valuation Services can become this voice during the process of the Systematic Review. In Ms. Brown's column, she also had many other suggestions, for example making sure that when the Systematic Review is completed it would be done at a full market value level, which would be much easier and clearer for the residents to understand the value of their properties. Most of the Issues raised by both Newsday articles are thoroughly discussed in the body of the response to this RFP.

It is with the utmost confidence that our firm brings forward this RFP submission for a Systematic Review and Analysis of the Assessments of Nassau County, believing we have the expertise, resources, and by far the best team to complete this task hand in hand with the Assessment Department and the Nassau County Administration, best representing the residents and property owners of Nassau County.

STANDARD VALUATION SERVICES

The submission of this RFP complies with Executive Order No. 1-2015 enacted on May 15, 2015. This proposal shall remain in effect for not less than 180 (one hundred eighty) days. Standard Valuation Services has registered with the County as a vendor.

Should you have any questions or comments concerning this proposal, require clarification on any matter, or wish to schedule an oral presentation of this proposal, please do not hesitate to contact us.

Respectfully submitted, STANDARD VALUATION SERVICES

Matthew L. Smith, MAI, SRA, MRICS President

Andrew W. Albro, MAI, MRICS Executive Vice President

#### Project Overview & Scope of Services-Contract Requirements and Proposed Solution

SVS fully understands the complexities of the Nassau County Assessment system having completed projects for various County departments over the past twenty (20) years. These projects include, but are not limited to, Small Claims Assessment Review projects (SCAR), Tax Certiorari Litigation and Support for the County Attorney's Office, support and appraisal services for the Assessment Review Commission (ARC) and real estate appraisal services for Nassau County's Division of Real Estate Services.

Our firm has the knowledge, expertise and staffing required to work in conjunction with the Department of Assessment to complete a Systematic Review and Analysis for the entire assessment rolf (all 4 tax classes) by the end of calendar year 2017. This systematic review will be a comprehensive analysis which will encompass all phases of a successful revaluation. Various stages include, but are not limited to, verifying and editing physical inventory, creating a database of current arms-length sales to be used for valuation purposes, recalibration of both residential and commercial models, testing the results using sophisticated statistical techniques, and providing market values for all properties in a fair and consistent manner. This will ensure fair property tax equity and parity throughout the county, before locking down assessments for the next cyclical four (4) year period.

Our firm will be working with the staff of the Department of Assessment, and we theroughly understand Real Property Tax law and the importance of maintaining uniformity with an accurate level of assessment. We have the technical expertise to work within the framework of the existing Nassau County assessment system, in concert with your assessment department staff utilizing your current IAS assessment software system, but having the ability to adjust and fine tune the calibration of the models, ultimately enhancing the output. In addition, this course of action will allow for the recalibration of any processes and/or procedures that will make the department of assessment more efficient and self-sufficient for any future Systematic Review as part of their cyclical assessing process.

#### Project Overview

#### Project Management

Project management is crucial to the success of any large project; a Systematic Review and Analysis of Assessments for Nassau County is no exception. We have independently completed full revaluations and systematic analyses of municipalities throughout Nassau County over the past fifteen (15) years. We maintain a professional relationship with the New York State Office of Real Property Tax Services (ORPTS) and are aware of their reporting and testing requirements. Our firm has the experience and knowledge to handle managing our 33 employees allocated for the project and will be able to work in concert with the Nassau County Assessment employees that are designated for the project.

Based on our experience with working with Nassau County in the past, we understand the importance of data security and the fact that the Assessment Roll information is proprietary to Nassau County. Data security and confidentiality will be of the utmost importance to our firm and will be thoroughly explained to anyone from our organization working on this Nassau County project. Project management will be a crucial component throughout this project for the entire 32 months.

STANDARD VALUATION SERVICES

#### Public Relations

Public Relations is one of the strong qualifications of Standard Valuation Services as indicated in Appendix B - subsection c. Public Relations with regards to a Systematic Review and Analysis Assessments is available on an as-needed basis. It is our opinion that Public Relations skills will most likely be utilized in explaining to the Nassau County legislature and the public officials within Nassau County, how the Systematic Review and Analysis process is being completed on the Nassau County Assessment Roll. Public Relations will be provided at the request and guidance of the Assessment Department and their requirements,

Based on the interview process of the original RFP, it was brought to our attention that additional services might be required above and beyond our initial Public Relations response to the RFP. Therefore, in our Supplemental Response dated April 12, 2013, we provided a mechanism for additional meetings if needed at a cost of \$325,000. The following titled areas in quotes, consisting of two paragraphs below, is the statement from our Supplemental Response, which was submitted to address the Assessment: Department's concern regarding information meetings at all 56 school districts.

#### "Availability for public meetings, including all 55 school districts"

"As stated in our response to the RFP, Public Relations is one of the strong qualifications of Standard Valuation Services. Public Relations with regards to a Systematic Review and Analysis Assessments is available on an as-needed basis. It is our opinion that Public Relations skills will most likely be utilized in explaining to the Nassau County Legislature and the public officials within Nassau County, how the Systematic Review and Analysis process is being completed on the Nassau County Assessment Roll. Public Relations will be provided as required in the RFP and additional meetings will be provided at the request and guidance of the Assessment Department".

"Although we appreciate the need for public meetings throughout the project, we did not include an allowance for the number of additional meetings the Department of Assessment is considering. From prior experience, we feel that having the contractor present at certain public venues can detract and possibly sidetrack the ultimate goal of the public meeting. Focusing on the main objective of the project along with the key milestones accomplished by the Department of Assessment with the assistance of the contractor should be paramount. It is our opinion that delving into specific valuation issues and methodology, although important, should be limited to certain settings. In addition any specific issues that arise at a public meeting can always be addressed afterward, after the contractor has had the opportunity to fully research the issue and provide an accurate response. For this key reason we did not include the cost of such meetings in our proposal. If however, the Department of Assessment requires the contractor to be available at public meetings of this type, we can be available on a per diem basis, which is indicated on the Cost Schedule on the following page. The cost accounts for 3 to 5 senior appraisers to prepare and attend these forums, which typically would be nacessary for this type of meeting".

After the "Notice of intent to Award" was received, our firm negotiated with The Nassau County Attorney's office a further clarification of additional services for Public Relations. Additional Public Relations was then capped at a total possible expense of \$325,000, calculated to be payable in arears at \$125 per hour for contract staff. This allowed flexibility on what types of meetings the County would need us to attend and be part of, not limited to school district meetings.

STANDARD VALUATION SERVICES

#### inventory Data Verification, Editing & Management

Based on the information provided to us by Nassau County in Appendix A, Nassau County has a count of 419,484 parcels of real estate, of which it is stated that 360,678 are residential and 58,806 are commercial. Please note, for our response to this RFP, our firm is going to utilize the breakdown that Nassau County has included in the RFP. However, according to the Nassau County final roll for 2014, the total parcel count is 423,555 parcels, with a breakdown of the Classes as follows: Class I ~ 386,144, Class II ~ 6,188, Class III ~ 2,125, Class IV ~ 29,098

Each of these parcels of real estate has vast inventory data and unique salient features. It is crucial for any assessing unit to have comprehensive and current inventory data. Without accurate inventory data, one cannot produce reliable assessment models and results. With regards to the Systematic Review and Analysis of the Assessment Roll of Nassau County, the review of the data verification editing and management will be intense in the first twenty-four (24) months of this project, making sure that the information that the Assessment Department is utilizing is complete and handled in a proper and accurate manner. This process will further be checked throughout the entire project.

#### Sales Verification & Analysis & Edits

In modeling on a mass appraisal scale, it is very important to select the proper sales to utilize within your modeling process and to keep the stock of sales that is constantly changing and growing, throughout the project. Some markets may require the consideration whether or not to utilize foreclosure sales, if they are truly representative of a significant portion of that market. Nassau County on any given year has approximately 15,000 to 20,000 residential sales per annum. Considering the 32 month span of the project and the 2 prior years before the project starts, there will be approximately 75,000 sales reviewed and considered during this project.

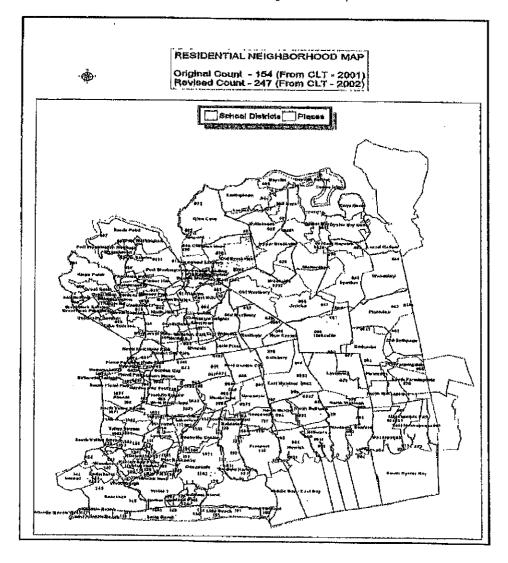

#### Neighborhood Delineation/Analysis & Refinement

A major component of a successful systematic review is neighborhood delineation. The Department of Assessment has refined the neighborhoods over the past 10+ years, starting with the original 154 residential neighborhoods in 2001, increasing the number to 247 in 2002 and further increasing the count to 397 at present. However, the market and trends have changed significantly and an up-to-date review of the neighborhoods is imperative. Utilizing GIS and plotting (mapping) relevant sales will be a key tool that we will employ to judge the accuracy of the existing neighborhood breakdown. As markets change over time, again it is vital to comprehend the dynamic factors within each neighborhood to assess whether boundaries need adjusting, or determine if the use of an alternative valuation model is in order. Our skilled team will ensure that neighborhood delineation and use of the correct valuation model is as accurate as possible. See Map on following page depicting the 247 neighborhoods from 2002.

GIS and the use of ArcMap software by ESRI will be utilized throughout the project. This is a powerful means for visually displaying any type of data for analysis. In addition to its use in neighborhood delineation as discussed above, it will be utilized to review trends, locational

STANDARD VALUATION SERVICES

Influences, outliers, etc. Edit checks will also be performed utilizing GIS ensuring that the physical inventory is complete and as accurate as possible. As we are fully aware, having accurate physical data is imperative for having accurate values. Our firm is one of only a handful of local companies licensed to use this software and proficient with handling Nassau County's dataset.

STANDARD VALUATION SERVICES

It is our understanding that Nassau County currently has 397 residential neighborhoods. Within the purview of the Systematic Review and Analysis of Nassau County the proper breakdown of residential neighborhoods is very important to enhance and get accurate results from your models. Based on the Revaluations that we have done on Villages throughout Nassau County, we have found that the neighborhood delineation that Nassau County utilizes can be further enhanced by smaller neighborhood sets. It is our belief that going forward the residential neighborhood base will be expanded to a much larger number. Our firm has allocated twelve months to work on this very Important and crucial aspect of a Systematic Review.

#### Nassau County Special Assessment Unit Class System

According to New York State Real Property Tax Law, Article 18, Nassau County, by virtue of having a population of one million or more is legally classified as a "special assessing unit". As a special assessing unit, all real property within Nassau County must be classified as Class 1, Class 2, Class 3 or Class 4 as outlined and described in this response. Being mindful of the base proportions for each class of property and the adjusted base proportions is crucial to ensure that shifting of values between the classes, if any, is accurately accounted for and applied in accordance with State Law. Monitoring the equity between each class is critical in maintaining the current balance within these classes, it is imperative that the selected company understands the complexity and relationship between the classes and is able to undertake the complex calculations of the pre- and post-systematic review analysis.

#### **Review of Residential Models**

The review of the residential models will span the entire project and is one of the most important aspects of successfully completing this project. Our firm has a number of personnel who have expertise in residential modeling and have intimate knowledge of the working models as they have assisted in their development in 2003. Additionally we consult with a nationally renowned modeler, James R. Thingan, IAAO, of Thingan Inc. Our firm has worked Mr. Thingan In the past, with very successful results. Mr. Thingan is experienced in working with Nassau County's IAS modeling system. Thingan inc. has developed its proprietary software called Prognose, which can effectively review the data and values in the way in which the current IAS system is producing its 26 current residential models. The Prognose Software has been successfully used by Assessment Jurisdictions in Salt Lake City, Utah (similar in size to Nassau County) and St. James Parish and Morehouse Parish in Louisiana. This project's success will also deeply depend on a strong Interaction with Nassau County's current modeling systems, many of which our firm is already familiar with. Based on our firm's past experience in working with the Revaluation of 2003 with Nassau County, we believe our staff has a thorough understanding of the residential models and the important components which drive them. The review of residential models will span the majority of the entire project.

#### **Review of Commercial Models**

Nasseu County currently has 68 commercial models. We are very knowledgeable of the workings and components of these models, having assisted with their development in the 2003 Revaluation project. Our firm has a number of commercial modeling experts on staff. The commercial real estate population of 58,806 is vast and unique. Our firm has the expertise to recognize values for these properties which can range from a "mom & pop" freestanding store on Hempstead Tumpike to a regional shopping mall and

STANDARD VALUATION SERVICES

includes unique properties such as marinas, nursing homes and golf courses. Our staff has expertise on all of the broad types of commercial properties within the bounds of Nassau County, and collectively has extensive knowledge and familiarity with many of these properties. Furthermore, our staff has a full understanding of the criteria for modeling commercial properties and the use of income and expense information to complete these models. It is very important to understand the impact the values could have on commercial tax certiorari cases, as they are a major issue in Nassau County. The commercial modeling process is very complex and complicated, and will proceed through the majority of the entire project.

STANDARD VALUATION SERVICES

#### Review of Cooperatives & Condominiums

Nassau County has a very complicated coop and condominium property base. Nassau County currently has 474 coop developments and 3 classifications of condominiums. The population includes 8,505 Class 1 Condominium Units, 4,174 Class 2 Condominium Units and 481 Class 4 Condominium Units. Not only do condominium properties reside in three (3) different tax classes, but they must be valued using different methodologies.

In 2012 our firm reviewed a large percentage of coops and condos during the Residential Tax Grievance Negotilation & Settlement Program we were completing for Nassau County. During that review we gained an appreciation of and insight into the way in which the coops and condos were valued and assessed, and we believe we have the ability to enhance the current assessment valuation process for these properties. Of course all of this will have to be discussed and vetted with Nassau County's Department of Assessment. Our interaction with the Assessment Department with this issue should enhance the consistency of values for these properties for the next cyclical Assessment Roll. This task will also span the majority of the entire project.

#### "Review of the Special Franchise, Utility and Railroad Properties"

Based on the interview process of the original RFP, it was brought to our attention that additional services might be required for Class 3 Utility properties. Therefore, in our Supplemental Response dated April 12, 2013, we provided an additional subcontractor, Federal Appraisal and Consulting, one of the premier National experts in utility valuations to add additional expertise and support to our utility experts and National modeling expert, thus providing the utility Class 3 properties with a professional three tier approach to reviewing the assessment levels. The following titled areas in quotes, consisting of three paragraphs below, is the statement from our Supplemental Response, which was submitted to address the Assessment Department's concern regarding the matter of Utility properties.

"The properties within this group are highly complex. Market Values for the Special Franchise properties range from \$100 to over \$53,000,000 with approximately 158 properties having values over \$5,000,000. Market Values for the Utility properties (including railroads) range from \$100 to over \$255,000,000 with approximately 81 properties having values over \$5,000,000".

"The annual assessment of Special Franchise is the responsibility of the Office of Real Property Tax Services (ORPTS), Valuation Services Bureau (VSB). For Utility parcels, ORPTS is also responsible for providing advisory appraisals upon request for taxable utility properties and other highly complex properties that meet certain requirements. Due to the nature of these properties, the lack of local resources and the special skill set required to properly and accurately analyze these properties, Nassau County Department of Assessment, as well as the various village assessment departments throughout the County, accept the valuations supplied by ORPTS and utilize them for taxation purposes",

"Although the County respects the services that ORPTS provides relative to these properties, it is our understanding that due to the magnitude of tax revenue these parcels generate, it would be in the best interest of the county and its taxpayers to have these parcels reviewed by independent experts to ensure that they are being valued accurately. These properties can be subject to dispute and tax certiorari cases due to potential valuation errors caused by incorrect/incomplete data or a change in use (power plants can become obsolete, etc.). Therefore, along with the systematic review of all residential and commercial properties, Nassau County Department of Assessment believes this would be the opportune time to exercise the proper due diligence and include this property group in the Scope of Service".

STANDARD VALUATION SERVICES

SVS fully agrees with Nassau County, and would need assistance to value some of the highly unique and complex utility type properties. Therefore, to fulfill this aspect of the RFP we are prepared to engage, as a subcontractor to SVS, Federal Appraisal & Consulting, one of the premier national experts in utility valuations. We have discussed the scope of services for this project with Mark Pomykacz, Managing Partner of Federal Appraisal & Consulting and he and his firm assures us that they have the necessary resources and expertise to work with SVS to complete this assignment within the prescribed time frame. The scope includes a systematic review of this parcel class, it does not include preparation of appraisals, negotiations or defense of values.

The company bio and qualifications of Federal Appraisal & Consulting's key personnel are included In this document.

SVS believes that it is imperative to analyze the entire assessment roll as one complete, indivisible data set. The valuation methodology utilized for each Class of properties must be employed consistently to ensure dependable and equitable results. Values for parcels within each property class are not independent of the other classes. For example, properties in Class 2, 3 and 4 should have consistent land values as all three classes are broadly described as commercial. Additionally, Class 1 and Class 2 each contain residential condominiums. Although valuation methodology may differ for each class, knowledge of market values for condominium units, regardless of class will ensure values are reasonable and supportable for those properties within each class. As an additional example, rental rates for properties such as residential apartments, commercial condominiums, retail, etc., all necessary for proper valuation, span across Classes 1, 2 and 4. Furthermore, when a cost analysis must be utilized for highly complex or special use properties, again one uniform set of cost tables must be applied as these types of properties are found within every tax class. Our national modeler overseeing the data and consistency of the values, can and will ensure the relationship of the values for all property types. If a uniform approach is not applied to the valuation of all property types within all classes of property types, there is a greater risk of having disproportionate and possibly unsupportable values, weakening the assessment roll and defeating the purpose of the Systematic Review and Analysis of Assessments,

#### Market and Statistical Analysis/Trending and LOA Analysis

Market and Statistical analysis is a process that drives every aspect of completing a good and defensible Assessment Roll. Our staff is experienced in all aspects of these areas. Trending and other issues within the process of completing this project will be thoroughly discussed with the experts within the Nassau County Assessment Department. The Level of Assessment (LOA) analysis will be completed in concert with Nassau County's modeling experts and independently revised as an additional check of the modeling information. The use of the Prognose software and SPSS (Statistical Package for the Social Sciences) will further be utilized as quality control and to test the valuations that are produced. This process should ensure that Nassau County maintains the highest standards of valuations for their Assessment Roll. This process will span the entire project.

STANDARD VALUATION SERVICES

#### Valuation Development/Testing & Production

Valuation Development will occur near the midstream of this project, after the initial modeling review has been completed. Testing of the models and the values will be on an ongoing basis throughout the project, culminating in the production of a January 1, 2018 Tentative Assessment Roll for Nassau County to use in its new cyclical assessment roll. The majority of this work will be completed from October 2016 to the end of December 2017.

#### Prepare Values for the Tentative Roll

The preparation of values for the tentative roll and the finalization of the tentative roll will be completed at the end of 2017. It is inherently important that Nassau County and its Assessment Department be the driving factor in this component of the project. Our firm will provide the resources necessary to "cross check" that all of the information is being put into the system in an accurate manner.

#### Assessor Recalculates Exemptions

The recalculation of exemptions will be completed at the end of this process, in the latter months of 2017. Our firm will work with Nassau County's exemption experts and cross check the calculation procedures of the exemptions to insure that they are being properly accounted for on the Assessment Roll.

#### Finalize Tentative Roll

In finalizing the tentative roll we will work with Nassau County's Assessment experts in making sure that the Assessments and values being produced by the Assessment Department are accurate for the residents and property owners of Nassau County.

#### Review/Test Tentative Roll

Reviewing and testing of the tentative roll occurs throughout the project, however it becomes crucial in the three month period prior to when the roll is completed. This will be an intense process of making sure all values and assessments are accurate with the Nassau County Assessment Department. In addition, the review and testing of the Tentative Roll continues until April 1, 2018, when the roll is finalized as issues and corrections after the tentative roll is released might arise. Our firm will be available, and will work in concert with the Assessment Department to correct any and all issues with the Assessment Department.

Additional Market & Statistical Analysis- Additional Testing for the Final Roll

STANDARD VALUATION SERVICES

This is a process that is completed towards the end of the project, usually within the last 3 to 6 months; again just cross checking to make sure that the new Assessment Roll that will be finalized on April 1, 2018 is accurate and equitable for the residents of Nassau County.

Following on the next page is the corresponding project timeline in grid form:

RFP #AS051B-1509 - Systematic Review and Analysis of Assessments

STANDARD VALUATION SERVICES

.

• •

17

.

÷

SVS in conjunction with the staff of the Department of Assessment will adhere to the IAAO guidelines on appraisal review as outlined below;

The IAAO's Property Appraisal and Assessment Administration textbook discusses the appraisal review process in a chapter concerning "quality assurance".

- The appraisal review process evaluates data quality, the appropriateness of valuation models, the calibration of those models, and the application of the models. Appraisal review includes pre-reviews, field testing valuation models, office reviews, and final field reviews.
- Pre-review combines elements of data collection, data review and valuation model review. During Pre-review, appraisers establish which factors require judgments, for example quality grade, condition rating and land influence. Valuation techniques depend on the accuracy and consistency of subjective data items; these are often beyond the ability of ardinary data collectors to recognize and rate on exceptional property.
- Before new models are applied, they should be tested in the field on a representative cross section of sold and unsold properties. Valuation documents listing property characteristics and values should be produced for use in field review. Appraisers should start by reviewing data and values on properties that have sold recently.
  - Appraisers should then view properties that have not sold recently, first reviewing data and then testing value estimates produced by the model against their own judgments of value – judgments based on sale prices of sold properties.
  - The field test also alerts appraisers of the extent to which data and values will need to be field reviewed for the entire area.
  - Whether to conduct a field review or an office review of the values generated is a critical decision. The field review may be avoided if the appraisers have previously reviewed property characteristics data. In some projects, appraisers review the subjective factors, such as condition, desirability, construction quality, and usefulness of the property, before valuation. If this is not done, field review of the values is important.
  - Field review. Once the appraiser has completed a review of properties that have sold, a property-to-property review can verify data accuracy, especially of subjective data critical to determination of value. The appraiser should look for exceptional conditions that data collectors may have missed.
- In ideal situations, appraisers should be able to conduct drive-by reviews, leaving the vehicle only rarely to check apparent listing errors.
- Jurisdictions with recent pictures of the properties may be able to conduct a particularly effective office review.

The above text regarding "quality assurance" will be followed as closely as possible but dictated by the Department of Assessment and the overall scope of the assignment.

STANDARD VALUATION SERVICES

SVS understands the importance of maintaining current market value assessments for Nassau County and recognizes the many benefits of performing a systematic review and analysis of all parcels:

- <u>Assessment Equity for Taxpavers</u> All property owners will pay their fair share of the tax burden. Unfair or incorrect assessments will be corrected.
- <u>Improved Bond Ratings</u> By making an effort to keep assessments current, the County may
  receive an Improved bond rating which can potentially save the county a significant
  amount of money.
- Fewer Successful Court Challenges to Assessments When market values are current and accurate, property owners are less likely to have successful tax certiorari cases.
- <u>Transparency</u> 100% market value for Assessments. The process will be easier to explain to taxpayers; therefore, they will have a better understanding of the process.

#### Additional Benefit:

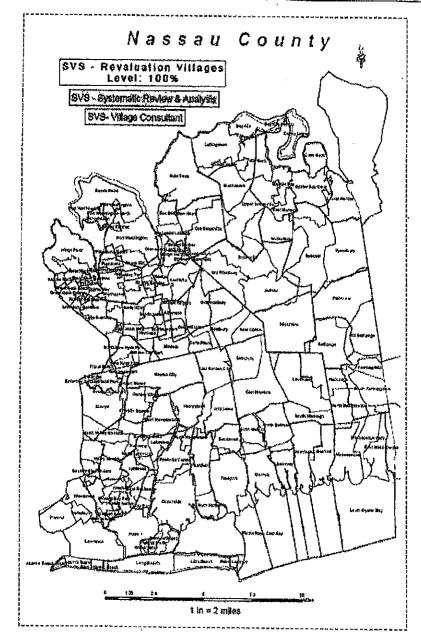

Our firm has completed a revaluation or systematic review and analysis of all parcels in nine (9) villages within Nassau County. All of these municipalities are committed to maintaining their assessments at 100% of market value and have performed annual updates of their respective rolls to ensure that assessments are current and equitable, and assessments maintained at 100% of market values. Each revaluation and/or update has been overseen by ORPTS who has further tested the results and confirmed and approved a level of assessment of 100%.

We believe that it would be beneficial to the County if the Department of Assessment adopted the values from these nine (9) municipalities, thereby having a single assessment for these parcels. This would certainly eliminate confusion among property owners as to multiple assessments while enabling the use of the most current market values.

in addition, there are six (6) other Villages in Nassau County for which SVS performs assessment consulting services, maintaining their assessment rolls, and defending the rolls from Small Claims fillings. As demonstrated by our past and ongoing work with these 15 villages, our knowledge and expertise regarding assessments and market values throughout Nassau County is unmatched.

Please see map on next page highlighting the Villages that we are referring to.

STANDARD VALUATION SERVICES

RFP #AS0518-1509 -- Systematic Review and Analysis of Assessments

STANDARD VALUATION SERVICES

The following 9 pages represent our answers to questions posed by the Assessment Department regarding RFP #ASO320-1312. Our answers would still be the same as when we answered them back in 2013. We have added them into this document for your review.

# Systematic Review and Analysis of Assessments

**Prepared For** 

Mr. James E. Davis

**Acting Nassau County Assessor** 

**Nassau County Department of Assessment** 

240 Old Country Road - Fourth Floor

Mineola, NY 11501

STANDARD VALUATION SERVICES

Systematic Review and Analysis of Assessments Questions and Discussion Points for RFP Preparers:

- 1.) Will the preparer(s) be able to provide individual reports for specific property types (to include but not limited to marinas, golf courses, self-storage, assisted living, nursing homes where needed?
  - While it is possible to provide individual reports for specific property types, there are numerous
    reasons why this approach would not be efficient or cost effective,
  - The preparation of such reports is beyond the scope of the original RFP response.
  - This task would be labor intensive and the additional time and expense would be substantial.
  - There is little benefit of obtaining individual reports for specific property types. It is more
    efficient and cost effective to model these properties using IAS so that the valuation
    parameters can be modified as necessary to accommodate market changes during future
    updates.
  - The preparation of individualized reports for specific property types represents a deviation from the mass appraisal model and would require substantial time and labor costs for future updates.
  - The most efficient outcome is to continue to have the IAS system capable of developing value estimates for all property types, this will increase efficiencies and with proper modeling maintain equitable assessments.
  - Example: Our firm helped develop the self-storage model for Nassau County. The assessment
    numbers should be run within that model. Our firm also completed the valuation of all of the
    golf courses, which should be in your system on a per hole value and contributory cost values
    for improvements.

#### 2.) Will the preparer(s) be able to complete a revalue Systematic Review and Analysis of all tax exempt property?

- 10,650± tax exempt properties. There are 181 Wholly exempt properties with values in excess
  of \$50 million. These include the state colleges and universities, Jones Beach, medical centers,
  school districts, etc..
- The valuation of all tax exempt properties was not contemplated in the original RFP response and the benefit of completing such a task does not warrant the substantial time or cost, nor is it necessary as part of a systematic review and analysis of assessments.
- As a further discussion point, we would need to see a list of these properties broken out by
  property type within the tax exempt category. For example, office buildings should still be
  valued within the office building model if that is what the County decides to do.

STANDARD VALUATION SERVICES

- Typically, tax exempt properties are valued at much higher levels to help with calculating State Aid to the County, especially under the category of Highway and Transportation funding. This topic should be a discussion point with the County
- 3.) Do they have the ability (manpower) to visit <u>all</u> properties with a specific type to verify inventory, i.e. marinas?
  - The visitation of all properties within specific property types to verify inventory is outside the scope of a systematic review and was not contemplated in the RFP response.
  - Verification of property inventory for properties that appear to be incorrectly populated would be addressed and site visits, if necessary, would be conducted.
  - For example, with respect to marinas, we would need permission from the property owner to
    access the site to survey the number of slips on the site.
  - In a systematic review, the majority of the data on the properties or inventory is expected to be accurate for the scope of this assignment. Errors will be found and they will be corrected.
- 4.) The preparers(s) must be able to provide the DOA with a ratio study for all four (4) property classes, which will be subject to review from the DOA and ORPTS.
  - SVS is prepared to work with the Department of Assessment In completing a ratio study for all Class I, Class II and Class IV properties. A ratio study was not contemplated in the RFP response for Class III properties.
  - It is very important to understand that the ratio studies should be completed within Nassau County's IAS software system. Our modelers will cross check these results with our own analysis to obtain a high confidence level that the numbers are accurate.
- 5.) Can your company review the top 100 taxable commercial properties need to be specifically addressed and individual reports prepared for each? Residential properties having a fair market value in excess of \$5,000,000 (review that value first) will be individually inspected from the Right of Way and incorporated with Pictometry.
  - 199 properties with values in excess of \$50,000,00 (other 18 include National Grid, Belmont, LIPA, Mails, etc.)
  - There are 445± homes that exceed 4 million properties.
  - A separate review of the top 100 (by value) commercial properties would be undertaken in order to verify consistent and equitable valuations.
  - Separate reports were not contemplated for the top 100 commercial properties in the RFP response.

- This task can cartainly be undertaken, however, it would be labor intensive and the additional time and expense would be substantial.
- There is little benefit of obtaining individual reports for the top 100 commercial properties. It is more efficient and cost effective to model these properties using IAS so that the valuation parameters can be modified as necessary to accommodate market changes during future updates. For example, Roosevelt Field Mall, which we are very knowledgeable with, should be valued within the mall model and should be consistent with methodology applied with the Broadway Mall, Green Acres Mall and The Sunrise Mall.
- The preparation of individualized reports represents a deviation from the mass appraisal model and would require substantial time and labor costs for future updates.
- The most efficient outcome is to continue to have the IAS system capable of developing value estimates for all properties; this will increase efficiencies and with proper modeling maintain equitable assessments.
- To the same end, individually valuing over 445± high end homes, is also problematic. Most all
  of these homes will end up within our outlier category and be individually reviewed by an
  appraiser and the value modified within your IAS assessment system.
- 6.) Can your company provide land values for both residential and commercial property as a part of this re-val-Systematic Review and Analysis? This will also require a review with DOA staff relative to comparing the locational influences currently found on specific properties
  - Land values will be verified on all properties. The current system is flawed on the way it is
    producing land values. This is one of the areas our modelers will have to look at to allocate a
    more accurate land value to the properties. This is all part of doing a systematic review of the
    assessment roll.
  - Locational influences, both positive and negative, will be considered within the systematic review and analysis of the assessments. If they were missed, they will be added into the system, if they were done incorrectly they will be corrected in the system.
- 7.) Should the DOA decide to put out a data mailer, will the preparer(s) be prepared to assist DOA personnel to take in all inventory so that changes can be made by DOA staff?
  - Our firm is certainly capable of assisting the DOA personne) in capturing all inventory changes if
    a data mailer is sent out. This task is beyond the original scope of work contemplated in the
    RFP response and, as such, there would be an additional time and expense associated with this
    procedure.
  - When completing a systematic review and analysis of assessments, a global data mailer is
    usually not part of the process. Typically, you are relying on your base data and making
    changes on assessment and data errors that make themselves evident during the process of the
    systematic review.

- 8.) The preparer(s) will be responsible for providing a value for each cooperative\condominiums? apartment building and, in addition, will provide a spreadsheet indicating a proportional breakdown of unit values.
  - All cooperative apartment buildings will be modeled using IAS. The models will be tested for consistency and the resulting value estimates will be reviewed for accuracy.
  - Within Nassau County's IAS assessment system is a separate model for cooperative apartment buildings which values them as rental apartment buildings. The cooperative property is on a single lot and taxes are paid by the individual owners through their maintenance payment. Our firm is very experienced with this process and will be able to review the way in which the Nassau County model is functioning or not functioning.
- 9.) In addition to providing the income based valuation for Class 2 condominiums, the preparer(s) must also provide the sale based values for all Class 1 condominiums.
  - As part of the systematic review and analysis of assessments, all Class II residential condominiums will be valued utilizing income based models within IAS and all Class I residential condominiums will be valued utilizing sales based models.
  - The in-place system should already recognize Class 1 and Class 1 condominiums. Our firm will
    verify this and make sure that these condominiums are being categorized properly.
  - Buildings containing less than four (4) stories are categorized as Class I condos. Buildings containing four (4) stories and above are categorized as Class II condos.

25

è

Í

**Discussion Points:** 

- 1.) The preparer(s) must indicate to the Committee if they capable of providing the DOA with the value of all commercial property (to include both Class 2 and Class 4). How are they going to value properties where income/expense information is either limited or non-existent and, how will they handle ETPA buildings were income/expense data is also limited? They should be able to indicate how they are going to value each specific property type, especially where the methodology has been specified by the courts (golf courses, etal) and to provide reports for specific properties for the DOA to review when requested.
  - Our firm is very capable, with the size of our staff, to provide the DOA with a systematic review and analysis of all commercial properties within Class 2 and Class 4 of the assessment roll. Our firm has experts in all of the different types of commercial properties within Nassau County.
  - Utilizing income modeling within IAS, value estimates will be provided for all Class II and Class IV properties.
  - Assessments are based upon fee simple value.
  - Income models for all property types will be based upon income and expense data obtained from our internal database, published indices and when necessary from fellow appraisal firms.
  - All property types will be valued utilizing IAS and court mandated methodology will be applied.
  - Separate reports were not contemplated for specific commercial property types in the RFP response.
    - This task would be labor intensive and the additional time and expense would be substantial.
    - There is little benefit of obtaining individual reports for specific commercial property types. It is more efficient and cost effective to model these properties using IAS so that the valuation parameters can be modified as necessary to accommodate market changes during future updates.
    - The preparation of individualized reports represents a deviation from the mass appraisal model and would require substantial time and labor cests for future updates.
    - The most efficient outcome is to continue to have the IAS system capable of developing value estimates for all properties, this will increase efficiencies and with proper modeling maintain equitable assessments.

STANDARD VALUATION SERVICES

- Finally, in a systematic review and analysis of the Nassau County Assessment Roll, our firm is keenly aware of the results and the methodology accepted by the Nassau County Courts. However, all assessing must be completed within your IAS assessing system and should not be based on individual property appraisals. The system should be able to provide consistent assessment levels by property type. Our firm will ensure that each model is calibrated property for each property type.
- Another discussion point should pertain to Class III properties. It is assumed that we will be relying on the values from New York State.
- 2) Can your company provide a review of the residential values which will be done in-house but will be subject to review?
  - This is expected in a systematic review and analysis of the County's residential values. During the course of the systematic review, residential values will be generated utilizing appropriate modeling in IAS.
  - Various edit reports will be generated in order to test the reasonableness of the models and values.
  - During the course of the systematic review, other items must also be considered, such as changing the neighborhood parameters and possibly accepting assessment rolls from incorporated villages that have completed annual revaluations of their properties. Adopting such procedures, should make the Nassau County Assessment Roll much more defensible.
- 3) Will the preparer(s) be available to meet with DOA staff with regards to meeting ORPTS criteria during the systematic review and analysis process on a timely basis?
  - During the course of the systematic review and analysis of assessments, we will work closely with the DOA and ORPTS to meet any mutually agreed upon deadlines.
  - Our firm has a very good relationship with ORPTS and is fully versed in their requirements for a Systematic Review and Analysis of Assessments. It should be discussed with Nassau County, on the way in which it handles the ORPTS requirements.
- 4) The preparer(s) must be available for public meetings, when required. A series of meetings is being scheduled which will include the DOA to provide being available at all 56 school districts. The actual scope of involvement relative to the contractor will be determined at a later date.
  - One of our firm's primary expertise is dealing with the public in public forums. Our firm will be available to work with Nassau County whenever a public issue arises. However, our RFP response for the Systematic Review and Analysis of Assessments did not contemplate attendance or participation in as many public meetings. Inclusion of this task will result in additional time and expense.

ł

- The scheduling of over 56 meetings and including countiess other meetings is labor intensive and will have to be reconsidered in the pricing.
- At this point, it is unclear to our firm, the way in which the contract would be able to be modified for items "to be determined at a later date". A discussion should follow with the committee. This would seem to be a very difficult and cumbersome billing item.
- 5) The preparer(s) will be responsible for the training of DOA staff in such a manner that at the end of the project, the staff will be knowledgeable in the operation of those phases of mass appraisal to be able to assume the maintenance of values. This will include all property types.
  - This discussion point is very difficult to address. Our firm does not know the level of competency that the DOA employees have working with the IAS assessment system over the past 10 years. Training DOA employees to properly use the system for mass appraisal was not contemplated in our RFP response for the Systematic Review and Analysis. If this must be included in the scope of work, additional time and expense would be required to complete this task.
- 6) The preparer(s) will be required to provide sufficient personnel to entertain an informal review process that would be performed via telephone or a web-based system. This informal review system needs to be available to the public during both day and evening hours. The viability of having face to face meetings must also be discussed at this time. (Moving the location of these meetings throughout the County needs to be discussed).
  - The informal review process is an item that should be thoroughly discussed with the committee. Typically, there is no informal review process when doing a systematic review and analysis of assessments. The assessments are changed and the residents and property owners have the same methods of grieving their taxes as they always do, if they believe they are incorrect.
  - In 2003/2004, It is our recollection that Nassau County had over 38,000 residents inquire regarding their taxes at informal reviews after the last revaluation. One can only imagine that if you didn't have to come down in person and this was done over a telephone or web-based program. There would be well over 100,000 cases to handle. This will add a significant cost to doing this project.
  - To reiterate, a systematic review and analysis of assessments does not necessitate the implementation of an informal review process and is not contemplated as part of the RFP Response.
    - If such a review process is deemed necessary, personnel will be provided at a substantial time and cost.

#### Summary

Standard Valuation Services is uniquely qualified to complete the complex and extremely Important tasks associated with this project. These qualifications are manifest in our firm's advanced capabilities in mass valuation modeling, comprehension of the County's IAS, intimate knowledge of the Nassau's complex and highly diverse residential and commercial market, knowledge of NYS Real Property Tax Law and our demonstrated ability to work closely and effectively with all stakeholders – residents, business/property owners, ORPTS, local government officials and assessment staff, legal professionals, NYS lawmakers, and a team of real estate experts.

The successful and timely completion of the project will be the overriding mission of the firm and ensured by the dedication of our staff of professionals that includes the skilled residential and commercial real estate experts that collectively know each and every neighborhood – and a vast majority of properties, complemented by valuation modeling experts that are capable of competently engaging with government, property owners, property owner representatives, the courts, etc.

# Appendix A Cost Proposal

Note: Additional public meetings, if required by Nassau County would be payable in arears at \$125 per hour for contractor staff, providing, however, in no event shall the total amount exceed \$325,000.\*

\*This statement is taken directly from the prior contract negotiated April 9, 2015 with The Nassau County Attorney's Office.

Note: As noted on page 8 of this document, the total parcel count and the allocation for the Classes does not match up exactly with the 2014 final roll. In quoting a cost for this entire project, this did not appear to be a major issue and our firm used the number provided by Nassau County.

STANDARD VALUATION SERVICES

Based on the current RFP issued on May 18, 2015, Nassau County has requested [page 6, paragraph G] that the bidder "provide the County with a bid that is based on the combined Tax Classes broken down by each Tax Class or may choose an individual Tax Class according to the bidder's level of expertise."

We have elected the option of a bid that is based upon the combined tax classes, and have broken down or allocated that bid in order to be fully responsive to the amended RFP. Our firm is bidding for the entire project at \$4,347,839.00. The allocation for Classes based on this overall bid would be as follows:

Total Cost of Systematic Review and Analysis of Assessments \$4,347,839		
		<b>新教室会通</b>
Class 1	1- to 3-family Residential Properties	\$1,950,000
Class 2	Residential Property, greater than 9 units, including Condominiums and Cooperatives	\$ 400,000
Class 3	Utility Company Equipment and Special Franchise Property	\$ 500,000
Class 4	All Other Real Property (e.g., setail, office, hotels, industrial)	\$1,497,839

Note: The above grid represents a price allocation for the four (4) Classes. It should be noted, that estimating costs in the individual Classes is extremely difficult to allocate prior to doing the project triage and analysis of what each Class needs with regards to employee resources. Furthermore, as the project progresses company resources might have to shift between Classes to handle problems that arise in each respective Class. Classes 2 and 3 are the easiest Classes to allocate resources for since the employee demand is moderate and the size of the projects by the number of parcels in each Class is relatively small. Classes 1 and 4 are very difficult to separate or allocate as they represent large parcel counts and are high in employee demand with vast employee resources required to complete either task. Large shifts of resources could be shifted to either Class on an as needed basis to complete this project successfully.

An understanding and appreciation of the base proportions for each class of property and the adjusted base proportions is crucial to ensure that shifting of values between the classes, if any, is accurately accounted for and applied in accordance with State Law. Monitoring the equity between each class is critical in maintaining the current balance within these classes, it is imperative that the selected company understands the complexity and relationship between the classes and is able to undertake the complex calculations of the pre- and post-systematic review analysis.

The proposed Nassau County Systematic Review and Analysis of Assessments is projected to be a 32 month project that will be extensive in many ways regarding personnel resources provided by individuals with the appropriate experience and knowledge base to handle the complex issues of the Assessment roll and its Class system. We believe that based on the magnitude and size of the Nassau County Role and its complexity, the resources needed to complete this task are accurately represented by the cost of this project. It is important to understand that many of the employees working on this project have over 25 years of real estate and assessment experience, for without them the Systematic Review project would not be able to be done correctly for the residents and property owners of Nassau County.

STANDARD VALUATION SERVICES

### APPENDIX B

### COMPANY BACKGROUND AND BIDS

Standard Valuation Services is a long established, Nassau County based, regional real estate appraisal and consulting firm, with extensive depth and breadth of commercial and residential property valuation, mass appraisal and valuation modeling, consulting, and expert witness experience.

Our highly diverse valuation practice, including our client base and professional staff, provides us with specialized and contemporaneous market data and expertise necessary to support and complement our valuation consultants.

We have demonstrated experience in appraisal and valuation consulting of all types of commercial and residential real estate throughout the Long Island and New York metropolitan region, including all forms of housing, multi-family buildings, shopping centers, office buildings, vacant land, and development projects.

Extensive use of photographs, geographic information systems (GIS), aerial photography and exhibits allows for comprehensive reporting. We subscribe to many real-time data services and proprietary databases, including the Long Island Multiple Listing Service, Real Estate Board of New York, CoStar, and Comps Inc.

### QUALIFICATIONS

Standard Valuation Services has been providing valuation, consulting, and expert witness services in the New York Metropolitan region for over twenty-six (26) years. In this period we have become the largest and most diversified appraisal company on Long Island.

Our three (3) principals have all achieved the highest designations in the real estate appraisal field, the MAI designation with the Appraisal Institute. In addition to the three principals, our firm also employs two (2) additional MAI and four (4) SRA designated appraisers.

### Three Principals:

Matthew L. Smith, MAI, SRA, MRICS - President General New York State Real Estate Appraiser - Certification #46000002556

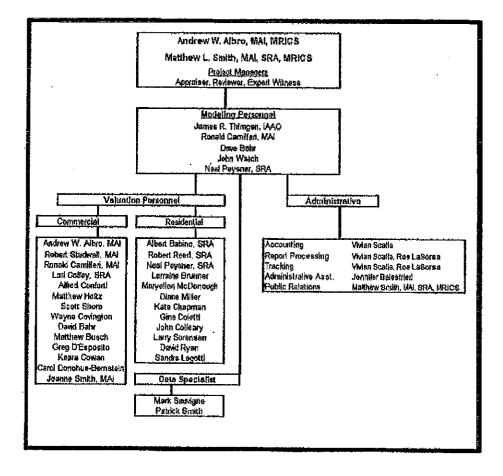

Andrew W. Albro, MAI, MRICS - Executive Vice President General New York State Real Estate Appraiser - Certification #46000002861

Joanne E. Smith, MAI - Secretary/Treasurer General New York State Real Estate Appraiser - Certification #46000006249

Each of the three principals has extensive experience in both residential and commercial appraising, including over thirty (30) years of appraising throughout the region.

# Certified General Real Estate Appraiser STATE OF NEW YORK ID #46000002986

Mr. Watch as over twenty eight years of appraisal experience, he has appraised properties that ranged in value from \$1 million to \$2 billion dollars. Mr. Watch services several assessment jurisdictions in New York State, as well as private investors and law firms. Current client contracts relate to annual reassessment activity and the support of customized software called ARS (Assessment Review System). Additional consulting services provide investors and financial intuitions reliable Mass Appraisal Systems that can reasonably and accurately produce values on large groups of properties in various areas of the United States.

Recent projects include a 60,000 reassessment of eight towns in Dutchess County, and during the past five years close to 120,000 properties were reassessed with the use of ARS Software. The overall project performance exceeded less than 8% Grievances and less than 1% Small Claims and Commercial Certiorari Filings. Mr. Watch is very familiar with New York State Real Property Tax Law and Assessment Administration.

Until August of 1996, Mr. Watch was the Chief Appraiser for East New York Savings Bank (aka M & T Bank). As Chief Appraiser, he managed a loan portfolio which held over \$2 Billion in real estate loans throughout the New York City Metropolitan Area. Over 70% of the portfolio comprised of multi-family properties, with over 65% of the portfolio located in Manhattan. During his tenure at the bank, Mr. Watch developed several computer models used to expedite the appraisal process for completing full narrative reports. In addition, he completed several studies on the Manhattan Class B office market, Co-Operative Buildings, Parking Garage Facilities and retail strips along Broadway, Madison Avenue, 57th Street, and other major thoroughfares in the City.

Appraising since 1984, he has completed assignments on income producing properties and residential properties; including but not limited to office buildings, industrial buildings, regional shopping centers, strip shopping centers, service stations, vacant land, condominiums, apartment buildings, co-operative conversions, market rental analysis for office buildings and retail space, feasibility studies, highest and best use analysis, condemnation work and residential appraisals. These appraisals have been used for mortgage financing, investment analysis, condemnation hearings, divorce, and estate purposes. Several reports have been used in court testimony for the United States Federal Government, Department of Transportation for New York State, Suffolk County Department of Transportation, Queens County Surrogate Court and various attorney's for probate and divorce.

# Education

Bachelor of Science, Business Administration 1982

New York State University at Fredonia- Majored in Marketing and Marketing Research.

# <u>State License</u>

New York State Certified General Real Estate Appraiser

Effective November 18, 1991 46-2984 License Number 0422

# <u>Appointments</u>

Mr. Watch was appointed to the position as Member of New York State Appraisal Advisory Board in 1995. In addition to this position, he was appointed Chairperson of the National Committee for Appraisal Reform (Appraisal Advisors Regulatory Officials) in 1996. Both of these appointments exposed Mr. Watch to appraisal issues on a National and State level. Efforts were made during these appointments to facilitate better communications and dialogue between State Appraisal Agencies and the individual appraiser. In 2007, Mr. Watch met with members for the Committee on open Government to discuss methods for streaming the real property tax system through the use of more efficient software systems.

Appraising and Analyzing Office Buildings for Mortgage Underwriting	November 2011

Additional work related educational courses include blueprint reading, architectural design, and residential design. With a background in construction, Mr. Watch is able to work closely with contractors and architects in determining the cost of developing a new site and realistic time frames for completion. In addition, he is able to assess the condition of a property and determine what levels of repairs, if any are required.

in the May of 2000, Mr. Watch was asked to be a participant in a New York State Program that addresses issues of reassessment and property tax equity. In addition, Mr. Watch was retained by the Office of Real Property for the State of New York to build and maintain databases on the power generation industry in New York. In 2007, Mr. Watch began meeting with the Office of Real Property Services to deploy ARS on a statewide basis and provide access for all Assessors to a statewide data warehouse system.

James R. Thimgan President

# Thimgan Inc.

Members of Thimgan Inc, have been involved in ad valorem taxation for a combined 70+ years. Our services have been used for valuation and compliance analysis, model building, appraisal practice reviews and training. Our company has an extensive knowledge of Mass Appraisal techniques and is known nationwide for our training classes and course development. We have written several text books used by the industry for determining best practices. In addition, our consulting services, around the nation, provide a unique knowledge of various methods, techniques and software systems used by many jurisdictions.

# Principal Owners:

**Garth Thingan** has been heavily involved in the property assessment world for 45 years. He has developed various manuals and courses for various states, local government and the international Association of Assessing Officers (IAAO). Garth has a CAE designation from IAAO, is a senior IAAO Instructor, and has taught thousands of students throughout the United States and Canada, During his career, Garth has managed many projects with a variety of personnel, and is excellent at project management, which gives him a unique perspective on the best practices that should be utilized in an Assessor's Office.

James R. Thimgan (Russ) has extended experience in the assessment field and has been involved in Ad Valorem Taxation since 1988. With an Economics degree, Russ has become an expert in mass appraisal. He has worked with over 30 different jurisdictions and lending institutions ranging in size from 200 parcels to 1.6 million parcels. He has been instrumental in reorganizing jurisdictions to utilize industry best practices in mass appraisal. Russ continues to strive to improve valuation modeling techniques and typically is involved in valuing approximately 3.25 million properties across North America each year.

i

# B. Detail prior experience in the area of mass assessment modeling.

Standard Valuation Services has worked in the mass valuation and assessment arena for over twenty (20) years, with vast experience in Nassau County and the Assessment System. Our firm has worked with every aspect of the Assessment System, from the creating of Assessments to the defending of Assessments, SCAR proceedings, ARC and defense of assessments in the Courts.

## ASSESSMENT PROCESS

- From 1993 to present, our firm has worked on defending SCAR proceedings and Article 78 cases for both Nassau County and multiple Villages. Our record on defending these cases is strong as we have been able to obtain favorable results, saving the municipalities we work for a vast amount of tax refunds.
- Our firm has provided extensive litigation support and expert testimony regarding Assessment disputes, most notable being The Roosaveit Field Mail Tax Certiorari case. Our firm was hired by the County Attorney's office for the Roosevelt Field Mail Tax Certiorari case based on our vast knowledge and experience in litigation support, which was successfully defended (no reduction). A loss on this case would have cost the County millions of dollars, as arguably Roosevelt Field is a billion dollar asset.
- Our firm has completed many large scale projects for Nassau County, saving the County millions of dollars, most notable is the 2012 litigation support project, regarding the Halpern Vs. Nassau County case, which involved 2 open tax rolls, 2010/2011 & 2011/12. This case was brought forward by residents of Nassau County claiming that the SCAR practices by Nassau County were not completed in a fair and equitable manner. Our firm in a 3 month period, based on our vast modeling resources, was able to settle in conjunction with the County Attorney's office, approximately 60,000 cases, prior to a refund position, saving the County millions of tax dollars. The results of our negotiations with over 100 tax representatives and residential petitioner's Attorneys, successfully concluded the Halpern litigation, further leading to the development of a Taxpayers' Bill of Rights for the Nassau County residents and a procedure and policy for establishing a residential Assessment Ratio for each year going forward.

Summary of Revaluation and Systematic Review & Analysis Projects

\*Local component of Nassau County revaluations

\*\* Villages that have completed a revaluation and kept it current with annual updates,

\*\*\* Systematic Review & Analysis Project.

As evidenced in the grid above, our firm has vast mass appraisal experience within the Nassau County bounds. In the last 10 years we have worked on 12 mass appraisal and Assessment related projects within Nassau County. The first of these projects was the City of Glen Cove, followed by the Nassau County Revaluation where our firm was brought in as the major local component for our vast and intimate knowledge of the Real Estate within Nassau County's boundaries. Since then we have completed Revaluations of 9 Villagos that have all kept their revaluations current, with annual updates. And lastly, this last year we have completed a Systematic Review and Analysis of the Assessment Roll of Roslyn Estates. All of these projects required our modeling staff, appraisal staff and management staff to perform at a high level. All of the projects completed have received rave reviews and we have provided references for your review in Appendix C, subsection d to confirm this.

Summary of Villages where Assessment & Consultation Services were provided
--

Municipality	Date Completed
Lynbrook	Currently on going
Rosiyn	Currently on going
Floral Park	Currently on going
East Rockaway	Currently on going
Island Park	Currently on going
New Hyde Park	Currently on going

For the above 6 Villages our firm performs Assessment Consulting Services, defends the roll for Small Claims fillings and maintains their Assessment Rolls. We also review building permits, applications for exemptions and make sure their exemptions are all processed properly. We have also helped some of the village with their issues regarding Super Storm Sandy and the damages that occurred within those Villages. Our unmatched expertise regarding assessment and market knowledge throughout these Villages is extensive.

STANDARD VALUATION SERVICES

In 2013, our firm was contacted by the New York State Department of Transportation, upon request from the Governor's Office, to complete a valuation of over 2,000 parcels that were damaged by Super Storm Sandy from Staten Island through to Flanders on Long Island. This project encompassed over 2,000± homes throughout the Metropolitan area, of which over 1,100 were on located on Long Island and notably, three entire neighborhoods had to be successfully modeled and consistently valued within the Staten Island area, Oakwood Beach (458 parcels), Ocean Breeze (159 parcels) and Graham Beach (286 parcels). This was a very complex assignment that required significant public relations, as one could imagine, and to date our firm has received accolades from the Governor's office down to Jon Kalman, the appointed Storm Recovery Cxar, who serves as Special Advisor of the Long Island Storm Recovery for the New York Rising Program.

Most recently our company was retained by Suffolk County to complete trial-ready appraisal assignments on storm damaged oceanfront properties on Fire Island, associated with the dune restoration project administered by the US Army Corps of Engineers. We are currently the exclusive expert working in the Davis Park community. This project is a highly sensitive appraisal assignment that consists of full and partial fee takings as well as the acquisition of permanent easements. This assignment is scheduled to be completed early summer of this year.

# C. Detail prior experience with public sector clients (similar size and scope).

Our firm has vast experience dealing with public sector clients. Below is a partial list of some of the projects we have handled with public exposure.

- Multiple Department of Transportation takings involving hundreds of parcels, throughout Long Island.
- Our firm has been in front of many Zoning Public hearings throughout Nassau County and we are recognized as real estate experts.
- The process of completing Revaluation Projects throughout Nassau County required professional public relations interactions with the residents and property owners. These public relations meetings and opportunities were crucial to the success of these Revaluation projects.
- During the Revaluation of Nassau County in 2003, our firm was utilized on a public basis to inform the Nassau County legislature on status, updates and progress of the project.
- Over the last 20 years, our firm has defended Small Claims Assessment Review SCAR cases for Nassau County, on numerous occasions we were brought forward to the Nassau County Legislature to publicly explain this process and how it was handled regarding the residents of Nassau County.

STANDARD VALUATION SERVICES

- Mr. Smith of our firm, has also served on a New York State Board of Real Estate Appraisers where there are public web casts 3 to 4 times a year, broadcasting regulatory information for the appraisers and public to observe during the year.
- Over the past 25 years, Standard Valuation Services has been in the public arena based on the large scale projects they have performed, and at all times handling themselves in a professional and responsible manner. Public relations is one of the unique strengths of our firm.

D. Detailed cover letter on the firm's letterhead indicating EIN number and the name of the parties authorized to discuss and/or enter into negotiations with Nassau County with respect this proposal.

Letter can be found on the following page.

#### APPENDIX E

### STANDARD CLAUSES FOR NASSAU COUNTY CONTRACTS

1. Independent Contractor. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "Contractor Agent"), be (I) deemed a County employee, (II) commit the County to any obligation, or (III) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "Person" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

2. No Arrears or Default. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

3. Compliance with Law. (a) Generally. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of Interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local taws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

- Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;
- (ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, such breach being determined solely by the County, Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable (aw.
- (iii) On a yearly basis, Contractor shall provide the County with any material changes to its Certificate of Compliance, attached to this Agreement as Appendix L.

(c) Records Access. The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement shall be used and disclosed solaly for the purpose of performance and administration of the contract or as required by law. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

STANDARD VALUATION SERVICES

#### <u>APPENDIX E</u>

4. Minimum Service Standards. Regardless of whether required by Law:

(a) The Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the Immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

5. Indemnification; Defense; Cooperation,

(a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, reasonable attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether taken pursuant to or authorized by this Agreement and regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and difigently defend, at the Contractor's own risk and expense, any and all sults, actions, or proceedings which may be brought or instituted against one or more indemnified Parties for which the Contractor is responsible under this Section and the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith,

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

#### APPENDIX E

## 6. <u>Insurance</u>

(a) Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than two million dollars (\$2,000,000) per occurrence, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit liability of not less than two million dollars (\$2,000,000) per occurrence, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit liability of not less than one million dollars (\$1,000,000) per claim, (iii) compensation insurance for the benefit of the Contractor's emptyees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance, including, without limitation, builder's all risk, if applicable, automobile liability insurance and umbrella liability insurance, as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance cartiers licensed or authorized to do business in New York State and acceptable to the County; and (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the County Attorney's Office. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the County Attorney's Office of the same and deliver to the County Attorney's Office renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take any action, or omit to take any action that would suspend or invalidate any of the required coverages, the failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement eminated as of the date of such failure.

# THE STATE INSURANCE FUND

NOTIFICATION ENDORSEMENT OF PENDING LAW CHANGE TO TERRORISM RISK INSURANCE PROGRAM REAUTHORIZATION ACT OF 2007

This endorsement is being sent to you with respect to your workers compensation and employers hability insurance policy. This endorsement does not replace the separate Terrorism Risk insurance Program Resultionization Act Disclosure Endorsement that is attached to your current policy and which remains in effect as applicable.

The Terrorism Risk Insurance Act 2002 (TRIA) as previously amended and extended by the Terrorism Risk Insurance Program Resultorization Act of 2007(TRIPRA) provides for a program under which the federal government will share in the payment of insured losses caused by certain acts of terrorism. In the absence of affirmative US Congressional action to extend update, or otherwise resultonize TRIPRA, in whole or in part TRIPRA is scheduled to expire December 31, 2014.

Since the timetable for any further Congressional action respecting TRIPRA is unknown at this time, and exposure to acts of terrorism femains we are providing our policyholders with relevant information concerning their workers compensation policies in effect on or after January 1,2014 in the event of TRIPRA's expiration.

Your policy provides coverage for workers compensation losses caused by acts of terrorism or war, including workers compensation benefit obligations diclated by state law, except in Pennsylvania where injuries or deaths resulting from certain war-related activities are excluded from workers compensation coverage. Coverage for such losses is still subject to all terms, cellinitions, exclusions, and conditions in your policy.

The premium charge for the coverage your policy provides for terrorism or war losses is shown in item 4 of the information Page or the Schedule in the Terrorism Risk insurance Program Reauthorization Act Disclosure Endorsement that is attached to your policy, and this amount may continue or change for new, renewal, and in-force policies in effect on or after December 31, 2014 in the event of TRIPRA's expiration, subject to regulatory review in accordance with applicable state law.

You need not do anything further at this time.

STANDARD VALUATION SERVICES

#### 7. Assignment; Amendment; Waiver; Subcontracting.

(a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported essignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

#### 8. Work Performance Liability.

The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

STANDARD VALUATION SERVICES

#### APPENDIX E

9. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sidy (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection. (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

(c) Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

**10.** Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the County Comptroller, the County Attorney's Office, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duty designated representatives. The provisions of this Section shall survive the termination of this Agreement.

11. Limitations on Actions and Special Proceedings Against the County. No action or special proceeding shall lie or be proceeding or maintained against the County upon any claims arising out of or in connection with this Agreement unless;

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii)

STANDARD VALUATION SERVICES

the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

12. Consent to Jurisdiction and Venue; Governing Law, Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

13. All Legal Provisions Deemed included; Severability; Supremacy; Construction.

(a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, lifegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) In the event of a conflict between the terms and conditions of the contract, including any and all attachments thereto and amendments thereof, and the terms of this Appendix A, the terms of this Appendix A shall control.

(d) Each party has cooperated in the negotiation and preparation of this Agreement, so if any construction is made of the Agreement it shall not be constructed against either party as grafter.

**14. Administrative Service Charge.** The Contractor agrees to pay the County an administrative service charge of <u>Five Hundred and thirty three</u> dollars (\$ <u>633</u>) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 201-2001. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

Value of contract:	Administrative fee:
\$0 - \$5,000	\$0
\$5,001 - \$50,000	\$160
\$50,001 - \$ 100,000	\$266
\$100,001 or more	\$533

#### <u>EXHIBIT U</u>

#### Appendix EE

Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional antidiscrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women In Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employeee or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, tabor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not disoriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

- (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.
- (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.
- (e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified MWBEs and the requirement that Subcontractors must be equal opportunity employers.
- (f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.
- (g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

STANDARD VALUATION SERVICES

- (h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.
- (i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.
- (j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified MAVBEs.
- (k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.
- The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows;
  - a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
  - b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
  - c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, shall be adopted and the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain MWBE participation.

STANDARD VALUATION SERVICES

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checkilst" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (I) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (II) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE \*Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises\* shall include, but is not limited to the following;

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited MAVBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from MAVBE Subcontractors. In addition, proof of the date(s) any such advertisements

STANDARD VALUATION SERVICES

appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

- b. Proof of having provided reasonable time for M/WBE Subcontractore to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs Indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bld specifications, blue prints and all other bld/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- Proof or affidavit that sufficient time prior to making award was allowed for MWBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested MAWBEs, and that MAWBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of MAWBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any MAWBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

I. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (i) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a countractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

#### EXECUTIVE ORDER NO. 2 - 2015

#### EXECUTIVE ORDER PURSUANT TO SECTION 203 OF THE COUNTY GOVERNMENT LAW OF NASSAU COUNTY TO FURTHER DISCLOSURE BY THOSE DOING BUSINESS WITH NASSAU COUNTY

WHEREAS, pursuant to subdivision 1 of section 203 of the Nassau County Charter, the County Executive is responsible for the administration of all departments, offices and functions of the county government; and

WHEREAS, the County Executive, in furtherance of his duties pursuant to subdivision 1 of section 203, is committed to ensuring transparency and openness with respect to the administration of governmental functions; NOW, THEREFORE BE IT

ORDERED, every lobbylst, as defined on the attached <u>Lobbylst Registration and</u> <u>Disclosure Form</u> (hereinafter "Lobbylst Form"), shall annually file the Lobbylst Form with the County Attorney and with the Clerk of the Nassau County Legislature for each calendar year, provided, however, that the filing of such statement of registration shall not be required of any lobbylst who in any year does not earn or lneur an amount in excess of one thousand dollars reportable compensation and expenses for the purposes of lobbying, or is an officer, director, trustee or employee of any public corporation when acting in such official capacity; and it is further

ORDERED, that such filing shall be completed on at hefore January fifteenth by those persons who have been retained, employed or designated as lobbyists on or before December thirty-first of the previous calendar year who reasonably anticipate that in the coming year they will carn or incur combined reportable compensation and expenses in an amount in excess of one thousand dollars; and for those lobbyists retained, employed or designated after December thirtyfirst, and those lobbyists who, subsequent to their rotainer, employment or designation, reasonably anticipate combined reportable compensation and expenses in excess of such amount, such filing must be completed within fifteen days thereafter; and it is further

ORDERED, that the County Attorney shall forward copies of each Lobbyist Form to the Nassau County Department of Information Technology ("TI"), and that IT shall develop and maintain a lobbyist registration page on that County's website, and make available all such Lobbyist Forms for public inspection on the County's website; and it is further

ORDERED, that upon termination of a lobbylst's retainer, employment or designation, such lobbylst and the client, if any, on whose behalf such service has been rendered shall both give notice to the County Attorney in the electronic filing system within thirty days after the lobbylst ceases the activity that required such lobbylst to file a statement of registration; however, such lobbylst shall nevertheless comply with the reporting requirements as set forth above and the reporting requirements for the last periodic reporting period up to the date such activity has ceased; and it is further

ORDERED, any lobbyist required to file a Lobbying Form as set forth herein who, in any lobbying year, earns or incurs combined reportable compensation and expenses in an amount in excess of one thousand dollars, for the purpose of lobbying, shall file with the County Attorney periodic reports, on forms prescribed by the County Attorney, by the fifteenth day next succeeding the end of the reporting period on which the camulative total for such lobbying year equaled such sum. Such reporting periods shall be the period from January 1 to March 31, April 1 to May 31, June 1 to August 31 and August 31 to December 31; and it is further

ORDERED, that any lobbyist making a report pursuant to the above paragraph shall thereafter file with the County Altorney, on forms prescribed by the County Altorney, a periodic report for each reporting period that such person earns or incurs combined reportable compensation and expenses in an amount in excess of one thousand dollars for the purposes of lobbying during such reporting period. Such report shall be filed not later than the fifteenth day next succeeding the end of such reporting period and shall include the amounts so earned or incurred during such reporting period and the cumulative total during the lobbying year; and it is further

ORDERED, that IT shall ensure that the Lobbying Form and the form for periodic reports prescribed by the County Attorney are available on the County website; and it is further

ORDERED, that this Executive Order shall take effect immediately.

### EXHIBIT C

### Supplemental Materials dated June 9, 2015

### SYSTEMATIC REVIEW & ANALYSIS OF ASSESSMENTS (RFP # AS0518-1509)

Submission Date June 9, 2015

From the RFP Selection Committee Steven L. Corte, Chairman

#### **GENERAL QUESTIONS FOR ALL BIDDERS**

## 1. How will land values for each Class be evaluated in your review? Describe in detail your land valuation strategy.

Land values in Nassau County are a very complex issue. Over the years, through residential and commercial tax certiorari proceedings, a vast number of property values have changed and the relationship of the land value to the total value is no longer accurate or meaningful. We will perform a search of sales of unimproved land parcels to provide benchmarks for land values for all properties throughout the county. After a thorough review and analysis of the benchmarks, as well as land to total value ratios for all property types within all four (4) Classes, our findings will be brought forward to the DOA for discussion and analysis on the best way to handle any issues. Our Firm was involved in the development of the original land tables when Nassau County began its complete reassessment in 2001 and has a good understanding of the land tables and models in place in the IAS system.

We will examine the land tables to ensure that the application of land values is consistent with the land value apportioned to a respective improved class. During the Systematic Review of all land values, we will be working in concert with the Assessment Department's land valuation experts and make sure that they have a thorough understanding of how we have helped develop and improve the existing land models. 2. How will the Department of Assessment's Integrated Assessment System (IAS)/ Adapt be used in your Systematic Review?

Describe in detail the implementation of valuation recommendations. Specifically, how would you utilize *Adapt* and/or incorporate your work product into *IAS*?

It is our understanding that the DOA's IAS system is currently being utilized and will continue to be utilized for assessment management and valuation purposes. In the initial stages of the Systematic Review, our modeling experts will meet with the County's modeling experts to get a full understanding of your IAS/Adapt System and develop a road map appropriate for the needs of this project.

As stated on the ORPTS website, performing a systematic review and maintaining uniformity of values is critical for a successful and well perceived project. (We have provided a copy of the ORPTS guidelines for a Systematic Review, also referred to a "Non-reappraisal Reassessment", in the addendum of this submission). Initial steps involved in the process include data gathering and stratification of the data. We will work with the DOA to run extensive tests on the existing data to identify any anomalies or properties that may require further investigation and remedies. This process will involve a thorough review of the entire inventory for the respective Class 1, 2, 3 and 4 properties. The process is performed to be able to identify issues, corrective actions, etc. and then offer recommendations.

Our analysis will be an independent review to ensure transparency exists throughout the entire process of this project. Once the review is completed, we will meet with DOA to determine what, if any, actions need to be taken to correct identified data errors or develop different or amended procedures to improve the quality of the data used to develop values. Our firm has the expertise and required employee resources to handle these complex issues in a professional manner.

It is only after specific recommendations are fully presented, vetted, and discussed with the DOA, can a plan of action be put in motion to implement or adopt any recommendation. At various stages of the project, our firm can provide project statues updates to include possible recommendations to the IAS/Adapt system.

3. What sources will be used to evaluate the *Cost Approach* parameters produced using the *Integrated Assessment System* (IAS) including (but not limited to) building costs, costs assigned to *Other Building and Yard* (OBYs) and depreciation?

SVS will interview Department of Assessment (DOA) staff to determine the source of the cost information that was used to populate the IAS system. If a commercial cost vendor like Marshall Swift was not used, SVS will compare the IAS cost tables with Marshall Swift and Identify any anomalies. In addition to Marshall Swift our firm has access to RS Means, another National cost service. Furthermore, our office is regularly engaged in the valuation of thousands of properties annually for all types of property throughout Long Island and the metropolitan area for lenders and other private clients, which affords the necessary empirical data and collective experience to validate the recognized cost estimating services that will be relied upon. The reviewed and completed cost tables, on any type of property, will be well supported with backup documentation that will be approved by the DOA.

In addition, depreciation tables will be created to determine if the current depreciation factors used by the DOA are appropriate for the various property types or if they need recalibration. A review of the DOA manual for determination of effective age and the age-life will need to be completed before depreciation models can be built. This process will be completed in conjunction with DOA personnel and only after all are in agreement and fully understand will it be incorporated into the IAS system and thoroughly explained to the DOA personnel.

### 4. How will modeling "outliers" in each Class be handled in your Systematic Review?

A result of modeling is the occurrence of outliers. Outliers generally occur because of incorrect data, incomplete information necessary for the valuation of the property or in certain cases, the uniqueness of the actual property. The reviewing of outliers will occur throughout the entire duration of the project. Outliers will be identified in the modeling process if the systematic review of the inventory and uniformity of assessed values within a defined stratified data class does not exist. Modeling of properties will involve adjustments to the existing DOA models for respective neighborhoods or specific property types. The DOA will be required to review the property characteristics and possibly complete a field review.

Our firm will comply with and exceed the IAAO standards for the determination of outliers (more than one and a half times the inner quartile range) which will be utilized to identify outliers. Outliers will not be automatically removed from any models created. They will be reviewed in order to determine if there is a flaw in the model, a problem with the sales inventory, a lack of coverage for certain property characteristics, or if the characteristic is unique. Appropriate steps will then be made to fix the issues that are causing the outliers, and these steps will all be thoroughly explained and verified with the DOA. Keeping or removing an outlier from the model will be determined on a case by case basis.

## 5. Will the review of Class 4 (Commercial) properties and models you produce include a market analysis of *Capitalization Rates*?

Our firm is very familiar with the development and supporting of market level capitalization rates throughout Nassau County, for all property types, and is mindful of and experienced in the nuances of ascribing appropriate capitalization rates in ad valorem valuation matters.

The income capitalization approach is used to value most property types within the Class 2 & 4, and applicable Class 3 properties. Market derived capitalization rates (sourced from verified sales routinely developed in our appraisal practice for transactional appraisals, personal surveys of brokers and buyers, and multiple industry recognized real estate investor surveys) will be analyzed and appropriately adjusted to the inherent property type that they would be applied to in the valuation process.

The capitalization process is a crucial component in correctly valuing income producing properties and therefore the selection of cap rates will be completed by competent valuation experts with knowledge of the specific property types they are looking to value. Capitalization selections will then be brought forward to the . DOA for their approval in the Systematic Review process.

#### 6. How will economic units (i.e. Parking Lots) be dealt in your review?

The economic component of any commercial property must be considered when developing any valuation approach. The availability of parking (or other unit of value) may or may not affect value. One of the main issues to decipher with economic units is the presence of tie-back properties in the valuation process. Tie-back issues will be handled throughout the Systematic Review process and in many cases will have to be handled on an individual property basis, and the contributory value of the associated tie-back (parking lot for example) will be reflected in the aggregate value of the combined economic unit and carefully and property allocated.

To properly value economic units such as "tie-backs" our firm has the employee resources and expertise to identify these issues, correct if required, and provide accurate estimates of market value for properties in all of the various Classes.

### 7. Will your models have provisions for external influences (i.e. Railroads, Commercial Corners, etc.)?

We will evaluate the existing internal models in the IAS System and examine those that may consider external influences, and the methodology in place. If this is not the case, it will be an area that will require significant review and analysis. It should be noted that our proprietary modeling system, Prognose, does consider external influences. This (external influences) is a variable that is arguable inherently subjective and may be difficult to quantify and substantiate in some instances.

After reviewing your modeling system, we would bring any recommendations regarding external influences forward to the DOA. GIS will be utilized to identify the consistency of influences used by DOA and identify any additional influences not captured by DOA. Our firm and our residential and commercial valuation experts are very well aware of the multitude of external influences, both positive and negative, in the Nassau County real estate market.

### 8. Are there any types of properties that will not be included in your review (i.e. Marinas, Golf Courses, etc.)?

It is the understanding of our firm, based upon the RFP, that all assessed parcels will be involved in the Systematic Review. Our firm has the experience to value unique properties such as Marina's, Golf Courses, Nursing Homes, Self-Storage facilities, etc.

#### 9. How would you model specialty properties like marinas and golf courses in Adapt?

The applicability of local jurisdictional law will dictate the valuation of special use properties such as golf courses. Commercial tax certiorari cases have dictated parameters in which to value Golf Course properties through decisions in Nassau County Supreme Court. Before valuing Golf Course properties our firm will have a meeting with Nassau County's Golf Course experts. Our firm currently employees three (3) Golf Course experts, Matthew Smith, MAI, SRA, Andrew Albro, MAI and Ronald Camilleri, MAI, SRA.

The valuation of marinas will follow standard accepted appraisal methodology completed by our Marina experts, Robert Studwell, MAI, SRA, Andrew Albro, MAI and Ronald Camilleri, MAI, SRA. All modeling procedures for Marina properties will be thoroughly vetted with the appropriate commercial expert within the DOA, before the models are completed and run. Similarly we shall dispatch those professionals from our team with the appropriate training and experience for each type of specialty property. We have expertise in a wide range of special purpose properties.

#### 10. Are Class 4 – Utility properties included in your Class 4 – Commercial analysis?

All Class 3 utility properties that require a specialized appraisal will be valued by our expert, Federal Appraisal and Consulting. Properties owned by utility companies that are Class 3 but have similar characteristics to a Class 4 property (a structural property such as an office building or land) will be valued either by the sales comparison, cost or income capitalization approach like other properties in the class.

### 11. What modeling changes would you suggest for creating values for hotels, assisted living centers, nursing homes and self-storage facilities?

SVS will first examine the current models for these properties and compare the methods of valuation to industry standards, and consider and examine that which is frequently encountered in the tax certiorari arena, including court decisions relative to respective property types. If industry standards are different than DOA models we will offer the appropriate alternate valuation models to be used.

#### 12. Will your company provide an analysis of Land to Building Ratios?

Our company will be providing the County with Land to Building ratio studies broken out by property type. Land to Building ratios are one of many tests to identify possible errors within the inventory data. Further information on systematic land to building ratios, based on ORPTS, can be found in the ORPTS document in the addenda of this submission for your review.

#### 13. How will you address apartment buildings and how will ETPA Buildings?

Apartment buildings are valued based upon income capitalization, which is the convention for Class 2 and 4 properties. Like all property classes, apartment building models used by the DOA will be examined objectively, with the assumption and expectation that they are fundamentally functional and sound.

Jurisdictional Law regulates ETPA buildings in regards to allowable rental increases, which has the effect of rendering rent stabilized (ETPA) buildings somewhat unique, in that full market rent ordinarily cannot be applied. Similarly, the operating expense ratios and applicable capitalization rates may vary from non-regulated apartment buildings.

ETPA comparable sales will be examined to support applicable income/expense data and capitalization rates, which will be drawn initially from our expansive database of market data that has been developed over many years in our work for dozens of local and regional lenders, which provides use with a "real world" understanding of market behavior and metrics. Any property-specific data in possession of or available to the DOA will be examined.

### 14. Will your company provide field staff to work with Department of Assessment personnel?

Our firm has a vast array of personnel (35 employees) available to assist DOA staff at different levels of this project. It is our understanding that the daily on going field work completed by the County will remain intact during this project. If a specialized or a unique property requires viewing the property from the right-of-way or through use of Google Maps, Bing Maps, Aerial Viewing Programs or through Nassau County's pictometry system, our firm is amenable to this. In fact, our firm is of the opinion that this is a crucial check of valuing unique properties and outliers during the Systematic Review process.

# 15. What plans do you have to improve DOA personnel's preparedness on the quantitative and qualitative levels? What mechanisms would you leave in place to allow staff to continue to maintain your recommendations?

This is a difficult question to answer since our firm has not had the opportunity to evaluate and understand the needs of your personnel and won't until the project is underway. Our firm has every intention of thoroughly training DOA personnel on all components of the Systematic Review. For example, over this last year our firm has routinely offered its own courses to educate our staff in modeling techniques and SPSS education. We provide these courses through nationally known instructors so that we can better serve our clients. Going forward, if instructional classes are needed to familiarize the DOA with any portion of the modeling process, or for that matter, any portion of the Systematic Review process, that we would provide such education.

## 16. What valuation quality assurance measures would you recommend that the DOA adopt after the Systematic Review is completed?

This question is best answered after the 2 ½ year process of the Systematic Review is completed and our firm would discuss best practices for the DOA going into the future. Our firm anticipates that there will be very thorough conversations regarding these issues towards the end of the project and we will support the DOA in any way we can.

### 17. Describe the Commercial and Residential models you will create and how you would address the overabundance of existing commercial models in *IAS/Adapt*?

During the Systematic Review process, our firm expects to do a thorough review of all of the commercial and residential models for all Classes. Models may be used for market trend analysis in order to determine the appropriate indication of the level of value. Many times the jurisdiction's computer system contains limitations which may result in the use of too many models. SVS will make recommendations as to the appropriate number of models to use and how to retool the DOA system to accommodate appropriate appraisal practices.

## 18. How will support documentation be transmitted to the DOA at the end of your review?

Our office will comply with any type of file transmissions or documentation that the County would require. It should be noted that our firm has a very good track record working with the Assessment Department and very large quantities of data. In 2011 our firm was hired to handle approximately 75,000 parcels defending the Halpern Vs. Nassau County Lawsuit and at that time our office manager, Vivian Scalia, worked with Mark Macarthur and other Nassau County employees in the IT department and had no problem transferring data back and forth between our offices. Based on the constraints during that lawsuit, our office is still non-wifi compliant as per the County's security requirements.

#### 19. Describe in detail your plan for a neighborhood review.

Neighborhood review is a critical component to ensure the market values estimated for residential properties are uniform, consistent, and reflect property owner's interpretation of their neighborhood. If property owners believe that sales from outside of their perceived neighborhood were utilized to estimate market values, values will appear suspect and the process may appear flawed, diminishing the accuracy of the results and the confidence of the taxpayers. Therefore, it is imperative that sufficient time and appraisal expertise be put into this portion of the project.

We are familiar with the original neighborhood delineation process that was performed in Nassau County in 2001 and its subsequent revisions and finetuning. Our firm still has employees on staff that were involved in that undertaking 14 years ago. However, the market and trends have changed significantly and an up-to-date review of the neighborhoods is imperative. Utilizing GIS and plotting (mapping) relevant sales will be a key tool that we will employ to judge the accuracy of the existing neighborhood breakdown. As markets change over time, again it is vital to comprehend the dynamic factors within each neighborhood to assess whether boundaries need adjusting, or determine if the use of an alternative valuation model is in order. Our skilled team will ensure that neighborhood delineation and use of the correct valuation model is as accurate as possible.

Additionally, our firm has completed full reassessments for nine (9) villages within Nassau County. As part of these respective Village revaluation projects, thorough neighborhood analyses were performed, with the full involvement of the respective Village assessors, and in some cases the Mayors, Board of Trustees, other real estate professionals, etc. In working with the Villages it was clear that refinement to the Nassau County neighborhood delineation is essential. Utilizing our staff residential experts along with input from the DOA, we are confident that review of the sales, plotted on a map (by sale price, price/SF, age, style, etc.) will assist in determining how the existing neighborhood delineation should be revised. If it is determined that there are insufficient sales to statistically estimate values in any given neighborhood, we will be able to identify and draw sales from other neighborhoods with similar characteristics to strengthen the valuation process.

- 9 -

#### 20. Describe in detail your plan for sales data verification.

The modeling process for this project will require the review of a large number of sales. Over the course of this project we are estimating to review approximately five (5) years of sales or upward of 75,000 sales. It is our understanding that the DOA staff has a process for reviewing and validating sales. Examining the RP-5217's (Real Property Transfer Report) from New York State is typically a starting point for filtering and categorizing the valid, arms-length sales. Sales ratio studies will also be used to identify suspect sales which will then require further investigation.

There are various additional sources which we employ in the sales verification process, such as SalesWeb (ORPTS), Comps Inc., the Multiple Listing Service, etc. We will use any and all of our resources as necessary in the process. These sources, of course will also assist with verifying physical data and enhance the property description database. However, a complete understanding and review of the current process employed by the DOA will be undertaken to determine if recommendations are necessary to enhance the process.

### 21. What recommendations do you have to account for any lack of sales if existing neighborhoods are split into sub-groups or expanded?

Each neighborhood should meet the statistical requirement for the minimum requirement for sales (generally no less than 15 sales for a defined group). However, as we know, there will be instances where there will be statistically insufficient amount of sales. In these cases, as referred in question 19, it will be determined using input from DOA staff, our on staff residential experts, outside residential professionals as well as results from our modeling analysis, which neighborhood or neighborhoods can be "linked" together for valuation purposes. Sometimes it may be necessary to expand the time frame in which sales are used. (i.e., go back an additional year or two for sales in areas where the volume is weak).

Recommendations can be made only after a complete review of the processes currently in place at the DOA, current neighborhood delineation, and the sales used within our project period. As we are aware, sales do not occur consistently in any geographic area and therefore we can only determine our course of action after a thorough review.

Guidelines for Non-reappraisal Reassessments

#### Overview

An assessing unit may revise its assessments as provided for in Real Property Tax Law (RPTL) to maintain uniformity and/or level of assessment, using means other than a full reappraisal. This may be done independent of the Cyclical Reassessment Program or as part of that program in those years in which a full reappraisal is not conducted. Regardless, the assessing unit must notify ORPTS of its intentions to conduct a non-reappraisal reassessment in writing (e-mail is sufficient), no later than 188 days prior to the applicable ternative rell (typically by November 1). This will allow ORPTS to verify the Level of Assessment (LOA) using the tentative roll compared to the estimated market values shared during the Pre-Decisional Collaboration (PDC) process. Please note that if an assessing unit conducts a non-reappraisal reassessment without timely notification to ORPTS as just stated, that reassessment roll will not be used as the basis for ORPTS' full value measurement for that year. This means that the assessing unit's full value measurement for that year will be developed using the most recent final roll with trends and/or ratios applied as appropriate instead of the current tentative roll. This may affect ORPTS' ability to confirm the locally stated LOA as the equalization rate and/or residential assessment ratio (RAR) for that year.

Please see Publication 1028, <u>Guidelines for Cyclical Reassessments</u>, for details about the statutory requirements and benefits of reassessment which are discussed in detail there. That document also contains information about how a municipality may receive aid for conducting reassessments (full reappraisals) on a cyclical basis, and the requirements of a plan to qualify for that aid. Assessing units that conduct a non-reappraisal reassessment in an interim year of a cyclical reassessment plan will not be efigible for the aid of up to \$5/parcel, but will be eligible for the "non-reappraisal year" aid of up to \$2/parcel.

ORPTS' goal is to coordinate your reassessment process with our equalization study. ORPTS' staff will verify, in accordance with our reassessment verification process, that the stated LOA has been achieved for each of the four major property types and that all steps to achieve equily have been implemented. Additionally, this review will provide the basis for making the determination for payment of State Aid, where applicable, and the level of assessment to be applied to the special franchise valuations and state owned land parcels in your assessing unit. This review will also be used in the approval process for Approved Assessing Unit Status (the Homestead tax option) if application is made.

This means acceptable local reassessment data will be used in the equalization process. ORPTS' staff will monitor the project on an on-going basis and review local value decisions as they are made as part of the PDC process. Please be aware that ORPTS' staff may request any or all such documentation, as actually produced, in conjunction with the verification of the reassessment roll. In the event that requested documentation for one or more major types is not provided at least 90 days prior to the tentative roll (February 1 for most towns), ORPTS will proceed on the basis that a reassessment has not been implemented. This means that the assessing unit's full value measurement for that year will be developed using the most recent final roll with trends and/or ratios applied as appropriate instead of the current lentative roll. This may affect ORPTS' ability to confirm the locally stated LOA as the equalization rate and/or RAR for that year.

**Guidelines for Non-reappraisal Reassessments** 

Publication 1029 (3/13) Page 3 of 9

#### **Reassessment Methodology**

According to RPTL 102 (12a), "Revaluation," "reassessment" or "update" is a systematic review of the assessments of all locally essessed properties, valued as of the valuation date of the assessment roll containing those assessments to attain compliance with the standard of assessment set forth in subdivision two of section three hundred five of this chapter.

While the terms reveluation, reassessment or update are synonymous, this document and other ORPTS' publications will continue to use the term 'reassessment' for consistency,

The only way to ensure that all properties are assessed at the same LOA is to conduct a reassessment,

White assessing units can conduct a reassessment by individually appraising all parcels for the same roll year (a full reappraisal), the definition in RPTL §102 (12a) does not necessarily mean that every property must be individually appraised to be considered a reassessment. Assessing units can also conduct a reassessment by trending parcels or through a combination of reappraisal and trending. Either of these approaches is considered a non-reappraisal reassessment.

The IAAO's <u>Standard on Mass Appraisal of Real Property</u> states, in part, that "trending factors based on criteria such as property type, location, size, and age can be developed and applied to groups of properties. These factors should be derived from ratio studies or other market analyses. Analysis of ratio study data can suggest groups or strate of properties in need of physical review. In general, trending factors can be highly effective in maintaining equity when appraisals are uniform within strata. However, such factors are not a substitute for physical reviews and individual reappraisals, which are required to correct tack of uniformity within strata. Although assessment trending can be effective for short periods, properties should be physically reviewed and individually reappraised at teast every four to six years."

Please note that the <u>Uniform Assessment Standards</u> as developed by the Real Property Tax Administration Committee (<u>RPTAC</u>) call for the regularly scheduled appraisal of all parcels at least once every four years.

In determining which approach is the nost appropriate, each assessing unit must consider the length of time since its fast full reappraisal and whether sufficient market data is available to demonstrate uniformity within the groups identified for analysis. Trending is not recommended for use in groups for which there are insufficient market data to demonstrate uniformity. Whether or not uniformity can be demonstrated, it should be recognized that the development and on-site review of individual values (reappraisa) will yield more accurate and equitable assessments because all properties in a group do not appreciate or depreciate at the same rate. Assessors planning reasessment are encouraged to discuss these considerations as they apply to the groups in their assessing unit with their Customer Relationship Manager (CRM). The <u>Uniform Assessment Standards</u>, the International Association of Assessing Officers' (IAAO) <u>Guide to Assessment Administration Standards</u> and <u>Standard for Mass Appraisal of Real Property and the ORPTS' publication, Level of Assessment Determination: An Owner's Manual for Maintaining Uniformity, are all helpful references for additional guidance.</u>

Regardless, all reassessments require a "systematic analysis" in which all assessments are compared to the current market and adjusted as necessary to a desired LOA to achieve equity.

A systematic analysis is the process of reassessment that includes the gathering of data and market information, the grouping of this data for further study, the application of accepted analytical techniques both diagnostic and prescriptive, and the subsequent validation of results before values are implemented on a tentative assessment roll.

The gathering of data and markel information is the foundation of the reassessment process. An assessing unit must ensure that its assessment inventory and valuation data for all properties is accurate and current, and that it reflects the minimum standards in Part 8190-1.1 of the <u>Rules for Real</u> <u>Property Tax Administration</u>. Additionally, an assessing unit must have a <u>sales verification process</u> in place to ascertain the validity of all sales and the condition of all inventory of the property conveyed in

#### Page & of 9 Publication 1029 (3/13)

#### Guidelines for Non-reappraisal Reassessments

each sale. Since this Information is the basis for all subsequent analysis, it must be accurate, current and reflect local market influences. Please see the Ockdelines for Cyclical Reassessment for additional information on the data collection process. The IAAO's <u>Standard on Verification and Adjustment of</u> <u>Sales</u> may also provide guidance on the sales verification process.

Once the inventory and valuation data is collected, properties are grouped together to reflect similar effects of supply and demand as observed in various real estate sub-markets. Factors used to group properties will likely vary among assessing units. Groups can be as basic as major property types (residential, commercial, vacant, etc.). Where possible, they should be further refined within each property type by such factors as geographic location / neighborhood, size (relative square footage), number of bedrooms, year built, residential building style, construction quality, commercial use, number of units by commercial use, lot size, and / or zoning. These are offered as examples and are not meant as an all inclusive list. The degree to which groups can be refined will be strongly influenced by the amount of market data available for analysis. Statistical analysis is then used to utimately draw conclusions about the level and uniformity of the assessments from the previous year's assessment roll as compared to current market conditions.

The initial diagnostic step of statistical analysis requires time trend analysis to develop an observed rate of change specific to each group of property identified for analysis. Time trend analysis can include analysis of paired sales (properties that have resold), an analysis of value per unit (e.g., dollars per acre or dollars per square foot of living area), sales ratio trend analysis and / or multiple regression analysis (CAMA modeling) that include variables for time. The time trend must be specific to the valuation date of the applicable reassessment roll.

The second diagnostic step is ratio analysis for the purpose of developing measures of the level and uniformity of each group. While this step typically involves sales ratio studies, other techniques such as multiple regression analysis (CAMA modeling), rolling median sale price ratio analysis, rolling median sale price analysis, rolling median dollar per unit analysis (e.g. price/square foot living area), adaptive estimative procedures (AEP), cost indices (e.g., for utility property), stumpage analysis for forest property, and / or rent analysis may also be used. These are offered as examples and are not meant as an all-inclusive list.

Municipalities that do not have sufficient data to draw conclusions about level and uniformity will need to consider market data from comparable municipalities. Per unit market values from comparable municipalities can be compared to help determine level while per unit assessed values for like parcets can be compared to help gauge uniformity.

Based on the indicators of level and uniformity produced by this ratio analysis by group, the assessor determines which assessments on the upcoming roll will be changed and how:

- If the analysis indicates that uniformity in a group is acceptable to good and that assessments
  are already at the desired level, no change may be necessary (individual parcets within such a
  group may still require assessment changes, at a minimum, for new construction or demolition)
- If the analysis indicates that there is acceptable to good uniformity in a group, but the
  assessments are not at the desired level, assessments can be trended to achieve the desired
  LOA
  - Trending refers to the application of an arithmetic factor to the assessments of a group of properties to reflect increasing or decreasing property values over a period of time. A 5% trend would indicate that property values have increased 5%.
- If the analysis indicates that there is a lack of uniformity in a group or there is not enough data to draw that conclusion - a reappraisal must be conducted regardless of whether assessments are at the desired level
  - Reappraisal means developing and reviewing a new determination of market value for each parcel, based upon current data, by the appropriate use of one or more of the three accepted approaches to value (cost, market, or income)

#### **Guidelines for Non-reappraisal Reassessments**

#### Publication 1928 (3/13) Page 6 of 9

÷

Decisions made at this point in the reassessment are crucial to its successful implementation. ORPTS strongly encourages the assessor to share the results of the diagnostic analyses and the conclusions drawn from those analyses with the CRM before proceeding further.

Once valuation has been run, ideally, preliminary values for all properties would be reviewed. Often, however, there is not enough time to perform a traditional parcel specific field review for all properties as part of a non-reappraisal reassessment. Procedures should be established to identify properties for which field review is essential. Exception properties and geographic areas or other property groups with a high variance in sales ratios should receive the highest priority. At a minimum, those properties that are individually reappraised should receive a parcel specific review. An office review, without a field review, may be sufficient for groupings in which the property characteristics data are accurate and consistent and the valuation models are good. This option is most feasible in homogenous areas. Assessing units with recent pictures of properties may be able to conduct a particularly effective office review. Please see Publication 1028, Guidalines for Cyclical Reassessment, for additional information on the field review process.

Finally, predicted value estimates are validated for use as assessments through a review for accuracy, consistency and logic. In order to confirm that these estimates match the actual values in the community, an assessor might compare value estimates for properties within the same group, consult with real estate appraisers/brokers, review published trends and/or examine sales occurring around the valuation date.

#### **ORPTS' Role**

The primary roles for staff in connection with reassessment projects include;

- Consulting Services
  - > Advise/assist in project planning/preparation of a Plan for Cyclical Reappraisals
  - Advise/assist with preparation of a <u>Request for Proposal</u> (RFP)
  - > Advise/assist in a public information program
  - Attend project status meetings/prepare periodic status reports
  - Advise/assist in Town Board/City Council presentations
  - Provide Real Property System (RPS) software and support
- Provide advisory appraisals
  - Complex utility property
  - Other complex properties (resources permitting)
  - State-owned forest land
- Monitor and verify the reassessment results.
  - Level of assessment (for Full Value Measurement and State Aid)
  - Assessment uniformity (for State Aid)

#### Advisory Appraisals

Complex utility, industrial and commercial advisory appraisals may be provided upon request by a city, town or a county conducting a reassessment. Note: ORPTS does not provide advisory appraisals for wholly exempt properties. Per Title 20 New York Codes, <u>Rules and Reculations</u> Part 8195-2.1, a request for a State advisory appraisal must be received at least 12 months in advance of the taxable status date before its use to facilitate scheduling of possible fieldwork and collection of valuation inputs. ORPTS will make its best effort to supply appraisals for late requests. The <u>advisory</u> request forms can be found on DTF's Web site.

Providing values for these property types is made easier when there is cooperation between ORPTS and local officials. This partnership is vital when identifying, collecting inventory and valuing the

Page 6 of 9 Publication 1029 (3/13)

property. Local officials need to notify ORPTS when inventory changes have occurred, so an accurate updated advisory value can be determined.

#### Industrial and Complex Commercial Property

The Regional Services Bureau may provide advisory appraisals for industrial or complex commercial properties if resources are available.

#### Utility Property

The Valuation Services Bureau will provide updated values on structural and mass properties, inclusive of inventory and market changes. Non-complex utility structures and land appraisal are the responsibility of the assessor. Appraisals will be in the style of computer assisted mass appraisals, not detailed narrative appraisals,

Advisory appraisals will include:

- Values to match Roll Section 6 (Section, Block, Lot) if locality has standardized (UCARS).
- All mass property (poles, cables, wire, transmission and distribution property)
- Complex utility structures, such as; Municipal water properties
- Generating plants
- Compressor stations
- Electric substations
- Water treatment plants

Advisory appraisals will not include:

- Cell towers
- CATV Head End structures
- Utility owned office buildings
- Telephone central office buildings
- Utility service, maintenance and conference centers.
- Utility warehouses and garages

A municipality that has received utility advisory appraisals for a preceding year's reassessment will not have to file a new utility advisory appraisal request in the next year. In the event the assessor becomes aware of any changes (new construction or demolition, movement of a parcel between roll sections, etc.), the CRM or the Valuation Services Bureau should be alerted as soon as possible. A new request will have to be filed no later than 480 days prior to the applicable ternative roll (typically by November 1), when there has been no reassessment in the preceding year.

Participation in the Utility Company Assessment Roll Standardization (UCARS) Program facilitates identifying and relating the values of the properties to the assessment roll. Municipalities interested in this program should contact their CRM or the Valuation Services Bureau (VSB) in Albany.

#### **Private Forest Property**

A municipality that achieves or maintains equily brough the use of procedures that meet the definition of reassessment must value taxable state-owned land (TSOL) and private forest parcels at the same uniform percentage of value of all other property. If resources are available, an ORPTS' forestry specialist can assist the municipality's efforts by supplying assessors with the following data:

- Summary Value Report, which includes a breakdown of bare land, timber, and lakeshore contributory values for each TSOL parcel
- A list of vacant land sales by market area used to develop forest bare land schedule

**Guidelines for Non-reappraisal Reassessments** 

Publication 1029 (3/13) Page 7 of 9

- Private Forest Stumpage Summary Report, derived from private forest selections in the region valued with the most current stumpage schedule
- Property inventory and Valuation Report, a listing of the most current TSOL forest stand inventories available
- \* Lake Front Property Report of TSOL, which identifies all frontage by lakeshore category
- The following information is available in the <u>forestry valuation</u> section of the DTF Web site:
   Bare land schedule by town
  - Stumpage price schedule by forest region
  - Lakeshore schedule by lake

#### **Reassessment Verification Documentation**

Regardless of whether an assessing unit that reassesses intends to apply for State aid, the assessing unit must retain a set of supporting valuation documents and files to demonstrate the systematic analysis performed and to support the values developed for its reassessment rolt. As previously stated, please be aware that ORPTS' staff may request any or all such documentation, as actually produced, in conjunction with the vertification of the reassessment rolt. Please note that the provision of ORPTS' PDC documents as the sole evidence that a local systematic analysis has been performed will NOT qualify the assessing unit as having completed a reassessment. In the event that requested documentation for one or more major types is not provided at least 90 days prior to the tentative roll (February 1 for most towns), ORPTS will proceed on the basis that a reassessment has not been implemented. This means that the assessing unit's full value measurement for that year will be developed using the most recent final roll with trends and/or ratios applied as appropriate instead of the current tentative roll. This may affect ORPTS' ability to confirm the locally stated LOA as the equalization rate and / or residential essessment ratio (RAR) for that year.

Verification efforts will be summarized in a Local Reassessment Project Review and Analysis (LRPRA) document. As stated in 20 NYCRR 8201-3.5(b), "The determination made pursuant to the procedures for the applicable Full Value Measurement as provided in 20 NYCRR 8186-2.15 shall be conclusive as to whether a reassessment occurred and a uniform percentage of value was attained." ORPTS' staff records data in the document that attests to the municipality's compliance with the reassessment standards.

Local documentation for a reassessment includes the following:

- > Access to parcel inventories that compty with the Rules.
- Gopy of Request for Proposal (RFP), proposal, contract, or work plan (if project was not contractor assisted), which should include the following;
  - Time line (schedule of events)
  - Assignment of resources (staffing for each activity).
  - Software to be used for inventory maintenance (if applicable).
  - Software to be used for valuation (if applicable)
- Sales listings used in valuation analysis (minimum of valid sales occurring one year prior to valuation date) and sales periods used;
  - Residential
  - Commercial/Industrial
  - Vacant/Farm
- Documentation (reports and/or description) of analysis for evaluating the uniformity and level of the assessments; examples include;

#### Page 8 of 9 Publication 1029 (3/13)

Guidelines for Non-reappraisal Reassessments

- Sales ratio analysis
- Mass appraisal (sale substitution)
- Unit comparison (value-to-inventory)
- Tracking of value trends (cost, income, market)
- > Description of all valuation methodologies used and accompanying documentation
  - Description of land valuation procedure, if applicable
  - Cost documentation
    - Base Cost Table (include identification of source)
  - Depreciation Schedule
  - Market documentation
    - Valuation Model (supply all of the following which are applicable):
      - Sales adjustments (time, physical characteristics)
      - Regression coefficients
      - Feedback coefficients
      - Component unit values
      - Commercial/Industrial market unit factors
  - Income documentation
    - Commercial/Industrial Income Factors Including:
      - Gross Income per Unit
      - Vacancy Rates
      - Expense Ratios
      - Capitalization Rates
    - Income and Expense Source Data (if available)
  - Trending (if values were updated by applying factors, percentages or indices in a nonreappraisal year to maintain the LOA)
    - Description of market areas (neighborhoods) and supporting documentation for the development of factors, percentages or indices, in each market area
  - Any other appropriate valuation documentation that supports your determination of market value
- > Valuation Neighborhood Maps (if applicable)
- Advisory Appraisals:
  - Statement as to whether utility advisory appraisals were used in part or in their entirety
  - Statement as to whether commercial/industrial advisory appraisals were used in part or in their entirety
- Review.
  - List or file of predicted values (if available)
  - Access to review documents (review documents must be saved)
  - Access to a list of parcels that were re-inspected and/or reappraised this year
  - List of (or file containing) informal review changes (if applicable).
- > Tentative Roll:
  - Copy of tentative roll or file containing tentative assessments
  - New statement of uniform percent, if different from original agreement
  - List of parcels with court ordered assessments (if any)
- ≻ Final Roll:
  - Copy of final roll or file containing final assessments
  - List of BAR changes

### SYSTEMATIC REVIEW & ANALYSIS OF ASSESSMENTS (RFP # AS0518-1509)

Submission Date June 9, 2015

From the RFP Selection Committee Steven L. Corte, Chairman

#### **QUESTIONS AND REQUEST FOR CLARIFICATION**

#### STANDARD VALUATION SERVICES

#### 1. Please justify your reasoning for not conducting any field inspections?

Our firm anticipates performing field inspections on a limited basis. Field inspections will be completed when needed on unique and/or complex properties where a field inspection is warranted. Our firm has a vast array of personnel (35 employees) who will work with and assist DOA staff at different levels of this project. It is our understanding that the daily on going field work completed by the County will remain intact during this project. If a specialized or a unique property requires viewing from the right-of-way or through use of Google Maps, Bing Maps, Aerial Viewing Programs or through Nassau County's pictometry system, our firm is amenable to this. In fact, our firm is of the opinion that this is a crucial check of valuing unique properties and outliers during the Systematic Review process.

## 2. Given the issues that municipalities are facing with "value based special district taxes," please clarify your stance on Wholly Exempt properties.

As indicated at page 22 of our RFP response, we understand that the inventory of **Wholly Exempt** properties is 10,650 of which 1**81** parcels have current values in excess of \$50 million. We do not have a stance or "position" on wholly exempt properties, assuming that the term relates to assessment or taxation policy, as opposed to valuation issues that we are asked to address. The "issues

that municipalities are facing" needs to be better defined to allow a more comprehensive response.

In the past, wholly exempt parcels were given limited attention as they relate to value because the parcels are exempt from taxes. Recent changes in special district taxes require a more thorough review of these values which will require an examination of the accuracy of the physical inventory and the methodology the DOA employs to value these properties. We expect to identify the appropriate methodology for these unique properties and direct the DOA to cost tables, sales tables or income & expense tables (office buildings or warehouses) to develop valuation estimates.

#### 3. Detail Thimgan & Associates expertise in using *iAS/Adapt*.

Thimgan & Associates has worked with hundreds of jurisdictions over the years in analyzing time trends, developing residential/commercial models, and conducting systematic analyses of various assessment rolls. By working with numerous jurisdictions, Thimgan has developed a broad knowledge of numerous different tax administration systems which use various database engines (Oracle, SQL, Dbase, etc.). Current and former clients include Elbert and Eagle County, Colorado who use a **version of Tyler Technologies systems** for which Thimgan has extensive knowledge.

Notable communities in the Northeast where Thimgan has completed assessment work include, the Town of Greenwich, CT, Town of Rye, and City of White Plains (LOA Analysis), Westchester County, four towns in Putnam County (LOA Analysis and Time Trending) and fourteen towns in Dutchess County.

:

i

Locally, Thimgan has developed valuation models for the City of Glen Cove and assisted in the Systematic Analysis of the Village of Roslyn Estates. In conjunction with SVS, Thimgan developed a valuation module that was used to develop residential values in three beachfront communities on Staten Island, and multiple beachfront communities in Nassau/Suffolk counties regarding Super Storm Sandy relief projects awarded to SVS. This valuation module has become part of the Prognose software system which has been used to transfer data with existing computer systems for large jurisdictions in several states: These are: Lee and Collier County, Florida; Oklahoma County, Oklahoma; Maricopa County, Arizona; Salt Lake and Davis County, Utah; Boulder and Elbert County, Colorado to name a few. From 2000 to 2007, ORPTS retained the services of Thimgan & Associates to provide annual training for staff and Assessors regarding SPSS modelingtechniques. The current version of RPS (the NYS assessment software) has a module that connects directly with SPSS. This module was developed over several years with input from Thimgan & Associates. During this time period Russ Thimgan was one of three principals who worked with ORPTS to develop the process for a Systematic Review and Level of Assessment Practices in New York State. The policies established during this period are what Assessors throughout NYS adhere to today.

Thimgan & Associates teaches four valuation courses using SPSS which are recognized by the IAAO as the standard in the industry. Several of the research materials listed by ORPTS were prepared by Thimgan & Associates.

Premier valuation modelers are comprise of a small field of experts located throughout the country. Russ Thimgan is in the elite field of modelers, considered by his peers in the assessment industry to be one of the best. Russ has emerged as a leader in the field regarding the integration of GIS and modeling analysis. This evolution of modeling practices has led to the development and deployment of Prognose as an alternate valuation system for many jurisdictions to use in conjunction with established tax administration software. Simply stated Russ Thimgan has enabled individuals without years of statistical experience to understand how models are developed and applied.

## 4. Please describe your use of *Special Franchise and Public Utility Values* provided by NYS.

We understand that the Office of Real Property Tax Services ("ORPTS"), Valuation Services Bureau ("VSB"), may provide estimates of value for Special Franchise and Public Utility properties. However, it is our position even if these values are provided, they will need to be verified, at a minimum, and possibly they may need to be recalculated or replaced depending on the results of the verification process. Ultimately the local assessor requires, and we shall provide, a locally defensible opinion of value along with the commensurate documentation in support of each value for each Special Franchise and Public Utility property, where locally means that the assessor has within his purview or her can document and support as per assessment procedures. Therefore, our use of these values will be twofold. First, we will review the VSB values. That review will include a confirmation of the research and methodologies used to determine those values. Any research, methodologies or values determined to be accurate, credible, and reliable will be integrated into our conclusions of value for this property class. Secondly, any methodologies or values determined to be inaccurate, less than credible or unreliable, will be reappraised using appropriate valuation methodologies and data, and these recalculated values will be utilized in our conclusions of value for this property class. If VSB does not provide values then we shall provide our own valuations to the client.

#### 5. Please describe how you would be valuing power plants?

In addition to the summarized narrative below, please accept the attached lengthy article, "The Appraisal of Power Plants", published by the Appraisal Institute in its *Appraisal Journal* (Summer 2014)., We wrote the article. We are proud to report that we have been awarded the 2014 Swango Award for the article. The Swango Award is presented for the best article published in *The Appraisal Journal* during the previous year on residential, general, or technologyrelated topics or for original research of benefit to real estate analysts and valuation experts.

Power plants are complex combinations of real property, personal property (machinery and equipment), and often business intangibles (like fuel supply contracts or power purchase agreements). In deregulated markets like New York, buyers, sellers, and analysts universally emphasize the income approach, where expected income and rates of return are based on unregulated market conditions. In deregulated markets, costs may be incurred, and the developer has no guarantee of making an adequate return. The cost approach remains useful when the appraiser properly accounts for all forms of obsolescence and the cost approach remains highly probative when appraising special improvements and assets within the combination of assets at a power plant. In a deregulated market, there is often an active market for power plants separate from transmission and distribution assets. The sales approach can be utilized when market data is sufficient, as with any sales approach for general commercial property. Generally, all three approaches to value (Cost, Sales Comparison, and Income) should be considered when valuing power plants that are located in deregulated markets, as is the case in Nassau County.

The basic concern surrounding the cost approach for power plants is that often cost does not equal value. When applicable, the cost approach reflects market thinking by recognizing that market participants sometimes judge the value of a power plant by considering the cost to create the improvements. However, depending on the cycle of the market and the age and legal status of the plant, simple, unadjusted cost is unlikely to equal market value. Unless the appraiser fully reflects all forms of depreciation ( physical, functional, and external), then cost estimate value conclusion will diverge from market value. To make matters more difficult, the job of estimating each of the various forms of depreciation at power plants is often problematic and sometimes practically impossible. Unlike general real estate, where the property will continue to function if it is adequately maintained, even well-maintained power plants may suffer critical economic and functional obsolescence. Common types of obsolescence include: obsolete engineering designs and inefficiency, either from a poor original design or from new technologies entering the market; obsolete environmental designs (legal/regulatory); original cost overruns; currentoperating cost inefficiencies (excessive operating costs); and physical aging on a limited life span. We will consider the Cost Approach when valuing the power plants in Nassau County. Its application will be determine on a property by property basis, or type of plant by type of plant basis, as good assessment practice, applicable law and precedents, and available data dictate.

While the use of the sales comparison approach is common in the appraisal of general commercial properties, this approach is rarely useful in power plant appraisals. Research for information on sales of comparable power plants rarely yields appropriate and adequate data for use in a credible sales approach. The market for power plants is national, and sometimes international. It is relatively easy to find evidence of an active sales market. However, relevant critical details about the individual sales are often unattainable. An important qualification of each credible comparable sale is the level of supporting data that is publicly available. Since many details concerning the sales of power plants are confidential, the sales are not adequately verifiable and/or cannot be soundly adjusted. Since power plants are typically business combinations, the sales are for combinations of assets; real, personal, and business assets. Most sales include corporate (business) and personal property assets. Further, these transactions often include assets beyond the tangible power plant, such as investment participation, financing, partial interests, off-take and supply contracts, and other valuable closing contingencies. Buyers and seliers are under no obligation to publicly report the portion of the price attributable to the parts of the total sales price in a format that is useful to appraisers. For example, many power plant sales include power purchase agreements (PPAs), which usually have significant price-impacting characteristics. However, it is typically unclear from the publicly available data on the transactions what effect the PPAs had on each sale price. While there frequently is available data to identify comparable sales, there is often not sufficient public data in many cases to complete a credible appraisal adjustment process. We will consider the Sales Comparison Approach when valuing the power plants in Nassau County. Its application will be determine on a property by property basis, or type of plant by type of plant basis, as good assessment practice, applicable law and precedents, and available data dictate.

Traditionally, income strictly attributable to the real property at general commercial properties such as offices and apartments is ubiquitously prescribed by real estate leases or the market potential to be leased. There is no such rental market for power plants. Nonetheless, power plants are income producing assets where the income is generated by the operation of the combination of real and personal property and any business intangibles. At power plants, there is typically no credible and reliable way to isolate the income solely attributable to the real property, such as a lease. The income utilized in the income approach is from operation of the combined assets of the going concern, or the business enterprise. Such intermingling conditions also exist at many other types of commercial property, such as hotels, theaters, hospitals, telephone companies, water companies, landfills, race tracks, and factory mills, among other types. The real property is rarely leased separately at these property types, and the income typically analyzed is from their business operations, just like at power plants. Given this issue, the appraiser must first conclude an overall business value of the going concern for the plant, and then employ various appropriate appraisal procedures to separate out the value of the real and/or personal property or other target interest at the plant. This is standard practice in the valuation of power plants for assessment purpose, nationally and in New York State. In New York State, where much of the power plant is defined by law and regulation as real property, the adjustments necessary to extract the real property value from a going concern value are relatively minor. We will consider the income Approach when valuing the power plants in Nassau County. Its application will be determined on a property by property basis, or type of plant by type of plant basis, as good assessment practice, applicable law and precedents, and available data dictate.

#### 6. Please describe the public relations aspect in your proposal.

Public Relations is one of the strong qualifications of Standard Valuation Services as indicated in Appendix B – subsection c of our response to the RFP. Public Relations with regards to a Systematic Review and Analysis Assessments is available on an as-needed basis. It is our opinion that Public Relations skills will most likely be utilized in explaining to the Nassau County legislature and the public officials within Nassau County, how the Systematic Review and Analysis process is being completed on the Nassau County Assessment Roll. Public Relations will be provided at the request and guidance of the Assessment Department and their requirements.

Based on the interview process of the original RFP, it was brought to our attention that additional services might be required above and beyond our initial Public Relations response to the RFP. Therefore, in our Supplemental Response dated April 12, 2013, we provided a mechanism for additional meetings if needed at a cost of \$325,000. The following titled areas in quotes, consisting of two paragraphs below, is the statement from our Supplemental Response, which was submitted to address the Assessment Department's concern regarding information meetings at all 56 school districts.

#### "Availability for public meetings, including all 56 school districts"

"As stated in our response to the RFP, Public Relations is one of the strong qualifications of Standard Valuation Services. Public Relations with regards to a Systematic Review and Analysis Assessments is available on an as-needed basis. It is our opinion that Public Relations skills will most likely be utilized in explaining to the Nassau County Legislature and the public officials within Nassau County, how the Systematic Review and Analysis process is being completed on the Nassau County Assessment Roll. Public Relations will be provided as required in the RFP and additional meetings will be provided at the request and guidance of the Assessment Department".

"Although we appreciate the need for public meetings throughout the project, we did not include an allowance for the number of additional meetings the Department of Assessment is considering. From prior experience, we feel that having the contractor present at certain public venues can detract and possibly sidetrack the ultimate goal of the public meeting. Focusing on the main objective of the project along with the key milestones accomplished by the Department of Assessment with the assistance of the contractor should be paramount. It is our opinion that delving into specific valuation issues and methodology, although important, should be limited to certain settings. In addition any specific issues that arise at a public meeting can always be addressed afterward, after the contractor has had the opportunity to fully research the issue and provide an accurate response. For this key reason we did not include the cost of such meetings in our proposal. If however, the Department of Assessment requires the contractor to be available at public meetings of this type, we can be available on a per diem basis, which is indicated in the Cost Schedule of the RFP. The cost accounts for 3 to 5 senior appraisers to prepare and attend these forums, which typically would be necessary for this type of meeting".

After the "Notice of Intent to Award" was received, our firm negotiated with The Nassau County Attorney's office a further clarification of additional services for Public Relations. Additional Public Relations was then capped at a total possible expense of \$325,000, calculated to be payable in arears at \$125 per hour for contract staff. This allowed flexibility on what types of meetings the County would need us to attend and be part of, not limited to school district meetings.

#### Please outline the respective responsibilities of the Department of Assessment (DOA) and your company with regard to the Systematic Review?

As stated on the ORPTS website, a systematic review comprises of 4 critical steps. The first two steps are data gathering and stratification of the data. We will work with the DOA to run extensive tests on the existing data to identify any anomalies or properties that require field inspections. Refer to question 1. This process will involve a thorough review of all the existing inventory for the respective Class 1, 2, 3 and 4 properties.

Our analysis will be an independent review to ensure transparency exists, especially when it comes to public relations. Once the review is completed, we will meet with DOA to determine what, if any actions need to be taken to fix noted data errors or develop different or amended procedures to improve the quality of the data used to develop values.

The final stage will be to conduct a comprehensive analysis relating to the uniformity within each class of real property and between all classes of real property. This review will occur by analyzing recent property sales within a defined period of time established by the DOA that conform to IAAO standards (ORPTS promotes the adherence to IAAO standards) and any local jurisdiction laws relating to property valuations (notably golf courses).

Once completed, the DOA will be presented with recommendations regarding the adjustments to existing assessments, if necessary, for all classes of real property. All of our systematic analysis will be presented based on IAAO standards.

#### 8. How do you differentiate coops from condos & rental apartment buildings?

According to New York State Real Property Tax Law, Article 18, Nassau County, by virtue of having a population of one million or more is legally classified as a "special assessing unit". As a special assessing unit, all real property within Nassau County must be classified as Class 1, Class 2, Class 3 or Class 4 as outlined and described in this response.

Nassau County has a very complicated cooperative and condominium property base. Nassau County currently has 474 coop developments and 3 classifications of condominiums. The population includes 8,505 Class 1 Condominium Units, 4,174 Class 2 Condominium Units and 481 Class 4 Condominium Units. Not only do condominium properties reside in three (3) different tax classes, but they must be valued using different methodologies.

**Class 1** condominiums are legally identified as "residential real property not more than three stories in height held in condominium form of ownership". These units were built as condominium units and not converted from another use. Condominiums that fall within this class will be valued and modeled in a similar fashion as the balance of Class 1 parcels, using market based sales to develop an indication of value. The condominium development will typically define the neighborhood and only sales within the development will be utilized to provide value estimates for units within the complex. In small developments that may not have sufficient number of sales, again, as in the case of neighborhood analysis for residential properties, we will determine if multiple neighborhoods should be "linked" together, expand the sales search criteria, etc. **Class 2** condominiums are generally all residential real property held in condominium form of ownership that is not included in Class 1. These types of properties can be broadly categorized as mid- or hi-rise buildings and the valuation methodology applied to this category of property will be similar to that of real property held in cooperative form of ownership as well as "conventional" rental apartment buildings – using income capitalization.

Cooperative apartment buildings that converted from ETPA (rent stabilized) buildings should be reviewed carefully, as NYS Real Property Tax Law requires that they be valued under the assumption that they had not converted to cooperative ownership, and thus would presumably have remained under ETPA guidelines.

**Class 4** condominiums are generally commercial real property held in condominium form of ownership. Units in this category would typically include professional offices or medical offices and would be valued utilizing similar methodology that would be applied to similar commercial office/professional/medical space.

Class 4 condominiums are valued like cooperatives, whereby a value for the whole is determined and individual (unit) values are ascribed and allocated to the respective units based on the offering plan, typically based on percent of ownership. It is assumed that the offering plans are available to review and property/unit physical inventory is complete.

This methodology applies to all types of commercial properties (i.e. offices, retail, industrial) which are held in condominium form of ownership

A thorough review of the entire assessment roll will be undertaken to ensure that all property, to the best of our ability, is properly identified in terms of Property Class, property use code, etc. to ensure the correct methodology is employed that develops accurate estimates of market value.

#### 9. Will you create a *Ratio Study* in *iAS/Adapt*?

It is our firm's intention that we would be creating a ratio study in IAS/adapt in conjunction with your DOA experts and our modelers. We will also be completing all of our statistical analysis, including ratios studies with SPSS and our proprietary modeling software Prognose. The results of these studies will be compared to IAS/Adapt, and any variances in the results will require an examination of IAS to verify that all of the sales data was entered correctly and the proper computation of the ratio study was undertaken. SVS will work with DOA personnel to identify areas for additional training and Thimgan & Associates will assist in preparing staff to use SPSS to confirm the results produced in IAS on an ongoing basis for subsequent assessment rolls. Addenda

Article -- "The Appraisal of Power Plants"

Power stants, also clifted electricity gen entities stations, often present many and interacting oppraisal problems. Power plants can be worth billions of dollars or can have substantial hubidities. Their various letimois stars alter as mixed as those of motorogates. oars, and tracks. Then anarkala and fotallia. with a mix of itsector lorces and measured addels. The uses of the operations are also varial, mingling from peopletitions, finanches regulation, dispution, or property tax purposes, to like or sec reporting, in this orticle, the Tappes, meltiodologies, and practice of power plast appeared and teviewed.

# The Appraisal of Power Plants

by Mark Pomykaez, MAI, and Chris Olmsted

# P

#### The Nature of Power Plants

Power plants generate electricity, their main product and income source, through a combination of processes depending on the technology. Most technologies convert one form of energy, such as chemical (hea) from coal, gas, oil, or aranium to steam) or potential kinetic energy (gas, uil, hydra, wind, geothermat), to mechanical movement (urbines or engines) and then into electron flow (generators). Other technologies also exist, most notably solar. Power plants have other products and services, such as capacity revenue and other ancillary services, and these can be substantial sources of revenue.

#### Measures of Performance

The units of value for power plinus are usually kilowatta (kW), megawatta (MW), kW hours (kWh), or MW hours (MWh). A common unit of performance is the *expirity factor*, which is analogous to orcupancy/varancy rates. Capacity factors measure what is actually produced compared to what could theoretically be produced, and are expressed as percentages. Capacity factors are driven by a combination of technological finitations and market demand. Typically, what, hydro, and solar produce electricity only when there is winit, wher, and sun. Nuclear and coal plants run massed until refucing or maintenance requires a shutdown. Cas turbines run when the market price for electricity supports the cust of operations, As plants age and become increasingly functionally obsolete, or less economically viable, their capacity factors fail, undit economic infeadbility sets in. Table 1 shows the Knergy Information Agency's (GIA's) estimates of typical capacity factors and

The Apprelse Journal, Summer 2014

life spans for a variety of different technologies, as well as a range of capacity factors encountered in the market."

Another measure of performance is heat rules which expresses the amount of heat energy needed. to prograte a unit of electricity, it is an expression of efficiency; the lower the best rate is the better. The newer gas plants are so much more efficient that they often create obsolescence in older plants, lieut rates do not inform as to the impact of fact prices. There are dramatic differences in the cost of different types of fuel. Table 2 shows the RIA data on typical heat rates and fact costs for a variety of different technologies,

lativen the price of the electricity and the price of had for a specific plant, it is useful to compare this to the sum of all other expenses at a specific plant at any given moment. As commodilies, electricity and fact prices can diamac from manager to manager, and frequently do as dramatizably. Decisions to operate, or not to operate, must be made from moment to moment. When fuel prices are sufficiently layer than the price of electricity, it is financially feasible. to operate the plant. Peaking plants, which generally ran only when there is high demand, complete this analysis daily, sometimes hearly. Peaking plants, such as natural pas plants, may produce electricity. outy when electricity prices are high and firel prices. are low, as compared to base-load plants, such as nuclear, coad, and large bydroelectric plants, which

Another frequently used comomic measure is the space spread which measures the difference.

The Appreisal of Power Plants

The Appreisal Journal, Spanner 2014

usually cun regardless of the hourly fluctuations in electricity and fuel priovs.

Unlike must general real estate, where it is extrumely rare for prodent management to withhold reating space for temporary periods due to low market prices, peaking plants and older have-loadtechnologies often producily withhold production due to low market prices for electricity and/or high fuel costs. In effect, atthese times the highest and hest use analysis for these plants fails the test for financial feasibility, hopefully only temporarily, However, this may indicate economic or functional obsolescence. Since the decision to operate or not operate is an option, some power plant appraisals require option valuations, such as Monte Carlo simulations.

The various generation technologies have vasily different characteristics. Nuclear and cost are base load (intended to run nonstop for mombs at a time). Tary have historically represented the most common source of electricity in the United States, accounting for coughly 50% of the supply. They are expensive to baild, and construction takes many years. Natural gas is the samply technology at the marging, and in recent years has been taking away base-load market share from coal plants. In part this is because of advances in hydro fractiteling extraction technology, which currently is lowering natural gas prices and therefore also electricity prices for all technologies. Natural gas plants are also generally less expensive to construct, and can be constructed in relatively short periods of time, Diblired power plants are rarely rost competitive at present, hespose petrologin prices are higher than the other energy sources for electricity generation. Hydro, solar, and wind have no substantial fuel expenses, but are very expensive to construct. There are numerous other basscommon and developing technologies. Each technology has its own distinct physical and economic characteristics, and therefore appenisal considerations also quist vary by technology.

Currently, there is no effective way to share electricity on a large scale. It must be consumed the moment it is generated. Further, the transmission and distribution grid (the grid) cannot contain any more or less supply than is precisely needed to must current demond. Therefore, if demund increases or decreases in any given moment, the supply must be increased or decreased instantaneously in response. If demand increases over time, new grid additions are needed. Power plants must be breated where the grid has an ability to receive the electricity, which is not always where the demand is located. This is both difficult and costly, and is why special payments, known as conjuctly payments, must be made to generators in order to custor that the grid has the aupply it needs the very moment it demands it and evolvy where it needs it.

The demand for electricity in all markets charges substantially over time, both seasonally and lostely, with the summer afternoon hours after heing the highest domand hears due to the need for air conditioning. In practice, in decomplated markets system operators make devisions for the grid about how much electricity to generate, and decide which plants will generate and which will not. The decisions are based on rules to minimize electricity prices, tempered with relighting and em ironmental considerations. In practice, system operators make dispatch plans a day in advance with bourly and sometime minute-by-minute adjustments. Generally, system operators plan well for day-ahead demand and supply. Still, electricity prices remain as variable as many commodity prices, and vary substantially throughout the year. Sometimes, such as during periods of unplanned maintenance at base-load plants or extreme weather, electricity prices out vary dramatically, as shown in the example in Table 5.

In the power generation industry, "at the margins" means when additional supply is needed to meet the newest or most-recent increment of demand. Under correct market conditions, it is most likely a natural gas plant that will be disustened to supply it. Base-load technologies, such as nuclear, coal, and larger hydro plants, are always disputched first, because they are usually the feast-expensive power. They are the least expensive because their fuct costs are lower and their very high original construction costs have been effectively paid down. Wind, solar, and small in dro plants are intermittent. and are usually disputched whenever they are available, as they are relatively inexpensive after construction subsidies are considered, and green initiatives prioritize these sources of energy. If this base-load and intermittent supply does not meet the demand in the market at any given moment,

then other rechnologies such as gas and oil will be dispatched to fill the gap.

Each technidogy has its own economic life cycle. Power plana are more like aniomobiles than general commercial real estate in that they have finite physical and economic lives. Each type of power plant has unique construction costs and timing. Generally, nuclear, coal, and larger haim plants take up to four to six years to build gas and oil plants, as well as wind. take about eighteen months to complete and solar photovoltaic plants take arougd six months. Further, each type has its own operating costs. Consequently, it is difficult but not impossible to compare one technology to another. Such comparisons are needed for feasibility and planning, and government regulation, and are sometimes used in alternativetechnology cost approaches and levelized cost of energy (LCOE) analyses,<sup>1</sup>

Hower plants are complex combinations of real property, personal property (machinery and equipment), and offen business intangibiles' (like first supply contracts or power plant consists of real or personal property or business intangibles depends on the definitions in the law that has inrisdiction over the approximation for evaluation over the approximation context. For example, turbiness may be considered to be real property in one state for ad volocrent taxation, and personal property in another. They may also be classified as shorter- or langer-lived items for deprecision under state and federal law. Environmental safety improvements may be tax exempt in one state and fully taxable in another. Despite these complexities, the main revenues—electricity and vapacity revenues—are earned from all the assets as a considuation. It is rarely easy to discore what or how much of the income is attributable to real, personal, or business intangible property. Power plants are very rarely rented. The real property number plants is also very rarely rented separately from the other assets, and when cruted separately from the other assets, and when cruted separately is usually part of structured financing that limits the lease's probative utility.

#### **Electric Utility Deregulation**

The electricity supply industry can be divised into four segments: generation, transmission, distribution, and miscellaneous services. Decognitation impacted the generation segment of the industry. Decognitation developed over a number of years and developed differently in different states. Many states are not yet decognized. The differences have a critical impact on the apprnisal of power plants.

The Vederal Energy Regulatory Commission (RERC) was established in 1977 to regulate the electricity industry. Prior to 1977, the electricity industry throughout the country was conducted by state-regulated, vertically integrated monopolies (generation, transmission, and distribution). In 1002, the Knergy Policy Act (EPACT), was signed into law EPACT required open access for transmission in order to establish a wholesale electricity market. Utility monopolies could not refuse to transmit competitor's power over the monopolies' transmission and distribution grid.

A transfer stream archite "nonisipant access such as insultances, traineners, controlling, gostiell, equilies, moreal replas, securities and caritories (os distinguistics) from expected access with the grant replas and privileges, and privileges, and the value for the varies" insurances (insurance of Busicess from events) in accession of Busicess from events in accession form events in accession of Busicess from events in a for the events in a for the events in a formation of the event of the even of the event of the event of the event of the eve

The Appraisal of Power Planta

The Appreisal Journal, Summar 2014

I Lengthed nost of energy () COL) is the cost of generating electricity for a particular system, including all the costs of resid lengtheses, operations and maintenance. (not, and equal), the USO is the information price to which energy shall be cold for an energy project to break them. http://www.net.gov/ enalyme/lifth lengt docementation.html.

In 1996, FEBC issued Orders 888 and 889 to definitively resolve full wholesale power generation competition and open access to transmission and distribution. The intent was for each segment within the historically vertically integrated industry to be priced apprendely to prevent owners of transmission and nower plants from offering preferential treatment to their own plants. As a result, public utility companies in many states have divested themselves of their electricy generating power plants into new "independent," decegulated companies, while retaining the regulated transmission and distribution activities. Also as a result of these arts and orders, the financial structure of the circulary generating industry changed from any of equital investment dependence (i.e., measured by construction out) to one driven by competition and income (i.e., measured by operating income and expenses).

#### Impact of Deregulation on Appraisal

Today, only about one-third of the states are decegnlated, and the country has two types of power generation markets: regulated and decegulated. Each has its own basis of value.

Regulated Markets. In the regulated monopoly states, the cost approach remains the best indicator of value, and the income capitalization and sale ที่สมมุลจะมีจากจากจากสายความสายความสายความสายความสายความสายความสายความสายความสายความสายความสายความสายความสายควา techniques. Historically, regulators allowed a regulated utility to construct peacer plant assets so that the utility could meet its obligations to provide electricity. to consumers but only provide an adequate return to investors. The cost basis for the recovery (the rate lase) was calculated to provide a predetermined return on investment for a plant, regardless of the economic fundamentals affecting the plant. As a result, appraisers rightfully favored cost methadologies because they more accurately reflected the true value of regulated power plants, as the regulating complishing had legally curnerial the income from the power plants to the cast of building the power plants. Efficiency and profitability were secondary concerns, but investment risk was low. In regulated power markets, income is fixed by regulation to the cost of construction, via a cate of return that is established by the regulating commission. Thus, the income controlization approach is circular to the cost approach and is not probative to value.

In vertically integrated regulated milities, power plants were rarely sold separately, and there was little or no market for such associa. In regulated morkets, power plants are unually considered aperial property used solely by vertically integrated, regulated milities. Thus, the soles comparison approach is also very merely informative.

Deregnlated Markets. Once the power market was decignized, the legal link between cost and income was broken. Investors were required by the forces of economics, not regulation, to value electric generation power plants like any other involveproducing asset—by forecasting the anticipated cash hows available to investors over the useful life of the investment. The value of a plant was to longer based on the cost to construct it but rather based on its profitability. Power plant developers would no longer be guaranteed a low-risk return (income) that matched their cost to build. Under deregulabon, returns are not guaranteed and bankruptey is a real possibility, but potentially higher centrus are the new reward.

In deregulated markets, buyers, setlers, and analysis universally emphasize the become capitalization approach, where expected incomeand rates of return are based on using slated market conditions, to deregulated markets, costs may be incurred, but the developer has no guarantee of making an adequate return. The cost approach in deregulated markets remains useful when the appraiser properly accounts for all forms of obsolescence, and the approach remains highly probative when appraising special improvements and assets within the combination of assets at a power plant, in a deregulated market, there is an active market for power plants separate from transmission and distribution assets. The sales comparison approach can be used when market data is sufficient, as with the sales comparison approach for any general commercial property. In conclusion, all three approaches to value usually can be upplicable to power plants that are located in deregulated markets.

## Cost Approach

#### Cost-Value Relationship and Disconnect

The basic concern surrounding the cast approach for power plants is that after cast dues not equal value. When appliedly, the cost approach reflects

The Appraisal of Power Plants

- 17 -

market thinking by recognizing that market participants sometimes judge the value of a power plant by considering the cost to create the improvements. However, depending on the cycle of the market and the age and legal status of the plant, simple, madfusied cost is unlikely to equal market value. Unless the appraisal fully reflects all forms of depreciation (physical, functional, and external), then the cost estimate will diverge from market value.

The ish-of estimating each of the various forms of depreciation at power plants is often problematic and sometimes practically impossible. Unlike general real estate, where the property will continue to function if it is adequately maintained, even well-maintained power plants may suffer eritical connuic and functional absolvscence. Common types of abasisseence include obsolete engineering designs and inelligency (from a poor original design or new technologies catering the market); obsolete environmental designs (legal/ regulatory); original cost overrups, current operating-cost inefficiencies (excessive operating costs); and physical aging in a braited life spara, Table 4 shows EIA data and market data pa typical overnight construction costs for a variety of technologies. Overnight construction costs are the costs of construction if no interest was paid during construction, as if the project was constructed oversight. In Table 4, the interest expenses were

estimated at a 7% interest rate over the tariod of construction in order to estimate the all-in costs of construction.

## Cost Approach to Measure Parts of the Whole

While sometimes problematic for averall plant valuation, the cost approach is especially useful for farmers all to attenue to a the overall power plant, including real and personal property, langible and intengible property, taxable and nontaxable property, and the various classes of property at power plants. A now er plant is sometimer referred to as a business combination, an overall asset, or a business enterprise. The market value of the overall asset is referred to as the overall market value. of the plant, or the value of a going concern.<sup>‡</sup> The rompowers are sometimes referred to as pagial interests or usset classes. When used in conjunction with the sales comparison statin come capitalization. oppreaches, the cost approach allords one of the best appealed techniques to allocate the market value of an overall asset to the various partial interests and asset classes of a plant.

## **Reproduction vs. Replacement** Approaches

hoth of the two main cost methods-reproduction cast and replacement cost-are regularly applied to mover plants.

#### Table 4 Typical Construction Costs (S/KW)

Technology	EIA Qvendght Costs*	ffacket Experience Overnight Costs	Tions to Construct (ym)	Ali-In Costs
Nuclear	\$5.530	\$7,000	6.0	\$10,641

#### **Trended Original Cost Mothod**

Although rarry utilized to value general real estate, the trended original cost tTOC) method, a type of reproduction approach, is frequently used for electric utility assets. Historical cost information, even if decudes old, is regularly available on power plants.

In a TOC analysis, the reproducting cost new (BCN) is computed by trending the original linktorical) construction costs to the effective date of the appraisal. This methodology is widely recognized by power plant appraisars, regulators, and courts. This is the predominant appraisal technique in regulated states for rate-base analysis. The usefulness of the TOC method is contingent on the accuracy and completeness of the bisopical cost information and on the treadlog method used. To successfully use treading, the costs by date of expenditure must be reliable and available for each class of assets for the otting plant, and the costs must also include capital repairs made since original construction.

Various widely accepted cost trend references provide the basis for the trending of power plant construction costs. The indices do not give prices for specific cost items in either the historical period or the current period. If ther they provide the change or cost, the delta, between the different dates. Apprnisers apply that delta to the actual original cost at the subject plant to get an RCN as of the apprnisal date. Then proper indices can be applied to pseific rost items, such as tricks, or to whole categories of power plant items, such as tarihae generators.

#### Cost per Capacity Method

The cost per capacity method is a replacement cost spirotelt. Cost per capacity is estimated by multiplying nult cost (usually S/kW of capacity) by the number of units at the subject place. The unit cost can be developed from a variety of sources including research publications, government estimates, contractor estimates, manufacturer estimates, owner estimates, or the comparative-unit method.

The cost per capacity method is relatively practical and is used by many market participants because of its simplicity and availability. However, the apparent simplicity of the cost per capacity method can be misleading, h is sometimes difficult to reconcide the vast differences between the various cost sources and the subject plant, and between this cost approach and the other approaches. Also, this method often is less precise than others.

#### Alternative Technology Analysis

An alternative technology analysis (ATA) is a replacement cost technique. It is based on the principle that value is based on the functionality that the improvements afford its owner, not the materials and design used to make the improvements. This approach assumes that it is not the details of here the improvements generate the power that croate value, but rather that the improvements generate a certain quantity and quality of nover that is marketable in a certain way, for example, when appraising a nuclear power plunt, an ATA could consider the cost to build a natural gas technology alternative plant with an Identical MW rating and capacity factor. The 473 would consider the capital expenditions differences as well as the performance, operating, and first expense differences between the nuclear plant and the alternative gas plant.

Today, the popular choice for the atternative technology to use in such an analysis is natural gas, in part because it is the technology at the margins. For appraisers, who understand the importance of using comparable sales or replacement costs that match the functionality and highest and best use of the subject property, the ATA method is understandobly valid. Some non-approximistic and courts have difficulty accepting this bectmings, even though it is commonly employed by market participants.

#### Depreciation Physical Deterioration

Estimating physical deterioration is often the main source of concern along the validity of a cost approach on power plants. Typical depreciation techniques can be as simple as a single age-overlife rath or as complicated as the breakdown of the subject's assets into their various components for individual consideration.

Models based on the cromonic age-life method are omong the most widely used depreciation irrimiques for power plants. Physical deterioration can be estimated by the straight-line method, and by the age-life method, using montality dispersion techniques. Often the effective age plays the remaining useful life is equivalent to the service life, Accounting and bookkeeping lives are not appropriate for apprnisal purposes. Physical life may be longer than

2001 Receipt The Appraisal Journal, Summer 2014

The Apprasal of Power Plants

# Reprinted with permission from The Appraisal Journal (2014, Summer) ©2014 by the Appraisal Insolute, Chicago, Minois, All Rights Reserved.

the average service life, but it may not accurately represent the usefulness of the service of an asset due to economic or legal reasons. The effective age should reflect the conditions of the plant, which often are not the chronological (actual or historical). age. It should also be recognized that the expected remaining service life of a plant might change during its life evely for reasons other than progressing chronological age (Les cronomic or logal reasons).

#### Functional Obsolescence

Functional obsolescence is common at power plants and is often casily spatted. The types of functional obastescence frequently found include deliciencies requiring an addition, deficiencies requiring a modification, deficiencies requiring additional operating cosis, and super-adequades. Often these deficiencies are incurable, in both the short and long term. Given that the reproduction approach is common for plants, but does not intrinsically exclude linetional obsolescore, appraisers will expend considerable effort on determining functional obsolescence.

#### **Economic Obsolescence**

Changes in market demand, transmission and distribution, federal or state law, the reasons, and any operational constraints external to the asset frommuch cause economic absolescence of power plants. Usually their impact on value can be measured by capitalizing the expected losses in carainga over the period that the condition is expected to exist. In the broadest sense, since deregulation was instituted, the capital improvements made before deregulation may no longer have the ability to produce the originally expected return on the investment. This loss in

potential creates a form of reomatic absolescence that is known an stranded costs.

Common techniques used for estimating functional and communic absolvacement include the capitalization of excess operating costs and the expitalization of income shortfalls. In both, income capitalization reduciques are employed to evaluate the loss in value from specific operating or capital costs, or from an imbility to caru income. While not adequate to measure the value of the alustescence, the existence of obsolescence is often easily discovered by comparing overall income and sales values to the replacement cost new less physical depreciation (RCNLD). Any difference can be attributed to either functional or ecountaic obsolescence or indi-

## Levelized Cost of Energy

An example of functional and economic obsolescence can be seen in Table 5. It is not enough to compare the cost in construct different types of power plants to measure the obsoloscopee, Fuel, for example, plays a major role in obsolvemen, The table reflects the construction couts combined with farl, operating expenses, and other considerations, such as Ranneing costs, time to construct, capacity lactors, and life spars. The table does not reflect the impact of current government incentives. Nor does it reflect external costs (pollulion, decomplicationing easts, transmission costs) or historically paid in equtives and infrastructure (nuclear B&D, railroads, gas pipelines). The table shows that some technologies, do not complete offectively. In practice, conditions at each plant vary substantially, making the obsolesrence either better or worse,

### Table 5 Levelized Cost of Energy (\$/MWh)

## Land Value

#### **Sales** Comparison Approach

The fand at power plants often contributes little in the overall value. An across the large method,' assuming highest and best use similar to the propection from "across the fence," is typically employed to measure the value of the underlying land, The value of licenses, permits, and approvals for the power-generation activity, which can be additantial, are generally accounted for in the soft cost of construction.

## Real, Personal, and Business Residuals

Depending on the use of the appraisal, there are recessions when the value of nome real and personal property, and husiness intengibles must be removed from the overall plant valuation. For property tox appraisal purposes, the value of any tax exempt property must be removed. For HIS and SEC reporting, the value of existing contracts must be senarately reported from the rest. A residual technique is often the best method to isolate the value of the target assets. In general real estate appraisals, a land residast is where the overall real estate value ( $T_{\rm int}$ ) minus limitling value  $(F_{i})$  equals land value  $(F_{i})$ . In power plant appraisals, the residual formula is overall plant value  $(T_{\phi})$  minus excludable value  $(T_{\phi})$  equals the value of the balance of the plant (Fig), which is the appraisal target value of the subject property (F.).

In property lax appraisal, excludable property commonly includes her incentory, pullation control improvements, contracts for fact supply, contracts for the sair of electricity, power purchase agreements, workforce in place, specialized documents (including policies and procedures, manuals, computer software, and drawings), and working capital accounts. As discussed earlier, the cost approach is usually the best method to estimate the value of the excludable tangible property. The value of fuel inventory and of the workforce in place is usually estimated via avoided cost methods. Contracts are usually approxised via a comparison of the plant income streams with and without the contracts, in the same way that a leasefuld analysis compares fee simple income sincams to leased fee income streams.

While the use of the sales comparison approach is common in the appraisal of general commerreal properties, this approach is carely useful in power plant appraisals. Research for information on sales of comparable power plants carely yields nurrouriate and administe data for use in a cossiblesales comparison approach. The market for power plants is national and sometimus international. It is relatively easy to find evidence of an active sales market, flowever, referant critical details about the individual sales are often unattanable. An important qualification of each credible comparable sale is the tevel of amporting data that is publicly available. Since many details concerning the sales of mover plants are confidential, the sales are not adequately verifiable and/or cannot be soundly adjusted. Since power plants are typically business condimations. the sales are for combinations of assets: real, personal, and insiness assets. Most sales include corporate (business) and personal property assets. Further, these transactions often include assets beyond the bargible power plant, such as investment. participation, financing, partial interests, allake and supply contracts, and other valuable clusing contragenefest layers and sellers are under no obligation to publicly report the portion of the price attributable to the parts of the total vale price in a format that is useful to appraisers, for example, many power plant sales include power purchase agreements (PPAs), which usually have significant price-impacting characteristics. However, it is typically nuclear from the publicly available data on the transactions what effect the PPAs had on each sale price. While there frequently is available data to identify comparable sales, there is not sufficient public data in many cases. to complete a credible appraisal adjustment process.

A variety of adjustments are needed in the sales comparison approach. Market condition adjustments are important as values for power plants change frequently due to macroreonomic conditions, including trends in the general economy, fael prices, regulations, and green energy. Adjustments for physical characteristics are typically made for plant design, fuel type, unit size, shutdown units, capacity factor, lost type, unit size, shutdown units, capacity factor, lost type, unit size, shutdown units, capacity

<sup>7</sup> The arrows the finice method is "n long values on method often used in the appresal of considers. The parties the finice method is used to develop a value exercise based on comparison to abusing land." (bitmonery of Real Estate Appress), bit ed., 3.

<sup>8</sup> An attack convect is an agreement between a producer of a resource soil a beyon of a resource to purchase/sell portions at the producer's name conductures investments, when investopedia.com/coma/a/affituke agreement.http.

functional arbitry, and constaining license life. However, the required adjustments for these factors often exonal he made reliably breakse many physical charocteristics of the comparable plants are not released as public information.

Location-based revenue differences also should be analyzed, as electricity priors are usually dependent on the location of each plant. Other locational differences may include the proximity and availability of electric transmission lines, transmission congestion and bottlenecking, water supply, rail lines, and docks. Environmental conditions and the distance to switchyards and substations can have a significant impact on the locational value for a plant. Additionally, adjustments related to income tax differences may be necessary, as taxes are an important factor in the going concern value of each plant. For example the tax incentives play a major role in the feasibility of wind and solar.

It must be recognized that if the appraiser succeeds in Buding adequate sales data and completes a credible sales comparison analysis, the resultant value will most likely be of the business combination. That going-concern value will need to be allocated to the real and personal property if that is the purpose of the approximal.

#### Income Capitalization Approach

Traditionally, income strictly attributable to the reat property of general commercial properties, such as offices and apartments, is ultipulturally prescribed by real estate bases of the market potential to be leased. There is no such cental market for power plants. Nonetheless, power plants are income-producing assets where the income is generated by the operation of the combination of real and personal property and any business mangibles.

At power plants, there is typically no credible and reliable way to isolate the income solely attributable to the real property, such as a lease. The income used in the income expitalization approach is from operation of the combined assets of the going concern or the business enterprise. Such intermingling conditions also exist at many other types of conductrial property, such as forch, theaters, hospitals, telephone companies, water companies, landfills, rare tracks, and factory mills, among other types. The real property is carely leased separately at these property types, and the income typically analyzed is from their business. aperations, just like at person plants. Given this issue, the appraiser must first constitute an overall husiness value of the going concern for the plant, and then employ various appropriate appraisal procedures to separate not the value of the real and personal property or other target interest at the plant. This is standard practice in the valuation of power plants.

The holding period for power plants is driven by physical considerations as well as legal, regulatory, and contractual conditions, and it is often prescribed by common practice among market participants. Under cost-of-service regulations, the holding period of a plant is the same as its expected useful life. For a decegulated power plant, the holding period is typically estimated based on its finite physical and economic life. In both cases, analysts look to the finite remaining life of the plant to form the basis of the holding period. As such, it as common practice to assume a holding period equal to a plant as estimated remaining economic life. Conceptently, some discound cash flow (DCF) analyses are projected for as long as 55 years.

#### Reversionary Value

A seversionary value is assumed in most EECF analyses for commercial real estate. This value captures the income generated from the asset after the end of the holding period, and it is typically calculated by using a dreet capitalization method and then disconting that value to file valuation date. However, unlike general real estate, power plants have relatively short, finite licea. When the holding period for a power plant is assumed to be equal to its remaining economic life, then there will typically not be a reversionary value for the plant at the end of the holding period.

Assumptions made about disposition of the remaining assets for liabilities) may be broken down in three-categories: decommissioning liability, salvage value, and land value. In some cases, power plans carry a decommissioning fund that will be used to fully decommission the plant, eliminating a large future liability. In other cases, the plant will require expensive domalition and concediation work. These assumptions will determine the appropriate manner to estimate any reservicinary value, possible or negative. Other, power plant appraisers conclude that the same of the three reversionary excludentiations act to n zero value.

#### Rue Appreisal of Power Plants

The Appressel Journal, Summer 2014

When a direct capitalization method is completed, the capitalization rate must be adjusted upward to reflect the fact that the income and value decline to zero over the holding period, since the eversionary value of a plant with a finite life is zero. It is common practice in power plant valuation to avoid this issue in DGF reversionary capitalization rates by setting the holding period equal to the plant's remaining economic life. In practice, only DCF analyses of larger hydro plants usually contain a reversionary capitalization of the plant's income, because their very long useful lives often approach infinite lives like with general real estate.

#### **Power Purchase Agreements**

Plant owners regularly contract in advance to sell their power to bulk constrainers via power purchase agreements (PPAs) instead of selling power in the duity mass markets of the independent service operators (ISOs).

PPAs fall into two broad categories: those that have contract prices for the electricity at or near market prices, and those that have contract prices at substantially above or below market prices. Those that have contract prices for the electricity at substantially above or before market prices are often hetween related parties, or there might be more to the transaction than just the sale of electricity for a price. These PPAs do not neer the criteria of market-indicative transactions and connet to used to determine market value for parts of the plant such as the real estate or personal property; however, these PPAs can certainly indicate the value of the going concern. This is analogous to appreising an office building's market value based on inter-company leases or sale-leasebacks that are not hased on market terms, in such cases, if the purpose of the approisal is to determine market value assuming freesimple conditions, the atypical office leaves are replaced with normal market based terms.

#### Installed/Nameplate Capacity

The installed or unmoplate capacity is the plant's claimed expandity designated by the manufacturer or by a capacity rating agency, capacity is usually described in MWs or kWs. Nameplate capacity is the amount of energy a power plant can produce instantaneously, not the amount it will generate over a period of time, household expansity and expansity factor assumptions are combined to forecast electricity available to be sold over time. Capacity factors vary from winter to summer and location to location for the same equipment based on construction, alitude, and local ambient lengerature and humidity.

## Independent Service Operators (ISOs)

In deregulated markets, merchant plants will their electricity in nurkets operated and managed by ISUs. Analogous to trading floors, the power producers and burres consider ISOs their primary public market, ISOs organize the markets, establish trading rules, and document market transactions and prices. The ISOs publish volumes of market data useful to the appraiser, including that on general market supply and demand.<sup>9</sup>

#### Long-Term Trending

Unlike DGF forecasts for general real estate, which are commonly for 10 years, power plant for coasts are curationly for 25 to 35 years, with some for as long as 55 years. The Consumer Price Indices (CPIs) provide an overflent source for forecasting electricity rates, fuel prices, and the general expense rate of inflation over the very long term.

The CPIs are well documented, and powerplant market participants often rely on them. The data rereal a number of important trends. For example, electricity rates largely have not kept pace with general inflation over the decades. One theory is that commodities, like electricity, trend at rates lower than other products and services in the coopony, and the CPI is the average of all products and services. Another theory is that decagatation, which began in the late 1990s and was supposed to hower electricity prices, has been effective.

The data also show that in the short term, price trends for any given plant will be driven by heat market conditions. Appraisers must examine local plans for plant references and new additions as well as transmission constraints, and fuel supply conditions. These focal trends can cause faced prices to trend in dramatically different fashion than the long-term CPI trends, until a new market confliction is achieved.

Attenuatives to trending prices using the CPI include using ELA long-term price forceasts,

8 for example, market that on hadanced electricity proces in the line York ISO can be used at www.sytzo.com/sublec/markets operations/market data/ mong data/ardes.jon

The Appraisal of Poeter Plants

Reprinted with permission from The Appraisal Journal (2014, Summar) 122914 by the Appraisal Institute, Chicago, Bhrois, All Rights Reserved.

forecasts by other public entities, and information from private forecasting companies.

#### Fixed and Variable Exponents

Operations and minimumater (O&M) expenses are analyzed as is normally done in the appraisal of inconceptraducing properties, with one exception. Considerable special efforts are typically made to inconception of the special efforts are typically made to increase fact expenses, separate and apart from other O&M expenses. Also, parent company administrative expenses may need to be appartioned down to the subject plant when the plant is owned and managed in a portfolio of plants.

#### Income Taxes

Unlike nearly all appraisals of general real estate. never plan) income approaches are usually completed after deducting income taxes. This is useful and often necessary for several reasons. A major contributor to the value of many plants is its effortive income tax rate. Nower plants often have tax herafits, including accelerated depreciation, incestment tax credits, exemptions, or others. Also, while traditional real estate appraisals are completed before income taxes and most of the theory and data to the real estate attornisal community is arranged for before-income my mulysis, business appraisals are traditionally completed on an after-income tax. basis. Most of the financial market data available for the power industry is on an offer-income tax basis, and nearly all market participants appraise on an information in basis. In theory, both before- and after-income tax appraisals should yield the same indication of value, but only when the tax benefits are fully and properly adjusted for. Another advantage of the alter-income tax analysis is that the inputs and adjustments are explicit and thus available for easier review.

When forcensing the tax rate for a power plant, it is necessary to use an effective income tax rate for the market. Plant owners rarely pay the statutory tax rates. This includes both federal and state income taxes but adjusts for typical exemptions, deferments, and abatements. Capital expenses, depreciation, and interest expenses must be determined in order to compute the effective income taxes. Depreciation expenses should be calculated utilizing the muchiled accdemicd cost accovery system (MACRS). However, simpler methods may be succeptable in some cases. The power generation industry relies heavily on debt financing. If the goal is to estimate market value, appraisers forecast this expense by applying industry or market-specific interest rates as of the valuation due to the partinu of the plant's value that is estimated to be financed with debt.

## **Capitalization and Discount Rates**

Theoretically, there are several possible methods for estimating capitalization and discount rates, including market surveys, extendion from market sales, and various mathematical financial formutas. Extraction from power plant sales very rarely yields sound and adequate data. Also, there are no surveys of power plant capitalization and discount rates. Therefore, rates are usually determined using well-known financial formulas.

Power plant appraisers inspeculy complete a formula based analysis of discount rates isnay n as the weighted average cost of capital (WAGU)<sup>19</sup> in the business appraisal community. In the real estate appraisal community, this formula is recognized as a band of investment formatic." The major difference is that the band of investment formula is typically used to determine conitalization rates for real estate before income taxes, while the WACC is typically used for discount rates after income taxes. The basic elements of yield for capitalization) rates are defuand equity yield. When combined, they indicate the overall investment yield. This cost of envital nuclesis is "weighted" because it incorporates the percentage of the total investment that debt contributes and the preventage that equity contributes, which is a weighted-average couropt. Algebraically, the WACC analysis is expressed in the following equation:

The Appraisel of Power Plants

The Appraisal Journal, Summer 2014

<sup>10.</sup> Weighted overage can at capital to the cost of copital (discount rate) determined by the weighted everype, at mostlet values, of the cost of all interests county in the business entertained's capital sinceture." Y, - equity yield rate

→ effective income las rute.

#### Equity and Dabt Yields

There are several well-developed theories and widely used effective methods for estimating the equity cost of capital, including the build-up method and the capital asset pricing model (CAPM).12 The build-up method is an additive model in which the equity return on an asset is estimated as the sum of a sisk-free rule and one or more risk premiums. The risk-free rate is usually long-term 158 government bund yields. The risk premiums adjust for risks assucialed with systematic and maystematic risks, size, and industry tisk, illicability, and managerial effort util others. The CAPM formula takes into account the sensitivities to non-diversifiable risk talso known as as stematic risk or market risk), often represented as a bern coefficient.<sup>13</sup> Like the build-up method, it legins with the expected return of a risk-free asset and then adjusts for the market-wide expected return. Thurs is much literature on both the buildup and CAPM formulas, and thus they will not be covered further here.

Debt calos are estimated the usual way with me exception. The pre-locone-tax debt rate is adjusted for the ability to deduct debt interest expenses from income taxes, by multiplying the cost of debt by one arinus the effective tax rate.

#### Working with Other Professions

The power plant appraiser will frequently join with professionals from other disciplines in order to complete a power plant appraisal. Hower plant appraisals often benefit from consultation with professional engineers. In fact, some states and courts require it. Further, appraisers regularly use the services of electricity and fucl-price forceasters. Other professionals may include regulatory experts, reanomists, methematicians, attorneys, and accountants who have expertise in some electron trelated to the appraisal problem at hand.

## **Reconclitation for Overall Value**

There are two considerations one must weigh when applying various approaches to value. First, appraisers should use those approaches commonly utilized by market participants.<sup>14</sup> Second, the supply of data within a market, or within a particular timeFrame, may preclude the development of indications of value by one or more of the approaches to value commonly employed in other appraisal practice areas.

Concrally, the sales comparison approach is not employed to determine the value of power plants due to the lack of reliable public starket data. Within regulated markets, the root approach is most often employed, in deregulated markets, all three approaches are frequently employed. However, in deregulated markets the income capitalization approach is the primary method used by market participants, and it is typically the approach prescribed by approxal theory as being the most appropriate.

#### Allocations

In power plant valuations, the income capitalization and sales comparison approaches usually indicale going-concern values rather than purely real estate or personal property values. The appraiser must exercise care to report which type of value is concluded as of each point in the appraisal. If the purpose of the appraisal is to report the value of something other than the overall business value, as indicated by the income capitalization or ades

comparison approaches, then some farther analysis beyond the overall value from such approaches will be necessary. A cost approach analysis may or may not have been completed in a manner to indicate directly the target value to be approaches. If a unitinplace cost approach was developed, then business intangibles were likely excluded, but real and personal property may still be interminghed, requiring further analysis, if a trended original east approach was employed, it may have reported the value of real and personal property separately. Typically the further analysis will include the use of various allocation techniques.<sup>15</sup> Kytraction techniques are not typically utilized due to the lack of detail usually available in the market data.<sup>16</sup>

#### **Unitary Valuation**

Sometimes it is more credible and reliable to appraise a single power plant by utilizing a unitary method of valuation.<sup>21</sup> Gommonly used in some states for property taxation, unitary valuation is a type of allocation where the first step is to appraise the entire company that owns the soldjert plant alongside other husiness activities and assets. After concluding the value for the company, techniques are used to allocate the partion of the business value attributable to the subject plant. Lastly, if needed, the allocated plant value is further allocated to real and personal property and business mangible values.

#### Conclusion

Appraising power plants is a specially practice and requires the utilization of infrequently employed appraisal theory and techniques, but in the end, no new practices will be needed for the wellread appraiser.

Mark Pontykacz, MAI, is the managing partner at Foderal Appraisal & Consulting LLC. Pontykacz specializes in the appraisal of power plants, refinances, utilities, intrastructure, and other speciality proporties and issues. Pontykacz leads the power plant, utilities, and infrastructure valuation group at Foderal Appraisal. Pontykacz has over 28 year in business and real estate appraisal and odvisory services. He regularly publishes and teaches on complex appraisal matters. Geldact: mark@ederalappraisal.com

Chils Olmstod is a sonior appraisar at Federal Appraisal & Consuling LLC. Olmsted is bicensed as a state certified general real estate appraiser and is pursuing the MAI designation with the Appraisal institute. Olmsted has been with Federal Appraisal institute. Olmsted has been with Federal Appraisal institute. Olmsted has been with Federal project a strategies of a wide range of commercial property types, including power plants, resirvads, oil refinence, and other complex properties. ## August 20, 2015

Expanded Time Line Scope of Work Summary

## **Project Management**

- Assemble SVS team
- Technology and software acquisition and implementation
- Designating office space and establishing operating procedures with DOA
- Provide informational seminars to DOA
- Examination and Testing of Existing Valuation Models and Procedures
- Status meetings with DOA
- Project startup protocol meeting
- Obtain electronic files for assessment roll
- Obtain electronic files for property inventory
- Obtain electronic files for Sales File
- Obtain list of settlements, grievances, etc.
- Obtain list of property splits and merges
- Obtain list of building permits
- Obtain list of Sandy Damage properties
- Obtain GIS files

## **ORPTS** Oversight

• Quarterly reports as needed

## Public Relations (As needed)

## **Public Meetings**

• (If service is requested by Nassau County)

## Inventory Data Verification, Editing & Management

- Utility Properties (Class III and the Utility Component of Class IV)
  - Obtain all ORPTS Advisory Appraisals at startup
  - 0 Identify inventory items needed, i.e. poles, utility lines, transmission lines

- Residential (Class I), Excluding property use Codes 300's and 500's
  - 0 Obtain last 4 years of inventory (to match with sales files)
  - Obtain last 4 years of building permit data (to match with sales files)
  - Run SPSS to identify potential errors with data and identify outliers
  - Establish standard rules and procedures for specific housing types (similar data edits established by ORPTS, (sizes, styles, etc.)
  - Class One Condominium And Homeowner Associations inventory will be validated based on typical single family physical characteristics
  - Residential inventory will be stratified and analyzed based on specific property characteristics i.e., (Style, grade, CDU, location, etc.)
  - Provide monthly report of parcels that require correction.
  - Recommendations for data correction (excludes neighborhood)
  - Reports and analysis will be established by defined neighborhoods (see below)
  - Identify Class 483 (converted residences) to determine if property is in the correct Class (I or IV). Confirm use with DOA to ensure properties are classified correctly so that they can be valued appropriately
  - Split lot review
- Identify potential split use properties (residential and commercial use, i.e. single family house with a marina).
  - Confirm use with DOA to ensure properties are classified correctly so that they can be valued appropriately

## Sales Verification & Analysis & Edits (consider foreclosures in various markets)

- Utility Properties (Class III and the Utility Component of Class IV) (please see attached supplemental Scope of Work details from Federal Appraisals)
- Residential (Class I), Excluding property use Codes 300's and 500's
  - Obtain electronic files for Sales File for last three years
  - Develop procedures with DOA to create a valid sales file
  - Create a file containing all valid sales
  - Cross check file with DOA's sales file
  - A report listing discrepancies will be prepared and reviewed with DOA
  - Final valid sales file will be reviewed and authorized with DOA
  - Create holdout sample of sales for testing purposes in accordance with IAAO established procedures
  - Use SPSS to conduct sales ratio analysis based on agreed area of stratification/delineation with DOA

## Expanded Time Line Scope of Work Summary

- Test & evaluate current IAAO comparable weighting scale relating to locational proximity adjustments and sales selection
- Value 483.01 Class (Partially converted residential properties) as residential, with sales of similar use. If it is determined that primary use is commercial, provide list to DOA so that these parcels can be included in the Class 4 valuation. Will utilize DOA as well as ORPTS assessment manuals to assist in determining the proper valuation methodology

## Residential Vacant Land

- Identify Vacant Land Sales for the past four years to assist in benchmarking land tables
- Land tables will be analyzed to identify key site characteristics, i.e. waterfront, commercial, railroad influence, etc.
- Review existing land factors to determine if additional factors are required, or additional factors need to be modified. This includes the increment and decrement adjustments applied.
- ♦ Land valuation table changes, land factor changes

## Neighborhood Delineation/analysis & refinement

- Use classical appraisal methodology to review current delineation and identify any necessary refinements
- Apply model fabric analysis using statistical models where traditional neighborhoods are not part of the equation.
- Allows for spatial review isolating location
- Provide GIS maps indicating neighborhoods and changes, if required
- Identifies highly correlated property characteristics.
- Grades, CDU'S, Location Factors, Styles, And IAS Coefficients
- Locational influence change recommendations

## Review

- Utility Properties (Class III and the Utility Component of Class IV) (please see attached supplemental Scope of Work details from Federal Appraisals)
- Residential (Class I), Excluding property use Codes 300's and 500's
- GIS review of each model (plot predicted values, identify weaknesses, determine uniformity, etc.) ongoing through the project

## Market & Statistical Analysis/ Trending & LOA Analysis

- Review current system for development of market trends
- Analyze sales for current market trends
- Market Trends as independent variables in regression analysis Utilize spline procedures in order to capture changing market trends Identify sub-strata trend groups

## Expanded Time Line Scope of Work Summary

## Valuation Development/ Testing & production

- Utility Properties (Class III and the Utility Component of Class IV) (please see attached supplemental Scope of Work details from Federal Appraisals)
- Residential (Class I), Excluding property use Codes 300's and 500's
  - Review current valuation model creation procedures
    - ~ Identify level of education of county modelers
    - ~ Provide recommendations for changes and improvements

## ♦ Review software system model process

- ~ Data analysis
- ~ Regression analysis
- ~ Model application
- ~ Value review
- ~ Review of comparable sales results including distance points
- ~ Create test model using current system and one using a generic statistical software
  - program (SPSS)
- ~ Review of modeling variable adjustments (s.f, land size, locations, grade, CDU, garage, etc).
- ~ If current system performs equally to generic statistical software programs, create all models in current system.
- ~ Model change and delineation recommendations (on-going through project)
- ~ If current system under-performs, create models in SPSS, as a check. It is understood that all models must be in workable order within the Nassau County IAS\ADAPT System
- ~ High Value And Outlier Values And Methodologies Over \$1,500,000 And Over \$3,500,000
- ~ Condominium and homeowner association analysis
- Cost Table Review and Recalibration
  - a) Cost table review and recalibration
    - b) Review Of Depreciation Methodology And Management In IAS/Adapt
    - c) Review Of Other Building And Yard Cost Tables
  - OProvide summary of findings with recommendations

## **Testing & production**

- ◊ Perform Statistical analysis review
  - o Ratio Studies
  - o Model narratives including findings and areas of concern
  - o Review application of model to general population
  - o Value testing of IAS values
  - o Impact studies by various property characteristics and locational boundaries
  - o Recommendations For Resetting The MRA Matrix/Coefficients In IAS/Adapt
  - o Recalibration of Multiple Regression Analysis (MRA) components
- GIS review of each model
  - o Review both sales and values applied to population
  - o Identify any locational weaknesses
  - o Review model uniformity by attributes
- ♦ Ensure compliance with ORPTS & IAAO
- Update system with current models

## Prepare values for tentative Result

- ◊ Utility Properties (Class III and the Utility Component of Class IV)
- Residential (Class I), Excluding property use Codes 300's and 500's

## Assessor recalculates exemptions

## Review/Test tentative Result

- Utility Properties (Class III and the Utility Component of Class IV)
- Residential (Class I), Excluding property use Codes 300's and 500's
- Analyze values on tentative roll to ensure the same or better quality result from the model process.
- Create test Model using current system and one using secondary statistical software program (SPSS) (on-going through project)
- Utilize both statistical and GIS tools

## Expanded Time Line Scope of Work Summary

## **ORPTS Review/Test tentative Result**

- Utility Properties (Class III and the Utility Component of Class IV) Produce and Submit appropriate documentation to ORPTS, as required
- Residential (Class I), Excluding property use Codes 300's and 500's Produce and Submit appropriate documentation to ORPTS, as required

## Finalize Tentative Result

- Utility Properties (Class III and the Utility Component of Class IV) Produce and Submit appropriate documentation to DOA, as required
- Residential (Class I), Excluding property use Codes 300's and 500's Produce and Submit appropriate documentation to DOA, as required

## Additional Market & Statistical Analysis

- Utility Properties (Class III and the Utility Component of Class IV)
- Residential (Class I), Excluding property use Codes 300's and 500's
- Analyze values on final roll to ensure the same or better quality result from the tentative roll.
- Utilize both statistical and GIS tools

## Additional Testing for the Final Result

- Utility Properties (Class III and the Utility Component of Class IV)
- Residential (Class I), Excluding property use Codes 300's and 500's
- Use holdout sample to test the accuracy and consistency of final assessment roll

## Produce Final Result

July 23, 2016

Matthew L. Smith, MAI, SRA, MRICS Standard Valuation Services 27 East Jericho Tumpike Mineota, NY 11501

RE: Initial Nassau County Systematic Review Scope of Work - Class III Property

Dear Mr. Smith:

This letter presents our proposed scope of work based on the initial information we have available to us at this time. This scope of work assumes that we will receive substantial amounts of the necessary data on the Class III properties that are the Subjects of this portion of the Systematic Review prior to starting work. The requested information includes the following:

- 1. A full inventory of all of the Class III and Class IV Utility properties currently on the tax rolls,
- 2. All available assessment records on all of the properties,
- 3. All available information on any current or past court cases, decisions, PILOTS and settlements on any of the properties, and
- 4. Any other information deemed to be relevant to the Systematic Review.

Given the size and complexity of this activity, we anticipate and will accommodate unexpected information and complications as we work through this process. These unexpected details may require revisions to the following initial scope of work.

Assemble the data and set up the files and systems needed for the review; identify the various property types and analyses required; Set up the analysis teams for each type of property. Complete the systematic analysis of all current assessments to determine which require further analysis and potential adjustment.

If the analysis indicates that uniformity in a property type is good and that assessments are equivalent to current values, no change may be necessary.

If the analysis indicates that uniformity in a property type is good but that assessments are not equivalent to current values, the assessments may be trended to current rates.

If the analysis indicates that there is a lack of uniformity in a group or not enough data to determine uniformity, a reappraisal will be conducted for those parcels using one or more of the three accepted approaches to value (cost, market, or income). We anticipate using primarily cost approach techniques for the Class III Utility Company machinery and equipment, and a combination of sales, cost, and income approach techniques for the Class III special franchise real property rights and the Class IV utility properties.

Complete reappraisals for the standard property types and properties with no special issues; identify the atypical properties and properties with additional issues and / or analyses required; Begin the analyses on atypical properties and properties with additional issues. Both Computer

## Nassau County Systematic Review Work Plan - Class III Property

Assisted Mass Appraisal ("CAMA") and individual property appraisal processes and procedures will be utilized to optimize the accuracy and efficiency of the reassessment process. All of these analyses and reports will conform to the appropriate standards of the Uniform Standards of Professional Appraisal Practice ("USPAP"),

We will follow a standard appraisal process when developing the reappraisals for ad valorem tax assessment purposes. The standard appraisal process includes the following steps:

- Definition of the Problem This step includes identification of the real estate being appraised, the property rights being appraised, the intended use of the appraisal for ad valorem reassessment purposes, the date or dates of value, the definition of value used in the appraisal, and any other assumptions or other limiting conditions.
- 2. Initial data collection and analysis Including initial conclusions of Highest and Best Use
- 3. Completion of one or more of the three Approaches to Value Cost, Market, and Income Approaches to value are considered
- Reconciliation and Final Conclusions of Value Indications of value from the various approaches are reconciled into a final conclusion of value
- 5. Report writing The report is written to a sufficient level of detail to support the intended use.

In addition to completing the various valuation exercises in conformity with USPAP, we will also consider the Special Franchise Assessments and Full Values Procedure for City, Town, and Village Assessment Rolls as published by the New York Department of Taxation and Finance, and will utilize the procedures and guidelines therein where appropriate. A copy of these procedures is attached to this document.

Should you have any questions with regard to the matters discussed herein, or if we can be of any further assistance to you, please contact Mr. Mark Pomykacz by phone at (908) 534-3595 or through email at <u>MPomykacz@FederalAppraisal.com</u>.

Respectfully submitted,

Mark Pomykacz, MAI, MRICS Managing Partner State Certified General Real Estate Appraiser New York License #46000000871

Department of Taxation and Finance

# Special Franchise Assessments and Full Values Procedure for City, Town and Village Assessment Rolls

For questions concerning this procedure contact:

Special Franchise Phone: (518) 530-4900

- 1 Scope
- 2 Valuation of Special Franchise
- 3 Calculation of Special Franchise Assessments and Full Values
- 4 Schedules of Service Lives and Salvage Factors

## Part 1 Scope

These procedures shall apply to the calculation and establishment of special franchise full values and assessments for the assessment rolls of cities, towns and county assessing units beginning with the 2006 assessment roll.

## Part 2 Valuation of Special Franchise

- 1. Valuation of special franchise property, generally.
  - a. In an assessing unit which has completed a reassessment or which is expected to complete a reassessment, the value of the special franchise property equals the reproduction cost new, less deprectation of the tangible property, plus the value of the intangible property.
  - b. In an assessing unit which has not completed a reassessment and which is not expected to complete a reassessment, the value of the base property and the value of the subsequent property are determined as follows:
    - 1. The value of the base property equals the value of the tangible base property, plus the value of the intangible base property.
    - The value of the subsequent property equals the reproduction cost new, less depreciation of the tangible subsequent property plus the value of the intangible subsequent property.
- 2. Calculation of reproduction cost new.
  - a. Reproduction cost new for a valuation unit of an account of property other than telephone and telecommunication property reported under 20 NYCRR 8197-2.1, equals the original cost divided by the year installed index, multiplied by the price level index, as set forth in the Handy-Whitman Index.
  - b. Where the Handy-Whitman and the AUS Telephone Plant indices provides semiannual cost indices, the year installed index equals the sum of the following:
    - 100 percent of the latest available cost index for a valuation unit installed during the year preceding the year in which the assessment roll on which the special franchise assessment or full value is to be entered is completed and filed; and

## Special Franchise Assessments and Full Values Procedure for City, Town and Village Assessment Rolls

- 2. for all other valuation units, the sum of the following:
  - I. 50 percent of the cost index as of July 1st of the year of installation;
  - ii. 25 percent of the cost index as of the January ist immediately preceding that used in subparagraph (i) of this paragraph; and
  - III. 25 percent of the cost index as of the January 1st immediately succeeding that used in subparagraph (i).
- c. Reproduction cost new for a valuation unit of an account of telephone and telecommunication property, reported under 20 NYCRR 8197-2.1, equals the original cost divided by the year installed index, multiplied by the price level index, as set forth in the AUS Telephone Plant.
- d. If a special franchise owner or municipal corporation has previously contested an index, unit price or other figure used in the computation of a special franchise assessment or special franchise full value, and establishes that a different figure should have been used, that figure may be used to compute the tentative special franchise assessment or tentative special franchise full value.
- 3. Valuation of tangible property.
  - In an assessing unit which has completed a reassessment or which is expected to complete a reassessment, the reproduction cost new, less depreciation of the tangible property of a special franchise shall be determined as follows:
    - 1. The reproduction cost new, less depreciation (RCNLD) of each account of property reported under 20 NYCRR 8197-2.1 is determined as follows:
      - I. Determine the reproduction cost new of each valuation unit by trending surviving original cost.
      - ii. Multiply the result for each valuation unit by factors for physical depreciation and subtract the result from subparagraph (i) of this paragraph.
      - iii. Multiply the result of subparagraph (ii) by a factor for functional obsolescence, if applicable, and subtract from the result of subparagraph (ii).
      - iv. Multiply the result of subparagraph (iii) by a factor for economic obsolescence, if applicable, and subtract from the result of subparagraph (iii).
      - v. In no instance shall the result of the deductions for physical, functional and economic depreciation exceed the minimum percent condition of five percent of reproduction cost new.
    - 2. The reproduction cost new, less depreciation of each account of property reported under 20 NYCRR 8197-2.3 (or 8197-2.6) is determined as follows:
      - L Multiply the number of units of measurement in each valuation unit by the appropriate unit price. Prices are on file in the Valuation Services Bureau.
      - ii. Multiply the result for each valuation unit by factors for physical depreciation and subtract the result from subparagraph (i) of this paragraph.
      - iii. Multiply the result of subparagraph (ii) by a factor for functional obsolescence, if applicable, and subtract from the result of subparagraph (ii).
      - iv. Multiply the result of subparagraph (iii) by a factor for economic obsolescence, if applicable, and subtract from the result of subparagraph (iii).
      - v. In no instance shall the result of the deductions for physical, functional and economic depreciation exceed the minimum percent condition of five percent of reproduction cost new.
    - 3. The reproduction cost new, less depreciation (RCNLD) of the tangible property of the special franchise equals the sum of the reproduction costs new, less all forms of depreciation (physical, functional and economic) depreciation of the special franchise in the assessing unit.
  - b. In an assessing unit which has not completed a reassessment and which is not expected to complete a reassessment, the value of the tangible base property and the reproduction cost new, less depreciation of the tangible subsequent property of the special franchise owner shall be determined as follows:

Special Franchise Assessments and Full Values Procedure for Cily, Town and Village Assessment Rolls

- The value of the tangible base property is determined by multiplying the surviving original cost of the tangible base property in each account by the percent condition used to establish the 1953 assessment of the special franchise and adding the results for all of the accounts.
- 2. The reproduction cost new, less depreciation of the tangible subsequent property is determined in the manner provided in subdivision (a) of this section.
- 4. Allowance for physical depreciation.
  - Subject to the limitations in subdivisions (b) and (c); of this section, in determining the value of tangible property, there shall be an allowance for physical depreciation of surviving property in the account calculated as follows;
    - 1. Subtract the appropriate net salvage percent from 1.00.
    - 2. Divide the age of the property by its service life.
    - 3. Multiply the result obtained in paragraph (1) by the result obtained in paragraph (2).
  - b. In the calculation of physical depreciation, the result of age divided by service life may not exceed 1.0000.
  - c. The allowance for physical depreciation may not be greater than:
    - 80 percent through 120 percent of service life; At the point where the percent condition reaches 20%, the annual rate of depreciation alters to a slope that is determined by a straight line that decreases at a ratio of an additional 15% condition to the difference between 80% and 120% of service life; or
    - 2. 95 percent over 120 percent of service life.
  - d. If a special franchise owner or municipal corporation has previously contested a service life, net salvage percentage or other figure used in the computation of a special franchise assessment or special franchise full value, and establishes that a different figure should have been used, that figure may be used to compute the tentative special franchise assessment or tentative special franchise full value.
- 5. Allowance for functional obsolescence. There shall be an allowance for functional obsolescence where the application submitted by a special franchise owner demonstrates the existence of functional obsolescence. The allowance shall be expressed as a factor.
- 6. Allowance for economic obsolescence. There shall be an allowance for economic obsolescence where the application submitted by a special franchise owner demonstrates the existence of economic obsolescence. The allowance shall be expressed as a factor.
- 7. Valuation of intangible property.
  - a. In an assessing unit which has completed a reassessment or which is expected to complete a reassessment, the value of the intangible property shall be the greater of:
    - five percent of the reproduction cost new, less depreciation of the tangible property; or
    - 2. the capitalized excess earnings attributable to the intangible property in the assessing unit
    - if the capitalized excess earnings attributable to the intangible property cannot be determined due to the unavailability of required data, then the value of the intangible property shall equal five percent of the reproduction cost new, less depreciation of the tangible property.
  - b. In an assessing unit which has not completed a reassessment and which is not expected to complete a reassessment, the value of the intangible base property and the intangible subsequent property are determined as follows:
    - 1 The value of the intangible base property equals five percent of the value of the tangible base property.
    - 2. The value of the intangible subsequent property is the greater of:
      - i. five percent of the reproduction cost new, less depreciation of the tangible subsequent property; or
      - ii. the capitalized excess earnings attributable to the Intangible subsequent property in the assessing unit; or

## Special Franchise Assessments and Full Values Procedure for City, Town and Village Assessment Rolls

- III. If the capitalized excess earnings attributable to the intangible subsequent property cannot be determined due to the unavailability of required data, then the value of the intangible subsequent property shall equal five percent of the reproduction cost new, less depreciation of the tangible subsequent property.
- 8. Excess earnings rule.
  - a. The capitalized excess earnings shall be determined as follows:
    - Determine the rate base, the achieved rate of return and the market required rate of return, as defined in subdivision (e) of this section.
    - Add one percent to the market required rate of return and subtract the sum from the achieved rate of return.
    - 3. If the result is greater than zero, multiply the result by the rate base and capitalize the product at a rate equal to the market required rate of return plus one percent.
  - b. The capitalized excess earnings attributable to the intangible property or the intangible subsequent property in the assessing unit shall be determined by multiplying the capitalized excess earnings by the State allocation factor, if applicable, and the assessing unit allocation factor.
  - c. The computations required by this section shall be based upon averages of the data for the five fiscal years immediately preceding the date as of which the property is to be valued; provided, however, that where less than five years of data are available, the computations shall be based upon the averages of the data that are available within that period.
  - d. The computations required by this section shall not apply to a waterworks corporation with annual operating revenues of less than \$250,000 or to a cable television company with less than 1,000 subscribers and an operating income for the immediately preceding fiscal year of less than \$250,000.
  - e. When used in this section:
    - 1. Achieved rate of return means net operating income divided by the rate base.
    - 2. Amortization means that gradual extinguishment of an amount in an account by distributing the amount over a fixed period, such as the life of the asset or liability to which it applies, or the period during which it is anticipated the benefit will be realized.
    - 3. Assessing unit allocation factor means:
      - in an assessing unit which has completed a reassessment or is expected to complete a reassessment, the ratio that the reproduction cost new, less depreciation of the tangible property within the assessing unit bears to the reproduction cost new, less depreciation of all of the tangible property of the special franchise owner within New York State; or
      - ii. in an assessing unit which has not completed a reassessment and is not expected to complete a reassessment, the ratio that the reproduction cost new, less depreciation of the tangible subsequent property within the assessing unit bears to the reproduction cost new, less depreciation of all of the tangible property of the special franchise owner within New York State.
    - 4. Capital structure means the sum of long-term debt, preferred stock, common equity and deferred income taxes using year-end book cost as of the close of the calendar year for special franchise owners which report to the Public Service Commission or the Federal Energy Regulatory Commission, and as of the close of the fiscal year for all other special franchise owners. For purposes of determining the capital structure of a special franchise owner, which is a subsidiary of a parent company, the ratio of debt to equity of the special franchise owner shall be the same as the ratio of debt to equity approved for the special franchise owner by the appropriate regulatory agency in the most recent rate case or, if there has been no such rate case, the ratio of debt to equity of the parent.
    - 5. Common equity means the amount of common stock plus premium on common stock plus retained earnings less reacquired common stock less common stock expense plus any additional paid-in capital associated with common stock, as reported on the

4/16

6/16/2015

## Special Franchise Assessments and Full Values Procedure for City, Town and Villago Assessment Rolls

financial statement submitted to the appropriate regulatory agency or ORPTS.

- Debt discount means the excess of the face value of the debt securities plus interest accrued at the date of the sale over the cash value of the consideration received from their sale.
- 7. Debt expense means all expenses in connection with the issuance and initial sale of evidences of debt, such as fees for drafting mortgages and trust deeds, fees and taxes for issuing or recording evidences of debt, cost of engraving and printing bonds and certificates of indebtedness, fees paid trustees, specific costs of obtaining governmental authority, fees for legal services, fees and commissions paid underwriters, brokers, and salesmen for marketing such evidences of debt, fees and expenses of listing on exchanges and other like costs.
- 8. Deferred income taxes means the amount of Federal corporate income tax liability not presently payable resulting from the use of accelerated depreciation and amortization and investment tax credits.
- 9. Embedded cost of debt means the annualized interest on long-term debt, plus the annual amortization of debt discount and debt expense, less the annual amortization of a premium on long-term debt, all divided by long-term debt. For a special franchise owner which is subsidiary of a parent company, the embedded cost of debt shall be the same as the embedded cost of debt approved for the special franchise owner by the appropriate regulatory agency in the most recent rate case or, if there has been no such rate case, the embedded cost of debt of the parent.
- 10. Embedded cost of preferred stock means preferred stock dividends annualized divided by preferred stock.
- Long-term debt means the unpaid balance of notes, bonds and other evidences of debt payable after one year from the date issued plus any unamortized premium less unamortized debt discount and debt expense and any reacquired long-term debt.
- 12. Market required rate of return means:
  - i. Except as otherwise provided in this paragraph, the sum of the following calculations:
    - a. <u>long term debt</u> x embedded cost of debt capital structure
    - <u>preferred stock</u> x embedded cost of preferred stock capital structure
    - common equity x rate of return on common equity capital structure
  - ii. For a pipeline corporation which is subject to the jurisdiction of the Federal Energy Regulatory Commission (FERC) pursuant to the Connolly Hot Oil Act (15 USC §§ 715 et seq.), the yield shall be the median return on rate base for like companies as reported in the annual report to FERC.
  - iii. For a cable television company or a pipeline corporation which is also an unregulated special franchise owner, the yield shall be the average return on common equily calculated from the financial reports for like companies.
- 13. Preferred stock means the amount of the preferred stock plus any unamortized premium on preferred stock less reacquired preferred stock less preferred stock expense, plus any additional paid in capital associated with preferred stock.
- 14. Premium means, as applied to securities issued or assumed by the special franchise owner, the excess of the cash value of the consideration received from their sale over the sum of their par (stated value of the stocks without par value) or face value and interest or dividends accrued at the date of sale.
- Prepayments means outlays for benefits or services which apply to or will directly benefit future operations.
- 16. Rate base means the value of a special franchise owner's investment on which it is allowed to earn a return, including but not limited to the net original cost of net utility

## Special Franchise Assessments and Full Values Procedure for City, Town and Village Assessment Rolls

plant or net telephone plant as reported to the appropriate regulatory agency, working capital requirements and construction work in progress, the net of non regulatory assets and liabilities which the company is allowed to earn on less plant acquisition adjustments, except that:

- In the case of a pipeline corporation which is subject to the jurisdiction of the Federal Energy Regulatory Commission pursuant to the Connolly Hot Oil Act (15 USC §§ 715 et seq.), rate base means the reproduction cost new, less depreclation of improvements and personal property, the value of land, the value of rights-of-way and working capital, and
- II. in the case of a cable television company or a pipeline corporation which is also an unregulated special franchise owner, rate base means the reproduction cost new, less depreciation of improvements and personal property, the value of land and working capital.
- 17. Rate of return on common equity means the rate of return on common equity most recently allowed by the appropriate regulatory agency. If there has been no such allowance within the last two calendar years, a rate of return on common equity is derived from the average of common equity rate of return from similar type corporations.
- 18. State allocation factor means:
  - i. For an interstate company other than a pipeline corporation, the revenues within New York divided by the gross revenues.
  - ii. For an interstate pipeline corporation, the sum of:
    - a. <u>Barrels, MCFs or Dekatherms Delivered in New York x 25%</u> total Barrels, MCFs or Dekatherms Delivered
    - b. <u>Investment in Pipeline In New York x 45%</u> Total Investment in Pipeline
    - c. <u>Mileage in New York x 30%</u>
      - Total Mileage
- 19. Working capital means an allowance for expenditures required to conduct business Including, but not limited to material and supplies, and prepayments. The working capital component of rate base shall be computed as follows:
  - i. For purposes of electric, gas and steam, the maintenance expenses are added to the operation expenses from which purchased electric and gas are subtracted to arrive at net operating expenses. One seventh of the net operating expenses are then added to materials and supplies, gas stored underground, liquefied natural gas and prepayments.
  - il. For purposes of water, the maintenance expenses are added to the operation expenses from which purchased water is subtracted arriving at net operating expenses. One seventh of the net operating expenses is then added to materials and supplies and prepayments.
  - iii. For purposes of telephone, telecommunications and CATV seven percent of the operating expenses less depreciation is added to the materials and supplies and prepayments.

Part 3 Calculation of Special Franchise Assessments and Full Values

- 1. Computation of tentative special franchise full value and tentative special franchise assessment.
  - a. In an assessing unit which has completed, or is expected to complete, a reassessment, the tentative full value shall be computed as follows:
    - The full value of the special franchise property is computed at the "full value standard" for the current assessment roll.
  - b. In an assessing unit which has not completed a reassessment and which is not expected to complete a reassessment and still has utility base property, the tentative special franchise assessment shall be computed as follows:

## 6/16/2015

## Special Franchise Assessments and Full Values Procedure for City, Town and Village Assessment Rolls

- 1. The assessed value of the base property is determined by multiplying the value thereof by the final State equalization rate for the 1953 assessment roll.
- 2. The full value of the subsequent property is computed at the "full value standard" for the current assessment roll
- 3. The assessed value of the subsequent property is determined by multiplying the full value thereof by the final State equalization rate for the latest final assessment roll; provided, however, that if the final equalization rate for that roll has not been established at the time the tentative special franchise assessment is to be determined, the tentative equalization rate for that roll shall be used in lieu thereof.
- The tentative special franchise assessment equals the assessed value of the base property plus the full value of the subsequent property.
- c. The inventory date of special franchise property shall be July 1st of the year preceding the year in which the assessment roll on which the special franchise assessment or full value will be entered is filed in the office of the city or town clerk, except that the value shall include significant changes to plant and equipment of \$25,000 or more per SWIS/plant account reported by the special franchise owner for the six months prior to the inventory date.

The inventory date shall be July 1st of the second year preceding the date required by law for filing of the final assessment roll for purposes of all village assessment rolls.

Part 4 Schedules of Service Lives and Salvage Factors

#### **Confidentiality Agreement**

I (insert name), am a (please circle one) subcontractor / agent / employee / director / officer / other of the Contractor Smith Valuation Services, Inc. DBA Standard Valuation Services (the "Contractor"). I understand that I will be performing services in furtherance of an agreement between the Contractor and Nassau County (the "County") related to the systematic review and analysis of assessments (the "Agreement"). I understand, acknowledge, and agree that all records, information, and data ("Information") acquired in connection with performance or administration of the Agreement shall be used and disclosed solely for the purpose of performance and administration of the Agreement or as required by law. I agree to reasonably safeguard any Information as to prevent disclosure to any unauthorized person. I understand and agree that the terms of this Confidentiality Agreement shall continue after I am no longer performing services related to the Agreement, and I shall continue to abide by such terms of this Confidentiality Agreement in perpetuity. I understand that failure to comply with these requirements may result in disciplinary action, termination, civil liability, and/or criminal prosecution, as well as any other penalties provided by law. This Confidentiality Agreement shall be governed and construed in accordance with the Laws of New York State,

#### Appendix EE Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

> (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

> (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(1) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

- a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
- b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction

recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities. As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotilations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

g.

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Ē

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

#### Appendix L

#### Certificate of Compliance

In compliance with Local Law 1-2006, as amended (the "Law"), the Contractor hereby certifies the following:

1. The chief executive officer of the Contractor is:

<u>Matthew L. Smith</u> (Name) <u>27 East Jericho Turnpike – Mineola, NY 11501</u> (Address) (516) 248-6922 (Telephone Number)

- 2. The Contractor agrees to either (1) comply with the requirements of the Nassau County Living Wage Law or (2) as applicable, obtain a waiver of the requirements of the Law pursuant to section 9 of the Law. In the event that the Contractor does not comply with the requirements of the Law or obtain a waiver of the requirements of the Law, and such Contractor establishes to the satisfaction of the Department that at the time of execution of this Agreement, it had a reasonable certainty that it would receive such waiver based on the Law and Rules pertaining to waivers, the County will agree to terminate the contract without imposing costs or seeking damages against the Contractor
- 3. In the past five years, Contractor <u>has</u> <u>X</u> has not been found by a court or a government agency to have violated federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed against the Contractor, describe below:

4. In the past five years, an administrative proceeding, investigation, or government bodyinitiated judicial action \_\_\_\_\_\_ has \_\_X \_\_\_\_ has not been commenced against or relating to the Contractor in connection with federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If such a proceeding, action, or investigation has been commenced, describe below: 5. Contractor agrees to permit access to work sites and relevant payroll records by authorized County representatives for the purpose of monitoring compliance with the Living Wage Law and investigating employee complaints of noncompliance.

I hereby certify that I have read the foregoing statement and, to the best of my knowledge and belief, it is true, correct and complete. Any statement or representation made herein shall be accurate and true as of the date stated below.

## **Contract Summary**

**Purpose:** The broken and unequal assessment system in Nassau County has not only impacted the residents of Nassau County, but also affects the County¿s ability to stabilize its finances and balance its budget. Due to the freezing of the tax rolls by the previous administration in 2011 to an assessment system that had not been updated since 2009, Nassau County has not provided a fair and accurate assessment in almost a decade. The current administration¿s analysis has revealed that residential and commercial assessment challenges have shifted the tax burden by \$1.7 billion over the past seven years. Those with the ability to annually grieve their property assessment benefit from the broken system, and those that do not watch their taxes artificially rise. The County has been forced to settle a massive number of tax grievances due to the outdated assessment roll.

Michael Haberman Associates, Inc. and Standard Valuation Services (collectively, ¿Contractors¿) had previously been retained by the County to complete a systematic review of the County¿s assessment system. This has been a good start; however, more work needs to be done. To fix this broken system, the Department of Assessment must be able to provide fair and accurate assessments in compliance with all applicable standards and best practices, including a review by the New York State Office of Real Property Tax Services. Therefore, the County now desires to engage these Contractors to assist the County in producing updated market values that can be utilized for the January 1, 2019 tentative assessment roll. The only way to continue this work in a timely fashion is to amend these contracts.

Method of Procurement: The contract was originally executed by Nassau County on November 24, 2015. This is an amendment to the original contract. The original contract authorized the Contractor to perform a systematic review of the County¿s assessment system for class 2 and class 4 parcels. In accordance with Section 3(a)(4) of the original contract, the scope of services is being amended and expanded to assist the County in producing market values for class 2 and class 4 parcels for the January 1, 2019 tentative assessment roll. This is a logical extension of the original contracted services since the Contractor will be using their previously completed systematic review to perform additional maintenance of the systematic review program to produce market values for the tentative roll. Also, the fees charged under this amendment are consistent with the fees charged under the original contract.

**Procurement History:** The original contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 8, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor; Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor; Mary Brower, Real Property Appraising-Assessing Supervisor; Randy Yunker, Community Service Representative; and Michael Antic, Real Property Appraising-Assessing Supervisor II. The proposals were scored and ranked. As a result of the scoring and ranking, the two highest-ranking proposers were selected by property class.

**Description of General Provisions:** The Contractor shall perform the following services to assist the County in producing market values that can be utilized for the January 1, 2019 tentative assessment roll: (1) maintenance of the systematic review program; and (2)

review of the market values.

Impact on Funding / Price Analysis: Funding will be from the appropriate Capital Project, pending bond ordinance approval.

Change in Contract from Prior Procurement: \$1,484,812 increase

## II. □ The contractor was selected pursuant to a Request for Proposals.

\_ (list # of persons on

committee and their respective departments). The proposals were scored and ranked. As a result of the scoring and ranking, the highest-ranking proposer was selected.

## III. X This is a renewal, extension or amendment of an existing contract.

The contract was originally executed by Nassau County on November 24, 2015. This is an amendment to the original contract. The original contract authorized the Contractor to perform a systematic review of the County's assessment system for class 2 and class 4 parcels. In accordance with Section 3(a)(4) of the original contract, the scope of services is being amended and expanded to assist the County in producing market values for class 2 and class 4 parcels for the January 1, 2019 tentative assessment roll. This is a logical extension of the original contracted services since the Contractor will be using their previously completed systematic review to perform additional maintenance of the systematic review program to produce market values for the tentative roll. Also, the fees charged under this amendment are consistent with the fees charged under the original contract. The original contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 8, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor; Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor; Mary Brower, Real Property Appraising-Assessing Supervisor; Rahdy Yunker, Community Service Representative; and Michael Antic, Real Property Appraising-Assessing Supervisor II. The proposals were scored and ranked. As a result of the scoring and ranking, the two highest-ranking proposers were selected by property class.

# IV. □ Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

- □ A. The contract has been awarded to the proposer offering the lowest cost proposal; OR:
- □ B. The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

# V. $\Box$ Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

- □ A. There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.
- □ B. The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).
- □ C. Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no.\_\_\_\_\_\_, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.
- D. Pursuant to General Municipal Law Section 119-0, the department is purchasing the services required through an inter-municipal agreement.

VI.  $\Box$  This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county.

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

## VII. This is a public works contract for the provision of architectural, engineering

or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No. 928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

Instructions with respect to Sections VIII, IX and X: All Departments must check the box for VIII. Then, check the box for either IX or X, as applicable.

VIII. X Participation of Minority Group Members and Women in Nassau County Contracts. The selected contractor has agreed that it has an obligation to utilize best efforts to hire MWBE sub-contractors. Proof of the contractual utilization of best efforts as outlined in Exhibit "EE" may be requested at any time, from time to time, by the Comptroller's Office prior to the approval of claim

**IX**. □ **Department MWBE responsibilities**. To ensure compliance with MWBE requirements as outlined in Exhibit "EE", Department will require vendor to submit list of sub-contractor requirements prior to submission of the first claim voucher, for services under this contract being submitted to the Comptroller.

## X. X Vendor will not require any sub-contractors.

vouchers.

<u>In addition</u>, if this is a contract with an individual or with an entity that has only one or two employees:  $\Box$  a review of the criteria set forth by the Internal Revenue Service, *Revenue Ruling No.* 87-41, 1987-1 C.B. 296, attached as Appendix A to the Comptroller's Memorandum, dated February 13, 2004, concerning independent contractors and employees indicates that the contractor would not be considered an employee for federal tax purposes.

#### COUNTY OF NASSAU

## LOBBYIST REGISTRATION AND DISCLOSURE FORM

1. Name, address and telephone number of lobbyist(s)/lobbying organization. The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

None	

2. List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

3. Name, address and telephone number of client(s) by whom, or on whose behalf, the lobbyist is retained, employed or designated:

None

None

Rev. 3-2016

. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify 4. client(s) for each activity listed. See page 4 for a complete description of lobbying activities. <u>None</u> -----The name of persons, organizations or governmental entities before whom the lobbyist 5. expects to lobby: None ..... \_\_\_\_ --------. .....

л.

Page 2 of 4

۱

Page 3 of 4

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. Has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law in (a) the period beginning April 1, 2016 and ending on the date of this disclosure, or (b), beginning April 1, 2018, the period beginning two years prior to the date of this disclosure and ending on the date of this disclosure, to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator? If yes, to what campaign committee?

None

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

Title:

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including by not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

The term "lobbying" or "lobbying activities" <u>does not include</u>: Persons engaged in drafting legislation, rules, regulations or rates; persons advising clients and rendering opinions on proposed legislation, rules, regulations or rates, where such professional services are not otherwise connected with legislative or executive action on such legislation or administrative action on such rules, regulations or rates; newspapers and other periodicals and radio and television stations and owners and employees thereof, provided that their activities in connection with proposed legislation, rules, regulations or rates are limited to the publication or broadcast of news items, editorials or other comment, or paid advertisements; persons who participate as witnesses, attorneys or other representatives in public rule-making or rate-making proceedings of a County agency, with respect to all participation by such persons which is part of the public record thereof and all preparation by such persons for such participation; persons who attempt to influence a County agency in an adjudicatory proceeding, as defined by § 102 of the New York State Administrative Procedure Act.

Provide a detailed response to all questions checked 'YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

17) Conflict of Interest:

a) Please disclose any conflicts of interest as outlined below. NOTE: If no conflicts exist, please expressly state "No conflict exists."

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County. No conflict exits

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County. No conflict exits

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County. No conflict exits

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future.

The Company has always maintained and will continue to maintain a strict policy regarding potential conflicts of interest or an appearance of a conflict of interest.

- The Company has completed revaluations of nine villages in Nassau under the certification of the Office of Real Property Tax Services and continues to handle their tax certiorari and small claims cases on an on-going basis.
- RXR Glen Isle Mixed-use Redevelopment Project/PUD Master Development: This case involved the appraisal of a 56 acre site to be developed with 1,515,339 sq.ft. of building improvements including rental apartment units, work force rental apartments, office, retail, marina, luxury hotel, and condominiums.
- Working closely with Senator Martins, the Senator was able to facilitate a change to New York State law providing "Advisory Appraisals" to villages during an annual reassessment. Prior to the changes, only counties and towns were eligible for these reports, requiring villages to retrieve dated data from towns and counties or maintain static values therefor preventing a village from having a fair and equitable assessment roll.
- The Company's project manager has been a member of the Real Property Tax Administration Committee (RPTC), equalization subcommittee for the past five years. He has been instrumental in writing procedures pertaining to Equalization Rates and Residential Assessment Ratios. This board position provides the Company with insight to New York State goals and procedures long before the general assessment community is aware of them.
- 420 Tenants Corp. v Nassau County: This proceeding involved the appraisal of a cooperative apartment building within an ETPA community; the client was the Nassau County Attorney's Office. The court adopted the Company's appraisal process that derived income from economic leases within ETPA buildings, rejecting the petitioner's usage of subject property contract rentals.

viii) Copies of all state and local licenses and permits.

See immediately following.

- B. Indicate number of years in business. 48
- C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

We believe that our history of providing tax assessment valuations and support to Nassau County and other municipalities for over 36 years makes us uniquely qualified to perform the valuation and support services required for this contract.

The personnel assigned to the contract will be certified or licensed real estate appraisers with at least 18 years' experience appraising property in Nassau County. The Company's president and vice-president have over 48 and 38 years and its project manager over 18 years of valuation/consulting experience respectively.

The Company has a vast body of experience and expertise covering over 36 years in providing appraisal services in connection with the defense of Tax Certiorari and Condemnation proceedings for local governments in New York. In addition to appraisal and consulting services, the Company has been providing litigation support and expert testimony in defense of its value estimates over the same period.

The Company is totally capable of providing reports that are thorough and concise, presented in a timely fashion meeting all target completion dates. Our appraisals are well planned and supported, consistent and accurate, providing defensible indications of market value across all years at issue.

The company has completed approximately 1,900 commercial appraisal assignments within Nassau County in the past ten years. Significant properties appraised have included RXR Plaza, Tree Line Franklin Avenue Plaza, Garvies Point Glen Cove Redevelopment (16 properties), Nassau University Medical Center, Roosevelt Field Mall, Belmont Raceway, sections of the Roosevelt Raceway quadrants, Triad Office Center, Garden City Center, Omni Office Center in Mitchel Field, Westbury Property Associates, and the Wyndham Condominium Complex in Garden City for example. Various types of properties appraised over the 2012 to 2016 period, for example have included trophy office complexes, automobile dealerships, condominiums and cooperative apartment developments, gasoline stations, fast food restaurants, marinas, oil terminals, asphalt and concrete batch plants, shopping centers, industrial complexes, golf and country clubs, private dwellings and vacant sites.

The Company has acted as consultant to the City of Long Beach, City of Glen Cove, numerous villages throughout the Counties of Nassau and Suffolk, various Townships in Suffolk County, and the Metropolitan Transportation Authority in the defense of Tax Certiorari and Condemnation claims and for other functions over the past 36 years where applicable.

The Company has acted as consultants to the Town of Babylon's Department of Assessment in the defense of its Class 1 Assessment Roll over the past 20 years requiring the preparation of between 3,000 and 6,000 summary appraisal reports over the past eight years. The Company has acted as consultants to the Town of Huntington's Department of Assessment in the defense of its Class I Assessment Roll over the past four years requiring the preparation of between 4,000 and 6,000 summary appraisal reports each year. The Company has attended SCAR hearings in front of judicial hearing officers and submitted all necessary support and reporting requirement documents to both town's Department of Assessment. The Company has also acted as consultants to the Towns in the defense of Tax Certiorari claims.

The Company has acted as consultant to the New York State Department of Transportation in defense of Condemnation claims within Nassau and Suffolk Counties and various NYC boroughs performing trial form valuations over the past 14 years.

The Company has acted as consultant to the County of Suffolk's Department of Public Works in defense of Condemnation claims within the County performing both project and trial form valuations over the past 14 years.

The Company maintains various systems for research purposes as aids in the valuation and consulting services it provides. These include a hard copy/digital/micro-film library, contracted services such as Real Quest, Comps. Inc., CoStar, LoopNet and the Multiple Listing Service of Long Island, and an in-house proprietary database including thousands of sale and lease abstracts. A high speed internet connection is in place and operational and the entire office staff has complete access to it.

The company's work flow is managed in a structured manner. Its implementation schedule follows its management approach starting with bi-weekly staff meetings where goals, deadlines, tracking and new projects are discussed. During the ensuing week, the principals and project manager constantly manage the appraisals being processed. One appraiser is typically the lead with additional resources available when required. Upon completion, the report goes through a formal review by one of the principals who are also actively engaged in the preparation of appraisal reports. The key to the management approach is the constant communication through the office on all projects with one appraiser helping another whenever needed, the identification of critical issues as they arise, a consistent and thorough review process and, as a result, the preparation of a valuation which is meaningful, accurate and defensible across all years under review when valuing for assessment review purposes.

All reports conform to the 2016 – 2017 Uniform Standards of Professional Appraisal Practice USPAP) with trial reports in accordance with New York State Uniform Court Rules.

The company is located in an owner occupied two story office building in the heart of Mineola, three blocks from the Supreme Court building and a short drive to the County Attorney's and Assessment Review Commission's offices. The firm has remained in business since 1968 because of the quality of its work and its ongoing commitment to be as responsive as possible to the needs of its clients.

The principals and professional staff of Michael Haberman Associates, Inc. have extensive experience in the valuation of all types of real estate. Commercial expertise includes the valuation of shopping centers, office complexes, apartment buildings, condominium and co-op complexes, gasoline stations, country clubs and golf courses, racetracks, nursing homes, marinas and mobile home parks for example. Industrial experience includes the valuation of industrial/R&D parks including major aerospace facilities, chemical plants and oil terminals. The company has worked on behalf of the Nassau County Attorney's Office and Board of Assessment since the mid-1970's in both tax certiorari and condemnation matters. It has completed working on Nassau County's three year reassessment and annual update program as a prime sub-contractor to the Cole Laver Trumble Company (Tyler Technology). The company has completed working on the reassessment programs for the Villages of Russell Gardens, Lake Success, Mineola, Sea Cliff, Farmingdale, Westbury, Great Neck, Great Neck Estates and Williston Park. The company

recently fulfilled monitoring duties for the reassessment programs in the Towns of Greenburgh, Ossining and North Salem on behalf of the Multiple Municipal Reassessment Consortium (MMRC). In 2016 the Company was awarded a contract by Nassau County to complete a systematic review of all commercial and multi-family properties within the County, totaling over 36,000 parcels. The project is on schedule and slated to be completed in the fall of 2017.

The residential division specializes in the creation of form appraisal reports for a variety of residential properties, with particular specialization in high-end properties throughout the Long Island and New York Metropolitan region. The company has evaluated and/or appraised greater than 200,000 residential properties within Nassau and Suffolk Counties. It has been able to organize and lead outside appraisal companies in various special projects and continues to maintain an excellent professional relationship with them.

The company maintains a hard copy/digital/ micro-film library and database for research purposes as an aid in valuation and consulting services it provides. The materials and services include the Multiple Listing Service of Long Island (MLS), Hudson Gateway (MLS), GeoData, Comps Inc., First American Real Estate Solutions, Loopnet Inc., and the firm's proprietary database. A high-speed DSL Internet connection is in place and operational.

The company's principals are recognized and designated with the Appraisal Institute, American Society of Appraisers, Columbia Society of Appraisers, and the Institute of Assessing Officers. Its staff consists of eight appraisers, plus administrative and clerical support personnel. An MIS administrator is on staff and is instrumental in creating and maintaining workflow, operational programs and the computer network.

## COUNTY OF NASSAU

# CONSULTANT'S, CONTRACTOR'S AND VENDOR'S DISCLOSURE FORM

1. Name of the Entity: Michael Haberman Associates, Inc.

Address: \_\_\_\_\_ 125 Front Street

City, State and Zip Code: <u>Mineola, New York 11501</u>

2. Entity's Vendor Identification Number: 11-2510480

3. Type of Business: \_\_\_\_Public Corp \_\_\_Partnership \_\_\_\_Joint Venture

\_\_\_\_Ltd. Liability Co \_\_\_\_\_Closely Held Corp \_\_\_\_\_Other (specify)

4. List names and addresses of all principals; that is, all individuals serving on the Board of Directors or comparable body, all partners and limited partners, all corporate officers, all parties of Joint Ventures, and all members and officers of limited liability companies (attach additional sheets if necessary):

Michael Haberman, 1070 Links Road, Woodmere, NY 11589

Ronald Haberman, 4 Manchester Lane, Stony Brook, NY 11790

Thomas Donato, 2470 Grand Avenue, Bellmore, NY 11710

5. List names and addresses of all shareholders, members, or partners of the firm. If the shareholder is not an individual, list the individual shareholders/partners/members. If a Publicly held Corporation, include a copy of the 10K in lieu of completing this section.

Michael Haberman, 1070 Links Road, Woodmere, NY 11589

Ronald Haberman, 4 Manchester Lane, StonyBrook, NY 11790

Thomas Donato, 2470 Grand Avenue, Bellmore, NY 11710

Page 2 of 4

6. List all affiliated and related companies and their relationship to the firm entered on line 1. above (if none, enter "None"). Attach a separate disclosure form for each affiliated or subsidiary company that may take part in the performance of this contract. Such disclosure shall be updated to include affiliated or subsidiary companies not previously disclosed that participate in the performance of the contract.

None

7. List all lobbyists whose services were utilized at any stage in this matter (i.e., pre-bid, bid, post-bid, etc.). If none, enter "None." The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

(a) Name, title, business address and telephone number of lobbyist(s):

None

Page 3 of 4

\_\_\_\_\_None

(b) Describe lobbying activity of each lobbyist. See below for a complete description of lobbying activities.

(c) List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

8. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

Dated: 1/14/8

Signed:

Print Name: Michael Haberman

Title:\_\_\_\_ President

#### Page 4 of 4

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including by not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

#### AMENDMENT NO. 1

.`

AMENDMENT (together with any appendices or exhibits attached hereto, this "Amendment") dated as of the date (the "Effective Date") that this Amendment is executed by Nassau County, between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "County"), acting for and on behalf of the Nassau County Department of Assessment, having its principal office at 240 Old Country Road, Mineola, New York 11501 (the "Department"), and (ii) Michael Haberman Associates, Inc., having its principal office at 125 Front Street, Mineola, New York 11501 (the "Contractor").

#### WITNESSETH:

WHEREAS, pursuant to County contract number CFAS15000003 between the County and Contractor, executed on behalf of the County on November 24, 2015 (the "<u>Original</u> <u>Agreement</u>"), the Contractor performed a systematic review of the County's assessment system for Class 2 and Class 4 parcels, which services are more fully described in the Original Agreement (the services contemplated by the Original Agreement, the "<u>Services</u>"); and

WHEREAS, the term of the Original Agreement is from October 1, 2015 until completion of Services, unless sooner terminated in accordance with the provisions of the Original Agreement (the "<u>Original Term</u>"); and

WHEREAS, the maximum amount that the County agreed to reimburse the Contractor for Services under the Original Agreement, as full compensation for the Services, was One Million Two Hundred Four Thousand Seventy-four Dollars (\$1,204,074.00) (the "<u>Maximum</u> <u>Amount</u>"); and

WHEREAS, the Contractor has completed the Services in accordance with the provisions of the Original Agreement.

WHEREAS, in accordance with Section 3(a)(4) of the Original Agreement, the County and Contractor desire to amend and expand the scope of Services provided by the Contractor under the Original Agreement and equitably adjust the Maximum Amount payable under the Original Agreement.

NOW, THEREFORE, in consideration of the promises and mutual covenants contained in this Amendment, the parties agree as follows:

1. <u>Term Extension</u>. The Original Agreement is hereby extended so that the termination date of the Original Agreement, as amended by this Amendment (the "Amended Agreement"), shall be December 31, 2018, provided, however, this Amended Agreement may be sooner terminated in accordance with the terms of the Original Agreement.

2. <u>Time of Performance</u>. The Contractor's timeline to perform the services described under this Amendment (the "Amended Services") shall be as follows:

- (a) For the period March 1, 2018 until November 30, 2018, the Contractor shall perform maintenance on the systematic review program, such services more fully described under Section 4(a) of this Amendment.
- (b) For the month of December 2018, the Contractor shall perform a review of the market values, such services more fully described under Section 4(b) of this Amendment.
- (c) The Contractor acknowledges that the Amended Services shall be performed in a timely manner in accordance with the timeline provided in this Section 2 and shall meet all deadlines in accordance with the terms of this Amendment. The Contractor shall produce monthly status reports to the Department, as more fully described under Section 4(c) of this Amendment. The Contractor shall immediately notify the Department if there are any concerns with the timely completion of the Amended Services and indicate the corrective actions that will be taken so that services will be completed in a timely manner. If the Contractor is unable to complete the Amended Services in accordance with the above timeline, or to meet any of the deadlines described under this Amendment, the County, in its sole discretion, may withhold payments and/or make equitable downward adjustments to the payments owed to the Contractor under this Amendment.

#### 3. Payment.

• •

- (a) <u>Maximum Amount</u>. The Maximum Amount in the Original Agreement shall be increased by One Million Four Hundred Eighty-four Thousand Eight Hundred Twelve Dollars (\$1,484,812.00), so that the maximum amount that the County shall pay to the Contractor as full consideration for all services provided under the Amended Agreement shall be Two Million Six Hundred Eighty-eight Thousand Eight Hundred Eighty-six Dollars (\$2,688,886.00) (the "Amended Maximum Amount").
- (b) <u>Payment Schedule</u>. The increase to the Maximum Amount authorized under this Amendment shall be payable as follows:
  - The Contractor shall be paid One Million Four Hundred Thousand Dollars (\$1,400,000.00) for the maintenance services, such services more fully described under Section 4(a) of this Amendment. Payments under this Section 3(b)(i) shall be made in arrears in equal monthly installments of One Hundred Fifty-five Thousand Five Hundred Fifty-five and 55/100 Dollars (\$155,555.55) for the period March 1, 2018 until November 31, 2018.
  - The Contractor shall be paid an amount not to exceed Eighty-four Thousand Eight Hundred Twelve Dollars (\$84,812.00) for the market

review services, such services more fully described under Section 4(b) of this Amendment. Payments under this Section 3(b)(ii) shall be made for market review services rendered during the month of December 2018 in arrears on an hourly basis in accordance with the following fee schedule:

- 1. Senior Appraiser/Project Administrator: \$250.00 per hour
- 2. Senior Appraiser/Commercial Supervisor: \$250.00 per hour
- 3. Senior Appraiser/Compliance Officer: \$250.00 per hour
- 4. Senior Appraiser/Statistician: \$250.00 per hour
- 5. Senior Appraiser/IAS Specialist: \$250.00 per hour
- 6. Senior Appraiser/Database Administrator: \$200.00 per hour
- 7. Senior Appraiser: \$200.00 per hour
- 8. IT Administrator: \$200.00 per hour
- 9. Chief Appraiser/Review Supervisor: \$175.00 per hour
- 10. Staff Appraiser: \$150.00 per hour
- 11. Assistant Appraiser: \$125.00 per hour
- 12. Office Manager/Clerical: \$125.00 per hour
- 13. Clerical: \$100.00 per hour

. .

- (c) <u>Payment Adjustments</u>. If the Contractor is unable to complete the Amended Services in accordance with the timeline described in Section 2 of this Amendment, or meet deadlines in accordance with the terms of this Amendment, the Department, in its sole discretion, may withhold payments and make equitable downward adjustments to the payments owed to the Contractor under this Amendment.
- (d) <u>Vouchers: Voucher Review, Approval and Audit</u>. Payments under this Amendment shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (1) states with reasonable specificity the services provided and the payment requested as consideration for such services; (2) certifies that the services rendered and the payment requested are in accordance with the Amended Agreement; and (3) is accompanied by documentation satisfactory to the County supporting the amount claimed, including, but not limited to, a report detailing the services completed during the invoice period that indicate that the Contractor is meeting all deadlines and is on track to timely complete the Amended Services; and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").
- (e) <u>Timing of Payment Claims</u>. The Contractor shall submit claims no later than three (3) months following the County's receipt of the services, including monthly reports submitted in accordance with Section 4(c) of this Amendment, that are the subject of the claim and no more frequently than once a month.

(f) <u>No Duplication of Payments</u>. Payments under this Amendment shall not duplicate payments for any work performed or to be performed under other agreements between the Contractor and any funding source, including the County.

(g) Payments in Connection with Termination or Notice of Termination. Unless a provision of the Amended Agreement expressly states otherwise, payments to the Contractor following the termination of this Amended Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination; (ii) authorized by this Amended Agreement to be performed; and (iii) Not performed after the Contractor received notice that the County did not desire to receive such services.

4. <u>Services</u>. The Contractor has completed the systematic review of the County's assessment system for Class 2 and Class 4 parcels in accordance with the terms of the Original Agreement (the "Systematic Review Program"). The County now desires to engage the Contractor to perform the following Amended Services to assist the County in producing market values that can be utilized for the January 1, 2019 tentative assessment roll:

- (a) <u>Maintenance of the Systematic Review Program to Produce Market Values</u> for the January 1, 2019 Tentative Assessment Roll. After the completion of the Systematic Review Program, the Contractor submitted a report to the County recommending that new assessment values not be released for the January 1, 2018 tentative assessment roll. The Contractor and the Department agree that additional maintenance of the Systematic Review Program is necessary to produce accurate market values. So that accurate values can be produced for the January 1, 2019 tentative assessment roll, the Contractor shall continue the maintenance of the Systematic Review Program ("Extended Maintenance") as follows:
  - i. The Contractor shall coordinate with the Department for the adoption of best practices with Department personnel for the County's IAS system to function correctly with newly-established market values.
  - ii. The Contractor shall cooperate with the Department to produce preliminary reports establishing estimated market values that are acceptable to the New York State Office of Real Property Tax Services ("ORPTS") to enable ORPTS to perform level of assessment testing and verification. The preliminary reports shall be produced in accordance with ORPTS procedures on or about July 1, 2018, with the exact date determined after further consultation with ORPTS.
  - iii. The Contractor shall run updated models, review statistical results and test valuation results, which shall include a review of costs and depreciation, and cross check for accuracy. Once the results are accurate to the satisfaction of the Contractor and the Department, the Contractor shall produce final systematic review reports and assist the Department in producing market values for Class 2 and Class 4

parcels for the January 1, 2019 tentative assessment roll by no later than November 30, 2018.

iv. The Contractor acknowledges the importance of producing updated and accurate market values in the County's IAS system and final systematic review reports by November 30, 2018. Therefore, the Contractor shall assist the County in any reasonable manner necessary, as determined by the County, to meet this deadline within the maximum amount authorized under this Amendment.

· · `

- (b) <u>Market Review</u>. For the month of December 2018, after the completion of the Extended Maintenance, the Contractor shall, at the direction of the Department, perform an additional review of the market values and make any necessary adjustments. Additionally, the Contractor shall, at the Department's direction, meet with ORPTS and respond to any ORPTS inquiries.
- (c) <u>Monthly Reports</u>. The Contractor shall submit to the Department monthly status reports detailing its progress throughout the term of this Amendment. At the County's request, the Contractor shall meet with County personnel to discuss the project status and address any concerns raised by the County.

5. <u>Full Force and Effect</u>. All the terms and conditions of the Original Agreement not expressly amended by this Amendment shall remain in full force and effect and govern the relationship of the parties for the term of the Amended Agreement.

[Remainder of Page Intentionally Left Blank.]

IN WITNESS WHEREOF, the parties have executed this Amendment as of the Effective Date.

.

.....

A RESOLUTION AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE A PERSONAL SERVICES AGREEMENT BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF ASSESSMENT, AND MICHAEL HABERMAN ASSOCIATES, INC.

> Passed by the Rules Committee Nassau County Legislature By Voice Vote on <u>9-30-75</u> VOTING: syes <u>7</u> mayes <u>0</u> abstained <u>0</u> recused <u>0</u> Logislators present: 7

WHEREAS, the County has negotiated a personal services agreement with Michael Haberman Associates, Inc. to provide a systematic review of the County's Assessment System, a copy of which is on file with the Clerk of the Legislature; now, therefore, be it

RESOLVED, that the Rules Committee of the Nassau County, legislature authorizes the County Executive to execute the said agreement with Michael Haberman Associates, Inc. A RESOLUTION AUTHORIZING THE COUNTY EXECUTIVE TO EXECUTE A PERSONAL SERVICES AGREEMENT BETWEEN THE COUNTY OF NASSAU, ACTING ON BEHALF OF THE NASSAU COUNTY DEPARTMENT OF ASSESSMENT, AND MICHAEL HABERMAN ASSOCIATES, INC.

WHEREAS, the County has negotiated a personal services agreement with Michael Haberman Associates, Inc. to provide a systematic review of the County's Assessment System, a copy of which is on file with the Clerk of the Legislature; now, therefore, be it

RESOLVED, that the Rules Committee of the Nassau County Legislature authorizes the County Executive to execute the said agreement with Michael Haberman Associates, Inc. George Maragos Comptroller

OFFICE OF THE COMPTROLLER 240 Old Country Road Mineola, New York 11501

## COMPTROLLER APPROVAL FORM FOR PERSONAL, PROFESSIONAL OR HUMAN SERVICES CONTRACTS

Attach this form along with all personal, professional or human services contracts, contract renewals, extensions and amendments.

#### CONTRACTOR NAME: Michael Haberman Associates CONTRACTOR ADDRESS: 125 Front Street, Mineola, NY 11501

#### FEDERAL TAX ID #: 112510480

<u>Instructions:</u> Please check the appropriate box (" $\square$ ") after one of the following roman numerals, and provide all the requested information.

I. 
The contract was awarded to the lowest, responsible bidder after advertisement for sealed bids. The contract was awarded after a request for sealed bids was published in\_\_\_\_\_\_\_ [newspaper] on \_\_\_\_\_\_ [date]. \_\_\_\_\_ [#] of sealed bids were received and opened.

#### II. X The contractor was selected pursuant to a Request for Proposals.

The Contract was entered into after a written request for proposals was issued on May 18, 2015. Potential proposers were made aware of the availability of the RFP by newspaper advertisement and posting on website. Proposals were due on June 08, 2015. Three proposals were received and evaluated. The evaluation committee consisted of: Steven Corte, Deputy Assessor, Anthony Arcuri, Real Property Appraiser-Arbitrator Supervisor, Mary Brower, Real Property Appraising-Assessing Supervisor, Randy Yunker, Community Service Representative and Michael Antic, Real Property Appraising-Assessing Supervisor II. The proposals were scored and ranked. As a result of the scoring and ranking (attached), the two highest-ranking proposers were selected by property class.

#### III. This is a renewal, extension or amendment of an existing contract.

The contract was originally executed by Nassau County on November 19, 1997. This is a renewal or extension pursuant to the contract, or an amendment within the scope of the contract or RFP (copies of the relevant pages are attached). The original contract was entered into after proposals were evaluated upon entering into the original agreement. Attach a copy of the most recent evaluation of the contractor's performance for any contract to be renewed or extended. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to continue to contract with the county.

# IV. $\Box$ Pursuant to Executive Order No. 1 of 1993, as amended, at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received, along with the cost of each proposal.

- □ A. The contract has been awarded to the proposer offering the lowest cost proposal; OR:
- □ B. The attached memorandum contains a detailed explanation as to the reason(s) why the contract was awarded to other than the lowest-cost proposer. The attachment includes a specific delineation of the unique skills and experience, the specific reasons why a proposal is deemed superior, and/or why the proposer has been judged to be able to perform more quickly than other proposers.

## V. $\square$ Pursuant to Executive Order No. 1 of 1993 as amended, the attached memorandum from the department head explains why the department did not obtain at least three proposals.

- □ A. There are only one or two providers of the services sought or less than three providers submitted proposals. The memorandum describes how the contractor was determined to be the sole source provider of the personal service needed or explains why only two proposals could be obtained. If two proposals were obtained, the memorandum explains that the contract was awarded to the lowest cost proposer, or why the selected proposer offered the higher quality proposal, the proposer's unique and special experience, skill, or expertise, or its availability to perform in the most immediate and timely manner.
- □ B. The memorandum explains that the contractor's selection was dictated by the terms of a federal or New York State grant, by legislation or by a court order. (Copies of the relevant documents are attached).
- □ C. Pursuant to General Municipal Law Section 104, the department is purchasing the services required through a New York State Office of General Services contract no.\_\_\_\_\_\_, and the attached memorandum explains how the purchase is within the scope of the terms of that contract.
- D. Pursuant to General Municipal Law Section 119-0, the department is purchasing the services required through an inter-municipal agreement.

VI. This is a human services contract with a not-for-profit agency for which a competitive process has not been initiated. Attached is a memorandum that explains the reasons for entering into this contract without conducting a competitive process, and details when the department intends to initiate a competitive process for the future award of these services. For any such contract, where the vendor has previously provided services to the county, attach a copy of the most recent evaluation of the vendor's performance. If the contractor has not received a satisfactory evaluation, the department must explain why the contractor should nevertheless be permitted to contract with the county,

In certain limited circumstances, conducting a competitive process and/or completing performance evaluations may not be possible because of the nature of the human services program, or because of a compelling need to continue services through the same provider. In those circumstances, attach an explanation of why a competitive process and/or performance evaluation is inapplicable.

VII.  $\Box$  This is a public works contract for the provision of architectural, engineering or surveying services. The attached memorandum provides details of the department's compliance with Board of Supervisors' Resolution No.928 of 1993, including its receipt and evaluation of annual Statements of Qualifications & Performance Data, and its negotiations with the most highly qualified firms.

## <u>In addition</u>, if this is a contract with an individual or with an entity that has only one or two employees:

□ a review of the criteria set forth by the Internal Revenue Service, *Revenue Ruling No.* 87-41, 1987-1 C.B. 296, attached as Appendix A to the Comptroller's Memorandum, dated February 13, 2004, concerning independent contractors and employees indicates that the contractor would not be considered an employee for federal tax purposes.

Department Head Signature Date

<u>NOTE:</u> Any information requested above, or in the exhibit below, may be included in the county's "staff summary" form in lieu of a separate memorandum.

Compt. form Pers./Prof. Services Contracts: Rev. 02/04

#### CONTRACT FOR SERVICES

THIS AGREEMENT, (together with the schedules, appendices, attachments and exhibits, if any, this "Agreement"), dated as of the date (the "Effective Date") that this Agreement is executed by Nassau County, is entered into by and between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "County"), acting for and on behalf of the Nassau County Department of Assessment, having its principal office at 240 Old Country Road, Mineola, New York 11501, and (ii) Michael Haberman Associates, Inc., having its principal office at 125 Front Street, Mineola, New York 11501 (the "Contractor").

#### WITNESSETH:

WHEREAS, the County, acting for and on behalf of the Department, has issued a request for proposals ("RFP"), RFP # AS0518-1509, on May 18, 2015 for the systematic review and analysis of assessments, attached hereto as Exhibit A; and

WHEREAS, the Contractor by proposal dated June 8, 2015, attached hereto as Exhibit B, and as further set forth in supplemental materials dated June 9, 2015, attached hereto as Exhibit C (collectively, the "Proposal"), has submitted a Proposal in response to and in accordance with the RFP; and

WHEREAS, the County has reviewed the proposals submitted in response to the RFP for four different tax classes and has determined that the Contractor has submitted a Proposal that will provide the County with the best value for tax classes 2 and 4; and

WHEREAS, the County desires to hire the Contractor to perform the services described in this Agreement; and

{

WHEREAS, the Contractor desires to perform the services described in this Agreement; and

WHEREAS, this is a personal service contract within the intent and purview of Section 2206 of the County Charter;

NOW, THEREFORE, in consideration of the promises and mutual covenants contained in this Agreement, the parties agree as follows:

1. <u>Term</u>. (a) <u>Period of Agreement</u>. This Agreement shall commence on October 1, 2015 and shall terminate upon completion of the services to be delivered under this Agreement, unless sooner terminated in accordance with the provisions of this Agreement. The Contractor acknowledges that certain obligations under this Agreement shall extend beyond the termination of this Agreement.

(b) <u>Time of Performance</u>. The Contractor's time of performance is set forth in the attached Exhibit D. The Contractor shall deliver the services, as more fully described hereto, in order to ensure its full completion in accordance with the requirements of this Agreement and in accordance with the schedule provided in the attached Exhibit D.

2. <u>Services</u>. (a) The services to be provided by the Contractor under this Agreement shall consist of providing a systematic review of the County's Assessment System, as more fully described in the project timeline, attached hereto as Exhibit D, and as further set forth herein and in the exhibits attached hereto (the "<u>Services</u>"). To the extent that Exhibit D is inconsistent with the terms and conditions provided in the attached RFP and Proposal, including that Services are only based on tax classes two and four, Exhibit D shall control, provided, however, the terms and conditions contained above the signature page shall control over all Exhibits. The Proposal and the RFP are acceptable as a general description of the Services to be rendered by the Contractor, but the terms and conditions set forth in Exhibit D provide a detailed scope of Services related to the tax classes

for which the Contractor has been awarded and constitute the Agreement between the parties.

(b) The Contractor specifically acknowledges the County's reliance upon the Contractor's Proposal as Contractor's offer to perform Services on behalf of the County under and pursuant to this fixed price Agreement. The Contractor warrants and represents that any and all services detailed in Exhibit D are included within this fixed price Agreement and the County is relying upon the Contractor's Proposal as a general description of the Services to be provided by the Contractor.

(c) Unless the application of this subsection will cause a provision required by law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. If there is an actual conflict, the following order of priority shall apply:

- $\sqrt{1}$  Terms and conditions set forth above the signature page to this Agreement; Appendix EE: Equal Employment Opportunities for Minorities and Women; and Appendix L: Certificate of Compliance (Nassau County Living Wage Law);
- (2) Exhibit F: Confidentiality agreement;
- $\sqrt{3}$  Exhibit D: Project timeline;
- (4) Exhibit E: Payment schedule;
- (5) Exhibit A: RFP;

٠.,

- (6) Exhibit C: Supplemental materials to Proposal dated June 9, 2015; (?)
- (7) Exhibit B: Original Proposal dated June 8, 2015.

Certain conflicts are noted within the terms of this Agreement, however, to the extent possible and as not otherwise noted in this Agreement, all the terms of this Agreement should be read together as not conflicting.

Payment. (a)(1) Amount of Consideration. The maximum amount to be paid to the 3. Contractor as full consideration for the Contractor's Services, including expenses, under this Agreement shall not exceed the sum of One Million Two Hundred Four Thousand Seventy-four Dollars (\$1,204,074.00) (the "Maximum Amount"), which shall be payable in accordance with the attached Exhibit E. To the extent that Exhibit E is inconsistent with the terms and conditions provided in the attached RFP and Proposal, including that payment is only based on tax classes two and four, Exhibit E shall control, provided, however, the terms and conditions contained above the signature page shall control over all Exhibits. The amounts payable under Exhibit E are inclusive of all expenses and all other costs incidental to the Services to be provided by the Contractor under this Agreement, including travel.

(2) Any appearances before the County Legislature, or any committee thereof for the purpose of the approval of this Agreement or any amendment thereto, are to be construed as part of the fee negotiation and approval process and the Contractor agrees that no fee will be charged for any such appearances.

(3) Notwithstanding anything in this Section 3 or in any other provision of this Agreement, the County shall pay, and the Contractor shall accept as payment for the Services described in this Agreement, the amounts detailed in the attached Exhibit E, subject to the availability of funds for this Agreement following approval by the County and encumbrance by the County Comptroller. The County shall not be liable for payment of any amounts which have not been approved by the County and encumbered for this Agreement by the County Comptroller. The parties acknowledge that the parcel count on the assessment roll may fluctuate throughout the term of this Agreement and as such, the parties agree that the payment schedule attached hereto as Exhibit E shall remain fixed despite such fluctuations. Nonetheless, the Department reserves the right to direct the Contractor to not perform a category of Services for which the Contractor shall not be paid, the value of which is to be mutually determined between the parties.

(4) If there is a change in scope of Services or any agreed-upon additional related Services to be provided under this Agreement, at the County's election, the parties shall negotiate in good faith to amend the Services and make an equitable adjustment to the Maximum Amount provided under this Agreement. Such adjustment shall require all requisite governmental and Contractor approvals.

(b) Vouchers; Voucher Review, Approval and Audit. Payments shall be made to the Contractor in accordance with the payment schedule described in the attached Exhibit E, which shall be payable in arrears on a monthly basis throughout the applicable scheduled work plan period. Payments shall be calculated by taking the total cost per activity divided by the number of months in the scheduled work plan period. For example, Project Management is scheduled to be completed during the period October 1, 2015 until September 1, 2017, equating to twenty-three (23) months. Total cost for Project Management is One Hundred Eighty-six Thousand Five Hundred Eighty-eight Dollars (\$186,588.00). After each month during the Project Management period, a total of One Hundred Eighty-six Thousand Five Hundred Eighty-eight Dollars (\$186,588.00) divided by twenty-three (23) shall be deemed earned. Further, payments shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) states with reasonable specificity the services provided and the payment requested as consideration for such services, (b) certifies that the services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, including, but not limited to, a report detailing Services completed during the invoice period; and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(c) <u>Timing of Payment Claims</u>. The Contractor shall submit claims no later than three (3) months following the County's receipt of the services that are the subject of the claim and no more frequently than once a month.

(d) <u>No Duplication of Payments</u>. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between the Contractor and any funding source including the County.

(e) <u>Payments in Connection with Termination or Notice of Termination</u>. Unless a provision of this Agreement expressly states otherwise, payments to the Contractor following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

4. <u>Independent Contractor</u>. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "<u>Contractor Agent</u>"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "<u>Person</u>" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

ĺ

5. <u>No Arrears or Default</u>. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

6. <u>Compliance with Law</u>. (a) <u>Generally</u>. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) <u>Nassau County Living Wage Law</u>, Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

- (i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;
- (ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.
- (iii) It shall be a continuing obligation of the Contractor to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) <u>Records Access</u>. The parties acknowledge and agree that all records, information, and data ("<u>Information</u>") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Contractor shall require all Contractor Agents, Contractor subcontractors, and their respective employees to execute a confidentiality agreement, attached hereto as Exhibit F (the "<u>Confidentiality Agreement</u>"), prior to commencing Services under this Agreement. The Contractor shall provide the executed Confidentiality Agreements to the Department prior to the Contractor Agent or subcontractor commencing Services. The Contractor acknowledges that Contractor Information in the Country's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

7. <u>Minimum Service Standards</u>. Regardless of whether required by Law: (a) The Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in

connection with this Agreement so as not to endanger or harm any Person or property.

l

(

{

(b) The Contractor shall deliver Services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

8. <u>Indemnification; Defense; Cooperation</u>. (a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "<u>Indemnified Parties</u>") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("<u>Losses</u>"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

9. Insurance. (a) Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars (\$1,000,000.00) per occurrence and Two Million Dollars (\$2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single limit liability of not less Two Million Dollars (\$2,000,000.00) per claim (iii) compensation insurance for the benefit of the Contractor's employees ("<u>Workers' Compensation Insurance</u>"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the Country may from time to time specify.

(b) <u>Acceptability: Deductibles: Subcontractors</u>. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

ł

ł,

{

(c) <u>Delivery: Coverage Change: No Inconsistent Action</u>. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10. <u>Ownership and Control of Work Product</u>. Upon execution of this Agreement, any reports, documents, data, photographs and/or other materials produced pursuant to this Agreement, and any and all drafts and/or other preliminary materials in any format related to such items, shall become the exclusive property of the County, and the Contractor may not use such materials in any way other than for the compliance of the requirements under this Agreement.

11. <u>Assignment: Amendment: Waiver: Subcontracting</u>. (a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "<u>County Executive</u>"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

(b) The Contractor is and shall remain primarily liable for the successful completion of all Services in accordance with this Agreement. Nothing in this Agreement or otherwise shall create any contractual relationship between the County and the Contractor's subcontractors. The Contractor agrees to be fully responsible to the County for the acts and omissions of its subcontractors. The Contractor's obligation to pay its subcontractors is an independent obligation from the County's obligation to make payments to the Contractor. Therefore, the County shall have no obligation to pay or to enforce the payment of any moneys to any Contractor subcontractors.

(c) The Contractor shall ensure that their subcontractors shall not further subcontract, or otherwise engage an independent contractor or agent to provide any Services under this Agreement without the prior written consent of the County Executive.

12. <u>Termination</u>. (a) <u>Generally</u>. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "<u>Cause</u>" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or

impending termination of federal or state funding for the services to be provided under this Agreement.

(

t

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "<u>Commissioner</u>"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "<u>Applicable DCE</u>") on the same day that notice is given to the Commissioner.

(c) <u>Contractor Assistance upon Termination</u>. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

13. <u>Accounting Procedures: Records.</u> The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("<u>Records</u>"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

14. <u>Limitations on Actions and Special Proceedings against the County</u>. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) <u>Notice</u>. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) <u>Time Limitation</u>. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (<u>A</u>) final payment under or the termination of this Agreement, and (<u>B</u>) the accrual of the cause of action, and (<u>ii</u>) the time specified in any other provision of this

#### Agreement.

15. <u>Work Performance Liability</u>. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

16. <u>Consent to Jurisdiction and Venue: Governing Law</u>. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and <u>forum non conveniens</u>. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

17. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (j) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Contractor shall obtain from the Department) at the address specified above for the County, (ii) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

18. <u>All Legal Provisions Deemed Included: Severability: Supremacy</u>. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. If there is an actual conflict, the order of priority provided in Section 2(c) of this Agreement shall apply.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter. 19. <u>Section and Other Headings</u>. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

1

(

(

20. <u>Administrative Service Charge</u>. The Contractor agrees to pay the County an administrative service charge of Five Hundred Thirty-three Dollars (\$533.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Number 128-2006. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

21. <u>Executory Clause</u>. Notwithstanding any other provision of this Agreement:

(a) <u>Approval and Execution</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all County approvals, third party approvals and other governmental approvals have been obtained, including, if required, approval by the County Legislature, and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) <u>Availability of Funds</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the County from the state and/or federal governments.

22. <u>Entire Agreement</u>. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

[Remainder of Page Intentionally Left Blank.]

IN WITNESS WHEREOF, the Contractor and the County have executed this Agreement as of the Effective Date.

#### **Request for Proposal (RFP)**

#### A. Introduction

Nassau County, New York (the "County") is currently seeking <u>individual</u> proposals by <u>Tax</u> <u>Class</u> from qualified individuals and entities authorized to do business in the State of New York to provide a Systematic Review of the County's Assessment System <u>by Tax Class</u>. The purpose of the RFP is to provide Nassau County with proposals and recommendations from entitles qualified to provide a thorough systematic analysis of Nassau County's assessment system, including but not limited to inventory management procedures, dynamic inventory issues relating to the effects of Super Storm Sandy, review of neighborhood/submarket parameters for both residential and commercial properties, review and screening of sales data employed in residential valuation modeling, review and updating of economic and market data utilized in commercial valuation modeling, and evaluation of the market value output from the respective modeling systems. The Systematic Review of the County's Assessment System will be completed by year's end 2017 for the purpose of recalibrating the cyclical assessment roll for 2019/20.

Nassau County is committed to a policy of equal opportunity and does not discriminate against vendors on the basis of age, sex, sexual orientation, race, color, creed, religion, ethnicity, national origin, disability, marital status, familial status, veteran status or any other basis protected under federal, state, and local laws, regulations, and ordinances.

#### B. Anticipated Proposal Schedule

(

RFP Issue Date:	May 18, 2015
Proposal Due Date:	June 08, 2015
Oral Presentation, if necessary:	June 10, 2015
Award Date:	June 15, 2015

Dates indicated above are subject to change at the sole discretion of the County.

#### THE PROPOSER SHOULD PROVIDE A PROPOSAL IN APPENDIX B WHICH MEETS THE SCOPE REQUIREMENTS SET FORTH BELOW. THE COUNTY WILL REVIEW SINGLE OR MULTIPLE PROPOSALS FROM AN INDIVIDUAL OR ENTITY.

#### C. Scope of Services

The Scope of Services ("Scope") outlined below has been established for the purpose of achieving and implementing program goals and objectives described in this document. Although the Scope is intended to serve as a reference in the preparation of the proposal, forthcoming proposals may offer additional services which support the goals of this job title and compensation review and analysis.

## Scope of Systematic Review and Analysis of Nassau County's Assessment System

An assessing unit may revise its assessments as provided for in Real Property Tax Law (RPTL) to maintain uniformity and/or level of assessment, using means other than a full reappraisal in those years in which a full reappraisal is not conducted. The NYS Office of Real Property Tax Services ("ORPTS") will review the assessing unit's documentation showing that it conducted a systematic analysis of all parcels, and then verify the Level of Assessment (LOA) using the tentative roll compared to the estimated market values shared during the Pre-Decisional Collaboration (PDC) process.

The scope of services required for a Systematic Review and Analysis of the County's Assessment System <u>by Tax Class</u> must be completed by the end of calendar year 2017, with corrections and recalibration of the roll available for the tentative roll of the 2019/20 tax year. The Systematic Review and Analysis must be conducted in compliance with the standard of assessment set forth by NYS Real Property Tax Law. The Systematic Review and Analysis will be completed in conjunction with the Nassau County Assessment Department and its staff, within the existing Nassau County assessment system.

The minimum scope of services required for Systematic Review and Analysis of the County's Assessment System are detailed within Appendix A.

## D. INTENTIONALLY OMITTED

(

## E. Mandatory Proposal Response Requirements

All proposals must state the period for which the proposal shall remain in effect (i.e., how much time does the County have to accept or reject the proposal under the terms proposed). Such period shall not be less than 180 (one hundred eighty) days from the proposal date.

## All Proposals must contain the following:

- 1. Cost Proposal Form attached as Appendix A.
- Proposed approach to the Scope of Work attached as Appendix B, containing a complete written description of proposer's Proposal.
- 3. A duly completed and verified Business History Form attached as Appendix C, together with a current certified or verified financial statement and/or other commercially reliable

2

•

:

written evidence of the proposer's credit, financial standing and capacity to perform in accordance with the terms of the Contract.

- All officers and any individuals who hold a ten percent (10%) or greater ownership interest in the proposer shall complete and verify the Principal Questionnaire attached as Appendix D.
- 5. Living Wage Law Certificate of Compliance, attached as Appendix F
- 6. The Proposer's Exceptions to the RFP Requirements, if any.
- 7. All submissions must be signed on the designated signature line by an officer or authorized agent of the proposing party.
- 8. Additional information that you believe pertinent to the County's requirements.
- 9. Statement proposer has registered with the County as a vendor,

#### F. Proposal Submission Instructions

(

ĺ

Each proposal shall be prepared simply and economically avoiding the use of elaborate promotional materials beyond those sufficient to provide a complete, accurate, and reliable presentation. For ease of review, the proposals must follow the outline in the section of this Request For Proposal ("RFP") titled **Mandatory Proposal Response Requirements**. Each response should be clearly numbered and the full question listed.

The proposals must be signed by an individual who is authorized to bind the proposer to all commitments made in the proposal. The original and four (4) copies of the proposal, together with all attachments, must be submitted to the County in a sealed opaque envelope no later than 3:00 p.m. EST on June 8, 2015. No telegraphic or facsimile proposals will be accepted. Any late proposals will be returned unopened. Proposals received after the above date and time will not be considered. The County is under no obligation to return proposals.

It is each Proposer's responsibility to carefully review all the requirements of this RFP, including the scope of work, the specifications and terms and conditions. It is further the proposer's responsibility to ask questions, request clarifications, or otherwise advise the County if any language, specifications or requirements of this RFP appear to be ambiguous, contradictory, or to inadvertently restrict or limit the vendors that could meet the requirements of this RFP to a single source.

If a proposer takes exception to any requirement of this RFP, the Proposer must clearly set forth the exception in its proposal, referencing the affected RFP section, paragraph and page. The Proposer must set forth the reason(s) for the exception and indicate what (if any) alternative is being offered by the Proposer. The County shall determine (in its sole discretion) the acceptability of any proposed exception(s). Where the County rejects a proposed exception, the County may offer the vendor an opportunity to withdraw its exception and propose an alternative. However, even where the County does not reject a proposed exception to the RFP prior to the Issuance of a Notice of Intent to Award to a Proposer, the County reserves the right to negotiate with the Proposer regarding any such exceptions. Regardless of whether the County rejects proposed exceptions to the RFP, such exceptions will be considered by the County in evaluating the completeness and adequacy of the proposal. Proposers shall be deemed to have accepted all requirements of this RFP to which they have not specifically and clearly stated an exception in their proposal.

The County is under no obligation to respond to any question, inquiry or assertion that is not received in writing. Interested parties may contact the authorized contact person listed below by telephone to advise that a fax transmission has been sent to the above number. Violation of these provisions may result in immediate disqualification. Proposers will submit all proposals and direct all responses, questions, and any other communications to the following authorized contact person:

Steven L. Corte, IAO IFAS SRA ASA CSA-G Deputy County Assessor Nassau County Department of Assessment 240 Old Country Road, Fourth Floor, Room 400 Mineola, New York 11501 Telephone: (516) 571-3587 Email: Systematicreviewrfp2015@nassaucountyny.gov

No contact with any other County personnel other than the authorized contact person is allowed until such times as an award (or awards) has (have) been made.

## G. Contract Proposal Evaluation Criteria

(

Proposal elements, as described above, will be reviewed and evaluated for completeness and responsiveness according to pre-determined standards and selection criteria. Proposals will be deemed responsive only if the Vendor responds to and meets all of the requirements of this RFP. Vendors may be invited for interviews to discuss project requirements and proposal elements in more detail should the selection committee request such. The County reserves the right to award all or any parts of this project, and to waive any technical irregularities or omissions, or to cancel this RFP and solicit new proposals if, in the County's sole judgment, the best interests of the County will be served. <u>The bidder is asked to provide the County with a bid that is based on the combined Tax Classes broken down by each Tax Class or may choose an individual Tax Class according to the bidder's level of expertise.</u> The selection committee will evaluate each proposal and use the following for scoring each submission:

## Contract Requirements and Proposed Solution

[30%]

- Overall responsiveness of the proposal.
- Demonstration of a clear understanding of the requirements portion of the RFP.
- A clear description of the scope of work needed to satisfy the defined RFP requirements.
- Overall acceptability and efficacy of proposed analysis;
- Management and implementation methods and procedures and supporting systems for ongoing project management and implementation support.
- Previous engagements of similar scope and quality.
- Description of recommendations and alternative approaches that the County might use to improve its management process.

4

## Vendor Profile: Organization, Capacity, Staffing, Resumes [25%]

- A complete substantiation of the organizational structure and capacity to provide and support the proposed Scope of Services. xxx
- Resumes of the proposed personnel (quality / demonstrated skills of proposed personnel).
- A clear description of potential resource utilization methods and approach.
- A complete list of the sub-contractors being utilized in all parts of this process is required, and should include what their respective responsibilities will be. Where the vendor has either limited or no expertise in a particular area(s), a list of those areas must be provided to the DoA along with a list of the sub-contractor(s) information and an outline as to what the sub-contractor(s) responsibilities will be.

#### Related Experience

[35%]

ALC: NOT

5

- Prior public sector experience.
- Demonstrated experience and knowledge of Nassau County real estate markets, assessment systems and practices.
- Project management and implementation qualifications and related experiences of the Vendor including references, organizational and technical capacity, and outcome/results of services provided to other similar clients of similar size.
- A comprehensive description of why the Vendor can perform the tasks defined in the RFP,

#### Cost of Overall Project

[10%]

Total cost to the County.

The County will consider any other relevant factors as determined by the selection committee.

#### H. General Information

- 1. Incurring Cost. The County shall not be liable for any costs incurred in the preparation and production of a proposal in response to this RFP or for any work performed prior to the Issuance of a contract.
- 2. Rejection of Proposals. This RFP does not commit the County to award a contract, or to procure, or to contract for services or supplies. Notwithstanding any other provisions of this RFP, the County reserves the right to award this contract to the vendor(s) that best meet the requirements of the RFP, and not necessarily to the lowest proposer. The County reserves the right to accept or reject any or all proposals received as a result of this request, to negotiate with all qualified sources; or to cancel in part or in its entirety this RFP if it is in the interests of the County.

The County may require the Proposer selected to participate in negotiation and to submit any price, technical, or other revisions, or their proposals as may result from negotiations.

- Addenda to Request for Proposals. Amendments to this RFP may be necessary prior to the closing date and will be furnished by mail to all prospective Proposers who have requested these materials.
- 4. Contract Negotiations. The County intends to enter into contract negotiations with the firm or firms selected by the RFP Evaluation Committee, who shall be required to enter into a written contract with the County in a form approved by legal counsel for the County. The contract usually includes, without limitation, the standard clauses set forth in Appendix "E" attached hereto. This RFP and the proposal, or any part thereof, may be incorporated into and made a part of the contract. The contract may contain provisions not contained herein.

The County reserves the right to negotiate the terms and conditions of the contract with the selected proposer(s), if any. These negotiations could include all aspects of services and fees. Neither the selection of a vendor nor the negotiation of the contract with such vendor(s) shall constitute the County's acceptance of the proposal or a binding commitment on behalf of the County to enter into a contract with such vendor(s), as any binding arrangement must be set forth in the contract signed by both parties and is subject to all requisite approvals.

5. Additional information. The County may award a contract based upon offers received without discussion of such offers with the Proposers. Each offer, therefore, should be submitted in the most favorable terms that the Proposers can offer the County from a price and technical standpoint. However, the County reserves the right to request additional data or oral discussions or presentations in support of written proposals from any and all of the Proposers. In addition, the County reserves the right to make on-site visits to the Proposer's place of business to assess and/or evaluate Proposer's qualifications.

(

Ļ

- 6. Disclosure of Proposal Contents. The County will withhold proposals submitted under this RFP from disclosure, unless otherwise required by law, including, but not limited to, the Freedom of Information Law ("FOIL"). Proposers shall indicate in their proposals any information they submit that they feel is exempted from disclosure under FOIL. In the event that the County determines that information is required by applicable law to be disclosed, the County will notify the Proposer in advance of such disclosure to enable the Proposer to take such action as it deems appropriate. Copies of executed contracts are not exempt from FOIL.
- 7. Independent Price Determination: By submission of its offer, the Proposers certify (and in the case of a joint offer, each party thereto certifies as to its own organization) that, in connection with procurement:
  - A. The prices in this offer have been arrived at independently, without consultation, communication, or agreement for the purpose of restricting competition, as to any matters relating to such prices with any other proposer or competitor; and
  - B. Unless otherwise required by law, the prices which have been quoted in this offer have not been knowingly disclosed by the Proposers prior to award, directly or indirectly, to any other Proposer or competitor; and
  - C. No attempt has been made or will be made by the Proposer to induce any other person or firm to submit or not to submit an offer for the purpose of restricting competition; and

- D. No elected or appointed official or employee of the County shall benefit financially or materially from this contract. The County may terminate this contract if gratuities were offered or given by the Proposer or his or her agency to any such official or employee.
- 8. Ownership of Information: All materials submitted in response to this Request for Proposals will become the property of the County.
- 9. Examination of Records: In submitting a proposal, the successful Proposer agrees that the County shall have access to and the right to examine directly all pertinent documents, papers and records of the Proposer and/or any sub-proposer as related to any contract and/or subcontract resulting from this RFP until six years after final payment has been made pursuant to any contract awarded as a result of the County's acceptance of proposal.
- 10. Subcontracting: The Proposer will be responsible for the entire contract performance. The Proposer must indicate in the RFP if it intends to use a sub-contractor for any part of the work. If so, the Proposer shall identify each sub-contractor by name, business address and expertise, and must include the name(s) of the principal(s) of the subcontracting entity. A full description of the tasks to be performed by the subcontractor must be included. The Proposer will not be permitted to subcontract any part of the contract or any of the rights and obligations thereunder without the prior written approval of the County.
- 11. Negotiated Changes: In the event that negotiated changes occur after the awarding of the contract, the same pricing policies called for in the original contract will remain in effect.
- 12. Proposer Conflicts: The Proposer shall not have provided appraisal, consulting or other real estate expert services in any capacity against the County in real property assessment or tax certiorari proceedings within a three (3) year period prior to submission of its proposal. Successful Proposers will agree not to perform such services during the term of their contract with the County.
- 13. Disclaimer: The County and its respective officers, directors, agents, members and employees make no representation or warranty and assume no responsibility for the accuracy of the information set forth in this RFP. Further, the County does not warrant nor make any representations as to the quality, content, accuracy or completeness of the information, text, graphics, links or other facet of this RFP once it has been downloaded or printed from this or any server, and hereby disclaims any liability for technical errors or difficulties of any nature that may arise in connection with the website on which this RFP is posted, or in connection with any other electronic medium utilized by respondents or potential respondents in connection with or otherwise related to the RFP.

### I. General Conditions for Proposers

- The Proposers will be required to pay its employees a "living wage" in compliance with Nassau County Local Law No. 1-2006 (the "Living Wage Law"), if applicable, and also to pay the prevailing wage rate as published by the New York State Department of Labor, if applicable, and comply with all applicable New York State Labor Law.
- Proposer is bound by and shall comply with the terms of Exhibit U and Exhibit EE to the Standard Clauses for Nassau County Contracts, attached hereto as Appendix E, which are hereby made a part hereof, if the proposers would be considered "county contractors", as defined in those exhibits, if awarded this contract.
- 3. The contract shall provide that in the event of any material misrepresentation by the Proposer contained in its proposal. County shall have the right to immediately terminate the agreement. It shall also provide that in the event the Proposer or any of its principals are convicted of a misdemeanor or felony during the term of the agreement, that the County shall also have the right to terminate the agreement.

### J. Additional Demonstrative Materials

Parties are encouraged to provide as much additional material and detail as possible to completely describe and demonstrate the Proposal.

### K. Award of Contract

The County shall select a firm by means of a Notice of Award issued by the RFP Evaluation Committee. Neither the selection of a firm nor the issuance of a Notice of Award shall constitute the County's acceptance of the proposal or a binding commitment on behalf of the County to enter into a contract with the firm, as any binding arrangement must be set forth in definitive documentation signed by both parties and shall be subject to all requisite

#### L. Protest Policy

Į

As indicated in Section F, all questions or concerns regarding this RFP must be directed to the designated contact person. If a Proposer believes that a concern has not been satisfactorily addressed, it may request a copy of the Vendor Protest Procedure from the designated contact person.

The undersigned hereby certifies his or her compliance with the following:

### "NON-COLLUSIVE PROPOSAL CERTIFICATION"

By submission of this Proposal, each proposer and each person signing on behalf of any other proposer certifies, and in the case of a joint Proposal, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his or her knowledge and bellef:

- A. The prices of this Proposal have been arrived at independently without collusion, consultation, communication, or agreement for the purpose of restricting competition, as to any matter relating to such prices with any other proposer or with any competitor; and
- B. Unless otherwise required by law, the prices which have been quoted in this Proposal have not been knowingly disclosed by the proposer and will not knowingly be disclosed by the proposer prior to opening, directly or indirectly, to any other proposer or to any competitor; and
- C. No attempt has been made or will be made by the proposer to induce any other person, partnership or corporation to submit or not to submit a Proposal for the purpose of restricting competition.

D. The undersigned has carefully examined the Proposal and Contract Documents and agrees to perform this contract and to provide all services, labor, material and equipment necessary for this contract.

### STANDARD CLAUSES FOR NASSAU COUNTY CONTRACTS

### STANDARD CLAUSES FOR NASSAU COUNTY CONTRACTS

1. <u>Independent Contractor</u>. The Contractor is an independent contractor of the County. The Contractor shall not, nor shall any officer, director, employee, servant, agent or independent contractor of the Contractor (a "<u>Contractor Agent</u>"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "<u>Person</u>" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

2. <u>No Arrears or Default</u>. The Contractor is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

**3.** <u>Compliance with Law</u>. (a) <u>Generally</u>. The Contractor shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, the Contractor is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) <u>Nassau County Living Wage Law.</u> Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

- (i) Contractor shall comply with the applicable requirements of the Living Wage Law, as amended;
- (ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, such breach being determined solely by the County. Contractor has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.
- (iii) On a yearly basis, Contractor shall provide the County with any material changes to its Certificate of Compliance, attached to this Agreement as Appendix L.

(c) <u>Records Access</u>. The parties acknowledge and agree that all records, information, and data ("<u>Information</u>") acquired in connection with performance or administration of this Agreement shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

í

### 4. Minimum Service Standards. Regardless of whether required by Law:

(a) The Contractor shall, and shall cause Contractor Agents to, conduct its, his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) The Contractor shall deliver services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("<u>Approvals</u>") necessary or appropriate in connection with this Agreement.

### 6. Indemnification; Defense; Cooperation,

÷,

(a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, its officers, employees, and agents (the "Indemnified Parties") from and against any and all ilabilities, losses, costs, expenses (including, without limitation, reasonable attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether taken pursuant to or authorized by this Agreement and regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and dilgently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section and the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

### 6. Insurance.

(

(

(

(a) <u>Types and Amounts</u>. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(les) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than two million dollars (\$2,000,000) per occurrence, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(les) shall have a minimum single combined limit liability of not less than one million dollars (\$1,000,000) per claim, (iii) compensation insurance for the benefit of the Contractor's employees ("<u>Workers' Compensation Insurance</u>"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance, including, without limitation, builder's all risk, if applicable, automobile liability insurance and umbrella liability insurance, as the County may from

(b) <u>Acceptability: Deductibles: Subcontractors</u>. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed or authorized to do business in New York State and acceptable to the County; and (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) <u>Delivery: Coverage Change: No Inconsistent Action</u>. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the County Attorney's Office. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the County Attorney's Office of the same and deliver to the County Attorney's Office renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take any action, or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

### 7. Assignment: Amendment: Waiver: Subcontracting.

(a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "<u>County Executive</u>"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

### 8. Work Performance Liability.

The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

**9.** <u>Termination</u>. (a) <u>Generally</u>. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

1

(

As used in this Agreement the word "<u>Cause</u>" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) <u>By the Contractor</u>. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "<u>Commissioner</u>"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "<u>Applicable DCE</u>") on the same day that notice is given to the Commissioner.

(c) <u>Contractor Assistance upon Termination</u>. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

10. <u>Accounting Procedures: Records.</u> The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually (<u>"Records"</u>), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the federal Office of Management & Budget Circular A-122, "Cost Principles for Non-Profit Organizations." Such Records shall at all times be available for audit and inspection by the County Comptroller, the County Attorney's Office, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

11. <u>Limitations on Actions and Special Proceedings Against the County</u>. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) <u>Notice</u>. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (j) the Department and the (ii)

the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) <u>Time Limitation</u>. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

12. <u>Consent to Jurisdiction and Venue: Governing Law</u>. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and <u>forum non convenes</u>. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of Jaws provisions thereof.

## 13. All Legal Provisions Deemed Included; Severability; Supremacy; Construction,

(a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) In the event of a conflict between the terms and conditions of the contract, including any and all attachments thereto and amendments thereof, and the terms of this Appendix A, the terms of this Appendix A shall control.

(d) Each party has cooperated in the negotiation and preparation of this Agreement, so if any construction is made of the Agreement it shall not be construed against either party as drafter.

**14.** <u>Administrative Service Charge</u>. The Contractor agrees to pay the County an administrative service charge of \_\_\_\_\_\_\_\_ dollars (\$\_\_\_\_\_\_) for the processing of this Agreement administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

Value of contract:	Administrative fee;
\$0 - \$5,000	\$0
\$5,001 - \$50,000	\$160
\$50,001 - \$ 100,000	\$266
\$100,001 or more	\$533

(

(

### 15. Executory Clause. Notwithstanding any other provision of this Agreement:

(

(

(

(a) <u>Approval and Execution</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all County approvals have been obtained, including, if required, approval by the County Legislature, and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) <u>Availability of Funds</u>. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the State and/or federal governments, then beyond funds available to the County from the State and/or

### Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002;

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

- (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.
- (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.
- (e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving blds from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.
- (f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.
- (9) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

- At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.
- (i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.
- (j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified MWBEs.
- (k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as MWBE compliant or considered breach of the County Contract.
- (I) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:
  - a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
  - b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
  - c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the Imposition of sanctions, fines or penalties. The Executive Director shall either (I) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be Imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or Impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

(h)

. (

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements

appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outfining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

(

ſ

- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE,
- Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all subbidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bld documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (i) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not pursuant to a county contract. Subcontractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to intergovernmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Mr. Steven L. Corte, IAO, IFAS, SRA, ASA, CSA-G Deputy County Assessor Nassau County Department of Assessment 240 Old Country Road, 4<sup>th</sup> Floor, Room 400 Mineola, New York 11501

RE: Proposal to Provide a Thorough Systematic Review and Analysis of the County of Nassau's Assessment System on a Tax Class Basis for the Purpose of Recalibrating the Cyclical Assessment Roll Available for the Tentative Roll of the 2019/20 Tax Year EIN: 11-2510480

Dear Mr. Corte:

(

Michael Haberman Associates, Inc. (hereinafter the "Company") is pleased to submit this proposal to provide a Systematic Review of all real property on a Tax Class basis within the municipality of Nassau County. This proposal does not include the valuation of Roll Section 5 (special franchise) & 6 (utility property) properties. According to the Request For Proposal (RFP), the review is to include, but not limited to, an analysis of inventory management procedures, dynamic inventory issues relating to the effects of Super Storm Sandy, review of neighborhoods/submarket parameters of both residential and commercial properties, review and updating of economic and market data utilized in commercial valuation modeling, and evaluation of the market value output from the respective modeling systems. The Systematic Review of the County's Assessment System will be completed by year's end 2017 for the purpose of recalibrating the cyclical assessment roli on a Tax Class basis for 2019/20.

This proposal is to serve as an outline of our fees and scope of work to complete a systematic analysis for all parcels on a Tax Class basis within the County of Nassau in compliance with the standards of assessment set forth by NYS Real Property Tax Law and in accordance with the guidelines set forth by the New York State Office of Real Property Tax Services (ORPTS). The Scope of the Assignment, which will be subject to mutually agreed upon modifications, is stated below,

As will be seen in other areas of this proposal, we would like to mention some of the distinctive features of our Company.

- The Company is a full service Real Estate Consulting and Valuation firm that has been in business for 47 years. It has been performing and providing valuations, tax assessment review and litigation support to numerous municipalities for over 37 years.
- The Company has continually completed revaluations since the Nassau County reassessment completed in 2003 where it provided valuation expertise to the Cole Layer Trumble firm. The Company has recently completed revaluations for the Villages of Westbury, Farmingdale, Mineola, Sea Cliff, Lake Success, Russell Gardens, Great Neck, Williston Park and Great Neck Estates. The Great Neck Estates revaluation was our most recent project, successfully completed on schedule, providing the Village with an equitable and defendable assessment roll for the 2013/14 tax year. The Company provides Annual Updates "Non-reappraisal Reassessments / Systematic Analysis" and support for the above-mentioned municipalities including Small Claims Assessment Review proceedings on an ongoing basis. We provide the best possible assemblage of experienced real estate professionals for this project.
- In 2014 the Company was retained by the Multiple Municipal Reassessment Consortium (MMRC) of Westchester County, to act as project monitor for their county wide reassessment project. The project is currently 50% complete and proceeding on schedule with no complications or unforeseen issues. The winning proposal was submitted by Tyler Technology (fin/a Cole Layer Trumble) providing systems and valuation methodology for the project. As an intrinsic part of the project, MHA is well versed in the Tyler computer system, which is similar to that of Nassau County's assessment administration program. This intimate knowledge will enable MHA to perform required valuation tasks without costing the County money for training or lost time.
- Nassau County currently has nine municipalities that function under Article 19, "Homestead Tax Option", which by law are required to file Adjusted Base Proportions calculations on an annual basis. Michael Haberman Associates, Inc. is the only company which has calculated and submitted to ORPTS these detailed calculations for each of the municipalities. This experience provides the Company a clear understanding of a multi-class assessment system similar to that which the County functions under.
- The Company has acted as appraisers and consultants to the Nassau County Attorney's Office in the defense of tax certiorari claims for over 34 years, in the more recent years also working with the Assessment Review Commission. This has included the appraisal of almost every property type and complexity seen in Nassau County. The Company has provided litigation support and expert testimony in defense of its value estimates over the same period.

MICHAEL HABERMAN ASSOCIATES, INC.

ł

 The Company has acted as consultants to the Nassau County Attorney's Office and Department of Assessment in defense of the Class 1 Assessment Roll for an 11 year period, additionally working with the Assessment Review Commission for two years. This has included the preparation of between 10,000 and 20,000 evaluations each year along with summary appraisal reports when applicable.

Ι,

(

ł

- Michael Haberman Associates, Inc. has acted as appraisers and consultants to the Town of Babylon's Department of Assessment in the defense of tax certiorari claims for over 20 years. This has included the appraisal of almost every property type and complexity seen in the Town. The Company has provided litigation support and expert testimony in defense of its value estimates over the same period. The Company also provides assistance in defending the Town's 5,500 plus small claims fillings on an annual basis, providing property specific appraisals, statistical analysis and expert defense in Court.
- The Town of Huntington retained Michael Haberman Associates in 2013 to facilitate disposition of approximately 5,000 small claims filings on an annual basis.
- In 2012, after more than a year of development, Michael Haberman Associates, Inc. released its gold standard small claim valuation program. This program provides the Company the ability to value thousands of properties with consistency and fairness.

The Company's history of providing the above-mentioned services to Nassau County and other municipalities over an extended period makes us uniquely qualified to perform the RFP's stated program. Our people are highly professional and we have maintained a close successful working relationship with the County Attorney's Office, ARC and the County's Assessment Department for many years. A true indication of our resolve in providing the finest service possible is in the proven results, both on paper and by reputation.

Michael Haberman, Ronald Haberman and Thomas Donato are the parties authorized to discuss and/or enter into negotiations with Nassau County with respect to this proposal which we look forward to discussing with you at your convenience. We appreciate and thank you for your time.

MICHAEL HABERMAN ASSOCIATES, INC.

We have made every attempt to respond to all of the necessary points within the RFP and we hope that you look favorably on this submission. As directed, we have included an Addendum which contains appraiser resumes with license numbers for those people available for the program. If there are any questions regarding this proposal, please do not hesitate to contact us for clarification.

Respectfully submitted,

1

### INTRODUCTION

ł

(

ł

In response to the RFP by the County of Nassau's Department of Assessment, Michael Haberman Associates, Inc. is pleased to submit this proposal. As seen within our *Cover Letter*, we believe that our history of providing tax assessment review support to Nassau County and other municipalities for many years and providing revaluations, assessment updates and support in Small Claims Assessment Review proceedings along with general assessment department support over the last twelve years uniquely qualify us to perform the RFP's stated program.

As previously mentioned within the Cover Letter, The Company has continually completed revaluations since the Nassau County reassessment completed in 2003 where Michael Haberman Associates, Inc. provided valuation expertise to the Cole Layer Trumble firm. The Company has recently completed revaluations for the Villages of Westbury, Farmingdale, Mineola, Sea Cliff, Lake Success, Russell Gardens, Great Neck, Williston Park and Great Neck Estates. The Great Neck Estates revaluation was our most recent project, successfully completed on schedule, providing the Village with an equitable and defendable assessment roll for the 2013/14 tax year. The Company provides Annual Updates / Systematic Analysis and support for the above mentioned municipalities including statistical analysis, Adjusted Base Proportions calculations, Tax Shift Analysis and Small Claims Assessment Review proceedings on an ongoing basis. We provide the best possible assemblage of experienced real estate professionals for this project.

# Summary of Reassessment Projects & Annual Updated / Systematic Analysis

This proposal shall remain in effect until June 8, 2016, or for a period of one year from the date of its submission. The Company understands and agrees to all the terms, specifications and conditions of the RFP.

As seen in other sections of this proposal, the Company's principals and project manager have at least 15 years of experience in appraising a diverse variety of properties in Nassau County and have extensive experience testifying in litigated valuation matters. The Company has significant and verifiable expert witness experience within Nassau County and other municipal entities in tax certiorari and/or other litigation related matters.

The Company is totally capable of providing the Scope of Services needed for the systematic review and analysis of Nassau County's Assessment System as seen following this Introduction in a concise and defensible fashion,

The Company recognizes that it is bound by and shall comply with the terms of Exhibit U and Exhibit EE to the Standard Clauses for Nassau County Contracts, attached to the RFP as Appendix E, if the proposers would be considered "county contractors", as defined in those exhibits, if awarded this contract,

# E. MANDATORY PROPOSAL RESPONSE REQUIREMENTS

As seen above, this proposal shall remain in effect until June 8, 2016, or for a period of one year from the date of its submission.

The RFP mandates that all Proposals must contain the following:

1. Cost Proposal Form attached as Appendix A. Answer: See Appendix A following.

Ę

(

(

2. Proposed approach to the Scope of Work attached as Appendix B, containing a complete written description of proposer's Proposal.

Answer: See Appendix B following.

3. A duly completed and verified Business History Form attached as Appendix C, together with a current certified or verified financial statement and/or other commercially reliable written evidence of the proposer's credit, financial standing and capacity to perform in accordance with the terms of the Contract.

Answer: See Appendix C following which includes the latest verified financial statement.

4. All officers and any individuals who hold a ten percent (10%) or greater ownership interest in the proposer shall complete and verify the Principal Questionnaire attached as Appendix D.

Answer: See Appendix D for each of the two principals of the Company following.

- 5. Living Wage Law Certificate of Compliance, attached as Appendix L Answer: See Appendix L following.
- 6. The Proposer's Exceptions to the RFP Requirements, if any.

Answer: The Proposer respectfully takes exception to the first sentence within the statement seen in Section H, Page 7 Paragraph 12 of the RFP entitled Proposer Conflicts. The sentence reads: "The Proposer shall not have provided appraisal, consulting or other real estate expert services in any capacity against the County in real property assessment or tax certiorari proceedings within a three (3) year period prior to submission of its proposal."

Reason for Exception: Since the Company was precluded from working for the Nassau County Attorney's office in 2009, within its normal course of business as tax assessment review experts, it has provided limited appraisal and consulting services in capacities against the County within the three year period prior to the submission of this proposal.

In May 2013, the Company received a one year contract (1/1/13 - 12/31/13) from the Nassau County Attorney's office. During December of that year, it appraised three properties including RXR Plaza in Uniondale (over a million square foot trophy office building) and the Tree Line Franklin Avenue Plaza Office Complex in Garden Clty, another significant property for the County. For the remainder of 2013, the Company did not engage new petitioner assignments after the County contract was signed. The Company also received a two year contact (6/17/14 – 6/16/16) from the Nassau County Department of Public Works Division of Real Estate Services. As of this date, it has appraised five properties including the Silverpoint/Sun and Surf Beach Club in Atlantic Beach and a five acre site at the S/W/C portion of the Nassau Coliseum property in Uniondale.

Offered Alternative: The Company has always maintained and will continue to maintain a strict policy regarding potential conflicts of interest or an appearance of a conflict of interest.

The Company additionally requests a waiver of this section of the RFP.

7. All submissions must be signed on the designated signature line by an officer or authorized agent of the proposing party.

Answer: All designated signature lines have been signed by a principal of the Company.

8. Additional information that you believe pertinent to the County's requirements.

Answer: Additional information can be seen within various sections of this proposal.

Statement proposer has registered with the County as a vendor.
 Answer: The Proposer has registered with the County as a vendor.

# "NON-COLLUSIVE PROPOSAL CERTIFICATION"

By submission of this proposal, each Proposer and each person signing on behalf of any other Proposer certifies, and in the case of a joint proposal, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his or her knowledge and belief:

- A. The prices of this proposal have been arrived at independently without collusion, consultation, communication, or agreement for the purpose of restricting competition, as to any matter relating to such prices with any other Proposer or with any competitor; and
  - B. Unless otherwise required by law, the prices which have been quoted in this proposal have not been knowingly disclosed by the Proposer and will not knowingly be disclosed by the Proposer prior to opening, directly or indirectly, to any other Proposer or to any competitor; and
  - C. No attempt has been made or will be made by the Proposer to induce any other person, partnership or corporation to submit or not to submit a proposal for the purpose of restricting competition.
  - D. The undersigned has carefully examined the proposal and Contract Documents and agrees to perform this contract and to provide all services, labor, material and equipment necessary for this contract.

### APPENDIX B Program Description and Staffing

Please provide a complete written description of the Proposal, including the following information:

## DESCRIPTION OF THE PROPOSAL

(

# Scope of the Assignment and Proposed Fee for a Systematic Analysis

As stated in the Guide for Cyclical Reassessment, "New York State Real Property Tax Law (RPTL) requires all properties in each municipality (except in New York City end Nassau County) to be assessed at a uniform percentage of market value each year. This means that all properties in each city, town or village must be assessed at market value or all at the same uniform percentage of market value each year. State Law also requires your assessor to include the estimate of the market value for each property, the assessment for each property and the uniform percentage for all taxable property on the tentative assessment rolf<sup>-1</sup>.

There are numerous advantages for undertaking a revaluation. The County should have an assessment roll which has up-to-date market values.

- Nassau County has not recently performed a complete revaluation. Therefore, over time, due to changes in the economy and the physical inventory, assessments become less uniform and less reflective of actual current market values and trends. As a result, it is more likely for apparently similar properties to be assessed very differently. A systematic analysis reassessment of Nassau County properties will help provide market values that are more reliable and uniform.
- Having a fair, equitable and current assessment roll will significantly reduce the number of successful tax appeal cases over time, particularly commercial certiorari court cases.

Producing the most accurate assessments for 2019/20 tax year will require a team of qualified individuals both from the Nassau County Department of Assessment and Michael Haberman Associates, Inc., focusing on their fields of expertise and knowledge of data and the Nassau County real estate market. In completing a systematic analysis, NYSORPTS will require supportable market values for all residential and commercial properties. Residential market value is typically supported and verified by comparable sales within the County. In addition, commercial properties will also be valued and verified by the Income Approach in a systematic approach. This proposal is strictly for a systematic analysis of all parcels within Nassau County and not for a complete revaluation of the County. All procedures as outlined in this proposal will follow NYS ORPTS and IAAO standards for a systematic analysis. Nassau County consists of

<sup>&</sup>lt;sup>1</sup> NYS Office of Real Property Tax Services Website, Guide for Cyclical Reassessment, March 2013 – Page 3

approximately 423,993 parcels which include agricultural, residential, vacant, commercial, recreational, community service, industrial, public service and public parks of which require estimates of market value. This proposal is only for the analysis of parcels classified within Roll Sections 1 & 4 and Tax Classes I, II & IV. Parcels highlighted red are not part of the systematic review or included in this proposal.

<u>Class</u>	Roll Section 1	Roll Section 5	Roll Section 6	Roll Section 8
1	383,318	0	0	2,568
2	6,294	0	0	123
3	0	1,471	799	0
4	19,739	105 +	1,498 = (60.7	8.078

Parcel Count as Indicated by Nassau County

The process of completing a Systematic Analysis of the parcels by Tax Class located within the taxing jurisdiction of Nassau County would start with a statistical analysis of the physical inventory on file with Nassau County's Department of Assessment (DOA). The data will be revised, when applicable, by requesting all property owners respond to data mailers. An integral part of this proposal is the field inspection of up to 2.5% of the population which is the subject of this analysis. Composition and mailing of "Data Mailers" are the responsibility of Nassau County. New photographs will replace incorrect or dated photographs when necessary. The end result will be an accurate and strong property inventory database.

Having completed inventory updating and verification, the next phase of the process is to review neighborhoods on a Tax Class basis, as currently delineated. This is critical in producing geographically specific market values. Due to the volume of data and complexity of the analysis "IBM SPSS Statistics" (originally, Statistical Package for the Social Sciences) is utilized. This statistical software package provides the necessary testing and graphing required to make sound decisions. Results of this analysis will be discussed with the County Assessor, displaying results of the analysis and recommended modifications.

Before testing the prior year Nassau County assessment roll for actual Level of Assessment (LOA), sales utilized must be time adjusted to the date of value. "IBM SPSS Statistics" again is the preferred statistical package to use, enabling the user to consider many variables projecting different solutions. Sales utilized for this analysis will be retrieved from the Nassau County Database, reviewed for reliability and analyzed as outlined in NYS ORPTS procedures.

The valuation process begins with stratifying properties by their delineated neighborhood and then by physical and economic characteristics. This is a crucial step in the valuation process in order to determine accurate market values. Once again, with the utilization of IBM SPSS Statistics, strata's will be tested with conclusions focused on uniformity and level of assessment. All results and conclusions will be discussed with the County Assessor to develop the best plan for implementation.

At the discretion of the County Assessor, manpower can be focused on property types that have historical inventory and valuation inconsistencies. This can be accomplished through the confines of the scope of work and fee structure.

In order to understand the full impact of the results as indicated by the systematic review, a tax impact study needs to be completed. The real estate market is influenced by many factors such as, geographical, social and political. These factors directly influence market values, therefore causing the real estate market to appreciate or depreciate at different rates in relatively small geographic areas such as Nassau County. Keeping in mind even if a community has been relatively stagnant over the past number of year since the County last updated assessments, the tax burden can change due to its relationship as part of the whole. This type of study provides insight the Assessor and other public officials will need for inform the public of the results of the project.

Once all testing and recommend adjustments are complete, the data will be transferred to the Department of Assessment in a suitable electronic format. Formatting of data will be determined by the Nassau County IT Department and our in-house Programmer/Database Administrator.

Our proposal assumes that Nassau County will file all required documents to the NYS Office of Real Property Tax Services (NYSORPTS) in a timely manner. "...the assessing unit must notify ORPTS of its intentions to conduct a non-reappraisal reassessment in writing (e-mail is sufficient) no later than 180 days prior to the applicable tentative rolr.<sup>2</sup>

As discussed in the document known as *An Owner's Manual for Maintaining Uniformity*, NYSORPTS would be involved in the entire process providing consulting services, advisory appraisals and monitoring / verification of the reassessment results.

The scope of services as detailed above are based on our interpretation of the specifications as indicated in the RFP published on May 18, 2015 by Nassau County Department of Assessment. Change to scope as outlined in this proposal may be modified though mutual agreement.

Ę

<sup>2</sup> NYS Office of Real Property Tex Services Website, Guidelines for Non-reappraisal Reassessments, March 2013, page 2

In order to complete a project of this size in the time permitted, assistance from the DOA is required. The list below indicates some of the items that are required:

- Appropriate Final Assessment Roll.
- Corresponding property Inventory.
- Street level images for each parcel.
- Tax maps for corresponding year.
- List of properties currently under transitional assessment.
- List of properties currently posted at less than 100% complete.
- List of all properties impacted by Super Storm Sandy
- Tax Rate matrix for all taxing authorities.
- List of any property splits/merges or S/B/L changes since prior tax roll.
- Sales database.

(

- Residential / Commercial model variables (matrix).
- Prior trend analysis since last completed reassessment.
- Residential / Commercial neighborhood delineation.
- Current orthoimagery and geographical information system (GIS) dataset as maintained by Nassau County's GIS Department.

# Services Provided in a Systematic Analysis on a Tax Class Basis

- Review residential and commercial neighborhood delineations through the use of SPSS and GIS.
- Stratify property for analysis.
- Develop time trending for all neighborhoods based on Re-sales Analysis, Value / Unit Analysis and a Sales Ratio Trend Analysis,
- Rolling Analysis based on sales price ratio and sale price.
- Upload County data in preparation for statistical testing into SPSS.
- Systematic Analysis of all parcels as previously discussed on a Tax Class Basis.

\* MICHAEL HABERMAN ASSOCIATES, INC.

16

- Sales ratio study determining level of assessment (LOA).
- Tax shift analysis.
- Apply trending factors on a per neighborhood basis.
- Test for acceptable limits (within Tax Class) for Coefficient of Dispersion (COD), Price-relative differential (PRD) on a neighborhood and countywide basis.
- Revaluation of specific strata's when required.
- All conclusions will be transfed to DOA in a predetermined file format.
- Submit to Nassau County DOA and ORPTS reassessment verification documentation.
- Participate in regular status meetings with representatives of NYSORPTS and the Nassau County DOA as required.
- The Company will assist the County with public informational meetings as needed.
- We intend to have an "open door policy" and will be accessible through designated telephone lines and/or e-mail.

In an effort to assist the reader of this proposal, specific detail has been provided for the six topics that were focused on in the RFP.

## Inventory Management Procedures:

(

The Assessment System is the foundation which makes up an ad valorem tax based program, with physical inventory being the cornerstone. This portion of an assessment system is the most important, requiring timely and accurate data to ensure sound accurate market values. Having intimate knowledge of the current computer management system the County has in place, we assume this topic addresses data verification and quality control of data, not computer management issues.

There are many ways to ensure accurate building data; the most elementary is to start with complete on-site inspections. This produces the most accurate property record but is very costly, time consuming and labor intensive. This can be completed through an annual re-assessment program as approved by ORPTS. Based on intimate knowledge of the County's inventory, it is apparent that the Inventory has been well maintained with a low percentage of erroneous data. Since the base inventory is fairly accurate, there are more cost effective methods of data verification which, over time, can be almost as effective.

- 1) Cyclical re-assessment, as approved by ORPTS, is very effective if completed in a systematic method. As outlined in ORPTS' documentation, "Aid for Cyclical Reassessment," this can be completed over a six year period with 17% of the population requiring data collection annually. Stratifying the assessment roll into logical groups such as tax class, property type, use, size, age and geographical location makes for an efficient method to complete the task.
- 2) Combining multiple methods may prove to be the most cost effective path to take in a municipality the size of Nassau County.
  - a. Building permits currently trigger the Department of Assessment to perform field inspections of properties. This is an effective method to capture renovation projects and new construction when managed correctly. The first step in the process requires good communications with the originating municipalities. Data must be retrieved in a timely manner and reviewed for its impact on market value. To be most effective, permits should be triaged based on degree of work and impact on value, triggering a site inspection based on percentage of change in market value.
  - b. Inter-departmental communication and sharing of data is critical in maintaining inventory. Departments that should participate in such a program would include Assessment Review Commission, County Attorney and the department that handles the Geographical Information System. These three departments sift through unknown amounts of property data without sharing; to do so would benefit the County.
  - c. The Assessment Department does not have the power to require physical property inspections, but once an Article 7 is filed by a petitioner, the County Attorney does under discovery. This can open the door to requesting site plans and performing onsite inspections.
  - d. Digital orthoimages can be an invaluable aid in discovering changes to property. This procedure can be automated with the use of Pictometry which permits users to measure structures from their desktops. Pictometry's multiple modules also permit users to verify sketches with 'Sketch Check,' scan for property changes via 'ChangeFindr' and perform computer-assisted analysis through the program.
  - e. The private sector is also a resource which should be tapped. Having regular meetings with local brokers can provide insight to many properties which otherwise may not be accessible.
  - f. County appraisal consultants should be required to submit all data they retrieve while completing an appraisal for the County. Any resource should be tapped to make the County as efficient as possible.

ţ

g. Utilization of GPS-equipped tablets or I-Pads will provide for a much higher level of accuracy and efficiency as they would enable an assessor to record and retain all site data, photos and sketches from the field.

### Plan of Action

Not being involved in the current day-to-day operations of the County makes it somewhat subjective as to how to truly help. What is definite is that it will take a seasoned team to correct and implement new and effective procedures to ensure an accurate base inventory. This will take a team made up of senior County Assessors and our in-house experts working toward the common goal of providing property owners a fair and equitable assessment roll. Until an audit is completed on current County procedures, an exact plan is difficult to map out. The above-mentioned programs are just some of the programs that can be implemented if required.

# Dynamic Inventory Issues Relating to the Effects of Super Storm Sandy

Inventory issues related to Super Storm Sandy are no different than properties damaged by any other form of destruction. Notification of loss is the property owner's responsibility and can only be addressed on a per-parcel basis. As with any project where large amounts of data is handled, it is imperative to control the data though a reliable database designed to provide operating parameters, limitations, charts and self-edit reports. As stated in the previous section, subsection "g", the use of a GPS enabled tablet or I-Pad loaded with such a database will enable the municipality to update and track changes.

When numerous properties in concentrated areas such as the south shore of Nassau County suffer from diminution in value, it is critical to perform a tax shift analysis. This analysis should focus on all taxing authorities and special districts that are impacted by the disaster. Modeling for this analysis should consider multiple scenarios through the use of SPSS in conjunction with ESRI's GIS program. This will provide answers for the County Controller, school districts and special districts that rely on the County assessment roll to levy taxes on.

### Plan of Action

Review current County procedures. Implement the use of tablets for data retrieval in the field. Complete tax shift analysis based on taxing authority boundaries.

# Review of Neighborhood/Submarket Parameters for Both Residential and Commercial Properties:

Neighborhood delineation is an intricate part of any valuation model. In order to produce accurate geographical and economic market segments, extensive statistical analysis, geographical analysis and a comprehensive review process from local real estate valuation experts is required. Any one component of the analysis is as important as the other two.

## Residential Neighborhood Delineation (Tax Class I)

This process should begin with reviewing physical parameters of each defined neighborhood, ensuring all external factors are accounted for. This process is most effectively accomplished through the use of a GIS program starting with the most general parameter such as town/city working down to the smallest factor such as a townhouse development. This process enables the analyst to identify submarkets within neighborhoods which may be influenced by market factors other than those that impact the larger whole. Once neighborhoods have been delineated on a physical basis, the economic influences must be analyzed in order to confirm that each neighborhood actually represents market conditions. Neighborhood boundaries may require fine tuning in order to produce desired results. Real estate valuation is not an exact science; sometimes value is influenced by factors that cannot be quantified. Therefore, the final step in the process is to have local real estate experts review the overall results of the neighborhood delineation.

# Commercial Neighborhood Delineation (Tax Classes II & IV)

Development of commercial neighborhoods is very similar to that of residential neighborhoods. The approach is the same as reviewing a residential neighborhood, looking at each influence factor from largest to smallest, like an inverted pyramid. Commercial neighborhoods are more economy sensitive in design and less restricted by natural boundaries. Developing commercial neighborhoods requires large amounts of property-specific (economic/financial) data such as leases and 1&E's. Delineating commercial neighborhoods based strictly on physical features may produce neighborhoods that do not represent the true homogenous characteristics that should be the focus for delineating neighborhoods.

### Plan of Action

Review residential and commercial neighborhood delineation as indicated above and test for reasonableness.

### Review and Screening of Sales Data Employed in Residential Valuation Modeling (Tax Class I):

To produce accurate estimates of market value for residential property, the sales population must be comprised of arm's length transactions, relative to the valuation date and representative of the population being valued. Of the three factors, determination of arm's length sales requires the most due diligence and legwork. It is assumed all sales will be retrieved through the County Clerk's Offices in a digital format. The first level of filtering is based on sale date, grantor / grantee relations and properties that transferred for zero consideration. This can be accomplished programmatically with limited human intervention. Further, computer-assisted filtering can be accomplished through the use of statistical analysis on a per neighborhood basis to identify outliers using statistically determined parameters. As previously stated, all analyses must be based on delineated neighborhoods. This ensures taking into account social / economic factors that may exist throughout the County. Further verification is required to produce a sales population representative of the market / neighborhood. This step is the most labor intensive, requiring a real estate market-savvy team to research the remaining sales to determine validity. This research includes, but is not limited to reviewing deeds, Multiple Listing postings and communicating with principals of specific transactions. Though time consuming, these procedures produce reliable sales populations, providing a solid basis for residential property valuation.

#### Plan of Action

(

Review County procedures recommending changes where indicated.

# Review and Updating of Economic and Market Data Utilized in Commercial Valuation Modeling (Tax Classes II & IV):

As with any other form of modeling, the more data utilized to compile a model, the better a model can predict market values. Since most of the variables that make up commercial models are economic in nature, the support needed to develop them is proprietary in nature. Therefore retrieval of reliable data can be difficult at best and requires many resources to tap into. The County already has numerous resources at their disposal which are utilized to develop models such as the ASIE annual survey, data submitted to ARC and data submitted to the County Attorney's Office. Additional resources could include private appraisal companies, commercial real estate offices and third-party subscription services. To review and update commercial data, the information should be stratified by property use within each of the commercial neighborhoods. This method will enable review of each property type for a neighborhood and at the same time identify areas where data has to be refined or increased. This way attention can be focused on neighborhoods where data is weak and not wasted on areas where good and sufficient amounts of data exist.

### Plan of Action

Review County data and analyze current methods utilized to retrieve data.

# Evaluation of the Market Value Output from the Respective Modeling Systems

## Residential Model Calibration (Tax Class I)

Once all the data is gathered, verified and analyzed on a per neighborhood basis, models can be developed and tested. There are multiple methods to certify models. The most common method utilizes properties that have recently sold, utilizing the sale price as a benchmark for testing the model's ability to predict market value. This is the preferred calibration method for residential property and mainly utilized by NYSORPTS to analyze the level of assessment for a municipality.

# Commercial Model Calibration (Tax Classes II & IV)

When valuing commercial property in Nassau County, consideration must be given to the method accepted in the Courts for certiorari proceedings. For income producing property, the Courts require the income approach to value. Therefore, testing a model against the sale price of recently sold commercial property may or may not indicate a sustainable assessment in the eyes of the Court. The most effective method is to develop a benchmark property for each use and neighborhood utilizing the income approach to value. Running the model against the hypothetical property tests for market predictability within an acceptable margin of error for each property type.

#### Plan of Action

To follow the above outline methods, testing the County market value output for accuracy and reasonableness with the aid of "IBM SPSS Statistics".

# a. Staffing: Blos of firm principals as well as staff expected to be assigned to this project.

Answer: The Company's two principals are Michael Haberman and Ronald Haberman. The Project Manager is Thomas Donato. Their biographies follow. The resumes of all staff expected to be assigned to this project can be found in the Addendum of this proposal.

Michael Haberman, SRPA, ASA, CSA-G is the President of Michael Haberman Associates, Inc. and has been actively engaged in the appraising, analysis and management of real estate since 1966. He is a graduate of Long Island University, School of Business Administration, C. W. Post Campus with a Bachelor of Science degree in Accounting. He is certified in New York State as a General Real Estate

### MICHAEL HABERMAN ASSOCIATES, INC.

22

Appraiser, holds a NYS Certified General & Residential Instructor's license and is a NYS Licensed Real Estate Broker.

Michael Haberman's real estate related appraising and consulting experience is primarily in New York State. Various property types appraised include single and multi-family dwellings, shopping centers, office complexes, fast food and full service restaurants, gasoline stations, industrial facilities, R & D parks, country clubs, golf courses, beach clubs, hospitals, nursing homes, congregate care facilities, day care centers, theatres, schools, residential subdivisions, racetracks, railroad, utility and water company properties for example.

Michael Haberman is an expert in the field of Condemnation and Tax Certiorari, which he has been actively engaged in since 1967. His experience includes being Special Consultant to the Nassau County Department of Assessment regarding Small Claims proceedings where his firm has evaluated and/or appraised over 150,000 properties for purposes of negotiation and/or litigation, and Consultant to the Office of the Nassau County Attorney – Tax Certiorari and Condemnation Divisions. He has managed phases of the reassessments of various villages in Nassau County. Additionally, he is Special Consultant to the Town of Babylon Department of Assessment. His experience also includes acting as Review Appraiser for the Nassau County Attorney's Office and Special Consultant to the City of Long Beach.

Michael Haberman has lectured at the Nassau Academy of Law and the New York State Bar Association of Real Property Tax Assessment. He has been a faculty member at the Fordham University School of Law, Continuing Legal Education Department and an instructor for the Columbia Society of Real Estate Appraisers at Hofstra University.

Michael is qualified as an expert witness and has appeared and testified in the Supreme Courts of Manhattan, Brooklyn, Queens, Bronx, Nassau, Suffolk and Westchester Counties and both the New York State Court of Claims and U.S Federal Court.

Michael Haberman is a member of the Appraisal Institute, Long Island Chapter, holding the SRPA (Senior Real Property Appraiser) designation. He is a member of the American Society of Appraisers holding the ASA designation, and a member of the Columbia Society of Real Estate Appraisers holding the CSA-G designation.

Ronald Haberman, MAI, CSA-G, is the Vice-President of Michael Haberman Associates, Inc. and has been actively engaged in the appraising and analysis of real estate since 1981. He is a graduate of Long Island University, School of Business Administration, C.W. Post Campus, with a Bachelor of Science degree in Accounting. He also attended Yeshiva University and Long Island University for graduate work in Education and Mathematics. Ronald is certified in New York State as a General Real Estate Appraiser and holds a NYS Certified General & Residential Instructor's license.

Ronald Haberman's real estate related appraising and consulting experience is primarily in New York State with concentrations within the Long Island and New York Metropolitan region. Various property types appraised include single and multi-family dwellings, shopping centers, office complexes, automobile dealerships, fast food and full service restaurants, gasoline stations, industrial facilities, R & D parks, schools, country clubs and large vacant parcels including residential subdivisions for example.

MICHAEL HABERMAN ASSOCIATES, INC.

i

Ronald Haberman is an expert in the field of Condemnation and Tax Certiorari, which he has been actively engaged in for more than 35 years. Clients include municipalities and government agencies; prestigious real estate attorneys; major corporations; property owners, developers and managers. His past experience includes the development of office management, flow control and operating systems utilized for the analysis and/or appraisal of over 160,000 residential properties as part of the work performed for the Nassau County Department of Assessment and Town of Babylon, along with numerous villages in Nassau County regarding Small Claims proceedings. He has managed phases of the reassessments of various villages in Nassau County. He has appraised complex industrial, commercial and residential properties across the region for condemnation, estates and trusts, asset management, open space and matrimonial purposes and is experienced in cash flow analysis. His expertise includes the valuation of wetlands, development rights and conservation easements.

Ronald Haberman is also President of The Home Appraisal Company, Inc., a full service residential appraisal company that he founded over 23 years ago. Having both private, municipal and attorney clients, this company produces FNMA and Appraisal Institute form appraisal reports. Ronald interfaces with clients and acts as a review appraiser when required. He is past President of the New York Condemnation Conference, an association of New York real estate experts including appraisers, attorneys and engineers. He has been an instructor for the Columbia Society of Real Estate Appraisers at Hofstra University.

Ronald is qualified as an expert witness and has appeared and testified in the Supreme Courts of Brooklyn, Queens, Nassau and Suffolk Counties; the New York State Court of Claims, United States Bankruptcy Court (Eastern District of New York) and United States District Court (Eastern District of New York). He has appeared at Small Claim Assessment Review (SCAR) hearings representing the Company, Nassau County and the Town of Babylon and has trained Company representatives prior to their appearances.

(

ĺ

Ronald Haberman is a member of the Appraisal Institute holding the MAI designation, is a past Vice-President of the Long Island Chapter and currently sits on the Board of Directors. He has been Chairman of the General Seminar committee for five years being responsible for providing quality educational seminars on real estate valuation related topics. Ronald is also a member of the Columbia Society of Real Estate Appraisers holding the CSA-G designation.

Thomas Donato, IAO, CSA-G is a chief appraiser with Michael Haberman Associates, Inc. and has been actively engaged in the appraisal of real estate since 1997. Thomas is certified in New York State as a General Real Estate Appraiser and is a NYS licensed Real Estate Salesperson. Mr. Donato currently holds the position as appointed Assessor for the villages of Lake Success, Great Neck, Amityville, Lindenhurst and formerly the Village of East Rockaway. He also holds a NYS Certified General and Residential Instructor's license.

Mr. Donato's real estate related appraising experience is primarily in New York State with concentrations within the Long Island and New York Metropolitan region. Various property types appraised include single and multi-family dwellings, shopping centers,

office complexes, fast food and full service restaurants, gasoline stations, industrial facilities, R & D parks, country clubs, oil storage facilities, marinas, schools and residential subdivisions as examples. His past association with major oil companies gives him a thorough understanding of the unique factors that affect the value of retail gasoline outlets.

Mr. Donato has been involved in the appraising of real property for Tax Certiorari since coming to work with the company. His experience includes appearances in Small Claim Assessment Review hearings representing Nassau County. During the reassessment project of Nassau County, Mr. Donato served as the Commercial Supervisor for Michael Haberman Associates, Inc. overseeing a large staff of commercial appraisers in the dayto-day operations of the project. Mr. Donato is currently project manager for the revaluation of the Village of Great Neck. Recently Mr. Donato has completed revaluation projects for the villages of Russell Gardens, Lake Success, Sea Cliff, Mineola, Farmingdale and Westbury. Mr. Donato is also responsible for in house implementation of ACI software and digital photography utilized by the company, training and support on all computer and digital media for in house staff and fee appraisers. Additional areas of specialized study include numerous computer courses such as Geographical Information Systems (ESRI), RPSV-4, Regression Analysis (SPSS) and Argus.

Mr. Donato is a member of the Columbia Society of Real Estate Appraisers and holds CSA-G designation. He is currently on the Board of Governors for the Society and chair's the Technology Committee. In addition to his active participation in CSA, he holds the IAO designation with the New York State Assessors' Association and associate memberships in the Appraisal Institute. Mr. Donato is an active member of the International Association of Assessing Officers (IAAO) and currently on track to receive the Certified Assessment Evaluator (CAE) designation. For the past two years Thomas has served on the Equalization Subcommittee for RPTAC (Real Property Tax Administration Committee), representing local municipalities throughout the downstate area. Recently Mr. Donato was appointed to the Assessment Committee for the NCVOA (Nassau County Village Officials Association) in response to issues directly impacting Nassau County villages.

b. Detail prior experience in the area of mass assessment modeling.

Answer: As previously discussed, during the 2003 Nassau County revaluation project the company provided valuation expertise to the Cole Layer Trumble firm. Where it was responsible for revaluating 80,000 residential properties and half of all commercial properties. Duties specifically completed by the company included neighborhood delineation, commercial modeling, compile commercial database, review commercial values and complete field reviews of parcels when required. The Company provided Cole Layer Trumble with similar assistance during the 2004 and 2005 assessment roll updates.

The Company has recently completed revaluations for the Villages of Westbury, Farmingdale, Mineola, Sea Cliff, Lake Success, Russell Gardens, Great Neck, Williston Park and Great Neck Estates. The Great Neck Estates revaluation was our most recent project, successfully completed on schedule, providing the Village with an equitable and defendable assessment roll for the 2013/14 tax year. All of these projects began with the utilization of Nassau County assessment inventory refined on building permits and time.

ĺ

Since the initial 2003 Nassau County Revaluation project the Company has been working with the Nassau County Assessment roll and inventory along with the Nassau County GIS data. This provided the company with intimate knowledge of County data that few companies have.

The Company provides Annual Updates "Non-reappraisal Reassessments / Systematic Analysis" and support for the above mentioned municipalities including Small Claims Assessment Review proceedings on an ongoing basis. We provide the best possible assemblage of experienced real estate professionals for this project. Nassau County currently has nine municipalities that function under Article 19, "Homestead Tax Option", which by law are required to file Adjusted Base Proportions calculations on an annual basis. Michael Haberman Associates Inc. is the only company which has calculated and submitted to ORPTS these detailed calculations for each of the municipalities. This experience provides the Company a clear understanding of a multi-class assessment system similar to that which the County functions under.

c. Detail prior experience with public sector clients (similar size and scope).

Answer: The Company has been providing appraisal, assessment and consulting services to public sector clients for many years. The following are some examples of this experience.

The Company has a vast body of experience and expertise covering over 37 years in providing appraisal services in connection with the defense of Tax Certiorari and Condemnation proceedings for municipalities on local governments on Long Island, in New York. In addition to appraisal and consulting services, the Company has been providing litigation support and expert testimony in defense of its value estimates over the same period. As previously mentioned, the Company has acted as consultants to the Nassau County Attorney's Office over this same period.

As previously mentioned within the Cover Letter, the Company has continually completed revaluations since the Nassau County reassessment completed in 2003 where it provided valuation expertise to the Cole Layer Trumble firm. The Company has recently completed revaluations for the Villages of Westbury, Farmingdale, Mineola, Sea Cliff, Lake Success, Russell Gardens, Great Neck, Williston Park and Great Neck Estates. The Great Neck Estates revaluation was our most recent project, successfully completed on schedule, providing the Village with an equitable and defendable assessment roll for the 2013/14 tax year. The Company provides Non-reappraisal Reassessments and support for the above mentioned municipalities including Small Claims Assessment Review proceedings on an ongoing basis. We provide the best possible assemblage of experienced real estate professionals for this project.

The Company has acted as consultant to the City of Long Beach, numerous villages throughout the Counties of Nassau and Suffolk, various Townships in Suffolk County, the Corporation Counsel of the City of New York and the Metropolitan Transportation Authority in the defense of Tax Certiorari and Condemnation claims and for other functions over the past 33 years where applicable.

The Company has acled as consultants to the Town of Babylon's Department of Assessment in the defense of their Class 1 Assessment Roll over the past 15 years requiring the preparation of between 2,000 and 5,500 valuations each year. The Company has attended SCAR hearings in front of judicial hearing officers and submitted all necessary support and reporting requirement documents to the Department of Assessment. The Company has also acted as consultants to the Town in the defense of Tax Certiorari claims.

The Town of Huntington retained Michael Haberman Associates in 2013 to facilitate disposition of approximately 5,000 small claims filings on an annual basis. The Company has participated in thousands of SCAR proceedings in front of judicial hearing officers, submitting necessary documentation to the Town

The Company has acted as consultant to the New York State Department of Transportation in defense of Condemnation claims within Nassau and Suffolk Counties and various NYC boroughs performing trial form valuations over the past nine years.

The Company has acted as consultant to the County of Suffolk's Department of Public Works in defense of Condemnation claims within the County performing both project and trial form valuations over the past seven years.

The Company has acted as consultant to the Nassau County Attorney's Office in the defense of the Department of Assessment's Class 1 Assessment Roll over an 11-year period preparing between 10,000 and 20,000 property valuations each year to indicate market value showing indicated and actual assessments and over-assessment amounts, if any. Additionally, the Company has negotiated each case with petitioner's representatives and prepared consent forms for those cases which were settled. For those cases not settled, summary appraisal reports have been prepared. Finally, the Company has attended SCAR hearings in front of hearing officers and submitted all necessary support and reporting requirement documents to the Department of Assessment and Assessment Review Commission.

d. Detailed cover letter on the firm's letterhead indicating EIN number and the name of the parties authorized to discuss and/or enter into negotiations with Nassau County with respect this proposal.

Answer: Please see the Proposer's Cover Letter at the beginning of this proposal.

1

- 15) In the past (5) years, has this business or any of its owners or officers, or any other affiliated business had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held? No X Yes \_\_\_\_; If Yes, provide details for each such instance. N/A
- 16) For the past (5) tax years, has this business failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges? No X Yes \_\_\_\_ If Yes, provide details for each such year. Provide a detailed response to all questions checked 'YES'. If you need more space, photocopy the appropriate page and attach it to the questionnaire. N/A

Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

- 17) Conflict of Interest:
  - a) Please disclose:

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting as collection agent on behalf of Nassau County. Answer: None

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting as collection agent on behalf of Nassau County. Answer: None

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting as a collection agent on behalf of Nassau County. Answer: As discussed previously within this proposal, Section H, Page 7 Paragraph 12 of the RFP entitled Proposer Conflict states "The Proposer shall not have provided appraisal, consulting or other real estate expert services in any capacity against the County in real property assessment or tax certiorari proceedings with a three (3) year period prior to submission of its proposal." As also seen previously in this proposal, the Company requests a waiver of this section of the RFP.

Since the Company was precluded from working for the Nassau County Attorney's office in 2009, within its normal course of business as tax assessment review experts, it has provided limited appraisal and consulting services in capacities against the County within the three year period prior to the submission of this proposal.

In May 2013, the Company received a one year contract (1/1/13 - 12/31/13) from the Nassau County Attorney's office. During December of that year, it appraised three properties including RXR Plaza in Uniondale (over a million square foot trophy office building) and the Tree Line Franklin Avenue Plaza Office Complex in Garden City, another significant property for the County. For the remainder of 2013, the Company did not engage new petitioner assignments after the County contract was signed. The Company also received a two year contact (6/17/14 - 6/16/16) from the Nassau County Department of Public Works Division of Real Estate

ĺ

Services. As of this date, it has appraised five properties including the Silverpoint/Sun and Surf Beach Club in Atlantic Beach and a five acre site at the S/W/C portion of the Nassau Coliseum property in Uniondale.

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future. Answer: The Company has always maintained and will continue to maintain a strict policy regarding potential conflicts of interest or an appearance of a conflict of interest. In addition and in accordance with Section H, Page 7 Paragraph 12 of the RFP, the Company agrees that it will not perform such services during the term of its contract with the County.

Attachments to Business History Form

Please provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

A. Include a resume or detailed description of the Proposer's professional qualifications, demonstrating extensive experience in your profession. Any prior similar experiences, and the results of these experiences, must be identified.

Should the proposer be other than an individual, the Proposal should include:

- i) Date of formation: Answer: 1968
- ii) Name, addresses, and position of all persons having a financial interest in the company, including shareholders, members, general or limited partner:

Name	Address	Position
Michael Haberman	1070 Links Road Woodmere, New York	President
Ronald Haberman	4 Manchester Lane Stony Brook, New York	Vice-President

iii) Name, address and position of all officers and directors of the Company:

Name	Address	Position
Michael Haberman	1070 Links Road Woodmere, New York	President
Ronald Haberman	4 Manchester Lane Stony Brook, New York	Vice-President

iv) State of incorporation (if applicable):

Answer: New York State

v) The number of employees in the firm:

Answer: 14

ł

vi) Annual revenue of firm:

Answer: \$1,810,596 (y/e 2/28/15)

vii) Summary of relevant accomplishments:

Answer: Throughout the proposal we have mentioned many accomplishments deemed relevant and substantial in nature to the assessment field. Below are three additional examples of some specific accomplishments we have enjoyed in the past couple of years.

- Working closely with Senator Martins, the Senator was able to facilitate a change to New York State law providing "Advisory Appraisals" to villages during annual reassessments. Prior to the change only counties and town were eligible for these reports, requiring villages to retrieve dated data from towns and counties or maintain static values. Therefor preventing a village from having a fair and equitable assessment roll.
- The Company's project manager has been a member of the Real Property Tax Administration Committee (RPTC), equalization subcommittee for the past four years. He has been instrumental in writing procedures pertaining to Equalization Rates and Residential Assessment Ratios. This board's position provides the Company with insight to New York State goals and procedures long before the general assessment community is aware of them.

 Over the past four years the Company has developed and refined a proprietary computer program enabling the systematic valuation of residential properties for small claims proceedings. The program provides consistent market based valuations in a court ready format. Providing our clients with affordable and reliable defense against frivolous claims.

viii) Copies of all state and local licenses and permits.

Answer: Please see the Addendum of this proposal for copies of the licenses of those appraisers that would be available for this project.

B. Indicate number of years in business:

Answer: 47 years.

ĺ

ł

C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services:

Answer: We believe that our history of providing reassessments, annual Non-reappraisal Reassessments, assessment administrating and consulting and Small Claims Assessment Review services to numerous Nassau County villages over the past 12 years, and condemnation and tax assessment valuations and support to Nassau County and other municipalities for over 37 years makes us uniquely qualified to perform the RFP's stated program. We hope that with the information found within this proposal, you will look favorably on this submission.

As seen in other sections of this proposal, the personnel assigned to the project will be certified or licensed real estate appraisers with at least 19 years' experience appraising property in Nassau County. Most of the personnel have been active appraisers for many years. The Company's president and vice-president have over 47 and 37 years and its project manager over 19 years of valuation/consulting experience respectively. A list of the personnel available for this project, their resumes and licenses can be seen within this proposal's Addendum.

As touched on within our cover letter, the Company is a full service Real Estate Consulting & Valuation firm providing professional appraisal and consulting services to government/public agencies, municipalities, corporations and businesses of all sizes, the legal and professional community and private persons. The Company was established in 1968 and over the years has performed appraisals and related valuation services covering a wide range of property types and intended uses. Its specialties include providing appraisal valuation & review, consulting, appraisal and litigation services in defense of both Tax Certiorari and Condemnation proceedings for local governments including Nassau County.

The entire staff can be committed to the RFP's stated project and would be assigned based on their level of experience and expertise most closely matched to the scope and complexity of the work being performed.

The Company maintains various systems for research purposes as aids in the valuation and consulting services it provides. These include a hard copy/digital/micro-film library, contracted services such as Real Quest, Comps Inc., Costar, Loop Net and the Multiple Listing Service of Long Island, and an in-house proprietary database including thousands of sale and lease abstracts. A high speed internet connection is in place and operational and the entire office staff has complete access to it. All these resources will be available for the project.

ĺ

The company's work flow is managed in a structured manor. The Company's implementation schedule follows its management approach starting with bi-weekly staff meetings where goals, deadlines, tracking and new projects are discussed. During the ensuing week, the principals constantly manage on-going projects. Upon completion, the project work products go through a stepped review process. The key to the management approach is the constant communication through the office, identification of critical issues as they arise, a consistent and thorough review process and, as a result, the preparation of meaningful, accurate and defensible results.

The company is located in an owner occupied two story office building in the heart of Mineola, three blocks from the Supreme Court building and a short drive to the County Attorney's and Assessment Review Commission's offices. The firm has remained in business since 1968 because of the quality of its work and its ongoing commitment to be as responsive as possible to the needs of its clients.

- D. Provide names and addresses for no fewer than three references for whom the Proposer has provided similar services or who are qualified to evaluate the Proposer's capability to perform this work:
  - Chief Deputy County Attorney Lisa LoCurto, County of Nassau, 1 West Street, Mineola, NY 11501. Phone (516) 571-3056
  - Deputy County Assessor Steve Corte, County of Nassau, 240 Old Country Road, Mineola, NY 11501. Phone (516) 571-3587
  - North Regional Manager at Tyler Technologies, Melissa Baer, 200 White Plains Road, Tarrytown, NY 10591 (914) 631-5000
  - Sole Town Assessor Edge McCarthy, Town of Greenburgh, 177 Hillside Avenue, Greenburgh, NY 10607. Phone (914) 989-1520
  - Sole Town Assessor Fernando Gonzalez, Town of Ossining, 16 Croton Avenue, 3<sup>rd</sup> Floor, Ossining, NY 10562. Phone (914) 762-8274
  - Sole Town Assessor Roger Ramme, Town of Huntington, 100 Main Street, Huntington, NY 11743. Phone (631) 351-3226

## Contract Appendix L Certificate of Compliance

l

(

In compliance with Local Law 1-2006, as amended, the Proposer/Bidder hereby certifies the following:

1. The chief executive officer of the Proposer/Bidder is:

Michael Haberman 125 Front Street, Mineola, New York 11501 (516) 739 – 8080

2. The Proposer/Bidder agrees to comply with the requirements of the Nassau County Living Wage Law, and with all applicable federal, state and local laws.

3. In the past five years, Proposer/Bidder \_\_\_\_\_ has X has not been found by a court or a government agency to have violated federal, state or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed by the Proposer/Bidder, describe below: N/A

4. In the past five years, an administrative proceeding, investigation, or government body-initiated judicial action \_\_\_\_\_ has X has not been commenced against or relating to the Proposer/Bidder in connection with federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If such a proceeding, action, or investigation has been commenced, describe below: N/A

5. Proposer/Bidder agrees to permit access to work sites and relevant payroll records by authorized County representatives for the purpose of monitoring compliance with the Living Wage Law and investigating employee complaints of noncompliance.

I hereby certify that I have read the foregoing statement and, to the best of my knowledge and belief, it is true, correct and complete. Any statements or representation made herein shall be accurate and true as of the date stated below.

# AMENDMENT TO: RFP #: AS0518-1509

TITLE: Systematic Review and Analysis of Assessments

AMENDMENT: #1

(

(

PURPOSE: The purpose of this amendment is to add *Executive Order #1-2015*, enacted on May 19, 2015.

All other terms and conditions remain unchanged.

#### EXECUTIVE ORDER NO. 1 - 2016

#### EXECUTIVE ORDER FURSUANT TO SECTION 203 OF THE COUNTY GOVERNMENT LAW OF NASSAU COUNTY TO FURTHER DISCLOSURE BY THOSE DOING BUSINESS WITH NASSAU COUNTY

WHEREAS, pursuant to subdivision 1 of section 203 of the Nassau County Charter, the County Executive is responsible for the administration of all departments, offices and functions of the county government; and

WHEREAS, the County Executive, in furtherance of his duties pursuant to subdivision 1 of section 203, is committed to ensuring transparency and openness with respect to the administration of governmental functions; NOW, THEREFORE BE IT

ORDERED, that the Office of the Nassau County Attorney shall ensure that every Request for Proposals, Request for Qualifications, Request for Expressions of Interest and every request for bid shall include therein the <u>County of Nassau Consultant's, Contractor's and Vendor's Disclosure Form</u> (hereinafter "Disclosure Form") attached hereto and made a part hereof, and it is further

ORDERED, that the Department of Furchasing/Shared Services ensure every bid document published on the Massau County Purchasing website, including but not limited to Requests for Proposals, include the Disclosure Form; and it is further

ORDERED, that each department operating under the Office of the County Executive shall be responsible for obtaining a completed copy of the Disclosure Form from all vendors and prospective vendors and all other contractors and prospective contractors or other parties wishing to do business with the County, and attaching a copy of said form to the bid, offer, proposal or proposed contract involved; and it is further

ORDERED, the Office of the Nassau County Attorney shall ensure that every proposed contract includes the Disclosure Form completed by the consultant, contractor or vendor to whom the contract was awarded prior to such contract being routed to the various agencies, including – but not limited to - the Nassau County Office of Management and Budget, the Comptroller's Office and the Office of the County Executive; and it is further

ORDERED, that this Executive Order shall take effect immediately.

New York State Condemnation Conference - President, 1997/98.

#### EXPERIENCE:

í

Actively engaged in the appraisal of real estate during 1975 - 1976 and 1981 to present.

Appeared and testified in the Supreme Courts of Nassau, Suffolk, Brooklyn and Queens County, New York State Court of Claims and Federal Bankruptcy Court with regard to real estate valuation. Appeared and spoke at zoning board hearings in Nassau County with regard to variance applications. Specialties include the preparation of project and trial/claim condemnation and tax certiorari appraisals along with expert trial testimony and litigation support. Other specialties include the analysis and valuation of fractional property interests including specialized lease interests such as leased fee or leasehold; conservation and other types of easements, development rights and right of ways; the appraisal of utility and water company property, along with an expertise in the valuation of wetlands.

Prepared appraisal reports for the Corporation Counsel of the City of New York; Housing and Urban Development Corporation; Metropolitan Transportation Authority; Housing and Development Administration; Tax Division of the City of New York; Office of the Nassau County Attorney - Tax Review and Condemnation Divisions; Nassau County Department of Assessment; Suffolk County Department of Real Estate; Suffolk County Department of Public Works; Town of Babylon, Town of Brookhaven; Town of Huntington; New York State Office of Mental Health; Facilities Development Corporation/Office of Mental Retardation and Developmental Disabilities; City of Long Beach; City of Glen Cove; Villages of Freeport, Valley Stream, Hempstead, Cedarhurst, Russell Gardens, Great Neck Plaza, Great Neck, Floral Park and Rockville Centre; Attomeys, Corporations and Private Clients; lending institutions including Dime Savings Bank, Beacon Federal Savings Bank, Bank of New York, New York Bank for Savings, Fidelity New York, Marine Midland Bank, Chase, Suburbia Savings and Loan, Long Island Savings Bank, Greater New York Savings Bank, Independence Savings Bank, Hamilton Savings Bank, Jamaica Savings Bank, Astoria Federal Savings; and clients for purposes of tax review, condemnation, feasibility studies, trusts & estates, sales, purchases, matrimonials, open space and conservation easements for example.

Have appraised over 20,000 individual properties including private dwellings, shopping centers, taxpayers, office buildings, apartments, condominiums/cooperatives, fast food restaurants, gas/service stations, industrial facilities, country clubs, beach clubs, hospitals, nursing homes, theaters, schools and land of all types. Experience includes the development of office management, flow control and operating systems utilized for the analysis and/or appraisal of over 150,000 properties as part of the work performed for the Nassau County Department of Assessment regarding Small Claims proceedings commencing 1993/94. Have acted as review appraiser on approximately 5,000 URAR, Small Residential Income Appraisals and condominium and co-operative reports for purposes of tax review, estates, matrimonial and lending. Completed working on Nassau County's reassessment program as a prime sub-contractor to the Cole Layer Trumble Company and on two years of updates. Completed reassessment programs for the Villages of Farmingdale, Great Neck, Great Neck Estates, Lake Success, Mineola, Russell Gardens, Sea Cliff, Westbury and Williston Park and subsequent yearly updates. Currently acting as monitor of the revaluation project being performed by Tyler Technologies in Westchester Country in the Townships of Greenburgh and Ossining, and the City of Yonkers 2014 - 2016.

Have acted as consultant various times for 3rd party requests from attorneys and government agencies.

Michael Haberman Associates, Inc. 125 Front Street Mineola, New York 11501

516-739-8080

CONSULTANT, Real Property Valuation and Assessment Administration	(1980 through current)
STATE OF NEW YORK Office of Real Property Services (formerly the Division of Equ Chief Information Officer and Chief Valuation Strategist Core Process Manager, Valuation Asst. Program Manager, State Assessment Services Director, External Services Director, Bureau of Local Assessment Services Director, Bureau of Valuation Services Director, Valuation Research and Development and a series of 6 progressively responsible positions since	(1072 _ 200r)
Department of Correctional Services Bureau of Research and Statistics, Crime Statistics Unit	August 1972

### Significant Accomplishments:

Without increasing personnel or funding, successfully led and implemented an innovative solution to meet customer requirements with a first of its kind public-private partnership involving the cooperation of State, county, and local governments with IBM. This mutually beneficial relationship; allowed local governments to manage their own assessment administration needs locally and save them hundreds of thousands of dollars annually; allowed IBM to meet their customer needs and significantly expand IBM system sales and use in the governmental sector; and allowed the State to expanded the use of the standardized Real Property Assessment System (RPS) to over 94 percent of the municipalities facilitating assessment roll classification and equalization rate survey selections, assessor training programs, and tax policy studies.

Developed the textbook outline and was a global editor for the International Association of Assessing Officers' textbook <u>Property Appraisal and Assessment Administration</u> used to support the professional education program of the IAAO worldwide and adopted as a text for college accreditation through the University of British Columbia, New York University (Masters Program in Real Estate), and the Empire State College among others.

Received the <u>1994 New York State Association of County Directors of Real Property Tax plaque</u> for recognition and appreciation of support and assistance given in dealing with the complex issues of real property tax administration in NYS

A New York State Management/Leadership initiative developed an employee-management consensus that balanced agency goals leading to improvements in productivity and fiscal savings with employee needs and desired working conditions. This initiative was recognized as a significant achievement with wire services, newspaper and television coverage from coast to coast.

Analyzed tax policy issues analyzing the ramifications of shifting the fiscal infrastructure base from the Real Property Tax to a payment in fleu of taxes (PILOT) lauded by many local government officials and legislators with vested interests.

Champion for technology advancements by developing the first videodisc on real property (NYU and MIT), Integrating Geographic Information Systems (GIS) technology in real property tax administration, and Internet based network opportunities.

Successfully influenced and negotiated policy changes with the New York State Appraiser Licensing Board to sanction mass appraisal experience criteria for Appraiser Licensing in New York State. Appointed to The Appraisal Foundation's (ASB) task team to rewrite Standard 6 (Mass Appraisal).

Active member of the International Association of Assessing Officers (1984-2010); Executive Board (1996-98); IAAO Presidential Citation (1991,1992, 1998, 1999, 2000, 2001, 2004); IAAO Representative to the Association of Appraisal Regulatory Organizations (AARO) and The Appraisal Foundation (TAF) (1996-2004); Chairperson of the Planning and Operations Committee (1998-99); Chairperson of the Planning and Chairperson of the Computer-Assisted Appraisal Section (1990-92); Chairperson of the Scholarship Committee (2005-07); Budget Subcommittee (1997-98), Infrastructure Review Committee (1996-97); Rules and By-Laws Subcommittee (1992-94); Nominating Committee (1995); USPAP and Appraisal Regulatory Advisory Committee (1999-2004), Computer-Assisted Appraisal Section (1990-97); State Representative for the IAAO (1986-91).

Additional professional memberships include: New York State Assessors' Association (1981-2008), New York State Institute of Assessing Officers - IAO designation (1985-2008) and the Western New York Chapter of the IAAO (1992-2008). Formerly a member of the Northeast Regional Association of Assessing Officers, Albany/Schenectady County Assessors' Association, IAAO Mapping Section, and Urban and Regional Information Systems Association (URISA).

Other memberships include: NYS E-Government Guidance Team; NYS Real Property Tax Advisory Committee; NYS CIO Council (and CIO Council Leadership, Intergovernmental Communications, Security, and Strategic Planning Committees).

## **PROFESSIONAL MEMBERSHIPS AND LICENSES:**

Columbia Society of Real Estate Appraisers, CSA-G NYS Certified R.E. General Appraiser - Cert. # 46-41806

#### EXPERIENCE:

ĺ

Currently working for Michael Haberman Associates, Inc. Real Estate Appraisers and Consultants, as a full time commercial appraiser. Properties appraised include condemnation projects for Suffolk County, various towns and villages throughout Nassau and Suffolk Counties, the Metropolitan Transit Authority, New York State Department of Transportation, and the City of New York. Types of properties appraised include shopping centers, retail strip centers, supermarkets, large and big box retail, office buildings and complexes, industrial properties, mixed-use properties, restaurants, catering facilities, and special use properties such as oil terminals. Represented the Town of Babylon Assessment Department at hearings for Small Claims Assessment Review Proceedings. Participated in the review of commercial property values for Nassau County's reassessment program. Prior experience includes appraising singlefamily residences, 1-4 family small income properties, co-operatives, and condominiums throughout Suffolk, Nassau, Queens and Kings Counties. Extensive experience as an administrator for the Long Island franchises of an international real estate company. Experience also encompasses the marketing and operations of limited partnerships for residential income producing properties in the Sunbelt Region of the United States.

Рте-1985	Public and private accounting industries, including position as controller.

### **PROGRAMMING AND COMPUTER SKILLS:**

Expert experience in SQL programming language Over twenty five years experience developing database applications to customer specifications.

Aspects of application development including:

Client consultation, application design, program development, testing, installation, training and support

Utilizing an object-oriented SQL compliant database programming environment, I have expert experience in SQL including;

Database design – creating schema for applications including permanent and temporary tables and views, creating Primary and Foreign Keys, evaluating indexes, data flow models, triggers and stored procedures, forms creation, reports creation, label creation, variable forms creation, external forms, creating and managing ODBC connections, importing many different types of external data, exporting data to different file types, evaluating different data objects for inclusion in an application. Evaluating indexes, data flow models, triggers and stored procedures Forms creation, reports creation, label creation Report Output to multiple formats – Excel, PDF, Html, Text, CSV, Ascii Creating and managing ODBC connections Data transfers importing and exporting data Compilers

Installation Programs

ł

### Most recent applications include:

(

(

ESC – Equitable Small Claims software, co-developed with Michael Haberman Associates, Inc., is designed for use by tax assessors to defend taxpayer claims for tax reductions. ESC defends an assessment by using complicated valuation models to produce a defendable market value for the subject properties. Currently in use for ten municipalities on Long Island including the City of Glen Cove.

ISP – Inspection Scheduling Program – tracks equipment that needs regular inspection and reporting. Flexible inspection periods, equipment types, schedule tracking and email notifications to necessary parties (such as insurance companies and local authorities).

LAMP 10 for literary agents. LAMP tracks all financial and contractual aspects of an author's books with their agents and publishers.

An overview of these applications can be seen at www.LampSoftware.com.

In addition to the two applications outlined above, I have designed, written and installed programs for;

Commercial Real Estate Appraisals Auto parts manufacturer and distributor Medical supply distributor Wine distributors Cemetery management – Diocese of Rockville Centre, NY Jewelry wholesaler Factoring and Ioan finance All of which have enabled these customers to increase productivity, identify resources, reduce staff and increase profitability.

Cemetery Operations Management – written for Catholic Cemeteries of the Diocese of Rockville Centre. This software manages cemetery operations at all three of their Diocesan cemeteries and 19 parish cemeteries.

While with Michael Haberman Associates I wrote most of their software for their contracts with Nassau County and the Town of Babylon. Michael Haberman Associates played a major role in the re-assessment of Nassau County in 2003. They also negotiated taxpayer small claims and defended corporate real estate tax appeals on behalf on Nassau County. My software controlled the small claims negotiation and billing process for ten years. I administered over \$30 million dollars in government contracts during this period.

My programs also controlled the tracking and market value of over 470,000 properties in Nassau County during the re-assessment process. I wrote database software to track commercial property in the New York area.

### PROFESSIONAL, ASSOCIATIONS AND EDUCATION:

Certified Public Accountant – State of New York New York State Society of Certified Public Accountants Long Island Association of Small Businesses

### **QUALIFICATIONS OF MICHAEL J. BERNARD, IAO**

### **QUALIFICATIONS OF PAUL M. SHERROCK**

Michael Haberman Associates, Inc. 125 Front Street Mineola, New York 11501

516-739-8080

#### EDUCATION:

Bachelors of Business Administration (B.B.A.) 1982, from Bernard M. Baruch College (CUNY), majoring in Real Estate, completed all (Appraisal Institute R & G series), appraisal courses to date. Paul continues to complete various real estate & related courses and or seminars regarding current trends, relevant valuation, related issues and industry automation.

#### EXPERIENCE:

Paul has been active in the real estate profession since 1975; this experience started in sales, rentals, and for the past thirty plus years engaged mostly in appraising of residential and various commercial assignments. Paul developed two educational seminars, which required considerable travel nationally (over 40 states) for presentation. Paul was a frequent guest lecturer in the 1990's. Since early 2009 Paul has been involved with brokerage at Preston NY for rental and sales in Manhattan, REO commercial Brokerage at Auction America Realty on Long Island and currently, founding principal of Grey Stone Associates of NY as a consultant for both commercial brokerage and appraisal services.

Paul's prior position was with Washington Mutual as a commercial production staff appraiser. The five years spont at Washington Mutual entailed a high volume of assignments which included detailed inspections, analyzing various commercial and multi family/income producing properties within the five boroughs. In addition other areas such as Connecticut, New Jersey and Long Island were assigned giving a well rounded sampling of the tri state area. Duties at Washington Mutual incorporated preparing written reports for real estate appraisal related products and services, which required extensive use of Excel, Word, preparatory software and internal bank databases. In addition to production of the highest quality reports, Paul was able to enhance his organizational skills, the ability to manage work flow to meet departmental objectives and demonstrating strong decision making skills due to the independent analysis and research required. Furthermore, annual evaluations praised his outstanding customer service skills, innovative ideas for problem solving, team participation, excellent oral and written communication skills and the consistency of providing colleagues with support in all matters from appraisal issues to computer applications.

Prior to Washington Mutual experience with R.D. Geronimo Ltd. provided him the opportunity to work as a commercial staff appraiser completing numerous investigations for tax certiorari purposes in Nassau County and other municipalities. Properties included various commercial, industrial and special use assignments; also the mortgage lending portion of this work integrated locations from Long Island to New Jersey, utilizing extensive use of applications such as Excel and Argus.

During the late 1990's Paul retained a position at Michael Haberman Associates, Inc. as a commercial staff appraiser providing detailed reports for tax certiorari, condemnation and

### MICHAEL HABERMAN ASSOCIATES, INC.

various commercial industrial and special use properties on Long Island, the City of New York and upstate New York. Property types appraised included single and multi-family residential properties; in addition to condominium and cooperative projects, various types of industrial, warehouse, manufacturing properties, shopping centers, office buildings, gas stations, land & mixed-use properties.

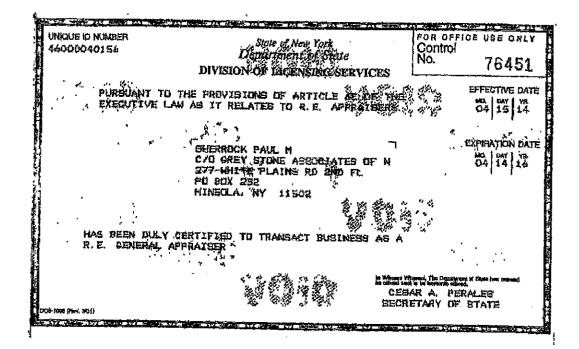

In the early 1990's Paul Sherrock was a founding principal with R&M Appraisal Reports, Inc. Work assignments were predominantly residential and small commercial properties. During his six year tenure as principal the company grew to a staff of over thirty appraisers and supports staff with over a hundred clients and annual revenues over a million dollars. Throughout this timeframe, Paul engaged in various appraisal and consulting assignments, reviewed, marketed, management and had frequent assignments involving court testimony.

Prior to starting R&M Appraisal Reports, Inc. Paul directed a housing program during College in Manhattan, was a staff appraiser with a local savings bank, worked as an independent contractor for several fees shops and attained a regional manager - review appraiser position for a national firm managing appraisal servicers' regionally for several years until the inception of starting his own firm.

#### COMPUTER SKILLS:

(

Client software applications: Word, Excel, Access, Power Point, Argus, Data Comp, regression products, various sketch and deed plotting programs, Adobe products, ACT, Outlook, Delorme, Geolocator, MS Publisher, most residential software packages, various MLS services, as well as proprietary databases, such as CoStar, Marshall on-line, REIS and LoopNet among many others.

# Professional Appraisal Experience: 1984 to Present

I have been actively engaged appraising real estate since 1984, appraising residential, commercial, and industrial properties within the five boroughs of NYC and Long Island, with offices in Manhattan, Brooklyn and Queens. My experience also includes many private dwellings, income producing properties, mixed-use buildings, cooperatives, condominiums and PUD's. During which time I have worked for clients such as Banks, Individuals, Attorneys, Law Firms, and Institutions of various types. My appraisals and reports have been used for a variety of reasons such as the acquisition and disposal of real estate and realty interests, mortgage lending, leasing, insuring, partitioning, tax purposes, and for asset review. Any project appraised from building plans has included the full range of market values including gross sellout value, discounted net sellout value, and stabilized value as a rental and a cost approach of the proposed developments. I also have experience in the valuation of apartment buildings, warehouses, factories and specialized buildings such as religious buildings and car dealerships. As an active member of the Columbia Society of Real Estate Appraisers I have complied with all continuing education requirements of the Appraisal Foundation.

I have worked with offices in Manhattan, Brooklyn and Queens as following: MAP Appraisal Services, Inc., 68-26 Loubet St., Forest Hills, NY 11375 Metropolitan Marketing & Management Corp., 19 West Street, New York, NY RT Hunt & Assoc., 3009 Quentin Rd, Brooklyn, NY RCI Appraisal Corp., 135-26 Roosevelt Avenue, Flushing, NY Paragon Appraisal Services, 246-19 Thornhill Avenue, Douglaston, NY Park Properties, Inc., 234 Bch 123<sup>rd</sup> Street, Rockaway Pk, NY 11694

# QUALIFICATIONS OF GREG D. HIGGINS

Michael Haberman Associates, Inc. 125 Front Street Mineola, New York 11501

516-739-8080

#### EDUCATION:

BA Marketing, New York Institute of Technology, 1979 R1, R2, The American Real Estate School, 1995 R3, R4, Columbia Society of Real Estate Appraisers, 1996 Continuing Education includes but not limited to; USPAP updated guidelines, FHA Appraising, Understanding Automated Valuation Models, Ethics and Standards of Professional Practice, Real Estate Damages; Assessment and Testimony, Appraising Historical and unique properties, Understanding Titles and Deeds, Understanding Real Estate Assessments, Understanding the Universal Appraisal Dataset.

#### EXPERIENCE:

l

I have been actively engaged in the appraisal of residential properties since 1994. My experience includes being involved in the early stages of the Nassau County, NY Reassessment Project and representing Nassau County in the Small Claim Assessment Review hearings in 1998-2001. In 1998 I founded Higgins Appraisal Service, a residential appraisal company, servicing lenders nationwide. I hired and mentored trainees through the NYS Certification process. As the owner I performed thousands of pre-funding appraisal reviews for nationwide lenders. In 2008 I was appointed by the New York State Supreme Court as a Hearing Officer for Small Claims Assessment Review for Nassau and Suffolk Counties. My most recent positions have been as a Residential Review Appraiser for Bank of America / Landsafe Appraisal Services and as a Senior Residential Review Appraiser for Valligent, a collateral risk assessment company servicing clients nationwide. Responsibilities include research and analysis on Fannie Mae collateral utilizing expertise, internal/external property valuation tools to ensure consistency with USPAP, Lender policies and any other generally accepted appraisal standards. Responsibilities also include forensic reviews and appraisals to determine if value and methodology were appropriate given the research tools available at time of appraisal. My success in this field is based on my ability to identify and effectively communicate our concerns regarding deficiencies in appraisals and evaluations as well as recognize changes in market trends and other indicators of value. My past two positions have been telecommuting positions where I was compensated according to my production.

# SYSTEMATIC REVIEW & ANALYSIS OF ASSESSMENTS (RFP # AS0518-1509)

Submission Date June 9, 2015

From the RFP Selection Committee Steven L. Corte, Chairman

# QUESTIONS AND REQUEST FOR CLARIFICATION

MICHAEL HABERMAN ASSOCIATES, INC.

1. Will your work on the Westchester County's reassessment project have any impact your ability to meet the timetables that will be established under Nassau County's Systematic Review?

(

(

No - The Westchester project started over a year ago, with the Towns of Greenburgh, Ossining and North Salem participating in the Multiple Municipal Reassessment Consortium. The project is well on its way with 90% of all field work completed, along with data mailers. Neighborhood delineation is currently under way and scheduled to be complete at the end of June. The next phase of the project is valuation, which MHAI is responsible for reviewing model coefficients and final value conclusions. This is a statistical review, requiring minimal manpower and time on MHA's behalf. As you are aware, the Westchester revaluation is a Tyler Technology project, which is being completed in IAS. This gives MHAI a tremendous advantage over other companies vying for the Nassau County project due to the intimate knowledge that was gained with IAS during the Westchester reassessment project.

(

# SYSTEMATIC REVIEW & ANALYSIS OF ASSESSMENTS (RFP # AS0518-1509)

Submission Date June 9, 2015

From the RFP Selection Committee Steven L. Corte, Chairman

# GENERAL QUESTIONS FOR ALL BIDDERS

1. How will land values for each Class be evaluated in your review? Describe in detail your land valuation strategy.

All analysis will be based on a per neighborhood basis. The first and most preferable method is to develop land tables based on actual vacant land sales. Since this is not always possible, the next best method is market extraction (most probable approach) with the third being studies of ratios comparing land value to total value.

2. How will the Department of Assessment's Integrated Assessment System (IAS)/Adapt be used in your Systematic Review? Describe in detail the implementation of valuation recommendations. Specifically, how would you utilize Adapt and/or incorporate your work product into IAS?

The Nassau Assessment System (IAS/Adapt) houses all assessments, inventory and sales history for properties located in the municipality. There are many modules built into IAS for analysis purposes along with standard reports. This would be the first line of analysis. The data compiled in IAS is stored in a SQL database which is accessible through the use of ODBC connectors making it relatively simple to retrieve data for analysis in SPSS. As far as implementation of new values, this would be based on neighborhood analysis with adjustments made according to statistical results.

3. What sources will be used to evaluate the Cost Approach parameters produced using the Integrated Assessment System (IAS) including (but not limited to) building costs, costs assigned to Other Building and Yard (OBYs) and depreciation?

The IAS system utilizes Marshal Swift cost tables. After loading the most current source data from M&S, adjusted for time and location, it would be tested against actual sales to verify accuracy.

# 4. How will modelling "outliers" in each Class be handled in your Systematic Review?

The question is somewhat ambiguous. If addressing a holdout sample that produces unsatisfactory results, the model coefficients will have to be reviewed. If it is a sales ratio that is an extreme when compared to the neighborhood, the properties should be field inspected. And finally, if it's a unique property, it will have to be costed and checked against available market data.

# 5. Will the review of Class 4 (Commercial) properties and models you produce include a market analysis of Capitalization Rates?

Yes – We will make an assertive effort to develop market derived cap rates. As you are aware, this may not be fruitful for all property types, at which point we will research and utilize secondary market data adjusted to the Nassau County market.

## 6. How will economic units (i.e. Parking Lots) be dealt in your review?

If they are part of an economic entity such as an office building, value will be allocated as part of the income approach. If, for some reason, the parking lot does not support an improvement, value will be based on land tables plus site improvements.

# 7. Will your models have provisions for external influences (i.e. Railroads, Commercial Corners, etc.)?

Yes – this type of data is housed in IAS and was utilized during the revaluation of 2003. It will be tested and improved through the use of GIS.

# 8. Are there any types of properties that will not be included in your review (i.e. Marinas, Golf Courses, etc.)?

No – except for Special Franchise and Utility Properties (complex properties as defined by ORPTS).

9. How would you model specially properties like marinas and golf courses in Adapt?

As stated in our proposal, we are willing to field review an agreed number of properties. The most effective method is to field review the inventory that makes up the parcels and develop cost and income models specific to the use.

## 10. Are Class 4 – Utility properties included in your Class 4 – Commercial analysis?

Valuation of the real property component of the parcel will be valued. The equipment will not.

(

í

# 11. What modelling changes would you suggest for creating values for hotels, assisted living centers, nursing homes and self-storage facilities?

Without knowing how the IAS is currently configured for the aforementioned property types it is difficult to make a recommendation. The only recommendation we can make is, it is common knowledge how the courts look at these properties, and assuring compliance with their methodology is of utmost importance.

# 12. Will your company provide an analysis of Land to Building Ratios?

Yes - Since all the data is stored in IAS this is not a significant task.

# 13. How will you address apartment buildings and how will ETPA Buildings?

Apartment buildings will be valued on the income approach. Verification of ETPA compliant buildings will be verified through HUD and they will be valued accordingly.

# 14. Will your company provide field staff to work with Department of Assessment personnel?

Yes - As stated in our proposal, we are willing to field inspect an agreed number of parcels.

15. What plans do you have to improve DOA personnel's preparedness on the quantitative and qualitative levels? What mechanisms would you leave in place to allow staff to continue to maintain your recommendations?

We do not have intimate knowledge of the current workings of the DOA, therefore this question cannot be answered until after we have worked with your staff.

16. What valuation quality assurance measures would you recommend that the DOA adopt after the Systematic Review is completed?

At a minimum, performing ratio studies on a per neighborhood basis with specific focus on changing market trends.

17. Describe the Commercial and Residential models you will create and how you would address the overabundance of existing commercial models in IAS/Adapt?

Models are developed on market data, not on a modeler's idea of how to configure a model for a municipality. Therefore, a complete analysis must be performed before this can be discussed. Again, making a decision that there are too many models utilized in IAS without completing an analysis of the market is a recipe for failure. Research first and make conclusions from what the market indicates.

# 18. How will support documentation be transmitted to the DOA at the end of your review?

The most efficient method is electronically. But we are willing to work with DOA in whatever method is determined most efficient.

## 19. Describe in detail your plan for a neighborhood review.

Neighborhood delineation is the single most Important process in a reassessment project. This is a textbook procedure starting with all physical, political, economic and school district boundaries. Utilizing our expert local knowledge, after completing a basic delineation, sales analysis is completed assuring homogenous neighborhoods based on the type of real estate inventory and price levels throughout. This task is not complete until downloaded into a geodatabase for use in GIS.

### 20. Describe in detail your plan for sales data verification.

Sales verification is an ongoing process, from day one of the project to the end. All of the obvious non-arm's length sales are removed leaving thousands to verify countywide. Utilization of all available data sources is optimal, including RP-5217, MLS, Comps Inc., Accurint, LoopNet, CoStar and other real estate professionals including brokers and developers. After completing the previously mentioned sales scrubbing the sales should be trimmed through the approved IAAO method of inter-quartile trimming. These methods will assure a strong sales population.

# 21. What recommendations do you have to account for any lack of sales if existing neighborhoods are split into sub-groups or expanded?

As previously stated, the market data and sales indicate the neighborhoods, if there are no sales during the initial study period, expanding of the time constraints will be required. If expanding this parameter does not produce sufficient sales, expanding the neighborhood may be necessary. This could include configuring neighborhoods that are not geographically contiguous.

#### Additional Recommendations:

Ĺ

The driving force in completing this systematic review is to provide fair and *supportable* values for all properties in Nassau County. It is our opinion that in order to accomplish this, it is imperative to have open communication with the Nassau County Tax Certiorari BAR. Valuation methodology must be agreed upon early in the project along with regular meetings to assure a focused approach. This open approach to communicate with the Cert. BAR should be publicized in an effort to make the public aware of the asserted effort to correct the assessment system. Additionally, in order to prevent ratio disputes which end up with stipulated ratios far below the published ratio, the County should go to 100% of full market value as their stated level. This provides for a more explainable / defendable assessment system.

# Scope/Timeline and Billing Schedule (amended 8/10/2015)

This is a detailed timeline/scope of the commercial portion (Classes 2 & 4) of the Nassau County Systematic Review Project as proposed by Michael Haberman Associates, Inc. (MHAI). This projection is based on our intimate knowledge of Nassau County and our historical experience with the Nassau County Assessment System (IAS) as it last existed in the 2005 calendar year. Due to the complexity of Nassau County and its prodigious assessment data, this project timeline is subject to changes by both Nassau County's Department of Assessment (DOA) and MHAI. An integral part of the project includes pointing out DOA deficiencies when discovered. Such deficiencies and recommendations to correct issues, as they are revealed, will be summarized in the monthly status report. We have taken all steps available to produce a document that will provide guidance and timeliness for the project. Procedures followed for this project will comply closely with recommendations from the International Association of Assessing Officers (IAAO).

The timeline/scope is configured to illustrate major milestones throughout the project with specific detail for each sub-task. This mass appraisal project is intended to comply with all requirements as set forth under Standard 6 of the Uniform Standard of Professional Appraisal Practice.

#### Project Commencement

(

(

This portion of the project (Startup) will commence on October 1, 2015 and span approximately a three month period, to the end of the year (December 31, 2015). During the Startup period the Company will focus on re-familiarizing personnel with the Nassau County Assessment System and parcel data as configured. For the purpose of discovering fundamental procedural and system deficiencies, in depth research, and communication with key DOA personnel will be required. In-house system preparation will commence during this period assuring sufficient storage space and secure environment. Man power requirements for the project will be confirmed and staffing as required will be put in place. It is recommended at this time that Nassau County to configure a test database, mirroring the current production database, for purposes of testing modeling and possible structural reconfiguration.

#### <u>Data Analysis</u>

This phase of the project will begin subsequent to the Startup portion of the project on January 1, 2016 and proceed for approximately 18 months to June 30, 2017. A mass appraisal project is only as good as the data it is based on. This portion of the project will consist of detailed testing and editing of all data as contained in IAS.

Utility properties will be reviewed for correct "roll section" designation and reconciled with New York State supplied advisory appraisals, to assure a one to one match. If discrepancies are discovered as a result of this review process, field inspections will be completed by a professional engineer, up to the contract limit of 2.5% of class 4 property on an economic entity basis.

## Neighborhood Delineation Re-verification

The County is currently delineated into many commercial neighborhoods as a result of the 2003 revaluation project. Detailed analysis is required to assure that neighborhoods, as currently delineated in the system, are truly based on external factors that typically define a neighborhood. These factors include, but are not limited to, natural and manmade dividers, municipal and political boundaries, school districts, social and economic influences. The primary tool utilized for this analysis is ESRI's AreView. This requires exporting specific data from IAS, uploading . it to AreView for analysis and reliability conclusions. All recommended changes will be documented and submitted in report format.

#### Analyze and Normalize System Variables

Concerns over Structure & Land Use Codes has been displayed by DOA personnel during our early meetings. As discussed, we will run edits on all properties in an effort to reveal inconsistencies across common property types. SPSS will be utilized to test the statistical significance of system adjustments such as *Grade Factors* and *Investment Ratings*.

Historically, the IAS system would value commercial properties utilizing multiple income streams as applied to different sections of a structure as based on the cost approach. Properties typically don't function this way in the market, therefore complicating the income approach. An analysis accounting for use codes within a structure code will be completed. This analysis will reveal the complexity of specific property types enabling the team to focus on producing a market relevant approach. This would produce reasonable, defendable values as viewed by the Courts.

The County's commercial property base is made up of thousands of individual parcels. The reality of it is that multiple parcels may make up one property (Economic Entity). Part of this analysis includes the verification of condominium parent and children parcels. An intrinsic part of this project will include identifying such properties and grouping for valuation purposes.

Property specific location adjustments will be analyzed for consistency with the aid of GIS. Thoroughfares will be displayed with each commercial property plotted as based on its location adjustment. This form of hot/cold map will provide easy identification of misclassified properties.

Multiple edit reports will be run in order to discover either missing data or inconsistencies in data. An example of some edits that will be run includes: age/condition, Land Area/GBA, LUC/Structure Code.

As a result of the edit reports, inconsistencies in data will be field reviewed when required. Field reviews are limited to 2.5% of Class 2 & 4 parcels on an economic entity basis and will be administered as requested by the DOA.

Nassau County's shorelines have evolved from a marine based industry to residential cluster type development. Change in use should be verified and corrected where appropriate. This will be accomplished through the use of GIS. This can also be accomplished through the review of building permits with specific focus on a change in use.

Structure, Use and OBY codes will be reviewed and analyzed for market relevance. If large variances exist across common uses, codes will be normalized for ease of use and understanding.

Model categories will also be reviewed and analyzed for market relevance. Models that are redundant or nonexistent in the market will be deleted.

Land Type models will be reviewed and analyzed for market relevance. Models that are redundant or nonexistent in the market will be deleted.

Statistical analysis will be run on each parcel verifying incremental/decremental land adjustments.

Statistical analysis will be run on each parcel verifying incremental/decremental GBA adjustments.

Barring sufficient market data, statistical analysis on external influences such as corner, waterfront and golf courses will be performed.

Specialty properties such as marinas, gas stations, garden centers, auto repair, with large land to building ratios will be reviewed and analyzed to assure market relevance.

Mix-use properties will be reviewed for structure code, use code, expenses and capitalization rate consistency.

Parcels that are bifurcated by municipal lines will be analyzed and reviewed for valuation allocation. Allocations will be based on percentage of structure value and percentage of land value as geographically located within the municipality.

Wetlands and environmentally contaminated properties can be flagged through the use of GIS. Formal requests for data will be made to NYS Department of Environmental Conservation.

#### Valuation Modeling

(

The "Valuation Modeling" portion of the project will overlap the "Data Analysis" and begin October 2016. The IAS system is based on the cost approach, tying all sections of a structure to specific cost schedules within Marshall & Swift. These tables must be reviewed and updated with the most current tables available from Tyler Technology. Additional tables needing updating include location multipliers and depreciation tables. As previously discussed, in-depth research will be completed on the practicality of maintaining multiple depreciation tables for structures and OBYs. Market reasonableness testing will be completed after update is complete.

#### Valuation Process

Neighborhood delineation is an intrinsic procedure in the mass valuation process and is the first step in determining land values, application of Income and Cost Analysis. Though not a science, a systematic approach is required to delineate physical boundaries, municipal/political boundaries, building characteristics, type of occupancy, zoning, typical land size, sale prices and social/economic forces.

Land modeling via analysis of vacant land sales. If sales are insufficient, alternative methods will be used (residual analysis, etc...). Land tables are the basis for the Cost Approach with all improvement values added to the underlying land value. Therefore, it is critical to have an accurate estimate of land values. For purposes of calibrating land tables, raw land sales are the most reliable method to produce neighborhood land values. Since Nassau County is a mature community, raw land sales will not be sufficient to calibrate land tables. If our hypothesis is correct and land sales are insufficient, the best option is to rely on the "Land Residual Method". Once complete, land values will be populated on a use basis per delineated neighborhood and reviewed with DOA.

Building costs will be based on current replacement and depreciation estimates from Marshall & Swift Services tied to existing structure codes and/or recommendations for consolidation. Costs will be prepared in table format for consistency dealing with the different types of commercial and industrial parcels. Depreciation tables are key to providing accurate values by means of the Cost Approach. Market data will be utilized to calibrate tables when available. All three types of obsolescence will be considered in the analysis.

Retrieval of economic market data inclusive of rental rates, occupancy levels, operating expense ratios, rates of return and effective tax rates will be data based.

When actual income and expense is available for a sale parcel, overall capitalization rates will be calculated. If actual data is insufficient, secondary source material and the building of rates (band of investment) will be localized to Nassan County and utilized in valuation models. If actual income and expense data is retrieved, this data will be used as a starting point in reviewing existing modeling and will become part of the market database. Economic data and tables will be developed via existing in-house data, information received from participating real estate professionals and data the Nassan County Attorney's Office, DOA and ARC have on hand.

Existing valuation matrix will be reviewed and updated with current market supported data. Valuation matrices are based on the neighborhoods as delineated for each property type.

Systematic edit reports will be run to assure all data fields are populated and contain market relevant data.

Analysis of existing assessments and models in order to test for reasonableness (value/unit basis) and, if needed, recommendations to DOA for adjustments. Unit basis includes but is not limited to square feet, number of apartments, number of rooms, number of beds, etc...

### Parcel Specific Testing

(

l

Once the valuation portion of the project is complete, it is imperative to perform various 'edit reports' and statistical analyses. This added step will assure market reasonableness and provide values that are sustainable when tested by Courts. This will be an ongoing process which will

commence as specific property types are completed on a neighborhood basis. This phase of the project is slated to begin January 2017.

Edit reports provide a window to the assessment roll enabling an assessor to focus on issues that don't appear reasonable when compared to the market. Edit reports can focus on all aspects of the assessment roll focusing on anomalies when discovered. This is a dynamic tool which will be utilized throughout the project.

Statistical analysis provides a systematic approach to value. It will provide mathematical indicators that a problem may exist within a specific neighborhood or property type. These are also dynamic in nature with our statistician focusing on specific discrete & continuous variables.

Valuation of utility properties will be based on New York State Office of Real Property Tax Services (NYSORPTS) supplied advisory appraisals. Due to the complexity of utility properties, if during the inventory review process, as previously described under <u>Data Analysis</u>, no discrepancies are revealed, the appraised value as indicated by NYSORPTS will be adopted. If discrepancies are discovered, NYSORPTS and DOA will be notified of such discrepancies in the form of a written report. This will trigger a request for an updated advisory appraisal from NYSORPTS.

As a result of our extensive testing outliers will be revealed. As previously stated field reviews will be performed when necessary or requested by the DOA, up to a total project count of 2.5% of Class 2 & 4 parcels on an economic entity basis.

#### County-wide Testing

(

(

Final testing will commence in April 2017, consisting of a "tax shift analysis". Statistical analysis will be performed on a county-wide basis, neighborhoods, school districts, town boundaries and any taxing authority as requested by DOA. This macro approach to the project may reveal unintended consequences that can be altered before publishing the assessment roll. This type of testing also provides relevant information to public officials so they can better understand the impact of the "Systematic Review" which they will have to convey to their constituents.

## Appendix EE Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

> (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

> (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions

Ĺ

or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

1

(

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon,

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction

recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

l

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities. As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

(

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation
- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

g.

í

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

#### Appendix L

#### Certificate of Compliance

In compliance with Local Law 1-2006, as amended (the "Law"), the Contractor hereby certifies the following:

1. The chief executive officer of the Contractor is:

{

(

Michael Haberman	(Name)
125 Front Street,	<u>Mineola, NY 11501</u> (Address)
516-739-8080	(Telephone Number)

- 2. The Contractor agrees to either (1) comply with the requirements of the Nassau County Living Wage Law or (2) as applicable, obtain a waiver of the requirements of the Law pursuant to section 9 of the Law. In the event that the Contractor does not comply with the requirements of the Law or obtain a waiver of the requirements of the Law, and such Contractor establishes to the satisfaction of the Department that at the time of execution of this Agreement, it had a reasonable certainty that it would receive such waiver based on the Law and Rules pertaining to waivers, the County will agree to terminate the contract without imposing costs or seeking damages against the Contractor
- 3. In the past five years, Contractor \_\_\_\_\_ has \_\_X\_\_ has not been found by a court or a government agency to have violated federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If a violation has been assessed against the Contractor, describe below:

4. In the past five years, an administrative proceeding, investigation, or government bodyinitiated judicial action \_\_\_\_\_ has \_X \_\_\_ has not been commenced against or relating to the Contractor in connection with federal, state, or local laws regulating payment of wages or benefits, labor relations, or occupational safety and health. If such a proceeding, action, or investigation has been commenced, describe below: 5. Contractor agrees to permit access to work sites and relevant payroll records by authorized County representatives for the purpose of monitoring compliance with the Living Wage Law and investigating employee complaints of noncompliance.

I hereby certify that I have read the foregoing statement and, to the best of my knowledge and belief, it is true, correct and complete. Any statement or representation made herein shall be accurate and true as of the date stated below.
