Responsibility Determination Memo

DPW Summary Finding

It is the Department's opinion that based on the information known to the Department and summarized in this memorandum, that the vendor is a responsible contractor for the purpose of being awarded the above-referenced contract.

NYS Standard for State and Municipal Contract Approval

Prior to the award of a contract, New York State agencies and political subdivisions, are required to make a determination of responsibility of the proposed vendor. State Finance Law §163 (9) (f); Highway Law §38; Public Building Law §8; General Municipal Law §103. General Municipal Law §103 requires the County to award contracts to a "responsible bidder" but does not define that term. However, the State Finance Law, which is the analogous law for contracting by New York State agencies, defines responsible as: "financial ability, legal capacity, integrity and past performance of a business entity and as such terms have been interpreted relative to public procurements." NY CLS St. Fin §163 (1) (c). This standard is equivalent to the standard applied to procurements pursuant to NYGML §103. *Matter of AAA Caring & Rubbish Removal, Inc. v. Town of Southeast* 17 N.Y. 3d 136 (2011)

The NY State Office of General Services employees the FLIP analysis -financial ability, legal capacity, integrity and past performance – to meet its obligation to make a responsibility determination.

Application of the FLIP test

As explained in this memorandum, the FLIP test, can be used to evaluate a vendor's responsibility.

1. Financial and Organizational Capacity
   The Department has reviewed materials supplied by vendor as required by the bid documents and is satisfied that the vendor has met the financial and organizational capacity as required by the bid documents.

2. Legal Authority
   Vendor is not debarred. Vendor possesses requisite licenses.

3. Integrity
Vendor possesses requisite business integrity-analysis of vendor information described in later portion of this memorandum.

4. Past Performance
Based upon the vendor's prior performance on County contracts, as well as a check of vendor's reference, vendor is qualified to perform the work for the above-referenced contract.

Nassau County Procurement Policy Requirements

Similarly, the Nassau County Procurement Policy states that, "a vendor is deemed responsible to be awarded a contract when it has demonstrated that it has the integrity and capacity to perform the required services on behalf of the County." Nassau County Procurement Policy at Appendix E. Appendix E goes on to state that factors to consider in determining the responsibility of a vendor include: financial resources, organizational capacity, a satisfactory record of performance and a satisfactory record of business integrity - an analysis identical to the FLIP test.

For purposes of its consideration of responsibility, the County requires potential vendors to submit vendor disclosure forms. Those forms are used by the Department as a tool when conducting a vendor responsibility review with the intent of determining "if there exists any material adverse information impacting the vendor's capacity or integrity." Quoting Appendix E.

The following is quoted from Appendix E:

> For adverse information to be considered a factor in a vendor responsibility review, the information must be found to be material. Not all adverse information may be material. Materiality is greater for more recent events than for less recent ones, and materiality is greater for events concerning services more closely related to those required by the County than services that are less so. An event is considered most material when it concerns services equivalent or similar to those required by the County, has occurred recently, occurred in close geographic proximity to the County, and involves one or more individuals or organizational departments that may be involved in the conduct of the County contract. Also relevant in this assessment is whether the event involves a relatively large or small amount of money, services or product; whether the event involves a threat to life, health, safety, or property, whether criminality or possible criminality is involved; and the quantity of adverse information. In addition, any adverse information discovered by a department, which should have been, but was not disclosed by the vendor on the appropriate disclosure form(s) may be considered material.
>
> Examples of adverse information that may not be considered material include adverse social media posts or poor reviews of a company posted on the internet. In addition, adverse information that occurred and/or was resolved more than five years ago generally is not considered material, although once such information has been identified the department conducting the review should investigate whether any similar subsequent event(s) occurred that may be subject to further analysis or suggesting a concern regarding the vendor's corporate culture.

SUBJECT: Contract No: T62023-02DR
VHB Engineering, Surveying, Landscape Architecture and Geology, P.C.
South Shore Signal Design Amendment
Responsibility Determination Memo

A finding of nonresponsibility has significant implications for the vendor, since subsequent to that determination the vendor must disclose it in future solicitation responses to public entities. Therefore, the finding must be based upon evidence of a sufficiently severe failure of capacity and/or integrity on the part of the vendor. Any adverse information which is not deemed to be sufficient for a finding of nonresponsibility must be demonstrated by the vendor to have been addressed sufficiently through implementation of corrective actions and/or plans to ensure that the adverse event(s) shall not impact or recur during the conduct of the County contract under consideration. Corrective actions that may be considered in this regard include, but are not limited to, termination of the employee(s) involved, introduction of new policies and procedures, employee trainings, reorganization of the vendor's structure, introduction of new internal or external monitors, payment of all fines, satisfactory resolution of the matter by the investigating entity, etc.

Application of the Materiality Evaluation to Determine Vendor Integrity

As described in this memorandum, the Nassau County Procurement Policy at Appendix E identifies factors that should be considered when determining if the adverse information available about a vendor rises to level of materiality (vendor responsibility determination is dependent upon material information).

Adverse Information Review

Vendor reports that in 2021 it paid a three hundred and ninety-six dollar fine because of its misclassification of a worker in its unemployment insurance account. Vendor reports that it paid a five hundred dollar fine to the NJDEP due its lab's failure to pass a non-potable water proficiency test. Vendor reports that one of its principals, in 2019 prior to joining VHB, paid a six hundred dollar penalty to the New Jersey Site Remediation Professional Licensing Board. None of the adverse information reported is material, particularly in the context of the contract work to be performed for the County. The Department has concluded that the vendor is a responsible vendor for the performance of the scope of work in Contract T62023-02DR.

On a regular basis, VHB shares with senior VHB Northeast regional employees a list of proposals VHB marketing is working on and considering. There is a regular conference call to discuss the same. Each of VHB's New York Office Managing Directors has a separate monthly discussion with the Northeast Regional Manager where key proposals and projects on which VHB is currently working are discussed. VHB's leadership in VHB's offices outside the Northeast Region also discuss active proposals and projects within their domains.

Additionally, VHB project managers are, on a daily basis, informed of current proposals and new projects through a VHB conflicts of interest system and, through this system, employees are provided with the opportunity to identify actual or potential conflicts. If an employee identifies an actual or potential conflict in this manner, VHB's legal department is notified. VHB also performs any required due diligence by circulating notices to all relevant employees. If VHB determines that a conflict exists, VHB will contact the client to discuss appropriate next steps.

Encumbrance No. CFPW21000018
RFP# PW-T62023-02D/PIN 0989.23

This Department procured a contract to VHB Engineering, Surveying, Landscape Architecture and Geology, P.C. (VHB) to provide design services for South Shore Signal Design (CFPW21000018) for our Traffic Engineering Unit. This work included the design of thirty-six (36) traffic signals and seven (7) traffic cameras at various locations throughout the South Shore of Nassau County.

This agreement was originally signed for an amount of $517,697.00. Due to unforeseen circumstances additional design efforts are required to complete the design of the project.

This Department is requesting to increase the cap by sixty-one thousand twelve dollars and seventy-nine cents ($61,012.79). The increase in cap will allow for the additional design efforts to be completed and enable McLean to produce final plans. The new cap for the project will be five hundred seventy-eight thousand seven hundred nine dollars and seventy-nine cents ($578,709.79).

The Contractor shall take all actions necessary or appropriate to meet the obligation described in the immediately preceding sentence, including obtaining and maintaining, and causing all Contractor Agents to obtain and maintain, all approvals, licenses, and certifications ("Approvals") necessary or appropriate in connection with this Agreement.

8. Indemnification; Defense; Cooperation. (a) The Contractor shall be solely responsible for and shall indemnify and hold harmless the County, the Department and its officers, employees, and agents (the "Indemnified Parties") from and against any and all liabilities, losses, costs, expenses (including, without limitation, attorneys' fees and disbursements) and damages ("Losses"), arising out of or in connection with any acts or omissions of the Contractor or a Contractor Agent, regardless of whether due to negligence, fault, or default, including Losses in connection with any threatened investigation, litigation or other proceeding or preparing a defense to or prosecuting the same; provided, however, that the Contractor shall not be responsible for that portion, if any, of a Loss that is caused by the negligence of the County.

(b) The Contractor shall, upon the County's demand and at the County's direction, promptly and diligently defend, at the Contractor's own risk and expense, any and all suits, actions, or proceedings which may be brought or instituted against one or more Indemnified Parties for which the Contractor is responsible under this Section, and, further to the Contractor's indemnification obligations, the Contractor shall pay and satisfy any judgment, decree, loss or settlement in connection therewith.

(c) The Contractor shall, and shall cause Contractor Agents to, cooperate with the County and the Department in connection with the investigation, defense or prosecution of any action, suit or proceeding in connection with this Agreement, including the acts or omissions of the Contractor and/or a Contractor Agent in connection with this Agreement.

(d) The provisions of this Section shall survive the termination of this Agreement.

9. Insurance. (a) Types and Amounts. The Contractor shall obtain and maintain throughout the term of this Agreement, at its own expense: (i) one or more policies for commercial

general liability insurance, which policy(ies) shall name "Nassau County" as an additional insured and have a minimum single combined limit of liability of not less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) aggregate coverage, (ii) if contracting in whole or part to provide professional services, one or more policies for professional liability insurance, which policy(ies) shall have a minimum single limit liability of not less One Million Dollars ($1,000,000.00) per claim (iii) compensation insurance for the benefit of the Contractor's employees ("Workers' Compensation Insurance"), which insurance is in compliance with the New York State Workers' Compensation Law, and (iv) such additional insurance as the County may from time to time specify.

(b) Acceptability; Deductibles; Subcontractors. All insurance obtained and maintained by the Contractor pursuant to this Agreement shall be (i) written by one or more commercial insurance carriers licensed to do business in New York State and acceptable to the County, and which is (ii) in form and substance acceptable to the County. The Contractor shall be solely responsible for the payment of all deductibles to which such policies are subject. The Contractor shall require any subcontractor hired in connection with this Agreement to carry insurance with the same limits and provisions required to be carried by the Contractor under this Agreement.

(c) Delivery; Coverage Change; No Inconsistent Action. Prior to the execution of this Agreement, copies of current certificates of insurance evidencing the insurance coverage required by this Agreement shall be delivered to the Department. Not less than thirty (30) days prior to the date of any expiration or renewal of, or actual, proposed or threatened reduction or cancellation of coverage under, any insurance required hereunder, the Contractor shall provide written notice to the Department of the same and deliver to the Department renewal or replacement certificates of insurance. The Contractor shall cause all insurance to remain in full force and effect throughout the term of this Agreement and shall not take or omit to take any action that would suspend or invalidate any of the required coverages. The failure of the Contractor to maintain Workers' Compensation Insurance shall render this contract void and of no effect. The failure of the Contractor to maintain the other required coverages shall be deemed a material breach of this Agreement upon which the County reserves the right to consider this Agreement terminated as of the date of such failure.

10. Assignment; Amendment; Waiver; Subcontracting. This Agreement and the rights and obligations hereunder may not be in whole or part (i) assigned, transferred or disposed of, (ii) amended, (iii) waived, or (iv) subcontracted, without the prior written consent of the County Executive or his or her duly designated deputy (the "County Executive"), and any purported assignment, other disposal or modification without such prior written consent shall be null and void. The failure of a party to assert any of its rights under this Agreement, including the right to demand strict performance, shall not constitute a waiver of such rights.

11. Termination. (a) Generally. This Agreement may be terminated (i) for any reason by the County upon thirty (30) days' written notice to the Contractor, (ii) for "Cause" by the County immediately upon the receipt by the Contractor of written notice of termination, (iii) upon mutual written Agreement of the County and the Contractor, and (iv) in accordance with any other provisions of this Agreement expressly addressing termination.

As used in this Agreement the word "Cause" includes: (i) a breach of this Agreement; (ii) the failure to obtain and maintain in full force and effect all Approvals required for the services described in this Agreement to be legally and professionally rendered; and (iii) the termination or impending termination of federal or state funding for the services to be provided under this Agreement.

(b) By the Contractor. This Agreement may be terminated by the Contractor if performance becomes impracticable through no fault of the Contractor, where the impracticability relates to the Contractor's ability to perform its obligations and not to a judgment as to convenience or the desirability of continued performance. Termination under this subsection shall be effected by the Contractor delivering to the commissioner or other head of the Department (the "Commissioner"), at least sixty (60) days prior to the termination date (or a shorter period if sixty days' notice is impossible), a notice stating (i) that the Contractor is terminating this Agreement in accordance with this subsection, (ii) the date as of which this Agreement will terminate, and (iii) the facts giving rise to the Contractor's right to terminate under this subsection. A copy of the notice given to the Commissioner shall be given to the Deputy County Executive who oversees the administration of the Department (the "Applicable DCE") on the same day that notice is given to the Commissioner.

(c) Contractor Assistance upon Termination. In connection with the termination or impending termination of this Agreement the Contractor shall, regardless of the reason for termination, take all actions reasonably requested by the County (including those set forth in other provisions of this Agreement) to assist the County in transitioning the Contractor's responsibilities under this Agreement. The provisions of this subsection shall survive the termination of this Agreement.

12. Accounting Procedures; Records. The Contractor shall maintain and retain, for a period of six (6) years following the later of termination of or final payment under this Agreement, complete and accurate records, documents, accounts and other evidence, whether maintained electronically or manually ("Records"), pertinent to performance under this Agreement. Records shall be maintained in accordance with Generally Accepted Accounting Principles and, if the Contractor is a non-profit entity, must comply with the accounting guidelines set forth in the applicable provisions of the Code of Federal Regulations, 2 C.F.R. Part 200, as may be amended. Such Records shall at all times be available for audit and inspection by the Comptroller, the Department, any other governmental authority with jurisdiction over the provision of services hereunder and/or the payment therefore, and any of their duly designated representatives. The provisions of this Section shall survive the termination of this Agreement.

13. Limitations on Actions and Special Proceedings against the County. No action or special proceeding shall lie or be prosecuted or maintained against the County upon any claims arising out of or in connection with this Agreement unless:

(a) Notice. At least thirty (30) days prior to seeking relief the Contractor shall have presented the demand or claim(s) upon which such action or special proceeding is based in writing to the Applicable DCE for adjustment and the County shall have neglected or refused to make an adjustment or payment on the demand or claim for thirty (30) days after presentment. The Contractor shall send or deliver copies of the documents presented to the Applicable DCE under this Section to each of (i) the Department and the (ii) the County Attorney (at the address specified above for the County) on the same day that documents are sent or delivered to the Applicable DCE. The complaint or necessary moving papers of the Contractor shall allege that the above-described actions and inactions preceded the Contractor's action or special proceeding against the County.

(b) Time Limitation. Such action or special proceeding is commenced within the earlier of (i) one (1) year of the first to occur of (A) final payment under or the termination of this Agreement, and (B) the accrual of the cause of action, and (ii) the time specified in any other provision of this Agreement.

14. Work Performance Liability. The Contractor is and shall remain primarily liable for the successful completion of all work in accordance this Agreement irrespective of whether the Contractor is using a Contractor Agent to perform some or all of the work contemplated by this Agreement, and irrespective of whether the use of such Contractor Agent has been approved by the County.

15. Consent to Jurisdiction and Venue; Governing Law. Unless otherwise specified in this Agreement or required by Law, exclusive original jurisdiction for all claims or actions with respect to this Agreement shall be in the Supreme Court in Nassau County in New York State and the parties expressly waive any objections to the same on any grounds, including venue and forum non conveniens. This Agreement is intended as a contract under, and shall be governed and construed in accordance with, the Laws of New York State, without regard to the conflict of laws provisions thereof.

16. Notices. Any notice, request, demand or other communication required to be given or made in connection with this Agreement shall be (a) in writing, (b) delivered or sent (i) by hand delivery, evidenced by a signed, dated receipt, (ii) postage prepaid via certified mail, return receipt requested, or (iii) overnight delivery via a nationally recognized courier service, (c) deemed given or made on the date the delivery receipt was signed by a County employee, three (3) business days after it is mailed or one (1) business day after it is released to a courier service, as applicable, and (d)(i) if to the Department, to the attention of the Commissioner at the address specified above for the Department, (ii) if to an Applicable DCE, to the attention of the Applicable DCE (whose name the Contractor shall obtain from the Department) at the address specified above for the County, (iii) if to the Comptroller, to the attention of the Comptroller at 240 Old Country Road, Mineola, NY 11501, and (iv) if to the Contractor, to the attention of the person who executed this Agreement on behalf of the Contractor at the address specified above for the Contractor, or in each case to such other persons or addresses as shall be designated by written notice.

17. All Legal Provisions Deemed Included; Severability; Supremacy. (a) Every provision required by Law to be inserted into or referenced by this Agreement is intended to be a part of this Agreement. If any such provision is not inserted or referenced or is not inserted or referenced in correct form then (i) such provision shall be deemed inserted into or referenced by this Agreement for purposes of interpretation and (ii) upon the application of either party this Agreement shall be formally amended to comply strictly with the Law, without prejudice to the rights of either party.

(b) In the event that any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(c) Unless the application of this subsection will cause a provision required by Law to be excluded from this Agreement, in the event of an actual conflict between the terms and conditions set forth above the signature page to this Agreement and those contained in any schedule, exhibit, appendix, or attachment to this Agreement, the terms and conditions set forth above the signature page shall control. To the extent possible, all the terms of this Agreement should be read together as not conflicting.

(d) Each party has cooperated in the negotiation and preparation of this Agreement. Therefore, in the event that construction of this Agreement occurs, it shall not be construed against either party as drafter.

18. Section and Other Headings. The section and other headings contained in this Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.

19. Administrative Service Charge. The Contractor agrees to pay the County an administrative service charge of Five Hundred and Thirty-Three dollars and no cents ($ 533.00) for the processing of this Agreement pursuant to Ordinance Number 74-1979, as amended by Ordinance Numbers 201-2001, 128-2006, and 153-2018. The administrative service charge shall be due and payable to the County by the Contractor upon signing this Agreement.

20. Executory Clause. Notwithstanding any other provision of this Agreement:

Work will include the design of all associated equipment. Electrical conduit shall be tested and deteriorated conduit shall be replaced where necessary. All work shall include mitigation measures for future storms equivalent to Superstorm Sandy.

3. Where communications exist, this design will incorporate the use of existing copper and fiber optic communications back to the Traffic Management Center in Westbury. Some locations may require the replacement of portions of communications cable or the installation of wireless communications.
4. The selected firm will provide contract documents in accordance with New York State Department of Transportation (NYSDOT) and the Procedures for Locally Federal Aid Projects Manual. Special coordination will be required in order to insure NYSDOT approval of the Advanced Detail Plans (ADP) and Plans, Specifications and Estimate (PS&E). All project work is intended to occur within public Right-of-Way (ROW).
5. The selected Firm shall be excluded from consideration for the construction related request for proposals that will succeed the final design.

Data Collection and Survey

1. The Firm will be required to survey, evaluate, and summarize existing traffic signal

equipment for thirty-two (32) signals listed in Section C.2. This summary should include left turn signals, vehicle head size, location and layout, emergency vehicle and /or railroad pre-emption, controller type, crosswalks, vehicle detection type, mast arm and strain pole heights, and condition of equipment.

2. The firm will be required to evaluate proposed signal work with the Nassau County Project Manager and forward their recommendations to the County for review.
3 The selected firm will be required to survey, evaluate and prepare a written report of the proposed VMS and camera locations listed in Section C.2. The selected firm shall develop a table and map indicating locations where adequate right-of-way exists to allow for the installation of a sign structure foundation and pole without disruption of existing underground utilities. The selected firm must ensure that adequate pedestrian facilities will be retained following installation, that there will be minimum overhead utility disruption, and ensure that each VMS sign will be clearly visible from the motorist's vantage point.
4 Although four (4) proposed VMS and three (3) camera locations have been identified, available right of way, viewing distance, underground utilities, and project budget may reduce the actual number of locations that will require a design plan. The County reserves the right to omit a location and replace with a new location. The selected firm may propose alternate locations to the project manager for review.
5 The selected firm will be required to evaluate the proposed locations in consultation with the Nassau County Project Manager and forward their recommendations to the County Project Manager.
6 Each location where work is necessary, mapping at a scale of 1" = 20' shall be obtained or created. 1:20 plans shall be prepared for each intersection where work will be performed.
7 The Firm shall perform archival search for property lines and right-of-way based on information available on tax maps and deeds. The Firm shall solicit underground and overhead information from involved utility companies.
8 Interconnect mapping shall be developed at a scale of 1" = 40' on an as-needed basis or as ordered by the project manager. 1:40 interconnect plans shall be developed only for locations where interconnect cable or conduit is being replaced or repaired as the result of storm damages.
9 Field edit plans. Identify features that may impact proposed work. This includes but is not limited to poles, hydrants, signs, fencing, manholes, storm water catch basins, and trees. The field survey should insure that no underground or overhead utilities are affected by the proposed installation.
10 Although not every signal may require a full rebuild, signals that are being modified will also require plan sheets.
11 The selected Firm shall conduct an evaluation of the pedestrian ramps within the area where work is being conducted. The evaluation shall follow PROWAG and Nassau County guidelines.

Mapping

1. Transfer mapping and field edit data to County standard-size base sheets with the standard Nassau County Department of Public Works, Traffic Engineering title block.
2. Plot property lines and rights-of-way on the base sheets for **each** location.
3. Plot utilities and existing Nassau County traffic equipment on the base sheets for each location.

Data Development

1. Develop data tables to categorize existing traffic signal locations including the Nassau County numerical designations for each location.
2. Develop data table to categorize proposed roadway speed data collection locations.
3. Develop data table to categorize incident management camera locations and proposed new camera locations.
4. Develop a table to categorize Curb Ramps based upon location, type, and size.

Technical Design Report (TDR)

1. The TDR shall evaluate recommended improvements and mitigation for the scope of this project. The Firm will work with Nassau County to assess the technologies that best suit the project site areas. The firm shall prepare a technical design report that will include, at a minimum, the following:
    i. Description of existing conditions and associated problems;
    ii. Description of the scope of work;
    iii. Design criteria;
    iv. Recommended mitigation measures;
    v. Schedule of anticipated design drawings;
    vi. Construction Schedule;
    vii. Preliminary cost estimation;
    viii. Inventory of curb ramps;
    ix. Evaluation of the use of APS signaling
2. While other documents may be cited for reference, the Technical Design Report must be able to stand on its own as the basis for design. The firm shall submit the report (5 copies) in draft form for review by the County. The firm shall meet with the County to discuss review comments and then revise and resubmit in final form (5 copies).

Specifications

1. NYSDOT Specifications and NYSDOT/Nassau County Special Specifications will be used for this design project. The Firm shall communicate any changes to NYSDOT and Nassau County specifications for approval by the County.
2. The Firm may be required to create new special specifications for items not currently used by the County. These new items would require submittal to NYSDOT for review and approval.
3. Final project specifications shall be stamped and signed by a New York State Professional Engineer.

County-Supplied Data

1. To the extent possible, Nassau County will provide information regarding the existing traffic signals and interconnect infrastructure at site locations. This information will be in the form of as-built plans and diagrams indicating above ground and underground cable locations as well as existing signal equipment. Plans showing the existing interconnect wiring will also be provided.
2. Nassau County can provide access to the Nassau County Geographical Information System (GIS) to assist in base map generation.
3. Nassau County will provide electronic files for all standard contract requirements.

Evaluation of Pedestrian Ramps

1. The Firm shall conduct an evaluation of the pedestrian ramps within the project area. The evaluation and subsequent design shall follow PROWAG and Nassau County guidelines.
2. For new pedestrian ramps that are installed under this project that do not meet PROWAG and Nassau County guidelines, a non-standard ramp justification form must be completed.

Pedestrian Signals

1. The selected Firm shall conduct an Accessible Pedestrian Signal (APS) feasibility evaluation for all intersections within the project area. The evaluation shall follow Nassau County guidelines. Those crossings where APS signaling is determined a priority will be included in the design services and added to the construction documents.
2. Pedestrian crossings shall incorporate pedestrian countdown signaling.

Final Design (ADP)

1. Develop and provide for County review, three (3) half-scale sets of advanced detail plans (approximately 90 percent complete) along with specifications and estimate of quantities for all traffic signals requiring a full re-build for each project.
2. Each proposed signal plan sheet must be accompanied by an equipment removal plan sheet and a cabinet wiring diagram table.
3. Advanced detail plans for each location shall identify curb lines, sidewalks, driveways, ROW, property lines, existing N.C. traffic equipment, and relevant utility information.
4. Engineers Estimate of Quantities table shall be provided.
5. Final plans shall be stamped and signed by a New York State Professional Engineer.

Final Plans (PS&E)

1. Modify the 1" = 20' advanced detail plans and estimate of quantity sheets in accordance with the County review for each project.
2. Prepare and submit one (1) completed copy of the complete PS&E package and contract documents with Nassau County Boilerplate for each project.
3. Prepare and submit final plans on paper, including the specifications and estimate of quantities for each project.
4. Estimate of quantities shall be listed in excel spreadsheet format, broken down by intersection, as well as one (1) master quantities sheet totaling item quantities for the entire project.
5. Submit eight (8) half-scale copies of the plans on paper and AutoCAD electronic files following final County approval, including the specifications and estimate of quantities for each project.

Meetings

1. Attend review meetings with the County and appointed consultants on the average of once per month in order to review job progress, resolve design issues and address and resolve other questions. The Firm shall prepare draft and final minutes of each meeting, and, after County approval, distribute final minutes to all attendees.

2. Attend all meetings with the County and representatives of DOT and/or Public in relation to these projects. The Firm shall prepare draft and final minutes of each meeting, and, after County approval, distribute final minutes to all attendees.
3. In addition, the Firm will be required to attend field meetings to discuss proposed equipment locations with the County project manager as well as any required meetings with public utility companies, FHWA, and DOT.

General Requirements

1. **PS&E submission for the South Shore Signal Design shall have a deadline of 12 months from Notice to Proceed.**
2. A project schedule must be submitted to the County Project Manager at the start of design and shall be updated monthly by the Firm.
3. The Firm will be expected to enter into a user agreement with Nassau County GIS Department in order to utilize Nassau County GIS Mapping as a base map reference.
4. The construction phase of this project is a Federal Aid project and requires that certain documents be prepared and submitted to the NYSDOT in order to advance the project to the construction phase. The Firm will be responsible for completing some Federal Aid documents in accordance with the Local Procedures Manual.
5. The Firm will be responsible to coordinate and attend any make-ready walk-thru meetings with the appropriate utility companies.
