Contract Summary

Purpose: NCIT identified a need for individual and/or project related, technical expertise in the form of supplemental staffing services (the "Services"). The Supplemental Staffing Services contracts will expedite the procurement of such Services, that may be required in certain urgent situations, or on an 'as needed' basis, to address our rapidly changing technological environment and to support advanced technologies, utilizing skills and expertise not otherwise available with County employees. To meet these needs NCIT established this contract with five vendors who are qualified to provide a minimum of ten or more of the required supplemental staffing services to NCIT. RAJ Technologies Inc. is one of those vendors. This agreement enables RAJ Technologies, to respond to any State of Work (SOW) issued by NCIT for which the vendor is qualified to provide services.

Procurement History: The Contract was entered into after a written request for proposals was issued on March 17, 2025. Potential proposers were made aware of the availability of the RFP by advertisement in NY Post, posting on industry websites, via email to interested parties and by publication on the County procurement website. Proposals were due on May 14, 2025. Sixty-six proposals were received and evaluated. The evaluation committee consisted of: Rosemarie Torla (IT), Joseph Jacovina (IT), Andrew Lester

(IT), Erick Bautista (IT), and Julie Curtis (IT). The proposals were scored and ranked. As a result of the scoring and ranking, five vendors were selected. The RFP # is IT0317-2507 and the STS reference # is 11491.

Description of General Provisions: NCIT may identify a need for individual or project related supplemental staffing "Services" and may issue SOWs (Statement of Work) on an as-needed basis to satisfy those needs.

2. NCIT will send SOWs only to those vendors who provided rate(s) for the support service category(ies) and level(s) of work required under a specific SOW. These support service categories, levels and rates are listed in the cost proposal section of the contract.

3. Upon receipt of an SOW, vendors review the SOW requirements. If the vendor is able to provide resource(s) that match the requirements of the SOW, the vendor will submit offer(s) to provide the supplemental staffing services needed under the SOW by:

- a. Indicating an hourly rate that is equal to or less than the rate listed in the contract.
- b. Submitting resume(s) of the staff that will be providing supplemental staffing services for the SOW.
- c. Submitting any forms that NCIT requires to be submitted with SOW responses.

4. All SOW responses must be received by the deadline specified when the SOW is sent to the vendors.

5. NCIT may select one of more qualified vendors to provide the supplemental staffing services requested in the SOW.

Pursuant to Executive Order No. 1 of 1993 as amended at least three proposals were solicited and received. The attached memorandum from the department head describes the proposals received along with the cost of each proposal.

Following is a detailed explanation of why other than the lowest cost proposal offered best value to the County:

The RFP Evaluation Committee agreed that it was not feasible to look for the 'lowest' prices, as the best pricing. The prices are hourly rates paid to consultants. In New York City and Nassau County specifically, consulting rates are much higher than most if not all, other states. In addition, there is a requirement for the consultants to work on site, therefore working remotely at a lower rate was not feasible. Therefore, we could not base our selection on the lowest price, especially when we observed that many of the hourly rates proposed were significantly lower than the rates we currently pay. Our approach was to take the average of the rates submitted by all vendors, as a benchmark. Not surprisingly, the average pricing was in line with the rates we currently pay our consultants, for each category. We created a matrix of pricing that included the hourly rates of the 33 categories, for each 'level' of expertise, for every vendor that went to Round Two, in the valuation. The matrix was 'conditionally color coded', allowing us to visually compare pricing from vendor to vendor. By working with this matrix it allowed us to eliminate very low 'unrealistic', and very high pricing relatively quickly; and that allowed us to use pricing as a criterion for our selection process.

EXHIBIT A

SCOPE OF SERVICES & PROCEDURES

The purpose of this “Agreement” is to establish a vehicle with the Contractor to provide Supplemental Staffing Services to the County. This Agreement will enable the Contractor to respond to any Statement of Work (“SOW”) issued by the Nassau County Department of Information Technology (“NCIT”) for which that Contractor is eligible to provide Services as specified in Appendix B (“Cost Proposal”).

Upon execution of this Agreement, from time to time, NCIT may identify a need for individual, or project related Supplemental Staffing Services. NCIT may issue an SOW for a project requiring Supplemental Staffing Services. The SOW will describe in detail which of the thirty-three (33) Support Service Categories and levels NCIT requires as well as a detailed description of the requirements. Support Service Categories are described in detail in **Appendix A (“Supplemental Staffing Support Service Categories”)**. NCIT will send the SOW to those Contractors previously identified as able to provide the Supplemental Staffing Services required for the specific Support Service Category(ies) required for the SOW as identified in **Appendix A**.

Contractors are not guaranteed work under this Contract. Rather, the Contract provides a Contractor with the eligibility to bid on a particular SOW for which the Contractor can provide the necessary Supplemental Staffing Services.

Contractors shall review the SOW and submit offers to provide the Supplemental Staffing Services identified under the SOW, indicate an hourly rate that is equal to or less than the rate indicated in **Exhibit B – Cost or Services**. Contractors must also submit resume(s) of personnel being proposed in response to the SOW, which will demonstrate the skills and skill ‘Level’ of the proposed person(s), years of experience relative to the exact “Support Service Category” identified under the SOW. NCIT may, in its discretion, select one or more Contractors to provide the Supplemental Staffing Services requested in the SOW. NCIT will not be obligated to select any of the Contractors to provide Supplemental Staffing Services under the SOW.

Individual Statements of Work

When NCIT has a project requiring Supplemental Staffing Services, an SOW describing in detail the project requiring Supplemental Staffing Services will be issued to each Contractor who is eligible to provide the specific type of Supplemental Staffing Service needed.

Notwithstanding the expiration of the Agreement between the Contractor and the County, an individual SOW may require the Contractor’s personnel to work beyond the termination date of the Agreement to complete a specific project or activity in the SOW. In that event, the County, at its sole option and discretion, may choose to extend the term of the “Agreement”, as provided for in section 24.d, **Contractor Assistance Upon Termination**, the period the Contractor’s personnel continue to provide services to NCIT. In addition, NCIT has the ability to modify each SOW to satisfy specific County needs.

Each SOW will provide details as to the required:

- Support Service Category(ies) required.
- Qualification Level of personnel needed to perform the Supplemental Staffing Services, including the years of work experience required of personnel within the specific Support Service Category(ies) requested and demonstrable expertise.

NCIT will allow Contractors a specific period of time from the time NCIT issues a SOW to submit an offer in response. Such period of time will be specified when the SOW is issued and will vary for each SOW. NCIT will determine this length of time in part by the complexity of the job description(s) and skill set requirements.

Contractor Reporting/Documentation

Upon selection to perform the Services specified in an SOW, the Contractor's personnel will be required to provide NCIT with a Weekly Status Report (time sheet). The Weekly Status Report format and details will be provided to the Contractor by NCIT. All documentation must be in the format specified by and acceptable to NCIT.

The Contractor may also be required to provide NCIT with other documentation and/or reports as required by NCIT. All such documentation and reports must be in the format specified by and acceptable to NCIT.

Failure to provide NCIT with acceptable Weekly Status Reports, other documentation or reports may result in delay of payment to the Contractor and/or disqualification of the Contractor to perform work on the SOW. If a Contractor repeatedly fails to provide NCIT with acceptable documentation or reports, the Contractor may be disqualified from performing any Services under this Agreement. NCIT will be the final judge of whether documentation and reporting requirements are being met by the Contractor.

Other Considerations

All personnel utilized by the Contractor in connection with fulfilling its obligations pursuant to or arising from this Agreement shall be employees of the Contractor or, if applicable, the Contractor's Agents and shall be in compliance with all applicable state, federal, and local laws relating to employees generally, including, without limitation, immigration laws.

The Contractor is responsible for validating that all personnel proposed to work under an SOW have the skills and experience identified on the resumes, whether by testing for specific skill sets or through thorough interviews performed by a Subject Matter Expert (SME) with knowledge of the requested "Support Service Category". Vendors are responsible for ensuring the proposed personnel are qualified to perform the task(s) and meet the skill set requirements of the job position under consideration. If NCIT determines that such personnel do not possess the requisite skills, the Contractor shall provide a replacement acceptable to the County.

NCIT will provide workspace and facilities for all Contractors performing Supplemental Staffing Services under an SOW, as appropriate.

NCIT will provide the necessary computer equipment and computer resources to meet the project

requirements unless otherwise stated in the SOW.

Pricing Schedule (Total Firm Fixed Prices)

Rates for this Contract will remain firm for the life of the Contract. This does not preclude any Contractors from offering a Rate lower than the established Rate in the Agreement in response to any SOW. All Rates are to be inclusive of any travel, living, and related expenses. The County will not provide any extra compensation/ reimbursement for this purpose.

Contractor Performance Criteria

NCIT has established specific Contractor performance criteria and shall monitor and measure performance to ensure compliance with contract standards. Contractors will be required to meet or exceed the following performance criteria:

Certification of Employee Skill Sets and Capability to Perform Required Tasks.

NCIT may disqualify, **for any reason**, personnel presented by the Contractor for assignment who prove incapable of performing specific tasks assigned as described in the SOW.

These issues may include, but are not limited to, the following:

- The individual represented by the Contractor and placed on assignment does not have the skill sets and experience required to meet the job description requirements.
- The resumes submitted by the Contractor in response to a posted SOW are not indicative of required skill sets.
- Upon interview of an employee based on the resume or other representation by the Contractor, NCIT determines that the employee does not have the required skill sets or experience.
- Poor professional manner.

This includes, but is not limited to the Minimum Service Standards outlined in Section 15 above.

If NCIT terminates personnel placed on assignment by the Contractor because the personell's skill sets or experience are not as originally represented, NCIT shall not be responsible to pay the Contractor for that period. This also denotes Cause for termination of the Contract.

The Contractor ***must*** warrant that qualified personnel will provide services in a professional manner. "Professional manner" means that the personnel performing the services will possess the skill and competence consistent with the prevailing business standards in the Information Technology industry.

NCIT will be the exclusive and final judge of whether there is misrepresentation of a skill set, experience level, or professional manner lapses.

Personnel Substitution.

The Contractor shall not substitute personnel assigned to the performance of an SOW without the prior written consent of the County and/or NCIT. The Contractor shall provide notice to NCIT for any desired substitution accompanied by the names and references of the recommended substitute personnel. NCIT will approve or disapprove of the requested substitution in a timely manner. Upon such termination, NCIT may request acceptable substitute personnel or terminate the SOW services provided by such personnel.

Contractor Disqualification

A Contractor may be deemed unqualified by NCIT for repeatedly providing personnel who do not meet NCIT standards, failing to respond to NCIT requests, failing to promptly cure defects, continuing to omit or unsatisfactorily perform the required services, or for any other reason NCIT deems necessary.

Upon disqualification, the Vendor will no longer receive notification of SOWs released by NCIT.

NCIT reserves the right to remove from eligibility all Contractors that are inactive (have not responded to an SOW) for twelve (12) consecutive months during the Contract term.

Deliverables

Deliverables, as used herein, shall comprise all project materials, including goods, software, data, and documentation created during the performance or provision of services hereunder (the "Deliverables"). Deliverables are the property of the County and must be kept confidential, returned to NCIT, or destroyed as required by the County. Proprietary Contractor materials licensed to the County shall be identified to the County by the Contractor prior to use or provision of Services hereunder and shall remain the property of the Contractor. Embedded software or firmware shall not be a severable Deliverable. If the work performed by the Contractor requires the development of application or systems software, all software source and object code is the property of Nassau County.

Change Management Request

A Change Management Request shall be required to authorize an amendment of the SOW in scope and/or dollar value.

No work requested in the Change Management Request may be performed until the Change Management Request has been approved and signed by both NCIT and the Contractor. However, a Change Management Request may require an amendment or advisement of the Agreement. In the case where an amendment or advisement of the Agreement is required, no work may be performed until the amendment or advisement have been fully approved and executed by Nassau County and certified by the Clerk of the Legislature. The Contractor will be responsible for making sure all required approvals have been obtained prior to proceeding with any work on an SOW.

Nassau County will not be liable for any work performed without all necessary Nassau County approvals.

The Change Management Request will state the scope of work requested, the rationale for the change, the responsible parties that will perform the work, a dollar amount of the costs of the request, net agreement impact including the impact on the project schedule and the appropriate approval signatures. The Change Management Request must also specify any changes to the completion deadlines specified in the SOW.

The Contractor shall be responsible for maintaining documentation denoting any changes agreed upon with the County.

The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation.

Rule:

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled “Participation by Minority Group Members and Women in Nassau County Contracts,” governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

- (b) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgradings, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.
- (c) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor’s obligations herein.
- (d) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.
- (e) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises (“Certified M/WBEs”) as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.
- (f) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.
- (g) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best-Efforts Checklist.
- (h) Contractors for projects under the supervision of the County’s Department of

Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.

- (i) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best-Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.
- (j) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.
- (k) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.
- (l) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.
- (m) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:
 - a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
 - b. If efforts to resolve such matter to the satisfaction of all parties are

unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.

- c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrator's award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").
- (m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. About Brown & Weinraub

Brown & Weinraub, PLLC is New York's top lobbying firm, representing a broad spectrum of companies from Fortune 500 to start-ups doing business or seeking to expand in New York.

Founded in 2001 by two lawyers who gained respect for each other's expertise and approach while working for Governor Mario M. Cuomo, the firm has grown to include more than 30 professionals with backgrounds in government and the private sector. With a team of individuals previously employed by NYS executive and legislative branches of government, local government, regulatory agencies, the financial service industry, health service providers, higher education entities, business development and advocacy organizations, as well as elected officials, Brown & Weinraub is at the forefront of strategic consulting and government operations and analytics.

Every member of our staff has been in positions where they had to find solutions, provide critical guidance, and make difficult decisions; we find a way.

Brown & Weinraub prides itself on employing creativity and knowledge to overcome obstacles and advance the interests of its clients. Clients benefit from experienced knowledge of the

state budget, funding streams, procurement, policy development, the legislative process – coupled with insights into and relationships with the individuals and entities involved.

Experience & Relationships

Brown & Weinraub is well experienced in advancing agendas that support broader goals – including effective use of government resources. We are similarly skilled at preventing the passage of legislation and implementation of regulations for which the negative implications are not fully understood. The strong relationships we have established with staff in the Governor's office and at key Executive agencies, as well as throughout the legislature and with officials in NYC and municipalities across the state, are based on data-driven advocacy. Members of the Brown & Weinraub team have credibility from having served in government and representing respected clients.

Brown & Weinraub employs a team approach to development of strategy and execution of advocacy efforts. As a result, clients benefit from the broadest possible range of ideas, experiences, and relationships. The following individuals will serve as the primary team for this engagement:

David Weinraub is the managing partner of the firm. He sets the overarching vision for the firm and provides the strategic framework necessary to meet each client's objectives. David was a member of Governor Mario M. Cuomo's senior staff, serving as Director of Legislative and Intergovernmental Affairs, which included policy coordination between NYS and NYC. He was also Counsel to Lieutenant Governor Stan Lundine and Director of Regional Services for the Department of State. The common theme of David's government service – confidential, high level, complex assignments with little margin for error. Throughout his tenure, he managed teams of diverse personnel and delivered victories across program areas and across the state. David regularly was asked to develop campaign plans for a variety of ballot initiatives and to advise on numerous elections at all levels of government.

Ron Greenberg whose more than two-decade-long career in NYS government included service as Deputy Budget Director to three governors, Deputy of Enterprise Shared Services, and Assistant Deputy Commissioner of Tax Policy. Ron developed and executed the statewide strategy for an enterprise-wide shared services program and was the architect of the most significant restructuring of technology services across New York State agencies. At his direction a single statewide Information Technology agency was created by consolidating the offices of over fifty state CIOs and an almost \$1 billion budget.

Brian Matthews brings to the firm more than 30 years of experience in New York State Government throughout which he managed financial transactions and contracting. Most recently, Brian served as Chief Financial Officer for the Office of General Services (OGS) – the primary NYS government procurement and asset management entity. Brian similarly managed budgetary affairs and contracts at the Office of the New York State Comptroller where he was Director of the Bureau of Financial Administration. Brian has maintained a special interest in MWBE/MBE contracting, he is recognized among New York's MWBE Power 50 and the Power of Diversity: Black 100 by *City & State*.

Mary Beth Labate has more than 30 years of experience in government and public policy including a variety of leadership roles within the Budget Division where she ultimately served as NYS Budget Director; her areas of focus included the economic development, higher education, human services, transportation, and environment sectors. Following her position as Senior Advisor to the Chancellor for Fiscal Policy at the State University of New York, Mary Beth served as President of the Commission on Independent Colleges and Universities (CICU), an Albany based not-for-profit organization that represents the chief executives of New York's 100+ independent (private, not-for-profit) colleges and universities on issues of public policy.

Michael Cassidy joined Brown & Weinraub after serving as Assistant Director of State Operations for Governor Andrew M. Cuomo. His interactions with state agency staff and representatives of the State Budget Division, as well as his colleagues in the Governor's office, positions him as a resource in helping familiarize government officials with your agenda. Previous experience in policy development for the NYS Legislature also earned him a positive reputation with members of the Assembly and Senate and their staffers. At the firm Mike's diverse portfolio includes technology organizations, energy and development entities and institutions of higher education, among others.

Mike recently was recognized among New York's Responsible 100 for forward-thinking policy development by *City & State NY*.

Evan Rantzaklis deploys his extensive political campaign experience to help Brown & Weinraub enhance the advocacy strategy services it provides to all clients. As Executive Director of the New York State Democratic Senate Campaign Committee (DSCC), Mr. Rantzaklis assisted in crafting, and was integral in executing, the blueprint that resulted in the Senate's first "Super-Majority" in modern history. He also was the committee's principal point of contact for all Democratic Senate candidates across the state. As a result of this and his prior work in the NYS legislature Evan will be particularly helpful in our work elevating your profile among members of the Legislature.

Evan was recognized by *City & State NY* among New York's Political Power 100 and by *PoliticsNY* as a Power Player in the 2022 Election Cycle.

Services

RTI has been providing business and information technology consulting services to its clients for more than 37 years. We have helped our clients grow through the waves of information technology change over this time, starting from mainframe applications, then moving to client/server

applications and today's web-based applications. We have consistently upgraded the skills of our people to meet our client's current and future needs.

Today, RTI is continuously developing and deploying its capacity to provide the right people, services and products to our clients. The various services we offer to our clients are:

Business and IT Consulting

RTI recognizes that our client base of businesses, government and not-for-profit organizations is consistently faced with problems and opportunities, constraints and goals, risks and rewards. Our consultants help our clients see where they are and where they can go in today's ever-changing business and information technology (IT) environment.

Mobile App Design and Development

RTI offers design and development of customized mobile apps in three platforms: iOS, Android and Windows. RTI has implemented mobile apps for various State and County Government agencies such as the MTA and Nassau County. "See Something Say Something" mobile app for the MTA and "Crime Stoppers" mobile app for the Nassau County Police Department was developed and implemented by RTI. These applications allowed local constituents the ability to report an incident via photo or video immediately to appropriate department or person with GPS location of the incident for immediate further action. .

Application Development

When it's time for organizations to upgrade or replace important information systems, they will typically need additional personnel to complete these projects. RTI has the ability to provide our clients with the quantity and quality of the resources needed to complete these projects without adding to our client's permanent headcount. We have personnel who are experienced in working with the latest web-based and wireless technologies, as well as legacy client/server and mainframe architectures. We can assist in all phases of the application development life cycle, including requirements definition, functional design, technical design, programming, testing, conversion, implementation and ongoing support.

Systems Integration

In addition to performing custom application development, RTI personnel have extensive experience in implementing enterprise application software solutions from several leading vendors. This includes extensive experience with PeopleSoft Human Resources and Financial applications, SAP Supply Chain Management applications, and software solutions from Oracle, Manugistics and Cognos. RTI personnel typically assist our clients with systems integration tasks such as modification analysis, data mapping and conversion, interface design and development, and report design and development.

Cloud Capabilities and Services

Through arrangements with local Cloud Service Providers, RTI has augmented our portfolio of services to include various cloud-based services, including public and private cloud hosting services, colocation services and web hosting services to clients in the key markets we serve. One such example is the New York State Energy Research and Development Authority (NYSERDA).

NYSERDA needed a Private Cloud Hosting and Disaster Recovery solution for its production PeopleSoft applications environment.

RTI teamed with Webair (now Opti9 Technologies) to provide the solution to host NYSERDA's production servers while also providing value-added services required to support certain administrative tasks for NYSERDA. As an extension of our relationship with Webair, RTI is listed as a Reseller of Lot 3 – Cloud Services for Webair on the New York State OGS Information Technology Umbrella Contract – for Manufacturer Based cloud services.

RTI is also a member of the Amazon Partner Network, allowing us the ability to offer a full-suite of AWS solutions to our clients, which includes software, hardware, training, and consulting services.

Cloud Migration

For those clients that have embraced digital transformation and have decided to move critical business applications to the cloud but do not have the people that can perform the necessary tasks involved to get there, RTI can help. As a partner in Microsoft's Cloud Solution Provider (CSP) program, RTI is able to provide our clients with the complete solution including the Microsoft software licenses and cloud migration services to take a client from its existing on-premises environment to a cloud-based environment for productivity applications such as Microsoft 365, or to mission-critical ERP solutions such as Microsoft Dynamics 365.

Another example is our work performed with a local medical consortium, where we leveraged Microsoft's Azure Cloud Services to fully implement a solution based off Microsoft 365 software technology. RTI is providing both the licenses and services to migrate three hospitals to one unified email and calendaring environment, and to a single, unified Active Directory and Domain structure for the hospital system.

Another example is RTI's experience pioneering, creating, developing, and implementing E-Forms by leveraging the Oracle Infrastructure Cloud, allowing our client to convert hard copy versions of their standard forms to web-based fillable forms in their database that increase the ease and safety, and anonymity of use for the user, to keep track of the workflow, increase efficiency, and make the process more sustainable.

Cyber Security Assessments

At RTI, we provide encrypted Cyber Security assessment service that helps businesses and establishments to overcome threats and keep customers stress-free of their data. Cybersecurity plays a vital role in keeping databases secure in the Web. Cybersecurity encompasses everything that pertains to protecting our sensitive data, Personally Identifiable Information (PII), Protected Health Information (PHI), personal information, and intellectual property, data, and governmental and industry information systems from theft/cyber-leak or any damage attempted.

Organizations are progressing and moving faster to remote working arrangements such as work-from-home. Their teams are now facing challenges to Evaluate cybersecurity risks brought in by the market shift. We endeavor to make remote working more secure for the future, assuring digital trust by our integrated and robust security systems, which are security checked on a routine basis

for even more safety. We have successfully enabled our clients to securely work remotely with a sophisticated yet integrated approach to protect data, thus minimizing the risk that could have resulted in controlling loss.

RTI is currently in collaboration with NYC DoITT (now Mayor's Office of Technology and Innovation) to provide cyber security staff augmentation services to the New York City Cyber Command (NYC3), which is essential to leading the City's cyber defense efforts, working across more than 100 agencies and offices to prevent, detect, respond, and recover from cyber threats. NYC Cyber Command is committed to protecting NYC infrastructure, including direct support of increasingly vital life safety, revenue generating, and COVID response operations and critical systems from malicious attacks through the use of the latest technologies. The rapid shift to telework supported the acquisition of 300k+ new City-owned devices that facilitate remote access and remote learning; these have significantly expanded the City's attack surface.

Our Cyber Security assessment systems are designed and developed to help clients apply the right solutions to keep their data and systems secure, protected, and resilient to change.

We have previously conducted these Assessment Services for two of the largest Electric Utility Providers on Long Island, where we conducted Black Box and Grey Box Testing of their External and Internal Environment (Firewalls, Public Facing Web Applications, Remote Access Applications and Services [VPN, Remote Desktop], and File Access Services), and offered solutions to any weaknesses that best met NERC-CIP Standards. RTI was engaged in a LIPA Cyber Security assessment at LIPA's headquarters facility.

RTI is also currently working as a prime contractor with the Bureau of Indian Education rolling out an eLMS (electronic Learning Management System) Solution for grades K – 12 in the BIE schools. In addition to this rollout, RTI is performing Security Assessment & Remediation Services on the eLMS application.

Web-Based Software Solutions

In addition to being a consulting company, RTI is also in the business of developing web-based software solutions. Following a proven methodology, we develop custom software solutions and e-business applications. These software solutions are made available to clients as either hosted applications or licensed for installation and tailoring at our client's sites

One example of this was RTI's work implementing the first Shared Government Services Portal in the country. We provided a software solution to the Great Neck peninsula, which connected all of its 9 villages, local school district, fire and police departments, and local libraries on to a single platform. This enabled all entities the ability to share bids, resources, emergency notifications, calendars and other local matters in a quick and efficient manner. It also provided capabilities for posting broadcast announcements, short training topics, and personal interest stories and allowed links to each department's web site, email system, and other information repositories and communication resources.

Industry Focus

Our services are mainly focused on Federal Government, Local and State Government, City Government agencies, Educational Institutions including SUNY colleges, Universities, school districts.
