CLERK PULITZER: We have a quorum,
Ma'am.

CHAIRWOMAN FORD: All right.

We'll now start with the Pledge and I'll ask Minority Leader Abrahams to lead us.

(Whereupon, Pledge of Allegiance is said.)

CHAIRWOMAN FORD: Thank you. It's going to be a little rocky today. I'm going to warn you from the get go, because this is brand new to me.

So we're going to start with A-7-23, a resolution authorizing the Commissioner of Shared Services to award and execute a blanket purchase order between the County of Nassau and Ocean Marine industries.

Can I have a motion? So moved by Legislator Walker and seconded by Legislator McKevitt.

Associates CPAs, PC.

We're going to start with A-7-23 Ocean Marine Industries. Do we have somebody here from the Police Department? Good afternoon.

INSPECTOR FIELD: Good afternoon. William Field, Inspector with the Police Department. Item A-7-23 is to authorize an award purchase order for a dive handheld sonar system for the Nassau County Police Department's Marine Bureau. The maximum amount authorized under this purchase order is \$134,080. And this

\_

would assist our Marine Bureau in both search and rescue operations as well as recovery operations and any types of incidents where we need to try to locate something underwater.

CHAIRWOMAN FORD: Do we have this already? This sounds like very something very new, this sonar system.

INSPECTOR FIELD: We have a system that actually currently works off the side of a vessel. This would be a handheld, would give more mobility and also get into areas closer to land that the divers can actually handhold in order to see things.

CHAIRWOMAN FORD: Wow. Okay. You know, it goes under water, correct?

INSPECTOR FIELD: Yes.

CHAIRWOMAN FORD: And how many are we -- is it just one or are there more than one?

INSPECTOR FIELD: It's just one.

CHAIRWOMAN FORD: Just the one. Wow.

Any other questions?

INSPECTOR FIELD: Item E-30. William Field, Inspector with the Police Department.

Item E-30-23. This is an amendment to a contract with the Police Department for support services for domestic violence, sex abuse and child abuse with the Safe Center. We are looking to extend the contract for an additional year and increase the maximum amount to \$250,000.

CHAIRWOMAN FORD: Any questions from the legislators?

CHAIRWOMAN FORD: Okay. Item E31-23, Gartner Inc. The Comptroller's Office.

MR. CASOLARO: Good afternoon. behalf of the Comptroller, I'm Charlie Casolaro, Chief Counsel to the Comptroller.

As the Committee is aware, Nassau County is engaged in a project to change its financial software system, and Gartner is the second contract. There will in probably be three contracts.

Right now we have a contract with Plante Moran to help us develop the RFP and our needs for the new system Gartner will take up from when Plante Moran finishes. After we award the RFP and a vendor is chosen and a contract is assigned, Gartner will help us with the integration and migration of that new software system. It's a good contract. Gartner has been used by the County before. They're used by other municipalities throughout the state, and

we recommend its approval. They are a needed vendor.

CHAIRWOMAN FORD: Legislator DeRiggi-Whitton.

LEGISLATOR DERIGGI-WHITTON: Hi. Are we going to own the software or are we going to lease it or how --

MR. CASOLARO: We're going to own it?

LEGISLATOR DERIGGI-WHITTON: Okay. So when we need upgrades are we're going to have to go back to the same provider?

MR. CASOLARO: That's undetermined. We're putting together the RFP and we're working through that issue. I don't have a definitive answer.

LEGISLATOR DERIGGI-WHITTON: So just by going in past history, I think that should be something that we should address because a lot of times, you know, as things happen in this industry, especially, they get outdated very quickly.

MR. CASOLARO: Yes.

MR. CASOLARO: I agree.

LEGISLATOR DERIGGI-WHITTON: maybe before we agree to go forward with them, we can work out those details.

MR. CASOLARO: I have Deputy Comptroller Elizabeth Hill here, maybe she can address that better.

MS. HILL: First of all, the consultants have been telling us that most of the type of software we would be looking for would likely be a lease. And we're talking about an extended lease, not the normal five years that I guess the County goes with, because you don't want to do this every five years. But definitely this will be the issue.

Once we have the responses to the RFP, we will have to discuss them and

come back with the approval for the selected proposer. But pretty much the the standard these days is a lease.

LEGISLATOR DERIGGI-WHITTON: technically, we won't own the program?

MR. CASOLARO: We own the software.

MS. HILL: No. Unlikely.

MR. CASOLARO: Oh. I misspoke. Sorry.

LEGISLATOR DERIGGI-WHITTON: Okay. So we won't own the software. Okay. Again, I know you're still in the process of the RFP, I would try to address that now. Because we've all seen it in different departments where that's what comes back as the problem, that we don't own the software, we're dependent upon this company and now all of a sudden they want to charge us five times what they did.

MS. HILL: I think this is a discussion we should have when we select the proposer. Because the industry standard is that it's a lease, it's in

the cloud, and they do the maintenance so that it changes kind of the dynamics with regards to the IT Department. We've discussed this with the IT Department. They're aware of it. We're going to be working with the top vendors in this area because of the size and complexity of Nassau County. There's a lot of reasons why you would want it to be a lease and with their maintenance and with their updating, the updating for the variety that we have. We have many GASB statements coming along that are going to need adjustments and we want someone there to do it on time when we need it.

LEGISLATOR DERIGGI-WHITTON: again, I go with what you think as far as the lease or ownership, but I think that the time to put it in is now with the RFP. Because what's going to happen is you're going to come to us for approval and then we're going to ask about that, and they're going to say, well, it wasn't in the RFP, so we can't address it. I've

just been here too long because we've seen it so many times.

MR. CASOLARO: Understood. We'll review that.

LEGISLATOR DERIGGI-WHITTON: Yeah, I would definitely. That's like a real sticking point. And now is your time of leverage because you haven't done the RFP yet and you haven't committed to a company.

MR. CASOLARO: No, we have not. We are in the process.

LEGISLATOR DERIGGI-WHITTON: Once that's done, we can't go back and revisit it.

I'm asking you to try to address the ownership of the software -- and I'm fine. A lease is fine if that's what -but as far as updates and maintenance and everything else, now is the time, believe me, to address it. We've been here too many times where we our backs are up to the wall; what can we do? We have to pay this "X" amount because we don't own it

and they're the only ones who can upgrade it.

MR. CASOLARO: We are in the process of reviewing that type of material. The software is so old that it's not able to be upgraded, it's not able to be really integrated. So we're in the process. That's a material element to the RFP.

LEGISLATOR DERIGGI-WHITTON: I'm not saying you shouldn't do this, I'm in favor of you upgrading whatever you have to, but just in the RFP, please make sure for your own peace of mind in a year or two that those issues are addressed.

MR. CASOLARO: We will.

LEGISLATOR DERIGGI-WHITTON: Because again, we've been here numerous occasions. And we don't like that, because a lot of times I honestly feel that we're paying a lot more for upgrades than we even did for the initial system sometimes. This is the time. You can't wait till after the RFP is answered. Absolutely not. Because if it's not

CHAIRWOMAN FORD: All right. U-1-23 Calabrese & Associates CPAs PC. Public Administrator, please.

MS. MCCARTY: Good afternoon and thank you to Chief Officer Ford and the Nassau County Legislature for having us today. I'm Meagan McCarty and I'm the Deputy Public Administrator of Nassau County.

The Public Administrator's Office is required pursuant to Surrogate's Court Procedure Act 1208.3 to conduct an annual audit of the office by an independent certified public accountant. This audit must be filed with the Surrogate, the Attorney General of the State of New York and the New York State Comptroller.

Thank you so much for considering this.

CHAIRWOMAN FORD: Legislator DeRiggi-Whitton.

LEGISLATOR DERIGGI-WHITTON: How many bids were received for this? MS. MCCARTY: We received one.

CHAIRWOMAN FORD: All right. Item E-33-23, Truview BSI, LLC; and then E-35-23, Laboratory Corporation of America Holdings. Good afternoon.

MS. OWEIS: Hi, good afternoon. Joanne Oweis, Deputy County Attorney on behalf of the Department of Social Services.

The first item, 33-23, is a five year contract with Trueview. They provide welfare fraud investigative services to the Department of Social Services. They were selected pursuant to an RFP that was issued last year; RFP 1003-2239.

These services are required under New York State Social Services law to be provided to the County. It's to investigate potential fraud and criminality with respect to benefits provided by Social Services.

CHAIRWOMAN FORD: So basically, this is to investigate possible fraud. Would it be amongst individuals, companies or --

MS. OWEIS: Yes. Individuals, people that come into Social Services to receive benefits.

CHAIRWOMAN FORD: How do you sometimes identify the people that you would investigate? Is there like a trigger or something that you could catch?

MS. OWEIS: I think one of the investigators would probably be better suited to answer, but I think they look for irregularities in the information provided to Social Services and they issue subpoenas to get more information, to confirm or deny. They provide surveillance, a lot of different investigative techniques.

CHAIRWOMAN FORD: That's very interesting. Anyone else? Legislator Bynoe.

LEGISLATOR BYNOE: Hello.

MS. OWEIS: Hi.

LEGISLATOR BYNOE: So what is the performance benchmarks for these

individuals?

MS. OWEIS: So what happens is with those cases, they're the cases that are going to be like large felony matters. And the things they investigate go into three categories I've been told: Cost avoidance, DA recovered, and DA referral. And the money saved -- the DA referral cases I think the benchmark for DA referrals now is I think believe up to a \$10,000 if they think that it's going to be a fraud, \$10,000 or above, it gets referred to the DA's office. Otherwise, it gets handled internally within the within the County's office. They've been able to do recoveries that exceed the amount that we spend on the contracts year over year. This is a new contract, but this is the vendor that was providing services for the past five years.

LEGISLATOR BYNOE: And so outside of the daily rate of the investigators, what other expenses are borne to this contract?

MS. OWEIS: Just the daily rate. It's an all in daily rate for the services.

LEGISLATOR BYNOE: And how many investigators overall do we have?

I give you the correct number (perusing). I believe all in we asked for nine investigators total, and different staffing levels, the Supervisor down to Investigator I or Investigator II.

MS. OWEIS: Let me just look just so

LEGISLATOR BYNOE: And these are all full time positions?

MS. OWEIS: They're all full time positions. They only work on a daily rate. So if they're there, that's how they work. They bill us on a daily rate.

LEGISLATOR BYNOE: And what was the billable; do you have the billable last year?

MS. OWEIS: In this contract, the daily rate for a level one investigator is \$282.30 daily; level two \$364.31 daily; and the level three is \$462.19

daily.

LEGISLATOR BYNOE: And so this is a continuation of their services.

MS. OWEIS: It's a new contract. They were awarded pursuant to a new RFP. But yes, it's the same provider as the last five years of providing services.

LEGISLATOR BYNOE: Okay. And what was the total sum billed to their contract for last year?

MS. OWEIS: That's a good question. I don't have that number with me. But we typically budgeted at DSS at about 800 and some odd thousand dollars. So year over year it's about 8 or \$900,000. I can get you the exact number if you'd like, but that's usually what we budget it for.

LEGISLATOR BYNOE: Okay. Seems like a really costly contract.

MS. OWEIS: It seems like a high number, but the results exceed the cost of the contract.

LEGISLATOR BYNOE: Yeah, I would love to see what was billed last time and

last year, and I'd like to see it against the savings.

MS. OWEIS: The director of the services who is a DSS employee, provided me a spreadsheet and he said the cost avoidance -- like I said, there was three factors -- from '18 to '22, the cost avoidance was at about 2.6 million; DA recovered was at a 1.3 million and DA referrals were at 3.6 million.

LEGISLATOR BYNOE: And that was just for last year.

MS. OWEIS: That was over the past five year term.

LEGISLATOR BYNOE: Okay. And so what differentiates an Investigator I from a II, III?

MS. OWEIS: Let me just look in the body of the contract (perusing). So if you look between pages four and five of the contract, it gives the qualification levels.

LEGISLATOR BYNOE: I don't have the contract.

MS. OWEIS: I'm sorry. The level three investigator, the most expensive one, that's the supervisor. When we go

to two and one, it really is the number of years that they have investigative

experience. The Level I it says a minimum

of one year of welfare fraud and

investigator experience, and they

participate in certain projects and have

certain levels of credentials; Level II

has three plus years of investigative

services; and the Level III is a minimum

of five years supervisory welfare

investigative services. Some of the

investigators we do have are way beyond

those benchmarks, but fit within those

criteria.

LEGISLATOR BYNOE: Because typically in these type of positions, we would normally see sometimes retired police officers.

MS. OWEIS: Exactly.

LEGISLATOR BYNOE: So is that what

we're seeing in these positions?

MS. OWEIS: Exactly.

LEGISLATOR BYNOE: Okay. Thank you.

MS. OWEIS: You're welcome.

CHAIRWOMAN FORD: Legislator Walker.

LEGISLATOR WALKER: Just was

wondering, do these investigators also investigate fraud dealing with housing? I've had issues in my district where you have a landlord who has DSS families in the house. But then whoever is there kind of collaborates with the landlord and then they sort of have other people rent the house also who have no clue they're renting a house that shouldn't be renting and then they're paying money to a landlord and people who are in that house that DSS has put in that house.

MS. OWEIS: And the benefits would be going to the landlord; that's what you're saying, correct?

LEGISLATOR WALKER: Yes. Or the landlord and this other person are sharing that and this other poor family doesn't realize it's happening.

LEGISLATOR WALKER: All right. Thank you.

MS. OWEIS: You're welcome.

CHAIRWOMAN FORD: Anyone else?

(Whereupon, no verbal

response.)

CHAIRWOMAN FORD: Thank you.

The Laboratory Corporation. Is that you as well?

MS. OWEIS: That's me.

CHAIRWOMAN FORD: Okay.

MS. OWEIS: The Lab Corp contract is an amendment. It's a one year extension on an existing five year contract to provide mandated service to the County, namely to the DSS Child Support Unit.

John M. Donnelly.

Good afternoon, from the County

Attorney.

MR. LIBERT: Good afternoon,

Legislators. Brian Libert from the County

Attorney's Office.

E-25-23 is an amendment to a

contract with the law firm of Montfort,

Healy, McGuire and Salley. This is for a

case called Rochester. I have previously

appeared before you with other amendments

for this case. There were several

conflicts. The facts, I believe, have

been presented for the record before, so

I'm not going to recite them here.

Just to give you the numbers, we're

adding \$90,000 to the original \$125,000

for a total of \$215,000. So that's the

current amendment. If you have any further questions, I'm more than happy to answer the same.

CHAIRWOMAN FORD: Anyone?

(Whereupon, no verbal

response.)

CHAIRWOMAN FORD: No.

All right. We'll go to the next one. Thank you.

MR. LIBERT: There's two contracts in a row with Law Office of Vincent McNamara. I believe E-26 is an amendment for the Hart, De Maria and Vasquez matter. And this is adding \$350,000 to the original \$83,000 contract. That's for the continuation of the Hart and Vasquez matters. De Maria, on the other hand, is complete, and we owe about \$15,000 just to close the file out. It's totally over. So most of this represents new work to be done.

CHAIRWOMAN FORD: Anyone.

CHAIRWOMAN FORD: No.

How about the second one?

MR. LIBERT: The second one is for a case called Meltzer. This is a new car accident case at the County involving a very serious injury. And it is a new contract for a total of \$220,250.

CHAIRWOMAN FORD: Legislator DeRiggi-Whitton.

LEGISLATOR DERIGGI-WHITTON: I just want to make an overall statement more than just a specific statement. It just seems that we're really spending so much on outside counsel. And I know sometimes it's necessary, but I know that a number of our board transfers and everything else are really going for things like that. How is the County Attorney's office doing? Are you well staffed?

MR. LIBERT: I would just say relative to this contract, that's not really something I would speak to, you know, as to whether the office is staffed. I haven't really discussed that

with the County Attorney. It's not something that I would just sort of extemporaneously address. It's something that I would want to consider and speak to the County Attorney about.

LEGISLATOR DERIGGI-WHITTON: All right. I mean, it just seems like a car accident, although the injuries are severe, it sounds or proposed to be severe, it doesn't sound like something that we couldn't be able to handle normally. I don't want to get into any specifics, but it just seems unusual that we couldn't handle a car accident case.

MR. LIBERT: No, I'm happy to address your point. So, first of all, again, like you brought up, it's a very, very serious injury. I'd have to look at my notes. I don't believe someone died in this case. It's a very serious injury. And I believe what we've learned over time is that the plaintiff's offices in many of these cases are very well resourced. And it's not just a matter of

who's on staff or what's available, but

also the resource against the resource.

And in these cases where there is a

serious injury, bringing in a firm with

serious resources to defend us, whatever

that firm may be, has proven to be

successful in lowering the liability. So

while it often -- and I can speak to

this, I've been doing this outside

counsel work now myself for about five

years -- while it's easy to often say

that, even as an attorney, couldn't we do

this? Couldn't so-and-so do this or this

group or this person? Oftentimes, it's

easy to say that. But the reality of the

boots on the ground is that someone truly

resourced and experienced is the best way

to limit liability, which is, of course,

always our goal and provide the best

defense for the County possible.

LEGISLATOR DERIGGI-WHITTON:

in general. I had a background with State

Farm, but I just kind of still feel that

a good amount of our money is still going

to outside counsel. And I would like to see if we can have more -- I think we have excellent attorneys. So I think that they are probably capable of doing close to the same amount of work. Whether or not they have the resources, I can understand what you're saying. But for a basic car accident, we hire experts for everything. So it's not as if we're going to do the accident reconstruction or things like that. You hire everyone via the County Attorney's office.

All right. It was just a general point. I just feel that a lot is still going to outside counsel. I'd like to see more with our own attorneys.

MR. LIBERT: I will certainly raise that to the County Attorney.

CHAIRWOMAN FORD: Anyone else?

(Whereupon, no verbal

response.)

Leventhal Mullaney. They represent the Board of Ethics. I previously was before the Legislature with a contract that was for work they had done previously, and the Legislature had asked if they would be doing any work in between. I said, No. They have not. This is a contract for the new work going forward.

CHAIRWOMAN FORD: Legislator Abrahams.

LEGISLATOR ABRAHAMS: Thank you, Chair Ford.

Just a couple of questions. contract is to provide counsel in regards to the Board of Ethics, right? Mr. Leventhal?

MR. LIBERT: Correct. Okay. And I think it's been brought up in this Body before in previous occasions. And I don't know if the County Attorney's Office has researched it a little bit more since that time, but it was our understanding based off of 2017 court case Judge McCormick sanctioned, Mr. Leventhal, is

the County Attorney's Office aware of that sanction?

MR. LIBERT: I myself am not aware of it until you mentioned it. I can certainly speak to my colleagues. It's just not something I was aware of. If it sounds like I'm stunned, it's because I was not aware of it. I would have to look into that.

LEGISLATOR ABRAHAMS: It's not a new news. It came up in 2019 when he was reaffirmed and then, obviously, it was it was something that we had brought up at that time. And it seems to be that I haven't heard any resolution. He claims that he did nothing wrong. Obviously, there's this sanction that was out there. But what's most important is that the fact that he didn't disclose it at the time of the 2019 contract. So I just don't see a reason when we're asking someone to help us in regards to ethical issues that may have some very similar issues as it pertains to disclosing items

and not indicating that he's been sanctioned, it just to me doesn't reconcile. Because that's somebody that you want to be as less issues as possible, if I can say that in a better term.

So I would ask that we table this matter, being that the County Attorney hasn't had a chance to look at it.

MR. LIBERT: Well, just to speak to one thing, the County Attorney's Office did not make this selection directly. This selection was made by the members of the Bard of Ethics pursuant to a formal resolution. So to the extent that you may have questions about who made that selection or how the selection was made and whether the County Attorney or the office was aware, even if he was or wasn't aware, it really wouldn't pertain to this particular contract because it was procured through the Board rather than through the County Attorney's Mini Bid Selection Committee as an ordinary

litigation would.

LEGISLATOR ABRAHAMS: I understand. But wouldn't it make more sense for the Board of Ethics to give you that knowledge of his issues with being sanctioned and not disclosing those items or. I'm sorry, Brian, just forgive me. Who actually reviews -- I mean, I understand this is a new administration, but who who actually reviews the actual disclosures to ensure that they are appropriate and they are correct?

MR. LIBERT: Are you talking -which disclosures are you speaking about?

LEGISLATOR ABRAHAMS: So, basically, in 2019 -- different administration, totally get it -- there was a disclosure that was filed that omitted this particular information in regards to Mr. Leventhal being sanctioned in 2017. That disclosure that would normally indicate -- Yes, you know, the normal disclosures we get, would that disclosure be reviewed by your office or it's the

requirement of the Board of Ethics to ensure that that disclosure is filled out properly? Or maybe no one did the research, and you just rely on Mr. Leventhal to provide the truth.

MR. LIBERT: When you're talking about a disclosure, you're speaking about the PQ, the Principal Questionnaire for a vendor or a Financial Disclosure From the County? I just want to make sure we're talking apples to apples.

LEGISLATOR ABRAHAMS: The PQ.

MR. LIBERT: I just want to make sure we're talking about the same thing. So my understanding is that that is reviewed beyond County Attorney's Office. In other words, that those PQs are reviewed by Robert Cleary, who I believe is sitting back there, and potentially the IG's office. And Chris Lemoine, director of Legislative Affairs, has informed me that on this contract, the item that you're pointing out is disclosed despite my own lack of

LEGISLATOR ABRAHAMS: Yes. So on this contract, it is. Maybe I wasn't clear on my point. In the previous contract it was not. And also, as I said before, does anyone know and can substantiate the sanction? Like how serious was it? Did anyone do that research? I don't believe the disclosure today identifies that. I guess, did anyone look deeper?

MR. LIBERT: To my understanding, that would be an issue for either the Procurement Office or the IG. I don't think that any of the County departments, including County Attorney, look beyond what's submitted in the principal questionnaire. If it certainly would appear to be incorrect or certainly false, obviously, but even just incorrect, we would let the vendor know, hey, it looks like there's a mistake and allow them to fix it. But beyond that, I don't believe that we would do much more

than a ministerial look at that principal questionnaire. We would anticipate that review to come from Procurement and the IG. That is my understanding, based on the question you're asking me.

LEGISLATOR ABRAHAMS: Okay. So in 2019, the IG did opine, and basically indicated -- Jodi could speak for herself, her office can speak for herself -- They did opine and indicated that there was no disclosure or no PQ at that time.

MR. LIBERT: I understand what you're saying. I'm just aware that he did disclose it this time.

LEGISLATOR ABRAHAMS: No, I get that. I get that he disclosed it this time. Maybe because we brought it up the last time. But again, I guess the question I'm asking, I'm driving at is what was he sanctioned for?

MR. LIBERT: I don't know.

LEGISLATOR ABRAHAMS: Mr. Cleary, do you know?

Reading from his disclosure -- and by the way, I do note in the previous administration it was reviewed and he argued convincingly that it had nothing to do with his license and, therefore, was not responsive to the question, and that's why it was accepted.

"The sanction here was imposed in a trial level judicial proceeding with respect to a zoning regulation. It was not imposed in a proceeding before the Grievance Committee or the Appellate Division. It was not a not a sanction imposed in a judicial or administrative proceeding with respect to my professional license." The question specifically was referring to a professional license sanction.

LEGISLATOR ABRAHAMS: Got it.

And, the County, I'm assuming you're okay with that response from the County Attorney's Office? I'm talking to Brian

now. You're recommending this contract. I'm assuming you're okay with that.

MR. LIBERT: Yes. We wouldn't be recommending the contract if we weren't okay with that response. But that response is also submitted like as if you asked on all questionnaires. So I think the answer to that is yes.

LEGISLATOR ABRAHAMS: And I quess it's safe to assume you speak on behalf of the Board of Ethics. The Board of Ethics is okay with that response and him representing them?

MR. LIBERT: That I cannot do. I just am without authority to do that. But I can speak for the County Attorney's Office, which is what I'm here to do. I can only assume that they would have recommended it under those circumstances, but I can't directly speak for them. I think that would be not wise. The Board made the selection though.

LEGISLATOR ABRAHAMS: The Board made the selection with this information being

disclosed?

MR. LIBERT: That is certainly my understanding.

LEGISLATOR ABRAHAMS: Okay. And they were aware of the significance or lack thereof, whatever it may be the case.

MR. LIBERT: Yes.

LEGISLATOR ABRAHAMS: Okay.

So now we're coming back to today. So this Body is under the understanding that the best the Board can do is Mr. Leventhal with this action that happened.

MR. LIBERT: I didn't understand the question. I apologize.

LEGISLATOR ABRAHAMS: He's the best person to represent them and provide them counsel at the Board of Ethics. That's what we are here to assume today, based on this.

MR. LIBERT: I don't know that that's the assumption. I think the assumption is that they went through a competitive process and made a selection taking into consideration all factors. So

I guess the answer is yes, but I don't know what the assumption is based on that, just that this is the selection that they made based on the available options to them.

LEGISLATOR ABRAHAMS: So what was their competitive process?

MR. LIBERT: I can actually describe that for you. So this was led by RFP mini bid two different times. I don't have the dates for you, but I believe in 2019 there was an RFP which was not completed. And then during last year, 2022, there was a second RFP by the Board and Mr. Leventhal was the winning bidder under that prior RFP process. I actually did not handle that RFP process, so I couldn't speak directly to it, but that is my peripheral knowledge of it.

LEGISLATOR ABRAHAMS: He was the --I'm sorry. To make sure I understand --I'll let you finish.

He was the winning bidder. I'm sorry. What was the phrase you used?

MR. LIBERT: I think I said winning bidder, but I was just using that phrase loosely. In other words, there was a competitive bidding process and he was selected as the winner of that competitive bidding process.

LEGISLATOR ABRAHAMS: He was selected because his bid was the lowest? MR. LIBERT: I hope not.

LEGISLATOR ABRAHAMS: Was it based on Mr. Leventhal's level of qualifications?

MR. LIBERT: The selection committee ranked and scored the proposals. Based on that score, Steve Leventhal was selected for the award.

LEGISLATOR ABRAHAMS: And what were the scores?

MR. LIBERT: I certainly don't have

those available. And even if I did, I don't know that I would speak to them on the record. Just in terms of my knowledge of FOIL, sometimes those are disclosable, sometimes those aren't. But there were scores. That is what I'm comfortable saying on the record at this point.

LEGISLATOR ABRAHAMS: Okay. Would the scores be impacted by this sanction?

MR. LIBERT: Robert Cleary could probably speak better to that than I could. I'm not a procurement expert. And what I've learned as an attorney is don't try to be an expert when you're not.

LEGISLATOR ABRAHAMS: Understandable. Mr. Cleary?

MR. CLEARY: The proposal was selected as the one offering best value to the County, taking all elements into consideration. The criteria in the RFP was stated as the typical criteria, I believe. The vendor was deemed to be responsible; therefore, they were selected and proposed for award.

LEGISLATOR ABRAHAMS: So I quess maybe you didn't hear my question. So was his sanctioning in 2017, was it impacted by the scoring? Because you guys didn't know about it in 2019 because he didn't disclose it. So in 2023, when we're considering this contract now, it was bid out again in 2022, was that sanctioning part of the scoring?

MR. CLEARY: The Department proposed the award because it found that it was not a justification to find the vendor non responsible.

LEGISLATOR ABRAHAMS: Okay. So, basically, it did not impact the scoring.

MR. CLEARY: I would imagine it did not impact the scoring. It did not impact the Department's decision to propose the award.

LEGISLATOR ABRAHAMS: Got it. Okay.

So from our standpoint, I go back to my original question to Mr. Libert. We are under the assumption that the Board of Ethics made this decision blind to

this sanctioning. So we have to make a decision based off of that fact?

MR. LIBERT: I can't say that that's correct. I wouldn't make any assumptions. I don't think that that's what Mr. Cleary said.

LEGISLATOR ABRAHAMS: It's one or two things. It's either we table it and when we hear from the Board of Ethics directly or we go with that assumption, it's one or the two. That's the way I see it. Either they come here and they come down here and they say unequivocally, Yes, we knew and it doesn't matter. Or no, we didn't know the meaning of it. Or like I said before, we vote for it with the assumption that they were blind to it. It's one of the two things. It's very simple from my standpoint.

MR. CLEARY: This adverse information was handled the way that all adverse information is handled. And the fact is that an evaluation committee is not tasked with first evaluating adverse

information. All right. The proposals always are evaluated based on the criteria in the solicitation. The

to responsibility. That is a separate

criteria in the solicitation do not speak

assessment. And if, in fact, a vendor is

proposed for a award and then the

Department, in reviewing the integrity

and the capacity of the vendor, finds

that they are not responsible, then

Department has the option of referring

the decision back to the Committee to

consider how to proceed, whether to move

to another vendor if we find that vendor

not responsible, or to not award and

cancel the solicitation. Those are the

options.

So the fact is that a potential adverse circumstance is not generally considered by the Committee. It is generally considered as a separate review of responsibility of the vendor when proposing award.

LEGISLATOR ABRAHAMS: I hear what

you're saying. And that's all well and good. Now, I'm going to put it in layman's terms. Mr. Leventhal is not contracted to provide some type of legal counseling some other issue representing the County. He is counseled to provide advice to a Body that is evaluating ethical concerns and issues. You would want someone that is beyond approach, I would think, not someone that's been sanctioned in a particular court that can

be able to provide that level of insight

to that Body. Now, if the Body is unaware

that's the assumption that we're prepared

to go under when we take the vote today.

or not concerned with Mr. Leventhal's

sanctioning and they're perfectly fine

with receiving that level of advice,

However, it's one or the other. MR. LIBERT: I can clarify it for you, Legislator. No assumption need be made. I conferred with a colleague. The Board was aware. As Robert said, that's

not a direct part of their scoring. But

you need not make any assumptions. The Board was aware of this and is my understanding that they were made aware by Mr. Leventhal during the selection process.

LEGISLATOR ABRAHAMS: Okay. Fair enough. That's all we needed to hear. Thank you.

MR. LIBERT: Understood. I was a little caught off guard, and I'm happy to put that on the record.

LEGISLATOR ABRAHAMS: Quite all right.

CHAIRWOMAN FORD: Thank you very much. I'm new to this Rules business. So Mr. Leventhal and his firm have been doing business with the County since basically, I guess, the Mangano Administration, through the Curran Administration, as well as now with the Blakeman Administration, correct?

MR. LIBERT: Correct.

CHAIRWOMAN FORD: Okay. So with the sanction, it was known, I guess, in 2019

or 2020 that he, although he obviously did not disclose it, it was found out. So we were all aware of the fact that he was sanctioned to a certain degree by Judge McCormick, correct?

MR. LIBERT: Certainly the Board was aware in making its determination.

CHAIRWOMAN FORD: Okay. And the Ethics Board is fully aware that this item is before the Rules Committee right now to vote on this contract?

MR. LIBERT: Correct. That is more than correct. They are well aware.

CHAIRWOMAN FORD: And has any of them contacted your office to ask us not to vote on this?

MR. LIBERT: No. To the contrary, the Board has an interest in seeing this being approved.

CHAIRWOMAN FORD: Okay. Thank you.

LEGISLATOR ABRAHAMS: A point of clarity, Brian. I misspoke. Actually, the contract wasn't reaffirmed in 2019. Actually, the contract expired in 2019,

and Mr. Leventhal chose to keep working even though he could have been stopped being paid at any given time. So I apologize. I misspoke on that. As far as I can tell from our records, the contract was approved in 2017. He was not approved in 2019. And then he just chose to keep working, which I'm assuming he was continued to be paid because the Board of Ethics was was happy with his services. So from that standpoint, we were made aware and that's why the contract was not, I understand, that's why probably the contract was not brought to the Legislature. Because we were made aware after the fact that he didn't disclose that sanction on the PQ and then he just he just kept working with the Board of Ethics.

But I just want to summarize by saying this. I mean, obviously, you know, when you have the level of concern and the issues that the Board of Ethics deals with, you would kind of think that

someone, if they were sanctioned two years prior, would think that was important enough to indicate on their PQ. Maybe he forgot, maybe he chose not to. Who knows? But I would like to think that that person, that counsel to the Board of Ethics, the ethical counsel, would be a beyond reproach. And without having the Board of Ethics here to talk to them and discuss with them and question them back and forth. We're going to vote against this particular item.

MR. LIBERT: Understood.

CHAIRWOMAN FORD: Anyone?

(Whereupon, no verbal

response.)

CHAIRWOMAN FORD: No. Okay. All right.

No we'll go on to 29, Conway, Farrell, and so forth.

MR. LIBERT: This is a contract with Conway Farrell for what we're sort of referring to as the Armor cases. Conway Farrell was previously procured about

three years ago to assist the County with insurance issues related to the Armor Medical Corporation. These cases are all related to that and some financial issues related to that corporation.

CHAIRWOMAN FORD: Is this a new contract or is this a continuation?

MR. LIBERT: It's an existing contract, but there's a number of cases being added to it. It's being increased significantly.

CHAIRWOMAN FORD: And they're just dealing just with Armor, who provided the health care to the jail?

MR. LIBERT: Correct.

CHAIRWOMAN FORD: Okay. How many more? A lot of cases are coming before?

MR. LIBERT: The issue is that they have filed motions to have their counsel relieved. So that has caused an insurance issue and the County needs insurance counsel. So that's on all of those cases. Any case where they are our co-defendant, more or less.

MR. LIBERT: Correct.

CHAIRWOMAN FORD: So then they're looking to relieve themselves from that and just have us then handle the cases using this firm, Conway, Farrell, Curtis and Kelly, correct?

MR. LIBERT: They are trying to help us with those issues, Correct?

CHAIRWOMAN FORD: Anyone else? Legislator Abrahams.

LEGISLATOR ABRAHAMS: Thank you, Chairwoman Ford.

I just want to make sure this is reconciled. Armor Correctional Health Incorporated -- this is a this is a contract with the County Attorney's Office and Conway, Farrell, Curtin and Kelly to represent the issues that were developed under Armor. Am I understanding this correctly? Why wouldn't Armor have their own counsel to represent themselves in these cases?

MR. LIBERT: That's exactly what Conway Farrell is arguing on our behalf. Armor is trying to argue something slightly different, but I agree with your articulation of it. That's exactly the point. Yes.

LEGISLATOR ABRAHAMS: So this is a case against Armor?

MR. LIBERT: As you know, it gets a little more complicated than that when you start to talk about who's going against who and there are so many parties. The County is adverse to Armor, just to use the most legal terminology. That's the best way I would put it. The County is now adverse to Armor, which often happens amongst co-defendants, but it's not an affirmative case against Armor, at least to my understanding, at this moment. No.

LEGISLATOR ABRAHAMS: So is this case being brought to us because there are lawsuits being brought against Armor? Has the County chosen to indemnify Armor

for some reason, I'm just trying to make sure I reconcile this properly.

MR. LIBERT: No. Armor is supposed to be indemnifying the County. That's precisely what this is about.

LEGISLATOR ABRAHAMS: That's what I meant. I'm sorry.

So Armor is indemnifying the County, but that's not happening because we have counsel now to represent us in a healthcare case against Armor. Maybe I'm not reconciling it properly. Maybe you need to help me out here.

MR. LIBERT: The issue is that Armor is now insolvent and, therefore, basically, trying to disclaim the County. But we are fighting vigorously that they do not do that. And that is what this defense is about, at least in primary.

LEGISLATOR ABRAHAMS: So the County has to spend upwards of \$1 million to, one, litigate against Armor when they should have indemnified us in cases as it pertains to healthcare services at the

jail. But now, because Armor is insolvent, we have to kind of pick up the pieces and kind of trudge ahead.

MR. LIBERT: No. There's two pieces to it. There is the defense and indemnity issues and then also the underlying litigations, which are complicated by the defense and indemnity issues. So the underlying litigations were going on anyway, and Conway Farrell is assisting with those issues as well. But again, they are complicated by the defense and indemnity issues.

LEGISLATOR ABRAHAMS: I think I understand what you're saying. And obviously there seems like there's two parallel tracks. It sounds like there's a track that we have to have Conway represent us in regards to the indemnification issues. But then there's also issues that there's cases that are coming up that was under the tenure of Armor as well.

MR. LIBERT: Pardon me. Correct.

It's all, it's all of the cases, but those issues that you described in your point one come up in each one of those cases. That's why it's so significant, just for the reason you just described.

LEGISLATOR ABRAHAMS: I understand where you are and I understand why the need to bring in Conway. My only concern is that in more recent history there have been several deaths at the jail. And I'm concerned because the management at the jail is the same management that actually put in this particular contract, or recommended this contract, I should say. I don't know if you can answer that. Someone from administration probably has to answer that.

MR. LIBERT: Yeah. I'm here about that contract, and I waded into dangerous waters at least once already today, but that would be way too dangerous for me, I think.

LEGISLATOR ABRAHAMS: I think we would want to hear a little bit more from

the Administration as it pertains to this particular contract and how it impacts what's going on at the jail now. Obviously, as I said before, there's been two recent deaths. I don't want to speak on the record in regards to what the cause of those deaths were. But what's more troubling is that the same, well, part of the same Administration that's at the jail was the same Administration that recommended, if I remember correctly, Armor Correctional Health incorporates us. So I'm a little bit concerned that this particular contract for Conway in regards to their interpretation these

to start. It's like they're trying to, lack of a better word, clean up their

indemnification issues is being birthed

from the same particular operation that

basically put us in a position with Armor

yours. Of course. They're trying to clean

mess per se. That's my words. That's not

same lens of anyone that was associated with recommending Armor to us.

MR. LIBERT: I would just say, to answer your first question, this representation has nothing to do with anything that's going on whatsoever with with present day. These are all dealing with -- whether they're legal issues or issues of at the jail, they're not relative to anything that's going on currently. I understand your point. And like I said, I won't go there for myself. But this particular item is so that the law firm can assist the County Attorney's Office in making sure the County is properly defended from this large scale of cases that sort of exist. But it has nothing to do with any current business of the jail.

LEGISLATOR ABRAHAMS: Well, we don't know that.

MR. LIBERT: Well, I mean, I can speak to the cases that are being presented under this list, and I know

2

14

15

16

17

18

19

20

21

that Armor has nothing to do with that. I understand your point about the selection of Armor and those other items that I myself wouldn't speak to, but if the simple question is does this assignment have to do with current day? The answer would be no.

LEGISLATOR ABRAHAMS: No, I don't think that's the case. I agree with you on that. My point is that, I mean let's call if for what it is, Mr. Sposato was one of the folks when he was the head of the jail that recommended Armor to this Legislative Body. I mean, I don't I don't expect you to answer that. You may know or you may not know. But then at the same time, I'm looking at current day and Mr. Sposato is actually a part of the team that's ahead of the jail. And there's also been two deaths at the jail more recently. No coincidence. Some of the cases that are being brought to us in this litigation that Conway Farrell and Curtin has to represent us on, just

happens to also be deaths at the jail.

So from that standpoint, I would feel a little bit concerned about Mr. Sposato being a part or anything at the jail, considering what we have now and what we know now in recent day. Not only did he couple us with this Armor Correctional Health, Inc. and now we got to spend \$1 million just in Conway to represent the County. We may spend a lot more based on these cases under Armor's healthcare. And then, oh, by the way, he's now head of the jail now, currently, where it is, unfortunately two tragic deaths of inmates.

CHAIRWOMAN FORD: Legislator Abrahams, I understand that. Listen, I was not in favor of the Armor contract even when it was first proposed so many years ago. But I think today what we're talking about is this contract for Conway, Farrell, Curtin and Kelly to represent us in regard to Armor so that if they're not successful, we might have

to respond to all the litigation that has been brought against Armor, but it's not against the person who ran the jail. They're not representing us in regard to the two recent deaths at the jail, correct? This is just strictly for Armor from years ago, correct?

MR. LIBERT: 100%, Legislator. I would just say to Legislator Abrahams, in this regard, please don't shoot the messenger. I'm just carrying the County Attorney contract in that regard. I understand your point.

LEGISLATOR ABRAHAMS: Absolutely. Please do not interpret what I'm asking you as any type of shots over the barrel at you or anything personal with you. I have nothing but great respect for you the way you handled yourself, obviously, in our Executive Sessions and here at the podium, top notch. That's not my issue.

MR. LIBERT: Thank you.

But in regards to your point,

Chairwoman Ford, I do disagree with some

components because Mr. Libert did

indicate earlier the representation of

Conway is not just for the

indemnification issues, in the event that

we are not successful, it's also tied to

potential litigation against the County

that was provided -- healthcare that was

provided by Armor.

CHAIRWOMAN FORD: By Armor. But

Armor does not provide healthcare now

with the jail.

LEGISLATOR ABRAHAMS: No. I never

said that.

MR. LIBERT: To the point that

Legislator Ford is making, I think that

the concern I would have is we have

already began sort of onboarding Conway

Farrell, of course, at their own peril.

As always, everybody understands their

assignment is subject to your approval.

But it would put the County at a

significant disadvantage, at least if

counsel were not approved there, are a number of cases and the County would then

be sort of holding the whole bag of them,

which could be problematic. And the real issue is that we don't want to let Armor

get out of their responsibilities rather

than sort of looking prospectively, at

least for now. That's what this contract

is about. Again, understanding the point

you've made, to the point that the

legislators made, we really need this

contract to protect the County's current

legal interests, not relative to the

current issues at the jail.

was making.

LEGISLATOR ABRAHAMS: No, I get that. I guess my point that I was making was that Mr. Sposato is the common denominator in both of these cases. He recommended Armor to the County, and he's also now part of the Administration that leads the jail. That's the connection I

But I think what would be more prudent is we probably need to conduct

some type of Legislative Hearing so that we can hear a little bit more information in regards to the current conditions at the jail so we can have more information to make sound information in regards to the healthcare that's being provided. And that's not a question to you, Mr. Libert. That's more of a statement to this Legislative Body that we should probably end up doing.

But from our standpoint, the common denominator is Mr. Sposato. And we would want to hear more before we approve this contract. We would want to hear more, whether it's in a hearing format or him at the podium, we would want to hear more from in terms of these recent deaths, because are these recent deaths going to be an issue for us down the road? And I know that's not before us today. The only common denominator that I have to come with is that Mr. Sposato recommended what's before us today, which is Armor Healthcare, and he's still in charge of

the jail.

So, that's the parallel that I'm making. We need to do some more research. But I understand the issue in regards to being behind the ball. I would respectfully ask that we table this matter so that we can hear a little bit more in regards -- I already know it's going, so you don't have to tell me. I have to ask for the record. I respectfully ask that we table this matter until we can hear a little bit more from the Administration at the jail and then be able to consider this contract at a later time. If not, then obviously we're going to recommend my side to vote no.

CHAIRWOMAN FORD: Thank you very much. You know, we are not going to we're not going to look to table this contract. But I understand your concern. And I believe that we need to try to keep having them defend us against what Armor had done while they were overseeing the

healthcare at the jail.

And just to let you know, on a separate note, we are going to continue meeting with the sheriff and everyone else at the jail. We're not going to let down our guard in regard to trying to look at every issue at that jail. We made a commitment that we were going to stay on top of the issues. And we're dealing with them one by one.

And yes, if healthcare is the next topic that we need to look at, most assuredly, we will be reaching out to the Administration and setting up something so we can discuss it. Because we are concerned about the two deaths that have occurred at the jail. But that is something that we need to address. But we also now need to put this contract in play so that hopefully we can put that episode behind us once and for all.

All right. I think we're up to the last one; E-34, John Donnelly.

MR. LIBERT: This is a contract with

John Donnelly for his work on the Indemnification Board. Let me just pull up my iPad again (perusing).

This was made pursuant to an RFP. Ultimately, this is now basically a closeout contract for work that he has already completed because there was an insurance issue in his current procurement. So this work is complete. And it's what I sort of refer to as a closeout contract. In other words, the work is complete and we're not extending with Mr. Donnelly at this time.

CHAIRWOMAN FORD: This is to finish it up.

MR. LIBERT: Correct.

CHAIRWOMAN FORD: I sometimes hear the Presiding Officer say, why are we getting these things after the fact? I don't know if this is one of them or it's just something that we just needed to finish up and wait for his work to be done.

MR. LIBERT: This is a little bit

different. There was an RFP performed and there were some administrative hurdles relative to that RFP. Ultimately, as a result of those administrative hurdles, the contract was not completed, but there was some work done before and we do owe Mr. Donnelly for the work that was completed. It was a multi year contract initially. So it's just it went over its initial sort of encumbrance.

CHAIRWOMAN FORD: Okay. I'm fine with that. Anyone else?

response.)

CHAIRWOMAN FORD: We're going to resume Rules Committee.

The first item that I'm going to call is 116-23, a resolution authorizing the County Executive to execute an inter-municipal agreement with the City of Glen Cove in relation to refund and reconciliation.

LEGISLATOR WALKER: So moved.

CHAIRWOMAN FORD: Moved by

Legislator Walker, seconded by Legislator Schaefer.

Good afternoon.

MR. CASOLARO: Good afternoon, members of this Body. This is Charlie Casolaro, Chief Counsel to the Comptroller. You have before you a refund and reconciliation agreement between the County of Nassau and the City of Glen Cove and the City of Glen Cove School District.

From the period of 2010 to 2021, Glen Cove and its Glen Cove School District over allocated and overpaid the

County of Nassau \$1,583,000, actually a little bit more. But we reconcile it to be \$1,583,000.

At the request of the Comptroller and of the County Executive at the behest of the Mayor of the City of Glen Cove, we had Office of OMB examine this these PILOT agreements. We all concur that there was an overpayment. So we entered into this agreement and I ask for its approval.

CHAIRWOMAN FORD: And how did how did it go on for ten years? That's what I

MR. CASOLARO: I don't know, Legislator Ford. I don't know. I inquired about that myself and I don't know.

What happened was -- I'll give you the short version of it. In June of 2022, last year, we got a call from the Comptroller of the City of Glen Cove asking the Comptroller, myself, Deputy Comptroller, Beaumont Jefferson, be open to a meeting. We were. Apparently, State

Comptroller DiNapoli had audited the

IDA's and it came back that there was an

overpayment and an over allocation to the

County from the City of Glen Cove and the

City of Glen Cove School District. The

Mayor asked that the County examine this

forensically. We did. The Office of OMB,

the Department of Assessment, the

Comptroller's office, we all looked at it

and we all came to the unanimous

conclusion that there was an overpayment.

We differed a couple of bucks here and

there, but we all agree that there was an

overpayment and this is the amount of

money that we agreed on. I don't know the

origin of it. I asked the Comptroller of

the City of Glen Cove. He didn't really

know.

CHAIRWOMAN FORD: Well, all I can

say is I think the City of Glen Cove owes

Comptroller Tom DiNapoli a big basket of

goodies and whatever.

MR. CASOLARO: I would add also my

her urging that we really pushed this.

CHAIRWOMAN FORD: Exactly.

MR. CASOLARO: And it was a pleasure to draft this agreement because the taxpayers of Glen Cove and the school district, residents of Glen Cove are going to benefit.

CHAIRWOMAN FORD: Right. They got money back and they're saving money. So you make sure you tell Tom and Elaine, thank you to both of them.

LEGISLATOR DERIGGI-WHITTON: Thank you for doing that, because I know that's been part of the budget already. So I think if this didn't pass now, Glen Cove would be in trouble. So I appreciate your support with this.

CHAIRWOMAN FORD: Thank you very much.

MR. CASOLARO: You're welcome. Thank you.

2 LEGISLATOR SCHAEFER: I just have 3 one quick question. Are we sure that the amounts now are accurate? Going forward? 5 MR. CASOLARO: Yes. Going forward --6 we did a reconciliation and essentially started at zero. So going forward, 8 whatever's allocated will be proper. Yes. 10 LEGISLATOR SCHAEFER: Thank you. 11 MR. CASOLARO: You're welcome. 12 CHAIRWOMAN FORD: Thank you very 13 much. 14 All those in favor of passing Item 15 116-23, please signify by saying, "Aye". 16 (Whereupon, all members of 17 the Rules Committee respond in 18 favor with, "Aye".) 19 CHAIRWOMAN FORD: Any opposed? 20 (Whereupon, no verbal 21 response.) 22 CHAIRWOMAN FORD: The item passes 23 unanimously. 2.4 All right. CHAIRWOMAN FORD: Item 139-23, a resolution authorizing the County

Executive to execute an inter-municipal agreement with the Town of Hempstead in relation to services relative to the adjudication of Town of Hempstead School Bus Stop Arm Safety program.

Moved by Legislator Bynoe, seconded by Legislator Walker.

Do we have any questions on this, the school bus camera program?

LEGISLATOR BYNOE: Who could speak to that item?

EXECUTIVE DIRECTOR MELI: Paul Meli,

I'm the Executive Director of the Traffic

and Parking Violations Agency.

This is an inter-municipal agreement between the County of Nassau and the Town of Hempstead relative to the providing of adjudication services relative to the School Bus Stop Arm Program of the Town of Hempstead.

The Town, pursuant to 1174-a of the Vehicle and Traffic Law by local law in

/

or about January of '22, passed a demonstration program under which the owners of vehicles would have imposed upon them civil liability for the operation of their vehicle in violation of 1174-a of the Vehicle and Traffic Law by meeting or overtaking a school bus when its flashing lights were operating.

Under that same legislation, TPVA
was obligated to adjudicate liability
where it was contested. This is our
agreement with the Town to provide that
adjudication and some additional
services; in particular, our lawyers
would prosecute the claims before our
judges. The terms would be \$18 per ticket
issued and \$18 for each adjudication.
Adjudication being defined as every case
placed upon TPVA's calendar. Those fees
are paid whether or not there's liability
or whether or not the Town gets paid.

LEGISLATOR BYNOE: Mr. Meli, I don't know if you remember, but this Body had approved legislation that would have

allowed us to enforce that violation of the law when they circumvent it.

EXECUTIVE DIRECTOR MELI: I don't remember.

EXECUTIVE DIRECTOR MELI: You don't remember?

EXECUTIVE DIRECTOR MELI: I was on the bench at the time. I wasn't employed by the County, but I certainly did find out about it when I arrived as the Executive Director. Upon inquiry, we had, I think, two school districts signed up under the program at that time. We made further efforts to see if anybody else was interested, but it appears that another vendor had come in and spoken to several of the towns by that point, as well as the City of Glen Cove, and they opted to go with the Town program. The 1174-a of the Vehicle and Traffic Law says that any city, village, town or county can have a demonstration program.

LEGISLATOR BYNOE: Okay, so that's fine and good. When they drafted their

legislation -- do you know when they drafted that, by the way?

EXECUTIVE DIRECTOR MELL: I believe it was in or about January of 2022.

LEGISLATOR BYNOE: So did they speak to either the prior administration or this current administration when they drafted that law?

EXECUTIVE DIRECTOR MELI: Well, they didn't speak to me. I have no idea who else they may have spoken to.

LEGISLATOR BYNOE: Can someone from the administration maybe answer that question? Because I'm wondering how they could pass a law that would require Nassau County to adjudicate the violations if they hadn't, in fact, spoken to Nassau County.

LEGISLATOR BYNOE: Perhaps you misunderstood. In the first instance, it was a State Legislature who determined that we would adjudicate.

LEGISLATOR BYNOE: I did misunderstand.

EXECUTIVE DIRECTOR MELI: Then the local law simply repeated that.

So even in State's law and then the Town then restating it, did they contact us in January? That's where I'm getting.

EXECUTIVE DIRECTOR MELI: Again, I wasn't contacted. I became aware of it. I think I became aware of it through the County's vendor, the vendor that the County had chosen to run the program, which is a different vendor than the one that Town is using.

LEGISLATOR BYNOE: So, you know, just in order, to me, in doing things in decency and in order, if they were going to run a program, they should have come to us and we should have set this process up much earlier. Do you know how many schools are currently signed up?

LEGISLATOR BYNOE: I think the majority of them in Hempstead.

LEGISLATOR BYNOE: Okay. And do you know how many pending adjudication cases are --

EXECUTIVE DIRECTOR MELI: There's about 1500 at the present time.

LEGISLATOR BYNOE: 1500? How many are they -- do you know how many they're doing on a monthly basis?

EXECUTIVE DIRECTOR MELI: Well, that's going to be up to us to determine. What the agreement provides is that we'll determine when and how many cases will go on our calendar. And the Town will be the one who notices which places those cases on the calendar. They'll be the ones that send out the notices. They'll be the ones that send out every piece of correspondence or notice that goes to the to the motorist or the vehicle owner.

We are starting slowly because we

don't know how long these adjudications

are going to take. I did go out to

Suffolk and watch a few of their

adjudications. They do theirs virtually.

We've given ourselves the right to do

these virtually as well, if we find that

we can do it faster and just as

effectively and fairly that way. But

right now, given the fact that it's new

to TPVA, to our attorneys, and to our

judges, and to our clerks, we're going to

start slowly and we will increase the

volume as we feel comfortable, rather

than keep people hanging around in court

all day.

LEGISLATOR BYNOE: Okay. And so

this is your plan for getting through the

backlog and I guess then maintaining some

level of calendar?

EXECUTIVE DIRECTOR MELI: We hope to

start April 26th on our first night

session and then to continue every

Thursday after that and every night

/

session, which are the second and fourth Wednesdays of each month.

LEGISLATOR BYNOE: And so when you went on your fact-finding mission to Suffolk County, how much time did you determine these cases were taking?

determined to take about ten minutes
each, again, with judges who had done
them before and lawyers who had done them
before as well. And it was virtual. So we
did notice that when a virtual hearing is
over, the clerk says, thank you, have a
good day and simply presses the button.
It's not always that easy to get a live
litigant out of a courtroom.

LEGISLATOR BYNOE: Right. Do you know how much the fee is that the Town of Hempstead is charging?

EXECUTIVE DIRECTOR MELI: The fine is \$250.

LEGISLATOR BYNOE: \$250?

EXECUTIVE DIRECTOR MELI: Yes. And they're dividing that with the vendor.

LEGISLATOR BYNOE: And so we've determined that this ten minutes that we will invest in this process, the role that we play is only worth \$36?

EXECUTIVE DIRECTOR MELI: Well, there's a lot of -- if we didn't come to this agreement, we would be obligated to adjudicate these cases anyway and we would have to calendar, send out all the notices. We would have to use our own software. We'd have to accept payments. We're not doing any of that under this program. The Town is providing all of that.

Answer to your question is, yes. But is it a guess? Yes. Is it a good guess? I believe so. But time will tell. I certainly don't see that we will lose money under the program and will still be

providing what's required of us under the state law.

LEGISLATOR BYNOE: But under the state law, if we -- Yes, sir. You have something to add?

EXECUTIVE DIRECTOR MELI: Montefinise just reminded me, we're getting \$18 on every ticket that's issued.

LEGISLATOR BYNOE: I'm aware.

EXECUTIVE DIRECTOR MELI: Okay.

Whether we adjudicate or not.

LEGISLATOR BYNOE: I'm aware. But I'm talking about the adjudication, the ones that we actually have to hear the cases on.

EXECUTIVE DIRECTOR MELI: So that would be another \$18.

LEGISLATOR BYNOE: That's another 18 on top of it. That's how I get to --

EXECUTIVE DIRECTOR MELI: And I can tell you our experience with red light cameras is the great majority of people that schedule hearings, if they show up,

/

pay it. If not, they pay it before they even get there and never show up. So a lot of people like to have their day in court. And I assume at the beginning of this program, because the fine is higher and it's a relatively different kind of ticket, we're going to see a lot of people contesting them at the beginning.

They tell us that the contestation rate is about 6% and that the recidivism rate is about 2%. In other words, once somebody gets a ticket, only 2% of them repeat that violation.

LEGISLATOR BYNOE: Okay. And so. I
know how many we have in backlog. Can
someone give me an estimate on how many
tickets the Town of Hempstead is
projecting that we might get that we'd be
responsible for on a monthly basis?
Because Suffolk County's program seems to
be pretty robust. I mean, they're earning
quite a bit of money in their fees.

EXECUTIVE DIRECTOR MELI: Well, that's a Suffolk County program. It's

the same vendor, so I'd have to guess they're getting the same 55% of every \$250 ticket, and their own TPVA is adjudicating those tickets.

LEGISLATOR BYNOE: And they're in this seven figure range, which means that there's quite a few cases coming before them. Do we have an estimate? Because now we're going to probably we're going to sit down and negotiate with the other three towns, right? Other two towns, rather.

EXECUTIVE DIRECTOR MELI: Well, yeah. And I'm assuming that, in fairness, they're all going to get the same offer.

LEGISLATOR BYNOE: I just want to make sure that we're not cutting ourselves short on negotiating a fair and equitable fee.

EXECUTIVE DIRECTOR MELI: Well, again, the alternative is if we don't have the agreement, we get nothing.

LEGISLATOR BYNOE: But we're not going to negotiate from a place of

weakness. We've got to negotiate from a place of strength. We are the entity that that has the ability to adjudicate these things. So we're not going to walk in there and say, oh, please give us something or anything. We should be walking in negotiating from a place of strength.

EXECUTIVE DIRECTOR MELI: If we have strength, yeah.

LEGISLATOR BYNOE: We do.

what we tried to create by providing the additional service. The Town is taking over a lot of the functions that we would otherwise have to perform. Otherwise, these tickets would be coming to us. We'd have to input them into the computers.

We'd have to send out the notices, we'd have to calendar them, we'd have to have our own software program. We'd have to accept payment of the fine.

LEGISLATOR BYNOE: But I don't think this was ever intended for that to be an

unfunded mandate for the County.

EXECUTIVE DIRECTOR MELI: I think the Legislature should have asked us that first. The State legislature, I mean.

LEGISLATOR BYNOE: Well, the County Legislature passed it where we were going to get all the fees.

EXECUTIVE DIRECTOR MELI: And I can't speak to why that wasn't successful.

LEGISLATOR BYNOE: Yeah, that's disappointing.

EXECUTIVE DIRECTOR MELI: I would have welcomed the opportunity to do that.

LEGISLATOR BYNOE: As one of the one of the lead sponsors on that legislation, I am definitely disappointed. And as a part of this Body who many of us are former school board members and parents and grandparents, we did this for the purpose of safety. It seems as though it did not move forward expeditiously, and now the towns are involved and that's great because at the end of the day, we

just we want programs that will work and be effective and, like you say, that we won't have a whole bunch of repeat offenders possibly. But at the end of the day, I don't want to see us, you know, lose money on a situation where we could negotiate better terms.

EXECUTIVE DIRECTOR MELI: As far as the timeline is concerned, I believe that the County passed its local law in the summer of 2019. They they awarded the contract, and certainly COVID was a factor, I'm sure. They awarded a contract in or about June of 21. And there were some minor modifications to the local law with respect to the imposition of fees. But it never got off the ground during that period. Why it didn't, I can't speak to.

CHAIRWOMAN FORD: Excuse me, if I might. I know that I reached out to the previous administration because I know you would definitely --

hold them accountable for it.

CHAIRWOMAN FORD: No, no. They weren't. But I just want to say that I think that the original company was the red light camera people, and for some odd reason, we entered into an agreement and we signed the contract with them. And despite trying to get the Administration to let us know where it stood, they never -- you know, we wanted to know, like with the equipment, did they start putting on the school buses? That company never did anything. So I think that that's what happened. And I think when the new administration took over, they could not get any, basically, any responses from them because --

LEGISLATOR BYNOE: So I'm not arguing that at all. The ship has sailed. The three towns and the cities have embarked on their own road. I just want to make sure that we don't get saddled with a whole bunch of of burden. It doesn't sound like much when you start

looking at it.

EXECUTIVE DIRECTOR MELI: They had issued 12,000 tickets as of the last Newsday article. I don't remember when that was.

MR. MONTEFINISE: Thomas Montefinise, Deputy County Attorney.

Legislator Bynoe, on your point as well, this agreement was heavily negotiated. The indemnification clause is very strong on our end. In addition to that, we got a majority of the terms that we asked for on this agreement. So this was heavily negotiated. Indemnification is very strong in favor of the County on this item and everything that we could put in there that we could strengthen and argue and get for the County, we did.

LEGISLATOR BYNOE: I appreciate you making those statements for the record in the event that, later on don't come back crying that you need something from us. Because I just I just feel like, we don't even know how many -- we can't project

′

how many cases we might get monthly. We already have a robust calendar down there for these type of adjudications for traffic violations. Next year, I don't want to hear that we have to hire two new hearing officers to adjudicate cases at the expense of the County.

EXECUTIVE DIRECTOR MELI: Before we go there, we're already two short, I might say, before we get into this earlier trouble (laughter).

LEGISLATOR BYNOE: (Laughter) So you've said that this is the best we can do and we've got what we wanted and we have what we need, then let's move forward. It is what it is. I want the kids to be safe going to and from school. But again, I don't want us to be at the mercy of this, what I'm nervous to be, underfunded mandate by negotiating terms that seem pretty light to me.

EXECUTIVE DIRECTOR MELI: If I might, the State legislature apparently has developed a habit of directing that

TPVA be the adjudicating agency. They recently established a Work Zone Speed Camera Program where they're going to have portable speed cameras that are assigned to work zones on limited access state highways. That provides for us to do the adjudications and to share absolutely none of the fine money.

LEGISLATOR BYNOE: That's a passed piece --

EXECUTIVE DIRECTOR MELI: That's a passed piece of legislation in the State Legislature.

LEGISLATOR BYNOE: Yeah, I'm coming out of a field of public housing to which we had more unfunded mandates than funded mandates. I'm not a fan of that. I think if we're going to put responsibility on any municipality or special district or agency that we need to fund those things. It's just not right, because then it gets passed on to our taxpayers or in some other type of fee or some service that we have to cut in some other way. So I'm not

a fan of that. I'm only becoming aware of what you're telling me right now. And, you know, listen, I think I'm fair and balanced in how I like to see things and how I like to have my voice heard. And I would strongly oppose any other unfunded mandates coming to TPVA. I don't care where they come from.

So you guys heard me on this issue. So we know exactly how many TPVA hearing officers we have now, and if you come back asking for more, I'm not going to be happy. Okay. Thank you.

CHAIRWOMAN FORD: Legislator Schaefer.

LEGISLATOR SCHAEFER: Hi, Judge Meli, how are you?

EXECUTIVE DIRECTOR MELI:

Legislator.

LEGISLATOR SCHAEFER: I just had one question. How much work does the Town do? Is the Town doing the bulk of the work. I just kind of want to hear exactly what --

23

2.4

25

EXECUTIVE DIRECTOR MELI: They or their vendor are doing the great majority of the work, yes.

LEGISLATOR SCHAEFER: The extent of our work includes what, basically?

EXECUTIVE DIRECTOR MELI: Extent of our work is conducting a hearing. A TPVA lawyer will prosecute the case, a TPVA judge will decide the case. The result of the hearing will be recorded on their software, the Town or their vendor's software, which we have access to as well. And that's where it ends. We don't handle motions, we don't handle appeals.

LEGISLATOR SCHAEFER: Okay. Thank you.

CHAIRWOMAN FORD: Legislator DeRiggi-Whitton.

LEGISLATOR DERIGGI-WHITTON: Paul, what is your what is your title now? You're in charge of --

EXECUTIVE DIRECTOR MELI: Yes.

LEGISLATOR DERIGGI-WHITTON: Okay. I thought so. I just wasn't sure if you were still there or if you were working for a different -- I wasn't sure how long your term was.

I just have a quick question. If first of all, I know Glen Cove, as you know, is very interested in doing this. Actually, I'm texting a couple of the council people that can't wait to do it. And North Hempstead also requested the copy of the agreement.

EXECUTIVE DIRECTOR MELI: Yeah, I gave it to them.

LEGISLATOR DERIGGI-WHITTON: So you're talking about a lot of cases being heard. I mean, do you really think that the staffing that you have now is going to be able to handle that?

EXECUTIVE DIRECTOR MELI: Well, all I can say is if the program works the way it's supposed to, hopefully by 2028, there won't be any more of these tickets.

LEGISLATOR DERIGGI-WHITTON: I hope so, too. That's the whole reason why we're doing it.

EXECUTIVE DIRECTOR MELI: With the recidivism rate being as low as it is, that was always the hope, even when the County program, you know, the greatest hope is that it would only be around for a short period of time.

LEGISLATOR DERIGGI-WHITTON: so. I'm kind of the one that I'd like to try it for a little while just to make

EXECUTIVE DIRECTOR MELI: We could also terminate upon 90 days notice, by the way.

LEGISLATOR DERIGGI-WHITTON: You can terminate upon 90 days notice at any time?

EXECUTIVE DIRECTOR MELI:

LEGISLATOR DERIGGI-WHITTON: Okay. Well, that's good. So maybe that would in that case, give you an opportunity to renegotiate the fee, because from what we're seeing, the Town is going to get \$101 for every ticket and we're going to get \$38.

EXECUTIVE DIRECTOR MELI: Yeah. And the alternative is to get nothing.

LEGISLATOR DERIGGI-WHITTON: Well, like they said, we try not to say that. I've had that happen with developments in Glen Cove.

judge. You look at the law, we get zero.

LEGISLATOR DERIGGI-WHITTON: But if you if you expect zero, you get zero. I look at it as, you know, I remember hearing that with developments. I've heard it so many times. And I just think it's good to keep the bar up a little higher. And again, look, we were very much in support of it when the County did it. And honestly, I think that the delay that the County did, and I'm not saying anybody's at fault, but we lost out on an opportunity for good revenue. And I don't blame the cities and the towns for stepping in. They were excited to do it when they heard about it.

All right. Well, I guess, we'll see what happens. We'll see how much time it takes up. And, hopefully you're right. Hopefully, the expenses won't be too high. And if it is, then I guess we could give the 90 day notice and renegotiate.

But again, I think we really do have a strength here because they need TPVA.

Glen Cove can't do this without us stepping in. Long Beach can't do it without stepping in.

EXECUTIVE DIRECTOR MELI: Under the law, we have to. We can't walk away from our legal obligation. If the Legislature says we have to perform, we have to adjudicate these tickets, far be it from us to refuse to do so. I mean, that's a reality. I don't like it, but that's the reality.

LEGISLATOR DERIGGI-WHITTON: Right. But again, we have to do it. But we're the only ones who can do it. So we have an advantage in that sense.

EXECUTIVE DIRECTOR MELI: So what, do we do it badly?

LEGISLATOR DERIGGI-WHITTON: No, but I think we should ask for half of what they get. Honestly, that's what I would feel good with.

EXECUTIVE DIRECTOR MELI: What would your leverage be?

But I think that as a judge, you know --

EXECUTIVE DIRECTOR MELI: As a judge

I know exactly what I'm talking about.

LEGISLATOR DERIGGI-WHITTON: You would want to say. Okay, let's see what's fair. Maybe they should split it. And that's usually what happens.

EXECUTIVE DIRECTOR MELI: What's fair within the law, Legislator.

LEGISLATOR DERIGGI-WHITTON: Correct. But the bottom line is we do have an advantage. We have you we have a service that they need.

MR. MONTEFINISE: I'm sorry, Legislator. There is something to be said, though, for the indemnification language and there's something to be said that they are going to be taking on any

LEGISLATOR DERIGGI-WHITTON: is that going to work? Who's going to actually do the appeals and everything?

MR. MONTEFINISE: That will be the Town.

LEGISLATOR DERIGGI-WHITTON: hold on. Just follow me one second. Do they have the ability to do it if they can't adjudicate it? They told us that TPVA was the only one who can adjudicate it, but now you're telling me the Town can handle the appeals?

EXECUTIVE DIRECTOR MELI: adjudicate. It's a civil matter. All we have to do is provide a judge, a clerk and a stenographer. If we adjudicate, that's all we're obligated to do. We

LEGISLATOR DERIGGI-WHITTON: So the State decided that only the County -- I mean, I'm just going by clarification here. The State said that the County TPVA has to adjudicate these cases. However, they're okay with the Town Attorney and the City Attorney handling appeals and everything else motions and everything else.

EXECUTIVE DIRECTOR MELI: Exactly. MR. MONTEFINISE: It's their program.

LEGISLATOR DERIGGI-WHITTON:

Interesting. So would that be like a conflict? Like what if what if the City of Glen Cove, with all due respect, screws up a motion? Is the County going liable on any level?

Okay, good. All right.

CHAIRWOMAN FORD: Legislator Walker.

LEGISLATOR WALKER: I'm not going to belabor it, but, you know, I think it's just typical of the State to impose a lot of work on the County with very little compensation. And I just think that's very, very sad. Not that it changes anything. And like you said, we have to do it. So better that we get something from it, than not. As you said, Hempstead

LEGISLATOR DERIGGI-WHITTON: They're all set to do it.

is doing it. But as of now, Glen Cove is

not doing it. Long Beach is -

LEGISLATOR DERIGGI-WHITTON: I think Glen Cove did too. Yeah, I think they're all lined up.

EXECUTIVE DIRECTOR MELI: Oyster Bay is contemplating it.

LEGISLATOR WALKER: Yeah. I hope they do because our purpose to do it is, I have multiple contacts from parents, from schools, from PTAs, saying how many cars are running by bus stops when the kids are waiting there for the bus. And we had, thank God, a one of our crossing guards over by Hicksville Middle School literally jumped out to save a kid who the person was going right past. It's a serious situation. It's really just to keep our kids safe. That's what we wanted. Yes, it makes some money, but you want to make sure our kids are safe

and people on the roads don't often think about that.

And I would imagine when you do have -- I know when Hempstead first started it, there were some people complaining that, well, now I have three or four tickets or whatever. Well, you didn't learn the first time? So if that person would come before you, you'd do all my tickets or you have to --

EXECUTIVE DIRECTOR MELI: Yeah. And the fine increases with every violation within a certain period of time, yes.

LEGISLATOR WALKER: So in your system you would know that person a got four tickets.

EXECUTIVE DIRECTOR MELI: Absolutely.

EXECUTIVE DIRECTOR MELI: And I just have to say that -- everybody is probably used to a red light camera ticket? I don't want to assume anything. But these are not always as clear cut as those are.

roads and a buses stopped and you're in the right hand lane heading south and heading north, there's a bus stopped in that far lane, with the traffic you really might not notice there is a bus stopped over there. So I guess if that person got caught doing something, and they want to argue it, they probably do have a leg to stand on. I couldn't even tell there was a bus stopped on that side of the road. So, there are issues I guess they have to iron out. But thank you for all you're doing. And, like I said, I hope this keeps our kids safe.

> EXECUTIVE DIRECTOR MELI: Thank you.

LEGISLATOR DERIGGI-WHITTON: Judge, do you happen to have a copy of that mandate from the State that we have to do this? I haven't seen that.
