Narrative

Purpose: To authorize and award a Purchase Order for Annual Support and Maintenance Renewal of the DA's Justware Case Management and Document Management System for the Nassau County District Attorney's Office.

Discussion: This request is for a sole source purchase; Journal Technologies Inc. is the creator and copyright owner of the Justware software and therefore is the sole provider of the support. Maintenance agreement period 12-1-2017 to 11-30-2018.

Impact on Funding: A purchase order in the amount One Hundred Fifty-One Thousand Nine Hundred Sixty-Four Dollars (\$151,964.) from General Funds.

Recommendation: Office of Purchasing recommends an award be given to Journal Technologies Inc. as a sole source purchase.

APPROVED: 2/27/18

COUNTY OF NASSAU

LOBBYIST REGISTRATION AND DISCLOSURE FORM

1. Name, address and telephone number of lobbyist(s)/lobbying organization. The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

None

2. List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State): None

Not registered as lobbyist

3. Name, address and telephone number of client(s) by whom, or on whose behalf, the lobbyist is retained, employed or designated: None

4. Describe lobbying activity conducted, or to be conducted, in Nassau County, and identify client(s) for each activity listed. See page 4 for a complete description of lobbying activities.

None

5. The name of persons, organizations or governmental entities before whom the lobbyist expects to lobby
None

6. If such lobbyist is retained or employed pursuant to a written agreement of retainer or employment, you must attach a copy of such document; and if agreement of retainer or employment is oral, attach a written statement of the substance thereof. If the written agreement of retainer or employment does not contain a signed authorization from the client by whom you have been authorized to lobby, separately attach such a written authorization from the client.

7. During the previous year, has the lobbyist/lobbying organization or any of its corporate officers provided campaign contributions pursuant to the New York State Election Law to the campaign committees of any of the following Nassau County elected officials or to the campaign committees of any candidates for any of the following Nassau County elected offices: the County Executive, the County Clerk, the Comptroller, the District Attorney, or any County Legislator?

If yes, to what campaign committee? If none, you must so state:

I understand that copies of this form will be sent to the Nassau County Department of Information Technology ("IT") to be posted on the County's website.

I also understand that upon termination of retainer, employment or designation I must give written notice to the County Attorney within thirty (30) days of termination.

VERIFICATION: The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

The undersigned further certifies and affirms that the contribution(s) to the campaign committees listed above were made freely and without duress, threat or any promise of a governmental benefit or in exchange for any benefit or remuneration.

Dated: 10-12-17

COO

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including but not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing;

the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

The term "lobbying" or "lobbying activities" does not include: Persons engaged in drafting legislation, rules, regulations or rates; persons advising clients and rendering opinions on proposed legislation, rules, regulations or rates, where such professional services are not otherwise connected with legislative or executive action on such legislation or administrative action on such rules, regulations or rates; newspapers and other periodicals and radio and television stations and owners and employees thereof, provided that their activities in connection with proposed legislation, rules, regulations or rates are limited to the publication or broadcast of news items, editorials or other comment, or paid advertisements; persons who participate as witnesses, attorneys or other representatives in public rule-making or rate-making proceedings of a County agency, with respect to all participation by such persons which is part of the public record thereof and all preparation by such persons for such participation; persons who attempt to influence a County agency in an adjudicatory proceeding, as defined by § 102 of the New York State Administrative Procedure Act.

PRINCIPAL QUESTIONNAIRE FORM

All questions on these questionnaires must be answered by all officers and any individuals who hold a ten percent (10%) or greater ownership interest in the proposer. And/or, in the past 5 years, has any owner and/or officer of an affiliated business been the subject of an investigation by any government agency, including but not limited to federal, state and local regulatory agencies, for matters pertaining to that individual's position at or relationship to an affiliated business. Yes ___ No X If Yes, provide details for each such investigation. _____

14) Has any current or former director, owner or officer or managerial employee of this business had, either before or during such person's employment, or since such employment if the charges pertained to events that allegedly occurred during the time of employment by the submitting business, and allegedly related to the conduct of that business:

a) Any felony charge pending? Yes ___ No X If Yes, provide details for each such charge. _____

b) Any misdemeanor charge pending? Yes ___ No X If Yes, provide details for each such charge. _____

c) In the past 10 years, you been convicted, after trial or by plea, of any felony and/or any other crime, an element of which relates to truthfulness or the underlying facts of which related to the conduct of business? Yes ___ No X If Yes, provide details for each such conviction _____

d) In the past 5 years, been convicted, after trial or by plea, of a misdemeanor?
Yes ___ No X If Yes, provide details for each such conviction. _____

e) In the past 5 years, been found in violation of any administrative, statutory, or regulatory provisions? Yes ____ No X If Yes, provide details for each such occurrence. _____

15) In the past (5) years, has this business or any of its owners or officers, or any other affiliated business had any sanction imposed as a result of judicial or administrative proceedings with respect to any professional license held? Yes ____ No X; If Yes, provide details for each such instance. _____

16) For the past (5) tax years, has this business failed to file any required tax returns or failed to pay any applicable federal, state or local taxes or other assessed charges, including but not limited to water and sewer charges? Yes ____ No X If Yes, provide details for each such year. Provide a detailed response to all questions checked 'YES'. If you need more space, photocopy the appropriate page and attach it to the questionnaire. _____

Provide a detailed response to all questions checked "YES". If you need more space, photocopy the appropriate page and attach it to the questionnaire.

17) Conflict of Interest:

a) Please disclose any conflicts of interest as outlined below. **NOTE: If no conflicts exist, please expressly state "No conflict exists."**

(i) Any material financial relationships that your firm or any firm employee has that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County. No conflict exists.

(ii) Any family relationship that any employee of your firm has with any County public servant that may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County.

No conflict exists.

(iii) Any other matter that your firm believes may create a conflict of interest or the appearance of a conflict of interest in acting on behalf of Nassau County. No conflict exists.

b) Please describe any procedures your firm has, or would adopt, to assure the County that a conflict of interest would not exist for your firm in the future. Journal Technologies, Inc. has a standard ethics policy in place that requires employees to disclose and monitor potential conflicts of interest.

If a conflict of interest should arise we would take the proper measures to correct the situation.

A. Include a resume or detailed description of the Proposer's professional qualifications, demonstrating extensive experience in your profession. Any prior similar experiences, and the results of these experiences, must be identified.

Should the proposer be other than an individual, the Proposal **MUST** include:

1) Date of formation; 01/29/1999

- ii) Name, addresses, and position of all persons having a financial interest in the company, including shareholders, members, general or limited partner; See attachment
- iii) Name, address and position of all officers and directors of the company; See attachment
- iv) State of incorporation (if applicable); Utah
- v) The number of employees in the firm; 180
- vi) Annual revenue of firm; See attached 10K
- vii) Summary of relevant accomplishments Sell, implement, and support software for the justice community.
- viii) Copies of all state and local licenses and permits.

B. Indicate number of years in business. 17

C. Provide any other information which would be appropriate and helpful in determining the Proposer's capacity and reliability to perform these services.

D. Provide names and addresses for no fewer than three references for whom the Proposer has provided similar services or who are qualified to evaluate the Proposer's capability to perform this work.

CERTIFICATION

A MATERIALLY FALSE STATEMENT WILLFULLY OR FRAUDULENTLY MADE IN CONNECTION WITH THIS QUESTIONNAIRE MAY RESULT IN RENDERING THE SUBMITTING BUSINESS ENTITY NOT RESPONSIBLE WITH RESPECT TO THE PRESENT BID OR FUTURE BIDS, AND, IN ADDITION, MAY SUBJECT THE PERSON MAKING THE FALSE STATEMENT TO CRIMINAL CHARGES.

I, Jon Peek, being duly sworn, state that I have read and understand all the items contained in the foregoing pages of this questionnaire and the following pages of attachments; that I supplied full and complete answers to each item therein to the best of my knowledge, information and belief; that I will notify the County in writing of any change in circumstances occurring after the submission of this questionnaire and before the execution of the contract; and that all information supplied by me is true to the best of my knowledge, information and belief. I understand that the County will rely on the information supplied in this questionnaire as additional inducement to enter into a contract with the submitting business entity.

Sworn to before me this 13 day of OCT.

COUNTY OF NASSAU

CONSULTANT'S, CONTRACTOR'S AND VENDOR'S DISCLOSURE FORM

1. Name of the Entity: Journal Technologies, Inc

Address: 843 S 100 W

City, State and Zip Code: Logan, UT 84321

2. Entity's Vendor Identification Number: 87-0626854

3. Type of Business: ☒ Public Corp ☐ Partnership ☐ Joint Venture

☐ Ltd. Liability Co ☐ Closely Held Corp ☐ Other (specify)

4. List names and addresses of all principals; that is, all individuals serving on the Board of Directors or comparable body, all partners and limited partners, all corporate officers, all parties of Joint Ventures, and all members and officers of limited liability companies (attach additional sheets if necessary):

See attachment. _____

5. List names and addresses of all shareholders, members, or partners of the firm. If the shareholder is not an individual, list the individual shareholders/partners/members. If a Publicly held Corporation include a copy of the 10K in lieu of completing this section.

Journal Technologies, Inc. is 100% owned by the Daily Journal Corporation. 10K is attached

6. List all affiliated and related companies and their relationship to the firm entered on line 1. above (if none, enter "None"). Attach a separate disclosure form for each affiliated or subsidiary company that may take part in the performance of this contract. Such disclosure shall be updated to include affiliated or subsidiary companies not previously disclosed that participate in the performance of the contract.

None

7. List all lobbyists whose services were utilized at any stage in this matter (i.e., pre-bid, bid, post-bid, etc.). The term "lobbyist" means any and every person or organization retained, employed or designated by any client to influence - or promote a matter before - Nassau County, its agencies, boards, commissions, department heads, legislators or committees, including but not limited to the Open Space and Parks Advisory Committee and Planning Commission. Such matters include, but are not limited to, requests for proposals, development or improvement of real property subject to County regulation, procurements, or to otherwise engage in lobbying as the term is defined herein. The term "lobbyist" does not include any officer, director, trustee, employee, counsel or agent of the County of Nassau, or State of New York, when discharging his or her official duties.

(a) Name, title, business address and telephone number of lobbyist(s):

None

(b) Describe lobbying activity of each lobbyist. See page 4 of 4 for a complete description of lobbying activities.

None _____

(c) List whether and where the person/organization is registered as a lobbyist (e.g., Nassau County, New York State):

None _____

8. VERIFICATION: This section must be signed by a principal of the consultant, contractor or Vendor authorized as a signatory of the firm for the purpose of executing Contracts.

The undersigned affirms and so swears that he/she has read and understood the foregoing statements and they are, to his/her knowledge, true and accurate.

Dated: 10-12-17

Signed: 
Print Name: Jon Peek
Title: COO

The term lobbying shall mean any attempt to influence: any determination made by the Nassau County Legislature, or any member thereof, with respect to the introduction, passage, defeat, or substance of any local legislation or resolution; any determination by the County Executive to support, oppose, approve or disapprove any local legislation or resolution, whether or not such legislation has been introduced in the County Legislature; any determination by an elected County official or an officer or employee of the County with respect to the procurement of goods, services or construction, including the preparation of contract specifications, including but not limited to the preparation of requests for proposals, or solicitation, award or administration of a contract or with respect to the solicitation, award or administration of a grant, loan, or agreement involving the disbursement of public monies; any determination made by the County Executive, County Legislature, or by the County of Nassau, its agencies, boards, commissions, department heads or committees, including but not limited to the Open Space and Parks Advisory Committee, the Planning Commission, with respect to the zoning, use, development or improvement of real property subject to County regulation, or any agencies, boards, commissions, department heads or committees with respect to requests for proposals, bidding, procurement or contracting for services for the County; any determination made by an elected county official or an officer or employee of the county with respect to the terms of the acquisition or disposition by the county of any interest in real property, with respect to a license or permit for the use of real property of or by the county, or with respect to a franchise, concession or revocable consent; the proposal, adoption, amendment or rejection by an agency of any rule having the force and effect of law; the decision to hold, timing or outcome of any rate making proceeding before an agency; the agenda or any determination of a board or commission; any determination regarding the calendaring or scope of any legislature oversight hearing; the issuance, repeal, modification or substance of a County Executive Order; or any determination made by an elected county official or an officer or employee of the county to support or oppose any state or federal legislation, rule or regulation, including any determination made to support or oppose that is contingent on any amendment of such legislation, rule or regulation, whether or not such legislation has been formally introduced and whether or not such rule or regulation has been formally proposed.

As of November 30, 2016 there were outstanding 1,380,746 shares of Common Stock of Daily Journal Corporation.

Disclosure Regarding Forward-Looking Statements

This Form 10-K includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Certain statements contained in this document, including but not limited to those in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, are “forward-looking” statements that involve risks and uncertainties that may cause actual future events or results to differ materially from those described in the forward-looking statements. Words such as “expects,” “intends,” “anticipates,” “should,” “believes,” “will,” “plans,” “estimates,” “may,” variations of such words and similar expressions are intended to identify such forward-looking statements. We disclaim any intention or obligation to revise any forward-looking statements whether as a result of new information, future developments, or otherwise. There are many factors that could cause actual results to differ materially from those contained in the forward-looking statements. These factors include, among others: risks associated with software development and implementation efforts; Journal Technologies’ reliance on professional services engagements with justice agencies, including California courts, for a substantial portion of its revenues; material changes in the costs of postage and paper; possible changes in the law, particularly changes limiting or eliminating the requirements for public notice advertising; possible loss of the adjudicated status of the Company’s newspapers and their legal authority to publish public notice advertising; a further decline in public notice advertising revenues because of fewer foreclosures; a further decline in subscriber and commercial advertising revenues; possible security breaches of the Company’s software or websites; the Company’s reliance on its president and chief executive officer; changes in accounting guidance; material weaknesses in the Company’s internal control over financial reporting; and declines in the market prices of the securities owned by the Company. In addition, such statements could be affected by general industry and market conditions, general economic conditions (particularly in California) and other factors. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from those in the forward-looking statements are discussed in this Form 10-K, including in conjunction with the forward-looking statements themselves, and in other documents filed by the Company with the Securities and Exchange Commission.

Item 1. Business

PART I

The Company publishes newspapers and web sites covering California and Arizona and produces several specialized information services. It also serves as a newspaper representative specializing in public notice advertising. We often refer to this as “The Traditional Business”.

Journal Technologies, Inc. (“Journal Technologies”), a wholly owned subsidiary of the Company, supplies case management software systems and related products to courts and other justice agencies, including administrative law organizations, county governments and bar associations. These organizations use the Journal Technologies family of products to help manage cases and information electronically, to interface with other critical justice partners and to extend electronic services to the public, including a website to pay traffic citations online, and bar members. These products are licensed to more than 500 organizations in 42 states and internationally. Journal Technologies is the result of the October 1, 2014 merger of the Company’s three technology-related subsidiaries, which were previously separate companies: Sustain Technologies, Inc. (“Sustain”), a wholly owned subsidiary since 2008; New Dawn Technologies, Inc. (“New Dawn”), acquired in December 2012; and ISD Technologies, Inc. (“ISD”), acquired in September 2013.

Essentially all of the Company’s operations are based in California, Arizona, Colorado and Utah. Financial information of the Company, including information about each of the Company’s reportable segments, is set forth in Item 8 (“Financial Statements and Supplementary Data”).

Products and Services

The Traditional Business

Newspapers and related online publications. The Company publishes 10 newspapers of general circulation. Each newspaper, in addition to news of interest to the general public, has a particular area of in-depth focus with regard to its news coverage, thereby attracting readers interested in obtaining information about that area through a newspaper format. Effective October 2015, the Company discontinued the publication of the California Lawyer magazine and the California Directory of Attorneys. The Company also discontinued publication of the San Diego Commerce in September 2015 and concurrently replaced it with a small acquisition of The Daily Transcript, which serves the San Diego market.

The publications are based in the following cities:

Newspaper publications
 Los Angeles Daily Journal
 San Francisco Daily Journal
 The Daily Recorder
 The Inter-City Express
 San Jose Post-Record
 Orange County Reporter
 The Daily Transcript
 Business Journal
 The Record Reporter

Base of publication
 Los Angeles, California
 San Francisco, California
 Sacramento, California
 Oakland, California
 San Jose, California
 Santa Ana, California
 San Diego, California
 Riverside, California
 Phoenix, Arizona

The Daily Journals. The Los Angeles Daily Journal and the San Francisco Daily Journal are each published every weekday except certain holidays and were established in 1888 and 1893, respectively. In addition to covering state and local news of general interest, these newspapers focus particular coverage on law and its impact on society. (The Los Angeles Daily Journal and the San Francisco Daily Journal are referred to collectively herein as "The Daily Journals.") Generally The Daily Journals seek to be of special utility to lawyers and judges and to gain wide multiple readership of newspapers sent to law firm subscribers.

The Daily Journals contain much material and render many services in a common endeavor. The Los Angeles Daily Journal is the largest newspaper published by the Company, both in terms of revenues and circulation. At September 30, 2016, the Los Angeles Daily Journal had approximately 5,100 paid subscribers and the San Francisco Daily Journal had approximately 2,700 paid subscribers as compared with total paid subscriptions for both of The Daily Journals of 8,000 at September 30, 2015. The Daily Journals carry commercial advertising (display and classified) and public notice advertising required or permitted by law to be published in a newspaper of general circulation. The main source of commercial advertising revenue has been local advertisers, law firms and businesses in or wishing to reach the legal professional community. The gross revenues generated directly by The Daily Journals are attributable approximately 58% to subscriptions and 42% to the sale of advertising and other revenues. Revenues from The Daily Journals constituted approximately 20% of the Company's total fiscal 2016 revenues, 18% in 2015, 19% in 2014, 23% in 2013 and 28% in 2012.

It is the policy of The Daily Journals (1) to take no editorial position on the legal and political controversies of the day but instead to publish well-written editorial views of others on many sides of a controversy and (2) to try to report on factual events with technical competence and with objectivity and accuracy. It is believed that this policy suits a professional readership of exceptional intelligence and education, which is the target readership for the newspapers. Moreover, The Daily Journals believe that they bear a duty to their readership, particularly judges and justices, as a self-imposed public trust, regardless, within reason, of short-term income penalties. The Company believes that this policy of The Daily Journals is in the long-term interest of the Company's shareholders.

The Daily Journals contain the Daily Appellate Report which provides the full text and case summaries of all opinions certified for publication by the California Supreme Court, the California Courts of Appeal, the U.S. Supreme Court, the U.S. Court of Appeals for the Ninth Circuit, the U.S. Bankruptcy Appellate Panel for the Ninth Circuit, the State Bar Court and selected opinions of the U.S. District Courts in California and the Federal Circuit Court of Appeals. The Daily Journals also include a monthly court directory in booklet form. This directory includes a comprehensive list of sitting judges in all California courts as well as courtroom assignments, phone numbers and courthouse addresses, plus "Judicial Transitions" which lists judicial appointments, elevations, confirmations, resignations, retirements and deaths.

The Daily Journals are distributed by mail and hand delivery, with subscribers in the Los Angeles and San Francisco areas usually receiving copies the same day. Certain subscribers in Los Angeles, San Francisco, Santa Clara, Alameda, Orange, San Diego, Riverside and San Bernardino counties receive copies by hand delivery. The regular yearly subscription rate for each of The Daily Journals is \$804.

Much of the information contained in The Daily Journals is available to subscribers online at www.dailyjournal.com.

Daily Commerce. Published since 1917, the Daily Commerce, based in Los Angeles, in addition to covering news of general interest, devotes substantial coverage to items designed to serve real estate investors and brokers, particularly those interested in Southern California distressed properties. The nature of the news coverage enhances the effectiveness of public notice advertising in distributing information about foreclosures to potential buyers at foreclosures. The features of the paper include default listings and probate estate sales. The Daily Commerce carries both public notice and commercial advertising and is published in the afternoon each business day.

The Daily Recorder. The Daily Recorder, based in Sacramento, began operations in 1911. It is published each business day. In addition to general news items, it focuses on the Sacramento legal and real estate communities and on California state government and activities ancillary to it. Among the regular features of The Daily Recorder is news about government leaders and lobbyists, as well as the Daily Appellate Report for those who request it. Advertising in The Daily Recorder consists of both commercial and public notice advertising.

The Inter-City Express. The Inter-City Express (the "Express") has been published since 1909. It covers general news of local interest and focuses its coverage on news about the real estate and legal communities in the Oakland/San Francisco area. The Express carries both commercial and public notice advertising. It is published each business day.

San Jose Post-Record. The San Jose Post-Record (the "Post-Record") has been published since 1910. In addition to general news of local interest, the Post-Record, which is published each business day, focuses on legal and real estate news and carries commercial and public notice advertising.

Orange County Reporter. The Orange County Reporter ("Orange Reporter") has been an adjudicated newspaper of general circulation since 1922. In addition to general news of local interest, the Orange Reporter reports local and state legal, business and real estate news, and carries primarily public notice advertising. The Orange Reporter is published three days a week.

The Daily Transcript. The Daily Transcript (San Diego) is published five days a week and carries general news of local interest and public notice advertising and has been an adjudicated newspaper of general circulation since 1909. The Daily Transcript also serves legal and real estate professionals in San Diego County.

Business Journal. The Business Journal, established in 1991, publishes news of general interest and provides coverage of the business and professional communities in Riverside County. It also carries public notice advertising and is published each business day.

The Record Reporter (Arizona). The Record Reporter has been in existence since 1914. In addition to general news of local interest, The Record Reporter, which is published three days a week, focuses on legal news and public record information and carries primarily public notice advertising.

Information Services. The specialized information services offered by the Company have grown out of its newspaper operations or have evolved in response to a desire for such services primarily from its newspaper subscribers.

The Company has several court rules services. One is Court Rules, a multi-volume, loose-leaf set. Court Rules reproduces court rules for certain state and federal courts in California. The Court Rules appear in two versions, one of which covers Northern California courts (nine volumes) and one of which covers Southern California courts (eight volumes). The Company updates Court Rules on a monthly basis. In addition, the Company publishes a single volume of rules known as Local Rules for major counties of California. Six versions are published for Southern California, each a single bound volume for the rules of: (1) Los Angeles County; (2) Orange County; (3) San Diego County; (4) San Bernardino County; (5) Riverside County; and (6) Ventura, Santa Barbara and San Luis Obispo counties. Also, the Company publishes single-volume rules for the Federal District Court in the Central District of California and California Probate Rules. In Northern California, three versions of the Local Rules appear in loose-leaf books for Santa Clara/San Mateo, Alameda/Contra Costa and San Francisco counties. The single volumes are normally updated or replaced whenever there are substantial rule changes.

The Judicial Profiles services contain information concerning nearly all active and retired judges in California. Most of the profiles have previously appeared in *The Daily Journals* as part of a regular feature. The Judicial Profiles include biographical data and financial disclosure statements on judges and information supplied by each judge regarding the judge's policies and views on various trial and appellate procedures and the manner in which appearances are conducted in his or her courtroom. Subscribers may purchase either the ten-volume set for Southern California or the eight-volume set for Northern California.

The Company also provides online foreclosure information to about 30 customers. This service primarily provides distressed property information, some of which also appears in some of the Company's newspapers, as well as expanded features. Consolidation of both newspapers and online products more effectively utilizes the costs of gathering such information.

Advertising and Newspaper Representative. The Company's publications carry commercial advertising, and most also contain public notice advertising. Commercial advertising consists of display and classified advertising and constituted about 7% of the Company's total revenues in fiscal 2016, 8% in 2015, 9% in 2014, 11% in 2013 and 15% in 2012. Classified advertising has continued to decline primarily due to the continued downturn in the employment advertising marketplace and competition from online employment web sites.

Public notice advertising consists of many different types of legal notices required by law to be published in an adjudicated newspaper of general circulation, including notices of death, fictitious business names, trustee sale notices and notices of governmental hearings. The major types of public notice advertisers are real estate-related businesses and trustees, governmental agencies, attorneys and businesses or individuals filing fictitious business name statements. Many government agencies use the Company's Internet-based advertising system to produce and send their notices to the Company. A fictitious business name web site enables individuals to send their statements to the Company for filing and publication and another web site enables attorneys and individuals to send probate, civil, corporate, public sale and other types of public notices to the Company. California Newspaper Service Bureau ("CNSB"), a division of the Company, is a statewide newspaper representative (commission-earning selling agent) specializing since 1934 in public notice advertising. CNSB places public notices and other forms of advertising with adjudicated newspapers of general circulation, most of which are not owned by the Company.

Public notice advertising revenues and related advertising and other service fees, including trustee sales legal advertising revenues, constituted about 23% of the Company's total revenues in fiscal 2016, 22% in 2015, 24% in 2014, 35% in 2013 and 56% in 2012. Most of these revenues were generated by (i) notices published in the Company's newspapers, (ii) commissions and similar fees received from other publications in which the advertising was placed and (iii) service fees generated when filing notices with government agencies.

Trustee sales legal advertising revenues alone represented about 5% of the Company's total revenues in fiscal 2016, 6% in 2015, 7% in 2014, 17% in 2013 and 56% in 2012. For several years, these revenues were driven by the large number of foreclosures in California and Arizona, for which public notice advertising is required by law, but the number of foreclosures has continued to decline. In addition, in many states, including California and Arizona, legislatures have considered various proposals which would result in the elimination or reduction of the amount of public notice advertising required by statute. There is a risk that such laws could change in a manner that would have a significant adverse impact on the Company's public notice advertising revenues.

Other revenues are attributable to service fees from users of an online foreclosure/fictitious business name database, fees from attorneys taking continuing legal education "courses" published in the Company's publications and other miscellaneous fees.

Journal Technologies

Journal Technologies provides case management software and related services to courts and other justice agencies. Its operations constituted about 56% of the Company's total revenues in fiscal 2016, 57% in 2015, 53% in 2014, 37% in 2013 and 9% in 2012 (with the 2012 numbers reflecting Sustain only). Journal Technologies earns revenue from license and maintenance fees paid by customers to use its software products; consulting fees paid by customers for installation, implementation and training services; and fees generated by the use of secure websites through which the general public can pay traffic citations. Journal Technologies has the following main products:

eCourt®, eProsecutor®, eDefender® and eProbation® — browser-based case processing systems that can be used by courts and other justice agencies for all case types because its screens, data elements, business rules, work queues, searches and alerts are highly configurable. Journal Technologies also supports its prior generation Justice Edition software, which is a Windows-based system that also provides for customizable configurability.

JustWare® — a family of case management software products for use by courts and other justice agencies. JustWare® provides a standardized case management system that includes business rules to automate tasks, document and report generation, digital signatures and shortcuts to speed data input. Journal Technologies also licenses its JusticeWeb® public access software, which allows the public to view certain case information, provides a means to create permission-based access for sensitive data, allows pro se litigants and attorneys to e-file documents and includes a way for case participants to make payments online.

ICMS™ — a court case management system, which was acquired as part of the acquisition of the ISD assets. Journal Technologies also licenses CASE™ — an automated probation case management system, including juvenile hall detention management features.

eFile™ — a browser-based interface that allows attorneys and the general public to electronically file documents with the court from a personal computer using the Internet at any time.

ePayIt™ — a service for the online payment of traffic citations. Users can pay traffic citations using the Internet at any time with a credit card, and can obtain traffic school and other information.

Almost all of Journal Technologies' customers are government agencies, and most new software installation and licensing projects are subject to competitive bidding procedures. Accordingly, the ability of Journal Technologies to get new customers is highly unpredictable. In addition, budget constraints, especially during stressful economic times, could force governmental agencies to defer or forgo consulting services or even to stop paying their annual software maintenance fees. As a technology-based company, Journal Technologies' success depends on the continued improvement of its products, which is why the costs to update and upgrade them consistently constitute such a significant portion of the Company's expenses.

The Company's revenues from Journal Technologies' foreign customers were \$221,000 in fiscal 2016, \$278,000 in fiscal 2015 and \$332,000 in fiscal 2014. All of the Company's other revenues in those years were attributable to the United States.

Materials and Postage

After personnel costs (included in "Salaries and employee benefits" and in "Outside services" in the accompanying consolidated statements of comprehensive income (loss)), postage and paper costs are typically the Company's next two largest expenses. Paper and postage accounted for approximately 6% of our traditional publishing segment's operating costs in fiscal 2016, 6% in 2015, 7% in 2014, 7% in 2013 and 6% in 2012. Paper prices may fluctuate substantially in the future, and periodic postal rate increases could significantly impact income from operations. Further, we may not be able to pass on such increases to our customers.

An adequate supply of newsprint and other paper is important to the Company's operations. The Company currently does not have a contract with any paper supplier. The Company has always been able to obtain sufficient newsprint for its operations, although in the past, shortages of newsprint have sometimes resulted in higher prices. The price of paper remained unchanged during fiscal 2016. We anticipate the price of paper will remain unchanged at least through June 2017.

We use the U.S. Postal Service for distribution of a majority of our newspapers. During the past several years, the Company has instituted changes in an attempt to mitigate higher postage costs. These changes have included contracting for hand delivery in selected sections of the San Francisco Bay area and in Santa Clara, Alameda, San Diego, Riverside, San Bernardino, Orange and Los Angeles counties, delivering pre-sorted newspapers to the post office on pallets, which facilitates delivery and improves service, and implementing a method of bundling newspapers which reduces the per piece charges. In addition, the Company has an ink jet labeler which eliminates paper labels and enables the Company to receive bar code discounts from the postal service on some of its newspapers.

Postal rates are dependent on the operating efficiency of the U.S. Postal Service and on legislative mandates imposed upon the U.S. Postal Service. During the past several years, the U.S. Postal Service has increased postal rates. There were decreases in the Company's aggregate postage costs during fiscal 2016 primarily due to fewer subscribers.

Marketing

The Company actively promotes its individual newspapers and its multiple newspaper network as well as its other publications. The Company's staff includes a number of employees whose primary responsibilities include attracting new subscribers and advertisers. The specialization of each publication creates both target subscribers and target advertisers. Subscribers are likely to be attracted because of the nature of the information carried by the particular publication, and likely advertisers are those interested in reaching such consumer groups. In marketing products, the Company also focuses on its ancillary products which can be of service to subscribers, such as its specialized information services.

The Company receives, on a non-exclusive basis, public notice advertising from a number of agencies. Such agencies ordinarily receive a commission of 15% to 25% on their sales of advertising in Company publications. Commercial advertising agencies also place advertising in Company publications and receive commissions for advertising sales.

Journal Technologies' staff includes employees who provide marketing and consulting services which may also result in additional consulting projects and the licensing of products. Most of Journal Technologies' new projects come from existing customers or from a competitive bidding process.

Competition

Competition for readers and advertisers is very intense, both by established publications and by new entries into the market. The Daily Journals face aggressive competition in Los Angeles and San Francisco. All of the Company's business publications and products face strong competition from other publications and service companies. Readers of specialized newspapers focus on the amount and quality of general and specialized news, amount and type of advertising, timely delivery and price. The Company designs its newspapers to fill niches in the news marketplace that are not covered as well by major metropolitan dailies. The in-depth news coverage which the Company's newspapers provide along with general news coverage attracts readers who, for personal or professional reasons, desire to keep abreast of topics to which a major newspaper cannot devote significant news space. Other newspapers do provide some of the same subject coverage as does the Company, but the Company believes its coverage, particularly that of The Daily Journals, is more complete and therefore attracts more readers. The Company believes that The Daily Journals are the most important newspapers serving California lawyers on a daily basis.

The Company's court rules publications face competition in both the Southern California and Northern California markets from online court rules services and the courts themselves. Subscriptions to the multi-volume Court Rules and Local Rules volumes continued to decline during fiscal 2016. The Company's Judicial Profile services have direct competition and also indirect competition, because some of the same information is available through other sources, including the courts.

The steady decline in recent years in the number of subscriptions to The Daily Journals and the Company's court rule publications is likely to continue and will certainly impact the Company's future revenues. The pricing of the Company's products is reviewed every year. Subscription price increases have in recent years exceeded inflation, as have advertising rate increases.

In attracting commercial advertisers, the Company competes with other newspapers and magazines, television, radio and other media, including electronic and online systems for employment-related classified advertising. Factors which may affect competition for advertisers are the cost for such advertising compared with other media, and the size and characteristics of the readership of the Company's publications.

Internet sites devoted to recruitment have become significant competitors of our newspapers and web sites for classified advertising. In addition, there has been a steady consolidation of companies serving the legal marketplace, resulting in an ever-smaller group of companies placing display advertising. Consequently, retaining advertising revenues remains a challenge.

The Company competes with anywhere from one serious competitor to many competing newspapers for public notice advertising revenue in all of its markets. Large metropolitan general interest newspapers normally do not carry a significant amount of legal advertising, although recently they too have solicited certain types of public notice advertising. CNSB, the Company's commission-earning selling agent, faces competition from a number of companies based in California, some of which specialize in placing certain types of notices.

There is significant competition among a limited number of companies to provide services and software to the courts and other justice agencies, and some of these companies are much larger and have greater access to capital and other resources than Journal Technologies. Others provide services for a limited number of customers. As part of the competitive bidding process, many customers will express a preference for, or even require, larger vendors.

Many customers desire Internet-based solutions to centralize operations, facilitate electronic filing and other interfaces with other justice partners and the public, and publish certain information from case management systems. Journal Technologies' product lines provide versions of these services, but there are many uncertainties in the process of courts and other agencies migrating to newer Internet-based systems, including whether Journal Technologies' versions of case management systems will find general acceptance and whether the update, upgrade and modification of such systems can be done in a cost effective manner. The Company competes on a variety of factors, including price, technological capabilities and services to accommodate the individual requirements of each customer.

Employees

The Company has approximately 335 full-time employees and contractors and about 20 part-time employees as of September 30, 2016. This includes about 175 full-time employees and contractors and 10 part-time employees of Journal Technologies. The Company is not a party to any collective bargaining agreements. Certain benefits, including medical insurance, are provided to all full-time employees. Management considers its employee relations to be good.

The Company relies heavily on Gerald Salzman, who serves as president, chief executive officer, chief financial officer, treasurer and assistant secretary. If Mr. Salzman's services were no longer available to the Company, it is unlikely that the Company could find a single replacement to perform all of the duties now handled by him, and it could have a significant adverse effect on the Company's business. The Company does not carry key man life insurance, nor has it entered into an employment agreement with Mr. Salzman.

Working Capital

Traditionally, the Company has generated sufficient cash flow from operations to cover all its needs without significant borrowing. To a considerable extent, the Company benefits from the fact that subscriptions and some licenses, maintenance and consulting fees are paid in advance. In addition, the aggregate market value of the securities owned by the Company has increased significantly in recent years (although fiscals 2015 and 2016 were exceptions), providing the Company with even more working capital, subject, of course, to the normal risks associated with owning stocks and bonds. In December 2012, the Company borrowed \$14 million from its investment margin account to purchase all of the outstanding stock of New Dawn, and in September 2013, it borrowed another \$15.5 million to acquire substantially all of the operating assets and liabilities of ISD, in each case pledging its marketable securities to obtain favorable financing.

The Company believes it has sufficient cash and marketable securities for the foreseeable future. If the Company's overall cash needs exceed cash flow from operations and its current working capital, the Company may still have the ability to borrow against its marketable securities on favorable terms as it did for the New Dawn and ISD acquisitions, or it may attempt to secure additional financing which may or may not be available on acceptable terms.

The Company extends unsecured credit to most of its advertising customers. The Company maintains a reserve account for estimated losses resulting from the inability of these customers to make required payments, but if the financial conditions of these customers were to deteriorate or the Company's judgments about their abilities to pay are incorrect, additional allowances might be required, and the Company's cash flows and results of operations could be materially affected.

Inflation

The effects of inflation are not significantly any more or less adverse on the Company's businesses than they are on other publishing and software companies. The Company has experienced the effects of inflation primarily through increases in costs of personnel, newsprint, postage and services. These costs have generally been offset by periodic price increases for advertising and subscription rates, but with frequent exceptions during several years when the Company has experienced substantial increases in postage and newsprint expenses and additional costs related to acquisitions.

Access to Our Information

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission ("SEC"). These filings are not available on our website, www.dailyjournal.com, which is generally dedicated to the content of our publications. We will, however, provide these filings in electronic or paper format free of charge upon request addressed to our Secretary at our principal executive offices. Our SEC filings are also available to the public over the Internet at the SEC's website at www.sec.gov. The public may also read and copy any document we file at the SEC's public reference room located at 100 F Street N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room.

Item Risk Factors
1A.

The foregoing business discussion and the other information included in this Form 10-K should be read in conjunction with the following risks, trends and uncertainties, any of which, either individually or in the aggregate, could materially and adversely affect our business, operating results or financial condition.

Risks Associated with The Traditional Business

A continuing reduction in the number of residential foreclosures in California and Arizona will result in fewer trustee sale notices being published in the Company's newspapers.

For several years, the revenues of The Traditional Business were driven by the large number of foreclosures in California and Arizona, for which public notice advertising is required by law. With improvements in the economy, the number of foreclosures continued to decline in 2016. We expect this trend to continue, and it will significantly adversely impact the earnings of The Traditional Business because it will be impractical for the Company to offset the expected revenue loss with expense reductions.

Changes in the legal requirement to publish public notice advertising or in the legal ability of our newspapers to publish those notices would have a significant adverse impact on The Traditional Business.

From time to time, the legislatures in California and Arizona (and elsewhere) have considered various proposals that would result in the elimination or reduction of the amount of public notice advertising in printed newspapers required by statute, and Arizona recently approved one such proposal for a particular notice type. These proposals typically focus on the availability of alternative means of providing public notices, such as via the Internet. Some proposals also question the need for public notices at all. To the extent these proposals become law, particularly in California and Arizona, they could materially affect the revenues of The Traditional Business.

In addition, if the adjudication, which is what gives publishers the legal ability to publish public notice advertising, of one or more of the Company's newspapers was challenged and revoked, those newspapers would no longer be eligible to publish public notice advertising, and it could materially affect the revenues of The Traditional Business.

The Traditional Business faces strong competition in each of its markets.

Competition for readers and advertisers is very intense, both from established publications and from new entrants into the market. The Daily Journals face aggressive competition. The Company's court rules publications face competition in both Northern and Southern California from online court rules services and the courts themselves. The steady decline in recent years in the number of subscriptions to The Daily Journals and the court rule publications is likely to continue and adversely impact The Traditional Business' future revenues.

The Traditional Business also competes with anywhere from one serious competitor to many competing newspapers for public notice advertising in all of its markets. As the amount of this advertising has decreased due to the reduction in the number of foreclosures discussed above, the competition to publish the remaining public notices has intensified and may result in a further decline in The Traditional Business' public notice advertising revenues.

The Traditional Business continues to experience challenges in maintaining its commercial advertising and circulation revenues, particularly due to the growth of Internet sites.

Internet sites devoted to recruitment have become significant competitors of our newspapers and web sites for classified advertising. In addition, there has been a steady consolidation of companies serving the legal marketplace, resulting in an ever-smaller group of companies placing display advertising. Furthermore, newspapers like ours have been struggling to compete for display advertising generally, given the many other forums (including Internet sites) that compete for advertising dollars. These trends are expected to continue and would adversely affect The Traditional Business.

Circulation revenues have continued to decline as more and more information has become available from the internet. Law firm mergers have also reduced the number of firms that purchase multiple subscriptions of our newspapers. It is not practical to assume that we will be able to offset the decline in subscriptions with increases in the subscription rate, and we expect that our circulation revenues will continue to decline.

The Traditional Business is exposed to risks associated with fluctuations in postage and paper costs.

After personnel costs, postage and paper costs are typically the Company's next two largest expenses. An adequate supply of newsprint and other paper is important to the operations of The Traditional Business. The Company currently does not have a contract with any paper supplier, and in the past, shortages of newsprint have sometimes resulted in higher prices. The price of paper has remained unchanged since fiscal year 2013, and we expect it to remain unchanged at least through June 2017.

The Traditional Business uses the U.S. Postal Service for distribution of a majority of its newspapers and magazine. Postal rates are dependent on the operating efficiency of the U.S. Postal Service and on legislative mandates imposed upon the U.S. Postal Service. During the past several years, postal rates have increased. Postal rates and fees may increase more in the future. Further, we may not be able to pass on increases in paper and postage costs to our customers.

Risks Associated with Journal Technologies

The success of Journal Technologies depends in large part on the technological update and upgrade of its software products.

Journal Technologies' success depends on the continued improvement of its products, and the costs to update and upgrade those products consistently represent a large portion of Journal Technologies' expenses. There are many uncertainties in the process of courts and other justice agencies migrating to newer case management systems, including whether Journal Technologies' versions of these systems will find general acceptance and whether the modification of such systems can be done in a cost effective manner. The costs to update and upgrade Journal Technologies' products are expensed as incurred and will impact earnings at least through the foreseeable future.

Journal Technologies faces significant competition from other case management software vendors.

There is significant competition among a limited number of companies to provide services and software to courts and other justice agencies, and some of these companies are much larger and have greater access to capital and other resources than Journal Technologies. Normally, the vendor is selected through a bidding process, and often the customers will express a preference for, or even require, larger vendors. An inability to successfully compete in this difficult market could materially affect the earnings of Journal Technologies.

The customers of Journal Technologies are public sector entities, which create special issues and risks.

Substantially all of the customers of Journal Technologies are courts, justice agencies, and other government entities. Accordingly, we face special risks associated with governmental budget constraints, especially during stressful economic times, which could force government entities to defer or forego consulting services or even stop paying their annual software license and maintenance fees. In addition, we encounter risks related to a longer and more complicated sales cycle than exists for commercial customers, political issues related to resource allocation, administration turnover and preferences for internal case management solutions or for a particular vendor, complicated bidding procedures, and fluctuations in the demand for information technology products and services.

Journal Technologies generally recognizes revenues for software installations only upon completion of the applicable services and customer acceptance of the software system.

In most cases, the fees paid to Journal Technologies for installation services and software licenses are at risk until the customer has indicated its satisfaction with the installed system and it has “gone live”. Also, we utilize the completed performance method of accounting because the customer’s acceptance is typically unpredictable and reliable estimates of the progress towards completion cannot be made. Accordingly, we do not recognize revenues for installation services or licenses or for most other consulting services until after the services have been performed, and there are significant risks associated with our ability to complete our services to the satisfaction of our customers and to fulfill the requirements that entitle us to be paid. An inability to realize payment for services performed could materially affect the earnings of Journal Technologies.

Risks Associated with Our Holdings of Marketable Securities

A large portion of the Company’s assets is held in publicly traded securities, and the prices of those securities may decline.

As of September 30, 2016, the Company held marketable securities worth approximately \$166,634,000, with an unrealized gain for financial statement purposes of \$108,256,000. While this portfolio has enabled the Company to borrow on very favorable terms for the New Dawn and ISD acquisitions and to better compete for case management software opportunities that are usually limited to “large” firms, it is unusual for a public company to invest a significant amount of its available cash in the marketable securities of other public companies. The value of these securities could decline, which would adversely affect shareholders’ equity.

Also, as of September 30, 2016, the Company's holdings of marketable securities were concentrated in just seven companies and included two based in foreign currencies. Accordingly, a significant decline in the market value and unfavorable changes in the foreign exchange rates of one or more of the Company's holdings may not be offset by hypothetically better performance of other holdings. This concentration of risk may result in a more pronounced effect on shareholders' equity.

In certain circumstances, the Company may be required to recognize losses in a particular security for financial statement purposes even though the Company has not actually sold the security.

Even if the Company's marketable securities as a whole perform extraordinarily well, for accounting reasons, an "other-than-temporary impairment" in a particular security may result in the need to recognize a loss with respect to that security in the Company's statements of comprehensive income (loss) in a particular period. This has happened in several previous fiscal years, and it may happen again in the future with respect to the same securities or other securities owned by the Company. This requirement to recognize a loss could have a material effect on the Company's earnings in a particular period. Also, at times, the Company may hold marketable securities denominated in currencies other than the United States Dollar. When it does, the Company may be at risk for significant fluctuations in the applicable foreign currency exchange rates, which would affect the profitability of such marketable securities.

General Corporate Risks

The Company relies heavily on the services of Gerald Salzman.

Gerald Salzman, 77, serves as the Company's president, chief executive officer, chief financial officer, treasurer and assistant secretary. He is also the president, chief executive officer, chief financial officer and secretary of Journal Technologies. If Mr. Salzman's services were no longer available to the Company, it is unlikely that the Company could find a single replacement to perform all of the duties now handled by him, and it could have a significant adverse effect on the Company's business. The Company does not carry key man life insurance, nor has it entered into an employment agreement with Mr. Salzman.

Changes in accounting guidance could have a significant effect on the Company's reported financial results.

Preparing consolidated financial statements requires the Company's management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management's application of accounting policies and the prevailing accounting guidance. The Company considers fair value measurement and disclosures, revenue recognition, accounting for software costs, accounting for business combinations, testing for goodwill and intangible impairments and income taxes to be critical accounting policies and estimates. A change in the accounting guidance with respect to one or more of these areas could materially affect the Company's reported financial results.

We cannot be sure that customer information and systems are fully protected against security breaches.

Journal Technologies' software processes and stores customer information in the conduct of its business, including in some cases by utilizing a cloud-based system supplied by a third-party vendor. Despite our efforts to maintain up-to-date security controls, it is possible that our system could be improperly used to access or misappropriate customer systems or information, including personally identifiable or other confidential information. A material security breach of this nature could harm our reputation, cause us to lose current and potential customers, require us to allocate more resources to information security, or subject us or our customers to liability, resulting in increased costs, loss of revenue, or both. The Traditional Business also operates certain websites that process and, in certain cases, store customer information. A minor security breach was discovered on a website operated by The Traditional Business in early fiscal 2015, and although it was remediated, there can be no assurance that there will not be more material breaches in the future. Also, our insurance may not cover all of the costs that we may incur as a result of a material security breach.

Item Unresolved Staff Comments

1B.

None.

Item 2. Properties

The Company owns office and printing facilities in Los Angeles and an office building in Logan, Utah and leases space for its other offices under operating leases which expire at various dates through 2020.

The main Los Angeles property is comprised of a two-story, 34,000 square foot building constructed in 1990, which is fully occupied by the Company. Approximately 75% of the building is devoted to office space and the remainder to printing and production equipment and facilities. In 2003, the Company finished building an adjacent 37,000 square foot building and parking facilities on properties it acquired in 1996 and 1998. This building provides additional office, production and storage space. The Company and Journal Technologies occupy this building's first floor and will complete the build-out of the second floor as needed.

In November 2015, the Company purchased a 30,700 square foot office building constructed in 1998 on about 3.6 acres in Logan, Utah that had been previously leased for Journal Technologies.

The Company leases approximately 6,200 square feet of office space (expiring in October 2019) in San Francisco. Journal Technologies leases about 7,100 square feet of office space (expiring in March 2017) in Corona, California and 1,800 square feet of office space (expiring in October 2019) in Englewood, Colorado. In addition, the Company rents facilities in each of the remaining cities where its staff is located on a month-to-month basis or pursuant to leases generally of no longer than three years' duration. The Company believes that it has adequate office space.

See Note 4 of Notes to Consolidated Financial Statements for information concerning rents payable under leases.

Item 3. Legal Proceedings

From time to time, the Company is subject to litigation arising in the normal course of its business. While it is not possible to predict the results of such litigation, management does not believe the ultimate outcome of these types of matters will have a material adverse effect on the Company's financial position or results of operations or cash flows.

Item 4. Mine Safety Disclosures

Not applicable.

Part II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The following table sets forth the sales prices of the Company's common stock for the periods indicated. Quotations are as reported by the NASDAQ Capital Market.

	High	Low
Fiscal 2016		
Quarter ended December 31, 2015	\$ 239.00	\$ 201.83
Quarter ended March 31, 2016	247.40	189.65
Quarter ended June 30, 2016	224.39	171.00
Quarter ended September 30, 2016	231.66	181.02
Fiscal 2015		
Quarter ended December 31, 2014	\$ 280.51	\$ 173.97
Quarter ended March 31, 2015	253.25	168.90
Quarter ended June 30, 2015	222.50	183.61
Quarter ended September 30, 2015	224.17	183.67

As of December 12, 2016, there were approximately 510 holders of record of the Company's common stock, and the last trade was at \$269.90 per share.

The Company did not declare or pay any dividends during fiscal 2016, 2015 or 2014. A determination by the Company whether or not to pay dividends in the future will depend on numerous factors, including the Company's earnings, cash flow, financial condition, capital requirements, future prospects, acquisition opportunities, and other relevant factors. The Board of Directors does not expect that the Company will pay any dividends or other distributions to shareholders in the foreseeable future.

The Company does not have any equity compensation plans, and it did not sell any securities, whether or not registered under the Securities Act of 1933, during the past three fiscal years.

From time to time, the Company has repurchased shares of its common stock and may continue to do so. The Company maintains a common stock repurchase program that was implemented in 1987 in combination with the Company's Management Incentive Plan. See Note 2 of Notes to Consolidated Financial Statements for more information. The Company's stock repurchase program remains in effect, but the Company did not repurchase any shares during fiscal 2016 or 2015.

The following graph shows a five-year comparison of cumulative total return on the Company's common stock, Standard & Poor's 500 Composite Index, Standard & Poor's Publishing MidCap Index and Standard & Poor's Software & Services Select Industry Index, assuming \$100 was invested on September 30, 2011, and all dividends were reinvested. The Company has not declared a dividend in any of the fiscal years shown.

Total Cumulative Shareholder Return for Five Years Ended September 30, 2016

Item 6. Selected Financial Data

The following sets forth selected financial data for the Company as of, and for each of the five years ended September 30, 2016. Such data should be read in conjunction with, and is qualified in its entirety by reference to, the Company's consolidated financial statements and the notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations," each included herein.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The Company continues to operate as two different businesses: (1) The Traditional Business, being the business of newspaper publishing and related services that the Company had before 1999 when it purchased a software development company, and (2) Journal Technologies, Inc. ("Journal Technologies"), a wholly-owned subsidiary which supplies case management software systems and related products to courts, prosecutor and public defender offices, probation departments and other justice agencies, including administrative law organizations, city and county governments and bar associations. These organizations use the Journal Technologies family of products to help manage cases and information electronically, to interface with other critical justice partners and to extend electronic services to bar members and the public, including a website to pay traffic citations online. These products are licensed to more than 500 organizations in 42 states and internationally.

Fiscal 2016 compared with fiscal 2015

Consolidated revenues were \$41,612,000 and \$43,978,000 for the fiscal year ended September 30, 2016 and 2015, respectively. This decrease of \$2,366,000 (5%) was primarily from the reduction in The Traditional Business's trustee sale notice and related service fee revenues of \$463,000 and commercial advertising revenues of \$532,000, primarily due to the discontinuance of publishing the California Lawyer magazine, and Journal Technologies' public service fees of \$1,818,000 primarily due to a reduction in the number of traffic tickets processed online for the public to pay traffic citations and an Amnesty Program that reduces traffic ticket fines, partially offset by increased Journal Technologies' license and maintenance fees of \$774,000. The Company's revenues derived from Journal Technologies' operations constituted about 56% and 57% of the Company's total revenues for fiscal 2016 and 2015, respectively.

Consolidated operating costs and expenses increased by \$762,000 to \$48,252,000 from \$47,490,000, primarily resulting from additional expenses for Journal Technologies, partially offset by reduced expenses for the Traditional Business. Total personnel costs increased by \$1,371,000 (5%) to \$27,381,000 from \$26,010,000 primarily resulting from added personnel for Journal Technologies. Postage and delivery expenses decreased by \$177,000 (13%) to \$1,141,000 from \$1,318,000, and newsprint and printing expenses decreased by \$313,000 (26%) to \$912,000 from \$1,225,000 primarily because of the discontinuance of publishing the California Lawyer magazine effective October 1, 2015. Other general and administrative expenses decreased by \$502,000 (5%) to \$9,380,000 from \$9,882,000 mainly because of decreased legal, accounting and other professional service fees, partially offset by increased travel costs for installation services and selling expenses for Journal Technologies. Depreciation and amortization costs, which included primarily the amortization of Journal Technologies' intangible assets of \$4,895,000 for both fiscal 2016 and 2015, increased by \$178,000 (3%) to \$5,709,000 from \$5,531,000 mainly resulting from the additional depreciation expense for the Logan, Utah office building which was acquired in November 2015.

The Company's non-operating income, net of expenses, increased by \$460,000 to \$3,662,000 from \$3,202,000 primarily because of more dividend income, partially offset by an increase in interest rate on the two acquisition margin loans in fiscal 2013 and additional interest expenses for the Company's real estate loan.

During fiscal 2016, consolidated pretax loss was \$2,978,000 as compared with \$310,000 in the prior year. There were net losses of \$1,043,000 (\$0.76 per share) for fiscal 2016 as compared with net income of \$810,000 (\$0.59 per share) in the prior year.

At September 30, 2016, the aggregate fair market value of the Company's marketable securities was \$166,634,000. These securities had approximately \$108,256,000 of unrealized gains before taxes of \$42,250,000 and generated approximately \$4,085,000 in dividends and interest income during fiscal 2016, which lowers the Company's effective income tax rate because of the dividends received deduction. Most of the unrealized gains were in the common stocks of three U.S. financial institutions. There were no other-than-temporary impairment losses during fiscal 2016 as compared with \$376,000 in fiscal 2015.

Additional detail about each of the Company's reportable segments and its corporate income and expenses is set forth below:

The Traditional Business

The Traditional Business segment's pretax income increased in fiscal 2016 by \$59,000 (5%) to \$1,141,000 from \$1,082,000 in fiscal 2015.

Advertising revenues decreased by \$648,000 (6%) to \$9,854,000 from \$10,502,000 primarily resulting from the declines in commercial advertising revenues and trustee sale notice advertising revenues. Commercial advertising revenues decreased by \$532,000 (15%) to \$3,079,000 from \$3,611,000 primarily due to the discontinuance of publishing the California Lawyer magazine and the continuing challenges from internet sites devoted to online recruitments and steady consolidation of companies serving the legal marketplace resulting in an ever-smaller group of companies placing display advertising.

Trustee sale notices are very much dependent on the number of California and Arizona foreclosures for which public notice advertising is required by law. The number of foreclosure notices published by the Company decreased by 12% during fiscal 2016 as compared to the prior year and accounted for a reduction of \$463,000 in trustee sale notice and related service fee revenues. Because this slowing is expected to continue, the Company expects there will be fewer foreclosure notice advertisements and declining revenues in fiscal 2017, and the Company's print-based earnings will also likely decline significantly because it will be impractical for the Company to offset all revenue losses by expense reduction. The Company's smaller newspapers, those other than the Los Angeles and San Francisco Daily Journals ("The Daily Journals"), accounted for about 92% of the total public notice advertising revenues in fiscal 2016. Public notice advertising revenues and related advertising and other service fees constituted about 23% and 22% of the Company's total revenues for fiscal 2016 and 2015, respectively. Because of this concentration, the Company's revenues would be significantly adversely affected if California (and to a lesser extent Arizona) eliminated the legal requirement to publish public notices in adjudicated newspapers of general circulation, as has been recently approved, but not yet implemented, for one notice type in Arizona. Also, if the adjudication of one or more of the Company's newspapers was challenged and revoked, those newspapers would no longer be eligible to publish public notice advertising, and it could have a material adverse effect on the Company's revenues.

The Daily Journals accounted for about 86% of The Traditional Business' total circulation revenues, which decreased by \$3,000 to \$5,912,000 from \$5,915,000. The court rule and judicial profile services generated about 9% of the total circulation revenues, with the other newspapers and services accounting for the balance. Advertising service fees and other are Traditional Business segment revenues, which include primarily (i) agency commissions received from outside newspapers in which the advertising is placed and (ii) fees generated when filing notices with government agencies.

The Traditional Business segment operating expenses decreased in fiscal 2016 by \$798,000 (4%) to \$17,240,000 from \$18,038,000 in fiscal 2015 primarily due to decreased legal, accounting and other professional service fees of \$622,000.

Journal Technologies

Journal Technologies' business segment pretax loss increased in fiscal 2016 by \$3,239,000 (69%) to \$7,929,000 from \$4,690,000 in fiscal 2015 and included the amortization costs of intangible assets of \$4,895,000 for both fiscal 2016 and 2015.

Revenues decreased by \$1,663,000 (7%) to \$23,195,000 from \$24,858,000 in the prior year. Licensing and maintenance fees increased by \$774,000 (6%) to \$14,758,000 from \$13,984,000. Consulting fees decreased by \$619,000 (13%) to \$4,085,000 from \$4,704,000. In most cases, revenues from new installation projects will only be recognized, if at all, upon completion and acceptance of the services by the various customers. Deferred revenues on installation contracts primarily represent the fair value of advances from customers of Journal Technologies for software licenses and installation services. After a customer's acceptance of the completed project, the advances are generally no longer at risk of refund and are therefore considered earned. Deferred revenues on license and maintenance contracts represent prepayments of annual license and maintenance fees and are recognized ratably over the maintenance period. Other public service fees decreased by \$1,818,000 (29%) to \$4,352,000 from \$6,170,000 primarily due to a reduction in the number of traffic tickets processed online for the public to pay traffic citations and an Amnesty Program that reduces traffic ticket fines.

Operating expenses, which included the amortization of intangible assets of \$4,895,000 for both fiscal 2016 and 2015, increased in fiscal 2016 by \$1,560,000 (5%) to \$31,012,000 from \$29,452,000 in fiscal 2015 primarily due to increased personnel costs and travel expenses which are expected to continue to increase in the foreseeable future.

Identifiable intangible assets, including customer relationships and developed technology, are being amortized on a straight-line basis over five years due to the short life cycle of technology that customer relationships depend on and over 15 years for tax purposes. Goodwill, which is not amortized for financial statement purposes, is amortized over a 15-year period for tax purposes. Goodwill represents the expected synergies in expanding the Company's software business. Goodwill is evaluated for impairment annually, or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation include the current year's business profitability before intangible amortization, fluctuations of revenues, changes in the market place, the status of installation contracts and new business, among other things. Journal Technologies is continuing to update and upgrade its software products. These costs are expensed as incurred and will impact earnings at least through the foreseeable future.

Taxes

The Company recorded an income tax benefit of \$1,935,000 on a pretax loss of \$2,978,000 in fiscal 2016. The effective tax rate was lower than the statutory rate primarily due to the dividends received deduction. On pretax loss of \$310,000 for fiscal 2015, the Company recorded a tax benefit of \$1,120,000, which was lower than the statutory rate mainly resulting from the dividends received deduction, the domestic production activity deduction and a discrete benefit of approximately \$400,000 related to the California Enterprise Zone hiring credits which resulted from the Company's filing amended California tax returns for fiscal 2010 through fiscal 2013. The Company's effective tax rate was 65% and 361% for fiscal 2016 and 2015, respectively.

At September 30, 2016, the Company had an accrued liability of approximately \$2,723,000 for uncertain and unrecognized tax benefits relating to an acquisition in fiscal 2013, after a reduction of \$521,000 resulting from the recognition of deferred revenues and from the amortization of goodwill for tax purposes. At September 30, 2015, the Company had an accrued liability of approximately \$2,991,000 for uncertain and unrecognized tax benefits after a reduction of \$253,000. At September 30, 2014, the Company evaluated a tax position taken on its prior year tax return and determined that the position did not meet the more likely than not criteria because that position taken was in contrary to the one accounted for in purchase accounting. The Company thus accrued a liability of approximately \$3,244,000 for uncertain and unrecognized tax benefits at September 30, 2014.

During fiscal 2016, 2015 and 2014, interest expense of approximately \$112,000, \$96,000 and \$537,000 respectively, was recorded as "interest and penalty expense accrued for uncertain and unrecognized tax benefits" in the consolidated statements of comprehensive income (loss).

The Internal Revenue Service is currently conducting an examination of the Company's fiscal 2014 income tax return. The examination is in the early stages, and the results are unknown at this time. The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for fiscal years before fiscal 2013 with regard to federal income taxes and fiscal 2012 for state income taxes.

Comprehensive Loss

Comprehensive (loss) income includes net loss and unrealized net losses on investments, net of taxes, as summarized below:

Comprehensive (Loss) Income

	Fiscal Year Ended September 30		
	2016	2015	2014
Net (loss) income	\$		\$
Net (decrease) increase in unrealized appreciation of investments (net of taxes)	(1,043,000)	810,000	631,000
Reclassification adjustment of other-than-temporary impairment losses recognized in net income (net of taxes)	(2,214,000)	(8,811,000)	22,393,000
		230,000	
	<u>\$ (3,257,000)</u>	<u>\$ (7,771,000)</u>	<u>\$ 23,024,000</u>

Fiscal 2015 compared to fiscal 2014

Consolidated revenues were \$43,978,000 and \$43,423,000 for fiscal 2015 and 2014, respectively. This increase of \$555,000 (1%) was primarily from additional Journal Technologies licensing and maintenance and consulting revenues of \$1,699,000, partially offset by the reduction in The Traditional Business's trustee sale notice and related service fee revenues of \$881,000, commercial advertising revenues of \$237,000 and circulation revenues of \$123,000. The Company's revenues derived from Journal Technologies' operations constituted about 57% and 53% of the Company's total revenues for fiscal 2015 and 2014, respectively.

Consolidated operating costs and expenses increased by \$1,877,000 (4%) to \$47,490,000 from \$45,613,000, primarily resulting from additional expenses for Journal Technologies. Total personnel costs increased by \$748,000 (3%) to \$26,010,000 from \$25,262,000 including additional personnel costs for Journal Technologies of \$524,000. Other general and administrative expenses increased by \$761,000 (8%) to \$9,882,000 from \$9,121,000 mainly because of increased travel for installation services and selling expenses.

The Company's non-operating income, net of expenses, increased by \$871,000 (37%) to \$3,202,000 primarily because of additional dividends and interest income from the Company's marketable securities. There were pretax other-than-temporary impairment losses on investments of \$376,000 in fiscal 2015 and none in fiscal 2014. During fiscal 2015, consolidated pretax loss was \$310,000 as compared to a profit of \$141,000 in the prior year.

There was net income per share of \$0.59 for fiscal 2015 as compared with \$0.46 per share in the prior year.

At September 30, 2015, the aggregate fair market value of the Company's marketable securities was \$166,041,000. These securities had approximately \$111,498,000 of unrealized gains before taxes of \$43,278,000 and generated approximately \$3,829,000 in dividends and interest income during the year, which lowers the Company's effective income tax rate because of the dividends received deduction.

Additional detail about each of the Company's reportable segments, and its corporate income and expenses, is set forth below:

The Traditional Business

The Traditional Business segment's pretax income decreased in fiscal 2015 by \$2,037,000 (65%) to \$1,082,000 from \$3,119,000 in fiscal 2014.

Advertising revenues, which declined by \$933,000 (8%) to \$10,502,000 from \$11,435,000, are very much dependent on the number of California and Arizona foreclosures for which public notice advertising is required by law. The number of foreclosure notices published by the Company decreased by 21% during fiscal 2015 as compared to the prior year and accounted for almost all of the decline in revenues. The Company's smaller newspapers, those other than the Los Angeles and San Francisco Daily Journals ("The Daily Journals"), accounted for about 92% of the total public notice advertising revenues in fiscal 2015. Public notice advertising revenues and related advertising and other service fees

9/5/2017

djco20160823_10k.htm

constituted about 22% and 24% of the Company's total revenues for fiscal 2015 and 2014, respectively. Commercial advertising revenues decreased by \$237,000 (6%) to \$3,611,000 from \$3,848,000 because of the continuing challenges in the commercial advertising business.

The Daily Journals accounted for about 87% of the Company's total circulation revenues, which declined by \$123,000 (2%) to \$5,915,000 from \$6,038,000. The court rule and judicial profile services generated about 10% of the total circulation revenues, with the other newspapers and services accounting for the balance. Advertising service fees and other are Traditional Business segment revenues, which include primarily (i) agency commissions received from outside newspapers in which the advertising is placed and (ii) fees generated when filing notices with government agencies.

The Traditional Business segment operating expenses increased in fiscal 2015 by \$884,000 (5%) to \$18,038,000 from \$17,154,000 in fiscal 2014 primarily due to increased personnel costs of \$224,000 and additional legal, accounting and tax fees of \$387,000.

Journal Technologies

Journal Technologies' business segment pretax loss decreased in fiscal 2015 by \$1,156,000 (20%) to \$4,690,000 from \$5,846,000 in fiscal 2014.

Revenues increased by \$1,708,000 (7%) to \$24,858,000 from \$23,150,000 in the prior year. Licensing and maintenance fees increased by \$997,000 (8%) to \$13,984,000 from \$12,987,000. Consulting fees increased by \$702,000 (18%) to \$4,704,000 from \$4,002,000.

Operating expenses, which included the amortization of intangible assets of \$4,895,000 and \$4,866,000 in fiscal 2015 and 2014, respectively, increased in fiscal 2015 by \$993,000 (3%) to \$29,452,000 from \$28,459,000 in fiscal 2014 primarily due to increased personnel costs of \$524,000 and travel expenses of \$576,000.

Taxes

The Company recorded an income tax benefit of \$1,120,000 on pretax loss of \$310,000 in fiscal 2015. The effective tax rate was lower than the statutory rate primarily due to the dividends received deduction, the domestic production activity deduction and a discrete benefit of approximately \$400,000 related to the California Enterprise Zone hiring credits which resulted from the Company's filing amended California tax returns for fiscal 2010 through fiscal 2013. A benefit of this tax credit was recognized in the fiscal 2014 amended tax return. On pretax income of \$141,000 for fiscal 2014, the Company recorded a tax benefit of \$490,000. The Company's effective tax rate was 361% and -348% for fiscal 2015 and 2014, respectively.

At September 30, 2015, the Company had an accrued liability of approximately \$2,991,000 for uncertain and unrecognized tax benefits relating to an acquisition in fiscal 2013, after a reduction of \$253,000 resulting from the recognition of deferred revenues and from the amortization of goodwill for tax purposes. The Company does not anticipate a significant increase or decrease in this liability in the next twelve months. If recognized, it is expected that these unrecognized tax benefits would not have a significant impact on the Company's effective tax rate. At September 30, 2014, the Company evaluated a tax position taken on its prior year tax return and determined that the position did not meet the more likely than not criteria because that position taken was in contrary to the one accounted for in purchase accounting. The Company thus accrued a liability of approximately \$3,244,000 for uncertain and unrecognized tax benefits at September 30, 2014. There was no such an accrual in fiscal 2013.

During fiscal 2015, 2014 and 2013, interest expense of approximately \$96,000, \$537,000 and \$0, respectively, was recorded as "interest and penalty expense accrued for uncertain and unrecognized tax benefits" in the consolidated statements of comprehensive income (loss). The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for fiscal years before fiscal 2012 with regard to federal income taxes and fiscal 2011 for state income taxes.

Comprehensive (loss) income includes net income and unrealized net (losses) gains on investments, net of taxes, as summarized below:

Comprehensive (Loss) Income

	Fiscal Year Ended September 30		
	2015	2014	2013
Net income			
Net (decrease) increase in unrealized appreciation of investments (net of taxes)	\$ 810,000	\$ 631,000	\$ 3,779,000
Reclassification adjustment of other-than-temporary impairment losses recognized in net income (net of taxes)	(8,811,000)	22,393,000	21,292,000
	230,000	---	1,051,000
	<u>\$ (7,771,000)</u>	<u>\$ 23,024,000</u>	<u>\$ 26,122,000</u>

Reportable Segments

The Company's Traditional Business is one reportable segment and the other is Journal Technologies. Additional detail about each of the reportable segments and its corporate income and expenses is set forth below:

Disclosure of Contractual Obligations

The following table sets forth certain contractual obligations as of September 30, 2016:

	Contractual Obligations (000)				
	Less than 1 year	1-3 years	3-5 years	More than 5 years	Total
Real estate loan	\$ 110	\$ 236	\$ 260	\$ 1,576	\$ 2,182
Obligations under operating leases	595	778	29	---	1,402
Long-term accrued liabilities *	---	18	13	31	62
	\$ 705	\$ 1,032	\$ 302	\$ 1,607	\$ 3,646

* The long-term accrued liabilities are discounted to the present value using a discount rate of 6%.

In addition, during fiscal 2013 the Company borrowed \$29,493,000 from its investment margin account for the acquisitions of New Dawn and ISD. These investment margin account borrowings do not mature. The interest rate for these investment margin account borrowings fluctuates based on the Federal Funds Rate plus 50 basis points with interest only payable monthly. The interest rate as of September 30, 2016 was 1%, an increase of .25% in the interest rate beginning January 2016. Prior to that, there had been no

fluctuation in the interest rate which was at .75% since December 2012. The Company also accrued a liability of approximately \$2,723,000 for uncertain and unrecognized tax benefits relating to one of the acquisitions in fiscal 2013.

Liquidity and Capital Resources

During fiscal 2016, the Company's cash and cash equivalents and marketable security positions decreased by \$3,613,000 to \$178,045,000. Cash and cash equivalents were used primarily for the purchase of marketable securities of \$3,832,000 and capital assets of \$3,779,000, including \$3,500,000 for the Logan, Utah building. The investments in marketable securities, which had an adjusted cost basis of approximately \$58,378,000 and a market value of about \$166,634,000 at September 30, 2016, generated approximately \$4,085,000 in dividends and interest income. As of September 30, 2016, there were unrealized investment pretax gains of \$108,256,000 as compared to \$111,498,000 as of September 30, 2015. Most of the unrealized gains were in the common stocks of three U.S. financial institutions

Cash flows from operating activities decreased by \$6,531,000 during fiscal 2016 as compared to prior year primarily resulting from (i) decreases in net income of \$1,853,000 and accounts payable of \$1,436,000 as more liabilities were paid and (ii) increases in income tax receivable of \$1,411,000 primarily resulting from the net operating losses. The net cash provided by operating activities of \$1,224,000 included net decreases in deferred subscriptions, deferred installation contracts, deferred maintenance agreements and others of \$489,000.

As of September 30, 2016, the Company had working capital of \$119,623,000, including the liabilities for deferred subscriptions and deferred installation contracts and deferred maintenance agreements and others of \$18,022,000, which are scheduled to be earned within one year, and the deferred tax liability of \$42,250,000 for the unrealized gains described above.

The Company believes that it will be able to fund its operations for the foreseeable future through its cash flows from operating activities and its current working capital and expects that any such cash flows will be invested in its businesses. The Company may or may not have the ability to borrow against its marketable securities on favorable terms as it did for prior acquisitions. The Company also may entertain additional business acquisition opportunities. Any excess cash flows could be used to reduce the investment margin account liability or note payable collateralized by real estate or invested as management and the Board of Directors deem appropriate at the time.

Such investments may include additional securities of the companies in which the Company has already invested, securities of other companies, government securities (including U.S. Treasury Notes and Bills) or other instruments. The decision as to particular investments will be driven by the Company's belief about the risk/reward profile of the various investment choices at the time, and it may utilize government securities as a default if attractive opportunities for a better return are not available. The Company's Chairman of the Board, Charles Munger, is also the vice chairman of Berkshire Hathaway Inc., which maintains a substantial investment portfolio. The Company's Board of Directors has utilized his judgment and suggestions, as well as those of J.P. Guerin, the Company's vice chairman, when selecting investments, and both of them will continue to play an important role in monitoring existing investments and selecting any future investments.

As of September 30, 2016, the investments were concentrated in just seven companies. Accordingly, a significant decline in the market value of one or more of the Company's investments may not be offset by the hypothetically better performance of other investments, and that could result in a large decrease in the Company's shareholders' equity and, under certain circumstances, in the recognition of impairment losses in the Company's income statement (such as the other-than-temporary impairment losses of \$376,000 recognized during fiscal 2015, \$1,719,000 recognized in fiscal 2013 and \$2,855,000 recognized in fiscal 2012).

Critical Accounting Policies and Estimates

The Company's financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management's application of accounting policies. Management believes that revenue recognition, accounting for software costs, fair value measurement and disclosures (including for the long-term Incentive Plan liabilities), accounting for business combinations, testing for goodwill impairment and income taxes are critical accounting policies and estimates.

For the Traditional Business, proceeds from the sale of subscriptions for newspapers, court rule books and other publications and other services are recorded as deferred revenue and are included in earned revenue only when the services are provided, generally over the subscription term. Advertising revenues are recognized when advertisements are published and are net of commissions. An allowance for doubtful accounts for receivable is recorded.

Journal Technologies recognizes revenues in accordance with the provisions of Accounting Standards Codification ("ASC") ASC 985-605, *Software—Revenue Recognition*. Revenues from leases of software products are recognized over the life of the lease while revenues from software product sales are generally recognized upon delivery, installation or acceptance pursuant to a signed agreement. Revenues from license and maintenance agreements generally call for the Company to provide software updates and upgrades to customers and are recognized ratably over the maintenance period. Consulting and other services are recognized upon completion of the services and acceptance by the customers under the completed performance method. The Company elects to use the completed performance method because each customer's acceptance is unpredictable and reliable estimates of the progress towards completion cannot be made. Only after a customer's acceptance of a completed task does the customer realize value, and any advances are generally no longer at risk of refund and are therefore considered earned. Other public service fees, as disclosed in the consolidated statements of comprehensive income (loss), are primarily service fees earned and recognized as revenues at the time when the Company processes credit card payments on behalf of the courts via its ePayIt secure websites through which the general public can pay traffic citations and obtain traffic school information.

The Company has established Vendor Specific Objective Evidence (VSOE) of the fair value of annual maintenance because a substantial majority of Journal Technologies' actual maintenance renewals is within a narrow range of pricing as a percentage of the underlying license fees for the legacy contracts and is deemed substantive.

ASC 985-20, *Accounting for the Costs of Computer Software to be Sold, Leased, or Otherwise Marketed*, provides that costs related to the research and development of a new software product are to be expensed as incurred until the technological feasibility of the product is established. Accordingly, costs related to the development of new software products are expensed as incurred until technological feasibility has been established, at which time such costs are capitalized, subject to expected recoverability. In general, “technological feasibility” is achieved when the developer has established the necessary skills, hardware and technology to produce a product and a detailed program design has been (i) completed, (ii) traced to the product specifications and (iii) reviewed for high-risk development issues. The Company believes its process for developing software is essentially completed concurrent with the establishment of technological feasibility, and accordingly, no software development costs have been capitalized to date.

ASC 820, *Fair Value Measurement and Disclosures*, requires the Company to (i) disclose the amounts of transfers in and out of Level 1 and Level 2 fair value measurements and the reasons for the transfers and (ii) present separately information about purchases, sales, issuances and settlements in the reconciliation of Level 3 measurements. This guidance also provides clarification of existing disclosures requiring the Company to determine each class of its investments based on risk and to disclose the valuation techniques and inputs used to measure fair value for both Level 2 and Level 3 measurements. The Company made no transfers in and out of Level 1 and Level 2 measurements in fiscal years 2014, 2015 and 2016. During that time all of the Company’s investments have been quoted on public markets and, therefore, all fair value calculations have been based on Level 1 measurements. The estimated Incentive Plan’s future commitment is calculated using Level 3 inputs, as defined in the fair value hierarchy, based on an average of the current year and the current expectation of fiscal 2015 pretax earnings before certain items, discounted to the present value at 6% since each granted Incentive Plan Unit will expire over its remaining life term of up to 10 years.

The Company analyzes goodwill for possible impairment under ASC 350, *Intangibles – Goodwill and Other*, annually or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation for the reporting units include current year’s business profitability before intangible amortization, fluctuations of revenues, changes in the market place, the status of installation contracts and new business, among other things. In addition, ASC 2011-08, *Testing Goodwill for Impairment*, allows for the option of performing a qualitative assessment before calculating the fair value of a reporting unit. If it is determined based on qualitative factors that there is no impairment to goodwill, then the fair value of a reporting unit is not needed. If a quantitative analysis is required and the unit’s carrying amount exceeds its fair value, then the second step is performed to measure the amount of potential impairment. The Company’s annual goodwill impairment analysis in 2014 did not result in an impairment charge based on the qualitative assessment using the above-mentioned considered factors for potential goodwill impairment.

ASC 740, *Income Taxes*, establishes financial accounting and reporting standards for the effect of income taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and the deferred tax liabilities and assets for the future tax consequences of events that have been recognized in the financial statements or tax returns. This accounting guidance also prescribes recognition thresholds and measurement attributes for the financial statements recognition and measurement of a tax position taken or expected to be taken in a tax return. Judgment is required in assessing the future tax consequences of events that have been recognized in the Company’s financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could materially impact the Company’s financial position or its results of operations and its deferred tax liabilities related to the net unrealized gains on investments. See Note 3 of Notes to Consolidated Financial Statements for further discussion.

ASC 280-10, *Segment Reporting*, defines operating segments as components of a public entity that has discrete financial information that is evaluated regularly by the Company's Chief Executive Officer to decide how to allocate resources and to assess performance. In accordance with ASC 280-10, the Company has two reportable business segments which are: (i) Traditional Business and (ii) Journal Technologies.

The above discussion and analysis should be read in conjunction with the consolidated financial statements and the notes thereto included in this report.

Item 7A. Qualitative and Quantitative Disclosures about Market Risk

In December 2012, the Company borrowed from its investment margin account the purchase price of \$14 million for the New Dawn acquisition, and in September 2013, it borrowed another \$15.5 million for the ISD acquisition, in each case pledging its marketable securities as collateral. The interest rate for these investment margin account borrowings fluctuates based on the Federal Funds Rate plus 50 basis points with interest only payable monthly. The interest rate as of September 30, 2016 was 1%, an increase of .25% in the interest rate beginning January 2016. Prior to that, there had been no fluctuation in the interest rate which was at .75% since December 2012. The Company was not subject to any significant interest rate risk during such period.

Foreign Currency Risk

The Company holds foreign marketable securities based in South Korean Won and Hong Kong Dollar that are subject to risk associated with changes in the exchange rates of these currencies against the United States Dollar. The fair value of the foreign marketable security held in South Korean Won was \$12,667,000 with an adjusted cost of \$14,810,000 and \$8,694,000 with an adjusted cost of \$10,977,000 as of September 30, 2016 and 2015, respectively. The exchange rate of the South Korean Won against the United States Dollar was \$0.00091 and \$0.00084 at September 30, 2016 and 2015, respectively. The fair value of the foreign marketable security held in Hong Kong Dollar was \$32,814,000 with an adjusted cost of \$9,697,000 and \$26,355,000 with an adjusted cost of \$9,697,000 as of September 30, 2016 and 2015, respectively. The exchange rate of the Hong Kong Dollar against the United States Dollar was \$0.12893 and \$0.12903 at September 30, 2016 and 2015, respectively.

Equity Price Risk

The Company owns marketable securities and is subject to equity price risk. The following table summarizes our equity securities with significant equity price risk as of September 30, 2016 and 2015. The effects of a hypothetical 30% increase and a 30% decrease in market prices as of those dates are also shown. The selected 30% hypothetical changes do not reflect what could be considered the best or worst case scenarios. Indeed, results could be far better or worse due both to the nature of equity markets and the aforementioned concentration in our equity investment portfolio.

	<u>Equity Price Risk (000)</u>			Hypothetical Percentage Increase (Decrease) in Shareholders' Equity
	Fair Value	Hypothetical Price Change	Estimated Fair Value after Hypothetical Change in Prices	
September 30, 2016				
Equity securities	\$ 158,462	30% increase 30% decrease	\$ 206,001 110,923	38% increase 38% decrease
September 30, 2015				
Equity securities	158,705	30% increase 30% decrease	\$ 206,317 111,094	37% increase 37% decrease

Item 8. Financial Statements and Supplementary Data**Report of Independent Registered Public Accounting Firm****To The Board of Directors and Shareholders of Daily Journal Corporation**

We have audited the accompanying consolidated balance sheet of Daily Journal Corporation as of September 30, 2016, and the related consolidated statements of comprehensive income (loss), shareholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Daily Journal Corporation as of September 30, 2016, and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Daily Journal Corporation's internal control over financial reporting as of September 30, 2016, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013, and our report dated December 14, 2016 expressed an unqualified opinion on the effectiveness of Daily Journal Corporation's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Daily Journal Corporation

We have audited the accompanying consolidated balance sheet of Daily Journal Corporation (the "Company") as of September 30, 2015 and the related consolidated statements of comprehensive income (loss), shareholders' equity, and cash flows for each of the two years in the period ended September 30, 2015. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Daily Journal Corporation at September 30, 2015, and the results of its operations and its cash flows for each of the two years in the period ended September 30, 2015, in conformity with accounting principles generally accepted in the United States of America.

DAILY JOURNAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY AND OPERATIONS

Daily Journal Corporation ("Daily Journal") publishes newspapers and web sites covering California and Arizona and produces several specialized information services. It also serves as a newspaper representative specializing in public notice advertising.

Journal Technologies, Inc. ("Journal Technologies"), a wholly-owned subsidiary, includes as of October 1, 2014, the combined operations of Sustain Technologies, Inc. ("Sustain"), a wholly-owned subsidiary since 2008; New Dawn Technologies, Inc. ("New Dawn"), acquired in December 2012; and ISD Technologies, Inc. ("ISD"), acquired in September 2013. Journal Technologies supplies case management software systems and related products to courts, prosecutor and public defender offices, probation departments and other justice agencies, including administrative law organizations, city and county governments and bar associations. These organizations use the Journal Technologies family of products to help manage cases and information electronically, to interface with other critical justice partners and to extend electronic services to bar members and the public, including a website to pay traffic citations online. These products are licensed to more than 500 organizations in 42 states and internationally.

Essentially all of the operations of Daily Journal and Journal Technologies are based in California, Arizona, Colorado and Utah.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The consolidated financial statements include the accounts of the Daily Journal and Journal Technologies (collectively the "Company"). All intercompany accounts and transactions have been eliminated in consolidation.

Concentrations of Credit Risk: The Company extends unsecured credit to most of its advertising customers. The Company recognizes that extending credit and setting appropriate reserves for receivables is largely a subjective decision based on knowledge of the customer and the industry. Credit exposure also includes the amount of estimated unbilled sales. Credit limits, setting and maintaining credit standards, and managing the overall quality of the credit portfolio is largely centralized. The level of credit is influenced by the customer's credit and payment history which the Company monitors when establishing a reserve.

The Company maintains the reserve account for estimated losses resulting from the inability of its customers to make required payments. If the financial conditions of its customers were to deteriorate or its judgments about their abilities to pay are incorrect, additional allowances might be required and its results of operations could be materially affected.

Cash Equivalents: The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Fair Value of Financial Instruments: The carrying amounts of cash, accounts receivable and accounts payable approximate fair value because of their short maturities. In addition, the Company has investments in marketable securities, all categorized as “available-for-sale” and stated at fair market value, with the unrealized gains and losses, net of taxes, reported in “Accumulated other comprehensive income” (AOCI) in the accompanying consolidated balance sheets. The unrealized gains and losses included in AOCI represent changes in the fair value of the investments due to changes in both foreign currency exchange rates and market prices. The Company uses quoted prices in active markets for identical assets (consistent with the Level 1 definition in the fair value hierarchy) to measure the fair value of its investments on a recurring basis pursuant to Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurement and Disclosures*. At September 30, 2016, the aggregate fair market value of the Company’s marketable securities was \$166,634,000. These investments had approximately \$108,256,000 of unrealized gains before taxes of \$42,250,000. Most of the unrealized gains were in the common stocks of three U.S. financial institutions. The bonds have a maturity date in 2039 and are classified as “Current assets” because they are available for sale. At September 30, 2015, the Company had marketable securities at fair market value of approximately \$166,041,000, including approximately \$111,498,000 of unrealized gains before taxes of \$43,278,000.

Investment in Financial Instruments

	September 30, 2016			September 30, 2015		
	Aggregate fair value	Amortized/Adjusted cost basis	Pretax unrealized gains	Aggregate fair value	Amortized/Adjusted cost basis	Pretax unrealized gains
Marketable securities						
Common stocks	\$ 158,462,000	\$ 53,436,000	\$ 105,026,000	\$ 158,705,000	\$ 49,604,000	\$ 109,101,000
Bonds	8,172,000	4,942,000	3,230,000	7,336,000	4,939,000	2,397,000
	<u>\$ 166,634,000</u>	<u>\$ 58,378,000</u>	<u>\$ 108,256,000</u>	<u>\$ 166,041,000</u>	<u>\$ 54,543,000</u>	<u>\$ 111,498,000</u>

The Company performed separate evaluations for equity securities with a fair value at September 30, 2016 and 2015 below cost to determine if the unrealized losses were other-than-temporary. This evaluation considered a number of factors including, but not limited to, the length of time and extent to which the fair value had been less than cost, the financial condition and near term prospects of the issuer and the Company’s ability and intent to hold the securities until fair value recovers. The assessment of the ability and intent to hold these securities to recovery focuses on liquidity needs, asset/liability management and portfolio objectives. Based on the result of the evaluation, the Company concluded that as of September 30, 2016, the unrealized loss related to such marketable securities was temporary. As of September 30, 2015, the Company concluded that the unrealized losses related to the marketable securities of one issuer were other-than-temporary and thus recorded impairment losses of \$376,000 (\$230,000 net of taxes). U.S. GAAP requires that the Company recognize other-than-temporary impairment losses in earnings rather than in accumulated comprehensive income when the security prices remain below cost for a period of time that may be deemed excessive even in instances where the Company possesses the ability and intent to hold the security. However, the recording of these impairment losses does not necessarily indicate that the loss in value of these securities is permanent. In fiscal 2014, there were no unrealized losses related to the marketable securities.

Intangible Assets: At September 30, 2016 and 2015, intangible assets were composed of (i) customer relationships of \$7,166,000 and \$11,698,000 (net of the accumulated amortization expenses of \$14,938,000 and \$10,406,000), respectively, and (ii) developed technology of \$787,000 and \$1,292,000 (net of accumulated amortization expenses of \$1,738,000 and \$1,233,000), respectively. These intangible assets are being amortized over five years or less based on their estimated useful lives. Future annual intangible amortization costs are estimated to be approximately \$4,895,000 for fiscal 2017 and \$3,058,000 for fiscal 2018 and none thereafter. Intangible amortization expense was \$5,037,000, \$4,907,000 and \$4,866,000 for fiscal 2016, 2015 and 2014, respectively.

Intangible Assets

	September 30, 2016			September 30, 2015		
	Customer Relationships	Developed Technology	Total	Customer Relationships	Developed Technology	Total
Gross intangible	\$ 22,104,000	\$ 2,525,000	\$ 24,629,000	\$ 22,104,000	\$ 2,525,000	\$ 24,629,000
Accumulated amortization	(14,938,000)	(1,738,000)	(16,676,000)	(10,406,000)	(1,233,000)	(11,639,000)
	<u>\$ 7,166,000</u>	<u>\$ 787,000</u>	<u>\$ 7,953,000</u>	<u>\$ 11,698,000</u>	<u>\$ 1,292,000</u>	<u>\$ 12,990,000</u>

Goodwill: The Company accounts for goodwill in accordance with ASC 350, *Intangibles — Goodwill and Other*. Goodwill is not amortized for financial statement purposes but evaluated for impairment annually, or whenever events or changes in circumstances indicate that the value may not be recoverable. The goodwill amount reported in the consolidated balance sheets relates only to Journal Technologies. The Company performed qualitative assessments for Journal Technologies and determined there were no substantive changes during the current year and no indication of impairment. In making this assessment, the Company only considered Journal Technologies' assets and their revenue generating abilities as required by ASC 350. Goodwill represents the expected synergies in expanding the Company's software business. Considered factors for potential goodwill impairment evaluation for the reporting units include the current year's business profitability before intangible amortization, fluctuations of revenues, changes in the market place, the status of installation contracts and new business, among other things. As of September 30, 2016 and 2015, there was goodwill of \$13,400,000.

Prepaid and Other Current Assets: Included in other assets are in-progress installation service costs of \$350,000 for the legacy projects from the acquisition for which revenues have not yet been recognized and are deferred.

Inventories: Inventories, comprised of newsprint and paper, are stated at cost, on a first-in, first-out basis, which does not exceed current market value.

Property, plant and equipment: Property, plant and equipment are carried on the basis of cost or fair value for assets acquired in business combinations. Depreciation of assets is provided in amounts sufficient to depreciate the cost of related assets over their estimated useful lives ranging from 3 – 39 years. At September 30, 2016, the estimated useful lives were (i) 5 – 39 years for building and improvements, (ii) 3 – 5 years for furniture, office equipment and software, and (iii) 3 – 10 years for machinery and equipment. Leasehold improvements are amortized over the term of the related leases or the useful life of the assets, whichever is shorter. Assets are depreciated using the straight-line method for financial statements and accelerated method for tax purposes. Depreciation and amortization expenses were \$672,000, \$624,000 and \$650,000 for fiscal 2016, 2015 and 2014, respectively.

Significant expenditures which extend the useful lives of existing assets are capitalized. Maintenance and repair costs are expensed as incurred. Gains or losses on dispositions of assets are reflected in current earnings.

Impairment of Long-Lived Assets: The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. There were no such impairments identified during fiscal 2016, 2015 and 2014.

Journal Technologies' Software Development Costs: Development costs related to software products developed for sale or licensing are expensed as incurred until the technological feasibility of the product has been established. Thereafter, until the product is released for sale, software development costs are capitalized and reported at the lower of unamortized cost or net realizable value of the related product. The establishment of technological feasibility and the ongoing assessment of recoverability of costs require considerable judgment by the Company with respect to certain internal and external factors, including, but not limited to, anticipated future product revenue, estimated economic life and changes in hardware and software technology.

The Company believes its process for developing software is essentially completed concurrent with the establishment of technological feasibility, and accordingly, no software development costs have been capitalized to date.

Revenue Recognition: For the Traditional Business, proceeds from the sale of subscriptions for newspapers, court rule books and other publications and other services are recorded as deferred revenue and are included in earned revenue only when the services are provided, generally over the subscription term. Advertising revenues are recognized when advertisements are published and are net of commissions. The change in allowance for doubtful accounts is as follows.

Description	Balance at Beginning of Year	Additions Charged to Costs and Expenses	Accounts	
			Charged off less	Balance at End of Year
2016				
Allowance for doubtful accounts	\$ 250,000	\$ 5,000	\$ (55,000)	\$ 200,000
2015				
Allowance for doubtful accounts	\$ 250,000	\$ 61,000	\$ (61,000)	\$ 250,000
2014				
Allowance for doubtful accounts	\$ 250,000	\$ 41,000	\$ (41,000)	\$ 250,000

Journal Technologies recognizes revenues in accordance with the provisions of ASC 985-605, *Software—Revenue Recognition*. Revenues from license and maintenance contracts generally call for the Company to provide software updates and upgrades to customers and are recognized ratably over the maintenance period. Consulting and other services are recognized upon completion of the services and acceptance by the customers under the completed performance method. The Company elects to use the completed performance method because each customer's acceptance is unpredictable and reliable estimates of the progress towards completion cannot be made. Only after a customer's acceptance of a completed task does the customer realize value, and any advances are generally no longer at risk of refund and are therefore considered earned.

Other public service fees, as disclosed in the consolidated statements of comprehensive income (loss), are primarily service fees earned and recognized as revenues at the time the Company processes credit card payments on behalf of the courts via its ePayIt secure websites through which the general public uses can pay traffic citations and obtain traffic school information.

Approximately 56%, 57% and 53% of the Company's revenues in fiscal 2016, 2015 and 2014, respectively, were derived from sales and leases of software licenses, annual maintenance agreements and consulting services that typically include implementation and training.

The Company has established Vendor Specific Objective Evidence (VSOE) of fair value of the annual maintenance because a substantial majority of the Journal Technologies' actual maintenance renewals is within a narrow range of pricing as a percentage of the underlying license fees for the legacy contracts and is deemed substantive.

Management Incentive Plan: In fiscal 1987, the Company implemented a Management Incentive Plan (the "Incentive Plan") that entitles a participant to participate in pretax earnings before adjustment for certain items of the Company. In 2003, the Company modified the Incentive Plan to provide participants with three different types of non-negotiable incentive certificates based on the nature of the particular participants' responsibilities. Each certificate entitles the participant to a specified share of the applicable pretax earnings in the year of grant and to receive the same percentage of pretax earnings to be generated in each of the next nine years provided they remain with the Company or are in retirement after working for the Company to age 65. If a participant dies while any of his or her certificates remain outstanding, future payments under those certificates will be made to the deceased participant's beneficiaries.

In fiscal 2015, after combining Sustain, New Dawn and ISD into one company, the Company converted each existing Sustain Non-negotiable Incentive Certificate along with its supplemental Addendum to a new "Journal Technologies Non-negotiable Incentive Certificate" coupled with a similar supplemental Addendum which defines how the value of the Journal Technologies Certificate will be paid upon a triggering event such as a sale of Journal Technologies or an initial public offering. Employees and consultants of Journal Technologies are eligible to participate in these "Journal Technologies Certificates". Payouts under the Journal Technologies Certificates are calculated based on the pretax income of Journal Technologies before supplemental compensation expenses, workers' compensation expenses, intangible amortizations and goodwill impairment. Also effective fiscal 2015, the calculation of payouts under the Daily Journal Non-Consolidated Certificates is based on the pretax earnings of the traditional publishing business before supplemental compensation expenses, workers' compensation expenses, financing costs of the non-traditional business activities and any write-downs of unrealized losses on investments. The calculation of payouts under the Daily Journal Consolidated Certificate remains unchanged. For any certificate held by an employee who has already met retirement eligibility at age 65, all future commitments are expensed immediately. For any certificate held by an employee who is expected to become retirement eligible during the 10 year period of the certificate, the Company recognizes the future commitments at each fiscal year-end over the period from the grant date through retirement eligibility.

Certificate interests entitled participants to receive 4.49%, 4.13% and 3.85% (amounting to \$271,350, \$198,915 and \$265,490, respectively) of Daily Journal non-consolidated income before taxes, workers' compensation, supplemental compensation and certain other items, 8.30% and 7.07% (amounting to \$0 and \$10,600 for fiscal 2016 and 2015, respectively) for Journal Technologies and 8.2%, 8.2% and 8.2% (amounting to \$0, \$0 and \$0, respectively) for Daily Journal consolidated in fiscal 2016, 2015 and 2014. The Company accrued \$62,000 and \$47,000 as of September 30, 2016 and 2015, respectively, for the Plan's future commitment for those who will still have Certificates at the age of 65. This future commitment included an increase in fiscal 2016 of \$15,000 or \$.01 per outstanding share on a pretax basis versus a decrease in fiscal 2015 of \$733,000 or \$.53 per outstanding share on a pretax basis due to increased estimated future pretax income. The estimated Incentive Plan's future commitment is calculated using Level 3 inputs, as defined in the fair value hierarchy, based on an average of the past year and the current year pretax earnings before certain items, discounted to the present value at 6% since each granted Unit will expire over its remaining life term of up to 10 years.

Income taxes: The Company accounts for income taxes using an asset and liability approach which requires the recognition of deferred tax liabilities and assets for the expected future consequences of temporary differences between the carrying amounts for financial reporting purposes and the tax basis of the assets and liabilities. The Company accounts for uncertainty in income taxes under ASC 740-10 which prescribes a recognition threshold and measurement methodology to recognize and measure an income tax position taken, or expected to be taken, in a tax return. The evaluation of a tax position is based on a two-step approach. The first step requires an entity to evaluate whether the tax position would "more likely than not" be sustained upon examination by the appropriate taxing authority. The second step requires the tax position be measured at the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement. In addition, previously recognized benefits from tax positions that no longer meet the new criteria would be derecognized. At September 30, 2016, the balance of the accrued tax liability for uncertain and unrecognized tax benefits relative to an acquisition in fiscal 2013 totaled approximately \$2,723,000. At September 30, 2015, there were unrecognized tax benefits of \$2,991,000.

Net income per common share: The net income per common share is based on the weighted average number of shares outstanding during each year. The shares used in the calculation were 1,380,746 for fiscal 2016, 2015 and 2014. The Company does not have any common stock equivalents, and therefore basic and diluted net income per share is the same.

Use of Estimates: The presentation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The long-term Incentive Plan accrual is calculated using Level 3 inputs, as defined in the fair value hierarchy, based on an average of the past year's and the current year's pretax earnings, discounted to the present value at 6% since each granted Unit will expire over its remaining life term of up to 10 years. Actual results could differ from these estimates.

Accounting Standard Adopted in 2016:

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Components of an Entity*. This update changes the requirements for reporting discontinued operations. A disposal of a component of an entity or a group of components of an entity is required to be reported in the discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. Further, this update expands the disclosures about an entity's significant continuing involvement with a discontinued operation. The Company adopted this ASU in fiscal 2016, and the adoption had no impact to the Company's financial condition, results of operations or disclosures because there was no such kind of discontinued operations during fiscal 2016.

New Accounting Pronouncements:

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This update clarifies the principles for revenue recognition in transactions involving contracts with customers. The new revenue recognition guidance provides a five-step analysis to determine when and how revenue is recognized. The new guidance will require revenue recognition to depict the transfer of promised goods or services to a customer in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of Effective Date*. This update defers the mandatory effective date of its revenue recognition standard by one year. The standard is required to be adopted for annual periods beginning after December 15, 2017, including interim periods within that annual period, which is the Company's fiscal 2019. Early application is permitted for annual reporting periods beginning after December 15, 2016, and interim periods within that annual period, which is the Company's fiscal 2018.

In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, providing guidance regarding the application of ASU 2014-09 when another party, along with the reporting entity, is involved in providing a good or a service to a customer. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing*, which clarifies the identification of performance obligations and the licensing implementation guidance. In May 2016, the FASB further issued ASU No. 2016-12, *Revenue from Contracts with Customers: Narrow-Scope Improvements and Practical Expedients* providing guidance in certain narrow areas and adding some practical expedients. The effective dates for these ASUs, which are the same as the effective date for ASU No. 2014-09, *Revenue from Contracts with Customers*, will be the Company's fiscal 2019 annual and interim periods. The Company has not yet evaluated what impact, if any, the adoption of these ASUs may have on its financial condition, results of operations or disclosures.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*. This update requires deferred tax liabilities and assets to be classified as noncurrent in the consolidated balance sheet. The standard is required to be adopted for annual periods beginning after December 15, 2016, including interim periods within that annual period, which is the Company's fiscal 2018. The amendment may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. The Company has not yet evaluated what impact the adoption of this guidance may have on its financial condition, results of operations or disclosures.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This update requires that all leases be recognized by lessees on the balance sheet through a right-of-use asset and corresponding lease liability, including today's operating leases. This standard is required to be adopted for annual periods beginning after December 15, 2018, including interim periods within that annual period, which is the Company's fiscal year 2020. The Company has not yet evaluated what impact, if any, the adoption of this guidance may have on its financial condition, results of operations or disclosures.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires measurement and recognition of expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts versus incurred credit losses. In addition, the ASU amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration by recording credit losses (and subsequent changes in credit losses) through an allowance rather than a write-down. ASU 2016-13 is effective for the Company's annual and interim reporting periods beginning January 1, 2020, which is the Company's fiscal 2021, with early adoption permitted for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. The Company has not yet evaluated what impact, if any, the adoption of this ASU may have on its financial condition, results of operations or disclosures.

No other new accounting pronouncement issued or effective has had, or is expected to have, a material impact on the Company's consolidated financial statements.

3. INCOME TAXES

The (benefit from) provision for income taxes consists of the following:

	2016	2015	2014
Current:			
Federal	\$ (268,000)	\$ 458,000	\$ 1,065,000
State	(30,000)	(271,000)	484,000
	(298,000)	187,000	1,549,000
Deferred:			
Federal	(1,369,000)	(1,053,000)	(1,790,000)
State	(268,000)	(254,000)	(249,000)
	(1,637,000)	(1,307,000)	(2,039,000)
\$	<u>(1,935,000)</u>	<u>(1,120,000)</u>	<u>\$ (490,000)</u>

The difference between the statutory federal income tax rate and the Company's effective rate is summarized below:

	2016	2015	2014
Statutory federal income tax rate	34.0%	34.0%	34.0%
State franchise taxes (net of federal tax benefit)	5.2	(23.3)	(38.3)
State enterprise zone benefits	---	134.9	---
Business meals/gifts	(2.3)	(18.8)	36.1
Domestic production activity deduction	---	(2.2)	(135.7)
Dividends received deduction	24.5	225.7	(424.6)
Penalties for uncertain and unrecognized tax benefits	---	---	115.5
Prior year true-up	(2.0)	(7.3)	84.7
Foreign tax credits	4.0	28.4	(17.9)
Effect of state rate change on beginning balance of deferred tax liabilities	1.4	(5.0)	---
Others	0.2	(5.5)	(1.3)
Effective tax rate	<u>65.0%</u>	<u>360.9%</u>	<u>(347.5)%</u>

At September 30, 2016, the Company's deferred income tax assets and liabilities were comprised of the following:

	2016	2015	2014
Deferred tax assets attributable to:			
Accrued liabilities, including supplemental compensation and vacation pay accrual	\$ 455,000	\$ 605,000	\$ 1,063,000
Impairment losses on investments	1,382,000	1,369,000	1,779,000
Bad debt reserves not yet deductible	62,000	82,000	78,000
Depreciation and amortization	4,549,000	3,251,000	1,822,000
Deferred revenues	1,555,000	1,378,000	1,116,000
Credits and other	1,519,000	869,000	12,000
Total deferred tax assets	9,522,000	7,554,000	5,870,000
Deferred tax liabilities attributable to:			
Unrealized gains on investments	(42,250,000)	(43,278,000)	(48,896,000)
Goodwill	(1,227,000)	(896,000)	(495,000)
Total deferred tax liabilities	(43,477,000)	(44,174,000)	(49,391,000)
Net deferred income taxes	\$ (33,955,000)	\$ (36,620,000)	\$ (43,521,000)

The Company recorded an income tax benefit of \$1,935,000 on a pretax loss of \$2,978,000 in fiscal 2016. The effective tax rate was lower than the statutory rate primarily due to the dividends received deduction. On pretax loss of \$310,000 for fiscal 2015, the Company recorded a tax benefit of \$1,120,000, which was lower than the statutory rate mainly resulting from the dividends received deduction, the domestic production activity deduction and a discrete benefit of approximately \$400,000 related to the California Enterprise Zone hiring credits which resulted from the Company's filing amended California tax returns for fiscal 2010 through fiscal 2013. The Company's effective tax rate was 65% and 361% for fiscal 2016 and 2015, respectively.

At September 30, 2016, the Company had an accrued liability of approximately \$2,723,000 for uncertain and unrecognized tax benefits relating to an acquisition in fiscal 2013, after a reduction of \$521,000 resulting from the recognition of deferred revenues and from the amortization of goodwill for tax purposes. At September 30, 2015, the Company had an accrued liability of approximately \$2,991,000 for uncertain and unrecognized tax benefits after a reduction of \$253,000. At September 30, 2014, the Company evaluated a tax position taken on its prior year tax return and determined that the position did not meet the more likely than not criteria because that position taken was in contrary to the one accounted for in purchase accounting. The Company thus accrued a liability of approximately \$3,244,000 for uncertain and unrecognized tax benefits at September 30, 2014.

During fiscal 2016, 2015 and 2014, interest expense of approximately \$112,000, \$96,000 and \$537,000 respectively, was recorded as "interest and penalty expense accrued for uncertain and unrecognized tax benefits" in the consolidated statements of comprehensive income (loss).

The Internal Revenue Service is currently conducting an examination of the Company's fiscal 2014 income tax return. The examination is in the early stages, and the results are unknown at this time.

A reconciliation of the beginning and ending balance for liabilities associated with these uncertain and unrecognized tax benefits is as follows:

<u>Uncertain Tax Liability</u>			
	<u>2016</u>	<u>2015</u>	<u>2014</u>
Beginning balance	\$ 2,991,000	\$ 3,244,000	\$ ---
Added liability for the prior year	---	---	2,393,000
Added liability for the current year	---	---	851,000
Tax payment upon settlement	---	---	---
Reduced liability for the current year	(268,000)	(253,000)	---
Ending balance	<u>\$ 2,723,000</u>	<u>\$ 2,991,000</u>	<u>\$ 3,244,000</u>

The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for fiscal years before fiscal 2013 with regard to federal income taxes and fiscal 2012 for state income taxes.

4. DEBTS AND COMMITMENTS

In December 2012, the Company borrowed from its investment margin account the purchase price of \$14 million for the New Dawn acquisition, and in September 2013, it borrowed another \$15.5 million for the ISD acquisition, in each case pledging its marketable securities as collateral. The interest rate for these investment margin account borrowings fluctuates based on the Federal Funds Rate plus 50 basis points with interest only payable monthly. The interest rate as of September 30, 2016 was 1%. These investment margin account borrowings do not mature.

In November 2015, the Company purchased a 30,700 square foot office building constructed in 1998 on about 3.6 acres in Logan, Utah that had been previously leased by Journal Technologies. The Company paid \$1.24 million and financed the balance with a real estate bank loan of \$2.26 million which bears a fixed interest rate of 4.66% and is repayable in equal monthly installments of about \$17,600 through 2030. This loan is secured by the Logan facility and can be paid off at any time without prepayment penalty. This real estate loan had a balance of approximately \$2.18 million as of September 30, 2016.

The Company owns its facilities in Los Angeles and an office building in Logan and leases space for its other offices under operating leases which expire at various dates through fiscal 2020. During fiscal 2014, the Company renewed its office lease for its San Francisco office for five years to end on October 31, 2019 with currently a monthly rent of approximately \$24,000 for about 6,200 square feet. The Logan, Utah office operating lease entered into in December 2012 in connection with the New Dawn acquisition required a monthly rent of \$42,000 for about 30,200 square feet, and it expired in November 2015 when the Company purchased the Logan building. Part of this office space is sub-leased to third parties under short-term leases for approximately \$5,000 per month.

The Company is responsible for a portion of maintenance, insurance and property tax expenses relating to the leased properties. Rental expenses for fiscal years 2016, 2015 and 2014 were \$745,000, \$1,171,000 and \$1,182,000, respectively.

The following table represents the Company's future obligations:

	Payments due by Fiscal Year					Total
	2017	2018	2019	2020	2021 and after	
Real estate loan	\$ 110,000	\$ 115,000	\$ 121,000	\$ 127,000	\$ 133,000	\$ 2,182,000
Obligations under operating leases	595,000	418,000	360,000	29,000	---	1,402,000
Long-term accrued liabilities*	---	9,000	9,000	7,000	6,000	62,000
	<u>\$ 705,000</u>	<u>\$ 542,000</u>	<u>\$ 490,000</u>	<u>\$ 163,000</u>	<u>\$ 139,000</u>	<u>\$ 3,646,000</u>

* The long-term accrued liabilities are discounted to the present value using a discount rate of 6%.

5. CONTINGENCIES

From time to time, the Company is subject to litigation arising in the normal course of its business. While it is not possible to predict the results of such litigation, management does not believe the ultimate outcome of these matters will have a material adverse effect on the Company's financial position, results of operations or cash flows.

6. REPORTABLE SEGMENTS

Operating segments are defined as components of an enterprise which has discrete financial information that is evaluated regularly by the Company's Chief Executive Officer to decide how to allocate resources and to access performance.

In accordance with ASC 280-10, *Segment Reporting*, the Company has two segments of business. The Company's reportable segments are: (i) the Traditional Business and (ii) Journal Technologies. All inter-segment transactions were eliminated.

Summarized financial information concerning the Company's reportable segments and Corporate income and expenses is shown in the following table:

Reportable Segments

	Reportable Segments			Corporate income and expenses	Total
	Traditional Business	Journal Technologies			
Fiscal 2016					
Revenues	\$	\$	\$	\$	\$
Advertising, net	9,854,000	---	---	---	9,854,000
Circulation	5,912,000	---	---	---	5,912,000

8. SUBSEQUENT EVENTS

The Company has completed an evaluation of all subsequent events through the issuance date of these financial statements and concluded that no additional subsequent events occurred that required recognition in the financial statements or disclosures in the Notes to Consolidated Financial Statements.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

BDO USA, LLP (“BDO”) served as the Company’s independent registered public accounting firm during fiscal 2015 and 2014. The audit committee approved the dismissal of BDO as the Company’s independent registered public accounting firm, effective February 10, 2016.

The reports of BDO on the Company’s financial statements for fiscal 2015 and 2014 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. There were no disagreements with BDO on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure.

On February 10, 2016, the Company engaged Squar Milner LLP (“Squar Milner”) as its independent registered public accounting firm. During the Company’s two most recent fiscal years and during the subsequent interim period prior to Squar Milner’s engagement, neither the Company nor anyone acting on its behalf consulted BDO regarding (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company’s financial statements or (ii) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K).

Item Controls and Procedures 9A.

Evaluation of Disclosure Controls and Procedures

In conjunction to the adoption of the framework in Internal Control-Integrated Framework (“2013 framework”) issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”), the Company has made significant changes to its internal controls to rectify those previously identified material weaknesses mentioned in its Form 10-K for the fiscal year ended September 30, 2015. An evaluation was performed under the supervision and with the participation of the Company’s management, including Gerald L. Salzman, its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures as of September 30, 2016. Based on that evaluation, management concluded that the Company’s disclosure controls and procedures were effective as of September 30, 2016.

Management’s Report on Internal Control over Financial Reporting

The Company’s management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities and Exchange Act of 1934. The Company’s internal control over financial reporting has been designed to provide reasonable assurance to the Company’s management and Board of Directors regarding the preparation and fair presentation of the Company’s consolidated financial statements. All internal controls, no matter how well designed, have inherent limitations, and sometimes they can have one or more material weaknesses. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company’s annual or interim consolidated financial statements will not be prevented or detected on a timely basis.

Each year, management is required by SEC rules to evaluate the effectiveness of the Company’s internal control over financial reporting. That evaluation is conducted under the supervision and with the participation of Mr. Salzman, and is based on the 2013 framework. Based on the evaluation under that framework and applicable SEC rules, our management concluded that our internal control over financial reporting was effective as of September 30, 2016.

Squar Milner LLP, the independent registered public accounting firm that audited our consolidated financial statements as of and for the year ended September 30, 2016 included in this annual report, has issued its report on the effectiveness of our internal control over financial reporting as of September 30, 2016, which is presented below.

Report of Independent Registered Public Accounting Firm

To The Board of Directors and Shareholders of Daily Journal Corporation

We have audited Daily Journal Corporation's internal control over financial reporting as of September 30, 2016, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. Daily Journal Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Daily Journal Corporation maintained, in all material respects, effective internal control over financial reporting as of September 30, 2016, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Daily Journal Corporation as of September 30, 2016 and the related consolidated statements of comprehensive income (loss), shareholders' equity, and cash flows for the year then ended and our report dated December 14, 2016 expressed an unqualified opinion.

/s/ Squar Milner LLP

Los Angeles, California
December 14, 2016

Changes in Internal Control over Financial Reporting

As part of its audit of the Company's internal control over financial reporting as of September 30, 2015, BDO USA, LLP concluded that the Company had the following material weaknesses, which the Company had identified and described in its management's assessment:

- (1) The Company did not have sufficient technical expertise in assessing and applying accounting standards to complex and/or non-routine transactions, reviewing the quarterly and annual tax analysis and provision, and assessing the adequacy of disclosures in the quarterly and annual consolidated financial statements. The lack in expertise to apply the accounting standards resulted in a material audit adjustment in the fourth quarter of fiscal 2015.
- (2) Additionally, the Company had not adequately designed and documented sufficient internal controls to support effective internal controls relating to the risk of fraud and management override of internal controls. The controller and the assistant to the controller post and review journal entries and also generate the system based financial reports used in key management review controls. Further, the controller and the assistant to the controller and some department heads have administrative access to their departments' operating systems.

In conjunction to the adoption of the 2013 COSO framework during fiscal year 2016, the Company has made significant changes to its internal controls to rectify those previously identified material weaknesses mentioned in its Form 10-K for the fiscal year ended September 30, 2015. These changes included the adoption of new policies and procedures to strengthen the Company's internal control over financial reporting, particularly insofar as it relates to the risk of fraud and management overrides. These changes included adoption of enhanced risk assessment protocols, revision of various information technology systems and procedures to further strengthen its internal control over financial reporting, segregation of administration access to certain operating systems, and establishment of a new procedure for reviewing and approving manually-posted journal entries.

In addition, as a small company with an accounting department of seven, each person may have multiple tasks. As such, the Company has used compensating controls with multiple reviews by different levels of management to counter-balance any lack of segregation of duties, including quarterly control assessments by each of its departments, detail reviews and analyses of its financial information by management with the participation of department supervisors, outside counsel, tax consultant, the Board of Directors and the Audit Committee.

Item 9B. Other Information

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance**

The information set forth in the tables, the notes thereto, and the paragraphs under the captions “Election of Directors”, “Corporate Governance” and “Section 16(a) Beneficial Ownership Reporting Compliance” in the Company’s Proxy Statement for the Annual Meeting of Shareholders to be held on or about February 15, 2017 (the “Proxy Statement”), is incorporated herein by reference.

The Company has adopted a Code of Ethics that applies to all directors, officers and employees of the Company, including the Chief Executive Officer, Chief Financial Officer and Controller. The Company’s Code of Ethics has been filed as Exhibit 14 hereto.

Item 11. Executive Compensation

The information set forth under the captions “Executive Compensation” and “Corporate Governance” in the Proxy Statement is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information set forth under the caption “Security Ownership of Certain Beneficial Owners and Management” in the Proxy Statement is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information set forth under the caption “Corporate Governance” in the Proxy Statement is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

The information set forth under the caption “Other Matters Regarding Independent Registered Public Accounting Firm” in the Proxy Statement is incorporated herein by reference.

Item 15. Exhibits, Financial Statement Schedules**PART IV**

The following documents are filed as part of this Report:

Dear Ms. Cordova,

Journal Technologies, Inc. is the only business entity singularly qualified to provide the following capabilities that are a requirement for our case management software and office operations:

1. Only Journal Technologies' customer services team can provide technical support to JustWare users. No other vendor can provide JustWare updates, and critical bug fixes.
2. Journal Technologies, Inc. provides new versions, enhancements and version releases as part of the support fees that are paid. Only Journal Technologies, Inc. can provide new versions of the JustWare case management software application, JusticeWeb Software, and Support for the JustWare API.
3. JustWare is a proprietary software solution that Journal Technologies, Inc. does not permit third party companies to market, implement, host, or modify.

Let me know if I can be of any other assistance,

Sincerely,

Ben Stocks / Account Management Manager / PMP
bstocks@journaltech.com / (877) 587-8927 x4215
