while. First we have, as we always do, recognition of December's Top Cops. That'll be followed by a number of points of personal privilege and then public comment. If you intend to provide public comment, we just ask that you come to the Clerk's Office up here, which will be, from your perspective, to the left, and please fill out a form, and then you'll be called during the public comment portion of the meeting.

So to start things off, my privilege to introduce PBA President Tom Shevlin for the Top Cop presentation.

MR. SHEVLIN: Good afternoon, happy holidays to everybody and thank you so much for having us. I'm going to introduce Police Officer John Patterson, who is the corresponding secretary to speak about December's Top Cop.

MR. PATTERSON: Thank you, Tommy. Good afternoon, County Legislators. Thank you for having us.

officers in Nassau County with an award. This month is very special to me. I worked with Wayne in the Fourth Precinct a long time, and he's a great friend, great cop, great husband, great father, and I just want to tell you a little bit about his story.

Police Officer Wayne Resnick is assigned to the Fourth Precinct in Nassau County. Prior to getting assigned to the Nassau County Police Department, he was assigned to Communications Bureau and then the Correction Officers. He's been a member of the Nassau County workforce since 1994. Wayne has served the County residents for a number of years. In the Fourth Precinct he received numerous citations and awards and displayed bravery on multiple occasions.

In April of 2022, this year, Wayne was unfortunately diagnosed ALS, Lou Gehrig's disease. A tremendous blow to not only his family, Trish, his five beautiful children, but to his whole

workforce and friends. Sorry. The coverage that Wayne has displayed is second to none. Since the diagnosis, he's been brave, he's been his humorous self. He greets everything with humor and he's just one of the funniest guys I ever met, and that has not changed.

Bravery can be displayed in many different ways, especially for a police officer who's willing to lay down their life. Wayne has displayed it even more so since the diagnosis. He continues to fight on, he continues to never give up, and that's why we thank you for honoring him today. Thank you (applause).

MR. SHEVLIN: Thank you, John. I know normally when we give a Top Cop award it's for bravery, it's for one incident, most of the time it's for a great arrest, for great work that we do. This is a little bit different, but we wanted to highlight this police officer. Has always served people. He's always done anything possible to help others. He

risked his life every day and night that he went to work. We want to show today that we are all here to support him and his family during this very difficult time and for that reason we are honored that Police Officer Wayne Resnick, is our Top Cop for December 2022 (applause).

POLICE COMMISSIONER RYDER: afternoon and thank you, once again.

Every month we stand here and you so graciously recognize our heroes. Our heroes that are willing to put their lives on the line. This is no different today. Wayne is a hero. When is a hero that went out there and served the people of Nassau County unwavering. He's also a hero to his wife and five children, and I just made a new companion in James over there (indicates). He goes out and did right by his family.

When he got sick, there was an accommodation made at the precinct so he can come to work, not go home. He came to work. Even heroes sometimes need help.

But what all of you don't sometimes realize, and I know it goes back and forth up there at that table. What you do for all of us and law enforcement is because mental health, welfare and everything that you've put forward in your bills to recognize what the men and women go through, well, we're going to stand by our hero today. You've stood by our hero today. We'll stand by the family and will continue to do as long as they're in need.

Again, thank you for always recognizing our heroes.

OFFICER RESNICK: I want to thank you all for honoring me today. It means a lot and I appreciate it (applause and standing ovation).

Legislature and a perfect choice for the PBA's Top Cop.

Officer Resnik, you have served county and your community well and we will always be indebted to you. You are blessed with such a wonderful family and being a member of the Nassau County Police Department. You will always have the support and friendship of these many officers, as this is not an easy road you have before you. To your wife and children, you know you can count on these officers. They will always be there for you, no matter what happens.

And I just want to say, Officer Resnick, we are proud to honor you as Top Cop for December, but also I think that you should deserve the honor of being a Top Cop for 2022. God bless you. Thank you.

Thank you, Officer Resnick.

Minority Leader Abrahams.

LEGISLATOR ABRAHAMS: I just wanted to again express our appreciation on behalf of Nassau County residents to Officer Resnick. As you all know, when we present our Top Cops every month, we get to see what our officers are doing exemplifying their bravery and being courageous, but today we get to see the human side of it. As I listened to Officer Resnick and I'm looking at the family members that are here, it's important that we see our officers do a great job every single day serving the

people in Nassau County and then many of our officers have to deal with the human aspect of what goes on in their home. And Officer Resnick wouldn't be able to be here today, so I want to give a big round of applause to his family and to his wife for being so supportive over those years for what he's been able to do. Because Nassau County officers, it's not easy to do what they do, but you need a very supportive, strong family to be able to go out there every day and serve other people other than your family. So let's give a big round of applause to the Resnick family as well (applause).

And to you, Officer Resnick, as I said before, thank you for your service and God bless you. I know there's going to be much courageous days that come up, and I wish you nothing but the best. God bless you, sir. Thank you again.

DETECTIVE KELLY: Good afternoon, everybody. I am Chris Kelly, the first vice president of the Nassau County Detectives. I wanted to thank all the legislators for always honoring our members. Thank you, Presiding Officer Rich Nicolello, for organizing this today.

Knowing what a huge issue catalytic converters thefts have been in Nassau County. The hard work over the last year is a massive accomplishment by some of our Asset Forfeiture detectives. Those detectives are Kenton Lock and James

Tobin. All the hard work was led by our great Commissioner, Patrick Ryder, who will speak a little bit more on that.

POLICE COMMISSIONER RYDER: So this is an ongoing case. So it's a little different than normal speaking about it, about what was in the news. We can tell you what was in the papers, but there's an ongoing part to this. But what the two detectives did over the past year, when every day we'd be up against cat-con thefts that were going on. They were in the background running this investigation. And it was done out of the Asset Forfeiture and Intelligence side. A lot of intelligence that went into it. This business did over a \$100 million worth of of thefts and decanting, as they call it. The two detectives on top of an analyst that's not here today, Amanda, they data-mined it constantly. Watched the flow and kept pushing and pushing and pushing until they got to that conclusion. Six search warrants, \$7.2

million in cash, hundreds and hundreds of cat-cons. Both ones that have already been stripped and ones that had not been stripped yet. There's been three cases around the country. This was the largest. We believe this is going to change and end all of your headaches, as well as mine, from the phone calls that come about the crimes that are happening. If anybody is out there bringing a cat-con to any of our yards, thanks to the legislation put forward by this Legislative Body, we will be going after them now. Because they turn a blind eye to a 19 year-old kid who walks in with 10 cat-con but presents his ID. That's what he was asked to do. Well they're not doing it due diligence and because of that we're going to continue the investigation. They're not going to say nothing but thank you because they'll get themselves in a position for the court purposes. But I can't thank them enough for the time and effort that they put in

DETECTIVE LOCK: Thank you very much happy. Have a happy holiday.

We've seen in Nassau County that the theft of catalytic converters has skyrocketed. affects all our neighborhoods. understand how difficult it is to prevent these thefts because it can be done so quickly with common tools. So thank you, on behalf of all of our residents for the work that you've done, along with the entire Police Department, as well as our Commissioner, who's been on top of this from the beginning (applause).

LEGISLATOR FORD: I too want to express my gratitude for the hard work and the dedication and your diligence effectively with these arrests and the capture of these people that are behind the catalytic converter thefts. So all of you, you deserve great honors. I know we can't go into it too much. But I guess on behalf of everybody here in Nassau County and especially the residents in Long Beach, I want to say thank you very much.

I do want to point out that as a result, because these people did live in our fair city, we have here with us today, our City Manager, Donna Gayden, our City Council President, Karen McGuiness and John McNally, who also is part of the administrative staff here in the City of Long Beach. On behalf of the residents of Long Beach and all the residents of Nassau County, we wanted to thank Commissioner Ryder, the Detective Department, our unsung heroes, and the entire Police Department for their tenacity and professionalism in making this bust. We think this sends a loud message that the Nassau County PD and its residents won't stand for this type of behavior or business in our home towns.

Again, thank you to the Nassau County Police Department, not just for your effort, but you're ongoing partnership with the Long Beach PD and all you do to keep Nassau County residents safe. Thank you.

LEGISLATOR DRUCKER: Thank you, Presiding Officer. I just wanted to say that it never gets old up here honoring you guys and the bravery and all the wonderful things you do. It never gets stale or old. But what's refreshing and what the upshot of today is your message is resonating to the residents in the county wide, because all of us get phone calls, I'm sure, about this problem in all of our districts. But what we're doing today is we're sending that message out that you guys are on top of it, and that's really what our constituents want. They call us to say, what are the cops doing about it? Well, we now can show them what you're doing about it. We can't get into detail, but the fact that we're here today to talk about it means that the message is getting out and I want to thank you for that.

I want to thank you for the time that you put into this and giving it the attention it deserves.

I do agree with Legislator Drucker this is. It's a great message, but not just to our constituents saying that you know our cops are on top of it as you are, but it's a message to the bad guys. Right? You come into Nassau County, you do this kind of this kind of stuff, you're going to get caught, and that's because of the leadership of Commissioner Ryder and each and every one of you.

life to the sport, first starting at Herricks High School, the New York Institute of Technology and for several years professionally. You then joined the college coaching ranks, where you have enjoyed success over the past 12 years, including as a pitching coach at US Merchant Marine Academy since 2019 and helping lead the team to become the champions of 2021 Skyline Conference, the first in academy history. As a Long Islander and lifelong resident of New Hyde Park, you have also given back to the community serving as a volunteer, a mentor and many students leagues providing thousands of pieces of equipment to underprivileged youth so they can enjoy the game.

Besides this latest achievement, you have received many other awards as a player, coach and humanitarian continuing to promote the game of baseball every step of the way. Today we have another one to add to your collection.

Lou, please accept this Point of Personal Privilege award on behalf of all residents of Nassau County. We are so proud of you. Congratulations. Thank you, Lou. Come if you want to say anything.

MR. BERNARDI: First of all, thank you so much, Legislator Pilip, I consider you a dear personal friend, and it's a tremendous honor to be here today. Also, it goes without saying, Presiding Officer Rich Nicolello, our friendship goes back many, many, many years, and thank you for allowing the ceremony to be here today.

I don't know if everyone heard, but the reason I'm here is I just got inducted into the New York State Baseball Hall of Fame (applause). So I'm going to be going into the Hall of Fame in the class of 2023, and I would be remiss if I didn't just mention a few people that are here with me today: Friends and family, representation from the United States Merchant Marine Academy, and one of the main reasons why I'm getting inducted

this year, who I'll talk about in a minute or two, and obviously my fiance, who's been with me every step of the way. She gives me the strength to do these things. So I'm very grateful for them to say the least.

Since I was announced a few months ago, I've had the honor and privilege to speak to various individuals on various different platforms, but the one consistent question that remains the same is: What does it mean to actually be in the Hall of Fame? What does it mean? You all could ask that same question to yourself: What does it mean to be a legislator? The people behind me can ask the exact same thing. What does it mean to be a police officer? And at first, I'll be honest, it made me realize most about my personal achievements, my personal accolades, I played professional, but that's all selfish at the end of the day. It wasn't until I spoke to, I'll call him my sponsor, my

advisor and the reason why I'm getting into the New York State Baseball Hall of Fame and he's with us here today, Ray Negron, from the New York Yankees, who was the one who wrote the letter to the President and the Committee on my behalf. It wasn't until I really spoke to him that I realized why I was getting in. Now playing and coaching achievements are great, but it's such a small fraction that paints the whole picture. And the main reason was, as Legislator Pilip said, strengthening relationships, supporting communities and, most importantly, leaving a legacy. And I'll answer the question one more time and then I'll end here. What does it really mean to be in the Hall of Fame then? What does it really mean? To be honest, it means absolutely nothing. It means absolutely nothing. And it means nothing because if I don't use my voice, it means nothing, because if I don't use my platform for the better good and continue

to be a role model for the next generation, then it means nothing. It means nothing. If I take advantage of it, it means nothing. If I let this title get to my head, it means nothing if I forget where I came from. So for those reasons, as far as I'm concerned, the easy part is over. The hard part now is living up to this prestigious honor and representing the Hall of Fame, and continue to do what I've been doing for the next several years to come.

So, with that, I do thank every one of you for being here today. A special thanks to Legislator Pilip, Legislator Nicolello. Thank you, both, for your friendship. I wish everybody up there happy holiday and, most importantly, a happy and safe New Year. So thank you.

LEGISLATOR SCHAEFER: Thank you, Presiding Officer. Good afternoon, everyone.

I am here today to talk about my honoree, Dave Bernacchi. If you want to come up to the microphone and I don't know if your volunteer wants to come up as well, she doesn't have to, but she can, Denise.

So Dave Bernacchi is the founder and president of Pets4Luv Foundation. Dave and I met because I live in a building, a condominium building, and we had a couple of stray cats living outside of the building and they were living out there winter, spring, summer, fall; not a life for a cat. I happen to be a person. I like cats. I'm not a crazy cat lady, but I have a cat. Dave's not a crazy cat man. He's just got a tremendous heart. So I reached out to Garry Rogers, who heads up the Nassau County ASPCA. He put me in touch with Dave. Dave came to our building and he helped to trap the cats.

So I asked him what he does, what is program involved. They trap and release some cats, but they trap the cats. If they're sick cats, they get them medical care. They get every cat spade and neutered if it's not already. If the cat needs vaccinations, they get vaccinations. All the money comes from donations to his foundation or I'm going to venture to guess out of your own pocket. You don't have to admit to that, but I bet you it does so.

When Dave and I were speaking one day he said, maybe you can help me out with something. I said sure, what is it? And he said I've been trying to get in touch with the county because I have an idea. He said, myself and my volunteers do some work in the county sumps. He said we help control the feral cat colonies and the sumps, which I don't know if you knew you had. I said, no, I didn't know that. Nobody ever complains to me about feral cat colonies in sumps, maybe

couches in sumps, but not that. So I said, what do you want to do? And he said I know we're doing this and probably illegally, and we shouldn't be in there, he said, but this is what we do. And I said, okay.

Well, we put together a meeting. We spoke to the County Attorney's Office, we had DPW involved, Department of Health, and Nassau County ASPCA so we could cover all bases and make sure whatever they wanted Dave to abide by and his volunteers, what rules needed to be followed he would do that. We came to an agreement. Then we met with the County Executive, who I want to thank very much for being open to doing this. We have a pilot program now called Community Cat Management Initiative. Dave and his volunteers started with five sumps that they knew had colonies in them. He told me the first sump that he started in Hicksville had about 33 cats when he started. Now they're down to 18 because

they are able to catch, they take and can

be socialized and they get adopted out.

Right now he just has cats in foster

homes. They had a brick-and-mortar in the

Source Mall, but when the new owner came

in, they kicked him out. So he is looking

for another place to have a shelter

because they run out of foster homes.

Like I said, they started with five

sumps. There's two more that have been

added, so we're going to amend the

agreement. There is no money. He's not

paid by the County at all. Everything

comes, like I said, from donations.

So I just wanted to say that I just think you're amazing in what you do. You

really dedicate your life to this

mission. And I think it's important

because it does help the community. It

keeps that population under control. I

know you've said even older cats, there's

a sanctuary they can go to, if need be.

I just think that it's amazing and I

wanted to honor you today for that. I

also wanted to thank, like I said, the County Executive for being open to this and for making this happen. And it's a pilot program, if anybody has any questions for Dave, I think he's going to speak a little bit. Thank you.

MR. BERNACCHI: I want to thank you very much for all the help and being there and making this successful. And I'd also like to thank Mr. Blakeman for stepping up and helping us finalize everything. Because not too many people understand the the problem, the horrific problem we have all over, including Nassau County, of the community cats that are out there. And we use the term community because you know there's cats that are born outside. Unfortunately, we need stronger laws, but there's too many people that just decide they don't want their cats any more and just throw them out. People see a colony and they figure nobody's going to notice one more cat. And that's basically what Pets4Luv does

is all the community cats, the sick and the injured, especially the ones that get, you know, put out of a house, they don't know how to survive out there. Our average medical bill runs about \$5-7,000 a month because these cats don't know how to survive, they starve, they get attacked by the other cats.

It's just such a major step forward and there's just so many people to thank for this. Laura Schaefer and Mr. Blakeman, the top two of making such headway. I've been always saying it's everybody working together to help solve the problems.

And we're saving I can't tell you how many cats and, as Laura had stated, every sump we can usually reduce by 50% of the cats that are out there. It's a safe area. And once they set up the feeding stations, the houses, it keeps them in there. They're comfortable, they have food, they stay off the streets. They're not as much of a problem to the

neighborhood. There's less illnesses and sickness. We do have several sanctuaries that we deal with because a lot of the senior cats that we find that just can't survive out on their own can go to these sanctuaries to live out their life. The injured ones we take in. We give them all the medical care. Most of them end up having to be adopted because they can't go back out. There is a small percentage that there's just no way to keep them, so they go back to where we placed them.

But it's just such an honor to be here and such an honor to have this for I just want to let you guys know, I appreciate everything and hopefully the laws and, like she said, my biggest holiday wish, because I have been based on Nassau forever since 2008, I'd really like to stay here, but my holiday wish is that we can get the County or somebody to help us get a building so we can do it right. With a building like when we had it, it's a matter of saving thousands

You know where you can pick a charity and all your purchases make a donation to the charity of your choice. So I switch to Pets4Luv as my charity. So if anybody's willing to, every little bit helps. Thank you (applause).

MR. BERNACCHI: Thank you very much. PRESIDING OFFICER NICOLELLO: Minority Leader Abrahams.

LEGISLATOR ABRAHAMS: Thank you, Presiding Officer. So my point of personal privilege is for the Uniondale Fire Department, the Roosevelt Fire Department and Sanitation District 2.

the achievements in what they were able to do with the Freeport Fire Department. Some of you may remember, in early in November there was a terrific fire in Roosevelt where all three departments worked together to try to ensure the safety of the residents that were at that home. The Roosevelt and the Uniondale Fire Departments responded quickly and promptly. I have to say not just because they're my fire departments in my legislative district, but they are one of the most bravest fire departments that I

know. It seems like the fires that occur

in Uniondale and Roosevelt seem to be of

a very high degree of unsafety and they

constantly go in and and recognize the

fact and put there put the residents

lives first.

But then also I want to recognize Sanitation District 2, because there were several firefighters and my good friend for probably about almost 20-25 years, Carl Dehaney, is here to accept on behalf

If folks from Sanitation District 2, Uniondale Fire Department, Roosevelt Fire Department, please come up. I want to be able to give you the opportunity and the recognition.

As I said before, we are very appreciative of what you are able to do. I know Chief Ellerbe is here and several members again from Sanitation District 2 as well as from the other fire departments, but thank you again for your courageous department putting the resident's lives first before their very own lives. But thank you again, appreciate you very much. Chief, if you would you like to say something?

We'd like to thank you for representing us, Legislator Abrahams, and we'd also like to thank you for recognizing us. This fire that we responded to was horrific, like you said, and it was a very rough day for us. There were a lot of departments that responded and it was a tough day for everybody. So we would like to thank you for supporting the fire service and just to remind you all, we're all volunteer.

I'd like to introduce you to the people that are here today. We have firefighter Melendez from Roosevelt, we have ex-Chief Cameron Peek from Uniondale Fire Department and we have ex-Captain Luis Depaz-Rodriguez who is also our supervisor for our EMS program in Uniondale. MR. DEHANEY: Good afternoon, men and women of the Legislature, my name is Carl Dehaney. I'm the chairman of the Board of Commissioners for Sanitary District 2. I'm joined with Keith Eckles who is our general supervisor, as well as Joe Brown, who was the actual supervisor on duty, who was the supervisor on duty who jumped into action on that particular day. I just wanted to say thank you and give our appreciation to you, Legislator Abrahams. For recognizing Sani 2 in the middle of this.

What I will say is Joe embodies everything that the district is. Joe was just doing his job on that day and happened to see what was happening and jumped into action, and I can honestly say that that would be the same for anyone in our district. So I just want to just thank you and take this time to thank you for the appreciation, a round of applause for Joe for what he did on that particular day. Thank you (applause).

LEGISLATOR ABRAHAMS: Well, thank you, Carl, and thank you, Joe. I know Joe was here a month ago when Legislator Mule and myself recognized him as well, but we just want to thank you again for your tremendous involvement in our community. Making sure our community is safe and clean and obviously, everything that you do with the sanitation district. I do have citations here, Presiding Officer. Would be remiss if I did not take note of the fact that in the last election one of our own was elected as New York State Senator and will be beginning his duties as January 1, 2023, our loss, he will not be serving here any more. He'll be going on to bigger and better things.

PRESIDING OFFICER NICOLELLO: Legislator from the 19th district is not recognized (laughter).

But honestly, keep up the good work. I think this was a well-deserved win for you and I think that you'll do well up in Albany, serving not only your senate district but as well as, once again, all the people in Nassau County. So good luck with everything, and you will be missed (applause).

You have demonstrated -- this is my seventh year in the Legislature, and I can honestly say, in seven years, you have always treated each and every one of us with civility and respect, and you represent how politics should really be. We don't always agree, in fact, we rarely agree, but that's not the point. The point is is that you've demonstrated how a legislature can operate in a civil fashion. You have been a dedicated legislator in all these years that I've known you, and I do wish you the best of luck up in Albany.

I do say it from a personal standpoint, and actually, it's not a personal standpoint, I think, from our side of the aisle, we thank you. Because our legislative sessions are now going to be considerably shorter (laughter).

Thank you.

MR. CHITTY: Sorry for the interruption, I just really wanted to say you really quick, Steve. Thank you so very much for your assistance. Over the years we've had a lot of different challenges, but we've always been able to get past them. I truly appreciate all the support, yourself and your colleagues in the legislature. We look forward to working with you with your new position.

LEGISLATOR FERRETTI: So I may know Steve longer than anyone up here. I'm not sure because prior to Steve moving to the dark side and the plaintiff side, he was actually a defense attorney and in the law firm I'm currently at. Through my father I met Steve at a very young age. We used to go to Met games together and and other things. So I've known him for a very long time and I was probably like eight or nine and you were like 50 (laughter). But you know I want to thank you, Steve, like Legislator Lafazan you took me under your wing. Even before I ever thought about running, I would see you at things and you say you should really run. You would be good. that to heart. You took me under your wing. You showed me a lot. I would say that hopefully one day we'll serve again together, but if you're sticking around

PRESIDING OFFICER NICOLELLO: Legislator Giuffre.

LEGISLATOR GIUFFRE: You didn't think you'd get away without me saying something. I learned from you, Steve. So thank you. I've only known you for a year as a legislator, but I do remember meeting you when you first ran in that special election. We walked some in your district, my friend. But thank you. It's been an education and you've been a good teacher. So thank you very much. I wish you well.

LEGISLATOR RHOADS: How do you feel? Your fingers okay (laughter). Start that three minute clock.

special. You know, when I got here I used to tell Norma Gonsalvez that it took me a long time to get here, so I wasn't going to wait trying to learn the ropes and everything, getting involved in stuff. know that that was difficult at times. But I want to thank each and every one of you for your guidance in teaching me how to be a more effective legislator and in teaching me how to be a better person.

Getting the chance to work here for for Nassau County, getting the chance to meet some amazing people from the folks down in the copy room, to all of our employees and all the various agencies, to the folks that work here at the Legislature who truly do amazing work. I don't think the public gets the opportunity to see how much energy, how much passion, and how much dedication the employees of this county have to the people that they serve. And it's truly been an honor for me to have the chance to work with you, the chance to represent

To my colleagues here on the Legislature and especially to the colleagues and the Executive Branch that we've had the chance to work with over the years, I can't say thank you enough, not only for what you've done for me but for what you do in your individual districts and what you mean to to Nassau County. A lot of times we get to battle back and forth, but every one of you is passionate and dedicated to Nassau County and to the people that you serve. The disputes and the debates that we have are always in the best interests of the people of Nassau County, even if we may not agree on the path we all agree on the goal, which is to make sure that the people of this county are served as well as they can be served. I'm looking forward to the opportunity, whether our districts touch or not, I'm more looking forward to the opportunity to be able to work with each of you to benefit Nassau County in the future.

We still have some meeting left and there's some business to do. But I just want to say a quick word of thanks. It's been an honor and a privilege for me to get the chance to serve with each of you and thank you for what you and all of Nassau County's employees do on a daily basis to keep us safe, to keep our county successful and to serve our citizens. God bless you. Was that okay? Oh, the three meet clock never started (laughter).

I would like to offer my public

comments with regard to outgoing

Legislator Stephen Rhoads, incoming State

Senator, it has been a pleasure working

with you, knowing that you are one who is

committed to service. I think the first

time I met you we were standing outside a

house of a veteran after Sandy, and it

was an elevated house and you stood there

that day and committed yourself to being

of service to the many who are

underserved and unheard in this county.

So we do wish you well and we do look

forward to working with you. And ideally,

for those of you who don't know that, my

primary focus is always on communities

that are underserved, but my priority is

for our veterans. It's our hope that you

will be a driving force to bring actual

resources, much-needed resources, to our

veterans and our military families who

are struggling here in Nassau County, and

it's important that we address that and

bring that to the table, particularly

We don't see too many of the elected officials attending unless it's right before an election, but you stepped up and you showed up. We just want you to know that we appreciate you and we're looking forward to working with you. Happy holidays to all. Trust me, even though this is birth month, I will be kinder and gentler, but I'm not leaving just yet. Thank you.

PRESIDING OFFICER NICOLELLO: The Clerk has asked me to acknowledge that Legislator Lafazan is here. He was here, he spoke.

MR. MCKENNA: Good afternoon, Kevin McKenna, Edna Drive, Syosett, New York.

Thanks to Kevin McKenna, thanks to myself, Police Commissioner Patrick Ryder is being forced to reply to his FOIL request regarding two Nassau County police supervisors who are in fact moonlighting as defense attorneys with unfettered access to police department databases, and if they use the Police Department databases to assist their client, that is a felony every time that they did it.

I hope this doesn't fall on deaf ears. I've provided you all with a hard copy for the record.

Next topic. In early October, hand delivered a letter to the office of the Nassau County Commissioner of Health, Doctor Irina Gelman, notifying her that the Town of Oyster Bay demolished a zombi home, clad in asbestos at 6 Hyman Drive in Farmingdale, New York. I wrote that the Town of Oyster Bay took no asbestos mitigation procedures before demolishing this home, resulting in asbestos dust covering adjacent properties and upon completion it improperly and legally buried aspects shingles in the yard.

I lastly requested Dr. Gelman, ask County Executive Bruce Blakeman and Town of Oyster Bay Saladino to terminate the

demolition of some homes until federal guidelines regarding the safe demolition of buildings containing asbestos material are followed.

On October 21st, I received an unsigned letter from the Nassau County Department of Health, Gelman, stating that they're in receipt of my letter and they have forwarded it to the New York State Departmental Labors' Asbestos Control Bureau for follow up an investigation. We don't even know if Dr. Irina Gelman, the Commissioner of Nassau County Health, we don't even know if she saw the letter; she didn't sign it. Unfortunately, this unsigned letter did not even state that Nassau County would be investigating this. The Asbestos Control Bureau that she allegedly sent this to has never contacted me. I'd like to ask, especially the legislators in the Town of Oyster Bay if you're going to investigate this.

PRESIDING OFFICER NICOLELLO:

I have also tried to get a meeting on a different topic with both the Democrat and Republican Board of Election Commissioners. As a poll worker I saw systematic problems that need to be addressed, not publicly, but I would like to make them aware of what I learned and saw in that position. I've been calling them. I've been in person to request meetings. When I go in person I have the date and time stamp that I'm there so I can prove I've been there asking for an appointment. No callbacks. It doesn't happen.

I'm a little upset this morning having seen the officer's family because it brings me back to a time, and if Robin is still here, she knows what I'm speaking of. I went to a park in

For many years, she stayed involved, sending me to the state representatives that I needed help with, to the federal people that I needed to contact with regards to this person's status in the country. And I would like to say to Mr. Abrahams, thank you. Thank you for having someone like Robin who cares, and I hope that there'll be someone here that will help me to get heard on these other matters.

issues: Downtowns, housing, walkability, small business infrastructure, human needs, and there's a whole series of recommendations coming out of that that will get to you guys. We're also going to carry the work through the ears. Lots of civics and chambers were part of the effort as well.

Just a couple of highlights:

Walkable streets. We been working with AARP on a whole slew of improvements throughout Nassau County, and Long Island. I want to think Rose Walker, Laura Schaefer also for Hicksville improvements. Debra Mule in Baldwin, Siela Bynoe in Hempstead, Delia DeRiggi-Whitton for some of the recommendations and improvements up in Glen Cove and in her district. And many of you too. I'm sorry if I'm missing you guys. Walkable streets is important. We used to work with Sean Salli and Ari Lemberger (phonetic) in the department. We need to continue those relationships

moving forward. So we'll need to connect you guys in those areas. But there's a lot of money to improve our roadways. That's one.

Marketing our downtowns. Big issue, a lot of money and tourism never makes it chambers. Really important that we do more that get the dollars directly to the chambers to promote their district. So we did a lot of that on our own. We're going to be calling on the State to pull some of those dollars in and get them directly to the communities. Stay tuned on that.

Similar with doing direct outreach to businesses to get dollars that are available in various grant programs, we have a guy on our staff, Muslino Sylvia (phonetic), who works with us Long Island Main Street Alliance going door-to-door. Three out of four people don't know some of these programs exist. So it's a real issue as far as outreach. We've talked about this before here at the Leg (sic)

and I know you guys are doing outreach too, your offices, but we just need to keep doing it.

We're working with Nassau Chambers, South Asian Chambers, Hispanic Chambers, African-American Chamber, Peruvian Chamber, whatever local chambers, we work with these guys door-to-door so stay toned on.

We've talked with some of you guys and fielded some of your guys calls and communities about what's next at the Nassau Hub. We hope there's public meetings and openness about what is happening next to the Nassau Hub. We've gotten a lot of calls on that one.

And the last one I want to end with, and I have 42 seconds, is a big issue that you guys all stepped up on last year with New York State trying to impose local zoning or take over local zoning in municipalities across the island. They want to do it again. It's a problem, and they're low balling what we have produced

as far as multi family housing across Long Island. They're saying we've only produced 6200 units of multifamily housing in 12 years. That number's over 20,000. So we're working with Long Island Builders Institute to crosscheck all those numbers. But we know it's a whole lot more than what they're saying. We know we need to build more affordable units. We know we need to plan better and work with local communities. We know the north shore could do a little more, but planning is from the bottom up and not from the top down from Albany. So we need your help in that this year. We'd like to work with you guys closer in the coming year on this issue and many others. Look forward to Steve Roads going to Albany. We've talked about this housing issue with the State kind of getting involved

great holiday.

PRESIDING OFFICER NICOLELLO: You too. Meta Mereday.

MS. MEREDAY: Meta J. Mereday. will be brief as long as everybody plays nice. I'm hoping we can go into 2023 with a stronger focus, but ideally we need to have some questions answered, particularly as it pertains to redistricting. We were told by the Presiding Officer, and it was on the record, that resident would have a viable, legible map that we can see ahead of time, not maybe 10 minutes before you meet and vote for it. To provide some questions in input for those who showed up at those meetings in the cold, in the rain, it clearly is an issue that residents are up in arms about. So I'm hoping that we can take it seriously.

I'd also like to have some kind of record -- if I can't get it, maybe Newsday can do some kind investigative report for the number of settlements that

are listed on an ongoing basis in the agenda. We need to have some kind of accounting at the end of the year. Literally how many settlements? What is the amount of these settlements that have been paid out for various and sundry activities that the County has decided to compromise and settle? We need to know that.

So distracting is one. If somebody could possibly give us some answers, that would be greatly appreciated because, unfortunately, that situation will be going to court. I was hoping we didn't have to go that route, but but it's true.

Lastly, as I said previously with regard to veteran services, we had an opportunity here, with me being on the White House Office of Public Engagement, to get first-hand information about what was happening with the PACT bill (sic) at the beginning of this year. We could have moved on some things that could have situated our veterans and their families

a lot better.

The gentleman that spoke earlier about looking for a space for the pets, think about Nassau University Medical Center. Animal therapy is something that's a great asset for our veterans that are struggling. You've got nothing but space there. You got nothing but opportunity there. Some of the key components of the PACT bill (sic), healthcare staff and claim processors, received toxic exposure, related education and training. That's funding. Our current staffing at the Veteran Services agency does not have the capacity to take on this new amount of work. With regard to the PACT bill. The Act requires research on mortality of veterans who served in various aspects: Gulf War, Post 9/11, et cetera.

There's federal funding. Again, a research and development facility -plenty of space at the medical center. It builds stronger skilled workforce. Again,

funding available to make these things happen. The Act authorizes 31 new medical facilities across the country. Why can't it be here? We brag about being one of the largest veteran populations in the Northeast corridor, why don't we have the resources that are available to us?

And I will wrap-up before anybody says anything to me, because you told Mr. McKenna to sit-down, but you let Mr. Alexander kind of go on a little bit. So I'm going to wrap it up. But I'm going to say this: We need to step up. That's why I'm wearing this hat that is emblematic of the Tuskegee Airmen. It's about rising above. They had to rise above in World War II, when African-Americans served in hundreds of thousands, including Hispanics, Native Americans, and they fought for a double victory: Victory in Europe and victory at home. We collectively made sure that there was a victory in Europe, but we're still in 2022 trying to get victory in equity and

MS. FELDER: I just didn't want to take up too much time. I just wanted to put on record the documents that I left for review which are submitted claims by ETS that were altered after submission by workers at Nassau County Department of Social Services, indicating the balance due. I also left documentation, evidence that the clients were removed out of the shelter under false pretense. I left documentation from the Director Office of Community Development requesting a viability report and indicating that we needed our 501C3 reinstated and now they won't speak to us. We have an outstanding

1 seconded by Legislator DeRiggi-Whitton. 2 Any debate discussion on Item 12? 3 (Whereupon, no verbal 5 response.) 6 PRESIDING OFFICER NICOLELLO: Hearing none, all in favor, signify by 8 aye. (Whereupon, all present 10 members of the Nassau County 11 Legislature respond in favor.) 12 PRESIDING OFFICER NICOLELLO: 13 Carries. You can invite Legislator 14 Rhoads back into the chamber. 15 We have two more items on regular 16 account and then we have some emergency items and a couple of other things that 17 18 we need to do. 19 Item 19, Resolution 235. A 20 resolution to authorize the County 21 Attorney to compromise and settle the 22 claims of the County of Nassau against 23 the proceeds of a performance bond 2.4 relating to a license agreement between 25 the County of Nassau and Carlton on the

All in favor of Item 19 signify by saying aye. 10 (Whereupon, members of the 11 Republican Deligation respond 12 in favor, 12.) 13 PRESIDING OFFICER NICOLELLO: Those opposed? 14 15 CHIEF DEPUTY COUNTY EXECUTIVE WALSH: 16 Arthur Walsh, Chief Deputy County 17 Executive. The attorney, Andrew Scott, 18 who was working on the file is out ill 19 today, so Maria Boultadakis should be in 20 the building any second now. She is on 21 her way over. 22 PRESIDING OFFICER NICOLELLO: So the 23 vote was 12 votes in the affirmative and 2.4 five opposed. So the Item passes by a vote of 12:5. 25

1 2 Item 20, Resolution 236. A 3 resolution authorized the County Attorney to compromise and settle the claims of 5 plaintiff as set forth in the actions Old 6 Brookville Residence versus the County of Nassau. Motion by Legislator Walker, 8 seconded by Legislator Giuffre. Any debate or discussion about this item? 10 (Whereupon, no verbal 11 response.) 12 PRESIDING OFFICER NICOLELLO: 13 Hearing none. All in favor of the item 14 signify by saying aye. 15 (Whereupon, all members of 16 the republican delegation 17 respond in favor, 12). PRESIDING OFFICER NICOLELLO: 18 Those 19 opposed. 20 (Whereupon, members present 21 for the Democratic delegation 22 respond opposed, 5). 23 PRESIDING OFFICER NICOLELLO: So 2.4 that's another vote of 12:5. Item 25 passes.

1 2 We have a procedural resolution 3 which is Resolution 18 as to procedure, it's a resolution to establish a calendar 5 for meetings for the Legislature for the 6 calendar year 2023 pursuant to the County Government law of Nassau County. Motion 8 by Deputy Presiding Officer Kopel seconded by Legislator Ford. 10 So this is just a item that sets the 11 calendar for next year's legislative 12 meetings both Full Legislature and 13 Committees; any debate discussion? 14 (Whereupon, no verbal 15 response.) 16 PRESIDING OFFICER NICOLELLO: No 17 public comment on the calendar item. 18 All in favor, signify by saying aye. 19 (Whereupon, no verbal 20 response.) 21 PRESIDING OFFICER NICOLELLO: 22 opposed? 23 (Whereupon, no verbal 2.4 response.) 25 PRESIDING OFFICER NICOLELLO:

Carried unanimously.

Now we have an emergency calendar as well. So there are a number of emergency items today. These include Clerk Items 395 through 403-22. They relate to levying of charges for the construction or reconstruction of sidewalks and demolition, clearing and securing of unsafe premises for both the Towns of Hempstead and Oyster Bay. With the permission of the minority, I would ask that a formal reading of the emergency declaration into the record by waived pending an examination or an explanation from the Department of Assessment as to the nature of the emergency and the underlying items themselves. Motion by Deputy Presiding Officer Kopel, seconded by Legislator McKevitt, to establish the emergency. Do we have representatives from the Department of Assessment. This is as to the emergency.

MS. ESTIS: Yes. Hi. Good afternoon, Karen Estis. Department of

1 2 Assessment. PRESIDING OFFICER NICOLELLO: What's 3 the nature of these items? MS. ESTIS: For the sidewalks and 5 demolition? 6 PRESIDING OFFICER NICOLELLO: Yes. 8 MS. ESTIS: These are charges. If a sidewalk is broken or cracked or whatever 10 and the homeowner hasn't repaired it, 11 then the County must repair that, and so 12 this is the charge for that. 13 The Town of Hempstead has five 14 installments, the Town of Oyster Bay does 15 not. So they give them five years in the 16 Town of Hempstead to pay. 17 PRESIDING OFFICER NICOLELLO: Let me 18 ask you this, we were told that this had 19 to be considered at this meeting. 20 MS. ESTIS: Yes, because it has to 21 get on the 2023 general tax. 22 PRESIDING OFFICER NICOLELLO: Would 23 just explain that a little bit more. MS. ESTIS: I'm sorry. What would 2.4 25 you like me to explain?

1	
2	PRESIDING OFFICER NICOLELLO: What
3	does that mean?
4	MS. ESTIS: It has to go out as a
5	part of the general tax bill.
6	PRESIDING OFFICER NICOLELLO: All
7	right. Thank you.
8	Legislator Drucker.
9	LEGISLATOR DRUCKER: Just a quick
10	question: Is there any correlation
11	between these tax levies and the County's
12	responsibility to repair or replace
13	defective sidewalks on county roads?
14	MS. ESTIS: These are for private
15	private residences.
16	LEGISLATOR DRUCKER: But there are,
17	at least in my district, there are a
18	number of private homes whose backyard
19	abuts or is adjacent to county roads that
20	are in poor condition. Does any of these
21	tax levies correlate to that?
22	MS. ESTIS: No.
23	LEGISLATOR DRUCKER: Can you answer
24	why?
25	MS. ESTIS: I don't have the

1 2 information right now to answer that. 3 LEGISLATOR DRUCKER: I really am curious as to the answer. Could you 5 provide? MS. ESTIS: Okay. I will research 6 that for you and I'll get back to you. 8 LEGISLATOR DRUCKER: Thank you very much. 10 LEGISLATOR FORD: Hi. I would like 11 to know that answer too, because I have 12 properties that also that can pose as a 13 great risk to some of our students 14 traveling along Lido Boulevard. 15 But on the tax levy on this one, is 16 this the one where we're granting the 17 permission for the Town of Hempstead and 18 the Town of Oyster Bay to include these 19 charges on the resident's tax bill? It'll 20 be under their taxes, it's not a special 21 levy levied by the County. It won't be on 22 the County tax bill, but on the Town's. MS. ESTIS: That's correct. 23 2.4 LEGISLATOR FORD: Thank you. 25 LEGISLATOR WALKER: And just to

1 verify so any of these are homes that in 2 the front of their home is a County road. 3 MS. ESTIS: I'm sorry. I really can't answer that. There's a number of 5 residences there. 6 LEGISLATOR WALKER: But there are 8 bills that would then go on each town's tax bill. 10 MS. ESTIS: Yes. 11 LEGISLATOR WALKER: Say if the 12 sidewalk in front of my house, I didn't 13 repair it. The Town would then come in 14 and repair it. Then charge me on my tax 15 bill. 16 MS. ESTIS: That's correct. 17 LEGISLATOR WALKER: And you're going to let us know about the homes that have 18 19 rear properties that are on County roads. 20 MS. ESTIS: Absolutely. That's 21 important, I think, to all of us, because 22 we all deal with that issue. 23 MS. ESTIS: Okay. Will do. 2.4 PRESIDING OFFICER NICOLELLO: 25 Legislator Ferretti.

25

LEGISLATOR FERRETTI: Hello.

So, just for the sake of clarity, all we're doing today is allowing the Department of Assessment to allow the towns get back the money that the towns laid out to repair sidewalks that residents failed to repair, right?

MS. ESTIS: Correct.

LEGISLATOR FERRETTI: So nothing that we're voting on today has anything to do with county roads, correct?

MS. ESTIS: Correct.

LEGISLATOR WALKER: I apologize, that was my error. I realize it was all town roads. But that other issue is very big to all of us, so it's important for you to get back to us about that.

MS. ESTIS: Absolutely, I have it written down and I'll get back.

LEGISLATOR WALKER: Thank you.

LEGISLATOR DRUCKER: Going to say one quick thing. Thank you, Presiding Officer. Thank you, Legislator Ferretti, because I wasn't clear about that either.

1					
2	So every one of these tax levies for				
3	repairs that have already taken place by				
4	the County?				
5	MS. ESTIS: Yes.				
6	PRESIDING OFFICER NICOLELLO: Town.				
7	MS. ESTIS: Town.				
8	LEGISLATOR WALKER: Right. Thank				
9	you.				
10	PRESIDING OFFICER NICOLELLO: Anyone				
11	else?				
12	(Whereupon, no verbal

14	PRESIDING OFFICER NICOLELLO: Thank				
15	you very much.				
16	MS. ESTIS: Thank you. Have a very				
17	nice holiday.				
18	PRESIDING OFFICER NICOLELLO: You				
19	too.

emergency -- I'll just give a little background. This comes in very late, so what happens is we have to do a crash course on getting all the information from Assessment to us and putting it in the format and the substance of format that we have. There's no other way around this. I wish there was, but it's always going to be established by emergency, I think, at the last meeting of the Legislature. So if you have any questions about it, it's a standard procedure that

PRESIDING OFFICER NICOLELLO: questions?

we do annually.

Legislator DeRiggi-Whitton.

LEGISLATOR DERIGGI-WHITTON: I want to thank you, Andy. I got a call from Glen Cove. We're one of the areas that are not sewered; at least some of our home owners, 140. So I think you just avoided a lot of problems by addressing that prior to the tax bills going out.

One more item of business and that is in addition to our Legislator Rhoads were also going to be saying goodbye to Kevin Long who was served with distinguish this County for 30 years. He provides IT services to the Legislature. Kevin has been available to all of us on a moment's notice. We have his personal cell. He responds immediately. Every technical issue that this County has dealt with in terms of these meetings, throughout the pandemic and, thereafter, Kevin has a handled with a tremendous amount of skill and professionalism, under tremendous amount of strain.

On behalf of myself and am sure others will want to speak, Kevin, thank you very much for your incredible service to this county. We appreciate it and we will definitely miss you.

Kevin Long, Rich knows this, I think was probably just me and Rich. I don't know anybody else that was over in the old building -- and Denise. We started in the old building. We've known Kevin for a very, very long time and he's always been prompt. He's always been diligent in getting us back up and running, especially when some of the problems that we were having on our computers were self-created. I feel like over the last few years I mean just being in this place now -- I don't know how long I've been here, 22 years -- I just feel like I'm not just losing colleagues, but I'm losing friends. I know we're not losing you, per say, but we're looking forward to your retirement. I'm looking forward for your next chapter in your life and you enjoy that. And I just at wish you nothing but success. God bless you, Brother. You've been a good guy and that's very hard to find. Keep it up and look forward to hearing from you in the

LEGISLATOR FORD: I too, Kevin, want to wish you good luck and you are going to be missed. And yes, when we came over from West Street over to here it was a big job getting all of these screens up running. We didn't have this technology in One West Street were like little, tiny little room or something. So here we are a much bigger room. But also with our offices, the TVs put in, whatever. So there's a lot of hard work on your part and you were able to help us transition into this new environment and it was a big undertaking for everybody, especially those in IT. But you've always been a good friend. You've always been very friendly, always available. Yes, Kevan, I'm one of those people that many a time I realized I did something wrong and like and want to cringe behind my desk. But you're always very polite to try to give me a better answer so I didn't have to feel like I should be ashamed of what I

LEGISLATOR WALKER: Kevin, I just want to thank you for always being there for all of us. I know my office had reached out to you very, very often and and sometimes we had some real issues up there to try to get it resolved. But somehow we always made it happen together and you were such an asset to us always. And everything you did was with a kindness and caring and your compassion with just our work here and anything that involved issues here, but also with all our families and everything. And I just wish you the very, very best of luck and I hope you enjoy your retirement and if you decide to go on to something else, the best of luck with that. But enjoy the

LEGISLATOR DRUCKER: Kevin, in my seven years, I consider you a chronological contemporary. So there's nothing that's more appreciated than when someone makes you feel that you're not an idiot. There have been countless times as Presiding Officer just said of turning things on, and Denise, you and Kevan have also made points too. As the Presiding Officer indicated, you give us your personal cell number and I've called it numerous times and you pick up the phone, you respond by text, and it's so gratifying, it's so comforting, and so reassuring. Especially during -- we had to get on Teams meetings during the pandemic and, God Almighty, sometimes that was a little challenging when you weren't around or you weren't in a certain place and you are so patient with

LEGISLATOR KOPEL: You know how to use it, don't you (laughter).

MR. LONG: Is it on, do you hear me (laughter)?

I have actually gone all this time without actually being on the record ever and now on my last day.

Thank you all very much, very kind words. I appreciate it. It's been a pleasure and an honor to have worked with you, some of you for a matter of months, some of you for a number of years, some of you, one of you from the election of the first legislature through today. But I appreciate it. Thank you very much. You

LEGISLATOR RHOADS: So moved.

I already said my last piece, but I do want to say -- sorry -- I do want to say a big thank you to Sandy VonRunnen.

Who has been my aide for for the last eight years, and we'll be moving over to the, to the Senate with me. She, Mike Lynch, Brandon VonRunnen, a list of people have, despite my efforts to make their job more difficult, have always tried to make me look good.
