1 Health - 7-23-18

2 LEGISLATOR WALKER: I would like  
3 to call the Health and Social Services  
4 Committee to order and ask the clerk to please  
5 take the role call.

6 MR. PULITZER: Health and Social  
7 Services Committee roll call. Legislator  
8 Joshua Lafazan.

9 LEGISLATOR LAFAZAN: Here.

10 MR. PULITZER: Legislator Arnold  
11 Drucker.

12 LEGISLATOR DRUCKER: Here.

13 MR. PULITZER: Ranking member  
14 Delia DeRiggi-Whitton.

15 LEGISLATOR DERIGGI-WHITTON:  
16 Here.

17 MR. PULITZER: Legislator C.  
18 William Gaylor the third.

19 LEGISLATOR GAYLOR: Here.

20 MR. PULITZER: Legislator Laura  
21 Schaefer.

22 LEGISLATOR SCHAEFER: Here.

23 MR. PULITZER: Vice Chairman  
24 James Kennedy.

25 LEGISLATOR KENNEDY: Here.

1 Health - 7-23-18

2 MR. PULITZER: Chairwoman Rose  
3 Marie Walker.

4 LEGISLATOR WALKER: Here.

5 MR. PULITZER: We have a quorum  
6 ma'am.

7 LEGISLATOR WALKER: Thank you.  
8 We have three items on the regular agenda and  
9 one on the addendum. We will call clerk item  
10 293-18 first. Which is an ordinance  
11 supplemental to the annual appropriation  
12 ordinance and to authorize a transfer of  
13 appropriations heretofore made within the  
14 budget for the year 2018.

15 May I have a motion please.  
16 Legislator Gaylor and seconded by Legislator  
17 Drucker.

18 MS. LAURAIN: Mary Ellen Laurain,  
19 Department of Health. I'm speaking on the  
20 Health Department items which are two. I  
21 think there are two items you have under  
22 that. Item 293-18, my first item, is a board  
23 transfer in the amount of \$1,798. This is for  
24 our Sexually Transmitted Disease Program and  
25 it is to maximize grant reimbursement.

1 Health - 7-23-18

2 LEGISLATOR WALKER: The  
3 legislators have any questions for  
4 Ms. Laurain?

5 MS. LAURAIN: My second item is  
6 item 293-18 as well and it's a supplemental  
7 appropriation. It's in the amount of  
8 \$654,813. This is for our Emergency  
9 Preparedness Grant. This is funded through  
10 New York State Department of Health as a  
11 federal pass through money and it is for our  
12 Emergency Preparedness Program in the  
13 Department of Health.

14 LEGISLATOR WALKER: Any  
15 legislators have any questions for  
16 Ms. Laurain? Any public comment on those two  
17 parts of clerk item 293?

18 MS. RUSSELL: Britney Russell  
19 from the Nassau County Land Bank. The  
20 appropriation here is for the reimbursement  
21 from the Nassau County Land Bank Corporation  
22 to the Department of Housing, Community  
23 Development, Homelessness Intervention and  
24 Emergency Placement. This is a reimbursement  
25 for my full salary and benefits so that there

1 Health - 7-23-18

2 is no cost to the county associated with the  
3 expenses from the land bank. That's it.

4 LEGISLATOR WALKER: Any questions  
5 or comments from the legislators? Any public  
6 comment on that part?

7 MR. BRODERICK: Good afternoon.  
8 Paul Broderick, Department of Social  
9 Services. We have two items incorporated in  
10 the appropriation of the appropriations. One  
11 is for \$275,000 from New York State Department  
12 of Education for the Summer Food Service  
13 Program. And an additional \$27,500 for Office  
14 of Temporary Disability Assistance for  
15 Metrocards for our summer youth employment  
16 program.

17 LEGISLATOR WALKER: Any questions  
18 from the legislators for Mr. Broderick? Any  
19 public comment on that section? We're good?

20 MR. HALL: Brian Hall, Human  
21 Services. This is an appropriation of  
22 \$107,102 from New York State Office of  
23 Alcoholism and Substance Abuse Services. It's  
24 a one time increase for costs associated with  
25 capital project and 100 percent funded by New

1 Health - 7-23-18

2 York State.

3 LEGISLATOR WALKER: Any questions  
4 or comments from the legislators? Any public  
5 comment? Just so everyone understood --  
6 Mr. Budnick.

7 MR. BUDNICK: John Budnick. I'm  
8 inquiring with regards to the termination of  
9 the existence of Topic House. About ten years  
10 ago, under a prior administration, and whether  
11 any funds might be available to recreate that  
12 facility either there, which I doubt would be  
13 feasible, or another location so there is  
14 someplace inpatients in Nassau County where  
15 drug abusers particularly can obtain help,  
16 which they used to up until 2008 from  
17 approximately 1962 be able to do at the  
18 Michael M. Petito Topic House. Which was in  
19 the Plainview property over just south of Old  
20 Country Road and just west of Round Swamp  
21 Road.

22 And apparently for various reasons  
23 that facility was no longer funded. There was  
24 no funding for their rent and they were  
25 dispossessed by Mr. Wang when he owned the

1 Health - 7-23-18

2 property without the county defending that  
3 lawsuit I understand. Thank you.

4 LEGISLATOR WALKER: Thank you  
5 Mr. Budnick. Any other public comment? All  
6 those in favor of clerk item 293 signify by  
7 saying aye. Any no's. Any abstentions? This  
8 will move on to Finance.

9 Clerk item 350-18 is a resolution  
10 to increase public awareness of substance  
11 abuse services in the county of Nassau by  
12 establishing a 24 hour substance abuse  
13 hotline.

14 A motion made by Legislator  
15 Schaefer and seconded by Legislator Lafazan.

16 Who is speaking on this item? Do  
17 we have anyone speaking on this particular  
18 item?

19 DR. REYNOLDS: Good afternoon.  
20 My name is Dr. Jeffrey Reynolds. President  
21 and CEO of Family and Children's Association  
22 based here in Mineola. We serve the residents  
23 of Nassau County for 133 years, and most  
24 germane to this conversation we run two  
25 licensed chemical dependency treatment centers

1 Health - 7-23-18

2 one in Hicksville and one just up the block in  
3 the heart of Hempstead.

4 Very happy to see these two items,  
5 number 350 and 352 of '18 on the agenda  
6 today. One creates a hotline where folks who  
7 are struggling with substance abuse disorders  
8 can get connected with services. The other  
9 actually creates an app, which Suffolk County  
10 has had for some time, to help young people  
11 connect up with services.

12 You've heard a little bit earlier  
13 on from the police commissioner and the Nassau  
14 County Police Department has done a great job  
15 on this issue that we are beginning to make  
16 some headway in the fight against opioids  
17 heroin here in Nassau County. Specifically  
18 we've begun to see a drop in overdoses. When  
19 we look back at this my guess is that we're  
20 going to see that we are at the tipping point  
21 right now and we know that one of the key  
22 components of a good plan to address is not  
23 only the law enforcement piece, not only  
24 prevention, but making sure that folks have  
25 access to both information and access to

1 Health - 7-23-18

2 treatment.

3 The hotline does that. Some of you  
4 might look and say don't we have a few hot  
5 lines floating around the county? In fact, we  
6 do. But we don't have any hot lines that go  
7 beyond the simple provision of information.  
8 That is you call a number. You say I live in  
9 Hicksville. They give you the two closest  
10 chemical dependency treatment centers and we  
11 all close our eyes and hope for best and hope  
12 you get there.

13 This model is different because it  
14 actually uses licensed clinicians who can walk  
15 you through the process from beginning to end  
16 and make sure that you actually follow through  
17 and get there.

18 To give you a sense, Suffolk County  
19 moved forward with a plan along these lines a  
20 year and a half ago and to date more than 100  
21 folks have been connected with treatment with  
22 follow-up care as part of that repertoire.

23 The app is another issue. As we  
24 look at the average age of the onset of  
25 substance use disorders here in Nassau County

1 Health - 7-23-18

2 and elsewhere, we know that we are not doing a  
3 good job of reaching that 16 to 25 year old  
4 cohort, which is where we are seeing the most  
5 rapid increases. We know we are not reaching  
6 that cohort because we are still using old  
7 school ways of reaching out to them. Things  
8 like brochures and well meaning seminars and  
9 those kinds of things. We know that young  
10 people spend the bulk of their time, for  
11 better or worse, on their phones. Yet we  
12 haven't done a good job of using technology to  
13 get them into treatment, to give them  
14 information about overdose prevention or to  
15 give them the basic facts about substances  
16 including alcohol.

17 We support these two initiatives.  
18 We think they're part of an overall plan. I  
19 would note that we have not asked and not  
20 asked the legislature nor the county to spend  
21 a huge amount of money to respond to this  
22 crisis. The crisis now more than ten years  
23 old. We know that last year alone between  
24 Nassau and Suffolk we lost 600 more Long  
25 Islanders. This could be the year we see a

1 Health - 7-23-18

2 drop in those numbers. We want to make sure  
3 that happens.

4 The app and the hot line will go a  
5 long way towards making that a reality. It's  
6 something that we thank Legislator Lafazan for  
7 taking the initiative around this. We know  
8 that this is an important part of the county's  
9 overall plan. There should be a plan. We  
10 know that if we want to continue to reduce  
11 those deaths we've got to make sure that we're  
12 dealing with this problem from a law  
13 enforcement, point of view from a prevention  
14 point of view. And for heavens sakes we've  
15 got to make sure that we're getting those  
16 folks into treatment and helping them be more  
17 successful.

18 Thank you Legislator Lafazan for  
19 taking the initiative on this and thank you to  
20 all of you for your anticipated support.

21 LEGISLATOR WALKER: Before our  
22 police commissioner speaks I'm going to add,  
23 since you touched on it already, let's have a  
24 motion for clerk item 352-18, which is a  
25 resolution to develop a smart phone

1 Health - 7-23-18

2 application for substance abuse and  
3 information and resources in Nassau County.

4 Again, Legislator Schaefer and  
5 Legislator Lafazan motion for that. Thank  
6 you. Now we have our police commissioner.

7 COMMISSIONER RYDER: Good  
8 afternoon again. We've met with Legislator  
9 Schaefer and Legislator Lafazan. We looked at  
10 both items that need to be address from the  
11 police department side and the county IT  
12 side. We think it's a great product to help  
13 us. As you just heard from Dr. Reynolds we  
14 are at that tipping point. We need to keep  
15 pushing harder against our fight against  
16 opioids and heroin. These two items are going  
17 to help us do both of them.

18 I have had discussions already with  
19 the forfeiture committee to the police  
20 department. We are meeting next week and we  
21 don't believe there will be any cost to the  
22 county to get these two items. We'll pay for  
23 that out of forfeiture money. Those again,  
24 are part of our commitment. Now that our  
25 academy is moving in the right direction we're

1 Health - 7-23-18

2 going to keep pushing all these items  
3 forward. So thank you very much for that.

4 MS. KROLL: My name is Terry  
5 Kroll. I lost my son to prescription drugs  
6 addiction and eventually a heroin overdose in  
7 2009. Before Timothy died he decided that he  
8 would speak out and report the drug dealing  
9 doctor that led him down this horrible path.  
10 For that I will be eternally grateful to  
11 Timothy for helping to bring this horrible  
12 disease to life in the public.

13 I think that this bill is so, so  
14 important because ten years ago when Timothy  
15 lost his life we couldn't find help. We  
16 didn't know where to go. If I had a piece of  
17 paper and a pencil to write a phone number  
18 down on I was lucky. The idea that we're  
19 going to have an app that somebody can click  
20 on their phone to, which obviously everyone  
21 does these days, is phenomenal. Just the idea  
22 of being able to get clinicians on the phone  
23 24 hours a day to help a family who has a  
24 loved one suffering from this disease is  
25 phenomenal.

1 Health - 7-23-18

2 The police department is  
3 unbelievable when it comes to working in this  
4 field. When Timothy reported Saji Francis in  
5 the beginning of 2009, he died in August of  
6 2009, and by December Saji Francis was one of  
7 the first doctors arrested because of the  
8 Nassau County Police Department. So,  
9 obviously I'm eternally grateful for that.

10 I've worked for the past eight  
11 years in order to bring this horrible topic to  
12 light. There have been people working in this  
13 field for years and nobody knew where they  
14 were and nobody knew how to get them. Now I'm  
15 seeing the change. I never saw a stigma for  
16 drug addiction until people started talking  
17 and then I saw the stigma. And I saw how many  
18 people were not willing to come out and talk.

19 So, I thank Josh very much for this  
20 bill and I'll cry at the idea of my son's name  
21 being on this bill. So thank you very much  
22 Josh. Thank you.

23 LEGISLATOR WALKER: Any  
24 legislators?

25 LEGISLATOR LAFAZAN: Thank you

1 Health - 7-23-18

2 madam chairwoman and of course thank you to  
3 our police commissioner, who I believe is the  
4 greatest in our nation. 62,000 American lives  
5 were lost in 2016 due to substance abuse. As  
6 Presiding Officer Nicoletto so eloquently  
7 mentioned in his inaugural address, this is  
8 the equivalency of a Vietnam War every single  
9 year.

10 Though we are buoyed by positive  
11 news from our police force in terms of  
12 progress in this fight against addiction, we  
13 know that this disease continues to wreak  
14 havoc every single day in communities across  
15 Nassau County. That is why these two bills  
16 are more important now than ever.

17 Before I begin, I just want to  
18 thank my colleague and friend Laura Schaefer  
19 who has demonstrated her tireless commitment  
20 to not only helping those suffering from  
21 addiction but was a essential in bringing  
22 these two bills to fruition.

23 Folks, we know recovery is real.  
24 We know the recovery is a miracle. We know  
25 that 23 million Americans are currently

1 Health - 7-23-18

2 demonstrating that recovery does not hinder  
3 our citizens from living prosperous and  
4 healthy lives. But in order to enter recovery  
5 you first have to get the help you need. And  
6 for too many people these days, like my friend  
7 Jeff Reynolds says, finding help is still a  
8 lot harder than finding heroin.

9 The first bill, a 24 hour hot line  
10 dedicated specifically to substance abuse will  
11 make a discernible and immediate impact for  
12 residents who suffer from addiction.  
13 Actually, as it stands already, Suffolk  
14 County's 24 hour hot line currently fields  
15 calls from our neighbors right here in Nassau  
16 County.

17 The ability to have a trained  
18 substance abuse professional on the other end  
19 of the line to make on demand treatment  
20 referrals is an effective way to we can fight  
21 back against addiction. And Suffolk County's  
22 hotline, where nearly 1,000 people have called  
23 and approximately 58 percent of callers  
24 connected were confirmed in services, can and  
25 will work right here in Nassau.

1 Health - 7-23-18

2 Moreover, this bill mandates a  
3 texting future for young people who may be  
4 hesitant to make phone calls, and of course  
5 enjoys the support of our police commissioner,  
6 our county executive and our commissioner of  
7 Health.

8 Lastly, of course, this bill is  
9 personal for me as it will be named Timothy's  
10 Law, after the late son of my personal hero  
11 Terry Kroll, who lost his courageous battle  
12 with heroin in 2009. Terry turned her grief  
13 into advocacy becoming one of the very first  
14 civilians trained in Narcan and has been a  
15 driving force for legislative change up in  
16 Albany.

17 The second bill, establishing an  
18 app for smartphones for young people, will  
19 also serve as a crucial tool in our fight  
20 against addiction. Statistics show that  
21 addicts are formulating habits at younger and  
22 younger ages and social media platforms like  
23 Facebook are becoming obsolete for youths in  
24 Generation Z. We have to reach them where  
25 they are. And we know for sure that they are

1 Health - 7-23-18

2 on their smart phones.

3 This bill mandates a zip code  
4 searchable database for nearest treatment  
5 centers, will contain a comprehensive list of  
6 resources, will have a calendar of Narcan  
7 trainings and will connect to both the police,  
8 in case of an emergency, and our 24 hour  
9 hotline if passed today.

10 I thank every legislator on this  
11 committee. Of course I thank Legislator  
12 Schaefer for her partnership, and I thank you  
13 all for your unwavering support on behalf of  
14 fighting this epidemic and I humbly ask for  
15 your affirmative votes for both bills. Thank  
16 you.

17 LEGISLATOR WALKER: Legislator  
18 Schaefer.

19 LEGISLATOR SCHAEFER: Thank you.  
20 I'm starting to like these millenials a little  
21 bit more. I want to start by thanking you  
22 Legislator Lafazan and Dr. Reynolds and Ms.  
23 Kroll who is here today. Everyone who is here  
24 today, I can't imagine anyone wouldn't be  
25 supporting this because it is such an

1 Health - 7-23-18

2 important and difficult issue that this entire  
3 county has been dealing with.

4 Also want to thank our commissioner  
5 who is always very supportive. Our police  
6 department. Everybody out who is out there  
7 fighting this battle with us.

8 I think this is a great bill. I  
9 think that having somebody on the other end of  
10 that phone who can ask the right questions,  
11 who can maybe keep you on the line a little  
12 bit longer if you're not sure you want to make  
13 the call or take that second step is really,  
14 really important. I think that will make the  
15 difference for some people. I certainly hope  
16 that it will.

17 And the app for the younger  
18 generation, for all of us we sit here, not  
19 here and text but outside of here, we all are  
20 on the computers and on the phones and we all  
21 have that at our fingertips. And it certainly  
22 is a way for somebody who is afraid or  
23 uncertain and when you're dealing with  
24 addiction and dealing with trying to face your  
25 demons, to be able to just take a step by just

1 Health - 7-23-18

2 clicking on your phone and maybe taking that  
3 second step after is amazing and it's an  
4 opportunity that I don't think we should pass  
5 up.

6 We are always considering funding.  
7 If it comes out of asset forfeiture that would  
8 be great. Regardless, this is an important  
9 issue. If with we can cover it that would be  
10 fantastic. Anyway, just want to thank  
11 everybody for their support on this.

12 LEGISLATOR WALKER: Legislator  
13 DeRiggi-Whitton.

14 LEGISLATOR DERIGGI-WHITTON:  
15 Terry, I want to applaud you. Every time I  
16 hear you speak, whether it be in front of the  
17 legislature or at Narcan training the whole  
18 room stops and listens and I applaud you for  
19 finding your strength. And also think it's  
20 the nicest and most important legacy you can  
21 give your son. The number of people you have  
22 helped is countless already and you're  
23 amazing. Thank you for all you do.

24 LEGISLATOR WALKER: Any of the  
25 other legislators? I do have one thing that I

1 Health - 7-23-18

2 have to add to it though. We're trying to do  
3 every single thing possible. I thank you all  
4 for your input to help us to know what else we  
5 can do. We say that our smartphones, kids,  
6 they're texting the kid sitting next to them.  
7 So this is their lifeline. Very different  
8 than us. Although I'm to the point that I  
9 don't know why I have a land line phone in my  
10 house either because the only one whoever  
11 calls me is telemarketers.

12 But I just so happen to -- many  
13 times over the year, over the months, over the  
14 weeks, this past weekend had someone reaching  
15 out to me for help. When I know that they can  
16 get into the medical center and be kept there  
17 for five days but only to know that the  
18 methadone clinic has a 30 day wait is very  
19 disturbing for me. I think those are all  
20 issues we have to face too and we have to work  
21 on doing much better.

22 As Mr. Budnick brought up before,  
23 there aren't enough beds, aren't enough places  
24 for those who are suffering with addiction to  
25 get them into a safe place to make sure that

1 Health - 7-23-18

2 they get the treatment that they need. And we  
3 have to keep fighting to do everything we  
4 possibly can to make sure we continue to do  
5 that. So, I thank you for all your efforts  
6 here today. And anyone else? No one else has  
7 anything?

8 LEGISLATOR DRUCKER: Thank you.  
9 I also want to echo a lot of these comments.  
10 I don't want to belabor it. I'm so proud to  
11 be colleagues and big brother on the  
12 legislature with Josh over here, because he's  
13 been a strong advocate for this crisis for a  
14 number of years even before he arrived here.  
15 His passion about it has been infectious as  
16 you can see because there's a bipartisan  
17 effort here.

18 What Dr. Reynolds indicated and the  
19 commissioner about this being a tipping point  
20 now is so important. And you know what also  
21 Terry you said the difference now is that  
22 there's a conversation. It used to be  
23 hushed. There was a stigma and things have  
24 changed. I think a lot of it has to do with  
25 our outreach and people like you Terry.

1 Health - 7-23-18

2 Unfortunately the motivation was not what we  
3 wanted. But the point is that you have caused  
4 and a lot of people have caused a conversation  
5 to take place now what used to be behind close  
6 doors and now it's in the forefront. And  
7 because it's in the forefront people are  
8 willing to roll up their sleeves and get  
9 things done.

10 This is another example of it now.  
11 We're making inroads. For those of us who are  
12 not millenials it's a great idea. It's a  
13 further effort to really tackle this problem  
14 and it resonates with me personally and with  
15 I'm sure the rest of my colleagues that we are  
16 at a tipping point here and we need to be  
17 really vigilant about it, conscientious and  
18 proactive.

19 Again, I congratulate my colleagues  
20 on the legislature, my buddy here Josh and  
21 let's get it passed.

22 LEGISLATOR WALKER: Any other  
23 legislators? Any public comment? Mr.  
24 Budnick.

25 MR. BUDNICK: To all the members

1 Health - 7-23-18

2 of the Nassau County legislature, my highest  
3 compliments to each and every one of you who  
4 has had anything to with any of this stuff.  
5 My highest compliments to the commissioner, to  
6 Dr. Reynolds.

7 I need to stop going to funerals of  
8 young people who die of overdoses. About ten  
9 days ago we had news of six overdoses just in  
10 the Massapequa area. Including one person who  
11 overdosed three times because they kept  
12 letting him out of the Nassau County Medical  
13 Center, go home and overdose some more. We  
14 need to address this problem. There is a  
15 communications problem and that hotline will  
16 help.

17 I pray, I hope and I am so proud of  
18 each and every one of you, the good  
19 Dr. Reynolds, Terry, who suffered horribly but  
20 used that suffering to work to make the system  
21 better for people who are caught in the throws  
22 of addiction and are being destroyed and are  
23 looking for somebody to reach out and help  
24 them. You're doing that. God bless you one  
25 and all. I can't say enough wonderful things

1 Health - 7-23-18

2 about you. Thank for putting up with me.

3 LEGISLATOR WALKER: Thank you  
4 John. All those in favor of clerk items  
5 350-18 and 352-18 signify by saying aye. No  
6 nays. No abstentions. These will both go on  
7 to Finance. Thank you all. That is something  
8 to cheer about. The reason isn't something  
9 but us moving forward certainly is.

10 We have one item on the addendum,  
11 so I need a motion to suspend the rules by  
12 Legislator Kennedy. Seconded by Legislator  
13 DeRiggi-Whitton. All in favor? Any opposed?  
14 Any abstentions? No. Okay. The clerk item  
15 is clerk item 448-18 which is an ordinance  
16 supplemental to the annual appropriation  
17 ordinance in connection with the health  
18 department.

19 MR. PERSICH: Andy Persich,  
20 Office of Management and Budget.

21 LEGISLATOR WALKER: I need a  
22 motion for that too. Motion by Legislator  
23 Gaylor. Seconded by Legislator Drucker.

24 MR. PERSICH: This is the annual  
25 appropriation from the New York State Homeland

1 Health - 7-23-18

2 Security for the SHIP Grant and it's given to  
3 multiple departments in the county. This  
4 portion is going to Health for equipment and  
5 contractual services.

6 LEGISLATOR WALKER: Any questions  
7 or comments from the legislators? Any public  
8 comment? All those in favor of clerk item  
9 448-18 signify by say aye. Any no's? No  
10 abstentions. Moves on to Finance also.

11 That is our last item but before I  
12 want to thank Ms. Laurain and certainly the  
13 entire health department for all their  
14 information in the latest weeks with our  
15 beaches closing. I know it's been a rough  
16 summer for you, a rough summer for our bathers  
17 who couldn't go in those beaches. But let's  
18 hope for better weather to come. So thank you  
19 so much.

20 We have a motion to adjourn. Moved  
21 by Legislator Schaefer. Seconded by  
22 Legislator Kennedy. All those in favor of  
23 adjourning signify by saying aye.

24 (TIME NOTED: 4:21 P.M.)
