The County of Nassau, The Nassau County Police Department, Police Officer Kevin Mooney and Police Officer Michael Caldarera,* United States District Court for the Eastern District of New York, Docket No. 22-cv-7954, wherein plaintiff alleges her civil rights were violated by members of the Nassau County Police Department (the "Services"). Services under this Agreement shall include but not be limited to providing legal advice; motion practice; trial; appeals; transactional related issues; and such other Services as may be required to fully represent the County. When providing such Services, Counsel must comply with Nassau County's Litigation Management Guidelines, as may be amended (the "Guidelines"), provided under separate cover and incorporated by reference herein. Except as otherwise provided in this Agreement, such as Services shall conclude no earlier than entry of a verdict or a settlement or of a court order terminating the above-described matters.

3. Payment. (a) Amount of Consideration. (1) The amount to be paid to Counsel as full consideration for Counsel's Services under this Agreement, including disbursements, shall not exceed the sum of Eight Hundred Fifty Thousand Dollars ($850,000.00) ("Maximum Amount"). Compensation for professional services shall be paid at an hourly rate according to the following fee schedule:

| | | |
|---|---|---|
| (i) | Practice Group Leader: | $1395.00 |

| (iv) | Paralegals: | $390.00 |

(2) Any appearances before the County Legislature, or any committee thereof for the purpose of the approval of this Agreement or any amendment thereto, are to be construed as part of the fee negotiation and approval process and Counsel agrees that no fee will be charged for any such

appearances.

(3) Partial Encumbrance. (a) Counsel acknowledges that County will partially encumber funds to be applied towards the Maximum Amount throughout the term of this Agreement. Counsel further acknowledges that the initial encumbrance shall be Five Hundred Thousand Dollars ($500,000.00). Thereafter, the Department shall notify Counsel of the availability of additional monies, which written notice shall include the amount encumbered. Such notification shall serve as notice to proceed.

(b) Vouchers; Voucher Review, Approval and Audit. Payment shall be made to Counsel in arrears and shall be contingent upon (i) Counsel submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) is accompanied by a contemporaneous record of hours billed stating the person(s) performing the Services and indicating with reasonable specificity, the Services provided and the payment requested in consideration for such Services, or contains a detailed, itemized list of allowable expenses; (b) certifies that the Services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, and upon (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(c) Timing of Payment Claims. Counsel shall submit its claim no later than three (3) months following the County's receipt of the services that are the subject of the claim, and no more frequently than once a month.

(d) Expenses and Disbursement. Counsel shall be compensated within the Maximum Amount for all reasonable expenses and disbursements actually incurred, including but not limited to out-of-pocket disbursements for investigators, trial preparation services, court reporting services, interpreters, and other legitimate expenses in accordance with the Guidelines. Counsel shall obtain prior written approval from the County Attorney or his designee for all non-routine expenses and disbursements as specified in the Guidelines.

(e) No Duplication of Payments. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between Counsel and any funding source including the County.

(f) Payments in Connection with Termination or Notice of Termination. Unless a provision of this Agreement expressly states otherwise, payments to Counsel following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after Counsel received notice that the County did not desire to receive such services.

4. Independent Contractor. Counsel is an independent contractor of the County. Counsel shall not, nor shall any officer, director, employee, servant, agent or independent contractor of Counsel (a "Counsel Agent"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "Person" means any individual person, entity (including partnerships, corporations and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

5. No Arrears or Default. Counsel is not in arrears to the County upon any debt or contract

and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

6. Compliance with Law. (a) Generally. Counsel shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, Counsel is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, Counsel agrees as follows:

(i) Counsel shall comply with the applicable requirements of the Living Wage Law, as amended.

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Counsel has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

(iii) It shall be a continuing obligation of Counsel to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) Records Access. The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement remains the sole property of the County and shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. Counsel acknowledges that Counsel Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify Counsel of such request prior to disclosure of the Information so that the Counsel may take such action as it deems appropriate.

(d) Prohibition of Gifts. In accordance with County Executive Order 2-2018, Counsel shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with Counsel on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an

immediate family member shall include a spouse, child, parent, or sibling. Counsel shall include the provisions of this subsection in each subcontract entered into under this Agreement.

(e) Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, Counsel has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where Counsel employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. Counsel shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

(f) Vendor Code of Ethics. By executing this Agreement, the Contractor hereby certifies and covenants that:

(i) The Contractor has been provided a copy of the Nassau County Vendor Code of Ethics issued on June 5, 2019, as may be amended from time to time (the "Vendor Code of Ethics"), and will comply with all of its provisions;

(ii) All of the Contractor's Participating Employees, as such term is defined in the Vendor Code of Ethics (the "Participating Employees"), have been provided a copy of the Vendor Code of Ethics prior to their participation in the underlying procurement;

(iii) All Participating Employees have completed the acknowledgment required by the Vendor Code of Ethics;

(iv) The Contractor will retain all of the signed Participating Employee acknowledgements for the period it is required to retain other records pertinent to performance under this Agreement;

(v) The Contractor will continue to distribute the Vendor Code of Ethics, obtain signed Participating Employee acknowledgments as new Participating Employees are added or changed during the term of this Agreement, and retain such signed acknowledgments for the period the Contractor is required to retain other records pertinent to performance under this Agreement; and

(vi) The Contractor has obtained the certifications required by the Vendor Code of Ethics from any subcontractors or other lower tier participants who have participated in procurements for work performed under this Agreement.

7. Ownership of Records. All County Information provided to Counsel by the County shall remain the property of the County. All reports, documents or information created by Counsel on behalf of the County shall be deemed the property of the County. Upon the County's request, completion of Services, or termination of this Agreement, all such County Information, reports, documents or information shall be returned to the County.

8. Service Standards. Regardless of whether required by Law: (a) Counsel shall, and shall cause Counsel Agents to, conduct his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) Counsel shall deliver Services under this Agreement in a professional manner consistent with the best practices of the legal profession. Counsel shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Counsel Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

9. No Conflict Representation. During the term of this Agreement, Counsel shall not

represent any party whose interest is or may be adverse to or in conflict with, or whose interest may appear to be adverse to or in conflict with the County, nor shall it commence any action or proceeding, or act as Counsel in any action or proceeding that is adverse to the County or any County officer or employee, without the County's prior written consent. The County acknowledges that Counsel represents clients, comprising both individuals and entities, before boards, agencies, departments, and divisions of the County, including its Legislature (collectively, the "Nassau County Entities"). The County waives any current or prospective conflicts of interest, potential or actual, arising solely from non-adverse representations. If Counsel seeks to represent a client in litigation directly adverse to any Nassau County Entities, Counsel shall be precluded from disclosing any County information in any such representation, and a separate written waiver will be required.

10. Indemnification; Defense; Cooperation. (a) Counsel shall indemnify, defend and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities arising out of or in connection with performance under this Agreement by Counsel or a Counsel Agent, provided, however, that the Counsel shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) Counsel shall, upon the County's demand and at the County's direction, promptly and diligently defend, at Counsel's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which Counsel is responsible under this Section, and, further to Counsel's indemnification obligations, Counsel shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) Counsel shall, and shall cause Counsel Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of Counsel and/or a Counsel Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

11. Insurance. (a) Types and Amounts. Counsel shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per claim (iii) compensation insurance for the benefit of the Counsel's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by Counsel pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. Counsel shall be solely responsible for the payment of all deductibles to which such policies are subject. Counsel shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by Counsel under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this

Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, Counsel shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. Counsel shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of Counsel to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of Counsel to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

12. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

13. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to Counsel, (ii) for "Cause" by the County immediately upon the receipt by Counsel of written notice of termination, (iii) upon mutual written Agreement of the County and the Counsel, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By Counsel. This Agreement may be terminated by Counsel if performance becomes impracticable through no fault of the Counsel, where the impracticability relates to Counsel's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by Counsel delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that Counsel is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Counsel's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

(c) Counsel Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Counsel shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning Counsel's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

14. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete

and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the applicable provisions of the Code of Federal Regulations, 2 C.F.R. Part 200, as may be amended. Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

15. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief, Counsel shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. Counsel shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of Counsel shall allege that the above-described actions and inactions preceded Counsel's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

16. Work Performance Liability. The Counsel is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Counsel is using a Counsel Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Counsel Agent has been approved by the County.

17. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and *forum non conveniens*. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

18. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name Counsel shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and

(iv) if to Counsel, to the attention of the person who executed this Agreement on behalf of Counsel at the address specified above for Counsel, or in each case to such other persons or addresses as shall be designated by written notice.

19. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

20. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

21. Administrative Service Charge. Counsel agrees to pay the County an administrative service charge for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Numbers 201-2001, 128-2006, and 153-2018. The administrative service charge shall be due and payable to the County by The Contractor upon signing this Agreement in accordance with the following schedule:

| Value of Contract | Administrative Fee |
|---|---|
| (a) $0-$10,000 | $0 |
| (b) Over $10,000-$50,000 | $160 |
| (c) Over $50,000-$100,000 | $266 |
| (d) Over $100,000 | $533 |

22. Executory Clause. Notwithstanding any other provision of this Agreement:

(a) Approval and Execution. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all requisite County and other governmental approvals have been obtained, including, if required, approval by the County Legislature and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) Availability of Funds. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or

otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the County from the state and/or federal governments.

(c) NIFA Approval. County contracts with a Maximum Amount equal to or greater than Fifty Thousand Dollars ($50,000.00) require the approval of the Nassau County Interim Finance Authority ("NIFA") during the control period declared by NIFA on January 26, 2011, with limited exceptions. NIFA also requires that when the aggregate of contracts issued to a particular vendor for the provision of similar services is equal to or greater than $50,000 in any 12-month period they be subject to NIFA approval even if each individual contract is less than $50,000. NIFA has advised the County that NIFA's approval is subject, among other things, to the following limitation: payment to Counsel under this Agreement for Services, including related expenses and disbursements, rendered prior to the later of (i) the date of NIFA approval or (ii) full execution of the Agreement (such date, the "Approval Date") shall not exceed the sum of Fifty Thousand Dollars ($50,000.00). Counsel therefore acknowledges that charges incurred over Fifty Thousand Dollars ($50,000.00) prior to the Approval Date shall not be approved by NIFA, and shall not be paid by the County, unless NIFA makes an exception to its policy. Accordingly, to mitigate against exposure, Counsel shall provide the following notice to the Department:

(A) If Counsel anticipates incurring costs in excess of Fifty Thousand Dollars ($50,000.00) prior to the Approval Date, Counsel shall provide written notice to the Department at least Forty-five (45) days prior to the date on which Counsel anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap.

(B) If Counsel has reached or anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap prior to the Approval Date, and in less than Forty-five (45) days, Counsel shall provide the Department with immediate written notice.

Upon receipt of such notice, the Department will review and advise Counsel of the Department's intended course of action, which, in appropriate cases as determined by the Department, may include seeking a waiver from NIFA.

23. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

## Appendix EE
## Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan and any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful,

the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blueprints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

**Appendix EE**
**Equal Employment Opportunities for Minorities and Women**

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

**Definitions:**

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blueprints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

Rule:

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

A. The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

B. At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

C. The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

D. The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

E. The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

F. Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.

G. Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

H. At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

I. In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

J. Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

K. A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

L. The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

i) Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

ii) If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

iii) Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the

Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

M. The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

**Procurement History:** In April 2018, 2019, and 2022, the County Attorney's Office conducted a formal Request for Qualifications ("RFQ") to identify eligible, experienced legal counsel for a broad array of legal areas, and a panel of firms ("Panel" or "Special Counsel Panel") qualified to provide legal services for the County has been established. Services under this Agreement shall include, but not be limited to, motion practice; depositions and investigations; discovery; trial; appeals; settlement negotiations; and such other Services as may be required to fully represent the County. When providing such Services, Counsel must comply with Nassau County's Litigation Management Guidelines, as may be amended (the "Guidelines"), provided under separate cover and incorporated by reference herein. Except as otherwise provided in this Agreement, such Services shall conclude no earlier than entry of a verdict or a settlement or of a court order terminating the above-described litigation.

3. Payment. (a) Amount of Consideration. (1) The amount to be paid to Counsel as full consideration for Counsel's Services under this Agreement, including disbursements, shall not exceed the sum of Six Hundred Thousand Seven Hundred Fifty Dollars ($600,750.00) ("Maximum Amount"). Compensation for Counsel's Services shall be paid at an hourly rate according to the following fee schedule:

| | | |
|---|---|---|
| (i) | Partner: | $250.00 |
| (ii) | Paralegal/Law Clerk: | $85.00 |

(2) Any appearances before the County Legislature, or any committee thereof for the purpose of the approval of this Agreement or any amendment thereto, are to be construed as part of the fee negotiation and approval process and Counsel agrees that no fee will be charged for any such appearances.

(3) Partial Encumbrance. (a) Counsel acknowledges that County will partially encumber funds to be applied towards the Maximum Amount throughout the term of this Agreement. Counsel further acknowledges that the initial encumbrance shall be One Hundred Thousand Dollars ($100,000.00). Thereafter, the Department shall notify Counsel of the availability of additional monies, which written notice shall include the amount encumbered. Such notification shall serve as notice to proceed.

(b) Vouchers; Voucher Review, Approval and Audit. Payment shall be made to Counsel in arrears and shall be contingent upon (i) Counsel submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) is accompanied by a contemporaneous record of hours billed stating the person(s) performing the Services and indicating with reasonable specificity, the Services provided and the payment requested in consideration for such Services, or contains a detailed, itemized list of allowable expenses; (b) certifies that the Services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, and upon (ii) review, approval and audit of the Voucher by the County and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(c) Timing of Payment Claims. Counsel shall submit its claim no later than three (3) months following the County's receipt of the services that are the subject of the claim, and no more frequently than once a month.

(d) Expenses and Disbursement. Counsel shall be compensated within the Maximum Amount for all reasonable expenses and disbursements actually incurred, including but not limited to out-of-pocket disbursements for investigators, trial preparation services, court reporting services, interpreters, and other legitimate expenses in accordance with the Guidelines. Counsel shall obtain prior written approval from the County Attorney or his designee for all non-routine expenses and disbursements as specified in the Guidelines.

(e) No Duplication of Payments. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between Counsel and any funding source including the County.

(f) Payments in Connection with Termination or Notice of Termination. Unless a provision of this Agreement expressly states otherwise, payments to Counsel following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after Counsel received notice that the County did not desire to receive such services.

4. Independent Contractor. Counsel is an independent contractor of the County. Counsel shall not, nor shall any officer, director, employee, servant, agent, or independent contractor of Counsel (a "Counsel Agent"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "Person" means any individual person, entity (including partnerships, corporations, and limited liability companies), and

government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

5. No Arrears or Default. Counsel is not in arrears to the County upon any debt or contract and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

6. Compliance with Law. (a) Generally. Counsel shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, Counsel is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, Counsel agrees as follows:

(i) Counsel shall comply with the applicable requirements of the Living Wage Law, as amended.

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Counsel has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

(iii) It shall be a continuing obligation of Counsel to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) Records Access. The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement remains the sole property of the County and shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. Counsel acknowledges that Counsel Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify Counsel of such request prior to disclosure of the Information so that the Counsel may take such action as it deems appropriate.

(d) Prohibition of Gifts. In accordance with County Executive Order 2-2018, Counsel shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with Counsel on behalf

of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. Counsel shall include the provisions of this subsection in each subcontract entered into under this Agreement.

(e) Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, Counsel has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where Counsel employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. Counsel shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

(f) Vendor Code of Ethics. By executing this Agreement, the Contractor hereby certifies and covenants that:

(iv) The Contractor has been provided a copy of the Nassau County Vendor Code of Ethics issued on June 5, 2019, as may be amended from time to time (the "Vendor Code of Ethics"), and will comply with all of its provisions;

(v) All of the Contractor's Participating Employees, as such term is defined in the Vendor Code of Ethics (the "Participating Employees"), have been provided a copy of the Vendor Code of Ethics prior to their participation in the underlying procurement;

(vi) All Participating Employees have completed the acknowledgment required by the Vendor Code of Ethics;

(vii) The Contractor will retain all of the signed Participating Employee acknowledgements for the period it is required to retain other records pertinent to performance under this Agreement;

(viii) The Contractor will continue to distribute the Vendor Code of Ethics, obtain signed Participating Employee acknowledgments as new Participating Employees are added or changed during the term of this Agreement, and retain such signed acknowledgments for the period the Contractor is required to retain other records pertinent to performance under this Agreement; and

(ix) The Contractor has obtained the certifications required by the Vendor Code of Ethics from any subcontractors or other lower tier participants who have participated in procurements for work performed under this Agreement.

7. Ownership of Records. All County Information provided to Counsel by the County shall remain the property of the County. All reports, documents or information created by Counsel on behalf of the County shall be deemed the property of the County. Upon the County's request, completion of Services, or termination of this Agreement, all such County Information, reports, documents or information shall be returned to the County.

8. Service Standards. Regardless of whether required by Law: (a) Counsel shall, and shall cause Counsel Agents to, conduct his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) Counsel shall deliver Services under this Agreement in a professional manner consistent with the best practices of the legal profession. Counsel shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and

maintaining, and causing all Counsel Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

9. No Conflict Representation. During the term of this Agreement, Counsel shall not represent any party whose interest is or may be adverse to or in conflict with, or whose interest may appear to be adverse to or in conflict with the County, nor shall it commence any action or proceeding, or act as Counsel in any action or proceeding that is adverse to the County or any County officer or employee, without the County's prior written consent.

10. Indemnification; Defense; Cooperation. (a) Counsel shall indemnify, defend and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities arising out of or in connection with performance under this Agreement by Counsel or a Counsel Agent, provided, however, that the Counsel shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) Counsel shall, upon the County's demand and at the County's direction, promptly and diligently defend, at Counsel's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which Counsel is responsible under this Section, and, further to Counsel's indemnification obligations, Counsel shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) Counsel shall, and shall cause Counsel Agents to, cooperate with the County in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of Counsel and/or a Counsel Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

11. Insurance. (a) Types and Amounts. Counsel shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per claim (iii) compensation insurance for the benefit of the Counsel's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by Counsel pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. Counsel shall be solely responsible for the payment of all deductibles to which such policies are subject. Counsel shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by Counsel under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the County. Not less than thirty (30) days prior to the date of any

expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, Counsel shall provide written notice to the County of the same and deliver to the County renewal or replacement certificates of insurance. Counsel shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of Counsel to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of Counsel to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

12. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

13. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to Counsel, (ii) for "Cause" by the County immediately upon the receipt by Counsel of written notice of termination, (iii) upon mutual written Agreement of the County and the Counsel, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By Counsel. This Agreement may be terminated by Counsel if performance becomes impracticable through no fault of the Counsel, where the impracticability relates to Counsel's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by Counsel delivering to the County Executive and the Presiding Officer of the Nassau County Legislature ("Presiding Officer"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that Counsel is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Counsel's right to terminate under this subsection. A copy of the notice given to the County Executive and Presiding Officer shall be given to the Chief Deputy County Executive ("CDCE") on the same day that notice is given to the County Executive and Presiding Officer.

(c) Counsel Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Counsel shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning Counsel's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

14. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained

in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the applicable provisions of the Code of Federal Regulations, 2 C.F.R. Part 200, as may be amended. Such Records shall at all times be available for audit and inspection by the Comptroller, the County, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

15. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief, Counsel shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the CDCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. Counsel shall send or deliver copies of the documents presented to the CDCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the CDCE. The complaint or necessary moving papers of Counsel shall allege that the above-described actions and inactions preceded Counsel's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

16. Work Performance Liability. The Counsel is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Counsel is using a Counsel Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Counsel Agent has been approved by the County.

17. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and *forum non conveniens*. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

18. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Presiding Officer at the address specified above for the Department, (ii) if to the CDCE, to the attention of the CDCE at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to Counsel, to the attention of the person who executed this Agreement on behalf of Counsel at the address specified above for Counsel, or in each case to such other persons or addresses as shall be designated by written notice.

19. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

20. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

21. Administrative Service Charge. Counsel agrees to pay the County an administrative service charge for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Numbers 201-2001, 128-2006, and 153-2018. The administrative service charge shall be due and payable to the County by The Contractor upon signing this Agreement in accordance with the following schedule:

| Value of Contract | Administrative Fee |
|---|---|
| (a) $0-$10,000 | $0 |
| (b) Over $10,000-$50,000 | $160 |
| (c) Over $50,000-$100,000 | $266 |
| (d) Over $100,000 | $533 |

22. Executory Clause. Notwithstanding any other provision of this Agreement:

(a) Approval and Execution. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all requisite County and other governmental approvals have been obtained, including, if required, approval by the County Legislature and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) Availability of Funds. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the

County from the state and/or federal governments.

(c) NIFA Approval. County contracts with a Maximum Amount equal to or greater than Fifty Thousand Dollars ($50,000.00) require the approval of the Nassau County Interim Finance Authority ("NIFA") during the control period declared by NIFA on January 26, 2011, with limited exceptions. NIFA also requires that when the aggregate of contracts issued to a particular vendor for the provision of similar services is equal to or greater than $50,000 in any 12-month period they be subject to NIFA approval even if each individual contract is less than $50,000. NIFA has advised the County that NIFA's approval is subject, among other things, to the following limitation: payment to Counsel under this Agreement for Services, including related expenses and disbursements, rendered prior to the later of (i) the date of NIFA approval or (ii) full execution of the Agreement (such date, the "Approval Date") shall not exceed the sum of Fifty Thousand Dollars ($50,000.00). Counsel therefore acknowledges that charges incurred over Fifty Thousand Dollars ($50,000.00) prior to the Approval Date shall not be approved by NIFA, and shall not be paid by the County, unless NIFA makes an exception to its policy. Accordingly, to mitigate against exposure, Counsel shall provide the following notice to the County:

(A) If Counsel anticipates incurring costs in excess of Fifty Thousand Dollars ($50,000.00) prior to the Approval Date, Counsel shall provide written notice to the County at least Forty-five (45) days prior to the date on which Counsel anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap.

(B) If Counsel has reached or anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap prior to the Approval Date, and in less than Forty-five (45) days, Counsel shall provide the County with immediate written notice.

Upon receipt of such notice, the County will review and advise Counsel of the County's intended course of action, which, in appropriate cases as determined by the County, may include seeking a waiver from NIFA.

23. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

## Appendix EE
## Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan and any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed a failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful,

the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blueprints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

# Contract Summary

**Purpose:** This is a new contract with Goldberg Segalla LLP ("Counsel"), the special counsel firm selected to represent the County in the matter known as New York State Rifle & Pistol Association, Inc., et al., v. Steven G. James, in his official capacity as Acting Superintendent of the New York State Police, et. al., Docket No. 1:22-cv-00907 (MAD/PJE).

**Procurement History:** In April 2018, 2019, and 2022, the County Attorney's Office conducted a formal Request for Qualifications ("RFQ") to identify eligible, experienced legal counsel for a broad array of legal areas, and a panel of firms ("Panel" or "Special Counsel Panel") qualified to provide legal services for the County has been established. Counsel has been added to this Panel.
In a streamlined mini-bid solicitation issued March 5, 2026, a total of forty-five (45) law firms qualified in the area of Municipal Defense were solicited from the Special Counsel Panel. Three (3) firms responded. After reviewing several factors, the committee found that Counsel possessed a satisfactory reputation in state and federal courts handling appeals cases for municipalities. Based on the committee's analysis, Counsel's proposal was deemed fit for working on the above referenced matter.

**Description of General Provisions:** Services under this Agreement shall include, but not be limited to, motion practice;

depositions and investigations; discovery; trial; appeals; settlement negotiations; and such other Services as may be required to fully represent the County.

**Impact on Funding / Price Analysis:** The maximum amount of this contract will be $132,750. The partial encumbrance will be $66,375.

**Change in Contract from Prior Procurement:** This is a new contract.

**Method of Source Selection:**

(2) Any appearances before the County Legislature, or any committee thereof for the purpose of the approval of this Agreement or any amendment thereto, are to be construed as part of the fee negotiation and approval process and Counsel agrees that no fee will be charged for any such

appearances.

(3) Partial Encumbrance. (a) Counsel acknowledges that County will partially encumber funds to be applied towards the Maximum Amount throughout the term of this Agreement. Counsel further acknowledges that the initial encumbrance shall be Sixty-Six Thousand Three Hundred Seventy-Five Dollars ($66,375.00). Thereafter, the Department shall notify Counsel of the availability of additional monies, which written notice shall include the amount encumbered. Such notification shall serve as notice to proceed.

(b) Vouchers; Voucher Review, Approval and Audit. Payment shall be made to Counsel in arrears and shall be contingent upon (i) Counsel submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) is accompanied by a contemporaneous record of hours billed stating the person(s) performing the Services and indicating with reasonable specificity, the Services provided and the payment requested in consideration for such Services, or contains a detailed, itemized list of allowable expenses; (b) certifies that the Services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, and upon (ii) review, approval and audit of the Voucher by the County and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

(d) Expenses and Disbursement. Counsel shall be compensated within the Maximum Amount for all reasonable expenses and disbursements actually incurred, including but not limited to out-of-pocket disbursements for investigators, trial preparation services, court reporting services, interpreters, and other legitimate expenses in accordance with the Guidelines. Counsel shall obtain prior written approval from the County Attorney or his designee for all non-routine expenses and disbursements as specified in the Guidelines.

(e) No Duplication of Payments. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between Counsel and any funding source including the County.

Unless a provision of this Agreement expressly states otherwise, payments to Counsel following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after Counsel received notice that the County did not desire to receive such services.

4. Independent Contractor. Counsel is an independent contractor of the County. Counsel shall not, nor shall any officer, director, employee, servant, agent, or independent contractor of Counsel (a "Counsel Agent"), be (i) deemed a County employee, (ii) commit the County to any obligation, or (iii) hold itself, himself, or herself out as a County employee or Person with the authority to commit the County to any obligation. As used in this Agreement the word "Person" means any individual person, entity (including partnerships, corporations, and limited liability companies), and government or political subdivision thereof (including agencies, bureaus, offices and departments thereof).

5. No Arrears or Default. Counsel is not in arrears to the County upon any debt or contract

and it is not in default as surety, contractor, or otherwise upon any obligation to the County, including any obligation to pay taxes to, or perform services for or on behalf of, the County.

6. Compliance with Law. (a) Generally. Counsel shall comply with any and all applicable Federal, State and local Laws, including, but not limited to those relating to conflicts of interest, human rights, a living wage, disclosure of information and vendor registration in connection with its performance under this Agreement. In furtherance of the foregoing, Counsel is bound by and shall comply with the terms of Appendix EE attached hereto and with the County's registration protocol. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.

(b) Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, Counsel agrees as follows:

(i) Counsel shall comply with the applicable requirements of the Living Wage Law, as amended.

(ii) Failure to comply with the Living Wage Law, as amended, may constitute a material breach of this Agreement, the occurrence of which shall be determined solely by the County. Counsel has the right to cure such breach within thirty days of receipt of notice of breach from the County. In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

(iii) It shall be a continuing obligation of Counsel to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

(c) Records Access. The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement remains the sole property of the County and shall be used and disclosed solely for the purpose of performance and administration of the contract or as required by law. Counsel acknowledges that Counsel Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify Counsel of such request prior to disclosure of the Information so that the Counsel may take such action as it deems appropriate.

(d) Prohibition of Gifts. In accordance with County Executive Order 2-2018, Counsel shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with Counsel on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling. Counsel shall include the

provisions of this subsection in each subcontract entered into under this Agreement.

(e) Disclosure of Conflicts of Interest. In accordance with County Executive Order 2-2018, Counsel has disclosed as part of its response to the County's Business History Form, or other disclosure form(s), any and all instances where Counsel employs any spouse, child, or parent of a County employee of the agency or department that contracted or procured the goods and/or services described under this Agreement. Counsel shall have a continuing obligation, as circumstances arise, to update this disclosure throughout the term of this Agreement.

(f) Vendor Code of Ethics. By executing this Agreement, the Contractor hereby certifies and covenants that:

(iv) The Contractor has been provided a copy of the Nassau County Vendor Code of Ethics issued on June 5, 2019, as may be amended from time to time (the "Vendor Code of Ethics"), and will comply with all of its provisions;

(v) All of the Contractor's Participating Employees, as such term is defined in the Vendor Code of Ethics (the "Participating Employees"), have been provided a copy of the Vendor Code of Ethics prior to their participation in the underlying procurement;

(vi) All Participating Employees have completed the acknowledgment required by the Vendor Code of Ethics;

(vii) The Contractor will retain all of the signed Participating Employee acknowledgements for the period it is required to retain other records pertinent to performance under this Agreement;

(viii) The Contractor will continue to distribute the Vendor Code of Ethics, obtain signed Participating Employee acknowledgments as new Participating Employees are added or changed during the term of this Agreement, and retain such signed acknowledgments for the period the Contractor is required to retain other records pertinent to performance under this Agreement; and

(ix) The Contractor has obtained the certifications required by the Vendor Code of Ethics from any subcontractors or other lower tier participants who have participated in procurements for work performed under this Agreement.

7. Ownership of Records. All County Information provided to Counsel by the County shall remain the property of the County. All reports, documents or information created by Counsel on behalf of the County shall be deemed the property of the County. Upon the County's request, completion of Services, or termination of this Agreement, all such County Information, reports, documents or information shall be returned to the County.

8. Service Standards. Regardless of whether required by Law: (a) Counsel shall, and shall cause Counsel Agents to, conduct his or her activities in connection with this Agreement so as not to endanger or harm any Person or property.

(b) Counsel shall deliver Services under this Agreement in a professional manner consistent with the best practices of the legal profession. Counsel shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Counsel Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

9. No Conflict Representation. During the term of this Agreement, Counsel shall not represent any party whose interest is or may be adverse to or in conflict with, or whose interest may

appear to be adverse to or in conflict with the County, nor shall it commence any action or proceeding, or act as Counsel in any action or proceeding that is adverse to the County or any County officer or employee, without the County's prior written consent.

10. Indemnification; Defense; Cooperation. (a) Counsel shall indemnify, defend and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities arising out of or in connection with performance under this Agreement by Counsel or a Counsel Agent, provided, however, that the Counsel shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) Counsel shall, upon the County's demand and at the County's direction, promptly and diligently defend, at Counsel's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which Counsel is responsible under this Section, and, further to Counsel's indemnification obligations, Counsel shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) Counsel shall, and shall cause Counsel Agents to, cooperate with the County in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of Counsel and/or a Counsel Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

11. Insurance. (a) Types and Amounts. Counsel shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per claim (iii) compensation insurance for the benefit of the Counsel's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by Counsel pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. Counsel shall be solely responsible for the payment of all deductibles to which such policies are subject. Counsel shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by Counsel under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the County. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, Counsel shall provide written notice to the County of the same and deliver to the County renewal or replacement certificates of insurance. Counsel shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The

failure of Counsel to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of Counsel to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

12. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

13. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to Counsel, (ii) for "Cause" by the County immediately upon the receipt by Counsel of written notice of termination, (iii) upon mutual written Agreement of the County and the Counsel, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By Counsel. This Agreement may be terminated by Counsel if performance becomes impracticable through no fault of the Counsel, where the impracticability relates to Counsel's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by Counsel delivering to the County Executive and the Presiding Officer of the Nassau County Legislature ("Presiding Officer"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that Counsel is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Counsel's right to terminate under this subsection. A copy of the notice given to the County Executive and Presiding Officer shall be given to the Chief Deputy County Executive ("CDCE") on the same day that notice is given to the County Executive and Presiding Officer.

(c) Counsel Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Counsel shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning Counsel's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

14. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the applicable provisions of the Code of Federal Regulations, 2 C.F.R. Part 200, as may be amended. Such Records shall at all times be available for audit and inspection by the Comptroller, the County, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of

their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

15. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief, Counsel shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the CDCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. Counsel shall send or deliver copies of the documents presented to the CDCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the CDCE. The complaint or necessary moving papers of Counsel shall allege that the above-described actions and inactions preceded Counsel's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

16. Work Performance Liability. The Counsel is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Counsel is using a Counsel Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Counsel Agent has been approved by the County.

17. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and *forum non conveniens*. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

18. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Presiding Officer at the address specified above for the Department, (ii) if to the CDCE, to the attention of the CDCE at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to Counsel, to the attention of the person who executed this Agreement on behalf of Counsel at the address specified above for Counsel, or in each case to such other persons or addresses as shall be designated by written notice.

19. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement

for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

20. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

21. Administrative Service Charge. Counsel agrees to pay the County an administrative service charge for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Numbers 201-2001, 128-2006, and 153-2018. The administrative service charge shall be due and payable to the County by The Contractor upon signing this Agreement in accordance with the following schedule:

| Value of Contract | Administrative Fee |
|---|---|
| (a) $0-$10,000 | $0 |
| (b) Over $10,000-$50,000 | $160 |
| (c) Over $50,000-$100,000 | $266 |
| (d) Over $100,000 | $533 |

22. Executory Clause. Notwithstanding any other provision of this Agreement:

(a) Approval and Execution. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person unless (i) all requisite County and other governmental approvals have been obtained, including, if required, approval by the County Legislature and (ii) this Agreement has been executed by the County Executive (as defined in this Agreement).

(b) Availability of Funds. The County shall have no liability under this Agreement (including any extension or other modification of this Agreement) to any Person beyond funds appropriated or otherwise lawfully available for this Agreement, and, if any portion of the funds for this Agreement are from the state and/or federal governments, then beyond funds available to the County from the state and/or federal governments.

(c) NIFA Approval. County contracts with a Maximum Amount equal to or greater than Fifty Thousand Dollars ($50,000.00) require the approval of the Nassau County Interim Finance Authority ("NIFA") during the control period declared by NIFA on January 26, 2011, with limited exceptions. NIFA also requires that when the aggregate of contracts issued to a particular vendor for

the provision of similar services is equal to or greater than $50,000 in any 12-month period they be subject to NIFA approval even if each individual contract is less than $50,000. NIFA has advised the County that NIFA's approval is subject, among other things, to the following limitation: payment to Counsel under this Agreement for Services, including related expenses and disbursements, rendered prior to the later of (i) the date of NIFA approval or (ii) full execution of the Agreement (such date, the "Approval Date") shall not exceed the sum of Fifty Thousand Dollars ($50,000.00). Counsel therefore acknowledges that charges incurred over Fifty Thousand Dollars ($50,000.00) prior to the Approval Date shall not be approved by NIFA, and shall not be paid by the County, unless NIFA makes an exception to its policy. Accordingly, to mitigate against exposure, Counsel shall provide the following notice to the County:

(A) If Counsel anticipates incurring costs in excess of Fifty Thousand Dollars ($50,000.00) prior to the Approval Date, Counsel shall provide written notice to the County at least Forty-five (45) days prior to the date on which Counsel anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap.

(B) If Counsel has reached or anticipates reaching the Fifty Thousand Dollar ($50,000.00) cap prior to the Approval Date, and in less than Forty-five (45) days, Counsel shall provide the County with immediate written notice.

Upon receipt of such notice, the County will review and advise Counsel of the County's intended course of action, which, in appropriate cases as determined by the County, may include seeking a waiver from NIFA.

23. Entire Agreement. This Agreement represents the full and entire understanding and agreement between the parties with regard to the subject matter hereof and supersedes all prior agreements (whether written or oral) of the parties relating to the subject matter of this Agreement.

## Appendix EE
## Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan and any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed a failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful,

the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand

dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blueprints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

RE: Adverse Information Memo for Goldberg Segalla LLP

An online search found a news article that mentions Goldberg Segalla LLP (the "Firm") was sanctioned nearly $60,000 after an attorney had used ChatGPT (against Firm policy) for an Illinois court case filing dated June 18, 2025.

Following an investigation by the firm, the attorney was terminated and reported to the attorney disciplinary board in Illinois. In addition, the firm's policies and training on AI use have been updated, and management reinforced with staff that AI use for legal research will not be tolerated.

Because the Firm took decisive corrective action, the County Attorney's Office is comfortable continuing to engage Goldberg Segalla LLP.

# Attorney and law firm for CHA sanctioned nearly $60,000 for using ChatGPT in court case

The law firm Goldberg Segalla was defending the Chicago Housing Authority in a 2022 lawsuit that accused the agency of sickening two children with lead poisoning at a Rogers Park apartment building.

A lawyer hired by the Chicago Housing Authority revealed this summer that she used ChatGPT and failed to check her work, when defending the housing authority in a lawsuit involving the poisoning of two children by lead paint.

Now, her former law firm and the lawyer who signed off on the legal motion that cited a fake court case are being sanctioned.

Cook County Circuit Judge Thomas Cushing sanctioned Larry Mason and his law firm Goldberg Segalla on Friday, Mason for $10,000 and the firm $49,500, for improper use of artificial intelligence and false misrepresentations to the court.

The CHA and the lawyer who improperly used AI, Danielle Malaty, weren't penalized for the error.

It is the inexcusable submission of false authority and factual arguments to the court, the subsequent misrepresentations about the extent of the improper conduct, and the failure to take prompt responsibility for errors once discovered," Cushing wrote. "The obligations on officers of the court at issue here

precede by centuries the age of electronic research and artificial intelligence."

Mason didn't respond to a request for comment. Malaty's attorney, Daniel Meyer, didn't respond to a request for comment.

A jury decided in January that the agency was responsible for the lead poisoning of two children. The CHA was ordered to pay more than $24 million, including past and future damages, to the two residents who sued on behalf of their children.

On Friday, the judge granted the plaintiffs an additional $8 million for attorney's fees, bringing the total owed by the CHA to $32.2 million, court records show. The CHA didn't respond to a request for comment on how it will pay the plaintiffs.

The judge also threw out the CHA's post-trial motion, which sought a verdict in its favor, a new trial on liability or a new trial on damages or to lower the verdict, court records show.

The CHA is "reviewing the court's opinion and evaluating our options going forward," Matthew Aguilar, a CHA spokesperson, said in an emailed statement.

"The Chicago Housing Authority remains aware of the serious and lasting effects lead exposure can have on a child's life and we are committed to transparency and action as we work to provide safe, healthy homes for every resident," he said.

In the past two decades, the CHA's redevelopment and renovation efforts have included "extensive modernization work aimed at addressing historical lead hazards," Aguilar said.

As of November, the CHA said it had abated lead hazards inside 66 units and performed additional lead abatement work in common spaces of buildings to benefit a total of 116 units.

## 'Regrettable situation'

At an October hearing regarding the sanctions, an attorney representing Goldberg Segella called the briefing issue "a regrettable situation" and apologized on behalf of his clients to the court and others involved. He argued, along with the Malaty's attorney, that sanctions shouldn't be issued. Malaty was not present at the October hearing.

Goldberg Segalla first apologized for the error in a June 18 court filing, calling it a "serious lapse in professionalism."

"An exhaustive investigation revealed that one attorney, in direct violation of Goldberg Segalla's AI use policy, used AI technology and failed to verify the AI citation before including the case and surrounding sentence describing its fictitious holding," Mason said in the filing.

Mason, lead counsel in the lead paint case, said "several contributors" supported him while preparing the motion. He also said the investigation found "no intent to deceive the Court" and no other attorneys at the firm were aware of the improper citation.

Goldberg Segalla has since implemented "firm-wide measures to re-educate its attorneys" on its AI use policy, the June filing said, and "established preventative measures."

The CHA's Chief Legal Officer Elizabeth Silas sent Mason a letter in July thanking him for bringing the AI issue to the agency's attention and for apologizing for the error, the Chicago Tribune reported in July.

The CHA, the third-largest public housing authority in the country, serves more than

65,000 households and is the largest single owner of rental housing in the city with more than 21,000 housing units.

At a July special hearing, called by the court to hear more about the AI error, Malaty told the judge she didn't think ChatGPT could create fictitious legal citations and didn't check to ensure the motion was accurate. Three other Goldberg Segalla attorneys then reviewed the draft motion — including Mason, who served as the final reviewer — as well as the CHA's in-house counsel, before it was filed with the court.

"I find all of this very unfortunate," Malaty said in the hearing. "At no point did I have any intent to deceive the court."

Mason told the judge in July that because of his repeated losses when arguing before the court during the January trial, he was "very hands off" with the post-trial motion because the case "needed a fresh perspective away from me." He said he wasn't expected to check the 58 cases cited in the motion and is "personally disgusted" and "embarrassed" by what happened, calling the mistake "horrific."

Matthew Sims, an attorney for the plaintiffs, said in a written statement Monday: "We are not surprised that the Court affirmed the jury's verdicts in this case. In the end, justice has been served. We are, however, disappointed that the CHA and its legal team went to such great lengths to try and take away that jury's justice."

Goldberg Segalla has billed the CHA more than $1.1 million for legal services between March 2024 and July 2025, according to records obtained through a public records request. The housing authority previ

poisoning" while living at 7715 N. Marshfield Ave. The Rogers Park property is owned by the CHA.

The lawsuit said the agency knew the property had lead-based paint since 1992 and

faced city code violations in the early 2000s because of the hazard.

Environmental Design had conducted an inspection for lead-based paint in 2017, on behalf of the housing authority, and found lead-based paint, the suit said. Environmental Design settled with the plaintiffs prior to the trial.

Habitat and East Lake Management, who had managed the CHA-owned property, were found not liable for the children's injuries. The companies settled with the plaintiffs in 2025 for much smaller amounts, $200,000 and $400,000, respectively.

Habitat then sued the CHA and two of its attorneys in February for an alleged breach of contract and legal malpractice over the agency's handling of the lead poisoning lawsuit. A few months prior to the January ruling, Habitat had terminated all of its management agreements with the housing authority, covering 16 buildings and approximately 3,400 units of public housing.

This wasn't the first time the CHA approved housing for residents who were later diagnosed with lead poisoning. Dozens of children were found to have been poisoned by brain-damaging lead while living in homes and apartments declared safe by the housing authority, a 2017 Chicago Tribune investigation found.

**DATE:** **May 20, 2026**

**SUBJECT:** **Delay Memo – Goldberg Segalla LLP**

The purpose of this memorandum is to explain the delay in processing of a new contract between the County and Goldberg Segalla LLP ("Counsel"), the special counsel firm selected via a mini-bid process to represent the County in *New York State Rifle & Pistol Association, Inc., et. al., v Steven G. James, in his official capacity as Acting Superintendent of the New York State Police, et. al.,* Docket No. 1:22-cv-00907 (MAD/PJE), a section 1983 action filed in the Northern District of New York.

The contract commencement date is March 23, 2026. The COO completed his principal questionnaire on April 23, 2026. There was an unexpected delay waiting for the updated professional liability policy, which we received on this date. Upon confirming that all required documents were complete and the certificates of insurance were uploaded, we began assembling the contract package for the requisite County review and approvals.

I trust this sufficiently explains the reason for the delay, however, do not hesitate to contact me if you have any questions.

Pursuant to Executive Order No. 1 of 1993 as amended at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received along with the cost of each proposal.

Following is a detailed explanation of why other than the lowest cost proposal offered best value to the County:

LiRo, NV5, LKB, M&J and LKMA were the top five technical scored firms, and their scores are 91.33, 89.00, 88.67, 88.33 and 87.67 respectively. All these above five firms received technical scores within two points each other. The TRC decided to open cost proposals from the top five (5) technical scored firms, and their proposed are $1,966,169.20, $2,090,975.00, $1,841,470.00, $1,914,000.00, and $2,201,972.00 respectively. LKB's proposed cost is the lowest but during the TRC meeting find out that proposed RE is no longer available for this project. Since LiRo's score is the highest technical score out of the five firms and three-point higher M&J, TRC decided to recommend LiRo to perform CMI services for this project. Also, LiRo's proposed team is deemed best qualified to perform the scope of this work based on their qualifications, certifications and previous experience.

**Rule:**

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

A. The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

B. At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

C. The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

D. The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

E. The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

F. Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.

G. Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

H. At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

I. In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

J. Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

K. A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

L. The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

i) Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

ii) If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

iii) Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

M. The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

Responsibility Determination Memo

## DPW Summary Finding

It is the Department's opinion that based on the information known to the Department and summarized in this memorandum, that the vendor is a responsible contractor for the purpose of being awarded the above-referenced contract.

## NYS Standard for State and Municipal Contract Approval

Prior to the award of a contract, New York State agencies and political subdivisions, are required to make a determination of responsibility of the proposed vendor. State Finance Law §163 (9) (f); Highway Law §38; Public Building Law §8; General Municipal Law §103. General Municipal Law §103 requires the County to award contracts to a "responsible bidder" but does not define that term. However, the State Finance Law, which is the analogous law for contracting by New York State agencies, defines responsible as: "financial ability, legal capacity, integrity and past performance of a business entity and as such terms have been interpreted relative to public procurements." NY CLS St. Fin §163 (1) (c). This standard is equivalent to the standard applied to procurements pursuant to NYGML §103. *Matter of AAA Caring & Rubbish Removal, Inc. v. Town of Southeast* 17 N.Y. 3d 136 (2011)

The NY State Office of General Services employees the FLIP analysis -financial ability, legal capacity, integrity and past performance – to meet its obligation to make a responsibility determination.

## Application of the FLIP test

As explained in this memorandum, the FLIP test, can be used to evaluate a vendor's responsibility.

1. Financial and Organizational Capacity
   The Department has reviewed materials supplied by vendor as required by the bid documents and is satisfied that the vendor has met the financial and organizational capacity as required by the bid documents.

2. Legal Authority
   Vendor is not debarred. Vendor possesses requisite licenses.

3. Integrity
   Vendor possesses requisite business integrity-analysis of vendor information described in later portion of this memorandum.

4. Past Performance
   Based upon the vendor's prior performance on County contracts, as well as a check of vendor's reference, vendor is qualified to perform the work for the above-referenced contract.

## Nassau County Procurement Policy Requirements

Similarly, the Nassau County Procurement Policy states that, "a vendor is deemed responsible to be awarded a contract when it has demonstrated that it has the integrity and capacity to perform the required services on behalf of the County." Nassau County Procurement Policy at Appendix E. Appendix E goes on to state that factors to consider in determining the responsibility of a vendor include: financial resources, organizational capacity, a satisfactory record of performance and a satisfactory record of business integrity - an analysis identical to the FLIP test.

For purposes of its consideration of responsibility, the County requires potential vendors to submit vendor disclosure forms. Those forms are used by the Department as a tool when conducting a vendor responsibility review with the intent of determining "if there exists any material adverse information impacting the vendor's capacity or integrity." Quoting Appendix E.

The following is quoted from Appendix E:

> For adverse information to be considered a factor in a vendor responsibility review, the information must be found to be material. Not all adverse information may be material. Materiality is greater for more recent events than for less recent ones, and materiality is greater for events concerning services more closely related to those required by the County than services that are less so. An event is considered most material when it concerns services equivalent or similar to those required by the County, has occurred recently, occurred in close geographic proximity to the County, and involves one or more individuals or organizational departments that may be involved in the conduct of the County contract. Also relevant in this assessment is whether the event involves a relatively large or small amount of money, services or product; whether the event involves a threat to life, health, safety, or property, whether criminality or possible criminality is involved; and the quantity of adverse information. In addition, any adverse information discovered by a department, which should have been, but was not disclosed by the vendor on the appropriate disclosure

form(s) may be considered material.

Examples of adverse information that may not be considered material include adverse social media posts or poor reviews of a company posted on the internet. In addition, adverse information that occurred and/or was resolved more than five years ago generally is not considered material, although once such information has been identified the department conducting the review should investigate whether any similar subsequent event(s) occurred that may be subject to further analysis or suggesting a concern regarding the vendor's corporate culture.

A finding of nonresponsibility has significant implications for the vendor, since subsequent to that determination the vendor must disclose it in future solicitation responses to public entities. Therefore, the finding must be based upon evidence of a sufficiently severe failure of capacity and/or integrity on the part of the vendor. Any adverse information which is not deemed to be sufficient for a finding of nonresponsibility must be demonstrated by the vendor to have been addressed sufficiently through implementation of corrective actions and/or plans to ensure that the adverse event(s) shall not impact or recur during the conduct of the County contract under consideration. Corrective actions that may be considered in this regard include, but are not limited to, termination of the employee(s) involved, introduction of new policies and procedures, employee trainings, reorganization of the vendor's structure, introduction of new internal or external monitors, payment of all fines, satisfactory resolution of the matter by the investigating entity, etc.

## Application of the Materiality Evaluation to Determine Vendor Integrity

As described in this memorandum, the Nassau County Procurement Policy at Appendix E identifies factors that should be considered when determining if the adverse information available about a vendor rises to level of materiality (vendor responsibility determination is dependent upon material information).

## Adverse Information Review

Vendor reports an OSHA violation by a nonperforming affiliate in 2021 resulting from a fall by an employee from an unprotected elevated work site. Vendor reports the corrective measures it has taken on subsequent jobsites to prevent a reoccurrence of the conditions that lead to the OSHA violation. Vendor reports multiple New York City administrative citations issued to a nonperforming affiliate related to violations of New York City air and noise codes. Vendor reports that a nonperforming affiliate was delinquent in filing commercial rent tax returns related to its lower Manhattan office space for the years 2012-2020. Vendors reports that the affiliate has hired a new account and has provided proof the County that it has filed the returns and paid the taxes plus interest.

The pending Vendor contract with the County is for traffic signal construction management services. Accordingly, the type of construction work that gave rise to the OSHA violations and the New York City code citations is not the type of work that will be performed for the County, so similar violations cannot occur while performing County contract work. The NYC rent tax payment delinquencies have been corrected. The Department has concluded that the vendor is a responsible vendor for the performance of the scope of work in Contract H61587-74CM.

Violation No. #051009299M

Determination: LiRo agreed to pay a stipulated penalty of $1,500.00 for violation of 15RCNY1-42(d).

Circumstances: On March 26, 2024, LiRo Engineers, Inc. was cited by the New York City Department of Environmental Protection (NYCDEP) for the violation of 15RCNY1-42(d), for failure to maintain the air sampling schedule for air monitoring work at 70-20 Parsons Boulevard, Queens, NY 11365. The NYCDEP Inspector found that the air monitoring equipment was not turned on at the time of inspection, which does not comply with the legal requirement that the air monitoring equipment be functioning properly when in use. A hearing was held on June 24, 2025, and given the nature of the violation, a stipulated penalty was agreed to by the parties. This matter is now closed.

Agency: New York City Department of Environmental Protection

Violation No. #051011028N

Determination: LiRo agreed to pay a stipulated penalty of $1,000.00 for violation of 15RCNY1-42(a).

Circumstances:

On August 8, 2025, LiRo Engineers, Inc. was cited by the New York City Department of Environmental Protection (NYCDEP) for the violation of 15RCNY1-42(a), for failure to maintain BX2F air samplers not places less than 4 feet from the ground at 300 Bushwick Avenue, Brooklyn, NY 11206. The NYCDEP Inspector found that the air monitoring equipment was on the floor at the time of inspection, which does not comply with the legal requirement that the air monitoring equipment be maintained at least 4 feet from the ground. A hearing was held on January 27, 2026, and given the nature of the violation, a stipulated penalty was agreed to by the parties. This matter is now closed.

OSHA Violation

U.S. Department of Labor – Occupational Safety and Health Administration (OSHA)

On September 15, 2021, LiRo Engineers, Inc. (LiRo) was cited by the U.S. Department of Labor – Occupational Safety and Health Administration (OSHA) for violating OSHA statute section 1926.501(b)(1) for failing to provide fall protection. On March 16, 2021, work was being performed by a hazmat abatement contractor at a project at Pier 76 in Manhattan, where LiRo was providing third-party environmental monitoring. It is alleged that LiRo failed to provide protection on the sides and edges of a walking surface in accordance with the OSHA statute. LiRo stated that there was no opportunity for LiRo to provide the fall protection prior to the incident and that it was the responsibility of the abatement contractor to provide such protection. Based on these facts, OSHA agreed to decrease the violation from "Serious" to "Other-than-Serious". LiRo and OSHA have entered into a settlement agreement reflecting the revised violation status and LiRo agreed to pay a penalty of $13,653.00. As part of this settlement, LiRo's Standard Corporate Health and Safety Program has been revised, and LiRo's personnel have been trained accordingly to ensure that workplace incidents will not happen in the future. This matter is now closed.

Summary of Regulatory Incidents

In over thirty (30) year in business, LiRo Engineers, Inc. and its family of companies (collectively, "LiRo") has undertaken literally thousands of complex and challenging construction, engineering, architectural design and environmental testing and consulting service projects in New York City, New York State, New England and the surrounding areas.

While we continuously strive for excellence on all of our projects, over the years LiRo's environmental group has received violations for certain non-compliance with environmental testing regulations. Our environmental testing group, which is separate and distinct from our civil/structural design and MEP groups, conducts thousands of air monitoring assessments annually. Despite the testing volume, we strive to eliminate even the smallest administrative infractions. It should be noted that a large majority of the violations involved administrative deficiencies. The health and safety of our employees and other workers at these sites was not impacted. Regardless, we consider these violations to be a serious matter, and we have taken numerous steps to eliminate or, at a minimum, mitigate the occurrence of these violations. Our efforts have been successful as the number of issued violations has decreased from nine (9) in 2023, six (6) in 2024 and one (1) in 2025.

For example, all technical staff hires receive classroom training as required for certification and we supplement this with hands-on training where inspectors are coupled with experienced technicians to become more familiar with the practical applications of code enforcement, as well observe firsthand, abatement/remediation contractor means and methods.

As a further business practice, we hold all-hands staff meetings where management reviews our written internal operations standards, safety protocols, changes to applicable regulations and "lessons-learned" from unique project events. Our Project Managers follow up by making site inspections that we record as part of our business unit/corporate quality control efforts. In recognition of the fact that, for identical projects, the different code compliance agencies have different requirements, to safeguard against misinterpretation or confusion, we provide our field staff with a summary of inspection and air sampling protocols that reflect the specific federal, state, or local regulations that govern each project.

Each of the foregoing activities is intended to educate and train our staff to mitigate the chance of administrative violations and ensure proper performance of environmental testing services. LiRo has a no tolerance policy regarding code non-compliance and any employee found to have violated these code requirements is subject to severe disciplinary action, including suspension without pay and termination.

We evaluate our process and training requirements on a regular basis, and we look for every opportunity to improve our performance and eliminate such violations in the future.

As stated above, our efforts to severely mitigate testing violations have been successful and our commitment to this effect will continue into the balance of this year and beyond.

**Subject:** Resolution of LiRo Delinquent Tax Payments

All, the purpose of this email is to provide status of this issue and related relevant information.

On July 30, 3030, LiRo Engineers Inc.,(LiRo) mailed via USPS our delinquent Commercial Rent Tax filings along with the required payments for the period 2012 to present to the NYC Department of Finance (DOF).

Numerous inquiries via Email and phone were made to the DOF to obtain acknowledgement of receipt of LiRo's tax return and payments on the dates noted below:

1.Voice mails were left on general mailbox at the DOF office on August 3rd through August 5th:
2.Email inquiry were sent via the DOF website on August 3rd through August 6th.

In addition, on July 30, 2020, LiRo notified senior staff at DDC to inform them that the tax filings and required payments had been made, as well as our efforts to contact DOF tax clearance in an attempt to promptly resolve the Pass Port non-compliance status. LiRo also contacted MOCS on August 4th in a further attempt to expedite resolution. Our request was referred to the help center at MOCS, but we have not heard from them as of today. A follow up request was sent today as well.

Furthermore, numerous emails were sent to Ranjitsinh Vaghela from DOF Tax Clearance on July 30th through August 3rd requesting assistance in obtaining acknowledgment of LiRo's taxes, payments and Tax Clearance approval on LiRo's Passport account. Via subsequent email correspondence, we were advised by Ranjitsinh that it takes two weeks for them to process both the tax filing and payment and that nothing more can be done until the processing was complete. We were advised to check back in 2 weeks with regards to DOF Tax Clearance approval on our Passport account. We were also advised that any associated penalties would be assessed by DOF at a later date. Subsequently, on August 4th, LiRo emailed Anthony Salta from DOF Tax Clearance requesting additional assistance in obtaining acknowledgment of LiRo's tax payments and Tax Clearance approval of LiRo's Passport account status as well. He has not responded to our request. **We have confirmed today, that all required tax and interest checks (9 checks in total) for all delinquent years cleared payment on August 3rd (copies of the cleared checks are attached).**

At this time, we have provided all necessary information and payments necessary to resolve this issue. Any assistance you can provide to finalize this issue with the DOF Tax Clearance department would be greatly appreciated.

Please contact me at 516-408-8199 if there are any questions. Thank you

* Proposed Fee is based on hourly rates for a Resident Engineer, Office Engineer, and two inspectors' times a multiplier plus $50,000.00 for reimbursable for extra engineering services for the anticipated project duration.

LiRo, NV5, LKB, M&J and LKMA were the top five technical scored firms, and their scores are 91.33, 89.00, 88.67, 88.33 and 87.67 respectively. All these above five firms received technical scores within two points each other. The TRC decided to open cost proposals from the top five (5) technical scored firms, and their proposed are $1,966,169.20, $2,090,975.00, $1,841,470.00, 1,914,000.00, and $2,201,972.00 respectively. LKB's proposed cost is the lowest but during the TRC meeting find out that proposed RE is no longer available for this project. Since LiRo's score is the highest technical score out of the five firms and three point higher M&J, TRC decided to recommend LiRo to perform CMI services for this project. Also, LiRo's proposed team is deemed best qualified to perform the scope of this work based on their qualifications, certifications and previous experience.

It is the Department's recommendation that LiRo be retained for this contract. Funding for these professional services is available under Capital Project 61587.

Responsibility Determination Memo

## DPW Summary Finding

It is the Department's opinion that based on the information known to the Department and summarized in this memorandum, that the vendor is a responsible contractor for the purpose of being awarded the above-referenced contract.

## NYS Standard for State and Municipal Contract Approval

Prior to the award of a contract, New York State agencies and political subdivisions, are required to make a determination of responsibility of the proposed vendor. State Finance Law §163 (9) (f); Highway Law §38; Public Building Law §8; General Municipal Law §103. General Municipal Law §103 requires the County to award contracts to a "responsible bidder" but does not define that term. However, the State Finance Law, which is the analogous law for contracting by New York State agencies, defines responsible as: "financial ability, legal capacity, integrity and past performance of a business entity and as such terms have been interpreted relative to public procurements." NY CLS St. Fin §163 (1) (c). This standard is equivalent to the standard applied to procurements pursuant to NYGML §103. *Matter of AAA Caring & Rubbish Removal, Inc. v. Town of Southeast* 17 N.Y. 3d 136 (2011)

The NY State Office of General Services employees the FLIP analysis -financial ability, legal capacity, integrity and past performance – to meet its obligation to make a responsibility determination.

## Application of the FLIP test

As explained in this memorandum, the FLIP test, can be used to evaluate a vendor's responsibility.

1. Financial and Organizational Capacity
   The Department has reviewed materials supplied by vendor as required by the bid documents and is satisfied that the vendor has met the financial and organizational capacity as required by the bid documents.

2. Legal Authority
   Vendor is not debarred. Vendor possesses requisite licenses.

3. Integrity
   Vendor possesses requisite business integrity-analysis of vendor information described in later portion of this memorandum.

4. Past Performance
   Based upon the vendor's prior performance on County contracts, as well as a check of vendor's reference, vendor is qualified to perform the work for the above-referenced contract.

Nassau County Procurement Policy Requirements

Similarly, the Nassau County Procurement Policy states that, "a vendor is deemed responsible to be awarded a contract when it has demonstrated that it has the integrity and capacity to perform the required services on behalf of the County." Nassau County Procurement Policy at Appendix E. Appendix E goes on to state that factors to consider in determining the responsibility of a vendor include: financial resources, organizational capacity, a satisfactory record of performance and a satisfactory record of business integrity - an analysis identical to the FLIP test.

For purposes of its consideration of responsibility, the County requires potential vendors to submit vendor disclosure forms. Those forms are used by the Department as a tool when conducting a vendor responsibility review with the intent of determining "if there exists any material adverse information impacting the vendor's capacity or integrity." Quoting Appendix E.

The following is quoted from Appendix E:

> For adverse information to be considered a factor in a vendor responsibility review, the information must be found to be material. Not all adverse information may be material. Materiality is greater for more recent events than for less recent ones, and materiality is greater for events concerning services more closely related to those required by the County than services that are less so. An event is considered most material when it concerns services equivalent or similar to those required by the County, has occurred recently, occurred in close geographic proximity to the County, and involves one or more individuals or organizational departments that may be involved in the conduct of the County contract. Also relevant in this assessment is whether the event involves a relatively large or small amount of money, services or product; whether the event involves a threat to life, health, safety, or property, whether criminality or possible criminality is involved; and the quantity of adverse information. In addition, any adverse information discovered by a department, which should have been, but was not disclosed by the vendor on the appropriate disclosure form(s) may be considered material.
>
> Examples of adverse information that may not be considered material include adverse social media posts or poor reviews of a company posted on the internet. In addition, adverse information that occurred and/or was resolved more than five years ago generally is not

considered material, although once such information has been identified the department conducting the review should investigate whether any similar subsequent event(s) occurred that may be subject to further analysis or suggesting a concern regarding the vendor's corporate culture.

A finding of nonresponsibility has significant implications for the vendor, since subsequent to that determination the vendor must disclose it in future solicitation responses to public entities. Therefore, the finding must be based upon evidence of a sufficiently severe failure of capacity and/or integrity on the part of the vendor. Any adverse information which is not deemed to be sufficient for a finding of nonresponsibility must be demonstrated by the vendor to have been addressed sufficiently through implementation of corrective actions and/or plans to ensure that the adverse event(s) shall not impact or recur during the conduct of the County contract under consideration. Corrective actions that may be considered in this regard include, but are not limited to, termination of the employee(s) involved, introduction of new policies and procedures, employee trainings, reorganization of the vendor's structure, introduction of new internal or external monitors, payment of all fines, satisfactory resolution of the matter by the investigating entity, etc.

## Application of the Materiality Evaluation to Determine Vendor Integrity

As described in this memorandum, the Nassau County Procurement Policy at Appendix E identifies factors that should be considered when determining if the adverse information available about a vendor rises to level of materiality (vendor responsibility determination is dependent upon material information).

## Adverse Information Review

On its disclosure forms, the Vendor reports numerous US Occupational, Safety and Health Administration (OSHA) inspections, along with a few OSHA violations for work by its construction affiliates. The number of violations is not large for an entity of the Vendor's size, nor were any of the violations characterized by OSHA as willful or serious.
Vendor reports that the New York State Department of Labor (NYSDOL) elected not to prosecute an AECOM affiliate after issuing a notice of violation involving asbestos abatement work. Additionally, Vendor is contesting a NYSDOL notice of violation for structures under a site-specific variance.

Vendor, along with Central Hudson Gas & Electric and Weeks Marine Inc, jointly settled a notice of violation issued by the New York State Department of Environmental Conservation (NYSDEC) due to an oil sheen escaping a containment boom at a remedial project on the Hudson River bank. Additionally, Vendor is contesting a violation notice issued by NYSDEC for alleged tidal wetland permit violations on another project.
Vendor paid a penalty $2,586 to the New York State department of Transportation for blocking sidewalks with construction barriers during a remedial project without a permit.

Vendor also reports that the US Dept. of Justice (USDOJ) intervened in a whistle blower lawsuit against AECOM related to work it did for the Federal Emergency Management Agency (FEMA) after Hurricane Katrina. The complaint is for actions that took place from 2009-2011. The employee that was the primary focus of the complaint was terminated in 2010. The settlement agreement requires the Vendor to pay $5,900,000 in restitution - $2,478,000 of that amount is paid Robert Romero; the relator that initiated the qui tam action. The settlement agreement also states that there was no admission of liability by Vendor and contains an express denial by Vendor of wrongdoing or violation of the False Claims Act. Vendor reports that FEMA has continued to award it contracts.

Vendor reports that a company known as Amentum has settled actions with the US Dept of Labor and the USDOJ. Vendor is reporting these settlements because Amentum is a company made up of a former AECOM business group known as Management Services (MS) and the conduct that was addressed by the settlements occurred while Management Services was part of AECOM. Both settlements occurred after MS separated from AECOM and became Amentum in 2020. AECOM was not involved in the settlements and paid no fine or other monies to the US government or any other person or entity as part of the Amentum settlements.

AECOM principles report on their Principal Questionnaires (PQ) that AECOM parent company, ATS, received notices from the Cities of Milwaukee and Sarasota that its contracts with those Cities had been terminated for cause. In both instances, ATS was successfully in reversing the termination for cause decisions. Additionally, AECOM is challenging a notice of termination for cause by Atlantic City Electric. On their PQs, Vendor Principals report that in March 2019, ATS entered into a Settlement Agreement with the City of Philadelphia relating to failing to disclose campaign contributions. The contributions did not exceed the City's campaign finance limits and AECOM continues to work for the City under existing contracts.

Applying the law and County Procurement Policy guidance to the facts reported in this memorandum, the Department has concluded that Vendor is a responsible vendor for the performance of the scope of work for B90400-01CMC On-Call Construction Management Amendment No. 1.

## Investigations/Investigative Demands

### AECOM USA, Inc. – Vendor/Reporting Entity

1. Investigation – United States Department of Justice. On June 3, 2020, a whistleblower qui tam suit against AECOM, related to AECOM's work for FEMA after Hurricane Katrina, was unsealed, and DOJ filed a notice indicating their intent to intervene in the case under the False Claims Act. DOJ filed their complaint against AECOM alleging violations of the False Claims Act on July 28, 2020. The allegations in the complaint primarily focus on the conduct of one AECOM employee who was terminated by AECOM in 2010 and focus on conduct largely, although not exclusively, between 2009 and 2011. In October 2023, the matter between AECOM and the DOJ regarding FEMA Katrina recovery work has been settled on very favorable terms for AECOM. To avoid the distraction and expense of a trial litigating events that occurred over 15 years ago, AECOM has agreed to pay DOJ a small fraction of the damages they claimed they could prove at trial and the settlement comes with an express denial of any wrongdoing or any violation of the False Claims Act. Like FEMA and the Louisiana Department of Education, throughout this case AECOM has maintained that there was no overpayment to New Orleans schools and the money funded by FEMA to New Orleans schools was well deserved. The current resolution is entirely consistent with this position. FEMA has continued to trust AECOM with critical disaster recovery missions awarding the firm numerous significant contracts, including the $300M Risk Mapping, Assessment and Planning Program. Please contact Howard Cohen, Vice President, Assistant General Counsel, Ethics & Compliance, howard.cohen@aecom.com, for additional details or questions.

### AECOM Technical Services, Inc. – Parent Entity to AECOM USA, Inc.

1. CID - In September of 2023, AECOM received a Civil Investigative Demand (CID) from the Department of Justice requesting documents, responses to interrogatories, and testimony related to AECOM's work at the Red Hill Bulk Fuel Storage Facility in Honolulu, HI. The CID stated that DOJ is conducting an investigation into violations of the False Claims Act. After conducting an investigation, DOJ closed the investigation against AECOM without any claim against AECOM and declined to intervene, the whistleblower voluntarily dismissed his case against AECOM.

2. CID - In November of 2023, AECOM received a Civil Investigative Demand from the Department of Justice requesting documents and responses to interrogatories related to AECOM's work for the Army Corp of Engineers at the Levee 536 Restoration Project. AECOM is currently in the process of complying with these requests. The CID states that DOJ is conducting an investigation into violations of the False Claims Act. At present time, DOJ has not filed any claim against AECOM alleging violations of the False Claims Act.

3. CID - In February 2024, AECOM received a Civil Investigative Demand from the U.S. Attorney's Office in Rhode Island as part of a False Claims Act investigation related to the Washington Bridge in Providence, RI. The CID did not state that the government suspects AECOM violated the False Claims Act, and in other contexts related to this investigation, the government has communicated to AECOM that it is simply a witness in the investigation, and not a target or subject. The Department of Justice has not alleged any violations of the False Claims Act by AECOM in this matter.

## Violations/Consent Orders/Actions

**AECOM USA, Inc. – Vendor/Reporting Entity**

1. Violation – New York State Department of Environment Conservation. On April 8, 2022, AECOM USA, Inc. received a Notice of Violation from New York State Department of Environmental Conservation ("DEC") alleging non-compliance with Natural Resource Permit Conditions, including nonconformance with approved plans, lack of and/or improper implementation of best management practices, and placement of indeterminate amount of fill all within tidal wetlands, tidal wetlands adjacent area, and protected waters, at Bronx River between Cross Bronx Expressway and Sheridan Boulevard in Starlight Park, Bronx, NY on or before March 28, 2022. DEC contends these activities violate Environmental Conservation Laws (ECL), namely, Article 25, Tidal Wetlands Act, §25-0401, Part 661; Article 15, Protection of Waters Act, §15-0501, 0503, 0505, Part 608; and Article 34, Coastal Erosion, §34-0109, Part 505. AECOM denied any noncompliance with Permit Conditions or violations of any ECL occurred.
2. Violation – New York State Department of Labor. On May 18, 2022, the New York State Department of Labor issued a notice of violation to AECOM USA, Inc. for failure to comply with the conditions of Site-Specific Variance #21-0284 that require a full-time project monitor to oversee the project to ensure compliance with NYS Code Rule 56. AECOM is overseeing work by a demolition/remediation contractor and serving as project monitor for New York State Department of Environmental Conservation at the Storage Tech Services Building site in Watervliet, New York. AECOM disputes the violation because the variance was approved by NYSDOL, covered the entire facility, and included information about the specific buildings at the facility. Moreover, there is no issue with our license or any of our employees' licenses. NYSDOL issued NOVs to AECOM and DEC's asbestos abatement contractor on the basis the contractor should have issued notifications for each and every building. While NYSDOL would not agree to rescind the NOV, NYSDOL indicated to DEC that NYSDOL does not intend to issue any fines or require remedial action. We sent a formal response to the NOV on June 3, 2022, requesting that NYSDOL rescind and withdraw the NOV and not prosecute the alleged violation further.
3. Violation – New York State Department of Environmental Protection. On February 29, 2024, the New York State Department of Environmental Protection (NYCDEP) issued a summons to AECOM USA, Inc. alleging AECOM failed to implement pollution prevention measures in NYC Title 15 RCNY 19.1-03.3 (b)(9)(i) at 126-43 39 Avenue in Corona, Queens, New York. AECOM denied that a violation occurred because contractor performing the work collected the concrete washout in prefabricated disposable concrete washout bags set within plastic lined, steel reinforced cages that were protected from vehicles and equipment using concrete barriers, and the alleged issue was corrected in a timely manner. NYCDEP acknowledged that the issue was corrected in a timely manner and recommended a mitigated penalty. Thus, a $1,500 mitigated penalty was issued, and AECOM is pursuing reimbursement from the client.
4. Violation - New York State Department of Environmental Conservation. On December 11, 2024, New York State Department of Environmental Conservation issued a Notice of Violation to

Walgreens Company, Divisions Maintenance Group (DMG), D.G. Gutierrez Enterprises, LLC (D.G. Gutierrez), and AECOM USA, Inc. for alleged violation of 6 NYCRR 375 in connection with work at the NYSDEC Brownfield Cleanup Program Site (No. C356032) located at 10 East Chester Street in Kingston, New York (Site). Walgreens is responsible for cleanup at the Site under the Brownfield Cleanup Agreement (Index No. W3-0980-03-12) dated July 16, 2004. NYSDEC alleged (1) failure to provide proper disposal documentation of four DOT-approved, 55-gallon non-hazardous/investigation-derived waste drums by D.G. Gutierrez, a subcontractor of Walgreen's contractor DMG; and (2) inadequate transportation records documenting disposal to a permitted facility. The events giving rise to the NOV date back to 2023. On March 9, 2023, AECOM mobilized to the Site to collect groundwater samples from monitoring wells and noted that four DOT-approved 55-gallon drums at the Site utilized for storage of IDW were missing from the staged area. NYSDEC was notified that day. The drums were clearly labeled as non-hazardous pending determination and included contact information and dates on the labels. Based on Walgreens' investigation, a Walgreens employee identified the drums as illegal dumping and placed an order with Walgreens' maintenance subcontractor, DMG, to remove the waste. DMG's subcontractor D.G. Gutierrez disposed of the drums at a facility near New York but could not locate the records of the disposal with the specific facility. AECOM responded denying liability because the 90-day storage limitation does not apply to non-hazardous material, there is no requirement for fencing/barriers around drums, and Walgreen's subcontractor removed the drums without AECOM's oversight, knowledge, or involvement. Although NYSDEC did not withdraw the NOV, NYSDEC did not prosecute the alleged violation or impose any fine, penalty, or sanction against AECOM.

5. Violation – New York Office of the City Clerk. On April 16, 2025, AECOM USA, Inc. received notice of a Violation from the Office of the City Clerk for filing an annual lobbying report late, which included a fine of $2,300. AECOM USA, Inc. paid the fine in a timely manner.

**AECOM Technical Services, Inc. – Parent Entity to AECOM USA, Inc.**

1. Consent Order - State of Tennessee Department of Environmental Conservation. AECOM Technical Services, Inc. (AECOM), Colonial Pipeline Company (Colonial), Metropolitan Nashville Airport Authority (MNAA), and the Tennessee Department of Transportation (TDOT) executed a Brownfield Consent Agreement with the State of Tennessee Department of Environmental Conservation on or about March 18, 2022 (Consent Order) concerning a release of petroleum product at the Colonial Pipeline CPC-L19 site located at 1 Terminal Drive in Nashville, Davidson County, Tennessee at the Nashville International Airport (BNA). Colonial, MNAA, and TDOT were engaged in discussions regarding relocation of two refined product pipelines known as Line 19 and Line 20 to accommodate MNAA's Terminal Access Roadway Improvements project at BNA and a related project by TDOT to relocate a portion of Donelson Pike and its interchange with I-40 near BNA (TDOT Project). On April 9, 2019, TDOT struck Colonial's Line 19 at BNA while conducting geotechnical soil borings in connection with the TDOT Project, resulting in a release of gasoline into the surrounding soils and nearby McCrory Creek. AECOM played no role in the location of underground utilities or the drilling activities on April 9, 2019. AECOM did provide a seconded employee to MNAA to assist MNAA with its Terminal Access Roadway Improvements project at the Nashville International Airport. As indicated above, the line strike occurred when a TDOT drilling crew struck a Colonial underground petroleum line while conducting soil borings in relation to the TDOT Project. AECOM expressly denies any responsibility or liability for the line strike or remediation of the contamination. AECOM's only obligation under the Consent Order is to send notification of the Consent Order by certified mail to local governments with jurisdiction over the site and

owners of adjoining properties, and to provide documentation to the Tennessee Department of Environment and Conservation and other parties to the Consent Order to demonstrate public notice has been accomplished.

2. Violation - Connecticut Department of Energy and Environmental Protection. On or about March 21, 2022, AECOM Technical Services, Inc. received a Notice of Violation from the Connecticut Department of Energy and Environmental Protection ("DEEP") stating DEEP conducted an inspection on January 4, 2022, of AECOM at 500 Enterprise Drive, Rocky Hill, CT and identified a violation of "CGS Section 22a-66c(a)." Specifically, the Notice provides AECOM solicited to perform and/or subcontracted the performance of commercial pesticide applications for the control of invasive plants at Pratt & Whitney in East Hartford, CT without first obtaining a certificate of registration from DEEP. AECOM disputed the violation because AECOM is not a pesticide application business and hired a subcontractor to perform the application who was required to hold the registration. DEEP did not assess any penalty and took no further action against AECOM.
3. Violation - Pennsylvania Public Utility Commission Damage Prevention Committee. In July 2022, AECOM Technical Services, Inc. AECOM received an information determination of the Pennsylvania Public Utility Commission Damage Prevention Committee (DPC) regarding alleged violation of the Underground Utility Line Protection Law for failure to file a safety incident report within 10 days of a link strike as required. After reviewing AECOM's rejection of the informal determination of the DPC, an enforcement action was not initiated against AECOM and the matter was closed.
4. Violation - Philadelphia Water Department. On August 29, 2022, AECOM Technical Services, Inc. received a fine of $1,800 from the Philadelphia Water Department for Significant Non-Compliance of Groundwater Discharge Permit for violations relating to sampling during April and May 2022 at the 7-Eleven Store 23854 treatment system in Philadelphia. AECOM collected samples in late April 2022 at the site, but for the incorrect analysis. The correct analysis was performed in early May after AECOM detected the error, and all samples since April 2022 have been detected below permit effluent limits. PWD was not willing to waive the fine despite these mitigating factors.
5. Violation - Federal Motor Carrier Safety Administration. On November 18, 2022, the Federal Motor Carrier Safety Administration assessed an Hours of Service violation of 392.2H (State/Local Hours of Service) against AECOM Technical Services, Inc.
6. Violation - Michigan Occupational Safety and Health Administration. On July 14, 2023, Michigan Occupational Safety and Health Administration (MIOSHA) issued a other-than-serious violation to AECOM Technical Services, Inc. for not submitting a MIOSHA or OSHA Form 300A "Summary of Work-Related Injuries and Illnesses" for year 2022 to OSHA. MIOSHA vacated the citation after AECOM appealed and provided evidence that AECOM did, in fact, timely submit its OSHA Form 300A form for 2022.
7. Violation - San Diego County Agricultural Commission. AECOM Technical Services, Inc. received a Notice of Proposed Action, Nature of Violation, and Opportunity to be Heard from the San Diego County Agricultural Commission proposing to fine AECOM $250 for failure to register pesticides used by AECOM with the County Agricultural Commissioner before operating as a pest control business in 2021, 2022, and 2023 in violation of California Food and Agricultural Code Section 11732. On or about October 1, 2023, the Agricultural Commissioner ordered AECOM to pay a fine of $250. AECOM paid the fine.
8. Violation - Pennsylvania Department of Environmental Protection. On April 16, 2024, AECOM Technical Services, Inc. received a Notice of Violation from Pennsylvania Department of Environmental Protection regarding a report prepared by AECOM titled Remedial Action Completion Report for the Top Star 127 facility located at Route 309 & Charles Street, Coopersburg Borough, Lehigh County that was sent to PADEP on February 25, 2022. PADEP determined that the report did not meet the requirements of the Corrective Action Process regulations, 25 Pa. Code Section 245.313, disapproved the report on May 24, 2022, and directed Top Star to correct the deficiencies by July 31, 2022. On January 26, 2024, PADEP received a

revised report titled Remedial Action Completion Report for the Top Star 127 facility prepared by AECOM. PADEP determined that this 2024 report was not a revised and complete RACR document as directed by PADEP. PADEP contended that Top Star is in violation of 25 Pa. Code Chapter 245.313 because the 2024 report failed to correct the deficiencies cited within the RACR disapproval letter dated May 24, 2022 and incorporate those corrections into a revised and complete RACR document. In addition, PADEP asserted that AECOM assisted in a violation at the Top Star 127 facility because AECOM prepared and submitted a RACR that did not correct previously-cited deficiencies and incorporated those corrections into a revised and complete RACR document. Section 1310 of Pennsylvania's Storage Tank and Spill Prevention Act (Act 32) provides that it is unlawful to cause or assist in the violation of any provisions of Act 32 or the applicable regulations. AECOM disputes liability. AECOM resubmitted a RACR to address any remaining issues to PADEP in July 2024. In September 2024, AECOM received a notification from PADEP that the RACR submitted in July 2024 was approved. No penalty or fine was assessed.

9. Consent Order - United States Environmental Protection Agency. On June 24, 2024, AECOM Technical Services, Inc. received a Notice of Potential Liability and Settlement Offer Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §§ 9601-9675 (CERCLA), from the United States Environmental Protection Agency (EPA) relating to the Pure Earth Recycling Superfund Site in Vineland Township, Cumberland County, New Jersey (Site). Pure Earth Recycling, Inc. (PER) operated a commercial solid and hazardous waste facility at the Site to store and treat waste from remediation contractors and others before shipment to other facilities. EPA identified AECOM as one of 930 potentially responsible parties under CERCLA for reimbursement of costs that EPA incurred in investigating and responding to releases and potential releases of hazardous substances at the Site. EPA designated AECOM as a *de minimis* party that arranged for disposal or treatment of less than 1.5% of the total hazardous substances at the Site (among all *de minimis* parties, only 1,453 gallons of 7,217,536 gallons of waste) – a contribution that EPA concluded is minimal in comparison to other parties who contributed hazardous substances to the Site. EPA has no reason to believe the hazardous substances contributed to the Site by AECOM were significantly more toxic or of significantly greater hazardous effect than other hazardous substances sent to the Site. To avoid the time and cost associated with litigation, AECOM agreed to a *de minimis* settlement with EPA and entered into an administrative settlement agreement and order on consent effective April 1, 2025 (AOC) for CERCLA Section 122(g)(4) *de minimis* contributors whereby AECOM made a one-time payment of $515.36 to EPA. The AOC expressly states that the AOC does not constitute an admission of liability by AECOM, or an admission by AECOM of the validity of any facts or determinations in the AOC.

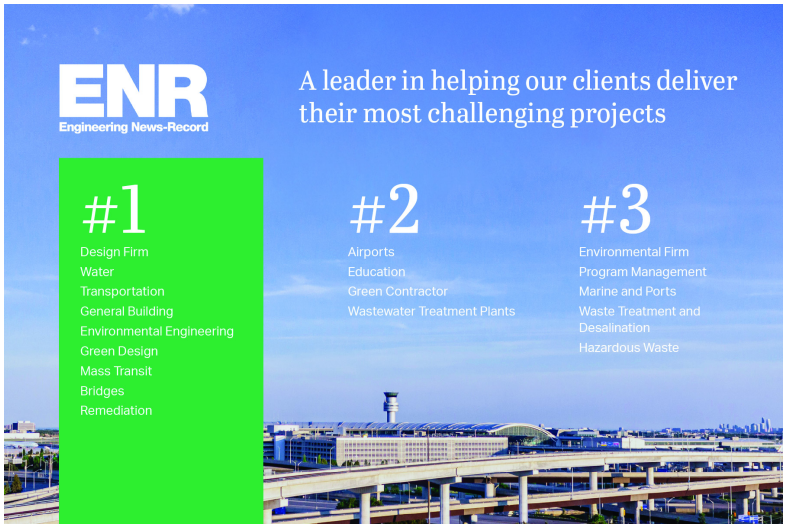
## ITEM 1. BUSINESS

*In this report, we use the terms "the Company," "we," "us" and "our" to refer to AECOM and its consolidated subsidiaries. Unless otherwise noted, references to years are for fiscal years. Our fiscal year consists of 52 or 53 weeks, ending on the Friday closest to September 30. For clarity of presentation, we present all periods as if the year ended on September 30. We refer to the fiscal year ended September 30, 2024 as "fiscal 2024" and the fiscal year ended September 30, 2025 as "fiscal 2025."*

### Overview

We are a leading global provider of professional infrastructure consulting and advisory services for governments, businesses and organizations throughout the world. We provide advisory, planning, consulting, architectural and engineering design, construction and program management services, and investment and development services to public and private clients worldwide in major end markets such as transportation, facilities, water, environmental, and energy.

According to Engineering News-Record's (ENR's) 2025 Design Survey, we are the largest general architectural and engineering design firm in the world, ranked by 2024 design revenue, and we are the number one ranked water, transportation design, facilities design, environmental engineering, environmental consulting and environmental science firm in the world. In addition, we are ranked by ENR as the leading firm in a number of design end markets, including several water infrastructure-related markets. We utilize our scale and the technical strength of our workforce to create innovative solutions for our clients. Clients are increasingly seeking our technical expertise to solve the world's most complex and large scale infrastructure related challenges. Aging infrastructure, increasing urbanization, and growing energy demand create growth secular tailwinds for our markets. Our global network of technical experts, combined with our ability to advise, consult, design, and deliver program management services creates a competitive advantage. Our scale also creates the capacity for investment in digital capabilities that further enhance our delivery capabilities and value proposition.



Our business focuses primarily on providing fee-based knowledge-based services. We primarily derive income from our ability to generate revenue and collect cash from our clients through the billing of our employees' time spent on client projects and our ability to manage our costs. AECOM Capital primarily derives its income from real estate development sales and management fees.

During the first quarter of fiscal 2020, we reorganized our operating and reporting structure to better align with our ongoing professional services business. This reorganization better reflected our continuing operations after the sale of our Management Services segment, the sale of our self-perform at-risk civil infrastructure and power construction

businesses, and the sale of our oil & gas construction business. Our Management Services and self-perform at-risk construction businesses were part of our former Management Services segment and represented a substantial portion of the revenue of our former Construction Services segment, respectively. These businesses are classified as discontinued operations in all periods presented.

We report our continuing business through three segments, each of which is described in further detail below: Americas, International, and AECOM Capital (ACAP). Such segments are organized by the differing specialized needs of the respective clients and how we manage the business. We have aggregated various operating segments into our reportable segments based on their similar characteristics, including similar long-term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

- *Americas*: Planning, advisory, consulting, architectural and engineering design, construction management and program management services to public and private clients in the United States, Canada, and Latin America in major end markets such as transportation, water, government, facilities, environmental, and energy.

- *International*: Planning, advisory, consulting, architectural and engineering design services, site supervision and program management to public and private clients in Europe, the Middle East, India, Africa, and the Asia-Australia-Pacific regions in major end markets such as transportation, water, government, facilities, environmental, and energy.

- *AECOM Capital (ACAP)*: Primarily invests in and develops real estate projects.

***Our Americas and International Segments***

Our Americas and International segments are comprised of a broad array of services, generally provided on a fee-for-service basis. These services include advisory, planning, consulting, architectural and engineering design, program management and construction management for public and private clients worldwide. For each of these services, our technical expertise includes civil engineering, structural engineering, digital, process engineering, mechanical engineering, geotechnical systems and electrical engineering, architectural, landscape and interior design, urban and regional planning, project economics, cost consulting and environmental, health and safety work.

With our design and technical consulting, advisory and program management expertise, we are able to provide our clients a broad spectrum of services across the life cycle of their assets. For example, within our water service offerings, we provide water, wastewater, water supply and water resource services, which are necessary in response to sustainability and resilience, drought mitigation and other factors as part of major capital/infrastructure projects.

Our services may be sequenced over multiple phases or multiple projects in the form of a program. For example, in the area of program management and construction management services, our work for a client may begin with a small consulting or planning contract, and may later develop into a broader advisory, design or overall management role for the project or a series of projects, which we refer to as a program. Program and construction management contracts may employ small or large project teams and, in many cases, operate with our staff located at the project site.

In addition, our industry is poised to capitalize on the benefits of AI and innovation. We are investing to lead this transformation, which will extend our advantages, improve overall delivery, and create distinct solutions for clients that differentiate us from competitors and enhance our client experience. These investments include capturing the value of our libraries of data to build more efficient design processes, and innovative and more advanced AI solutions for increasingly complex challenges that will accelerate design delivery and reduce the materials and costs required for a project.

We provide the services in these segments both directly and through joint ventures or similar arrangements to the following end markets or business sectors:

***Our AECOM Capital Segment***

ACAP typically partners with investors and experienced developers as co-general partners. These partnerships may, but are not required to, enter into contracts with our other AECOM affiliates to provide design, owners engineer, construction management, development and operations and maintenance services for ACAP funded projects. ACAP development activity is conducted through joint ventures or subsidiaries that may be consolidated or unconsolidated for financial reporting purposes depending on the extent and nature of our ownership interest. In addition, in connection with the investment activities of ACAP, AECOM or an affiliate may provide guarantees of certain financial obligations, including guarantees for completion of projects, repayment of debt, environmental indemnity obligations, and other lender required guarantees. ACAP has focused on investing in co-general partner equity opportunities with high quality partners, primarily targeting “build-to-core” investments in the top U.S. markets across all property types.

We completed a transaction that transitioned the AECOM Capital team to a new third-party platform in the third quarter of fiscal 2024. Members of the legacy team continue to support AECOM Capital's investment vehicles pursuant to certain advisory agreements in a manner consistent with their historical responsibilities.

***Thinking and Acting Globally***

AECOM is at its best when we think and act globally. Our strategy is focused on setting a new standard of excellence in the professional services industry. First, our operating structure promotes greater connectivity and collaboration across our seven regions and six global business lines. We drive growth by prioritizing our core markets, leaning into our greatest strengths and ensuring our best talent and resources are focused on nurturing client relationships. We are transforming the way we deliver work through technology and digital platforms improving the client experience and increasing efficiency.

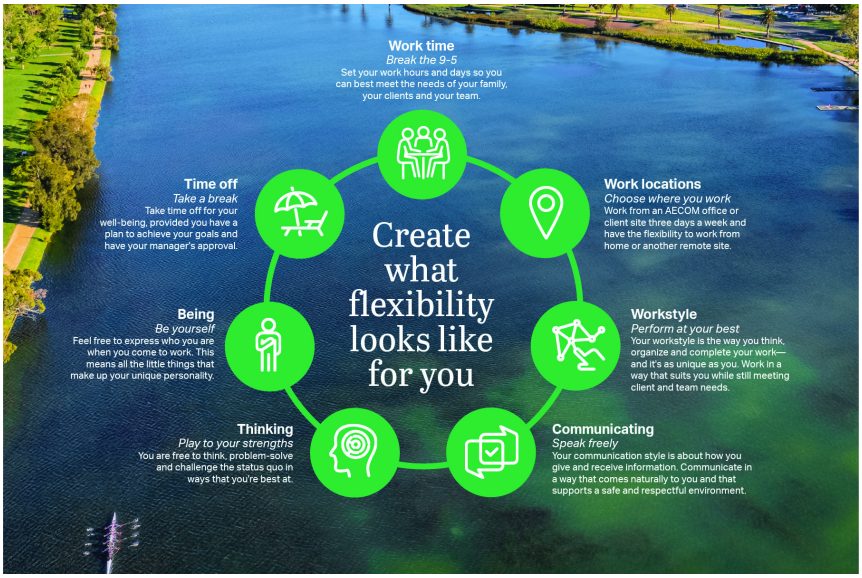
**Human Capital Management**

Our principal asset is our employees and large percentages of our employees have technical and professional backgrounds and undergraduate and/or advanced degrees. At the end of our fiscal 2025, we employed approximately 51,000 persons, of whom approximately 18,000 were employed in the United States. Over 200 of our domestic employees are covered by collective bargaining agreements or by specific labor agreements, which expire upon completion of the relevant project. We believe that the quality and level of service that our professionals deliver are among the highest in our industry.

We are committed to enhancing our position as a leading employer in our industry by attracting and retaining the best technical professionals in the world. Critical to our continued success is our ability to offer a compelling employee value proposition that promises competitive pay and benefits, an inclusive environment that supports flexibility and well-being and encourages collaboration and innovation, and a shared commitment to technical excellence, continuous learning and career growth. Through our Thrive with AECOM program, we are focused on fostering an inclusive environment within AECOM and beyond by building diverse talent, expanding understanding, enriching communities and thinking without limits. This understanding informs our approach to managing our human capital resources. Our human capital objectives and initiatives are overseen by our Board as per our Corporate Governance Guidelines.

***Health and Safety***. Core to our corporate values is safeguarding our people and fostering a culture of caring that promotes the wellbeing of our employees, contractors and business partners. We safeguard our people, projects and reputation by striving for zero employee injuries and illnesses, while operating and delivering our work responsibly and sustainably. We maintain our industry's best-in-class lost workday case and recordable incident rates, and our safety performance is consistently recognized by key clients across the regions where we work as well as by recognized safety organizations. We have taken and will continue to take critical steps to keep our people, clients and communities safe, including any necessary actions in response to local and global health crises.

***Freedom to Grow***. Freedom to Grow is our global framework designed to support employees in finding the balance and flexibility they need to be their best and deliver for clients, and a key factor in our ability to attract and retain talent. Employees and managers can evaluate work schedules and locations and align on an arrangement that prioritizes client and team responsibilities while supporting individual needs and includes three days a week in the office or at project sites as an expectation. Our Freedom to Grow program goes far beyond just when and where we work. We consider our people's holistic experience, respecting diversity in work, communication and thinking styles.



***Technical and professional development.*** Technical excellence is the foundation of our competitive advantage—it's how we harness the power of our teams' technical skills and expertise to deliver high quality solutions for clients and communities we serve. We strive to be home to our industry's best technical minds — professionals who thrive in an environment that encourages their collaboration and innovation and celebrates great project and client outcomes.

We have invested in a robust learning ecosystem that keeps our employees project-ready with 'on the job' technical training, future-ready with new digital tools, thought leadership and programs that inspire innovation, and globally connected within their technical practice and strategic partnerships.

Our online learning platform, AECOM University, delivers high-quality and personalized learning experiences, including our Global Technical Academies. Created by us for us, Academies deliver structured and self-directed technical training courses on key global topics, practices and markets that are relevant to our business. Our Technical Practice Network connects professionals every day in a global online community to enable networking, collaboration and problem solving.

In addition, our full range of professional development programs, called Leadership at all Levels, enhance business and leadership skills. From early career and graduate programs, to practical manager training, and executive coaching and leadership development, we are supporting development at every career level. These programs are based on our four pillars of Leadership Capabilities, which outline the behaviors we want our leaders to demonstrate and exemplify for the collective success as an organization.

***Purpose and impact***. Our purpose of delivering a better world is at the core of all that we do. As the world's trusted infrastructure consulting firm, we are determined and well-positioned to deliver positive, impactful and Sustainable Legacies for our company, our communities and our planet. Through our projects and our operations, we have both a significant opportunity and a responsibility to protect, enhance and restore the world's natural and social systems. Through strategic nonprofit partnerships, pro-bono work, skills-based volunteering and philanthropy, our corporate responsibility platform is focused on delivering access to safe and secure infrastructure to those who need it most, creating opportunity for the leaders of tomorrow and protecting our planet so that our company can fulfill its purpose to deliver a better world. As part of our pro-bono program, our technical experts partnered with nonprofit organizations in their local communities to provide critical design, engineering and infrastructure solutions. We maintain an internal Global Sustainable Legacies Council focused on executing on our purpose and ensuring that our actions are as strong as our policies.

**Our Clients**

Our clients consist primarily of national, state, regional and local governments, public and private institutions and major corporations. The following table sets forth our total revenue attributable to these categories of clients for each of the periods indicated:

| | Year Ended September 30, ($ in millions) | | | | | |
|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2023 | |
| U.S. Federal Government | $ 1,107.3 | 7 % | $ 1,064.0 | 7 % | $ 790.6 | 5 % |
| U.S. State and Local Governments | 3,916.9 | 24 | 3,660.5 | 23 | 2,918.9 | 20 |
| Non-U.S. Governments | 3,019.6 | 19 | 2,610.0 | 16 | 2,544.7 | 18 |
| Subtotal Governments | 8,043.8 | 50 | 7,334.5 | 46 | 6,254.2 | 43 |
| Private Entities (worldwide) | 8,095.8 | 50 | 8,771.0 | 54 | 8,124.3 | 57 |
| Total | $ 16,139.6 | 100 % | $ 16,105.5 | 100 % | $ 14,378.5 | 100 % |

No single client accounted for 10% or more of our revenue in any of the past five fiscal years. Approximately 7%, 7%, and 5% of our revenue was derived through direct contracts with agencies of the U.S. federal government in the years ended September 30, 2025, 2024, and 2023, respectively.

**Contracts**

The price provisions of the contracts we undertake can be grouped into several broad categories: cost-reimbursable contracts, guaranteed maximum price contracts, and fixed-price contracts. For the year ended September 30, 2025, our revenue was comprised of 38%, 37%, and 25% cost-reimbursable, guaranteed maximum price, and fixed-price contracts, respectively.

***Cost-Reimbursable Contracts***

Cost-reimbursable contracts include cost-plus fixed fee, cost-plus fixed rate, and time-and-materials price contracts. Under cost-plus contracts, we charge clients for our costs, including both direct and indirect costs, plus a negotiated fee or rate. We recognize revenues based on actual direct costs incurred and the applicable fixed rate or portion of the fixed fee earned as of the balance sheet date. Under time-and-materials price contracts, we negotiate hourly billing rates and charge clients based on the actual time we expend on the project. In addition, clients reimburse us for materials and other direct incidental expenditures, including payments to subcontractors, incurred in connection with our performance under the contract. We may apply a practical expedient to recognize revenue in the amount in which we have the right to invoice if our right to consideration is equal to the value of performance completed to date. Time-and-material price contracts may also have a fixed-price element in the form of not-to-exceed or guaranteed maximum price provisions.

Some cost-plus contracts provide for award fees or a penalty based on performance criteria in lieu of a fixed fee or fixed rate. Other contracts include a base fee component plus a performance-based award fee. In addition, we may share award fees with subcontractors. We generally recognize revenue to the extent of costs actually incurred plus a proportionate amount of the fee expected to be earned. We take the award fee or penalty on contracts into consideration when estimating revenue and profit rates, and record revenue related to the award fees when there is sufficient information to assess anticipated contract performance and a significant reversal of the award fee is not probable. Once an award is received, the estimated or accrued fees are adjusted to the actual award amount.

Some cost-plus contracts provide for incentive fees based on performance against contractual milestones. The amount of the incentive fees varies, depending on whether we achieve above, at, or below target results. We originally recognize revenue on these contracts based upon expected results. These estimates are revised when necessary based upon additional information that becomes available as the contract progresses.

***Guaranteed Maximum Price Contracts***

Guaranteed maximum price (GMP) contracts share many of the same contract provisions as cost-plus and fixed-price contracts. As with cost-plus contracts, clients are provided a disclosure of all project costs, and a lump sum percentage fee is separately identified. We provide clients with a guaranteed price for the overall project (adjusted for change orders issued by clients) and a schedule including the expected completion date. Cost overruns or costs associated with project delays in completion could be our responsibility. For many of our GMP contracts, the final price is generally not established until we have subcontracted a substantial percentage of the trade contracts with terms consistent with the master contract, and we have negotiated additional contract limitations, such as waivers of consequential damages as well

as aggregate caps on liabilities and liquidated damages. Revenue is recognized for GMP contracts as project costs are incurred relative to total estimated project costs.

***Fixed-Price Contracts***

Fixed-price contracts include both lump-sum and fixed-unit price contracts. Under lump-sum contracts, we perform all the work under the contract for a specified fee. Lump-sum contracts are typically subject to price adjustments if the scope of the project changes or unforeseen conditions arise. Under fixed-unit price contracts, we perform a number of units of work at an agreed price per unit with the total payment under the contract determined by the actual number of units delivered. Revenue is recognized for fixed-price contracts using the input method measured on a cost-to-cost basis as the Company believes this is the best measure of progress towards completion.

Some of our fixed-price contracts require us to provide surety bonds or parent company guarantees to assure our clients that their project will be completed in accordance with the terms of the contracts as further disclosed in Note 18—Commitments and Contingencies. In such cases, we may require our primary subcontractors to provide similar performance bonds and guarantees and to be adequately insured, and we may flow down the terms and conditions set forth in our agreement on to our subcontractors. There may be risks associated with completing these projects profitably if we are not able to perform our services within the fixed-price contract terms.

***Joint Ventures***

Some of our larger contracts may operate under joint ventures or other arrangements under which we team with other reputable companies, typically companies with which we have worked for many years. This is often done where the scale of the project dictates such an arrangement or when we want to strengthen either our market position or our technical skills.

**Backlog**

Backlog represents revenue we expect to realize for work completed by our consolidated subsidiaries and our proportionate share of work to be performed by unconsolidated joint ventures. Backlog is expressed in terms of gross revenue and, therefore, may include significant estimated amounts of third party or pass-through costs to subcontractors and other parties. We report transaction price allocated to remaining unsatisfied performance obligations (RUPO) of $19.7 billion, as described in Note 4, Revenue Recognition, in the notes to our consolidated financial statements. The most significant differences between our backlog and RUPO are backlog contains revenue we expect to record in the future where we have been awarded the work, but the contractual agreement has not yet been signed and revenue related to service contracts that extend beyond the termination provision of those contracts, where RUPO requires us to assume the contract will be terminated at its earliest convenience. Accordingly, RUPO is $20.0 billion lower than backlog. For non-government contracts, our backlog includes future revenue at contract rates, excluding contract renewals or extensions that are at the discretion of the client. For contracts with a not-to-exceed maximum amount, we include revenue from such contracts in backlog to the extent of the remaining estimated amount. We calculate backlog without regard to possible project reductions or expansions or potential cancellations until such changes or cancellations occur. No assurance can be given that we will ultimately realize our full backlog. Backlog fluctuates due to the timing of when contracts are awarded and contracted and when contract revenue is recognized. Many of our contracts require us to provide services over more than one year. Our backlog for the year ended September 30, 2025 increased $2.3 billion, or 6.1%, to $39.7 billion as compared to $37.4 billion for the corresponding period last year, primarily due to a increase in our Americas Construction Management business.

The following summarizes backlog (in billions):

| | September 30, | |
|---|---|---|
| | 2025 | 2024 |
| Backlog: | | |
| Americas segment | $ 32.8 | $ 31.0 |
| International segment | 6.9 | 6.4 |
| Total backlog | $ 39.7 | $ 37.4 |

**Competition**

The markets we serve are highly fragmented and we compete with a large number of regional, national and international companies. We have numerous competitors, ranging from small private firms to multi-billion dollar companies, some of which have greater financial resources or that are more specialized and concentrate their resources in particular areas of expertise. The extent of our competition varies according to the particular markets and geographic area. The degree and type of competition we face is also influenced by the type and scope of a particular project. The technical and professional aspects of our services generally do not require large upfront capital expenditures and, therefore, provide limited barriers against new competitors.

We believe that we are well positioned to compete in our markets because of our reputation, our cost effectiveness, our long-term client relationships, our extensive network of offices, our employee expertise, and our broad range of services. In addition, as a result of our extensive national and international network, we are able to offer our clients localized knowledge and expertise, as well as the support of our worldwide professional staff. In addition, through investments in technology and innovation, we are able to bring advanced solutions to clients.

**Seasonality**

We experience seasonal trends in our business. Our revenue is typically higher in the last half of the fiscal year. The fourth quarter of our fiscal year (July 1 to September 30) is typically our strongest quarter. We find that the U.S. federal government tends to authorize more work during the period preceding the end of our fiscal year, September 30. In addition, many U.S. state governments with fiscal years ending on June 30 tend to accelerate spending during their first quarter, when new funding becomes available. Further, our construction management revenue typically increases during the summer months when weather and daylight hours are more conducive to outdoor activities. Within the United States, as well as other parts of the world, our business generally benefits from milder weather conditions in our fiscal fourth quarter. Our construction and project management services also typically expand during the summer months when weather and daylight hours are more conducive to outdoor activities. The first quarter of our fiscal year (October 1 to December 31) is typically our lowest revenue quarter. The harsher weather conditions impact our ability to complete work in parts of North America and the holiday season schedule affects our productivity during this period. For these reasons, coupled with the number and significance of client contracts commenced and completed during a particular period, as well as the timing of expenses incurred for corporate initiatives, it is not unusual for us to experience seasonal changes or fluctuations in our quarterly operating results.

**Risk Management and Insurance**

Risk management is an integral part of our project management approach and our project execution process. We have an Office of Risk Management that reviews and oversees the risk profile of our operations through a tiered process of formal risk committees with the highest-risk pursuits subject to vetting at each tier. Following contract execution, and commencement of delivery, projects are monitored via a formal monthly or quarterly project-review process designed to ensure project performance and risk mitigation. Also, pursuant to our internal delegations of authority, a group of senior members of our risk management team evaluates risk through internal risk analyses of higher-risk projects, contracts or other business decisions. We maintain insurance covering professional liability and claims involving bodily injury and property damage, among other coverages. Wherever possible, we endeavor to eliminate or reduce the risk of loss on a project through the use of quality assurance/control, risk management, workplace safety and similar methods.

**Regulations**

Our business is impacted by environmental, health and safety, government procurement, anti-bribery and other government regulations and requirements. Below is a summary of some of the significant regulations that impact our business.

*Environmental, Health and Safety.* Our business involves the planning, design, program management, construction management, and operations and maintenance at various project sites, including, but not limited to, nuclear facilities, hazardous waste and Superfund sites, hydrocarbon production, distribution and transport sites, and other infrastructure-related facilities. We also regularly perform work in and around sensitive environmental areas, such as rivers, lakes and wetlands.

Significant fines, penalties and other sanctions may be imposed for non-compliance with environmental and health and safety laws and regulations, and some laws provide for joint and several strict liabilities for remediation of releases of hazardous substances, rendering a person liable for environmental damage, without regard to negligence or fault

on the part of such person. These laws and regulations may expose us to liability arising out of the conduct of operations or conditions caused by others, or for our acts that were in compliance with all applicable laws at the time these acts were performed. For example, there are a number of governmental laws that strictly regulate the handling, removal, treatment, transportation and disposal of toxic and hazardous substances, such as the Comprehensive Environmental Response Compensation and Liability Act of 1980, and comparable national and state laws, that impose strict, joint and several liabilities for the entire cost of cleanup, without regard to whether a company knew of or caused the release of hazardous substances. In addition, some environmental regulations can impose liability for the entire clean-up upon owners, operators, generators, transporters and other persons arranging for the treatment or disposal of such hazardous substances related to contaminated facilities or project sites. Other federal environmental, health and safety laws affecting us include, but are not limited to, the Resource Conservation and Recovery Act, the National Environmental Policy Act, the Clean Air Act, the Clean Air Mercury Rule, the Occupational Safety and Health Act, the Toxic Substances Control Act, and the Superfund Amendments and Reauthorization Act, as well as other comparable national and state laws. Liabilities related to environmental contamination or human exposure to hazardous substances, comparable national and state laws or a failure to comply with applicable regulations could result in substantial costs to us, including cleanup costs, fines and civil or criminal sanctions, third-party claims for property damage or personal injury, or cessation of remediation activities.

Some of our business operations are covered by Public Law 85-804, which provides for indemnification by the U.S. federal government against claims and damages arising out of unusually hazardous or nuclear activities performed at the request of the U.S. federal government. Should public policies and laws change, however, U.S. federal government indemnification may not be available in the case of any future claims or liabilities relating to hazardous activities that we undertake to perform.

*Government Procurement.* The services we provide to the U.S. federal government are subject to Federal Acquisition Regulation, the Truth in Negotiations Act, Cost Accounting Standards, the Services Contract Act, False Claims Act, export controls rules and Department of Defense (DOD) security regulations, as well as many other laws and regulations. These laws and regulations affect how we transact business with our clients and, in some instances, impose additional costs on our business operations. A violation of specific laws and regulations could lead to fines, contract termination or suspension of future contracts. Our government clients can also terminate, renegotiate, or modify any of their contracts with us at their convenience; and many of our government contracts are subject to renewal or extension annually.

*Anti-Bribery and other regulations.* We are subject to the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act of 2010, and similar anti-bribery laws, which generally prohibit companies and their intermediaries from making improper payments to foreign government officials for the purpose of obtaining or retaining business. To the extent we export technical services, data and products outside of the U.S., we are subject to U.S. and international laws and regulations governing international trade and exports, including, but not limited to, the International Traffic in Arms Regulations, the Export Administration Regulations, and trade sanctions against embargoed countries. We provide services to the DOD and other defense-related entities that often require specialized professional qualifications and security clearances. In addition, as engineering design services professionals, we are subject to a variety of local, state, federal, and foreign licensing and permit requirements and ethics rules.

**Raw Materials**

We purchase most of the raw materials and components necessary to operate our business from numerous sources. However, the price and availability of raw materials and components may vary from year to year due to customer demand, production capacity, market conditions, and material shortages. While we do not currently foresee the lack of availability of any particular raw materials in the near term, prolonged unavailability of raw materials necessary to our projects and services or significant price increases for those raw materials could have a material adverse effect on our business in the near term.

**Government Contracts**

Generally, our government contracts are subject to renegotiation or termination of contracts or subcontracts at the discretion of the U.S. federal, state or local governments, and national governments of other countries.

**Trade Secrets and Other Intellectual Property**

We rely principally on trade secrets, confidentiality policies and other contractual arrangements to protect much of our intellectual property.

**Available Information**

## ITEM 1A. RISK FACTORS

*We operate in a changing global environment that involves numerous known and unknown risks and uncertainties that could materially adversely affect our operations. The risks described below highlight some of the factors that have affected, and in the future could affect our operations. Additional risks we do not yet know of or that we currently believe are immaterial may also affect our business operations. If any of the events or circumstances described in the following risks actually occurs, our business, financial condition or results of operations could be materially adversely affected.*

### Risks Related to Our Markets, Customers and Business

***Our industry is highly competitive, and we may be unable to compete effectively, which could result in reduced revenue, profitability and market share.***

We are engaged in a highly competitive business. The markets we serve are highly fragmented and we compete with a large number of regional, national and international companies. These competitors may have greater financial and other resources than we do. Others are smaller and more specialized, and concentrate their resources in particular areas of expertise. The extent of our competition varies according to the particular markets and geographic area. In addition, the technical and professional aspects of some of our services generally do not require large upfront capital expenditures and provide limited barriers against new competitors.

The degree and type of competition we face is also influenced by the type and scope of a particular project. Our clients make competitive determinations based upon qualifications, experience, performance, reputation, technology, customer relationships, price and ability to provide the relevant services in a timely, safe and cost-efficient manner. Increased competition may result in our inability to win bids for future projects, increased margin pressure and loss of revenue, profitability and market share.

***Our ability to compete in our industry will be harmed if we do not retain the continued services of our senior management and key technical personnel.***

We rely heavily upon the expertise and leadership of our people. There is strong competition for qualified technical and management personnel in the sectors in which we compete. We may not be able to continue to attract and retain qualified technical and management personnel, such as engineers, architects and project managers, who are necessary for the development of our business or to replace qualified personnel in the timeframe demanded by our clients. Also, some of our personnel hold government granted eligibility that may be required to obtain government projects. Loss of the services of, or failure to recruit, senior management or key technical personnel could impact the long-term performance of the Company and limit our ability to successfully complete existing projects and compete for new projects.

***Demand for our services is cyclical and vulnerable to sudden economic downturns and reductions in government and private industry spending. If economic conditions remain uncertain and/or weaken, our revenue and profitability could be adversely affected.***

Demand for our services is cyclical and may be vulnerable to sudden economic downturns, interest rate fluctuations and reductions in government and private industry spending that result in clients delaying, curtailing or

canceling proposed and existing projects. Where economies are weakening, our clients may demand more favorable pricing or other terms while their ability to pay our invoices or to pay them in a timely manner may be adversely affected. Our government clients may face budget deficits that prohibit them from funding proposed and existing projects. If economic conditions remain uncertain and/or weaken and/or government spending is reduced, our revenue and profitability could be materially adversely affected.

***We depend on long-term government contracts, some of which are only funded on an annual basis. If appropriations for funding are not made in subsequent years of a multiple-year contract, we may not be able to realize all of our anticipated revenue and profits from that project.***

A substantial portion of our revenue is derived from contracts with agencies and departments of national, state, and local governments. During fiscal 2025 and 2024, approximately 50% and 46%, respectively, of our revenue was derived from contracts with government entities.

Most government contracts are subject to such government's budgetary approval process. Legislatures typically appropriate funds for a given program on an annual basis, even though contract performance may take more than one year. In addition, public-supported financing such as state and local municipal bonds may be only partially raised to support existing infrastructure projects. As a result, at the beginning of a program, the related contract is only partially funded, and additional funding is normally committed only as appropriations are made in each fiscal year. These appropriations, and the timing of payment of appropriated amounts, may be influenced by, among other things, the state of the economy, an extended government shutdown, competing priorities for appropriation, changes in administration or control of legislatures, and the timing and amount of tax receipts and the overall level of government expenditures. Similarly, the impact of an economic downturn on governments may make it more difficult for them to fund infrastructure projects. If appropriations are not made in subsequent years on our government contracts, then we will not realize all of our potential revenue and profit from those contracts.

***If we are unable to win or renew government contracts during regulated procurement processes, our operations and financial results would be harmed.***

Government contracts are awarded through a regulated procurement process. The federal government has awarded multi-year contracts with pre-established terms and conditions, such as indefinite delivery contracts, that generally require those contractors that have previously been awarded the indefinite delivery contract to engage in an additional competitive bidding process before a task order is issued. The federal government has also awarded federal contracts based on a low-price, technically acceptable criteria emphasizing price over qualitative factors, such as past performance. As a result of these competitive pricing pressures, our profit margins on future federal contracts may be reduced and may require us to make sustained efforts to reduce costs in order to realize profits under government contracts. If we are not successful in reducing the amount of costs we incur, our profitability on government contracts will be negatively impacted. In addition, we may not be awarded government contracts because of existing government policies designed to protect small businesses and under-represented minority contractors. Our inability to win or renew government contracts during regulated procurement processes could harm our operations and reduce our profits and revenues.

***Governmental agencies may modify, curtail or terminate our contracts at any time prior to their completion and, if we do not replace them, we may suffer a decline in revenue.***

Most government contracts may be modified, curtailed or terminated by the government either at its discretion or upon the default of the contractor. If the government terminates a contract at its discretion, then we typically are able to recover only costs incurred or committed, settlement expenses and profit on work completed prior to termination, which could prevent us from recognizing all of our potential revenue and profits from that contract. In addition, for some assignments, the U.S. government may attempt to "insource" the services to government employees rather than outsource to a contractor. If a government terminates a contract due to our default, we could be liable for excess costs incurred by the government in obtaining services from another source.

***Our contracts with governmental agencies are subject to audit, which could result in adjustments to reimbursable contract costs or, if we are charged with wrongdoing, possible temporary or permanent suspension from participating in government programs.***

Our books and records are subject to audit by the various governmental agencies we serve and their representatives. These audits can result in adjustments to the amount of contract costs we believe are reimbursable by the

agencies and the amount of our overhead costs allocated to the agencies. If such matters are not resolved in our favor, they could have a material adverse effect on our business. In addition, if one of our subsidiaries is charged with wrongdoing as a result of an audit, that subsidiary, and possibly our company as a whole, could be temporarily suspended or could be prohibited from bidding on and receiving future government contracts for a period of time. Furthermore, as a government contractor, we are subject to an increased risk of investigations, criminal prosecution, civil fraud actions, whistleblower lawsuits, and other legal actions and liabilities to which purely private sector companies are not, the results of which could materially adversely impact our business. For example, from time to time we may be subject to qui tam lawsuits, which typically allege that we have made false statements or certifications in connection with claims for payment, or improperly retained overpayments, from the government. These suits may remain under seal (and hence, be unknown to us) for some time while the government decides whether to intervene on behalf of the qui tam plaintiff.

## Risks Related to our Capital Structure

***The agreements governing our debt contain a number of restrictive covenants which will limit our ability to finance future operations, acquisitions or capital needs or engage in other business activities that may be in our interest.***

The Credit Agreement (defined below) and the indentures governing our debt contain a number of significant covenants that impose operating and other restrictions on us and our subsidiaries. Such restrictions affect or will affect and, in many respects, limit or prohibit, among other things, our ability and the ability of some of our subsidiaries to:

- incur additional indebtedness;
- create liens;
- pay dividends and make other distributions in respect of our equity securities;
- redeem or repurchase our equity securities;
- distribute excess cash flow from foreign to domestic subsidiaries;
- make investments or other restricted payments;
- sell assets;
- enter into transactions with affiliates; and
- effect mergers or consolidations.

In addition, our Credit Agreement requires us to comply with a consolidated leverage ratio. Our ability to comply with this ratio may be affected by events beyond our control. These restrictions could limit our ability to plan for or react to market or economic conditions or meet capital needs or otherwise restrict our activities or business plans, and could adversely affect our ability to finance our operations, acquisitions, investments or strategic alliances or other capital needs or to engage in other business activities that would be in our interest. A breach of any of these covenants or our inability to comply with the required financial ratios could result in a default under our debt instruments. If an event of default occurs, our creditors could elect to:

- declare all borrowings outstanding, together with accrued and unpaid interest, to be immediately due and payable;
- require us to apply all of our available cash to repay the borrowings; or
- prevent us from making debt service payments on our borrowings.

If we were unable to repay or otherwise refinance these borrowings when due, the applicable creditors could sell the collateral securing some of our debt instruments, which constitutes substantially all of the Company’s and certain of its domestic wholly-owned subsidiaries’ assets.

***Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.***

Borrowings under our Credit Agreement are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness will increase even though the amount borrowed remains the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. A 1.00% increase in such interest rates would increase total interest expense under our Credit Agreement for the year ended September 30, 2025 by $9.0 million, including the effect of our interest rate swap and interest rate cap agreements. We may, from time to time, enter into additional interest rate derivatives that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate derivatives with respect to all of our variable rate indebtedness, and any derivatives we enter into may not fully mitigate our interest rate risk and could be subject to credit risk themselves.

***If we are unable to continue to access credit on acceptable terms, our business may be adversely affected.***

The changing nature of the global credit markets could make it more difficult for us to access funds, refinance our existing indebtedness, enter into agreements for uncommitted debt bond facilities and new indebtedness, replace our existing revolving and term credit agreements or obtain funding through the issuance of our securities. We use credit facilities to support our working capital and other needs. There is no guarantee that we can continue to renew our credit facility on terms as favorable as those in our existing credit facility and, if we are unable to do so, our costs of borrowing and our business may be adversely affected.

**Risks Related to our International Operations**

***Our operations worldwide expose us to legal, political and economic risks in different countries as well as currency exchange rate fluctuations and impacts from inflation that could harm our business and financial results.***

During fiscal 2025, revenue attributable to our services provided outside of the United States to non-U.S. clients was approximately 27% of our total revenue. There are risks inherent in doing business internationally, including:

- the ongoing conflict between Russia and Ukraine, which has resulted in the imposition by the U.S. and other nations of restrictive actions against Russia, Belarus and certain banks, companies and individuals;
- imposition of governmental controls and changes in laws, regulations or policies;
- political and economic instability, including in the Middle East;
- civil unrest, acts of terrorism, force majeure, war, or other armed conflict;
- changes in U.S. and other national government trade policies affecting the markets for our services, including the imposition of tariffs;
- political unrest in Hong Kong where we have a significant presence;
- impact of health crises and their related economic impacts;
- increases in the consumer price index and interest rates;
- changes in regulatory practices, tariffs and taxes;
- potential non-compliance with a wide variety of laws and regulations, including anti-corruption, export control and anti-boycott laws and similar non-U.S. laws and regulations;
- changes in labor conditions;
- logistical and communication challenges; and
- currency exchange rate fluctuations, devaluations and other conversion restrictions.

Any of these factors could have a material adverse effect on our business, results of operations or financial condition.

***We operate in many different jurisdictions and we could be adversely affected by legislative actions of governments, as well as violations of the U.S. Foreign Corrupt Practices Act and similar worldwide anti-corruption laws.***

The U.S. Foreign Corrupt Practices Act (FCPA) and similar worldwide anti-corruption laws, including the U.K. Bribery Act of 2010, generally prohibit companies and their intermediaries from making improper payments to non-U.S. officials for the purpose of obtaining or retaining business. Our internal policies mandate compliance with these anti-corruption laws, including the requirements to maintain accurate information and internal controls which may fall within the purview of the FCPA, its books and records provisions or its anti-bribery provisions. We operate in many parts of the world that have experienced governmental corruption to some degree; and, in some circumstances, strict compliance with anti-corruption laws may conflict with local customs and practices. Despite our training and compliance programs, we cannot assure that our internal control policies and procedures always will protect us from reckless or criminal acts committed by our employees or agents. In addition, from time to time, government investigations of corruption affect us and our peers. Violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our results of operations or financial condition.

The Building Safety Act (the "Act"), the primary legislation which introduces a new framework for the regulation of the UK construction industry, became law on April 28, 2022. While limited parts of the Act have not yet been enacted, and further secondary legislation is expected, most of the provisions are now in force. The Act extends liability periods for some historical defects in residential properties completed prior to 2022, creates a new government regulatory body responsible for building safety and new legal obligations regarding building safety, reallocates the risk related to design and construction, and requires the development of a more stringent regulatory regime for select buildings. The new legislation has resulted in new risk, litigation, regulatory and cost challenges for our United Kingdom and global operations.

Any of these events could adversely affect our United Kingdom, European operations and overall business and financial results.

***We work in international locations where there are high security risks, which could result in harm to our employees and contractors or material costs to us.***

Some of our services are performed in high-risk locations, such as the Middle East, Africa, and Southeast Asia, where the location is suffering from political, social or economic problems, or war or civil unrest. In those locations where we have employees or operations, we may incur material costs to maintain the safety of our personnel. Despite these precautions, the safety of our personnel in these locations may continue to be at risk. Acts of terrorism and threats of armed conflicts in or around various areas in which we operate could limit or disrupt markets and our operations, including disruptions resulting from the evacuation of personnel, cancellation of contracts, or the loss of key employees, contractors or assets.

**Risks Related to Our Operations and Technology**

***Many of our project sites are inherently dangerous workplaces. Failure to maintain safe work sites and equipment could result in environmental disasters, employee deaths or injuries, reduced profitability, the loss of projects or clients and possible exposure to litigation.***

Our project sites often put our employees and others in close proximity with mechanized equipment, moving vehicles, chemical and manufacturing processes, and highly regulated materials. On some project sites, we may be responsible for safety and, accordingly, we have an obligation to implement effective safety procedures. If we fail to implement these procedures or if the procedures we implement are ineffective, we may suffer the loss of or injury to our employees, as well as expose ourselves to possible litigation. As a result, our failure to maintain adequate safety standards and equipment could result in reduced profitability, harm to our reputation, or the loss of projects or clients, and could have a material adverse impact on our business, financial condition, and results of operations.

***Cybersecurity threats, information technology systems outages and data privacy incidents could adversely harm our business.***

We may experience errors, outages, or delays of service in our information technology systems, which could significantly disrupt our operations, impact our clients and employees, damage our reputation, and result in litigation and regulatory fines or penalties. Various privacy and securities laws pertaining to client and employee data usage require us to manage and protect sensitive and proprietary information. For example, the European's Union General Data Protection Regulation may apply to companies processing data of European Union residents, even if the company is not located in the European Union. In addition, the California Consumer Privacy Act increased the penalties for data privacy incidents.

We face threats to our information technology systems, including unauthorized access, computer hackers, computer viruses, malicious code, cyber-attacks, ransomware, data extortion, phishing and other cybersecurity problems and system disruptions, including possible unauthorized access to our and our clients' proprietary information. Our cybersecurity program is designed to use industry-accepted security measures and technology to securely maintain all proprietary information on our information technology systems. In the ordinary course of business, we have been targeted by malicious cyber-attacks. Anyone who circumvents our security measures could misappropriate proprietary information, including information regarding us, our employees and/or our clients, or cause interruptions in our operations. Although we devote considerable resources to our cybersecurity programs and have implemented security measures to protect our systems and to prevent, detect and respond to cybersecurity incidents, there can be no assurance that our efforts will prevent these threats. As these security threats continue to evolve, we may be required to devote additional resources to help prevent, detect and respond to system disruptions and cybersecurity incidents.

We also rely in part on third-party software and information technology vendors to run our critical accounting, project management and financial information systems. We depend on our software and information technology vendors to provide long-term software and hardware support for our information systems. Our software and information technology vendors may decide to discontinue further development, integration or long-term software and hardware support for our information systems, in which case we may need to abandon one or more of our current information systems and migrate some or all of our accounting, project management and financial information to other systems, thus increasing our operational expense, as well as disrupting the management of our business operations.

Any of these events could damage our reputation and have a material adverse effect on our business, financial condition, results of operations and cash flows. Furthermore, while we maintain insurance designed to cover these events, our coverage may not sufficiently cover all types of losses or claims that may arise or be subject to exclusions.

***We may use artificial intelligence, machine learning, data science and similar technologies in our business, and challenges with properly managing such technologies could result in reputational harm, competitive harm, and legal liability, and adversely affect our business, financial condition and results of operations.***

Artificial intelligence, machine learning, data science and similar technologies (collectively, "AI"), including third-party AI tools, may be enabled by, or integrated into, some of our business processes and solutions. As with many developing technologies, AI presents risks and challenges that could affect its further development, adoption, and use, and therefore our business. AI algorithms may be flawed or biased. Datasets used to train or develop AI systems may be insufficient, of inferior quality, or contain biased, incorrect or incomplete information. The utilization of AI may increase our risk and liability exposure relating to confidentiality, intellectual property infringement, and client use restrictions. Our AI governance review process and safeguards may not be adequate to protect against these risks and challenges.

Additionally, the laws and regulations concerning the use of AI continue to evolve. If the use or integration of AI systems, or the outputs generated by such systems, were determined to be non-compliant (e.g., in relation to AI statutory regimes, data privacy rights or in relation to the use of AI for certain activities or use cases), this may expose us to regulatory action or litigation. It is possible that emerging regulations or changes to intellectual property laws may limit or block the use of AI in our business or otherwise impose restrictions that may adversely affect the efficiency of our business processes or solutions that were utilizing AI technologies.

Our competitors or other third parties may incorporate AI into their product and service offerings more quickly or more successfully than us, which could impair our ability to compete effectively and adversely affect our business, financial condition and results of operations.

## Risks Related to Contracts and Joint Ventures

***Our business and operating results could be adversely affected by losses under fixed-price or guaranteed maximum price contracts.***

Fixed-price contracts require us to either perform all work under the contract for a specified lump-sum or to perform an estimated number of units of work at an agreed price per unit, with the total payment determined by the actual number of units performed. In addition, we may enter guaranteed maximum price contracts where we guarantee a price or delivery date. For the year ended September 30, 2025, our revenue was comprised of 38%, 37%, and 25% cost-reimbursable, guaranteed maximum price, and fixed-price contracts, respectively. Fixed-price contracts expose us to a number of risks not inherent in cost-reimbursable contracts, including underestimation of costs, ambiguities in specifications, unforeseen increases in or failures in estimating the cost of raw materials, equipment or labor, increased costs as a result of inflation, problems with new technologies, delays beyond our control, fluctuations in profit margins, failures of subcontractors to perform and economic or other changes that may occur during the contract period. United States and foreign trade policy actions in the United States could affect the profitability of our fixed-price projects. Losses under fixed-price or guaranteed contracts could be substantial and adversely impact our results of operations.

***Our failure to meet contractual schedule or performance requirements that we have guaranteed could adversely affect our operating results.***

In some circumstances, we can incur liquidated or other damages if we do not achieve project completion by a scheduled date. If we or an entity for which we have provided a guarantee fails to complete the project as scheduled and the matter cannot be satisfactorily resolved with the client, we may be responsible for cost impacts to the client resulting from any delay or the cost to complete the project. Our costs generally increase from schedule delays and/or could exceed our projections for a particular project. In addition, project performance can be affected by a number of factors beyond our control, including unavoidable delays from governmental inaction, public opposition, inability to obtain financing, weather conditions, unavailability of vendor materials, changes in the project scope of services requested by our clients, industrial accidents, environmental hazards, labor disruptions, pandemics including the current coronavirus, and other factors. Material performance problems for existing and future contracts could cause actual results of operations to differ from those anticipated by us and also could cause us to suffer damage to our reputation within our industry and client base.

***We may not be able to maintain adequate surety and financial capacity necessary for us to successfully bid on and win contracts.***

In line with industry practice, we are often required to provide surety bonds, standby letters of credit or corporate guarantees to our clients that indemnify them should our affiliate fail to perform its obligations under the terms of a contract. As of September 30, 2025 and September 30, 2024, we were contingently liable for $5.6 billion and $5.1 billion, respectively, in issued surety bonds primarily to support project execution and we had outstanding letters of credit totaling $903.8 million and $938.9 million, respectively. A surety may issue a performance or payment bond to guarantee to the client that our affiliate will perform under the terms of a contract. If our affiliate fails to perform under the terms of the contract, then the client may demand that the surety or another corporate affiliate provide the contracted services. In addition, we would typically have obligations to indemnify the surety for any loss incurred in connection with the bond. If a surety bond or a letter of credit is required for a particular project and we are unable to obtain an appropriate surety bond or letter of credit, we may not be able to pursue that project, which in turn could have a material adverse impact on our business, financial condition, results of operations, and cash flows.

***We conduct a portion of our operations through joint venture entities, over which we may have limited control.***

Approximately 13% of our fiscal 2025 revenue was derived from our operations through joint ventures or similar partnership arrangements, where control may be shared with unaffiliated third parties. As with most joint venture arrangements, differences in views among the joint venture participants may result in delayed decisions or disputes. We also cannot control the actions of our joint venture partners and we typically have joint and several liability with our joint venture partners under the applicable contracts for joint venture projects. These factors could potentially adversely impact the business and operations of a joint venture and, in turn, our business and operations.

Operating through joint ventures in which we are minority holders results in us having limited control over many decisions made with respect to projects and internal controls relating to projects. Sales of our services provided to our unconsolidated joint ventures were approximately 2% of our fiscal 2025 revenue. We generally do not have control of these unconsolidated joint ventures. These joint ventures may not be subject to the same requirements regarding internal controls and internal control over financial reporting that we follow. As a result, internal control problems may arise with respect to these joint ventures, which could have a material adverse effect on our financial condition and results of operations and could also affect our reputation.

***We participate in joint ventures where we provide guarantees and may be adversely impacted by the failure of the joint venture or its participants to fulfill their obligations.***

We have investments in and commitments to joint ventures with unrelated parties, including in connection with government services, and the investment activities of ACAP. For example, real estate and infrastructure joint ventures are inherently risky and may result in future losses since real estate markets are impacted by economic trends and government policies that we do not control. These joint ventures from time to time may borrow money to help finance their activities and, in some circumstances, we are required to provide guarantees of obligations of our affiliated entities. In addition, in connection with the investment activities of ACAP, we provide guarantees of obligations, including guarantees for completion of projects, payment of interest and carrying costs, repayment of debt, environmental indemnity obligations and other lender required guarantees. When we provide a guarantee, we may be responsible for material costs or performance in completing contractual obligations.

***AECOM Capital's real estate development and investment activities are inherently risky and may result in a future loss.***

ACAP's real estate business involves managing, sponsoring, investing in and developing commercial real estate projects and joint ventures (Real Estate Joint Ventures) that are inherently risky and may result in future losses based on factors beyond our control, including economic trends, government policies and competition. Our SEC-registered investment adviser jointly manages and sponsors the AECOM-Canyon Equity Fund, L.P. (the "Fund"), in which the Company indirectly holds an equity interest and which also invests in and develops Real Estate Joint Ventures on behalf of its investors. Real Estate Joint Ventures rely on substantial amounts of third party borrowing to finance their development activities and the lenders of such financings typically require AECOM or an affiliate to provide completion guarantees, repayment guarantees, environmental indemnities and other lender required credit support guarantees to secure the Real Estate Joint Ventures financing. Although the Fund and such Real Estate Joint Ventures may have reserves that will be used to share any cost overruns of the Real Estate Joint Ventures, if such reserves are unavailable, then AECOM may be required to make support payments, including to fund non-budgeted cost overruns on behalf of the Fund (but not on behalf of the Fund's co-partner or any unaffiliated limited partners of the Real Estate Joint Ventures). Some of the Fund's limited partners have made additional equity co-investments in certain Real Estate Joint Ventures for which AECOM will provide support payments on behalf of the limited partner co-investor in the event of a cost overrun of the Real Estate Joint Ventures after additional specific reserves have been depleted. During fiscal 2024, the Company completed a transaction pursuant to which members of the AECOM Capital team transitioned to a new third – party platform and will provide investment advisory services relating to the AECOM Capital business pursuant to certain advisory agreements. The failure of the transitioned team to adequately perform these services could negatively impact the Company. The Company has implemented comprehensive policies and procedures to oversee the provisions of these advisory services; however, these changes will impact the Company's ability to supervise the investment team's activities.

**Risks Related to Laws and Regulations**

***Misconduct by our employees, subcontractors, partners or consultants or our failure to comply with laws or regulations applicable to our business could cause us to lose customers or lose our ability to contract with government agencies.***

As a government contractor, misconduct, fraud or other improper activities caused by our employees', subcontractors', partners' or consultants' failure to comply with laws or regulations could have a significant negative impact on our business and reputation. Such misconduct could include the failure to comply with procurement regulations, environmental regulations, regulations regarding the protection of sensitive government information, legislation regarding the pricing of labor and other costs in government contracts, regulations on lobbying or similar activities, and anti-corruption, anti-competition, export control and other applicable laws or regulations. Our failure to comply with applicable laws or regulations, misconduct by any of our employees, subcontractors, partners or consultants, or our failure to make timely and accurate certifications to government agencies regarding misconduct or potential misconduct could subject us to fines and penalties, loss of government granted eligibility, cancellation of contracts and suspension or debarment from contracting with government agencies, any of which may adversely affect our business.

***We may be subject to substantial liabilities under environmental laws and regulations.***

Our services are subject to numerous environmental protection laws and regulations that are complex and stringent. Our business involves in part the planning, design, program management, construction management, and operations and maintenance at various sites, including but not limited to, nuclear facilities, hazardous waste and Superfund sites, hydrocarbon production, distribution and transport sites, and other infrastructure-related facilities. We also regularly

perform work in and around sensitive environmental areas, such as rivers, lakes and wetlands. In addition, we have contracts in support of U.S. federal government entities to decontaminate and decommission nuclear facilities. These activities may require us to manage, handle, remove, treat, transport and dispose of toxic or hazardous substances.

Significant fines, penalties and other sanctions may be imposed for non-compliance with environmental laws and regulations, and some environmental laws provide for joint and several strict liabilities for remediation of releases of hazardous substances, rendering a person liable for environmental damage, without regard to negligence or fault on the part of such person. These laws and regulations may expose us to liability arising out of the conduct of operations or conditions caused by others, or for our acts that were in compliance with all applicable laws at the time these acts were performed. For example, there are a number of governmental laws that strictly regulate the handling, removal, treatment, transportation and disposal of toxic and hazardous substances, such as Comprehensive Environmental Response Compensation and Liability Act of 1980, and comparable state laws, that impose strict, joint and several liabilities for the entire cost of cleanup, without regard to whether a company knew of or caused the release of hazardous substances. In addition, some environmental regulations can impose liability for the entire cleanup upon owners, operators, generators, transporters and other persons arranging for the treatment or disposal of such hazardous substances related to contaminated facilities or project sites. Other federal environmental, health and safety laws affecting us include, but are not limited to, the Resource Conservation and Recovery Act, the National Environmental Policy Act, the Clean Air Act, the Clean Air Mercury Rule, the Occupational Safety and Health Act, the Toxic Substances Control Act and the Superfund Amendments and Reauthorization Act and the Energy Reorganization Act of 1974, as well as other comparable national and state laws. Liabilities related to environmental contamination or human exposure to hazardous substances, or a failure to comply with applicable regulations could result in substantial costs to us, including cleanup costs, fines and civil or criminal sanctions, third-party claims for property damage or personal injury or cessation of remediation activities. Our continuing work in the areas governed by these laws and regulations exposes us to the risk of substantial liability.

## Risks Related to Climate Change

***Climate change, natural disasters and related environmental issues could have a material adverse impact on us.***

Climate-related events, such as an increase in frequency and severity of storms, floods, wildfires, droughts, hurricanes, freezing conditions, and other natural disasters, may have a long-term impact on our business, financial condition and results of operation. While we seek to mitigate our business risks associated with climate events, we recognize that there are inherent climate-related risks regardless of where we conduct our businesses. For example, a catastrophic natural disaster could negatively impact any of our office locations and the locations of our clients. Accordingly, a natural disaster has the potential to disrupt our and our clients' businesses and may cause us to experience work stoppages, project delays, financial losses and additional costs to resume operations, including increased insurance costs or loss of cover, legal liability and reputational losses.

***There is an evolving awareness and scrutiny from stakeholders with respect to environmental, social and governance practices, which could affect our business.***

Stakeholder expectations with respect to environmental, social and governance matters have been rapidly evolving, including with increased scrutiny from governmental organizations, clients and employees on such matters and related disclosures. We risk damage to our reputation if we do not act responsibly in key areas including diversity and inclusion, environmental stewardship, support for local communities and corporate governance. A failure to adequately meet evolving rules and regulations or stakeholders' expectations, including failing to meet client commitments and targets, or being viewed negatively based on positions we do or do not take or work we do or do not perform, may result in loss of business, and an inability to attract and retain customers and talented personnel, which could have a negative impact on our business, results of operations and financial condition, and potentially on the price of our common stock and cost of capital. In addition, complying or failing to comply with existing or future federal, state, local and foreign legislation and regulations applicable to our environmental, social and governance practices, which may conflict with one another, could cause us to incur additional compliance and operational costs or actions and suffer reputational harm, which could materially and adversely affect our business, financial condition and results of operations.

## Risks Related to Acquisitions and Divestitures

***We may be unable to successfully execute or effectively integrate acquisitions and divestitures may not occur as planned.***

We regularly review our portfolio of businesses and pursue growth through acquisitions and seek to divest non-core businesses. We may not be able to complete transactions on favorable terms, on a timely basis, or at all, and during the integration of any acquisition, we may discover regulatory and compliance issues. In addition, our results of operations and cash flows may be adversely impacted by (i) the failure of acquired businesses to meet or exceed expected returns; (ii) the failure to integrate acquired businesses on schedule and/or to achieve expected synergies; (iii) the inability to dispose of non-core assets and businesses on satisfactory terms and conditions; (iv) diversion of attention and increased burdens on our employees; and (v) the discovery of unanticipated liabilities or other problems in acquired businesses for which we lack contractual protections, insurance or indemnities, or with regard to divested businesses, claims by purchasers to whom we have provided contractual indemnification. Additional difficulties we may encounter as part of the integration process include the following:

- the consequences of a change in tax treatment and the possibility that the full benefits anticipated from the acquisition or disposition will not be realized;
- any delay in the integration or disposition of management teams, strategies, operations, products and services;
- differences in business backgrounds, corporate cultures and management philosophies that may delay successful integration;
- the ability to retain key employees;
- the ability to create and enforce uniform standards, controls, procedures, policies and information systems;
- the challenge of restructuring complex systems, technology, networks and other assets in a seamless manner that minimizes any adverse impact on customers, suppliers, employees and other constituencies;
- potential unknown liabilities and unforeseen increased expenses or delays associated with the acquisition, including costs to integrate beyond current estimates;
- the ability to deduct or claim tax attributes or benefits such as operating losses, business or foreign tax credits; and
- the disruption of, or the loss of momentum in, each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies.

Any of these factors could adversely affect our ability to maintain relationships with customers, suppliers, employees and other constituencies or could reduce our earnings or otherwise adversely affect our business and financial results.

***Our plans to divest businesses are subject to various risks and uncertainties and may not be completed in accordance with the expected plans or anticipated time frame, or at all, and will involve significant time and expense, which could disrupt or adversely affect our business.***

Divesting businesses involve risks and uncertainties, such as the difficulty separating assets related to such businesses from the businesses we retain, employee distraction, the need to obtain regulatory approvals and other third-party consents, which potentially disrupts customer and vendor relationships, and the fact that we may be subject to additional tax obligations or loss of tax benefits. Because of these challenges, as well as market conditions or other factors, anticipated divestitures may take longer or be costlier or generate fewer benefits than expected and may not be completed at all. If we are unable to complete divestitures or to successfully transition divested businesses, our business and financial results could be negatively impacted. After we dispose of a business, we may retain exposure on financial or performance guarantees and other contractual, employment, pension and severance obligations, and potential liabilities that may arise under law because of the disposition or the subsequent failure of an acquirer. Our results of operations, cash flows, working capital, effective tax rate, and financing requirements may be subject to increased volatility and our ability to fund capital expenditures, investments and service debt may be diminished. In addition, any purchase price adjustments could be unfavorable and other future proceeds owed to us as part of these transactions could be lower than we expect. As a result, performance by the divested businesses or other conditions outside of our control could have a material adverse effect on

our results of operations. In addition, the divestiture of any business could negatively impact our profitability because of losses that may result from such a sale, the loss of sales and operating income, or a decrease in cash flows.

**Other Risks**

***An impairment charge of goodwill could have a material adverse impact on our financial condition and results of operations.***

Because we have grown in part through acquisitions, goodwill represents a substantial portion of our assets, and was $3.7 billion as of September 30, 2025. Under generally accepted accounting principles in the United States, we are required to test goodwill carried in our consolidated balance sheets for possible impairment on an annual basis based upon a fair value approach and whenever events occur that indicate impairment could exist. These events or circumstances could include a significant change in the business climate, including a significant sustained decline in a reporting unit's market value, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of our business, a significant sustained decline in our market capitalization and other factors.

In addition, if we experience a decrease in our stock price and market capitalization over a sustained period, we would have to record an impairment charge in the future. The amount of any impairment could be significant and could have a material adverse impact on our financial condition and results of operations for the period in which the charge is taken.

***We may be required to contribute additional cash to meet our underfunded benefit obligations associated with pension benefit plans we manage or multiemployer pension plans in which we participate.***

We have defined benefit pension plans for employees in the United States, United Kingdom, Canada, Australia, and Ireland. At September 30, 2025, our defined benefit pension plans had an aggregate deficit (the excess of projected benefit obligations over the fair value of plan assets) of approximately $89.4 million. In the future, our pension deficits may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors that may require us to make additional cash contributions to our pension plans and recognize further increases in our net pension cost to satisfy our funding requirements. If we are forced or elect to make up all or a portion of the deficit for unfunded benefit plans, our results of operations could be materially and adversely affected.

A multiemployer pension plan is typically established under a collective bargaining agreement with a union to cover the union-represented workers of various unrelated companies. Our collective bargaining agreements with unions require us to contribute to various multiemployer pension plans; however, we do not control or manage these plans. For the year ended September 30, 2025, we contributed $2.7 million to multiemployer pension plans. Under the Employee Retirement Income Security Act, an employer who contributes to a multiemployer pension plan, absent an applicable exemption, may also be liable, upon termination or withdrawal from the plan, for its proportionate share of the multiemployer pension plan's unfunded vested benefit. If we terminate or withdraw from a multiemployer plan, absent an applicable exemption (such as for some plans in the building and construction industry), we could be required to contribute a significant amount of cash to fund the multiemployer plan's unfunded vested benefit, which could materially and adversely affect our financial results; however, since we do not control the multiemployer plans, we are unable to estimate any potential contributions that could be required.

***We may experience disproportionately high levels of collection risk and nonpayment if clients in specific geographic areas or industries are adversely affected by factors particular to their geographic area or industry.***

Our clients include public and private entities that have been, and may continue to be, negatively impacted by the changing landscape in the global economy. While no one client accounted for over 10% of our revenue for fiscal 2025, we face collection risk as a normal part of our business where we perform services and subsequently bill our clients for such services, or when we make equity investments in majority or minority controlled large-scale client projects and other long-term capital projects before the project completes operational status or completes its project financing. In the event that we have concentrated credit risk from clients in a specific geographic area or industry, continuing negative trends or a worsening in the financial condition of that specific geographic area or industry could make us susceptible to disproportionately high levels of default by those clients. Such defaults could materially adversely impact our revenues, results of operations or accounts receivable.

***Our services expose us to significant risks of liability and our insurance policies may not provide adequate coverage.***

Our services involve significant risks of professional and other liabilities that may substantially exceed the fees that we derive from such services. In addition, we sometimes contractually assume liability to clients on projects under indemnification or guarantee agreements. We cannot predict the magnitude of potential liabilities from the operation of our business. In addition, in the ordinary course of our business, we frequently make professional judgments and recommendations about environmental and engineering conditions of project sites for our clients. We may be deemed to be responsible for these professional judgments and recommendations if they are later determined to be inaccurate. Any unfavorable legal ruling against us could result in substantial monetary damages or even criminal violations.

Our professional liability policies cover only claims made during the term of the policy. Additionally, our insurance policies may not protect us against potential liability due to various exclusions in the policies and self-insured retention amounts. Partially or completely uninsured claims, if successful and of significant magnitude, could have a material adverse effect on our business.

***Unavailability or cancellation of third-party insurance coverage would increase our overall risk exposure as well as disrupt the management of our business operations.***

We maintain insurance coverage from third-party insurers as part of our overall risk management strategy and because some of our contracts require us to maintain specific insurance coverage limits. If any of our third-party insurers fail, suddenly cancel our coverage or otherwise are unable to provide us with adequate insurance coverage, then our overall risk exposure and our operational expenses would increase and the management of our business operations would be disrupted. In addition, there can be no assurance that any of our existing insurance coverage will be renewable upon the expiration of the coverage period or that future coverage will be affordable at the required limits.

***If we do not have adequate indemnification for our services related to nuclear materials, it could adversely affect our business and financial condition.***

We provide services to the nuclear energy industry primarily related to decontamination and decommissioning of nuclear energy plants. Indemnification provisions under the Price-Anderson Act available to nuclear energy plant operators and contractors do not apply to all liabilities that we might incur while performing services as a radioactive materials cleanup contractor for the nuclear energy industry. If the Price-Anderson Act's indemnification protection does not apply to our services or if our exposure occurs outside the U.S., our business and financial condition could be adversely affected either by our client's refusal to retain us, by our inability to obtain commercially adequate insurance and indemnification, or by potentially significant monetary damages we may incur.

***Our backlog of uncompleted projects under contract is subject to unexpected adjustments and cancellations and, thus may not accurately reflect future revenue and profits.***

At September 30, 2025, backlog was approximately $39.7 billion. We reported transaction price allocated to remaining unsatisfied performance obligations (RUPO) of $19.7 billion, as described in Note 4, Revenue Recognition, in the notes to our consolidated financial statements. The most significant differences between our backlog and RUPO are backlog contains revenue we expect to record in the future where we have been awarded the work, but the contractual agreement has not yet been signed and revenue related to service contracts that extend beyond the termination provisions of those contracts, where guidance for the calculation of RUPO requires us to assume the contract will be terminated at its earliest convenience. Accordingly, RUPO is $20.0 billion lower than backlog. We cannot guarantee that future revenue will be realized from either category of backlog or, if realized, will result in profits. Many projects may remain in our backlog for an extended period of time because of the size or long-term nature of the contract. In addition, from time to time, projects are delayed, scaled back or canceled. These types of backlog reductions adversely affect the revenue and profits that we ultimately receive from contracts reflected in our backlog.

***From time to time, we submit claims to clients for work we performed beyond the initial scope of some of our contracts. If these clients do not approve these claims, our results of operations could be adversely impacted.***

We typically have pending claims submitted under some of our contracts for payment of work performed beyond the initial contractual requirements for which we have already recorded revenue. In general, we cannot guarantee that such claims will be approved in whole, in part, or at all. Often, these claims can be the subject of lengthy arbitration or litigation proceedings, and it is difficult to accurately predict when these claims will be fully resolved. When these types of events occur and unresolved claims are pending, we have used working capital in projects to cover cost overruns pending the resolution of the relevant claims. If these claims are not approved, our revenue may be reduced in future periods.

***In conducting our business, we depend on other contractors, subcontractors and equipment and material providers. If these parties fail to satisfy their obligations to us or other parties or if we are unable to maintain these relationships, our revenue, profitability and growth prospects could be adversely affected.***

We depend on contractors, subcontractors and equipment and material providers in conducting our business. There is a risk that we may have disputes with our subcontractors arising from, among other things, the quality and timeliness of work performed by the subcontractor, customer concerns about the subcontractor, or our failure to extend existing task orders or issue new task orders under a subcontract. Also, to the extent that we cannot acquire equipment and materials at reasonable costs, or if the amount we are required to pay exceeds our estimates, our ability to complete a project in a timely fashion or at a profit may be impaired. In addition, if any of our subcontractors fail to deliver on a timely basis the agreed-upon supplies and/or perform the agreed-upon services, our ability to fulfill our obligations as a prime contractor may be jeopardized; we could be held responsible for such failures and/or we may be required to purchase the supplies or services from another source at a higher price. This may reduce the profit to be realized or result in a loss on a project for which the supplies or services are needed.

We also rely on relationships with other contractors when we act as their subcontractor or joint venture partner. Our future revenue and growth prospects could be adversely affected if other contractors eliminate or reduce their subcontracts or joint venture relationships with us, or if a government agency terminates or reduces these other contractors' programs, does not award them new contracts or refuses to pay under a contract. In addition, due to "pay when paid" provisions that are common in subcontracts in many countries, including the U.S., we could experience delays in receiving payment if the prime contractor experiences payment delays.

***If clients use our reports or other work product without appropriate disclaimers or in a misleading or incomplete manner, or if our reports or other work product are not in compliance with professional standards and other regulations, our business could be adversely affected.***

The reports and other work product we produce for clients sometimes include projections, forecasts and other forward-looking statements. Such information by its nature is subject to numerous risks and uncertainties, any of which could cause the information produced by us to ultimately prove inaccurate. While we include appropriate disclaimers in the reports that we prepare for our clients, once we produce such written work product, we do not always have the ability to control the manner in which our clients use such information. As a result, if our clients reproduce such information to solicit funds from investors for projects without appropriate disclaimers and the information proves to be incorrect, or if our clients reproduce such information for potential investors in a misleading or incomplete manner, our clients or such investors may threaten to or file suit against us for, among other things, securities law violations. If we were found to be liable for any claims related to our client work product, our business could be adversely affected.

In addition, our reports and other work product may need to comply with professional standards, licensing requirements, securities regulations and other laws and rules governing the performance of professional services in the jurisdiction where the services are performed. We could be liable to third parties who use or rely upon our reports and other work product even if we are not contractually bound to those third parties. These events could in turn result in monetary damages and penalties.

***Failure to adequately protect, maintain, or enforce our rights in our intellectual property may adversely limit our competitive position.***

Our success depends, in part, upon our ability to protect our intellectual property. We rely on a combination of intellectual property policies and other contractual arrangements to protect much of our intellectual property where we do not believe that trademark, patent or copyright protection is appropriate or obtainable. Trade secrets are generally difficult to protect. Although our employees are subject to confidentiality obligations, this protection may be inadequate to deter or prevent misappropriation of our confidential information and/or the infringement of our patents and copyrights. Further, we may be unable to detect unauthorized use of our intellectual property or otherwise take appropriate steps to enforce our rights. Failure to adequately protect, maintain, or enforce our intellectual property rights may adversely limit our competitive position.

***Our revenue and growth prospects may be harmed if we or our employees are unable to obtain government granted eligibility or other qualifications we and they need to perform services for our customers.***

A number of government programs require contractors to have government granted eligibility, such as security clearance credentials. Depending on the project, eligibility can be difficult and time-consuming to obtain. If we or our employees are unable to obtain or retain the necessary eligibility, we may not be able to win new business, and our existing customers could terminate their contracts with us or decide not to renew them. To the extent we cannot obtain or maintain the required security clearances for our employees working on a particular contract, we may not derive the revenue or profit anticipated from such contract.

***Negotiations with labor unions and possible work actions could divert management attention and disrupt operations. In addition, new collective bargaining agreements or amendments to agreements could increase our labor costs and operating expenses.***

We regularly negotiate with labor unions and enter into collective bargaining agreements. The outcome of any future negotiations relating to union representation or collective bargaining agreements may not be favorable to us. We may reach agreements in collective bargaining that increase our operating expenses and lower our net income as a result of higher wages or benefit expenses. In addition, negotiations with unions could divert management attention and disrupt operations, which may adversely affect our results of operations. If we are unable to negotiate acceptable collective bargaining agreements, we may have to address the threat of union-initiated work actions, including strikes. Depending on the nature of the threat or the type and duration of any work action, these actions could disrupt our operations and adversely affect our operating results.

***Our charter documents contain provisions that may delay, defer or prevent a change of control.***

Provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us, even if the change in control would be beneficial to stockholders. These provisions include the following:

- ability of our Board of Directors to authorize the issuance of preferred stock in series without stockholder approval;
- vesting of exclusive authority in our Board of Directors to determine the size of the board and to fill vacancies; and
- advance notice requirements for stockholder proposals and nominations for election to our Board of Directors.

***We cannot guarantee the timing, amount or payment of dividends.***

Although our Board of Directors has adopted a dividend policy under which we intend to pay a regular quarterly cash dividend, the timing and amount of any subsequently declared dividend (or any special dividend) is subject to the discretion of the Board of Directors and will be based on a variety of factors, including cash flows, earnings and financial borrowing availability and other restrictions under our outstanding indebtedness. We are not required to declare dividends and we are restricted under our outstanding indebtedness and could be restricted under future financing or other arrangements. Our Board of Directors may modify or terminate our dividend policy. Accordingly, we cannot provide any assurances that we will pay quarterly or special dividends or the amount or timing thereof. Any reduction or elimination of our dividend policy or dividend payments could have a negative effect on the price of our common stock.

***Changes in tax laws could increase our worldwide tax rate and materially affect our results of operations.***

We are subject to tax laws in the U.S. and numerous foreign jurisdictions. The U.S. and many international legislative and regulatory bodies continually propose and enact legislation that could significantly impact how U.S. multinational corporations are taxed.

In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain, and we are regularly subject to audit by tax authorities. Although we believe that our tax estimates and tax positions are reasonable, they could be materially affected by many factors including the final outcome of tax audits and related litigation, the introduction of new tax accounting standards, legislation, regulations and related interpretations.

The Organization for Economic Co-operation and Development (OECD), a global coalition of member countries, has developed a two-pillar framework to reform international taxation. The framework is designed to ensure that multinationals pay a minimum level of tax on their foreign profits through the introduction of a global minimum tax among other provisions. The minimum tax affects our financial statements beginning fiscal 2025 for those operations that are doing business in countries that have enacted the framework. While the current impact is limited, the continued enactment by all OECD countries or by individual countries could result in additional income tax liability, but the timing and ultimate impact on our tax obligations are uncertain.

Due to the large scale of our U.S. and international business activities, many of these proposed changes, if enacted into law, could have an adverse impact on our worldwide effective tax rate, income tax expense and cash flows.

## ITEM 1C. CYBERSECURITY

### Risk Management and Strategy

We maintain a cybersecurity program designed to assess, identify and manage risks from cybersecurity threats that may result in adverse effects on the confidentiality, integrity and availability of our information systems. Dedicated security and information governance and compliance professionals administer the program with oversight by our senior management team.

We utilize a combination of technology controls, service providers, and processes to actively monitor and protect our network and systems. All employees are required to participate in a number of information security training and awareness programs on an annual basis, which include training on how to identify and report cyber risks and events.

We engage industry cybersecurity experts to evaluate and review our cybersecurity programs. These external reviews include regular audits, threat assessments, vulnerability scans, simulated attacks and other advice regarding information security practices. We regularly conduct incident response exercises with key stakeholders.

To manage risks associated with third-party service providers, we typically perform a cybersecurity assessment on new vendors before they are onboarded as a supplier. We conduct periodic reviews of these vendors to evaluate continued compliance with our policies and standards. We strive to ensure that our contracts with such vendors require them to maintain security controls in line with industry practices, applicable laws and our policies. We rely on vendors to notify us in a timely manner of significant cybersecurity incidents, by virtue of the documents governing their relationship with us or applicable law.

### Governance

Our Board of Directors (“Board”) receives regular updates from management and external consultants which may address a broad range of cybersecurity and IT topics, including trends, regulatory developments, data security policies and practices, cybersecurity incidents, and ongoing efforts to further strengthen our security posture. Our Board reviews key metrics related to cybersecurity on a quarterly basis, and is notified of applicable cybersecurity incidents if and when they occur.

The Chief Information Security Officer (“CISO”) heads the cybersecurity program which includes personnel based in several of our global locations. Our CISO brings over 25 years of experience, which includes both consulting and practitioner roles, and maintains the following certifications: Certified Information System Security Professional (CISSP), Certified in Risk and Information Systems Control (CRISC), and Certified Information Security Manager (CISM). Our CISO reports to our Chief Information Officer, up to the Chief Technology Officer, who meets with our Board at least annually to discuss cybersecurity risk and related topics.

Our CISO’s team is responsible for leading enterprise-wide cybersecurity strategy, policy, standards and processes. The CISO receives ongoing updates from his team regarding the prevention, detection, mitigation, and remediation of cybersecurity incidents.

In the event of a cybersecurity incident, we have a plan which sets forth a framework to report such incidents to our cybersecurity incident response team. This framework is designed with the goal of enabling the response team to take actions to monitor, mitigate and remediate such incidents in a timely manner. As part of this incident response plan, we have retainers in place with professional service firms to assist with cybersecurity incidents if needed.

**Cybersecurity Risks, Threats and Material Incidents**

While we are not aware of any cybersecurity incidents that have materially affected us through the date of this report, there can be no guarantee that we will not be the subject of future material cybersecurity incidents. Additional information on cybersecurity risks that we may face can be found in Item 1A – Risk Factors – of this Form 10-K.

## ITEM 2. PROPERTIES

Our corporate offices are located in approximately 9,000 square feet of space at 13355 Noel Road, Dallas, Texas. Our other offices, including smaller administrative or project offices, consist of an aggregate of approximately 5.2 million square feet worldwide. Virtually all of our offices are leased. See Note 11 in the notes to our consolidated financial statements for information regarding our lease obligations. We may add additional facilities from time to time in the future as the need arises.

## ITEM 3. LEGAL PROCEEDINGS

As a government contractor, we are subject to various laws and regulations that are more restrictive than those applicable to non-government contractors. Intense government scrutiny of contractors' compliance with those laws and regulations through audits and investigations is inherent in government contracting and, from time to time, we receive inquiries, subpoenas, and similar demands related to our ongoing business with government entities. Violations can result in civil or criminal liability as well as suspension or debarment from eligibility for awards of new government contracts or option renewals.

We are involved in various investigations, claims and lawsuits in the normal conduct of our business. We are not always aware if we or our affiliates are under investigation or the status of such matters. Although the outcome of our legal proceedings cannot be predicted with certainty and no assurances can be provided, in the opinion of our management, based upon current information and discussions with counsel, with the exception of the matters noted in Note 18, Commitments and Contingencies, to the financial statements contained in this report to the extent stated therein, none of the investigations, claims and lawsuits in which we are involved is expected to have a material adverse effect on our consolidated financial position, results of operations, cash flows or our ability to conduct business. See Note 18, Commitments and Contingencies, to the financial statements contained in this report for a discussion of certain matters to which we are a party. The information set forth in such note is incorporated by reference into this Item 3. From time to time, we establish reserves for litigation when we consider it probable that a loss will occur.

We believe the S&P 400 MidCap is an appropriate independent broad market index, since it measures the performance of similar mid-sized companies in numerous sectors. In addition, we believe the S&P Mid Cap 400 Commercial & Professional Services Index is an appropriate third party published industry index since it measures the performance of professional services companies.

**Overview**

We are a leading global provider of professional infrastructure consulting and advisory services for governments, businesses and organizations throughout the world. We provide advisory, planning, consulting, architectural and engineering design, construction and program management services, and investment and development services to public and private clients worldwide in major end markets such as transportation, facilities, water, environmental, and energy.

Our business focuses primarily on providing fee-based knowledge-based services. We primarily derive income from our ability to generate revenue and collect cash from our clients through the billing of our employees' time spent on client projects and our ability to manage our costs. AECOM Capital primarily derives its income from real estate development sales and management fees.

We report our continuing business through three segments, each of which is described in further detail below: Americas, International, and AECOM Capital (ACAP). Such segments are organized by the differing specialized needs of the respective clients, and how we manage the business. We have aggregated various operating segments into our reportable segments based on their similar characteristics, including similar long-term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

- *Americas:* Planning, advisory, consulting, architectural and engineering design, construction management and program management services to public and private clients in the United States, Canada, and Latin America in major end markets such as transportation, water, government, facilities, environmental, and energy.

- *International:* Planning, advisory, consulting, architectural and engineering design services, site supervision and program management to public and private clients in Europe, the Middle East, India, Africa and the Asia-Australia-Pacific regions in major end markets such as transportation, water, government, facilities, environmental, and energy.

- *AECOM Capital (ACAP):* Primarily invests in and develops real estate projects.

Our revenue is dependent on our ability to attract and retain qualified and productive employees, identify business opportunities, allocate our labor resources and capital to profitable and high growth markets, secure new contracts, and renew existing client agreements. Demand for our services may be vulnerable to sudden economic downturns and reductions in government and private industry spending, which may result in clients delaying, curtailing or canceling proposed and existing projects. Moreover, as a professional services company, maintaining the high quality of the work generated by our employees is integral to our revenue generation and profitability. Given the global nature of our business, our revenue is exposed to currency rate fluctuations that could change from period to period and year to year.

Our costs consist primarily of the compensation we pay to our employees, including salaries, fringe benefits, the costs of hiring subcontractors, other project-related expenses and sales, general and administrative costs.

At September 30, 2025, we had approximately $644.4 million remaining of the Board's repurchase authorization. On November 15, 2024, the Board approved an increase in our stock repurchase authorization to $1.0 billion. We intend to deploy future available cash towards dividends and stock repurchases consistent with our returns driven capital allocation policy.

We have exited substantially all of our self-perform at-risk construction businesses. As part of our ongoing plan to improve profitability and maintain a reduced risk profile, we continuously evaluate our geographic exposure.

We completed a transaction that transitioned the AECOM Capital team to a new third-party platform in the third quarter of fiscal 2024. Members of the legacy team continue to support AECOM Capital's investment vehicles pursuant to certain advisory agreements in a manner consistent with their historical responsibilities.

**Acquisitions**

There were two business acquisition consummated during the year ended September 30, 2025. There was one acquisition consummated during the year ended September 30, 2024 and there was no acquisition consummated during the year ended September 30, 2023.

All of our business acquisitions have been accounted for as business combinations and the results of operations of the acquired companies have been included in our consolidated results since the dates of the acquisitions. Those results of operations were not material to our consolidated results.

***Revenue***

We generate revenue primarily by providing planning, consulting, advisory, architectural and engineering design, construction management and program management services to public and private clients around the world. Our revenue consists of both services provided by our employees and pass-through revenues from subcontractors and other direct costs. We generally recognize revenue over time as performance obligations are satisfied and control over promised goods or services are transferred to our customers. We generally measure progress to completion using an input measure of total costs incurred divided by total costs expected to be incurred.

***Cost of Revenue***

Cost of revenue reflects the cost of our own personnel (including fringe benefits and overhead expense) and fees from subcontractors and other direct costs associated with revenue.

***Equity in Earnings of Joint Ventures***

Equity in earnings of joint ventures includes our portion of fees charged by our unconsolidated joint ventures to clients for services performed by us and other joint venture partners along with earnings we receive from our return on investments in unconsolidated joint ventures.

***General and Administrative Expenses***

General and administrative expenses include corporate expenses, including personnel, occupancy, and administrative expenses.

***Restructuring and Acquisition Costs***

Restructuring and acquisition costs are comprised of personnel and other costs, real estate costs, and costs associated with business exits and acquisitions primarily related to actions that are expected to deliver continued margin expansion and operating efficiencies.

***Geographic Information***

For geographic financial information, please refer to Note 4 and Note 19 in the notes to our consolidated financial statements found elsewhere in the Form 10-K.

**Critical Accounting Estimates**

Our accounting policies, including those described below, often require management to make significant estimates and assumptions using information available at the time the estimates are made. Such estimates and assumptions significantly affect various reported amounts of assets, liabilities, revenue and expenses. If future experience differs significantly from these estimates and assumptions, our results of operations and financial condition could be affected. Our most critical accounting policies and estimates are described below. We have not materially changed our estimation methodology during the period presented.

***Revenue Recognition***

Our accounting policies establish principles for recognizing revenue upon the transfer of control of promised goods or services to customers. We generally recognize revenues over time as performance obligations are satisfied. We generally measure our progress to completion using an input measure of total costs incurred divided by total costs expected to be incurred. In the course of providing these services, we routinely subcontract for services and incur other direct cost on behalf of our clients. These costs are passed through to clients and, in accordance with accounting rules, are included in our revenue and cost of revenue.

Revenue recognition and profit is dependent upon a number of factors, including the accuracy of a variety of estimates made at the balance sheet date, such as engineering progress, material quantities, the achievement of milestones, penalty provisions, labor productivity and cost estimates. Additionally, we are required to make estimates for the amount of consideration to be received, including bonuses, awards, incentive fees, claims, unpriced change orders, penalties and liquidated damages. Variable consideration is included in the estimate of transaction price only to the extent that a significant reversal would not be probable. We continuously monitor factors that may affect the quality of our estimates, and material changes in estimates are disclosed accordingly.

***Claims Recognition***

Claims are amounts in excess of the agreed contract price (or amounts not included in the original contract price) that we seek to collect from customers or others for delays, errors in specifications and designs, contract terminations, change orders in dispute or unapproved contracts as to both scope and price or other causes of unanticipated additional costs. Judgment is required to estimate the amount, if any, of revenue to be recognized on claims. We record contract revenue related to claims only if it is probable that the claim will result in additional contract revenue and only to the extent that a significant reversal would not be probable. The amounts recorded, if material, are disclosed in the notes to the financial statements. Costs attributable to claims are treated as costs of contract performance as incurred.

***Income Taxes***

We provide for income taxes in accordance with principles contained in ASC Topic 740, *Income Taxes*. Under these principles, we recognize the amount of income tax payable or refundable for the current year and deferred tax assets and liabilities for the future tax consequences of events that have been recognized in our financial statements or tax returns.

Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period when the new rate is enacted. Deferred tax assets are evaluated for future realization and reduced by a valuation allowance if it is more likely than not that a portion will not be realized.

We measure and recognize the amount of tax benefit that should be recorded for financial statement purposes for uncertain tax positions taken or expected to be taken in a tax return. With respect to uncertain tax positions, we evaluate the recognized tax benefits for recognition, measurement, derecognition, classification, interest and penalties, interim period accounting and disclosure requirements. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns.

*Valuation Allowance.* Deferred income taxes are provided on the liability method whereby deferred tax assets and liabilities are established for the difference between the financial reporting and income tax basis of assets and liabilities, as well as for tax attributes such as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and tax rates on the date of enactment of such changes to laws and tax rates.

Deferred tax assets are reduced by a valuation allowance when, in our opinion, it is more likely than not that some portion or all of the deferred tax assets may not be realized. The evaluation of the recoverability of the deferred tax asset

requires the Company to weigh all positive and negative evidence to reach a conclusion that it is more likely than not that all or some portion of the deferred tax assets will not be realized. The weight given to the evidence is commensurate with the extent to which it can be objectively verified. Whether a deferred tax asset may be realized requires considerable judgment by us. In considering the need for a valuation allowance, we consider a number of factors including the nature, frequency, and severity of cumulative financial reporting losses in recent years, the future reversal of existing temporary differences, predictability of future taxable income exclusive of reversing temporary differences of the character necessary to realize the asset, relevant carryforward periods, taxable income in carry-back years if carry-back is permitted under tax law, and prudent and feasible tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax asset that would otherwise expire. Whether a deferred tax asset will ultimately be realized is also dependent on varying factors, including, but not limited to, changes in tax laws and audits by tax jurisdictions in which we operate.

If future changes in judgment regarding the realizability of our deferred tax assets lead us to determine that it is more likely than not that we will not realize all or part of our deferred tax asset in the future, we will record an additional valuation allowance. Conversely, if a valuation allowance exists and we determine that the ultimate realizability of all or part of the net deferred tax asset is more likely than not to be realized, then the amount of the valuation allowance will be reduced. This adjustment will increase or decrease income tax expense in the period of such determination.

*Undistributed Non-U.S. Earnings.* The results of our operations outside of the United States are consolidated for financial reporting; however, earnings from investments in non-U.S. operations are included in domestic U.S. taxable income only when actually or constructively received. No deferred taxes have been provided on the undistributed gross book-tax basis differences of our non-U.S. operations of approximately $1.1 billion because we have the ability to and intend to permanently reinvest these basis differences overseas. If we were to repatriate these basis differences, additional taxes could be due at that time.

We continually explore initiatives to better align our tax and legal entity structure with the footprint of our non-U.S. operations and we recognize the tax impact of these initiatives, including changes in assessment of its uncertain tax positions, indefinite reinvestment exception assertions and realizability of deferred tax assets, earliest in the period when management believes all necessary internal and external approvals associated with such initiatives have been obtained, or when the initiatives are materially complete.

***Accrued Professional Liability Costs***

We carry professional liability insurance policies or self-insure for our initial layer of professional liability claims under our professional liability insurance policies and for a deductible for each claim even after exceeding the self-insured retention. We accrue for our portion of the estimated ultimate liability for the estimated potential incurred losses. We establish our estimate of loss for each potential claim in consultation with legal counsel handling the specific matters and based on historic trends taking into account recent events. We also use an outside actuarial firm to assist us in estimating our future claims exposure. It is possible that our estimate of loss may be revised based on the actual or revised estimate of liability of the claims.

***Revenue***

Our revenue for the year ended September 30, 2025 increased $34.1 million, or 0.2%, to $16,139.6 million as compared to $16,105.5 million for the corresponding period last year.

The portion of revenue excluding pass-through revenues attributable to subcontractors increased for the year ended September 30, 2025. Underlying revenue excluding pass-through revenues increased across most of our end markets as a result of increased investment by large, publicly financed, global infrastructure programs including the Infrastructure Investment and Jobs Act in the U.S. and similar large programs in our largest end markets globally. Our Water end market has been benefiting from increased investment to address drought, flooding, emerging containment remediation, water storage, and clean and safe drinking water. Our Transportation end market has been benefitting from incremental investments across the globe to modernize transportation infrastructure and address growth and urbanization trends, while our Environment end market has been benefiting from infrastructure that requires permitting and compliance, and remediation as well as investments in energy. Our Facilities end market has been benefiting from positive public sector investment, trends in asset maintenance and repositioning as well as demand for modern, efficient facilities. The quantification of the impact of these trends by end market is noted within our Americas and International reportable segments discussion below, where applicable, and represents substantially all of our revenue change.

In the course of providing our services, we routinely subcontract for services and incur other direct costs on behalf of our clients. These costs are passed through to clients and, in accordance with industry practice and GAAP, are included in our revenue and cost of revenue. Because these pass-through revenues can change significantly from project to project and period to period, changes in revenue may not be indicative of business trends. Pass-through revenues for the years ended September 30, 2025 and 2024 were $8.6 billion and $8.9 billion, respectively. Pass-through revenue as a percentage of total revenue was 53% and 56% during the year ended September 30, 2025 and 2024, respectively.

***Cost of Revenue***

Our cost of revenue decreased to $14,922.9 million for the year ended September 30, 2025 compared to $15,021.2 million for the corresponding period last year, a decrease of $98.3 million, or 0.7%.

Substantially all of the change in our cost of revenue for the year ended September 30, 2025 occurred in our Americas and International reportable segments, which is discussed in more detail below.

***Gross Profit***

Our gross profit for the year ended September 30, 2025 increased $132.4 million, or 12.2%, to $1,216.7 million as compared to $1,084.3 million for the corresponding period last year. For the year ended September 30, 2025, gross profit, as a percentage of revenue, increased to 7.5% from 6.7% in the year ended September 30, 2024.

Gross profit changes were due to the reasons noted in Americas and International reportable segments below.

***Equity in Earnings of Joint Ventures***

Our equity in earnings of joint ventures for the year ended September 30, 2025 was $27.0 million as compared to $2.1 million in the corresponding period last year.

The increase in equity in earnings of joint ventures for the year ended September 30, 2025 compared to the same period in the prior year was primarily due to impairment losses recorded by our AECOM Capital segment in fiscal 2024 that did not repeat in fiscal 2025.

***General and Administrative Expenses***

Our general and administrative expenses for the year ended September 30, 2025 decreased $2.3 million, or 1.4%, to $157.8 million as compared to $160.1 million for the corresponding period last year. For the year ended September 30, 2025, general and administrative expenses as a percentage of revenue decreased to 0.9% from 1.0% for the corresponding period last year.

The decrease in general and administrative expenses for the year ended September 30, 2025 was primarily due to ongoing efforts to drive efficiencies and streamline operations.

***Restructuring and Acquisition Costs***

Restructuring and acquisition costs are comprised of personnel costs, real estate costs, and costs associated with business acquisitions and exits. During the fiscal year ended September 30, 2025, we incurred total restructuring expenses of $59.4 million primarily related to actions taken for acquisitions and optimizing our organization structure. During fiscal year ended September 30, 2024, we incurred total restructuring expenses of $98.9 million primarily related to costs incurred to continue to align our real estate portfolio with our employee flexibility initiatives, continue our exit of certain countries in Southeast Asia, drive support function efficiency, and reduce our risk profile.

***Other Income***

Our other income for the year ended September 30, 2025 decreased to $10.5 million from $17.6 million for the corresponding period last year.

The decrease in other income for the year ended September 30, 2025 was primarily due to the decrease in fair value of our investments measured at fair value.

***Interest Income***

Our interest income for the year ended September 30, 2025 increased to $62.9 million from $58.6 million for the corresponding period last year.

The increase in interest income for the year ended September 30, 2025 was primarily due to an increase in our interest-bearing assets.

***Interest Expense***

Our interest expense for the year ended September 30, 2025 was $184.3 million as compared to $185.4 million for the corresponding period last year.

The decrease in interest expense for the year ended September 30, 2025 was primarily due to additional financing charges recorded in fiscal 2024 related to the New Credit Facilities, defined below, that did not repeat in the current fiscal year.

***Income Tax Expense***

Our income tax expense for the year ended September 30, 2025 was $204.0 million compared to $152.9 million for the year ended September 30, 2024. The increase in tax expense for the current period compared to the corresponding period last year was due primarily to the tax impact of an increase in pre-tax income of $197.4 million, an increase in tax expense of $28.1 million related to changes in uncertain tax positions, an increase in tax expense of $24.6 million related to state income taxes, a reduction in tax expense of $20.2 million related to the sale of ACAP investments in fiscal 2024, and a tax benefit of $20.1 million related to deferred tax assets recognized due to legal entity restructuring implemented in fiscal 2025.

During fiscal 2025, we recorded a reserve of $47.0 million related to uncertain tax positions associated with federal and state tax credits claimed for years subject to examination by the tax authorities. The reserve reflects our assessment that it is more likely than not that a portion of the credits may not be sustained under examination based on recent discussions and developments related to our ongoing audits.

During fiscal 2025, we recognized deferred tax assets of $20.1 million related to legal entity restructuring. The restructuring resulted in the recognition of deferred tax assets related to tax attributes that are expected to be utilized against future taxable income.

During fiscal 2024, we recorded an increase in tax benefit of $38.4 million related to state income taxes due to apportionment factor changes for fiscal years 2016 through 2023. This benefit was partially offset by an increase in tax expense of $23.0 million related to uncertain tax positions.

During fiscal 2024, we sold certain ACAP investments and recorded a reduction in valuation allowances of $21.0 million and a reduction in deferred tax assets of $20.2 million. In addition, we recorded a valuation allowance of $9.3 million related to the remaining ACAP investments.

During fiscal 2024, we approved a tax planning strategy and restructured certain operations in Canada which resulted in a release of a valuation allowance related to net operating losses and other deferred tax assets of $11.7 million.

During fiscal 2024, we settled the tax audit in Hong Kong for fiscal year 2011 through fiscal year 2021 and recorded a tax benefit of $6.9 million due primarily to changes in uncertain tax positions.

During fiscal 2023, valuation allowances in the amount of $21.0 million related to the ACAP impairment charge were established for the portion of the charge that is not expected to be realized.

The OECD has introduced the Base Erosion and Profit Shifting (BEPS) 2.0 framework which includes Pillar 2. Pillar 2 introduces a 15% global minimum tax for large multinational enterprises in each of the jurisdictions that they operate. Many countries have enacted the Pillar 2 global minimum tax regime including some countries where we operate. The implementation of Pillar 2 does not have a material impact on our consolidated financial statements for fiscal 2025. The company is actively monitoring developments related to Pillar 2 and will continue to assess the impact.

On July 4, 2025, the U.S. government enacted the One Big Beautiful Bill Act which permanently extends many provisions of the Tax Cuts and Jobs Act of 2017 and introduces new tax provisions relevant for multinational businesses. Most of the new provisions take effect starting in fiscal 2026. Based on our assessment, we do not expect the legislation to have a material impact on our consolidated financial statements.

We are currently under tax audit in several jurisdictions including the U.S. where our federal income tax returns for fiscal 2017 through 2020 are being examined by the IRS. Disputes can arise with tax authorities involving issues related

to the timing of deductions, the calculation and use of credits, and the taxation of income in various tax jurisdictions because of differing interpretations or application of tax laws, regulations, and relevant facts. The IRS is currently auditing certain tax credits and the methodology for calculating the credits. We will continue to monitor developments related to the examination and will adjust the reserve as necessary based on changes in facts and circumstances, including the resolution of the audit.

We regularly integrate and consolidate our business operations and legal entity structure, and such internal initiatives could impact the assessment of uncertain tax positions, indefinite reinvestment assertions and the realizability of deferred tax assets.

***Net Loss From Discontinued Operations***

During the first quarter of fiscal 2020, management approved a plan to dispose of via sale our self-perform at-risk construction businesses. As a result of these strategic actions, the self-perform at-risk construction businesses were classified as discontinued operations.

Net loss from discontinued operations was $75.4 million for the year ended September 30, 2025 compared to $105.0 million for the year ended September 30, 2024, a decrease of $29.6 million.

The decrease in net loss from discontinued operations for the year ended September 30, 2025 was primarily due to the settlement of contingent consideration related to the sale of our civil infrastructure construction business in fiscal 2024 that did not recur in fiscal 2025 partially offset by a revision to estimated recoveries on a refinery turnaround project resulting from unfavorable court orders that occurred in fiscal 2025.

***Net Income Attributable to AECOM***

The factors described above resulted in the net income attributable to AECOM of $561.8 million for the year ended September 30, 2025, as compared to the net income attributable to AECOM of $402.3 million for the year ended September 30, 2024.

Revenue for the year ended September 30, 2025 decreased primarily due to a $66.3 million decrease in pass-through revenues on contracts for which we subcontract work on behalf of our client compared to the corresponding period in the prior year. The decrease in revenue was primarily attributable to a $67.9 million, or 5.2%, decrease in our Transportation end market, partially offset by growth in our Water and Environment end market of $40.2 million, or 5.2%, and in our Transportation end market of $18.8 million, or 1.3%, compared to the corresponding period last year, which have benefited from the end market trends discussed in the consolidated revenue section above.

***AECOM Capital***

| | Fiscal Year Ended | | | |
|---|---|---|---|---|
| | September 30, 2025 | September 30, 2024 | Change | |
| | | | $ | % |
| | (in millions) | | | |
| Revenue | $ 0.5 | $ 1.4 | $ (0.9) | (64.3)% |

| General and administrative expenses | $ (9.0) | $ (15.0) | $ 6.0 | (40.0)% |

Equity in losses of joint ventures for the year ended September 30, 2025 was $0.5 million compared to a loss of $26.9 million for the corresponding period last year. The change in equity in losses of joint ventures for the year ended September 30, 2025 was primarily due to impairment losses of $35.9 million recognized in the fiscal 2024 that did not repeat in fiscal 2025.

The decrease of $6.0 million in general and administrative expenses for the year ended September 30, 2025 compared to the corresponding period last year was due to nonrecurring expenses related to the evaluation of strategic options and the transition of the AECOM Capital business to a third-party platform that occurred in fiscal year 2024 but did not repeat in fiscal year 2025.

**Liquidity and Capital Resources**

***Cash Flows***

Our principal sources of liquidity are cash flows from operations, borrowings under our credit facilities, and access to financial markets. Our principal uses of cash are operating expenses, capital expenditures, working capital requirements, acquisitions, repurchases of common stock, dividend payments, and refinancing or repayment of debt. We believe our anticipated sources of liquidity including operating cash flows, existing cash and cash equivalents, borrowing capacity under our revolving credit facility and our ability to issue debt or equity, if required, will be sufficient to meet our projected cash requirements for at least the next twelve months. We expect to spend approximately $45 million for restructuring in fiscal 2026 associated with restructuring actions taken in prior periods that are expected to deliver continued margin improvement and efficiencies.

Generally, we do not provide for U.S. taxes or foreign withholding taxes on gross book-tax basis differences in our non-U.S. subsidiaries because such basis differences are able to and intended to be reinvested indefinitely. At September 30, 2025, we have determined that we will continue to indefinitely reinvest the earnings of some foreign subsidiaries and, therefore, we will continue to account for these undistributed earnings based on our existing accounting

under ASC 740 and not accrue additional tax. Determination of the amount of any unrecognized deferred income tax liability on this temporary difference is not practicable because of the complexities of the hypothetical calculation. Based on the available sources of cash flows discussed above, we anticipate we will continue to have the ability to permanently reinvest these remaining amounts.

At September 30, 2025, cash and cash equivalents were $1,585.7 million, an increase of $0.9 million, or 0.1%, from $1,584.9 million at September 30, 2024, which included cash and cash equivalents included in current assets held for sale in fiscal year 2024.

Net cash provided by operating activities was $821.6 million for the year ended September 30, 2025 as compared to $827.5 million for the year ended September 30, 2024. The change was primarily attributable to an increase in net income of approximately $176.0 million and cash provided by changes in working capital of $8.3 million, offset by a decrease in adjustments for non-cash items of approximately $190.1 million. The sale of trade receivables to financial institutions included in operating cash flows decreased $38.0 million during the year ended September 30, 2025 compared to the year ended September 30, 2024. We expect to continue to sell trade receivables in the future as long as the terms continue to remain favorable to us.

Net cash used in investing activities was $413.2 million for the year ended September 30, 2025, as compared to $210.6 million for the year ended September 30, 2024. The change was primarily attributable to cash payments for business acquisitions, net of cash acquired, of $212.5 million in fiscal year 2025 compared to $18.7 million in fiscal year 2024.

Net cash used in financing activities was $403.7 million for the year ended September 30, 2025, as compared to $295.5 million for the year ended September 30, 2024. The change from the prior year was primarily attributable to $320.1 million in net cash proceeds pursuant to Amendment No. 14 of the Credit Agreement that occurred in the third quarter of fiscal 2024, partially offset by the $191.3 million of net additional borrowings in fiscal year 2025 from the issuance of the 2033 Senior Notes and the redemption of the 2027 Senior Notes. Total borrowings under our Credit Agreement may vary during the period as we regularly draw and repay amounts to fund working capital.

***Working Capital***

Working capital, or current assets less current liabilities, decreased $119.7 million, or 17.6%, to $801.4 million at September 30, 2025 from $681.7 million at September 30, 2024. Net accounts receivable and contract assets, net of contract liabilities, decreased to $3,194.4 million at September 30, 2025 from $3,301.4 million at September 30, 2024.

Days Sales Outstanding (DSO), which includes net accounts receivable and contract assets, net of contract liabilities, was 74 days at September 30, 2025 compared to 70 days at September 30, 2024.

In Note 4, Revenue Recognition, in the notes to our consolidated financial statements, a comparative analysis of the various components of accounts receivable is provided. Except for claims, substantially all contract assets are expected to be billed and collected within twelve months.

Contract assets related to claims are recorded only if it is probable that the claim will result in additional contract revenue and if the amount can be reliably estimated. In such cases, revenue is recorded only to the extent that contract costs relating to the claim have been incurred. Award fees in contract assets are accrued only when there is sufficient information to assess contract performance. On contracts that represent higher than normal risk or technical difficulty, award fees are generally deferred until an award fee letter is received.

Because our revenue depends to a great extent on billable labor hours, most of our charges are invoiced following the end of the month in which the hours were worked, the majority usually within 15 days. Other direct costs are normally billed along with labor hours. However, as opposed to salary costs, which are generally paid on either a bi-weekly or monthly basis, other direct costs are generally not paid until payment is received (in some cases in the form of advances) from the customers.

*Credit Agreement*

On April 19, 2024, we entered into Amendment No. 14 to Syndicated Facility Agreement (as amended, modified or otherwise supplemented, the "Credit Agreement"), pursuant to which we obtained a new $1,500,000,000 revolving credit facility (the "New Revolving Credit Facility"), a new $750,000,000 term loan A facility (the "New Term A Facility" and, together with the New Revolving Credit Facility, the "New Pro Rata Facilities") and a new $700,000,000 term loan B facility (the "New Term B Facility" and, together with the New Pro Rata Facilities, the "New Credit Facilities"). The New Revolving Credit Facility and the New Term A Facility mature on April 19, 2029. The New Term B Facility matures on April 19, 2031. The New Term A Facility and the New Term B Facility were borrowed in full on April 19, 2024 in U.S. dollars. Loans under the New Revolving Credit Facility may be borrowed, and letters of credit thereunder may be issued, in U.S. dollars or in certain foreign currencies. The New Credit Facilities replace in full our then-existing revolving credit facility, term loan A facility and term loan B facility, and borrowings under the New Credit Facilities were used to refinance in full our existing credit facilities and for general corporate purposes. The Credit Agreement permits us to designate certain of our subsidiaries as additional co-borrowers from time to time. Currently, there are no co-borrowers under the New Credit Facilities. On October 29, 2024, we entered into Amendment No. 15 to Syndicated Facility Agreement, pursuant to which we reduced the interest rate spread applicable to our New Term B Facility.

Borrowings under (a) the New Revolving Credit Facility (in U.S. dollars) and the New Term A Facility bear interest at a rate per annum equal to, at our option, (i) a Term SOFR rate (with a 0% floor and SOFR adjustment of 0.10%) or (ii) a base rate (with a 0% floor), in each case, as of September 30, 2025 plus an applicable margin of 1.225% in the case of the Term SOFR rate and 0.225% in the case of the base rate, and (b) the New Revolving Credit Facility in currencies other than U.S. dollars bear interest at a rate per annum equal to the applicable reference rate for such currency (including any related adjustments), plus an applicable margin of 1.225%. The applicable margin is subject, in each case, to adjustment based on the Company's consolidated leverage ratio from time to time.

Borrowings under the New Term B Facility, after giving effect to Amendment No. 15 to Syndicated Facility Agreement, bear interest at a rate per annum equal to, at our option, (a) a Term SOFR rate (with a 0% floor and a SOFR adjustment of 0%) or (b) a base rate (with a 0% floor), in each case, plus an applicable margin of 1.75% in the case of the Term SOFR rate and 0.75% in the case of the base rate.

Certain of our material subsidiaries (the "Guarantors") have guaranteed our obligations of the borrowers under the Credit Agreement, subject to certain exceptions. The borrowers' obligations under the Credit Agreement are secured by a lien on substantially all of our assets and the Guarantors' assets, subject to certain exceptions.

The Credit Agreement contains customary negative covenants that include, among other things, limitations on our ability and certain of our subsidiaries, subject to certain exceptions, to incur liens and debt, make investments, dispositions, and restricted payments, change the nature of our business, consummate mergers, consolidations and the sale of all or substantially all of our respective assets and transact with affiliates. We are also required to maintain a consolidated leverage ratio of less than or equal to 4.00 to 1.00 (subject to certain adjustments in connection with permitted acquisitions), tested on a quarterly basis (the "Financial Covenant"). The Financial Covenant does not apply to the New Term B Facility. As of September 30, 2025, we were in compliance with the covenants of the Credit Agreement.

The Credit Agreement contains customary affirmative covenants, including, among other things, compliance with applicable law, preservation of existence, maintenance of properties and of insurance, and keeping proper books and records. The Credit Agreement contains customary events of default, including, among other things, nonpayment of principal, interest or fees, cross-defaults to other debt, inaccuracies of representations and warranties, failure to perform covenants, events of bankruptcy and insolvency, change of control and unsatisfied judgments, subject in certain cases to notice and cure periods and other exceptions.

At September 30, 2025 and September 30, 2024, letters of credit totaled $4.4 million and $4.4 million, respectively, under our New Revolving Credit Facility. As of September 30, 2025 and September 30, 2024, we had $1,495.6 million and $1,495.6 million, respectively, available under our New Revolving Credit Facility.

*2027 Senior Notes*

On February 21, 2017, we completed a private placement offering of $1,000,000,000 aggregate principal amount of our unsecured 5.125% Senior Notes due 2027 (the "2027 Senior Notes"). On June 30, 2017, we completed an exchange offer to exchange the unregistered 2027 Senior Notes for registered notes, as well as related guarantees. In July 2025, we used a portion of the proceeds of the 2033 Senior Notes (defined below) to purchase $732,914,000 in principal amount of the 2027 Senior Notes that were validly tendered and not validly withdrawn at or prior to the expiration date of our tender offer for the 2027 Senior Notes. In August 2025, we redeemed the remaining 2027 Senior Notes with a portion of the proceeds of the 2033 Senior Notes. The purchase and redemption included an aggregate make-whole payment of $9.1 million.

*2033 Senior Notes*

On July 22, 2025, we completed an offering of $1,200,000,000 aggregate principal amount of our 6.000% Senior Notes due 2033 (the "2033 Senior Notes"). As of September 30, 2025, the estimated fair value of the 2033 Senior Notes was approximately $1,227.0 million. The fair value of the 2033 Senior Notes as of September 30, 2025 was derived by taking the mid-point of the trading prices from an observable market input (Level 2) in the secondary bond market and multiplying it by the outstanding balance of the 2033 Senior Notes.

Interest will be payable on the 2033 Senior Notes at a rate of 6.000% per annum. Interest on the 2033 Senior Notes will be payable semi-annually in arrears on February 1 and August 1 of each year, commencing on February 1, 2026. The 2033 Senior Notes will mature on August 1, 2033.

Prior to August 1, 2028, we may redeem all or part of the 2033 Senior Notes at a redemption price equal to 100% of the principal amount to be redeemed, plus a "make whole" premium as of the redemption date, and accrued and unpaid interest to, but excluding, the redemption date. In addition, prior to August 1, 2028, we may redeem up to 40% of the aggregate principal amount of the 2033 Senior Notes with proceeds from certain equity offerings at a redemption price equal to 106% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. Furthermore, at any time on or after August 1, 2028, we may redeem on one or more occasions all or part of the 2033 Senior Notes at the redemption prices set forth below, plus accrued and unpaid interest thereon to, but excluding, the redemption date, if redeemed during the 12-month period beginning on August 1 of each of the years indicated below:

| | Percentage |
|---|---|
| 2028 | 103.000% |
| 2029 | 101.500% |
| 2030 and thereafter | 100.000% |

The indenture pursuant to which the 2033 Senior Notes were issued contains customary events of default, including, among other things, payment default, failure to provide certain notices thereunder and certain provisions related to bankruptcy events. The indenture also contains customary negative covenants.`

*Other Debt and Other Items*

Other debt consists primarily of obligations under capital leases and loans and unsecured credit facilities. The unsecured credit facilities are primarily used for standby letters of credit issued in connection with general and professional liability insurance programs and for contract performance guarantees. At September 30, 2025 and September 30, 2024, these outstanding standby letters of credit totaled $899.4 million and $934.5 million. As of September 30, 2025, we had $367.4 million available under these unsecured credit facilities.

*Effective Interest Rate*

Our average effective interest rate on our total debt, including the effects of the interest rate swap and interest rate cap agreements, during the years ended September 30, 2025, 2024 and 2023 was 5.1%, 5.6% and 5.3%, respectively.

Interest expense in the consolidated statements of operations included amortization of deferred debt issuance costs for the years ended September 30, 2025, 2024 and 2023 of $7.4 million, $7.6 million and $4.9 million, respectively.

*Other Commitments*

We enter into various joint venture arrangements to provide architectural, engineering, program management, construction management and operations and maintenance services. The ownership percentage of these joint ventures is typically representative of the work to be performed or the amount of risk assumed by each joint venture partner. Some of these joint ventures are considered variable interest entities. We have consolidated all joint ventures for which we have control. For all others, our portion of the earnings is recorded in equity in earnings of joint ventures. See Note 6, Joint Ventures and Variable Interest Entities, in the notes to our consolidated financial statements.

Other than normal property and equipment additions and replacements, expenditures to further the implementation of our various information technology systems, commitments under our incentive compensation programs, amounts we may expend to repurchase stock under our stock repurchase program and acquisitions from time to time and disposition costs, we currently do not have any significant capital expenditures or outlays planned except as described below. However, if we acquire additional businesses in the future or if we embark on other capital-intensive initiatives, additional working capital may be required.

Under our secured revolving credit facility and other facilities discussed in Other Debt and Other Items above, as of September 30, 2025, there was approximately $903.8 million including both continuing and discontinued operations, outstanding under standby letters of credit primarily issued in connection with general and professional liability insurance programs and for contract performance guarantees. For those projects for which we have issued a performance guarantee, if the project subsequently fails to meet guaranteed performance standards, we may either incur significant additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards.

We recognized on our balance sheet the funded status of our pension benefit plans, measured as the difference between the fair value of plan assets and the projected benefit obligation. At September 30, 2025, our defined benefit pension plans had an aggregate deficit (the excess of projected benefit obligations over the fair value of plan assets) of approximately $89.4 million. The total amounts of employer contributions paid for the year ended September 30, 2025 were $10.6 million for U.S. plans and $23.7 million for non-U.S. plans. Funding requirements for each plan are determined based on the local laws of the country where such plan resides. In some countries, the funding requirements are mandatory while in other countries, they are discretionary. There is a required minimum contribution for one of our domestic plans; however, we may make additional discretionary contributions. In the future, such pension funding may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors. In addition, we have

collective bargaining agreements with unions that require us to contribute to various third-party multiemployer plans that we do not control or manage. For the year ended September 30, 2025, we contributed $2.7 million to multiemployer pension plans.

***Condensed Combined Financial Information***

The 2027 Senior Notes are fully and unconditionally guaranteed on a joint and several basis by some of AECOM's directly and indirectly 100% owned subsidiaries (the Subsidiary Guarantors). Accordingly, AECOM became subject to the requirements of Rule 3-10 of Regulation S-X, as amended, regarding financial statements of guarantors and issuers of guaranteed securities. Other than customary restrictions imposed by applicable statutes, there are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to AECOM in the form of cash dividends, loans or advances.

The following tables present condensed combined summarized financial information for AECOM and the Subsidiary Guarantors. All intercompany balances and transactions are eliminated in the presentation of the combined financial statements. Amounts provided do not represent our total consolidated amounts as of September 30, 2025 and for the twelve months then ended.

***Commitments and Contingencies***

We record amounts representing our probable estimated liabilities relating to claims, guarantees, litigation, audits and investigations. We rely in part on qualified actuaries to assist us in determining the level of reserves to establish for insurance-related claims that are known and have been asserted against us, and for insurance-related claims that are believed to have been incurred based on actuarial analysis, but have not yet been reported to our claims administrators as of the respective balance sheet dates. We include any adjustments to such insurance reserves in our consolidated results of operations. Our reasonably possible loss disclosures are presented on a gross basis prior to the consideration of insurance recoveries. We do not record gain contingencies until they are realized. In the ordinary course of business, we may not be aware that we or our affiliates are under investigation and may not be aware of whether or not a known investigation has been concluded.

In the ordinary course of business, we may enter into various arrangements providing financial or performance assurance to clients, lenders, or partners. Such arrangements include standby letters of credit, surety bonds, and corporate guarantees to support the creditworthiness or the project execution commitments of its affiliates, partnerships and joint ventures. The Company's unsecured credit arrangements are used for standby letters of credit issued in connection with general and professional liability insurance programs and for contract performance guarantees. At September 30, 2025 and 2024, these outstanding standby letters of credit totaled $899.4 million and $934.5 million, respectively. As of September 30, 2025, the Company had $367.4 million available under these unsecured credit facilities. Performance arrangements typically have various expiration dates ranging from the completion of the project contract and extending beyond contract completion in some circumstances such as for warranties. The Company may also guarantee that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, the Company may incur additional costs, pay liquidated damages or be held responsible for the costs incurred by the client to achieve the required performance standards. The potential payment amount of an outstanding performance arrangement is typically the remaining cost of work to be performed by or on behalf of third parties. Generally, under joint venture arrangements, if a partner is financially unable to complete its share of the contract, the other partner(s) may be required to complete those activities

At September 30, 2025, we were contingently liable in the amount of approximately $903.8 million in issued standby letters of credit and $5.6 billion in issued surety bonds primarily to support project execution.

In the ordinary course of business, we enter into various agreements providing financial or performance assurances to clients on behalf of certain unconsolidated partnerships, joint ventures and other jointly executed contracts. These agreements are entered into primarily to support the project execution commitments of these entities.

Our investment adviser jointly manages and sponsors the AECOM-Canyon Equity Fund, L.P. (the "Fund"), in which we indirectly hold an equity interest and have an ongoing capital commitment to fund investments. At September 30, 2025, the Company has capital commitments of $5.1 million to the Fund over the next three years.

In addition, in connection with the investment activities of AECOM Capital, we provide guarantees of certain contractual obligations, including guarantees for completion of projects, limited debt repayment, environmental indemnity obligations and other lender required guarantees.

In February 2024, we were informed of a potential liability as one of the indemnitors on a divested business' surety bonds. We do not have sufficient information to determine the range of potential impacts, however, it is reasonably possible that we may incur additional costs related to these bonds.

In connection with the resolution of contingencies related to the sale of the civil infrastructure construction business, we agreed to act as an additional guarantor on the counterparty's existing debt, which was extended to March 2028.

***Contractual Obligations and Commitments***

The following summarizes our contractual obligations and commercial commitments as of September 30, 2025:

**New Accounting Pronouncements and Changes in Accounting**

In November 2023, the Financial Accounting Standards Board (FASB) amended the guidance of Accounting Standards Codification (ASC) 280, *Segment Reporting*, requiring public entities to disclose significant segment expenses and other segment items on an interim basis. The new guidance is effective for the Company for its annual financial statements in fiscal year 2025 and for its interim financial statements in fiscal year 2026. The adoption of the new guidance did not significantly impact our financial presentation.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes* (Topic 740): *Improvements to Income Tax Disclosures*, which includes amendments that further enhance the income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid. The update also includes certain other amendments to improve the effectiveness of income tax disclosures. The amendments are effective for the Company's annual periods beginning October 1, 2025, with early adoption permitted. We are currently evaluating the impact that the adoption of this new guidance will have on our financial statement presentation.

In November 2024, the FASB issued ASU 2024-03 requiring public entities to provide disaggregated disclosures in the notes of the financial statements of certain categories of expenses that are included in expense line items on the face of the income statement on an interim basis. The new guidance is effective for the Company for its annual financial statements in fiscal year 2027 and for its interim financial statements in fiscal year 2028, with early adoption permitted. We are currently evaluating the impact that the adoption of this new guidance will have on our financial statements.

In September 2025, the FASB issued ASU 2025-06 to clarify and modernize the accounting for costs related to internal-use software. The guidance removes references to project stages used in ASC 350-40 and clarifies the threshold entities should apply to begin capitalizing internal-use software costs. The new guidance is effective for us starting October 1, 2028, and we may apply the guidance using a prospective, retrospective, or modified transition approach. We are currently evaluating the impact that the adoption of this new guidance will have on our financial presentation.

**Off-Balance Sheet Arrangements**

We enter into various joint venture arrangements to provide architectural, engineering, program management, construction management and operations and maintenance services. The ownership percentage of these joint ventures is typically representative of the work to be performed or the amount of risk assumed by each joint venture partner. Some of these joint ventures are considered variable interest entities. We have consolidated all joint ventures for which we have control. For all others, our portion of the earnings are recorded in equity in earnings of joint ventures. See Note 6 in the notes to our consolidated financial statements. We do not believe that we have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that would be material to investors.

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

***Financial Market Risks***

We are exposed to market risk, primarily related to foreign currency exchange rates and interest rate exposure of our debt obligations that bear interest based on floating rates. We actively monitor these exposures. Our objective is to reduce, where we deem appropriate to do so, fluctuations in earnings and cash flows associated with changes in foreign exchange rates and interest rates. In order to accomplish this objective, we sometimes enter into derivative financial instruments, such as forward contracts and interest rate hedge contracts. It is our policy and practice to use derivative financial instruments only to the extent necessary to manage our exposures. We do not use derivative financial instruments for trading purposes.

***Foreign Exchange Rates***

We are exposed to foreign currency exchange rate risk resulting from our operations outside of the U.S. We use foreign currency forward contracts from time to time to mitigate foreign currency risk. We limit exposure to foreign currency fluctuations in most of our contracts through provisions that require client payments in currencies corresponding to the currency in which costs are incurred. As a result of this natural hedge, we generally do not need to hedge foreign currency cash flows for contract work performed. The functional currency of our significant foreign operations is the respective local currency.

***Interest Rates***

Our Credit Agreement and other debt obligations are subject to variable rate interest which could be adversely affected by an increase in interest rates. As of September 30, 2025 and 2024, we had $1,439.9 million and $1,446.6 million, respectively, in outstanding borrowings under our term credit agreements and revolving credit facility. Interest on amounts borrowed under these agreements is subject to adjustment based on specified levels of financial performance. The applicable margin that is added to the borrowing's base rate can range from 0.125% to 1.00% and the applicable margin that is added to borrowings in the Term SOFR rate can range from 1.125% to 2.00%. For the year ended September 30, 2025, our weighted average floating rate borrowings were $1,603.8 million, or $903.8 million excluding borrowings with effective fixed interest rates due to interest rate swap and interest rate cap agreements. If short-term floating interest rates had increased by 1.00%, our interest expense for the year ended September 30, 2025 would have increased by $9.0 million. We invest our cash in a variety of financial instruments, consisting principally of money market securities or other highly liquid, short-term securities that are subject to minimal credit and market risk.

## Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of AECOM

**Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of AECOM (the Company) as of September 30, 2025 and 2024, the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended September 30, 2025, and the related notes and financial statement schedule listed in the Index at Item 15(a) (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at September 30, 2025 and 2024, and the results of its operations and its cash flows for each of the three years in the period ended September 30, 2025, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of September 30, 2025, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated November 18, 2025 expressed an unqualified opinion thereon.

**Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

**Critical Audit Matter**

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2)involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

***Revenue Recognition - Contract cost and claim recovery estimates***

*Description of the Matter*

For the year ended September 30, 2025, contract revenues recognized by the Company were $16.1 billion. Contract revenues include $4.0 billion which relate to fixed price contracts and $6.0 billion which relate to guaranteed maximum price contracts. As described in Note 4 of the consolidated financial statements, the Company generally recognizes revenues for these contracts over time as performance obligations are satisfied. The Company generally measures its progress to completion using an input measure of total costs incurred divided by total costs expected to be incurred. In addition, the Company's estimate of transaction price includes variable consideration associated with claims only to the extent that a significant reversal would not be probable.

Recognition of revenue and profit over time as performance obligations are satisfied for long-term fixed price and guaranteed maximum price contracts is highly judgmental as it requires the Company to prepare estimates of total contract revenue and total contract costs, including costs to complete in-process contracts. These estimates are dependent upon a number of factors, including the accuracy of estimates made at the balance sheet date, such as engineering progress, material quantities, the achievement of milestones, penalty provisions, labor productivity and cost estimates.

As of September 30, 2025, the Company has recorded revenue related to claims and reported related contract assets and other non-current assets on the consolidated balance sheet. Revenue recognition relating to claims is highly judgmental as the amount has not been approved by the customer and it requires the Company to prepare estimates of amounts expected to be recovered. Changes in recovery estimates can have a material effect on the amount of revenue recognized.

*How We Addressed the Matter in Our Audit*

We obtained an understanding, evaluated the design, and tested the operating effectiveness of controls that address the risk of material misstatement of contract revenue including those associated with cost to complete estimates for long-term fixed price contracts and estimates of amounts expected to be recovered from claims. For example, we tested controls over the Company's review of estimated direct and indirect costs to be incurred and estimates of claim recovery amounts.

To evaluate the Company's determination of estimated costs to complete, we selected a sample of contracts and, among other things, inspected the executed contracts including any significant amendments; conducted interviews with and inspected questionnaires prepared by project personnel; tested key components of the cost to complete estimates, including materials, labor, and subcontractors costs; reviewed support for estimates of project contingencies; compared actual project margins to historical and expected results; and recalculated revenues recognized.

To test revenue recognized relating to claims, we selected a sample of projects and evaluated the estimates made by management by reviewing documentation from management's specialists and legal counsel to support the amount of the claim. We also tested management's estimation process by performing a lookback analysis to evaluate claims settled in the current year compared to management's prior year estimates.

## Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of AECOM

**Opinion on Internal Control Over Financial Reporting**

We have audited AECOM's internal control over financial reporting as of September 30, 2025, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, AECOM (the Company) maintained, in all material respects, effective internal control over financial reporting as of September 30, 2025, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2025 consolidated financial statements of the Company and our report dated November 18, 2025 expressed an unqualified opinion thereon.

**Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

**Definition and Limitations of Internal Control Over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

## 1. Significant Accounting Policies

***Organization***— AECOM and its consolidated subsidiaries provide planning, consulting, advisory, architectural and engineering design services, construction management and program management to public and private clients worldwide in major end markets such as transportation, facilities, environmental, energy, water and government.

***Fiscal Year***—The Company reports its annual results of operations based on 52-or 53- week periods ending on the Friday nearest September 30. Certain prior period amounts in the consolidated financial statements and accompanying notes have been reclassified to conform with the current period's presentation.

***Use of Estimates***—The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The more significant estimates affecting amounts reported in the consolidated financial statements relate to revenues under long-term contracts and self-insurance accruals. Actual results could differ from those estimates.

***Principles of Consolidation and Presentation***—The consolidated financial statements include the accounts of all majority-owned subsidiaries and joint ventures in which the Company is the primary beneficiary. All inter-company accounts have been eliminated in consolidation. Also see Note 6 regarding joint ventures and variable interest entities.

***Government Contract Matters***—The Company's federal government and certain state and local agency contracts are subject to, among other regulations, regulations issued under the Federal Acquisition Regulations (FAR). These regulations can limit the recovery of certain specified indirect costs on contracts and subjects the Company to ongoing multiple audits by government agencies such as the Defense Contract Audit Agency (DCAA). In addition, most of the Company's federal and state and local contracts are subject to termination at the discretion of the client.

Audits by the DCAA and other agencies consist of reviews of the Company's overhead rates, operating systems and cost proposals to ensure that the Company accounted for such costs in accordance with the Cost Accounting Standards of the FAR (CAS). If the DCAA determines the Company has not accounted for such costs consistent with CAS, the DCAA may disallow these costs. There can be no assurance that audits by the DCAA or other governmental agencies will not result in material cost disallowances in the future.

***Cash and Cash Equivalents***—The Company's cash equivalents include highly liquid investments which have an initial maturity of three months or less.

***Allowance for Doubtful Accounts***—The Company records its accounts receivable net of an allowance for doubtful accounts. This allowance for doubtful accounts is estimated based on management's evaluation of the contracts involved and the financial condition of its clients. The factors the Company considers in its contract evaluations include, but are not limited to:

- Client type—federal or state and local government or commercial client;
- Historical contract performance;
- Historical collection and delinquency trends;
- Client credit worthiness; and
- General economic conditions.

***Derivative Financial Instruments***—The Company accounts for its derivative instruments as either assets or liabilities and carries them at fair value.

For derivative instruments that hedge the exposure to variability in expected future cash flows that are designated as cash flow hedges, the effective portion of the gain or loss on the derivative instrument is reported as a component of accumulated other comprehensive income in stockholders' equity and reclassified into income in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of the gain or loss on the derivative instrument, if any, is recognized in current income. To receive hedge accounting treatment, cash flow hedges must be highly effective in offsetting changes to expected future cash flows on hedged transactions.

The net gain or loss on the effective portion of a derivative instrument that is designated as an economic hedge of the foreign currency translation exposure generated by the re-measurement of certain assets and liabilities denominated in a non-functional currency in a foreign operation is reported in the same manner as a foreign currency translation adjustment. Accordingly, any gains or losses related to these derivative instruments are recognized in current income.

Derivatives that do not qualify as hedges are adjusted to fair value through current income.

***Fair Value of Financial Instruments***—The Company determines the fair values of its financial instruments, including short-term investments, debt instruments and derivative instruments, and pension and post-retirement plan assets based on inputs or assumptions that market participants would use in pricing an asset or a liability. The Company categorizes its instruments using a valuation hierarchy for disclosure of the inputs used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. The classification of a financial asset or liability within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the short maturities of these instruments. The carrying amount of the revolving credit facility approximates fair value because the interest rates are based upon variable reference rates.

The Company's fair value measurement methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Company believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine fair value could result in a different fair value measurement at the reporting date.

***Property and Equipment***—Property and equipment are recorded at cost and are depreciated over their estimated useful lives using the straight-line method. Expenditures for maintenance and repairs are expensed as incurred. Typically, estimated useful lives range from ten to forty-five years for buildings, three to ten years for furniture and fixtures and three to twelve years for computer systems and equipment. Leasehold improvements are amortized on a straight-line basis over the shorter of their estimated useful lives or the remaining terms of the underlying lease agreement.

***Long-Lived Assets***—Long-lived assets to be held and used are reviewed for impairment whenever events or circumstances indicate that the assets may not be recoverable. The carrying amount of an asset to be held and used is not recoverable if it exceeds the sum of the undiscounted cash flows expected from the use and eventual disposition of the asset. For assets to be held and used, impairment losses are recognized based upon the excess of the asset's carrying amount over the fair value of the asset. For long-lived assets to be disposed, impairment losses are recognized at the lower of the carrying amount or fair value less cost to sell.

***Goodwill and Acquired Intangible Assets***—Goodwill represents the excess of amounts paid over the fair value of net assets acquired from an acquisition. In order to determine the amount of goodwill resulting from an acquisition, the Company performs an assessment to determine the value of the acquired company's tangible and identifiable intangible assets and liabilities. In its assessment, the Company determines whether identifiable intangible assets exist, which typically include backlog, customer relationships and intellectual property. Intangible assets are amortized over the period in which the contractual or economic benefits of the intangible assets are expected to be realized.

The Company tests goodwill for impairment annually for each reporting unit in the fourth quarter of the fiscal year and between annual tests, if events occur or circumstances change which suggest that goodwill should be evaluated. Such events or circumstances include significant changes in legal factors and business climate, recent losses at a reporting unit, and industry trends, among other factors. A reporting unit is defined as an operating segment or one level below an

operating segment. The Company's impairment tests are performed at the operating segment level as they represent the Company's reporting units.

Goodwill is evaluated for impairment either by assessing qualitative factors or by performing a quantitative assessment. Qualitative factors, such as overall financial performance, industry or market considerations, or other relevant events, are assessed to determine if it is more likely than not that the fair value of the reporting units is less than their carrying amounts. During a quantitative impairment test, the Company estimates the fair value of the reporting unit using income and market approaches, and compares that amount to the carrying value of that reporting unit. In the event the fair value of the reporting unit is determined to be less than the carrying value, goodwill is impaired, and an impairment loss is recognized equal to the excess, limited to the total amount of goodwill allocated to the reporting unit. The impairment evaluation process includes, among other things, making assumptions about variable such as revenue growth rates, profitability, discount rates, and industry market multiples, which are subject to a high degree of judgment. See also Note 3.

***Pension Plans***—The Company has certain defined benefit pension plans. The Company calculates the market-related value of assets, which is used to determine the return-on-assets component of annual pension expense and the cumulative net unrecognized gain or loss subject to amortization. This calculation reflects the Company's anticipated long-term rate of return and amortization of the difference between the actual return (including capital, dividends, and interest) and the expected return over a five-year period. Cumulative net unrecognized gains or losses that exceed 10% of the greater of the projected benefit obligation or the fair market related value of plan assets are subject to amortization.

***Insurance Reserves***—The Company maintains insurance for certain insurable business risks. Insurance coverage contains various retention and deductible amounts for which the Company accrues a liability based upon reported claims and an actuarially determined estimated liability for certain claims incurred but not reported. It is generally the Company's policy not to accrue for any potential legal expense to be incurred in defending the Company's position. The Company believes that its accruals for estimated liabilities associated with professional and other liabilities are sufficient and any excess liability beyond the accrual is not expected to have a material adverse effect on the Company's results of operations or financial position.

***Foreign Currency Translation***—The Company's functional currency is generally the U.S. dollar, except for foreign operations where the functional currency is generally the local currency. Results of operations for foreign entities are translated to U.S. dollars using the average exchange rates during the period. Assets and liabilities for foreign entities are translated using the exchange rates in effect as of the date of the balance sheet. Resulting translation adjustments are recorded as a foreign currency translation adjustment into other accumulated comprehensive income/(loss) in stockholders' equity.

The Company uses foreign currency forward contracts from time to time to mitigate foreign currency risk. The Company limits exposure to foreign currency fluctuations in most of its contracts through provisions that require client payments in currencies corresponding to the currency in which costs are incurred. As a result of this natural hedge, the Company generally does not need to hedge foreign currency cash flows for contract work performed.

***Noncontrolling Interests***—Noncontrolling interests represent the equity investments of the minority owners in the Company's joint ventures and other subsidiary entities that the Company consolidates in its financial statements.

***Income Taxes***—The Company files a consolidated U.S. federal corporate income tax return and combined / consolidated state tax returns and separate company state tax returns. The Company accounts for certain income and expense items differently for financial reporting and income tax purposes. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities, applying enacted statutory tax rates in effect for the year in which the differences are expected to reverse. In determining the need for a valuation allowance, management reviews both positive and negative evidence, including the nature, frequency, and severity of cumulative financial reporting losses in recent years, the future reversal of existing temporary differences, predictability of future taxable income exclusive of reversing temporary differences of the character necessary to realize the asset, relevant carryforward periods, taxable income in carry-back years if carry-back is permitted under tax law, and prudent and feasible tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax asset that would otherwise expire. Based upon management's assessment of all available evidence, the Company has concluded that it is more likely than not that the deferred tax assets, net of valuation allowance, will be realized.

On December 22, 2017, the United States enacted the Tax Cuts and Jobs Act, which significantly changed U.S. tax law and included a provision to tax global intangible low-taxed income (GILTI) of foreign subsidiaries. The Company recognizes taxes due under the GILTI provision as a current period expense.

On July 4, 2025, the U.S. government enacted the One Big Beautiful Bill Act which permanently extends many provisions of the Tax Cuts and Jobs Act of 2017 and introduces new tax provisions relevant for multinational businesses. Most of the new provisions take effect starting in fiscal 2026. Based on its assessment, the Company does not expect the legislation to have a material impact on its consolidated financial statements.

**2. New Accounting Pronouncements and Changes in Accounting**

In November 2023, the Financial Accounting Standards Board (FASB) amended the guidance of Accounting Standards Codification (ASC) 280, *Segment Reporting*, requiring public entities to disclose significant segment expenses and other segment items on an interim basis. The new guidance is effective for the Company for its annual financial statements in fiscal year 2025 and for its interim financial statements in fiscal year 2026. The adoption of the new guidance did not significantly impact the Company's financial presentation.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes* (Topic 740): *Improvements to Income Tax Disclosures*, which includes amendments that further enhance the income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid. The update also includes certain other amendments to improve the effectiveness of income tax disclosures. The amendments are effective for the Company’s annual periods beginning October 1, 2025, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this new guidance will have on its financial statement presentation.

In November 2024, the FASB issued ASU 2024-03 requiring public entities to provide disaggregated disclosures in the notes of the financial statements of certain categories of expenses that are included in expense line items on the face of the income statement on an interim basis. The new guidance is effective for the Company for its annual financial statements in fiscal year 2027 and for its interim financial statements in fiscal year 2028, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this new guidance will have on its financial statements.

In September 2025, the FASB issued ASU 2025-06 to clarify and modernize the accounting for costs related to internal-use software. The guidance removes references to project stages used in ASC 350-40 and clarifies the threshold entities should apply to begin capitalizing internal-use software costs. The new guidance is effective for the Company starting October 1, 2028, and the Company may apply the guidance using a prospective, retrospective, or modified transition approach. The Company is currently evaluating the impact that the adoption of this new guidance will have on its financial statements.

**3. Discontinued Operations, Goodwill and Intangible Assets**

In the first quarter of fiscal 2020, management approved a plan to dispose of via sale the Company’s self-perform at-risk construction businesses. These businesses include the Company’s civil infrastructure, power, and oil and gas construction businesses that were previously reported in the Company’s Construction Services segment. After consideration of the relevant facts, the Company concluded the assets and liabilities of its self-perform at-risk construction businesses met the criteria for classification as held for sale. The Company concluded the actual and proposed disposal activities represented a strategic shift that would have a major effect on the Company’s operations and financial results and qualified for presentation as discontinued operations in accordance with FASB ASC 205-20. Accordingly, the financial results of the self-perform at-risk construction businesses are presented in the Consolidated Statement of Operations as discontinued operations for all periods presented. Current and non-current assets and liabilities of these businesses not sold as of the balance sheet date are presented in the Consolidated Balance Sheets as assets and liabilities held for sale for both periods presented.

The Company completed the sale of its power and oil and gas construction businesses in fiscal 2021 and fiscal 2022, respectively. The Company completed the sale of its civil infrastructure construction business to affiliates of Oroco Capital in the second quarter of fiscal 2021. In the second quarter of fiscal 2024, the Company recorded a $103.1 million loss related to a revised estimate of its contingent consideration receivable recognized in its civil infrastructure construction business.

During the third quarter of fiscal 2024, the Company resolved contingencies related to the sale of its civil infrastructure construction business and received equity in the counterparty, and the Company recorded a $12.7 million gain based on the fair value of the equity received. Concurrently, the Company participated as a member of a lending group in a revolving credit facility for the counterparty, committing to fund $30 million that matures in May 2029. At September 30, 2025, the counterparty had $15.4 million outstanding under the credit facility, and all cash flows were classified as other investing activities.

During the second quarter of fiscal 2025, the Company and its joint venture counterparty amended the joint venture agreement for a business classified as held for sale. In connection with the amendment and consistent with ASC 810, *Consolidation*, the Company reconsidered whether it remained the primary beneficiary under the variable interest model and concluded it was no longer the primary beneficiary. As such, the Company deconsolidated the joint venture as of the amendment date. The Company continues to present its retained noncontrolling interest as held for sale and equity in earnings from the joint venture are reported in net loss from discontinued operations. No gain or loss was recognized in the deconsolidation of the joint venture during the second quarter of fiscal 2025.

***Department of Energy Deactivation, Demolition, and Removal Project***

A former affiliate of the Company, Amentum Environment & Energy, Inc., f/k/a AECOM Energy and Construction, Inc. (“Former Affiliate”), executed a cost-reimbursable task order with the Department of Energy (DOE) in 2007 to provide deactivation, demolition and removal services at a New York State project site that, during 2010, experienced contamination and performance issues. In February 2011, the Former Affiliate and the DOE executed a Task Order Modification that changed some cost-reimbursable contract provisions to at-risk. The Task Order Modification, including subsequent amendments, required the DOE to pay all project costs up to $106 million, required the Former Affiliate and the DOE to equally share in all project costs incurred from $106 million to $146 million, and required the Former Affiliate to pay all project costs exceeding $146 million.

Due to unanticipated requirements and permitting delays by federal and state agencies, as well as delays and related ground stabilization activities caused by Hurricane Irene in 2011, the Former Affiliate was required to perform work outside the scope of the Task Order Modification. In December 2014, the Former Affiliate submitted an initial set of claims against the DOE pursuant to the Contracts Disputes Acts seeking recovery of $103 million, including additional fees on changed work scope (the “2014 Claims”). On December 6, 2019, the Former Affiliate submitted a second set of claims against the DOE seeking recovery of an additional $60.4 million, including additional project costs and delays outside the scope of the contract as a result of differing site and ground conditions (the “2019 Claims”). The Former Affiliate also submitted three alternative breach of contract claims to the 2014 Claims and the 2019 Claims that may entitle the Former Affiliate to recovery of $148.5 million to $329.4 million. On December 30, 2019, the DOE denied the Former Affiliate’s 2014 Claims. On September 25, 2020, the DOE denied the Former Affiliate’s 2019 Claims. The Company filed an appeal of these decisions on December 20, 2020 in the Court of Federal Claims. Deconstruction, decommissioning and site restoration activities are complete.

On January 31, 2020, the Company completed the sale of its Management Services business, including the Former Affiliate who worked on the DOE project, to Maverick Purchaser Sub LLC (“MS Purchaser”), an affiliate of American Securities LLC and Lindsay Goldberg LLC. The Company and the MS Purchaser agreed that all future DOE project claim recoveries and costs will be split 10% to the MS Purchaser and 90% to the Company with the Company retaining control of all future strategic legal decisions.

Fact discovery has concluded and expert discovery will proceed once the stay due to the government shutdown is lifted, expected in fiscal year 2026. The Company intends to vigorously pursue all claimed amounts but can provide no certainty that the Company will recover 2014 Claims and 2019 Claims submitted against the DOE, or any additional incurred claims or costs, which could have a material adverse effect on the Company’s results of operations.

***Refinery Turnaround Project***

A former affiliate of the Company, which was sold in a series of transactions to effectuate the sale of the self-perform at-risk construction businesses, entered into an agreement to perform turnaround maintenance services in Montana in December 2017. The former affiliate performed additional work outside of the original contract and became entitled to payment from the refinery owner. As part of the sale of the former affiliate, the refinery turnaround project, including related claims, were retained by the Company. The former affiliate's claims against the refinery owner and the refinery owner's crossclaims against the Company's former affiliate moved to federal court. A jury trial was completed on

February 1, 2025, resulting in a favorable verdict for the Company. As a result of unfavorable court orders on post-trial motions during the third quarter of fiscal 2025, including pre-judgment interest and prompt payment interest, and issuance of the associated judgment, the Company recorded a $53.0 million loss from the reduction in the expected future net cash proceeds the Company would receive as a result of the trial verdict. The Company has appealed the judgment. The loss is reported in discontinued operations as the project was completed prior to the sale of the former affiliate.

The Company completed two business acquisitions during the year ended September 30, 2025 for total consideration of $375.9 million, which included stock consideration of $146.4 million. Neither of these two acquisitions met the quantitative thresholds to require separate disclosure. The Company acquired these businesses to expand its competitive advantage and compound strengths to achieve its long-term profitability targets. The Company preliminarily estimates the amount of identifiable assets acquired based on the facts and circumstances available at the time of acquisition. The Company determines the final value of the identifiable intangible assets as soon as information is available, but not more than 12 months from the date of acquisition. The initial accounting for these acquisitions is not complete as of September 30, 2025 as the Company continues to assess the value of the acquired intellectual property intangible asset.

The changes in the carrying value of goodwill by reportable segment for the year ended September 30, 2025 were as follows:

| | September 30, 2024 | Foreign Exchange Impact | Acquired | September 30, 2025 |
|---|---|---|---|---|

The gross amounts and accumulated amortization of the Company's acquired identifiable intangible assets with finite useful lives as of September 30, 2025 and 2024, included in intangible assets—net, in the accompanying consolidated balance sheets, were as follows:

## 4. Revenue Recognition

The Company follows accounting principles for recognizing revenue upon the transfer of control of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. The Company generally recognizes revenues over time as performance obligations are satisfied. The Company generally measures its progress to completion using an input measure of total costs incurred divided by total costs expected to be incurred, which it believes to be the best measure of progress towards completion of the performance obligation. In the course of providing its services, the Company routinely subcontracts for services and incurs other direct costs on behalf of its clients. These costs are passed through to clients and, in accordance with GAAP, are included in the Company's revenue and cost of revenue. These pass-through revenues for the years ended September 30, 2025, 2024 and 2023 were $8.6 billion, $8.9 billion and $7.7 billion, respectively.

Recognition of revenue and profit is dependent upon a number of factors, including the accuracy of a variety of estimates made at the balance sheet date, such as engineering progress, material quantities, the achievement of milestones, penalty provisions, labor productivity and cost estimates. Additionally, the Company is required to make estimates for the amount of consideration to be received, including bonuses, awards, incentive fees, claims, unpriced change orders, penalties, and liquidated damages. Variable consideration is included in the estimate of the transaction price only to the extent that a significant reversal would not be probable. Management continuously monitors factors that may affect the quality of its estimates, and material changes in estimates are disclosed accordingly. Costs attributable to claims are treated as costs of contract performance as incurred.

The following summarizes the Company's major contract types:

*Cost Reimbursable Contracts*

Cost reimbursable contracts include cost-plus fixed fee, cost-plus fixed rate, and time-and-materials price contracts. Under cost-plus contracts, the Company charges clients for its costs, including both direct and indirect costs, plus a negotiated fee or rate. The Company recognizes revenue based on actual direct costs incurred and the applicable fixed rate or portion of the fixed fee earned as of the balance sheet date. Under time-and-materials price contracts, the Company negotiates hourly billing rates and charges its clients based on the actual time that it expends on a project. In addition, clients reimburse the Company for materials and other direct incidental expenditures incurred in connection with its performance under the contract. The Company may apply a practical expedient to recognize revenue in the amount in which it has the right to invoice if its right to consideration is equal to the value of performance completed to date.

*Guaranteed Maximum Price Contracts (GMP)*

GMP contracts share many of the same contract provisions as cost-plus and fixed-price contracts. As with cost-plus contracts, clients are provided a disclosure of all the project costs, and a lump sum or percentage fee is separately identified. The Company provides clients with a guaranteed price for the overall project (adjusted for change orders issued by clients) and a schedule including the expected completion date. Cost overruns or costs associated with project delays in completion could be the Company's responsibility. For many of the Company's GMP contracts, the final price is generally not established until the Company has subcontracted a substantial percentage of the trade contracts with terms consistent with the master contract, and it has negotiated additional contractual limitations, such as waivers of consequential damages as well as aggregate caps on liabilities and liquidated damages. Revenue is recognized for GMP contracts as project costs are incurred relative to total estimated project costs.

*Fixed-Price Contracts*

Fixed-price contracts include both lump-sum and fixed-unit price contracts. Under lump-sum contracts, the Company performs all the work under the contract for a specified fee. Lump-sum contracts are typically subject to price adjustments if the scope of the project changes or unforeseen conditions arise. Under fixed-unit price contracts, the Company performs a number of units of work at an agreed price per unit with the total payment under the contract determined by the actual number of units delivered. Revenue is recognized for fixed-price contracts using the input method measured on a cost-to-cost basis as the Company believes this is the best measure of progress towards completion.

*Disaggregated Revenue*

The following tables present the Company's revenues disaggregated by revenue sources:

| | Fiscal Year Ended | | |
|---|---|---|---|
| | September 30, 2025 | September 30, 2024 | September 30, 2023 |
| | (in millions) | | |
| Cost reimbursable | $ 6,196.1 | $ 6,361.4 | $ 6,128.8 |
| Guaranteed maximum price | 5,960.7 | 6,030.0 | 4,887.7 |
| Fixed price | 3,982.8 | 3,714.1 | 3,362.0 |
| Total revenue | $ 16,139.6 | $ 16,105.5 | $ 14,378.5 |

| | Fiscal Year Ended | | |
|---|---|---|---|
| | September 30, 2025 | September 30, 2024 | September 30, 2023 |
| | (in millions) | | |
| Americas | $ 12,526.4 | $ 12,487.0 | $ 10,976.4 |
| Europe, Middle East, India, Africa | 2,153.3 | 2,141.5 | 1,937.3 |
| Asia-Australia-Pacific | 1,459.9 | 1,477.0 | 1,464.8 |
| Total revenue | $ 16,139.6 | $ 16,105.5 | $ 14,378.5 |

*Remaining Unsatisfied Performance Obligations*

As of September 30, 2025, the Company had allocated $19.7 billion of transaction price to unsatisfied or partially satisfied performance obligations, of which approximately 57% is expected to be satisfied within the next twelve months. The majority of remaining performance obligation after the first 12 months are expected to be recognized over a two-year period.

Contract liabilities represent billings as of the balance sheet date, as allowed under the terms of a contract, but not yet recognized as contract revenue pursuant to the Company's revenue recognition policy. The Company recognized revenue of $918.9 million and $801.0 million during the years ended September 30, 2025 and 2024, respectively, that was included in contract liabilities as of September 30, 2024 and 2023, respectively.

The Company's timing of revenue recognition may not be consistent with its rights to bill and collect cash from its clients. Those rights are generally dependent upon advance billing terms, milestone billings based on the completion of certain phases of work or when services are performed. The Company's accounts receivables represent amounts billed to clients that have yet to be collected and represent an unconditional right to cash from its clients. Contract assets represent the amount of contract revenue recognized but not yet billed pursuant to contract terms or accounts billed after the balance sheet date.

Net accounts receivable consisted of the following:

| | Fiscal Year Ended | |
|---|---|---|
| | September 30, 2025 | September 30, 2024 |
| | (in millions) | |
| Billed | $ 1,934.3 | $ 2,184.9 |
| Contract retentions | 647.6 | 696.3 |
| Total accounts receivable—gross | 2,581.9 | 2,881.2 |
| Allowance for doubtful accounts and credit losses | (84.8) | (87.9) |
| Total accounts receivable—net | $ 2,497.1 | $ 2,793.3 |

Substantially all contract assets as of September 30, 2025 and September 30, 2024 are expected to be billed and collected within twelve months, except for claims. Significant claims recorded in contract assets and other non-current assets were approximately $400 million and $180 million as of September 30, 2025 and 2024, respectively. The asset related to the Deactivation, Demolition, and Removal Project retained from the MS Purchaser as defined and and discussed in Note 3 is presented in other non-current assets from continuing operations in the Consolidated Balance Sheet. Contract retentions represent amounts invoiced to clients where payments have been withheld from progress payments until the contracted work has been completed and approved by the client but nonetheless represent an unconditional right to cash.

The Company considers a broad range of information to estimate expected credit losses including the related ages of past due balances, projections of credit losses based on historical trends, and collection history and credit quality of its clients. Negative macroeconomic trends or delays in payment of outstanding receivables could result in an increase in the estimated credit losses.

No single client accounted for more than 10% of the Company's outstanding receivables at September 30, 2025 and 2024.

The Company sold trade receivables to financial institutions, of which $268.2 million and $319.5 million were outstanding as of September 30, 2025 and 2024, respectively. The Company does not retain financial or legal obligations for these receivables that would result in material losses. The Company's ongoing involvement is limited to the remittance of customer payments to the financial institutions with respect to the sold trade receivables.

## 5. Property and Equipment

Property and equipment, at cost, consists of the following:

| | Fiscal Year Ended | | |
|---|---|---|---|
| | September 30, 2025 | September 30, 2024 | Useful Lives (years) |
| | (in millions) | | |
| Building and land | $ 10.5 | $ 10.1 | 10 - 45 |
| Leasehold improvements | 275.0 | 299.3 | 1 - 20 |
| Computer systems and equipment | 770.4 | 659.6 | 3 - 12 |
| Furniture and fixtures | 85.7 | 92.2 | 3 - 10 |
| Total | 1,141.6 | 1,061.2 | |
| Accumulated depreciation and amortization | (725.4) | (706.8) | |
| Property and equipment, net | $ 416.2 | $ 354.4 | |

Depreciation expense for the fiscal years ended September 30, 2025, 2024 and 2023 was $166.3 million, $152.3 million, and $152.3 million, respectively. Depreciation is calculated using primarily the straight-line method over the estimated useful lives of the assets, or in the case of leasehold improvements and capitalized leases, the lesser of the remaining term of the lease or its estimated useful life.

## 6. Joint Ventures and Variable Interest Entities

The Company's joint ventures provide architecture, engineering, program management, construction management, operations and maintenance services, and invest in real estate projects. Joint ventures, the combination of two or more partners, are generally formed for a specific project. Management of the joint venture is typically controlled by a joint venture executive committee, comprised of representatives from the joint venture partners. The joint venture executive committee normally provides management oversight and controls decisions which could have a significant impact on the joint venture.

Some of the Company's joint ventures have no employees and minimal operating expenses. For these joint ventures, the Company's employees perform work for the joint venture, which is then billed to a third-party customer by the joint venture. These joint ventures function as pass-through entities to bill the third-party customer. For consolidated joint ventures of this type, the Company records the entire amount of the services performed and the costs associated with these services, including the services provided by the other joint venture partners, in the Company's result of operations. For certain of these joint ventures where a fee is added by an unconsolidated joint venture to client billings, the Company's portion of that fee is recorded in equity in earnings of joint ventures.

The Company also has joint ventures that have their own employees and operating expenses, and to which the Company generally makes a capital contribution. The Company accounts for these joint ventures either as consolidated entities or equity method investments based on the criteria further discussed below.

The Company follows guidance on the consolidation of variable interest entities (VIEs) that requires companies to utilize a qualitative approach to determine whether it is the primary beneficiary of a VIE. The process for identifying the primary beneficiary of a VIE requires consideration of the factors that indicate a party has the power to direct the activities that most significantly impact the joint venture's economic performance, including powers granted to the joint venture's program manager, powers contained in the joint venture governing board and, to a certain extent, a company's economic interest in the joint venture. The Company analyzes its joint ventures and classifies them as either:

- a VIE that must be consolidated because the Company is the primary beneficiary or the joint venture is not a VIE and the Company holds the majority voting interest with no significant participative rights available to the other partners; or

- a VIE that does not require consolidation and is treated as an equity method investment because the Company is not the primary beneficiary or the joint venture is not a VIE and the Company does not hold the majority voting interest.

As part of the above analysis, if it is determined that the Company has the power to direct the activities that most significantly impact the joint venture's economic performance, the Company considers whether or not it has the obligation to absorb losses or rights to receive benefits of the VIE that could potentially be significant to the VIE.

Contractually required support provided to the Company's joint ventures is further discussed in Note 18.

Summary of financial information of the consolidated joint ventures was as follows:

| | September 30, 2025 | September 30, 2024 |
|---|---|---|

The assets of the Company's consolidated joint ventures are restricted for use only by the particular joint venture and are not available for the general operations of the Company.

The Company completed a transaction that transitioned the AECOM Capital team to a new third-party platform in the third quarter of fiscal 2024. The team will continue to support AECOM Capital's investment vehicles pursuant to certain advisory agreements in a manner consistent with their current obligations. During the third quarter of fiscal 2023, the Company identified indicators of impairment in the equity method investments held in its AECOM Capital segment. Specifically, the Company identified evidence that the carrying value of certain of the investments in its real estate portfolio were in excess of their fair values. The Company concluded it no longer had the intent to retain certain of these investments for a period of time sufficient to allow for an anticipated recovery in market value. In the third quarter of fiscal 2023, the Company recorded an impairment loss of $307.0 million to reduce the carrying value of these investments to their estimated fair values. During the first quarter of fiscal 2024, the Company recorded an additional impairment loss of $35.9 million. These impairments do not relate to investments in respect of which affiliates of AECOM Capital provide advisory services or manage third party capital. AECOM Capital will continue to manage existing investment vehicles and investments in a manner consistent with their current obligations. Fair value was determined using Level 3 inputs such as forecasted cash flows and comparable sales prices.

## 7. Pension Benefit Obligations

In the U.S., the Company sponsors various qualified defined benefit pension plans. Benefits under these plans generally are based on the employee's years of creditable service and compensation; however, all U.S. defined benefit plans are closed to new participants and have frozen accruals.

The Company also sponsors various non-qualified plans in the U.S.; all of these plans are frozen. Outside the U.S., the Company sponsors various pension plans, which are appropriate to the country in which the Company operates, some of which are government mandated.

The following tables provide reconciliations of the changes in the U.S. and international plans' benefit obligations, reconciliations of the changes in the fair value of assets for the last three years ended September 30, and reconciliations of the funded status as of September 30 of each year.

In certain countries, the funding requirements are mandatory while in other countries, they are discretionary. The Company currently intends to contribute $25.0 million to the international plans in fiscal 2026. The required minimum contributions for U.S. plans are not significant. In addition, the Company may make discretionary contributions. The Company currently intends to contribute $10.8 million to U.S. plans in fiscal 2026.

The table below provides the expected future benefit payments, in millions:

The following table summarizes the Company's target allocation for 2025 and pension plan asset allocation, both U.S. and International, as of September 30, 2025 and 2024:

| | Target Allocations | | Percentage of Plan Assets as of September 30, | | | |

The Company's domestic and foreign plans seek a competitive rate of return relative to an appropriate level of risk depending on the funded status and obligations of each plan and typically employ both active and passive investment management strategies. The Company's risk management practices include diversification across asset classes and investment styles and periodic rebalancing toward asset allocation targets. The target asset allocation selected for each plan reflects a risk/return profile that the Company believes is appropriate relative to each plan's liability structure and return goals.

To develop the expected long-term rate of return on assets assumption, the Company considered the historical returns and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio and the diversification of the portfolio. This resulted in the selection of a 6.25% and 5.51% weighted-average long-term rate of return on assets assumption for the fiscal year ended September 30, 2025 for U.S. and non-U.S. plans, respectively.

As of September 30, 2025, the fair values of the Company's pension plan assets by major asset categories were as follows:

| | | Fair Value Measurement as of September 30, 2024 | | | |
|---|---|---|---|---|---|

Cash equivalents are mostly comprised of short-term money-market instruments and are valued at cost, which approximates fair value.

For investment funds not traded on an active exchange, or if the closing price is not available, the trustee obtains indicative quotes from a pricing vendor, broker, or investment manager. These funds are categorized as Level 2 if the custodian obtains corroborated quotes from a pricing vendor or categorized as Level 3 if the custodian obtains uncorroborated quotes from a broker or investment manager.

Fixed income investment funds, not traded on an active exchange, categorized as Level 2 are valued by the trustee using pricing models that use verifiable observable market data (e.g., interest rates and yield curves observable at commonly quoted intervals), bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

Common collective investment funds are valued based on net asset value (NAV) per share or unit as a practical expedient as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these NAV-based investments have been excluded from the fair value hierarchy. These collective investment funds have redemption notice periods and are redeemable at the NAV, less transaction fees. There are no significant unfunded commitments related to these investments.

**Multiemployer Pension Plans**

The Company participates in construction-industry multiemployer pension plans. Generally, the plans provide defined benefits to substantially all employees covered by collective bargaining agreements. Under the Employee Retirement Income Security Act, a contributor to a multiemployer plan is liable, upon termination or withdrawal from a plan, for its proportionate share of a plan's unfunded vested liability. The Company's aggregate contributions to these multiemployer plans were $2.7 million and $2.5 million for the years ended September 30, 2025 and 2024, respectively. At September 30, 2025 and 2024, none of the plans in which the Company participates are individually significant to its consolidated financial statements.

*Credit Agreement*

On April 19, 2024, the Company entered into Amendment No. 14 to Syndicated Facility Agreement (as amended, modified or otherwise supplemented, the "Credit Agreement"), pursuant to which the Company obtained a new $$1,500,000,000 revolving credit facility (the "New Revolving Credit Facility"), a new $750,000,000 term loan A facility (the "New Term A Facility" and, together with the New Revolving Credit Facility, the "New Pro Rata Facilities") and a new $700,000,000 term loan B facility (the "New Term B Facility" and, together with the New Pro Rata Facilities, the "New Credit Facilities"). The New Revolving Credit Facility and the New Term A Facility mature on April 19, 2029. The New Term B Facility matures on April 19, 2031. The New Term A Facility and the New Term B Facility were borrowed in full on April 19, 2024 in U.S. dollars. Loans under the New Revolving Credit Facility may be borrowed, and letters of credit thereunder may be issued, in U.S. dollars or in certain foreign currencies. The New Credit Facilities replace in full the Company's then-existing revolving credit facility, term loan A facility and term loan B facility, and borrowings under the New Credit Facilities were used to refinance in full the Company's existing credit facilities and for general corporate purposes. The Credit Agreement permits the Company to designate certain of its subsidiaries as additional co-borrowers from time to time. Currently, there are no co-borrowers under the New Credit Facilities. On October 29, 2024, the Company entered into Amendment No. 15 to Syndicated Facility Agreement, pursuant to which the Company reduced the interest rate spread applicable to its New Term B Facility.

Borrowings under (a) the New Revolving Credit Facility (in U.S. dollars) and the New Term A Facility bear interest at a rate per annum equal to, at the Company's option, (i) a Term SOFR rate (with a 0% floor and SOFR adjustment of 0.10%) or (ii) a base rate (with a 0% floor), in each case, as of September 30, 2025, plus an applicable margin of 1.225% in the case of the Term SOFR rate and 0.225% in the case of the base rate, and (b) the New Revolving Credit Facility in currencies other than U.S. dollars bear interest at a rate per annum equal to the applicable reference rate for such currency (including any related adjustments), plus an applicable margin of 1.225%. The applicable margin is subject, in each case, to adjustment based on the Company's consolidated leverage ratio from time to time.

Borrowings under the New Term B Facility, after giving effect to Amendment No. 15 to Syndicated Facility Agreement, bear interest at a rate per annum equal to, at the Company's option, (a) a Term SOFR rate (with a 0% floor and a SOFR adjustment of 0%) or (b) a base rate (with a 0% floor), in each case, plus an applicable margin of 1.75% in the case of the Term SOFR rate and 0.75% in the case of the base rate.

Certain of the Company's material subsidiaries (the "Guarantors") have guaranteed the Company's obligations of the borrowers under the Credit Agreement, subject to certain exceptions. The borrowers' obligations under the Credit Agreement are secured by a lien on substantially all of the Company's assets and its Guarantors' assets, subject to certain exceptions.

The Credit Agreement contains customary negative covenants that include, among other things, limitations on the ability of the Company and certain of its subsidiaries, subject to certain exceptions, to incur liens and debt, make investments, dispositions, and restricted payments, change the nature of their business, consummate mergers, consolidations and the sale of all or substantially all of their respective assets and transact with affiliates. The Company is also required to maintain a consolidated leverage ratio of less than or equal to 4.00 to 1.00 (subject to certain adjustments in connection with permitted acquisitions), tested on a quarterly basis (the "Financial Covenant"). The Financial Covenant does not apply to the New Term B Facility. As of September 30, 2025, the Company was in compliance with the covenants of the Credit Agreement.

The Credit Agreement contains customary affirmative covenants, including, among other things, compliance with applicable law, preservation of existence, maintenance of properties and of insurance, and keeping proper books and records. The Credit Agreement contains customary events of default, including, among other things, nonpayment of principal, interest or fees, cross-defaults to other debt, inaccuracies of representations and warranties, failure to perform covenants, events of bankruptcy and insolvency, change of control and unsatisfied judgments, subject in certain cases to notice and cure periods and other exceptions.

At September 30, 2025 and September 30, 2024, letters of credit totaled $4.4 million and $4.4 million, respectively, under the Company's New Revolving Credit Facility. As of September 30, 2025 and September 30, 2024, the Company had $1,495.6 million and $1,495.6 million, respectively, available under its New Revolving Credit Facility.

*2027 Senior Notes*

On February 21, 2017, the Company completed a private placement offering of $1,000,000,000 aggregate principal amount of its unsecured 5.125% Senior Notes due 2027 (the "2027 Senior Notes"). On June 30, 2017, the

Company completed an exchange offer to exchange the unregistered 2027 Senior Notes for registered notes, as well as related guarantees. In July 2025, the Company used a portion of the proceeds of the 2033 Senior Notes (defined below) to purchase $732,914,000 in principal amount of the 2027 Senior Notes that were validly tendered and not validly withdrawn at or prior to the expiration date of the tender offer for the 2027 Senior Notes. In August 2025, the Company redeemed the remaining 2027 Senior Notes with a portion of the proceeds of the 2033 Senior Notes. The purchase and redemption included an aggregate make-whole payment of $9.1 million.

*2033 Senior Notes*

On July 22, 2025, the Company completed an offering of $1,200,000,000 aggregate principal amount of its 6.000% Senior Notes due 2033 (the "2033 Senior Notes"). As of September 30, 2025, the estimated fair value of the 2033 Senior Notes was approximately $1,227.0 million. The fair value of the 2033 Senior Notes as of September 30, 2025 was derived by taking the mid-point of the trading prices from an observable market input (Level 2) in the secondary bond market and multiplying it by the outstanding balance of the 2033 Senior Notes.

Interest will be payable on the 2033 Senior Notes at a rate of 6.000% per annum. Interest on the 2033 Senior Notes will be payable semi-annually in arrears on February 1 and August 1 of each year, commencing on February 1, 2026. The 2033 Senior Notes will mature on August 1, 2033.

Prior to August 1, 2028, the Company may redeem all or part of the 2033 Senior Notes at a redemption price equal to 100% of the principal amount to be redeemed, plus a "make whole" premium as of the redemption date, and accrued and unpaid interest to, but excluding, the redemption date. In addition, prior to August 1, 2028, the Company may redeem up to 40% of the aggregate principal amount of the 2033 Senior Notes with proceeds from certain equity offerings at a redemption price equal to 106% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. Furthermore, at any time on or after August 1, 2028, the Company may redeem on one or more occasions all or part of the 2033 Senior Notes at the redemption prices set forth below, plus accrued and unpaid interest thereon to, but excluding, the redemption date, if redeemed during the 12-month period beginning on August 1 of each of the years indicated below:

| | **Percentage** |
|---|---|
| 2028 | 103.000 % |
| 2029 | 101.500 % |
| 2030 and thereafter | 100.000 % |

The indenture pursuant to which the 2033 Senior Notes were issued contained customary events of default, including, among other things, payment default, failure to provide certain notices thereunder and certain provisions related to bankruptcy events. The indenture also contained customary negative covenants.

*Other Debt and Other Items*

Other debt consists primarily of obligations under capital leases and loans, and unsecured credit facilities. The Company's unsecured credit facilities are primarily used for standby letters of credit issued in connection with general and professional liability insurance programs and for contract performance guarantees. At September 30, 2025 and September 30, 2024, these outstanding standby letters of credit totaled $899.4 million and $934.5 million, respectively. As of September 30, 2025, the Company had $367.4 million available under these unsecured credit facilities.

*Effective Interest Rate*

The Company's average effective interest rate on its total debt, including the effects of the interest rate swap and interest rate cap agreements, during the years ended September 30, 2025, 2024 and 2023 was 5.1%, 5.6% and 5.3%, respectively.

Interest expense in the consolidated statements of operations included amortization of deferred debt issuance costs for the years ended September 30, 2025, 2024 and 2023 of $7.4 million, $7.6 million and $4.9 million, respectively.

## 9. Derivative Financial Instruments and Fair Value Measurements

The Company uses interest rate derivative contracts to hedge interest rate exposures on the Company's variable rate debt. The Company enters into foreign currency derivative contracts with financial institutions to reduce the risk that its cash flows and earnings will be adversely affected by foreign currency exchange rate fluctuations. The Company's hedging program is not designated for trading or speculative purposes.

The Company recognizes derivative instruments as either assets or liabilities on the accompanying consolidated balance sheets at fair value. The Company records changes in the fair value (i.e., gains or losses) of the derivatives that have been designated as accounting hedges in the accompanying consolidated statements of operations as interest expense or to accumulated other comprehensive loss in the accompanying consolidated balance sheets.

***Cash Flow Hedges***

The Company uses interest rate swap and interest rate cap agreements designated as cash flow hedges to limit exposure to variable interest rates on portions of the Company's debt. The Company initially reports any gain on the effective portion of a cash flow hedge as a component of accumulated other comprehensive loss. Depending on the type of cash flow hedge, the gain is subsequently reclassified against interest expense when the interest expense on the variable rate debt is recognized. If the hedged transaction becomes probable of not occurring, any gain or loss related to interest rate swap or interest rate cap agreements would be recognized in other income.

The notional principal, fixed rates and related effective and expiration dates of the Company's outstanding interest rate swap agreements were as follows:

| | | September 30, 2025 | | |
|---|---|---|---|---|
| **Notional Amount Currency** | **Notional Amount (in millions)** | **Fixed Rate** | **Effective Date** | **Expiration Date** |
| USD | 400.0 | 1.283% | February 2023 | March 2028 |

| | | September 30, 2024 | | |
|---|---|---|---|---|
| **Notional Amount Currency** | **Notional Amount (in millions)** | **Fixed Rate** | **Effective Date** | **Expiration Date** |
| USD | 400.0 | 1.283% | February 2023 | March 2028 |

In the fourth quarter of fiscal 2021, the Company entered into interest rate swap agreements with a notional value of $400.0 million to manage the interest rate exposure of its variable rate loans. The swaps became effective February 2023 and terminate in March 2028. By entering into the swap agreements, the Company converted a portion of the SOFR rate-based liability into a fixed-rate liability. The Company will pay a fixed rate of 1.283% and receive payment at the prevailing one-month SOFR.

In the third quarter of fiscal 2022, the Company purchased interest rate cap agreements with a notional value of $300.0 million to manage interest rate exposure of its variable rate loans. The caps became effective on June 30, 2022 and terminate in March 2028. The caps reduce the Company's exposure to one-month SOFR. In the event one-month SOFR exceeds 3.465%, the Company will pay the spread between prevailing one-month SOFR and 3.465%.

See Note 17 for accumulated balances and reporting period activities of derivatives related to reclassifications out of accumulated other comprehensive loss for the years ended September 30, 2025, 2024 and 2023. Additionally, there were no material losses recognized in income due to amounts excluded from effectiveness testing from the Company's interest rate swap agreements.

***Other Foreign Currency Forward Contracts***

The Company uses foreign currency forward contracts which are not designated as accounting hedges to hedge intercompany transactions and other monetary assets or liabilities denominated in currencies other than the functional currency of a subsidiary. Gains and losses on these contracts were not material for the years ended September 30, 2025, 2024 and 2023.

***Fair Value Measurements***

The fair values of the interest rate swap and interest rate cap agreements were derived by taking the net present value of the expected cash flows using observable market inputs (Level 2) such as SOFR rate curves, futures, volatilities and basis spreads (when applicable).

As discussed in Note 3, the Company received an equity investment in the civil infrastructure construction business buyer and concurrently participated as a member of a lending group in a revolving credit facility. The Company elected the fair value option for its equity investment due to the availability of quoted prices of identical assets. The fair value option was also elected for the credit facility investment. Changes in fair value of both investments are classified within other income on the consolidated statements of operations. The Company records interest income at the stated coupon rate of the credit facility and classifies it within interest income on the consolidated statement of operations. Fair value for the equity investment is determined using Level 1 inputs, and fair value of the credit facility investment is determined using Level 3 inputs, such as estimated cash flows and estimated discount rates. The Company recorded a gain of $2.5 million and $7.2 million in other income during the years ended September 30, 2025 and September 30, 2024, respectively, representing the increase in fair value of these investments.

In the fourth quarter of fiscal 2025, the Company issued contingent consideration in connection with the acquisition of a business, with a maximum value of $17.7 million. The contingent consideration is a liability that is measured at fair value with changes in fair value reported through earnings. The contingent consideration is measured using Level 2 inputs, such as quoted market prices and volatilities.

Below are the Company's non-pension financial assets and liabilities recorded at fair value on a recurring basis within the ASC 820-10 fair value hierarchy:

## 10. Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash investments and trade receivables. The Company's cash balances and short-term investments are maintained in accounts held by major banks and financial institutions located primarily in the U.S., Canada, Europe, Australia, Middle East and Hong Kong. If the Company extends significant credit to clients in a specific geographic area or industry, the Company may experience disproportionately high levels of default if those clients are adversely affected by factors particular to their geographic area or industry. Concentrations of credit risk with respect to trade receivables are limited due to the large number of customers comprising the Company's customer base, including, in large part, governments, government agencies and quasi-government organizations, and their dispersion across many different industries and geographies. See Note 4 regarding the Company's foreign revenues. In order to mitigate credit risk, the Company continually reviews the credit worthiness of its major private clients.

## 11. Leases

The Company and its subsidiaries are lessees in non-cancelable leasing agreements for office buildings and equipment. Substantially all of the Company's office building leases are operating leases, and its equipment leases are both operating and finance leases. The Company groups lease and non-lease components for its equipment leases into a single lease component but separates lease and non-lease components for its office building leases.

The Company recognizes a right-of-use asset and lease liability for its operating leases at the commencement date equal to the present value of the contractual minimum lease payments over the lease term. The present value is calculated using the rate implicit in the lease, if known, or the Company's incremental secured borrowing rate. The discount rate used for operating leases is primarily determined based on an analysis of the Company's incremental secured borrowing rate, while the discount rate used for finance leases is primarily determined by the rate specified in the lease.

The related lease payments are expensed on a straight-line basis over the lease term, including, as applicable, any free-rent period during which the Company has the right to use the asset. For leases with renewal options where the renewal is reasonably assured, the lease term, including the renewal period, is used to determine the appropriate lease classification and to compute periodic rental expense. Leases with initial terms shorter than 12 months are not recognized on the balance sheet, and lease expense is recognized on a straight-line basis.

During the fourth quarter of fiscal 2023, the Company approved a restructuring plan primarily to optimize its office real estate portfolio with its freedom to grow strategy, which initiated a review of the carrying value of right-of-use assets and leasehold improvements. In connection with the review, the Company identified leased assets that were no longer recoverable. The Company recorded an impairment charge of $86.2 million to reduce its right-of-use assets and leasehold improvements to their fair values and recorded the expense in restructuring costs on the Consolidated Statement of Operations. Fair value was determined primarily using Level 3 inputs, such as discounted cash flows.

The components of lease expenses are as follows:

| | Fiscal Year Ended | | |
|---|---|---|---|
| | September 30, 2025 | September 30, 2024 | September 30, 2023 |
| | (in millions) | | |

## 12. Stockholders' Equity

***Common Stock Units***—Common stock units are only redeemable for common stock. In the event of liquidation of the Company, holders of stock units are entitled to no greater rights than holders of common stock. See also Note 13.

## 13. Share-Based Payments

***Defined Contribution Plans***—Substantially all permanent domestic employees are eligible to participate in defined contribution plans provided by the Company. Under these plans, participants may make contributions into a variety of funds, including a fund that is fully invested in Company stock. Employees are not required to allocate any funds to Company stock; however, the Company does provide an annual Company match in AECOM shares. Employees may generally reallocate their account balances on a daily basis; however, employees classified as insiders are restricted under the Company's insider trading policy. Compensation expense for the employer contributions related to AECOM stock

issued under defined contribution plans during fiscal years ended September 30, 2025, 2024 and 2023 was $26.0 million, $24.7 million, and $23.1 million, respectively.

***Stock Incentive Plans***—Under the 2020 Stock Incentive Plan, the Company has up to 11.3 million securities remaining available for future issuance as of September 30, 2025. Stock options may be granted to employees and non-employee directors with an exercise price not less than the fair market value of the stock on the date of grant. Unexercised options expire seven years after date of grant.

The Company grants stock units to employees under its Performance Earnings Program (PEP), whereby units are earned and issued dependent upon meeting established cumulative performance objectives and vest over a three-year service period. Additionally, the Company issues restricted stock units to employees and directors which are earned based on service conditions. The grant date fair value of PEP awards and restricted stock unit awards is primarily based on that day's closing market price of the Company's common stock.

Restricted stock unit and PEP unit activity for the year ended September 30 was as follows:

| | Restricted Stock Units | Weighted Average Grant-Date Fair Value | PEP Units | Weighted Average Grant-Date Fair Value |

Total compensation expense related to these share-based payments including stock options was $61.4 million, $61.5 million, and $45.9 million during the years ended September 30, 2025, 2024 and 2023, respectively. Unrecognized compensation expense related to total share-based payments outstanding as of September 30, 2025 and 2024 was $106.7 million and $68.7 million, respectively, to be recognized on a straight-line basis over the awards' respective vesting periods which are generally three years.

## 14. Income Taxes

Income before income taxes included income from domestic operations of $392.7 million, $233.0 million, and loss of $129.2 million for fiscal years ended September 30, 2025, 2024 and 2023 and income from foreign operations of $522.9 million, $485.2 million, and $342.6 million for fiscal years ended September 30, 2025, 2024 and 2023.

During fiscal 2025, the Company recorded a reserve of $47.0 million related to uncertain tax positions associated with federal and state tax credits claimed for years subject to examination by the tax authorities. The reserve reflects the Company's assessment that it is more likely than not that a portion of the credits may not be sustained under examination based on recent discussions and developments related to our ongoing audits.

During fiscal 2025, the Company recognized deferred tax assets of $20.1 million related to legal entity restructuring. The restructuring resulted in the recognition of deferred tax assets related to tax attributes that are expected to be utilized against future taxable income.

During fiscal 2024, the Company recorded an increase in tax benefit of $38.4 million related to state income taxes due to apportionment factor changes for fiscal years 2016 through 2023. This benefit was partially offset by an increase in tax expense of $23.0 million related to uncertain tax positions.

During fiscal 2024, the Company sold certain ACAP investments and recorded a reduction in valuation allowances of $21.0 million and a reduction in deferred tax assets of $20.2 million. In addition, the Company recorded a valuation allowance of $9.3 million related to the remaining ACAP investments.

During fiscal 2024, the Company approved a tax planning strategy and restructured certain operations in Canada which resulted in a release of a valuation allowance related to net operating losses and other deferred tax assets of $11.7 million.

During fiscal 2024, the Company settled its tax audit in Hong Kong for fiscal year 2011 through fiscal year 2021 and recorded a tax benefit of $6.9 million due primarily to changes in uncertain tax positions.

During fiscal 2023, valuation allowances in the amount of $21.0 million related to the ACAP impairment charge were established for the portion of the charge that is not expected to be realized.

The Company is currently under tax audit in several jurisdictions including the U.S. where its federal income tax returns for fiscal 2017 through 2020 are being examined by the IRS. Disputes can arise with tax authorities involving issues related to the timing of deductions, the calculation and use of credits, and the taxation of income in various tax jurisdictions because of differing interpretations or application of tax laws, regulations, and relevant facts. The IRS is currently auditing certain tax credits and the methodology for calculating the credits. We will continue to monitor developments related to the examination and will adjust the reserve as necessary based on changes in facts and circumstances, including the resolution of the audit.

Generally, the Company would reverse its valuation allowance in a particular tax jurisdiction if the positive evidence examined, such as projected and sustainable earnings or a tax-planning strategy that allows for the usage of the deferred tax asset, is sufficient to overcome significant negative evidence, such as large net operating loss carryforwards or a cumulative history of losses in recent years. In the United States, the valued deferred tax assets have a restricted life or use under relevant tax law. In addition, the Company is continually investigating tax planning strategies that, if prudent and feasible, may be implemented to realize a deferred tax asset that would otherwise expire unutilized. The identification and internal/external approval (as relevant) of such a prudent and feasible tax planning strategy could cause a reduction in the valuation allowance.

The deferred tax assets (liabilities) are as follows:

| | Fiscal Year Ended | |
|---|---|---|
| | September 30, 2025 | September 30, 2024 |
| | (in millions) | |
| Deferred tax assets: | | |

As of September 30, 2025, and 2024, the Company has available unused federal, foreign and state net operating loss (NOL) carryforwards of $700.7 million and $744.6 million, respectively, which expire at various dates over the next several years and capital loss carryforwards of $51.7 million and $181.2 million, respectively, which expire over the next five years; some foreign NOL carryforwards never expire. In addition, as of September 30, 2025, the Company has unused state and foreign research and development credits of $30.5 million and $0.2 million, respectively, and other credits of $3.7 million which expire at various dates over the next several years.

As of September 30, 2025, and 2024, gross deferred tax assets were $609.4 million and $678.9 million, respectively. The Company has recorded a valuation allowance of $157.1 million and $160.9 million as of September 30, 2025 and 2024, respectively, primarily related to foreign and state net operating loss carryforwards, capital loss carryforwards, tax credits and other deferred tax assets. The Company has performed an assessment of positive and negative evidence, including the nature, frequency, and severity of cumulative financial reporting losses in recent years, the future reversal of existing temporary differences, predictability of future taxable income exclusive of reversing temporary differences of the character necessary to realize the asset, relevant carryforward periods, taxable income in carry-back years if carry-back is permitted under tax law, and prudent and feasible tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax asset that would otherwise expire. Although realization is not assured, based on the Company's assessment, the Company has concluded that it is more likely than not that the remaining gross deferred tax asset (exclusive of deferred tax liabilities) of $452.3 million will be realized and, as such, no additional valuation allowance has been provided. The net decrease in the valuation allowance of $3.8 million is primarily attributable to a decrease in valuation allowances of $5.6 million related to the capital losses, and an increase in valuation allowances on foreign net operating losses and currency translation adjustments of $1.9 million.

Generally, the Company does not provide for U.S. taxes or foreign withholding taxes on gross book-tax differences in its non-U.S. subsidiaries because such basis differences of approximately $1.1 billion are able to and intended to be reinvested indefinitely. If these basis differences were distributed, foreign tax credits could become available

under current law to partially or fully reduce the resulting U.S. income tax liability. There may also be additional U.S. or foreign income tax liability upon repatriation, although the calculation of such additional taxes is not practicable.

As of September 30, 2025, and 2024, the Company had a liability for unrecognized tax benefits, including potential interest and penalties, net of related tax benefit, totaling $144.1 million and $97.9 million, respectively. The gross unrecognized tax benefits as of September 30, 2025 and 2024 were $129.6 million and $81.3 million, respectively, excluding interest, penalties, and related tax benefit. Of the $129.6 million, approximately $125.4 million would be included in the effective tax rate if recognized. A reconciliation of the beginning and ending amount of gross unrecognized tax benefits is as follows:

| | Fiscal Year Ended | |
|---|---|---|
| | September 30, 2025 | September 30, 2024 |
| | (in millions) | |
| Balance at the beginning of the year | $ 81.3 | $ 62.1 |
| Gross increase in current period's tax positions | 9.2 | 34.5 |
| Gross increase in prior years' tax positions | 47.0 | 13.9 |
| Gross decrease in prior years' tax positions | (6.4) | (20.1) |
| Decrease due to settlement with tax authorities | — | (7.4) |
| Decrease due to lapse of statute of limitations | (1.3) | (2.2) |
| Gross change due to foreign exchange fluctuations | (0.2) | 0.5 |
| Balance at the end of the year | $ 129.6 | $ 81.3 |

The Company classifies interest and penalties related to uncertain tax positions within the income tax expense line in the accompanying consolidated statements of operations. As of September 30, 2025, the accrued interest and penalties were $23.8 million and $3.2 million, respectively, excluding any related income tax benefits. As of September 30, 2024, the accrued interest and penalties were $27.7 million and $3.5 million, respectively, excluding any related income tax benefits.

The Company files income tax returns in numerous tax jurisdictions, including the U.S., and numerous U.S. states and non-U.S. jurisdictions around the world. The statute of limitations varies by jurisdiction in which the Company operates. Because of the number of jurisdictions in which the Company files tax returns, in any given year the statute of limitations in certain jurisdictions may expire without examination within the 12-month period from the balance sheet date.

While it is reasonably possible that the total amounts of unrecognized tax benefits could significantly increase or decrease within the next twelve months, an estimate of the range of possible change cannot be made.

## 15. Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income attributable to AECOM by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income attributable to AECOM by the weighted average number of common shares outstanding and potential common shares for the period. The Company includes as potential common shares the weighted average dilutive effects of equity awards using the treasury stock method. For the periods presented, equity awards excluded from the calculation of potential common shares were not significant.

The following table sets forth a reconciliation of the denominators of basic and diluted earnings per share:

## 18. Commitments and Contingencies

The Company records amounts representing its probable estimated liabilities relating to claims, guarantees, litigation, audits and investigations. The Company relies in part on qualified actuaries to assist it in determining the level of reserves to establish for insurance-related claims that are known and have been asserted against it, and for insurance-related claims that are believed to have been incurred based on actuarial analysis, but have not yet been reported to the Company's claims administrators as of the respective balance sheet dates. The Company includes any adjustments to such insurance reserves in its consolidated results of operations. The Company's reasonably possible loss disclosures are presented on a gross basis prior to the consideration of insurance recoveries. The Company does not record gain contingencies until they are realized. In the ordinary course of business, the Company may not be aware that it or its affiliates are under investigation and may not be aware of whether or not a known investigation has been concluded.

In the ordinary course of business, the Company may enter into various arrangements providing financial or performance assurance to clients, lenders, or partners. Such arrangements include standby letters of credit, surety bonds, and corporate guarantees to support the creditworthiness or the project execution commitments of its affiliates, partnerships and joint ventures. The Company's unsecured credit arrangements are used for standby letters of credit issued in connection with general and professional liability insurance programs and for contract performance guarantees. At September 30, 2025 and 2024, these outstanding standby letters of credit totaled $899.4 million and $934.5 million, respectively. As of September 30, 2025, the Company had $367.4 available under these unsecured credit facilities. Performance arrangements typically have various expiration dates ranging from the completion of the project contract and extending beyond contract completion in some circumstances such as for warranties. The Company may also guarantee that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, the Company may incur additional costs, pay liquidated damages or be held responsible for the costs incurred by the client to achieve the required performance standards. The potential payment amount of an outstanding performance arrangement is typically the remaining cost of work to be performed by or on behalf of third parties. Generally, under joint venture arrangements, if a partner is financially unable to complete its share of the contract, the other partner(s) may be required to complete those activities.

At September 30, 2025, the Company was contingently liable in the amount of approximately $903.8 million in issued standby letters of credit and $5.6 billion in issued surety bonds primarily to support project execution.

In the ordinary course of business, the Company enters into various agreements providing financial or performance assurances to clients on behalf of certain unconsolidated partnerships, joint ventures and other jointly executed contracts. These agreements are entered into primarily to support the project execution commitments of these entities.

The Company's investment adviser jointly manages and sponsors the AECOM-Canyon Equity Fund, L.P. (the "Fund"), in which the Company indirectly holds an equity interest and has an ongoing capital commitment to fund investments. At September 30, 2025, the Company has capital commitments of $5.1 million to the Fund over the next three years

In addition, in connection with the investment activities of AECOM Capital, the Company provides guarantees of certain contractual obligations, including guarantees for completion of projects, limited debt repayment, environmental indemnity obligations and other lender required guarantees.

In February 2024, the Company was informed of a potential liability as one of the indemnitors on a divested business' surety bonds. The Company does not have sufficient information to determine the range of potential impacts; however, it is reasonably possible that the Company may incur additional costs related to these bonds.

In connection with the resolution of contingencies related to the sale of the civil infrastructure construction business, the Company agreed to act as an additional guarantor on the counterparty's existing debt, which was extended to March 2028.

## 19. Reportable Segments and Geographic Information

The Company manages its operations under three reportable segments according to their geographic regions and business activities. In identifying its reportable segments, the Company considered the financial information provided to its chief operating decision maker (CODM), who is the chief executive officer. The financial data is organized by geographic region and global business lines. The CODM uses this information to allocate resources and assess the performance of the segments primarily based on revenue less pass-through revenue and attributable earnings before interest, tax, and amortization expense along with forecasts, market activity, and other non-financial information. Information provided to the CODM for purposes of making operating decisions and evaluating segment performance excludes asset-related information. After considering various factors, including the development and utilization of financial data to the CODM, the Company concluded that identifying its operating segments by geography was consistent with the objectives of ASC 280-10. Certain operating segments have been aggregated based on similar characteristics, including long-term financial performance, the nature of services provided, internal process for delivering those services, and types of customers, to arrive at the Company's reportable segments. The Company's Americas reportable segment provides planning, consulting, architectural and engineering design services, and construction management services to public and private clients in the United States, Canada, and Latin America and is comprised of the Design and Consulting Services Americas and Construction Management operating segments. The Company's International reportable segment provides similar professional services to public and private clients in Europe and India, the Middle East and Africa, Asia, and Australia and New Zealand and is comprised of the operating segments in those geographic regions. The Company's AECOM Capital (ACAP) operating segment is its own reportable segment and primarily invests in and develops real estate projects. Certain expenses that are determined to be related to the Company as a whole are not deemed to be part of an operating segment but are reported within Corporate.

The following tables set forth summarized financial information concerning the Company's reportable segments:

## ITEM 9A. CONTROLS AND PROCEDURES

***Evaluation of Disclosure Controls and Procedures***

Based on management's evaluation, with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), our CEO and CFO have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), were effective as of September 30, 2025 to ensure that information required to be disclosed by us in this Annual Report on Form 10-K or submitted under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and (ii) accumulated and communicated to our management, including our principal executive and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

***Management's Report on Internal Control over Financial Reporting***

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934, as amended, as a process designed by, or under the supervision of, the company's principal executive and principal financial officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of the effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management, with the participation of our CEO and CFO, assessed the effectiveness of our internal control over financial reporting as of September 30, 2025, the end of our fiscal year. Our management based its assessment on criteria established in *Internal Control—Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our management's assessment included evaluation and testing of the design and operating effectiveness of key financial reporting controls, process documentation, accounting policies, and our overall control environment.

Based on our management's assessment, our management has concluded that our internal control over financial reporting was effective as of September 30, 2025. Our management communicated the results of its assessment to the Audit Committee of our Board of Directors.

Our independent registered public accounting firm, Ernst & Young LLP, audited our financial statements for the fiscal year ended September 30, 2025 included in this Annual Report on Form 10-K, and has issued an audit report with respect to the effectiveness of the Company's internal control over financial reporting, a copy of which is included earlier in this Annual Report on Form 10-K.

***Changes in Internal Control Over Financial Reporting***

There were no changes in our internal control over financial reporting during the fiscal quarter ended September 30, 2025 identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**COUNTY OF NASSAU**
**DEPARTMENT OF PUBLIC WORKS**
# Inter-Departmental Memo

**TO:** Office of the County Executive
Att.: Arthur T. Walsh, Chief Deputy County Executive

**FROM:** Department of Public Works

**DATE:** May 8, 2026

**SUBJECT:** Contract Amendment **(REVISED)**
On-Call Construction Management Services – Buildings
AECOM USA, Inc.
Contract No. B90400-01CMC

This amendment will amend the County's contract with AECOM USA, Inc. (AECOM), to modify the maximum amount to be paid to the Firm for the Firm's services under the terms of the original agreement permitting the Firm to continue performing On-Call Construction Management work for two active missions. Beyond providing additional funding for these active missions, this amendment shall increase the contract capacity to enable AECOM to potentially be awarded additional missions.

DPW requests that the contract capacity of One Million Dollars ($1,000,000.00) be amended by One Million Dollars ($1,000,000.00). The new "not to exceed" contract capacity shall be Two Million Dollars ($2,000,000.00). This increase in capacity shall cover completion of the active missions as well as the potential for additional awarded missions throughout the lifespan of this contract.

AECOM was awarded On-Call CM Mission #2 for the NCPD's Property Clerk Relocation for a not-to-exceed amount of Four Hundred Ten Thousand Eighty-Three dollars ($410,083.00). AECOM was the recommended firm to be awarded On-Call CM Mission #3 for the Nassau County Supreme Court Elevator Rehabilitation project with a proposed not-to-exceed fee of Six Hundred Twenty-Nine Thousand Six Hundred Thirteen Dollars ($629,613.00). Contract B90400-01CMC has contract capacity of One Million Dollars ($1,000,000.00). The value of these combined missions exceeds the contract capacity. Through no fault of AECOM's the Property Clerk Relocation project has incurred schedule delays that will push the project end date out. AECOM has proposed an approximate Three-Hundred Thousand Dollars ($300,000.00) additional fee to remain on that project through completion.

SUBJECT: Contract Amendment (REVISED)

E. **Infringement Indemnification**. The Contractor shall indemnify, defend and hold the County harmless against any and all liabilities, losses, costs, expenses (including reasonable attorney's fees and disbursements) and damages ("Losses") arising out of or in connection with any infringement, violation or unauthorized use of any copyright, trade secrets, or trademark , patent or any other property or personal right of any third party by the Contractor and/or its employees, agents, or subcontractors in the performance of this Agreement. (2) The foregoing provisions shall not apply to any infringement occasioned by modification by the County that is (A) not contemplated by the Contractor; (B) made without the Contractor's approval; (C) infringement occasioned by County Works, specifications, or requirements provided to the Contractor.

(3) In the event that an action at law or equity is commenced against the County arising out of a claim that the County's use of a Work Product infringes any patent, copyright or propriety right and the Contractor is of the opinion that the allegations in such action in whole or in part are not covered by the indemnification and defense provisions set forth in this Agreement, the Contractor shall immediately notify the County in writing and shall specify to what extent the Contractor believes it is obligated to defend and indemnify under the terms and conditions of this Agreement. The Contractor shall in such event protect the interests of the County and secure a continuance to permit the County to appear and defend its interests in cooperation with the Contractor as is appropriate, including any jurisdictional defenses the County may have.

F. The provisions of this Section shall survive the termination of this Agreement.

The failure of the Contractor to maintain required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

17) **Assignment; Amendment; Waiver; Subcontracting**.

A. This Agreement and the rights and obligations hereunder may not be in whole or part and in accordance with General Municipal Law Section 109 (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

B. The Contractor is and shall remain primarily liable for the successful completion of all Services in accordance with this Agreement. Nothing in this Agreement or otherwise shall create any contractual relationship between the County and the Contractor's subcontractors. The Contractor agrees to be fully responsible to the County for the acts and omissions of its subcontractors. The Contractor's obligation to pay its subcontractors is an independent obligation from the County's obligation to make payments to the Contractor. Therefore, the County shall have no obligation to pay or to enforce the payment of any moneys to any Contractor subcontractors.

Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered

to the Applicable DCE. The complaint or necessary 6 moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

B. Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

21) **Work Performance Liability**. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

C. The Contractor agrees to cooperate with the Department with respect to investigation of the breach and to reimburse the Department for actual documented costs legally required or associated with responding to the breach of security caused by the negligence of Contractor.

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

**Definitions:**

As used in this Appendix EE the term **"Executive Director"** shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term **"Subcontract"** shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term **"Subcontractor"** shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

As used in this Appendix EE the term **"Best Efforts Checklist"** shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term **"County Contract"** shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term **"County Contractor"** means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE **"Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises"** shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid

**Rule:**

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

A. The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

B. At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

C. The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

D. The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

E. The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

F. Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.

G. Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

H. At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

I. In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

J. Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

K. A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

L. The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

i) Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. During your advance ruling period, you will be treated as a public charity. Your advance ruling period begins with the effective date of your exemption and ends with advance ruling ending date shown in the heading of the letter.

Shortly before the end of your advance ruling period, we will send you Form 8734, Support Schedule for Advance Ruling Period. You will have 90 days after the end of your advance ruling period to return the completed form. We will then notify you, in writing, about your public charity status.

Please see enclosed Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, for some helpful information about your responsibilities as an exempt organization.

# Contract Summary

**Purpose:** Nassau County solicited proposals to design, develop, administer, and validate written examinations for various Civil Service titles on behalf of the Nassau County Police Department and the Civil Service Commission of Nassau County. This is a renewal of the contract so that Civil Service and the PD can offer more tests.

**Procurement History:** The last solicitation for Police Civil Service Testing and Administrative Services was in 2016. AON was the contractor selected that provided testing and administrative services through 2018, the last time an entrance level Police Officer exam was administered. The County and the Police Department are under a Consent Decree with the United States Department of Justice, which provides that the County and the Department will develop and administer written examinations for entry level Police Officers, unsworn personnel, and promotional examinations that either: (i) do not have discriminatory impacts upon African-

Americans, Hispanics, or females, or (ii) have been validated in accordance with Title VII of the Civil Rights Act of 1964, as amended ("Title VII"), and the Federal Uniform Guidelines on Employee Selection Procedures. The County issued this solicitation to seek a contractor to produce and validate written examinations for the Department that do not have discriminatory impacts upon all groups protected by Title VII and the Federal Uniform Guidelines on Employee Selection Procedures.

**Description of General Provisions:** The County needs an independent and qualified consultant to develop, administer, and validate written examinations for various Civil Service titles on behalf of the Nassau County Police Department and the Civil Service Commission of Nassau County. The County and the Department are under the oversight of the provisions of a Consent Decree with the United States Department of Justice, which provides that the County and the Department will develop and administer written examinations for entry level Police Officers, unsworn personnel, and promotional examinations that either: (i) do not have discriminatory impacts upon African-Americans, Hispanics, or females, or (ii) have been validated in accordance with Title VII of the Civil Rights Act of 1964, as amended ("Title VII"), and the Federal Uniform Guidelines on Employee Selection Procedures.

**Impact on Funding / Price Analysis:** This is a two (2) year renewal of the original three (3) year contract. $2,221,346.00 is being added to the contract so now the total five (5) year maximum spend is $5,000,240.00.

**Change in Contract from Prior Procurement:** The services of this contract will be performed under the oversight of the Department of Justice and include additional tests to be administered. Tests to be administered under this contract are Police Officer, Police Communications Operator, Police Service Aide Trainee, and Police Sergeant.

# Cost Overview and Summary

This section summarizes the services and associated updated costs. In deriving these costs, the following assumptions have been made:

1. Proposed costs for each position cover a single administration of the examination process for each position, plus certain make up fees associated with military applicants. Proposed Cost assumes brick and mortar proctored testing or remote proctored testing. Consulting fees for make-up scoring as outlined in Section 6 of Tables 2-5 below, apply only when the exact same test is given and do not include development of alternate forms that don't already exist as part of the main test. Make-up scoring costs also do not include administrative fees for make-up candidates. Costs have been reduced assuming that the process, and test content in the case of licensed, off-the-shelf tests, developed and implemented during the first administration will carry over to subsequent administrations. The cost reductions also assume no Department of Justice (DOJ) or APT Metrics review throughout subsequent administrations. If the County expects DOJ and APT Metrics involvement, Talogy can provide an amended Cost Proposal to account for the additional time required.
2. If the County seeks additional full administrations for any position within an extension year, Talogy will provide a cost estimate based on the subset of activities that must be repeated (plus any new activities to be added) for subsequent administrations. That is, job analyses, transportability studies, and validation studies may not need to be repeated or may require only updating for the next testing cycle, depending on the timeframe for future exams.
3. In the event the County seeks to adopt an additional extension year, Talogy reserves the right to apply a CPI adjustment of 3% to each contract extension, subject to Department approval. A CPI adjustment of 3% has been added to this cost proposal for the first extension with the exception of the test licensing fees.
4. Cost estimates were derived using candidate volumes similar to those observed in previous examination processes as follows:
   - Police Officer: 12,900
   - Police Communications Operator: 640
   - Police Service Aide Trainee: 330
   - Police Sergeant: 1,200

   These volumes provide the basis for test licensing fees, where applicable. In other words, the County will be charged per candidate test licensing fees (where applicable) ONLY for candidates who appear to test; the County will not be charged test licensing fees for applicants who do not appear.

   However, for test administration, pricing is based on the volume of expected applicants (i.e., seats allocated), not the volume of candidates who appear on the testing day, as we must plan to provide a test seat, equipment, proctor, etc. for every individual who applies, regardless of whether they appear to test. Actual volume of applicants may differ, and administrative pricing will increase

CONFIDENTIAL

or decrease based on the number of applicants the County provides at time of test center configuration. Contractor shall base volume and invoice based on the number provided by the County thirty days prior to the exam date.

5. Computer based test administration of the examinations – this includes Talogy providing computer equipment, technical support, and project management support. If necessary, paper test administration can be made available, where applicable; if this option is adopted, Contractor may provide a revised cost estimate.
    - Option A (County): County is responsible for test locations and proctors – **Selected by the County**
6. One Talogy consulting staff will be onsite to help oversee the test administration for each position and address any questions or concerns that arise. Based on the initial administrations, additional Talogy technology and project management staff will be onsite for each test administration for all days of testing in the following quantities:

| | Consulting Staff | Technology and Project Management Staff |
|---|---|---|
| Police Officer | One (1) staff | Three (3) staff |
| Police Communications Operator | One (1) staff | Two (2) staff |
| Police Service Aide Trainee | One (1) staff | One (1) staff |
| Polic Sergeant | One (1) staff | Two (2) staff |

   Fees for consultants are included in the Consulting Fee section for each position; fees for technology and project management staff are included in the Administration Fee section for each position.

7. The cost is based upon a) the scope of work outlined in the proposal, b) the timeline presented, and c) projected applicant and candidate volume. It is assumed that Talogy will not provide any hard copy preparation guides to the County but will provide a printable file of each preparation guide to the County if the County chooses to print one or more preparation guides in-house.

Talogy has updated the costs to reflect selections made by the County and Department during the initial administration for each position, including certain cost saving measures such as the County's choice to provide all preparation guides online rather than in hard copy format

User Acceptance Testing – for configuration/custom solutions:

- If Client is unable to complete the project during the agreed timeline and Talogy release cycle, the project is subject to being pulled from the release and slotted for a future Talogy release following another Amended Appendix which outlines the remaining steps.
- Client is expected to use best efforts to complete all User Acceptance Testing ("UAT") efforts during the project release timeline allocated.
- UAT is for the Client to confirm the agreed upon requirements have been met, and not for Client to provide any further changes to those requirements.
- If Client fails to complete project during agreed timeline, Client shall still be responsible for Fees as outlined under the Fee Section.
- If project is pulled from release or if Client believes during UAT that additional changes need to be made, Client may be subject to additional fees under an Amended Appendix that outlines Client's remaining steps.

Project Assumptions:

- The solution does not include customized features or functionality specific for Client.
- In the event client decides to cancel any testing event in which Contractor has already secured accommodations for, Client shall be responsible for all fees related to such cancellation.

# Live Remote Proctoring: Description and Pricing

The True Talent platform allows candidates to securely test from virtually anywhere, via laptop or desktop, while monitored by a proctor in real time. The True Talent platform is compatible with any modern Windows or macOS computer with a working webcam, microphone, and internet connection. We do not currently support smartphones, pure tablets, or Chrome Books.

Our remote proctoring system, policies, and procedures ensure that all exams are appropriately monitored and adhere to testing policies and any additional policies specified by Nassau County. Our Live Remote tool has a built-in secure browser with customization options. The browser is designed to be both non-invasive and highly effective at preventing candidates from using their computers to cheat or distribute exam questions. The security features can block access to other browsers, screen sharing, screen recording, remote access, virtual machines, chat tools, communication tools, hot keys, copy/paste, right mouse-click menus, dual/extended monitors, and much more.

Live Remote proctors are trained on standard proctored protocols along with client specific business that must be adhered to as part of their respective testing program(s). The entire exam session is monitored by a live proctor, who will focus on the candidate's actions and surroundings. The proctor can view and hear the candidate, but the candidate cannot view or hear the proctor. All communication between the proctor and candidate is limited to type chat. We have found that chat is superior to video/audio for ESL (English as a second language) candidates and minimizes biases and distractions. It also uses less bandwidth during the exam, resulting in lower minimum internet speed requirements. Proctors cannot see test content, as it is obscured in their system view.

Proctors are trained to take a "see something, say something" approach, meaning they flag any potential violation. But that doesn't mean a candidate is notified or disrupted with every flag. Our system has an Intelligent Incident Handling feature that relies on Nassau County-generated rules to determine what action the flag triggers and, ultimately, how the situation should be handled. Candidates will only be warned about actions that Nassau County has prohibited.

While we have decided not to rely on AI (artificial intelligence) as many vendors do, we have implemented an important second layer of vigilance with technology that supports the proctor. They are equipped with tools that alert them to suspicious movements (e.g., continual looking off-screen) and noises (e.g., someone talking).

Talogy will work with Nassau County to establish exam rules and desired outcomes for infractions. Nassau will determine the severity of an offense, with minor infractions presenting an on-screen warning to the candidate and major violations resulting in immediate exam termination. As mentioned, our proctors are trained to flag any potential violation, but Intelligent Incident Handling within the system looks to your rules to determine what action the flag triggers.

Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

12. Assignment; Amendment; Waiver; Subcontracting. (a) This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

(b) The Contractor is and shall remain primarily liable for the successful completion of all Services in accordance with this Agreement. Nothing in this Agreement or otherwise shall create any contractual relationship between the County and the Contractor's subcontractors. The Contractor agrees to be fully responsible to the County for the acts and omissions of its subcontractors. The Contractor's obligation to pay its subcontractors is an independent obligation from the County's obligation to make payments to the Contractor. Therefore, the County shall have no obligation to pay or to enforce the payment of any moneys to any Contractor subcontractors.

(c) The Contractor shall ensure that their subcontractors shall not further subcontract, or otherwise engage an independent contractor or agent to provide any Services under this Agreement without the prior written consent of the County Executive.

13. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon sixty (60) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is

impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

(c) Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

14. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles. Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

15. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action;(ii) the time specified in any other provision of this Agreement; and (iii) any shorter time period as provided by Law.

16. Work Performance Liability. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

17. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect

to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

18. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

19. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the following order of priority shall apply, starting with first priority and ending with last priority:

A. Terms and conditions set forth above the signature page of this Agreement;
B. Appendix EE: Equal Employment Opportunities for Minorities and Women; and Appendix L: Certificate of Compliance (Nassau County Living Wage Law);
C. Exhibit A: Confidentiality Agreement;

To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

20. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

21. Administrative Service Charge. The Contractor agrees to pay the County an administrative service charge of Five Hundred Thirty-Three Dollars ($533.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Numbers 201-2001, 128-2006, and 153-2018. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

22. Executory Clause. Notwithstanding any other provision of this Agreement:

## Appendix EE
## Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public

Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines

or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars ($25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars ($100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition,

replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.

b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation

d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.

e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.

f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound

business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.

h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation

i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

## APPENDIX A
## Services to be Provided and Project Elements
***Talogy will provide monthly invoices for the portion of work completed each month***

# Cost Overview and Summary

This section summarizes the services and associated costs. In deriving these costs, the following assumptions have been made:

1. Proposed costs for each position cover a single administration of the examination process for each position, plus certain make up fees associated with military applicants. Proposed Cost assumes brick and mortar proctored testing only. Consulting fees for make-up scoring as outlined in Section 6 of Tables 2-5 below, apply only when the exact same test is given and do not include development of alternate forms that don't already exist as part of the main test. Make-up scoring costs also do not include administrative fees for make-up candidates
2. If the County seeks additional full administrations for any position within the initial, three-year term, Talogy will provide a cost estimate based on the subset of activities that must be repeated (plus any new activities to be added) for subsequent administrations. That is, job analyses, transportability studies, and validation studies may not need to be repeated or may require only updating for the next testing cycle, depending on the timeframe for future exams.
3. In the event the County seeks to adopt one or both extension years, Talogy reserves the right to apply a CPI adjustment of 3% to each contract extension, subject to Department approval.
4. Cost estimates, were derived using candidate volumes similar to those observed in previous examination processes as reported in Addendum #1 as follows:
    - Police Officer: 15,700
    - Police Communications Operator: 350
    - Police Service Aide Trainee: 160
    - Police Sergeant: 730

    These volumes provide the basis for test licensing fees, where applicable. In other words, the County will be charged per candidate test licensing fees (where applicable) ONLY for candidates who appear to test; the County will not be charged test licensing fees for applicants who do not appear.

    However, for the test administration, pricing is based on the volume of expected applicants (i.e., seats allocated), not the volume of candidates who appear on the testing day, as we must plan to provide a test seat, equipment, proctor, etc. for every individual who applies,

regardless of whether they appear to test. Actual volume of applicants may differ, and administrative pricing will increase or decrease based on the number of applicants County provides at time of test center configuration. (a) County shall provide a firm number of applicants forty-five (45) days prior to exam date. Contractor shall base volume and invoice based on the number provided by the County thirty days prior to the exam date.

5. Computer based test administration of the examinations – this includes Talogy providing computer equipment, technical support, and project management support. If necessary, paper test administration can be made available, where applicable; if this option is adopted, Contractor may provide a revised cost estimate

    - Option A (County): County is responsible for test locations and proctors – **Selected by the County**

6. Two Talogy consulting staff will be onsite (except only one for Police Service Aide Trainee due to lower candidate volume) to help oversee the test administration for each position and address any questions or concerns that arise. For the Police Officer examination, five additional Talogy technology and project management staff will be onsite for all days of testing. Fees for consultants are included in the Consulting Fee section for each position; fees for technology and project management staff are included in the Administration Fee section for each position.

7. The cost is based upon a) the scope of work outlined in the proposal, b) the timeline presented, and c) projected applicant and candidate volume. It is assumed that any hard copy preparation guides will be provided in bulk to the County for distribution to candidates; the proposed costs do not include the cost to mail guides to individual candidates. Talogy will also provide a printable file of the preparation guides to the County if the County chooses to print the preparation guides in-house.

Talogy has a number of options for reducing costs that the County can opt for such as providing all preparation guides online rather than in hard copy format or printing them in-house. The costs can be updated to reflect any cost reduction options.

User Acceptance Testing – for configuration/custom solutions:

- If Client is unable to complete the project during the agreed timeline and Talogy release cycle, the project is subject to being pulled from the release and slotted for a future Talogy release following another Amended Appendix which outlines the remaining steps.
- Client is expected to use best efforts to complete all User Acceptance Testing ("UAT") efforts during the project release timeline allocated
- UAT is for the Client to confirm the agreed upon requirements have been met, and not for Client to provide any further changes to those requirements.
- If Client fails to complete project during agreed timeline, Client shall still be responsible for Fees as outlined under the Fee Section.
- If project is pulled from release or if Client believes during UAT that additional changes need to be made, Client may be subject to additional fees under an Amended Appendix that outlines Client's remaining steps.

Project Assumptions:

- The solution does not include customized features or functionality specific for Client

- In the event client decides to cancel any testing event in which Contractor has already secured accommodations for, Client shall be responsible for all fees related to such cancellation.
- Below please find our standard tables that outline high-level milestones and project tasks per event. These are subject to change by mutual agreement between the Contractor and the Department.

For the purpose of the Cost Proposal, it is understood that this project will occur under court oversight. Should additional litigation support services or work beyond project scope be required, the engagement agreement in effect at the time the litigation support or additional work is requested will be used to negotiate rates and policies. Talogy's current engagement agreement for litigation support and work beyond the project scope appears below..

### Talogy Engagement Agreement for Litigation Support & Work Beyond Project Scope

**1. Litigation Support**

Except where Vendor is deemed to be negligent, or named as a defendant any activity proposed during the course of the contract that: a) is quasi-legal in nature (e.g., activities performed in response to oversight from a court-appointed attorney/expert or oversight agency such as the Department of Justice pursuant to litigation and associated court requirements) including, but not limited to, supplementary data transfers, data analyses, reports, meetings and conference calls; or b) is related to existing or pending litigation at the time this Agreement is entered into (e.g., Expert Witness services, Fact Witness services) will be billed at the hourly rates specified in this Agreement, subject to the payment terms listed above.

> By Way of Example: Litigation Support will kick in for items requested out of the ordinary for the DOJ, i.e., if Talogy holds a meeting to explain results to the County and DOJ is present too, Talogy will not charge, but if Talogy is required to schedule extra meetings with DOJ and must provide additional data and analyses, Talogy will charge.

When providing litigation support, Talogy bills by the hour, at rates commensurate with the skills of its staff, as set forth in the Fee Schedule below. Talogy organizes client work in such a way as to attempt to minimize the cost to the client, while still meeting exacting standards of timeliness and professionalism. Expenses such as normal copying, communications (phone, fax, and e-mail) and so forth are included in the hourly rates. Large copy jobs, shipping, and travel expenses are billed separately. No surcharge is added to out-of-pocket expenses.

ARMS is fortunate in that it has been the original records management vendor for NCDSS since the inception of the program in 1997. To fully appreciate the program today it is important to remember the state of NCDSS' central file room in 1996.
At the time of the vendor walk-thru in 1996 the central file room was chaotic, inefficient and overstaffed. Kevin Montera of ARMS was on the walk-thru and observed a central file room with an army of NCDSS employees and temporary workers either retrieving and refiling files or looking for lost files. To the casual observer it looked like organized chaos. It is a tribute to the then NCDSS personnel that any files could be located and delivered to a requesting unit. ARMS developed a detailed plan to organize and automate NCDSS' record storage and management functions. ARMS provided NCDSS the most advanced and cost effective technology to run its record management program.

viii) Copies of all state and local licenses and permits.

B. Indicate number of years in business.

44

C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

ARMS staff continues to meet with NCDSS staff to discuss the present record management system and needs for the future. In late 2006 and early 2007 NCDSS upgraded their present contact barcode readers with the addition of laser barcode readers that enable NCDSS to scan barcodes faster and with less wear and tear on the location barcodes. In 2007 ARMS completed the process of converting the old Filemaker Pro 5 software program and data to the then latest Filemaker Pro 8.5 version of the client and sever software. In 2008 ARMS completed the upgrade to the latest Filemaker Pro 9.0 version of the client and server software. In 2012 ARMS completed the upgrade to the latest Fiulemaker Pro 12

client and server software and the replacement of the old server with a new server. The only cost incurred by NCDSS was upgrading the dead server hardware with a new server. The conversion, programming and other labor services were provided as part of ARMS service and at no cost to Nassau County taxpayer

D. Provide names and addresses for no fewer than three references for whom the Proposer has provided similar services or who are qualified to evaluate the Proposer's capability to perform this work.

Re: Amendment for Records Management Services-
American Records Management Systems, Inc. CQSS22000005

Dear Joanne:

Please allow this letter to serve as a response to the Nassau County correspondence received on May 18, 2026, regarding the contract for Amendment for Records Management Services-American Records Management Systems, Inc. CQSS22000005 assignment of CSEA Unit work to people not in the CSEA Unit.

After reviewing the contract and scope of work provided, it is CSEA's position that there are several titles that would satisfy the needs of the department and are more than qualified and capable of doing the same work that Records Management Services provides.

Further, due to the fact that Class Specifications of the Nassau County Civil Service allow for civil servants and therefore CSEA Bargaining Unit Employees to perform said proposed tasks, it is only logical and in "Good Faith" that County Employees be allowed to satisfy the County's needs", thereby avoiding "the unnecessary assignment of CSEA unit Work to persons not in the CSEA Unit, (section 32-1 of the CBA).

Our contention, as always, is that this is our work and we refuse to accept a lack of staffing as a reason for subcontracting.

Finally, pursuant to Section 32-3, I am ready, willing and able to meet with you at your earliest convenience, to meet and confer with respect to CSEA's proposals.

Please advise as to your availability to discuss. Thank you for your anticipated cooperation. If you have any questions, please feel free to contact me.

Very Truly Yours,

*Kris Kalender*

CONTRACT FOR SERVICES

THIS AGREEMENT, dated as of April 1, 2022 (together with the schedules, appendices, attachments and exhibits, if any, this "Agreement"), executed by Nassau County, is entered into by and between (i) Nassau County, a municipal corporation having its principal office at 1550 Franklin Avenue, Mineola, New York 11501 (the "County"), acting for and on behalf of the Nassau County Department of Social Services (the "Department"), having its principal office at 60 Charles Lindbergh Boulevard, Uniondale, New York 11553 and (ii) American Records Management Systems, Inc., a corporation formed under the laws of the state of New York, having its principal office at One Corporate Drive, Hauppauge, New York 11788(the "Contractor").

W I T N E S S E T H:

WHEREAS, the County desires to hire the Contractor to perform the services described in this Agreement; and

WHEREAS, the Contractor desires to perform the services described in this Agreement; and

WHEREAS, this is a personal service contract within the intent and purview of Section 2206 of the County Charter;

NOW, THEREFORE, in consideration of the promises and mutual covenants contained in this Agreement, the parties agree as follows:

1. Term. This Agreement shall commence on April 1, 2022 and terminate on March 31, 2027, unless sooner terminated in accordance with the provisions of this Agreement.

2. Services. The services to be provided by the Contractor under this Agreement shall consist of the following (collectively the "Services"):
    a. Managing and Transport of Storage Boxes.
        i. The Contractor will provide sturdy 1.2 cubic foot cartons for the transport and storage of client's files for the Department, the Department of Human Services, the Veterans Service Agency and the Department of Health. The Department shall record the sequential order of the files in each carton, and this sequence will be related to the carton barcode number which will be placed on the end panel of the carton. The barcode label will be read by an election scanner, which will be downloaded into the Department's record storage computer program allowing location for each closed file in the Contractor's facility to be electronically controlled.
        ii. Once the Department has packed, catalogued, and bar-coded the cartons, the Contractor will transfer the cartons from the Department's Central Inventory Room to the loading dock of the Department's Uniondale building. The Contractor shall be responsible for loading the

cartons into a truck and transporting these cartons to the Contractor's storage facility. The Contractor will not intrude on the Department's daily work schedule while packing and shipping closed client files.

b. Storage and Maintenance of Cartons and Files.
   i. Once the cartons have been shipped to the Contractor's storage facility, each carton is placed on steel shelving off the floor. Contractor warrants and represents that their storage facility is structurally sound, single occupancy, and safeguarded by fire and intrusion alarms as well as video surveillance cameras at all times. The Contractor agrees to maintain the sound condition of the facility throughout the duration of the agreement.
   ii. The Contract shall electronically monitor the location of the cartons containing the Department's closed client files stored at the Contractor's facility. An electronic scanner that is downloaded into the Contractor's record storage computer program reads the barcode label and the storage location; thus the location of each box in the Contractor's facility is electronically controlled. Once a carton is entered into the Contractor's computer system its movement will be electronically controlled. The Contractor will also incorporate a computer copy of the inventory of the closed files into the Department's computer system.
   iii. The files shall be maintained in closed cartons.
   iv. Confidentiality Requirements.
      1. The Services described in the Agreement involve the handling of name specific client information, which is confidential in nature. Only authorized staff shall handle confidential information in accordance with their designated duties.
      2. Such authorized staff will be instructed by the Contractor regarding the Department's confidentiality requirements as governed by certain sections of the New York State Social Services Law (NYS Social Services Law Section 136 (Public Welfare Records), Section 372 (Foster Care Records), Section 422 (Protective Services) and Sections 422 and 424 (Child Care Review Services)), as well as, pertinent regulations found in Title 18 of the NY Code of Rules and Regulations parts 357, 431.7, 465 and the U.S. Public Health Law, Article 27 and the Health Insurance Portability and Accountability Act of 1996 as amended. The Contractor will be subject to prescribed penalties, which may include criminal sanctions, if the vendor willfully violates or fails to comply with the provisions of these various laws and regulations.
      3. Each authorized staff member will execute and sign the attached statement on confidentiality attached hereto as **Exhibit B**. The Contractor shall maintain a copy of signed confidentiality from in each of the employee's permanent personnel files.

c. Retrieval of Closed Client Files.
    i. Only authorized Department personnel can make retrieval requests.
    ii. A Request Form that details the specific cartons and/or files to be retrieved will be faxed to the Contractor's computer department. When a carton is retrieved the barcode label will be scanned and downloaded into the Contractor's computer system which will note the time and date of removal.
    iii. When a specific file is requested, as opposed to an entire carton, an outcard will be placed in the carton noting the date of removal at the time the file is taken from the carton. The retrieved file will be bar-coded so that its location at the Department will be electronically monitored.
    iv. The Contractor will transport retrieved material to the Department within twenty-four hours of the request. The Department will furnish the Contractor with a signed receipt upon receiving the retrieved material, and the Department's central file room computer system will be updated to reflect that the retrieved files are reactivated.
    v. The Contractor shall transport retrieved material back to Contractor's storage facility upon the Department no longer requiring the retrieved material.
    vi. Emergency retrievals and deliveries will be performed as quickly as possible and must be completed within the same business day.
d. Refiling. The Contractor's computer staff will first record files, which are to be returned to storage. The file is then placed in the same storage carton and the outcard, which was placed in the carton at the time of retrieval, is removed and returned to the Contractor's computer department to confirm correct replacement.
e. Photocopy, Scan and/or Facsimile Transmission. Contractor shall provide photocopies, scanned/email and/or fax transmissions of pages in storage.
f. Document Filing. The Department receives documents which are to be interfiled in a closed case folder. The Department will place such documents in an envelope and box them for transport to the Contractor. The Department will bar code the boxes of documents to enable the retrieval of the documents when the case folder is requested.
g. Barcoded Based Computer System.
    i. The Contractor shall operate an automated barcoded based computer system to control activities at the storage site that can interface with the Department's barcoded based computer system.
    ii. The Contractor shall provide ongoing maintenance and purchase needed hardware, software and supplies for the tracking system that is part of the file automation software program installed in the Department's computer in the central file room.

iii. The Contractor shall be available to answer questions concerning the use and operation of the computer system as these questions arise for as long as this Agreement is in effect.

h. Change in Status of Files and Purging of Closed Files.
   i. Transfer of files from Active to Closed Status. Newly closed client files will be electronically removed from the active file system. Department will place newly closed files in bar-coded cartons for transport to the storage facility. Upon arrival at the storage facility the Contractor will electronically record the closed files and these files will be placed on storage shelving off the floor.
   ii. Purging of Files. The Department may request that certain files be destroyed at any time. After receiving a signed Destruction Request from the Department, the Contractor will shred the specified files at their storage facility. Shredded documents will automatically be bailed with thousands of other documents to safeguard confidentiality and the Contractor will dispose of this shredded material in a responsible manner. The Contractor will provide a signed Certificate of Destruction attesting to the destruction of material earmarked by the Department and the date destruction was accomplished. The Contractor guarantees destruction of material within 30 days of notification by the Department.

i. Storage Facility. The Contractor warrants and represents the following:
   i. Contractor's storage facilities and transportation will provide a level of storage and protection for documents consistent with industry standards and must meet all federal, New York State (NYS), and local building and zoning regulations. The storage facility will be properly shelved, fully secured and equipped with a motion, intrusion alarm system, fire suppression, smoke, and heat detector system to prevent loss from theft and fire all monitored 24/7 and at a level of protection consistent with industry standards. The records storage facility will not house any hazardous material. Storage facilities are not located within a flood area or risk exposure from external hazards.
   ii. Contractor will provide sufficient physical storage capacity to accommodate the Department's needs. The facility must provide secure, structurally sound, environmentally safe and climate controlled storage. The Contractor agrees to store the Department's records in a single facility located close enough to the Department's Uniondale office to guarantee same-day and next-day delivery service.

j. Monitoring by the Department. The Department shall determine the methods that may be utilized to monitor Contractor's compliance with the requirements herein. Monitoring methods may include, but are not limited to, on-site reviews, establishment of a formal weekly or monthly reporting system, or establishment of monthly district/provider meetings in which Contractor's activities are monitored by Department staff.

3. Payment.

a. Amount of Consideration. The maximum amount to be paid to the Contractor as full consideration for the Contractor's Services under this Agreement shall not exceed the sum of Eight Hundred and Seventy-Five Thousand Dollars ($875,000.00) (the "Maximum Amount"), which shall be payable in accordance with the rates attach as **Exhibit A** which may be amended or modified from time to time upon request of the Contractor, subject, however, to prior approval of the Department.

b. Partial Encumbrance. Contractor acknowledges that the County will partially encumber funds to be applied toward the Maximum Amount throughout the term of this Agreement. Contractor further acknowledges that the first encumbrance shall be One Hundred and Seventy-Five Thousand Dollars and 00/100 ($175,000.00). Thereafter, the Department shall notify Contractor of the availability of monies, which written notice shall include the amount encumbered. Such notification shall serve as notice to proceed.

c. Vouchers; Voucher Review, Approval and Audit. Payments shall be made to the Contractor in arrears and shall be contingent upon (i) the Contractor submitting a claim voucher (the "Voucher") in a form satisfactory to the County, that (a) states with reasonable specificity the services provided and the payment requested as consideration for such services, (b) certifies that the services rendered and the payment requested are in accordance with this Agreement, and (c) is accompanied by documentation satisfactory to the County supporting the amount claimed, and (ii) review, approval and audit of the Voucher by the Department and/or the County Comptroller or his or her duly designated representative (the "Comptroller").

d. Timing of Payment Claims. The Contractor shall submit claims no later than three (3) months following the County's receipt of the services that are the subject of the claim and no more frequently than once a month.

e. No Duplication of Payments. Payments under this Agreement shall not duplicate payments for any work performed or to be performed under other agreements between the Contractor and any funding source including the County.

f. Payments in Connection with Termination or Notice of Termination. Unless a provision of this Agreement expressly states otherwise, payments to the Contractor following the termination of this Agreement shall not exceed payments made as consideration for services that were (i) performed prior to termination, (ii) authorized by this Agreement to be performed, and (iii) not performed after the Contractor received notice that the County did not desire to receive such services.

g. Short Agreement Year. The Maximum Amount and, if applicable, Budget, are based upon a full 365-day calendar year. The maximum amount and amount payable with respect to any Budget shall be reduced pro rata to reflect that portion of a calendar year during which this Agreement is not effective.

h. Reimbursement by the Contractor Upon Loss of Funding. As used in this Agreement the word "Law" includes any and all statutes, local laws, ordinances, rules, regulations, applicable orders, and/or decrees, as the same may be amended from time to time, enacted, or adopted.
   b. Nassau County Living Wage Law. Pursuant to LL 1-2006, as amended, and to the extent that a waiver has not been obtained in accordance with such law or any rules of the County Executive, the Contractor agrees as follows:

In the event that such breach is not timely cured, the County may terminate this Agreement as well as exercise any other rights available to the County under applicable law.

iii. It shall be a continuing obligation of the Contractor to inform the County of any material changes in the content of its certification of compliance, attached to this Agreement as Appendix L, and shall provide to the County any information necessary to maintain the certification's accuracy.

The parties acknowledge and agree that all records, information, and data ("Information") acquired in connection with performance or administration of this Agreement remains the sole property of the County and shall be used and disclosed solely for the purpose of performance and administration of the Agreement or as required by law. The Contractor acknowledges that Contractor Information in the County's possession may be subject to disclosure under Article 6 of the New York State Public Officer's Law ("Freedom of Information Law" or "FOIL"). In the event that such a request for disclosure is made, the County shall make reasonable efforts to notify the Contractor of such request prior to disclosure of the Information so that the Contractor may take such action as it deems appropriate.

d. Prohibition of Gifts. In accordance with County Executive Order 2-2018, the Contractor shall not offer, give, or agree to give anything of value to any County employee, agent, consultant, construction manager, or other person or firm representing the County (a "County Representative"), including members of a County Representative's immediate family, in connection with the performance by such County Representative of duties involving transactions with the Contractor on behalf of the County, whether such duties are related to this Agreement or any other County contract or matter. As used herein, "anything of value" shall include, but not be limited to, meals, holiday gifts, holiday baskets, gift cards, tickets to golf outings, tickets to sporting events, currency of any kind, or any other gifts, gratuities, favorable opportunities or preferences. For purposes of this subsection, an immediate family member shall include a spouse, child, parent, or sibling.    b. The Contractor shall deliver Services under this Agreement in a professional manner consistent with the best practices of the industry in which the Contractor operates. The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.
8. Indemnification; Defense; Cooperation.
   a. The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or

prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

b. The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

c. The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

d. The provisions of this Section shall survive the termination of this Agreement.

9. Insurance.

a. Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single limit liability of not less One Million Dollars ($1,000,000.00) per claim (iii) compensation insurance for the benefit of the Contractor's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

b. Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

c. Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or

actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

11. Termination.

a. Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

b. By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who

oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

c. Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement). If necessary, Contractor agrees to transition and/or transfer the inventory located at its facility and County agrees to pay Contractor for such services as per the rates specifically identified in Exhibit A ("Cost of Transfer and Transition of Current Inventory" and "Monthly Storage Fee") and the Maximum Amount shall be amended to provide for payment of such services to the Contactor. The provisions of this subsection shall survive the termination of this Agreement.

12. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the applicable provisions of the Code of Federal Regulations, 2 C.F.R. Part 200, as may be amended. Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

13. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

a. Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

b. Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

14. Work Performance Liability. The Contractor is and shall remain primarily liable for the

successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

15. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

16. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

17. All Legal Provisions Deemed Included; Severability; Supremacy.

    a. Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

    b. In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

    c. Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read

together as not conflicting.

d. Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

18. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

19. Executory Clause. Notwithstanding any other provision of this Agreement:

a. Approval and Execution. ## Appendix EE
## Equal Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

(c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.

(e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.

(f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.

(g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

(h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

(i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.

(j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.

(k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.

(l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:

a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions

included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.

b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this

County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.
