Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for <u>each</u> of the following positions as indicated below:

- 1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
- 2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
- 3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
- 4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
- 5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- O Duly Authorized Representative
- O Local Stormwater Public Contact
- O Stormwater Management Program (SWMP) Coordinator
- O Report Preparer

MANHASSET BAY PROTECTION COMMITTEE THIRD PARTY CERTIFICATION STATEMENT

Pursuant to
Permit # GP-0-15-003 pg. 18 Part IV.G Reliance Upon Third Parties

In furtherance of the purposes set forth in the Manhasset Bay Protection Committee ("COMMITTEE") Inter-Municipal Agreement of 2015, the COMMITTEE shall undertake, to the extent practicable, the following activities on behalf of its member municipalities within their collective jurisdictions in order to assist in the fulfillment of NYS Phase II regulations (New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) provided that annual member dues and applied for grant funds (where applicable) are received:

Scope of Work:

Activities and Deliverables may include, but are not limited to the following:

Minimum Control Measure # 1 (Public Education and Outreach):

Prepare and conduct a public education and outreach program including the preparation of brochures and promotional give-aways, portable displays, presentations to community, business, educational, and/or stakeholder organizations, targeted mailings, press releases, articles for publication, an informational website, social media page, and educational signage.

Minimum Control Measure #2 (Public Involvement and Education):

Conduct public meetings for members of the public and stakeholders at critical junctures on major projects, develop and maintain e-mailing and postal mailing lists to keep the public appraised and involved in projects undertaken by the COMMITTEE, organize and assist in beach cleanups and wetland plantings to the extent possible, conduct attitude and awareness surveys, maintain and foster inter-relationships with community organizations, business organizations, recreation organizations, educational institutions, environmental organizations, and various levels of government.

Minimum Control Measure # 3 (Illicit Discharge Detection and Elimination):

Conduct water quality monitoring to document trends and detect unexpected changes in water quality, record and report observations of identified or suspected illicit discharges to appropriate agencies, assist in and help coordinate responses to identified or suspected illicit discharges, and assist in the maintenance and updating of the county's storm drain GIS mapping system.

Minimum Control Measure # 4 (Construction Site Stormwater Runoff Control):

Assist member municipalities in identifying available construction site stormwater runoff control measures, requirements and procedures, and report any observed instances of stormwater runoff from construction sites to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure # 5 (Post Construction Stormwater Management):

Assist member municipalities in identifying available post construction stormwater management control measures, requirements and procedures, and report any observed instances of post construction to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure #6 (Pollution Prevention / Good Housekeeping):

Assist member municipalities in identifying available pollution prevention / good housekeeping practices including, but not limited to information on pet waste management, Canada Goose control, household hazardous waste programs, and recycling programs.

Contracted Entity Certification Statement:

The Manhasset Bay Protection Committee understands that its member municipalities must comply with the requirements of New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) and any successor permit, and that it is unlawful for any person to directly or indirectly cause or contribute to a violation of water quality standards. The Committee agrees to provide, to the extent practicable, the above-described services on behalf of its member municipalities in order to assist them in the fulfillment of New York State Municipal Phase II requirements provided that annual member dues are received.

Manhasset Bay Protection Committee

The Manhasset Bay Protection Committee is an inter-municipal organization focused on addressing water quality and coastal issues with a coordinated, watershed-level approach. The Committee has 15 member municipalities who all voluntarily entered into an inter-municipal agreement. The Committee is funded through annual dues from these members.

The Committee's goals are to protect, restore, and enhance Manhasset Bay so as to insure a healthy and diverse marine ecosystem while balancing and maintaining recreational and commercial uses.

What you can do

Photo credit: Jennifer Wilson-Pines

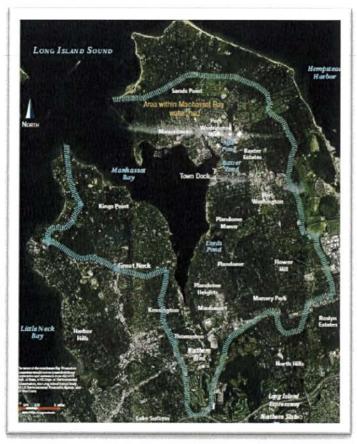

- Clean up after pets.
- Never put anything down a storm drain.
- Know where it goes: sewer or cesspool.
- Dispose of grease, "flushables," and chemicals properly, not down drains.
- Visit northhempstead.com/STOPprogram or call 311 to get the dates of hazardous material collections.
- Don't feed geese or ducks.
- Use a mulching mower to leave grass clippings and naturally fertilize.
- Volunteer e-mail for more information

Watershed

A watershed is an area of land that drains to a specific water body. The Manhasset Bay watershed, entirely within the Town of North Hempstead, is 10,000 acres of neighborhoods, village centers, industrial areas, and other uses whose surface and groundwater drains to the Bay.

Stormwater is any precipitation (rain, snow melt) that travels across the ground and is not absorbed by soil. As it travels, stormwater picks up pollution (e.g., bacteria from pet and bird waste, nutrients from fertilizers, and petroleum products from roads). It then travels untreated directly to Manhasset Bay.

www.facebook.com/manhassetbay/

The Manhasset Bay Protection Committee reminds you:

DO NOT FEED GEESE

Feeding geese food (such as bread) can cause:

- A painful and debilitating vitamin-deficiency disease called Angel Wing
- · Over-population
- Nesting in areas that interfere with humans and/or are

One goose can produce up to 2 lbs. of feces per day!

dangerous for the birds

Excessive bird droppings which are a source

of pollution (both bacteria and nutrients) to Manhasset Bay causing swimming closures

- Bird feces interfering with the use of athletic fields and other locations
- Birds learning not to fear humans, causing a possibly dangerous situation
- Aggressiveness
- An increased risk of vehicle/goose and aircraft/goose collisions
- · Erosion leading to filling-in of the Bay

For more information, visit: manhassetbayprotectioncommittee.org/geese.htm

Please send comments, questions, etc. mbpcExec@gmail.com • 516-869-7983

Manhasset Bay Protection Committee

WHAT CAN BE DONE

To control nuisance goose populations

What you can do:

- Do not feed or leave out food for geese or other waterfowl and tell others to do the same
- Allow grass to grow tall along waterways: geese prefer to walk to water and will move away in search of areas with shorter grass
- Support local geese control programs

Resident Canada Geese do not migrate, instead staying local year-round.

Resident Canada Goose facts:

- Resident Canada Goose facts:

 One goose can produce up to 2 pounds of feces per day
 - · A goose can eat up to 4 pounds of grass per day
 - The population increases at a rate of 10-17% each year with one goose laying an average of 6 eggs per nest
 - Resident Canada Geese have a life span of up to 25 years
 - They were introduced by humans in the early 1900s.

The Manhasset Bay Protection Committee is an intermunicipal organization aimed at addressing water quality and coastal issues in Manhasset Bay with a coordinated, watershed-level approach.

MANHASSET BAY PROTECTION COMMITTEE

Phase II Activities Undertaken On Behalf of Member Municipalities March 10, 2018 to March 9, 2019 Permit Year

MCM #1 - Public Education and Outreach

Distributing educational materials and performing outreach to inform citizens about the impacts polluted stormwater runoff discharges can have on water quality.

- Continued a quarterly e-newsletter and grew the distribution list from 39 to 89 recipients.
 A link to sign-up is posted on the Committee's website and on the Facebook page. Four newsletters were released in this reporting period:
 - March 2018: https://mailchi.mp/6f82d2d4d7d7/manhasset-bay-protection-committee-newsletter-101937
 - Summer 2018: https://mailchi.mp/3cc357f1213a/mbpc-summer-2018-newsletter
 - Fall 2018: https://mailchi.mp/fc34472d4c96/fall-2018-newsletter
 - Winter 2019: https://mailchi.mp/5b1087333246/winter-2019-newsletter
- Developed and printed two new educational brochures:
 - "About Us" which has information on the Committee, watersheds, and stormwater pollution
 - "Bird education" which contained warnings to not feed geese, why it is harmful, and what you can do.
- Grew the Committee's Facebook presence (https://www.facebook.com/manhassetbay/) and participated in a social media campaign run this past summer by the Long Island Sound Study and the member organizations of its Citizens Advisory Committee, including the Manhasset Bay Protection Committee, which highlighted the problem of plastic waste to wildlife and water quality in Long Island Sound and the oceans. The campaign, with the hastag #DontTrashLIS, also included educational stickers to put on reusable water bottles with the call to "Ditch Single Use Plastics." This stickers have been and will continue to be distributed by the Committee.
- Manhasset Bay and/or the Protection Committee were the subject of over 20 news articles published during the reporting period. The list of news articles is attached.
- Added a "Don't Feed the Geese" web page about nuisance geese to the Committee's website (http://www.manhassetbayprotectioncommittee.org/geese.htm)
- Staffed an informational table with a watershed model and kids activities at the Port Washington HarborFest (June 3, 2018).
- Kept members apprised of updates and the existence of the Army Corps' New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study, portions of which could have serious deleterious effects on Manhasset Bay and the surrounding communities and Long Island Sound if constructed.
- Distributed approx. 200 fliers through the Port Washington Business Improvement District's (BID) goodie bags to transient boaters over summer 2018.
- Provided informational brochures about not feeding water fowl for the Town of North Hempstead's summer concert series.
- Began planning an upcoming joint protection committee meeting (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor Protection Committees, and Peconic

- Estuary Protection Committee, the Setauket Harbor Task Force, and Friends of the Bay to be held May 16, 2019 at the Friends of the Bay offices in Oyster Bay.
- Continued participating with Hempstead Harbor Protection Committee (PC), Oyster Bay/ Cold Spring Harbor PC, Town of Oyster Bay, and Friends of the Bay in CESSPOOL project to raise public awareness of the impact of onsite waste treatment systems (Coordinated Environmental Solutions to Septic Problems Occurring On Long Island). The CESSPOOL partners have been maintaining a website and Facebook page, and pushing for stronger legislation to protect Long Island surface waters from on-site wastewater pollution.
- Planned and held a 20th Anniversary Celebration of the Manhasset Bay Protection Committee in June 2018, which was well attended and included an honor given to Comptroller Thomas DiNapoli who started the Committee. The celebration included a boat tour of Manhasset Bay for municipal officials and helped raise awareness of Manhasset Bay and the Committee.
- Forwarded numerous newspaper articles in weekly and daily papers to municipal representatives and others on water quality issues important to Manhasset Bay.
- Responded to questions from both member municipalities and the public about the MS4 program, where stormwater pollution comes from, why does the Bay smell, and other inquiries
- Installed a replacement coastal interpretive educational sign for one vandalized in Sunset Park, Port Washington.
- Distributed educational brochures about stormwater pollution, organic gardening, impacts of pet feces on water quality, water conservation, clean boating, storm drain markings, and other water quality related topics.
- Kept the municipalities up-to-date on trainings and other local happenings (i.e., upgrades to the local Water Pollution Control District).

MCM #2 - Public Participation

Providing opportunities for citizens to participate in program development and implementation, including effectively publicizing public hearings and/or encouraging citizen representatives on a stormwater management panel.

- Held six (6) Manhasset Bay Protection Committee meetings (open to the public)
- Organized the annual Ocean Conservancy beach cleanup at Manorhaven Beach Town
 Park on September 29, 2018. 25 volunteers (adults, teens, and kids) picked up an
 estimated 200 pounds of trash. Two articles on the event were published in The Island
 Now (see attached reference list).
- Assisted in a volunteer tidal wetland planting with the Town of North Hempstead, Nassau County Soil and Water Conservation District, and the Hempstead Harbor Protection Committee in Port Washington (Mill Pond) in early May 2018. Over 2,000 plants were planted in roughly a 100 square foot area.
- Co-wrote letter in the *Port Washington News* in response to another letter about the tidal wetland planting in Mill Pond.
- Kept members apprised of updates and the existence of the Army Corps' *New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study*, portions of which could have serious deleterious effects on Manhasset Bay and the surrounding communities and Long Island Sound if constructed.
- Prepared and submitted a comment letter to the Army Corps' on said Feasibility Study.

- Participated in a public scoping meeting about the Army Corps Feasibility Study, coordinated by Congressman Tom Suozzi, at Kings Point in October 2018.
- Gave testimony at a State Assembly Hearing on Long Island Sound water quality held in Manhasset in August 2018.
- Served as the member representative for the Committee on the Long Island Nitrogen Action Plan's (LINAP) Nassau County Subwatershed Planning Advisory work group. Attended meetings and provided important updates to the municipalities.
- Continued to provide representation to the Long Island Sound Study (LISS) Citizens Advisory Committee and the LISS Management Committee Watersheds and Embayments work group. In that role, continued work to establish water quality monitoring of embayments as a priority and to develop a mechanism for regular (nongrant) funding to support monitoring efforts.
- Member of the Town of North Hempstead Waterfront Advisory Committee
- Purchased a handheld probe to expand the water quality monitoring program.
- Participated in Residents Forward's Youth Climate Summit on Saturday, April 28, 2018 at the Port Washington Public Library. Students ranged from 8th grade to seniors and came from the schools around Manhasset Bay, mostly.
- Planned and held a 20th Anniversary Celebration of the Manhasset Bay Protection Committee in June 2018, which was well attended and included an honor given to Comptroller Thomas DiNapoli who started the Committee. The celebration included a boat tour of Manhasset Bay for municipal officials and helped raise awareness of Manhasset Bay and the Committee.
- Began assisting Nassau County in preparation for their roll-out of the State-funded Septic Replacement Program.
- Volunteered as a judge at the Envirothon competition for Long Island high school students on April 25, 2018.
- Began planning an upcoming joint protection committee meeting (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor Protection Committees, and Peconic Estuary Protection Committee, the Setauket Harbor Task Force, and Friends of the Bay to be held May 16, 2019 at the Friends of the Bay offices in Oyster Bay.
- Provided input from a water quality standpoint to the Town of North Hempstead on changes to their waterfront zone.
- Distributed information on the Great Neck and Port Washington Water Pollution Control Districts' *Shed the Meds* collection programs and the Town of North Hempstead's STOP programs throughout the reporting period.
- Monitored changes in regulations and advised member municipalities, including NYSDEC's proposed permit and reporting changes, making sure members were aware of public comment periods. This also included updating municipalities on the Shellfish Pathogen TMDLs' rescissions.

MCM #3 – Illicit Discharge Detection and Elimination

Developing and implementing a plan to detect and eliminate illicit discharges to the storm sewer system (includes developing a system map and informing the community about hazards associated with illegal discharges and improper disposal of waste).

• Conducted a weekly water quality monitoring program (May through August) with North Hempstead Bay Constables and Nassau County Dept. of Health.

- Continued the CESSPOOL project to raise public awareness of the impact of onsite waste treatment systems (Coordinated Environmental Solutions to Septic Problems Occurring On Long Island). Proper maintenance of septic systems may reduce the incentive for homeowners and others to install illicit discharges to handle overflows.
- Included removing illegal downspout hook-ups as a "What You Can Do" tip on several newsletters and other publications.

MCM # 4 – Construction Site Runoff Control

Developing, implementing, and enforcing an erosion and sediment control program for construction activities that disturb 1 or more acres of land (controls could include silt fences and temporary stormwater detention ponds).

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and advised member municipalities, including EPA's proposed regulatory changes and NYSDEC's proposed permit and reporting changes
- Bay constables watched for unusual discharges or conditions while conducting weekly water quality monitoring

MC # 5 – Post Construction Runoff Control

Developing, implementing, and enforcing a program to address discharges of post-construction stormwater runoff from new development and redevelopment areas. Applicable controls could include preventative actions such as protecting sensitive areas (e.g., wetlands) or the use of structural BMPs such as grassed swales or porous pavement.

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and advised member municipalities, including EPA's proposed regulatory changes and NYSDEC's proposed permit and reporting changes
- Watched for unusual discharges or conditions while conducting weekly water quality monitoring (summer)

MCM # 6 – Good Housekeeping

Developing and implementing a program with the goal of preventing or reducing pollutant runoff from municipal operations. The program must include municipal staff training on pollution prevention measures and techniques (e.g., regular street sweeping, reduction in the use of pesticides or street salt, or frequent catch-basin cleaning).

- Committee members have shared information on which good housekeeping practices work through Committee meetings as well as changes to their good housekeeping programs.
- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.

FUTURE PLANS

• Install a Seabin, floating trash receptacle, at Town Dock to collect floating liter and debris. The Committee has teamed up with the Nassau County Soil and Water Conservation District, Hofstra University, and Residents Forward to facilitate volunteer

- opportunities, use citizen science to catalog was is collected, and will also be preparing educational materials.
- Continue the quarterly e-newsletter, educational presentations, and distributing brochures.
- Hire a web designer (BlueHost) and update the Committee website to make it more cohesive and user-friendly.
- Expand our educational brochure distribution through the Port Washington BID and also include information for new homeowners.
- Begin the development of a new Water Quality Improvement Plan for Manhasset Bay utilizing State and Committee funds.

# Phase II Activities Undertaken On Behalf of Member Municipalities March 10, 2018 to March 9, 2019 Permit Year

#### MCM # 1 - Public Education and Outreach

- Expanded Community Shellfish Gardening program in Cold Spring Harbor with the Village of Laurel Hollow, Cornell Cooperative Extension, Friends of the Bay, the Towns of Oyster Bay and Huntington, The Waterfront Center, St. John's Church, Three Harbors Garden Club, Adelphi University Community Oyster Restoration Effort, Cold Spring Harbor and Huntington high school students, girl scouts and the North Oyster Bay Baymen's Association to raise awareness of and engage residents in protecting water quality from initial public information meetings to online resources and bi-monthly cleanings of 75,000 oysters.
- Staffed an Oyster Bay/Cold Spring Harbor Protection Committee booth at the Oyster Bay Oyster Festival October 20-21, 2018. Booth served to educate 200,000 participants about the ecology of Oyster Bay and as a base for volunteers collecting thousands of pounds of recycled oyster shells.
- Participating with Manhasset Bay and Hempstead Harbor protection committees, Town of Oyster Bay and Friends of the Bay in CESSPOOL (Coordinated Environmental Solutions to Septic Problems Occurring On Long Island) to raise public awareness of impact of onsite waste treatment systems.
- Promoted "Get Pumped! Long Island" onsite wastewater treatment education campaign:
  - Distributed 500 "Get Pumped! Long Island" homeowner education kits including brochures, fact sheets and file folders to member municipalities.
  - Promoted residents to "Get Pumped!" through discount coupon at www.getpumpedli.org.
- Publicized public education and outreach activities in watershed through:
  - Web site event calendar maintained at web site
  - Facebook posts three sites: Oyster Bay/Cold Spring Harbor Protection Committee, Scoop the Poop Long Island and GetPumpedLI!
  - E-mail list
  - Posting signs
- Protection Committee featured in Newsday and several local weekly publications.

- Distributed with the Nassau County Soil and Water Conservation District in the distribution of two professional videos (one 30 minutes and one 5 minutes) entitled Stormwater Pollution and Green Infrastructure Solutions along with an accompanying brochure.
- Participated in:
  - May 2018 Harbor Clean-up
  - International Shoreline Clean-up September 2018
  - Long Island Sound Study Citizens Advisory Committee meetings
  - Maintenance of Rain Garden at the Cold Spring Harbor Library and Western Waterfront (Oyster Bay)
- Distributed public outreach materials including:
  - o Portable display with branded tent and table cloth
  - o Fact sheets:
    - About the Committee
    - Pump your system
    - Pick up after your pet
    - Don't feed the waterfowl
    - Green Household Cleaning Alternatives
- Attended a meeting with DEC Water Division representatives in Riverhead on October 3, 2018 to discuss the status of Shellfish Pathogen TMDLs and relayed summaries to HHPC municipalities.
- Monitored Nassau County Sewage Spill Reports
- Maintained Oyster Bay/Cold Spring Harbor Protection website (<u>www.oysterbaycoldspringharbor.org</u>) and Facebook page

#### MCM # 2 - Public Participation

- Engaged 60+ families in Cold Spring Harbor watershed to raise 1,000 oysters each (75,000 total) to increase awareness of and involvement in water quality issues affecting the water body. Program included a public meeting, two training days, four-six cleanings, and a year-end celebration.
- Held five (5) Oyster Bay/Cold Spring Harbor Protection Committee meetings (open to the public).
- Networked with local citizens groups Friends of the Bay, Theodore Roosevelt Audubon Sanctuary, North Shore Land Alliance, Long Island Sound Citizens Advisory Committee, Nassau County Soil and Water Conservation District, New York State Marine Education Association
- Maintained Oyster Bay/Cold Spring Harbor Protection Committee mailing list

 Financially contributed to Friends of the Bay Citizens Water Quality Monitoring Program.

#### MCM #3 - Illicit Discharge Detection and Elimination

- Continued to implement a multi-year C.E.S.S.P.O.O.L. public education program to raise awareness about the impact of discharges from onsite septic systems and the need to conduct regular maintenance. Proper maintenance of septic systems may reduce the incentive for homeowners and others to install illicit discharges to handle overflows.
- Hosted an Illicit Discharge Detection and Elimination public training for residents led by Cornell Cooperative Extension's Lorne Brousseau at St. John's Church.
- Pursuing possible illicit discharges in Cold Spring Harbor based on existing studies (Outfall #237).
- Supporting analysis of potential sources of pollution resulting in the closure of Laurel Hollow Village Beach.

#### MCM #4 - Construction Site Runoff Control

- Monitored changes in regulations and advised member municipalities of changes.
- Participated in several Stormwater Management Webinars

#### MCM #5 - Post Construction Runoff Control

 Monitored changes in regulations and advised member municipalities of changes.

#### MCM # 6 - Good Housekeeping

- Developed annual strategic priorities for Protection Committee.
- Developed checklist of recommendations from existing subwatershed stormwater studies for Mill River to implement.
- Implementing Comprehensive Canada Geese Management Program.
- Worked with Town of Huntington and Town of Oyster Bay Geese Peace program managers to enhance their programs.
- Developed and advocated for adoption of "Don't Feed Waterfowl" and "Pooper Scooper" model laws for municipalities that do not have them.

- Implementing comprehensive Pet Waste Management Program including sponsoring Pet Waste Stations in Bayville and promoting stations in other areas.
- Supported a successful effort to obtain state funds in the FY 2020 budget for one or more additional shellfish pathogen laboratories on Long Island. This will allow for more bacteria testing and more accurate pathogen TMDLs.

#### Other

- Managed the Oyster Bay/Cold Spring Harbor Protection Committee including:
  - o Hosting five (5) regular meetings approximately every other month
  - Maintaining Protection Committee mailing list and grant spreadsheet
- Monitored Nassau County Sewage Spill Notifications

# Oyster Bay/Cold Spring Harbor Protection Committee Third Party Certification Statement

#### Pursuant to Permit # GP-0-08-002 pg.12 Part IV.G MS4 Annual Report

In furtherance of the purposes set forth in establishing the Oyster Bay/Cold Spring Harbor Protection Committee ("Committee"), the Committee shall undertake, to the extent practicable, the following activities on behalf of its member municipalities within their collective jurisdictions in order to assist in the fulfillment of the NYS Phase II regulations (New York State Pollutant Discharge Elimination Systems ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-08-002) provided that funds either from grants or member dues are available.

#### Scope of Work:

Activities and Deliverables may include but are not limited to the following:

#### Minimum Control Measure #1 (Public Education and Outreach):

Prepare and conduct a public education and outreach program including the preparation of brochures, portable displays, targeted mailings, press releases, articles for publication, an informational website, promotional give-ways, signage, and presentations to the community, business and/or stakeholder organizations.

#### Minimum Control Measure #2 (Public Involvement and Education):

Conduct public meetings for members of the public and stakeholders at critical junctures on major projects, develop and maintain e-mailing and postal mailing lists to keep appraised and involved in projects undertaken by the Committee, assist in beach clean-ups and wetland plantings to the extent possible, conduct attitude and awareness surveys, maintain and foster interrelationships with community organizations, business organizations, recreation organizations, educational institutions, environmental organizations and various levels of governments.

#### Minimum Control Measure #3 (Illicit Discharge Detection and Elimination):

Support water quality monitoring to detect unexpected changes in water quality, record and report observations of identified or suspected illicit discharges to appropriate agencies, assist in and help coordinate responses to identified or suspected illicit discharges, and assist in the maintenance and updating of the county's storm drain GIS mapping system.

#### Minimum Control Measure #4 (Construction Site Stormwater Runoff Control):

Assist member municipalities in identifying available construction site stormwater runoff control measures, requirements and procedures, and report any observed instances of stormwater runoff from construction sites to the member municipality and/or appropriate agency or agencies.

#### Minimum Control Measure #5 (Post Construction Stormwater Management):

Assist member municipalities in identifying available post construction stormwater management control measures, requirements and procedures, and report any observed instances of post construction stormwater runoff to the member municipality and/or appropriate agency or agencies.

#### Minimum Control Measure #6 (Pollution Prevention/Good Housekeeping):

Assist member municipalities in identifying available pollution prevention/good housekeeping practices including but not limited to information on pet waste management, Canada Goose control, "Get Pumped! Long Island" onsite wastewater treatment homeowner education campaign, household hazardous waste programs, recycling programs, and making the Town of Oyster Bay's "Don't Feed the Quackers Crackers or Bread" video available.

#### **Contracted Entity Certification Statement:**

The Oyster Bay/Cold Spring Harbor Protection Committee understands that its member municipalities must comply with the requirements of the New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-08-002) and any successor permit, and that it is unlawful for any person to directly or indirectly cause or contribute to a violation of water quality standards. The Committee agrees to provide, to the extent practicable, the above described services on behalf of its member municipalities in order to assist them in the fulfillment of New York State Phase II requirements provided that annual member dues and applied for grant funds (where applicable) are received.

### HEMPSTEAD HARBOR PROTECTION COMMITTEE THIRD PARTY CERTIFICATION STATEMENT MARCH 10, 2018 TO MARCH 9, 2019 PERMIT PERIOD

Pursuant to
Permit # GP-0-08-002 pg. 12 Part IV.G MS4 Annual Report

In furtherance of the purposes set forth in the Hempstead Harbor Protection Committee ("COMMITTEE") Inter-Municipal Agreement dated May 14, 2008, the COMMITTEE shall undertake, to the extent practicable, the following activities on behalf of its member municipalities within their collective jurisdictions in order to assist in the fulfillment of NYS Phase II regulations (New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-08-002) provided that annual member dues and applied for grant funds (where applicable) are received:

#### Scope of Work:

Activities and Deliverables may include but are not limited to the following:

Minimum Control Measure # 1 (Public Education and Outreach):

Prepare and conduct a public education and outreach program including the preparation and distribution of brochures, videos, refrigerator magnets, presentations to community and/or stakeholder organizations and/or schools, targeted electronic mailings, use of portable displays, training sessions, press conferences, press releases and/or letters to the editor, informational meetings, and articles for publication, an informational website, social media postings, promotional give-aways and coastal interpretive signage.

Minimum Control Measure # 2 (Public Involvement and Education):

Conduct public meetings for members of the public and stakeholders at critical junctures on major projects, develop and maintain e-mailing and postal mailing lists to keep the public appraised and involved in projects undertaken by the COMMITTEE, assist in beach cleanups and wetland plantings to the extent possible, conduct citizen science water monitoring programs, conduct attitude and awareness surveys as appropriate, maintain and foster inter-relationships with community organizations, business organizations, recreation organizations, educational institutions, environmental organizations and various levels of government.

Minimum Control Measure # 3 (Illicit Discharge Detection and Elimination):

Conduct water quality monitoring to detect unexpected changes in water quality, record and report observations of identified or suspected illicit discharges to appropriate agencies, assist in and help coordinate responses to identified or suspected illicit discharges, and assist in the maintenance and updating of the county's storm drain GIS mapping system.

Minimum Control Measure # 4 (Construction Site Stormwater Runoff Control):

Assist member municipalities in identifying available construction site stormwater runoff control measures, requirements and procedures, and report any observed instances of stormwater runoff from construction sites to the member municipality and/or appropriate agency or agencies; assist in organizing training courses in erosion and sediment control; conduct water quality monitoring to assist in the detection of unusual discharges or conditions that might indicate inadequate erosion and sediment control from construction sites.

Minimum Control Measure # 5 (Post Construction Stormwater Management):

Assist member municipalities in identifying available post construction stormwater management control measures, requirements and procedures, and report any observed instances of post construction stormwater runoff to the member municipality and/or appropriate agency or agencies; assist in organizing training courses in erosion and sediment control; conduct water quality monitoring to assist in the detection of unusual discharges or conditions that might indicate inadequate erosion and sediment control from construction sites.

Minimum Control Measure # 6 (Pollution Prevention / Good Housekeeping):

Assist member municipalities in identifying available pollution prevention / good housekeeping practices including but not limited to information on pet waste management, Canada Goose control, household hazardous waste programs, and recycling programs. Participate in applicable webinars and report back to member municipalities.

# **Contracted Entity Certification Statement:**

The Hempstead Harbor Protection Committee understands that its member municipalities must comply with the requirements of New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-08-002) and any successor permit, and that it is unlawful for any person to directly or indirectly cause or contribute to a violation of water quality standards. The Committee agrees to provide, to the extent practicable, the above-described services on behalf of its member municipalities in order to assist them in the fulfillment of New York State Municipal Phase II requirements provided that annual member dues and applied for grant funds (where applicable) are received.

#### HEMPSTEAD HARBOR PROTECTION COMMITTEE

Phase II Activities Undertaken
On Behalf of Member Municipalities
March 10, 2018 to March 9, 2019 Permit Year

#### MCM # 1 - Public Education and Outreach

- Staffed information booths at three events: Earth Day at Morgan Park in Glen Cove on April 22, 2018; the Port Washington Chamber of Commerce's HarborFest on June 3, 2018; and the North Shore Kiwanis Club's Sea Cliff Mini Mart on October 7, 2018. Total attendees estimated at 15,000.
- Led senior citizens on a tour of the Hempstead Harbor shoreline at North Hempstead Beach Park on October 18, 2018.
- Worked with Rep. Thomas Suozzi to plan public meeting with the Army Corps of Engineers on proposed storm surge barriers for elected officials and others which was held on October 18, 2018 at the US Merchant Marine Academy.
- Attended two press conferences with Governor Andrew Cuomo to promote clean water initiatives: one on April 17, 2018 at Sunken Meadow State Park and on February 8, 2019 in Woodbury.
- Continued participation with the Manhasset Bay Protection Committee,
  Oyster Bay Cold Spring Harbor Protection Committee, Town of Oyster
  Bay, the Coalition to Save Hempstead Harbor and Friends of the Bay in
  C.E.S.S.P.O.O.L. grant to raise public awareness of impact of onsite
  waste treatment systems. (C.E.S.S.P.O.O.L. = Coordinated Environmental
  Solutions to Septic Problems Occurring On Long Island). This included
  distributing a series of fact sheets to homeowners and maintaining a
  website and Facebook page.
- Worked with a local Girl Scout to organize a presentation on protecting our local waters which was held on February 27, 2019 at the Manhasset Public Library.
- Promoted a "Scoop the Poop Long Island" Facebook page to educate the public on pet waste issues.
- HHPC's Executive Director participated as a judge in the Long Island Envirothon on April 25, 2018 at the USDAN Center in Wheatley Heights.
- Completely re-designed the Hempstead Harbor website: (<u>www.HempsteadHarbor.org</u>) including the addition of a blog page.

- Published 4 articles in the *Sea Cliff Village Bulletin:* one on April 9, 2018 on fertilizing; one on July 12, 2018 on wetlands; one on October 10, 2018 on algal blooms; and one on January 15, 201 on proposed new fertilizer requirements.
- Published 3 blog articles on the Hempstead Harbor Protection Committee website: one on January 23, 2019 on Ocean Acidification and Nitrogen; one on January 31, 2019 on the Army Corps of Engineers proposed storm surge barriers and potential impacts including wetlands; and one on February 18, 2019 on the Critical Need for Water Infrastructure.
- Copied and distributed 18 articles and editorials in weekly and daily papers to municipal representatives and others on water quality issues.
- Participated with the Nassau County Soil and Water Conservation District in the distribution of two professional videos (one 30 minutes and one 5 minutes) entitled *Stormwater Pollution and Green Infrastructure Solutions* along with an accompanying brochure.
- Maintained and updated a Facebook site with relevant articles on water quality. In early March 2018, launched a new and improved Facebook page to replace the former one.
- Updated and distributed a list of media outlets.
- Monitored Nassau County sewage spill reports for the Glen Cove Wastewater Treatment Facility and posted information on Facebook and e-mailed to Committee members and others.
- Distributed brochures on shellfishing in Hempstead Harbor.
- Distributed brochures on understanding beach closures and on the problems associated with feeding of wildfowl.
- Posted water quality monitoring results for Hempstead Harbor on website and Facebook.
- Published and distributed an Annual Water Quality Report on water quality in Hempstead Harbor in hard copy and disk formats and posted it on a website.
- Attended a webinar presented by the NYS DEC on Quality Assurance Program Plans (QAPPs) on March 26, 2018.
- Participated in the Town of North Hempstead's press conference on July 26, 2018 in Manorhaven to promote beach cleanups.

- Participated in a press conference on October 23, 2018 at the U.S.
   Merchant Marine Academy in Kings Point to emphasize the need for water quality protection in any storm surge protections being studied.
- Participated in a press conference held by Nassau County Legislators at the Nassau County Executive Building in Mineola on May 7, 2018 to advocate for a fee on single use plastic bags.
- Participated in the Army Corps of Engineers public meeting on proposed storm surge barriers on October 23, 2018 at the US Merchant Marine Academy and relayed a summary to HHPC municipalities and others.
- Attended Long Island Nitrogen Action Plan (LINAP) Fertilizer Workgroup meetings on October 4, 2018, November 1, 2018, and December 19, 2019 and relayed summaries to HHPC municipalities and others.
- Attended a meeting with DEC Water Division representatives in Riverhead on October 3, 2018 to discuss the status of Shellfish Pathogen TMDLs and relayed summaries to HHPC municipalities.
- Attended meetings of a NYS DEC TMDL Workgroup on December 5, 2018, January 10, 2019, and February 28, 2019 and relayed summaries to HHPC municipalities. Also coordinated responses from the Towns of Oyster Bay and North Hempstead and the City of Glen Cove on data gathering to assist with planning for the development of new TMDLs.
- Began organizing a Coordinated Harbor Cleanup with the Towns of North Hempstead, Oyster Bay and the City of Glen Cove for 2019.
- Attended a Fertilizer Roundtable discussion at Farmingdale State College on May 29, 2018 and relayed a summary to HHPC municipalities and others.
- Gave a joint presentation on ways to protect our local waterways on April 28, 2018 at the Port Washington Youth Climate Change Summit in Port Washington.
- Served on the NYS DEC's Dredged Materials Subcommittee which met on August 30, 2018, September 12, 2019, and September 19, 2019 and developed recommendations to the Regional Director. Relayed summaries to HHPC member municipalities.

#### MCM #2 - Public Participation

 Held eight HHPC meetings (open to the public). These were held on March 14, 2018, April 11, 2018, May 14, 2018, June 6, 2018, September 12, 2018, October 11, 2018, November 14, 2018, and January 9, 2019.

- Conducted a water monitoring program with local citizen's group (Coalition to Save Hempstead Harbor) and volunteers. This consisted of a weekly program during the summer for 23 weeks and a weekly program during the winter for another 24 weeks.
- Participated in Spartina planting with volunteers at Mill Pond in Port Washington on April 4 and April 5, 2018.
- Continued networking with local citizens groups (Coalition to Save Hempstead Harbor, Glenwood / Glen Head Civic Association, North Shore Land Alliance, and United Civic Council of Glen Head and Glenwood Landing).
- Continued to provide representation to the Long Island Sound Study
  Citizens Advisory Committee, the Nassau County Soil and Water
  Conservation District, the Long Island Nitrogen Action Plan Advisory
  Committee, the LINAP Fertilizer Workgroup, the NYS DEC TMDL
  Workgroup, the NYS DEC MS4 Workgroup, the NYS DEC Dredge
  Material Subcommittee, and the New York Marine Sciences Consortium.
- Continued to provide advice, as requested to the Town of North
  Hempstead in the development of a Blueway Trail from Little Neck Bay to
  Hempstead Harbor and to the Town of Oyster Bay in its development of a
  Blueway trail from Hempstead Harbor to Oyster Bay and Cold Spring
  Harbor.
- Revised and distributed HHPC's member list.
- Promoted area beach cleanups and invasive removal projects.
- Assisted with the planning and conducting of a volunteer removal of invasive plants and planting of native plants, trees, shrubs and other plants at Nassau County's historic Cedarmere site.
- Partnered with the Nassau County Soil and Water Conservation District and the Friends of Cedarmere along with volunteers to maintain the rain gardens installed at Cedarmere in Roslyn Harbor.
- Met in Washington DC on November 28, 2018 to educate Congressional representatives about water quality improvements and the need for additional federal funding. This effort resulted in increased funding for Long Island Sound environmental programs.
- Assisted the Nassau County Executive's office with the implementation of a grant program for homeowners for nitrogen-reducing septic systems. A meeting was held on November 14, 2018.

- Assisted NYS DEC with organizing a LINAP Data Sharing workshop held in Muttontown on September 21, 2018.
- Promoted the NYS DEC's 2019 Alewife volunteer monitoring training program held in Cold Spring Harbor.

#### MCM #3 - Illicit Discharge Detection and Elimination

- Conducted an annual harbor surveillance by boat (includes observation and reporting of any unusual discharges).
- Tested water quality weekly from May to October and biweekly at selected locations between November and April and checked results to see if any unusual readings or trends occurred which might indicate illicit discharges.
- Continued to monitor unidentified discharges in Glen Cove Creek and continued to work with various agencies to try to determine their origin.
- Continued to implement a multi-year C.E.S.S.P.O.O.L. public education program to raise awareness about the impact of discharges from onsite septic systems and the need to conduct regular maintenance. Proper maintenance of septic systems may reduce the incentive for homeowners and others to install illicit discharges to handle overflows.
- Assisted Nassau County, the City of Glen Cove, and the NYS DEC on an investigation of potential sources of contamination to Crescent Beach on April 1, 2018.

#### MCM #4 - Construction Site Runoff Control

- Assisted the Nassau County Soil and Water Conservation District in planning and holding three NYS DEC certification and training sessions for municipal officials and contractors in sediment and erosion control on March 27, 2018, June 19, 2018, and January 29, 2019. A total of 203 persons were trained and certified including HHPC's Executive Director who renewed his certification.
- Monitored changes in regulations and advised member municipalities as necessary. HHPC's Executive Director served as the official NYS DEC representative for all of Long Island's MS4 Operators to participate in discussions regarding revised MS4 Stormwater permit.
- Observed for unusual discharges or conditions while conducting weekly water quality monitoring (late spring to fall) that might indicate inadequate erosion and sediment control from construction sites.

#### MC # 5 - Post Construction Runoff Control

- Assisted the Nassau County Soil and Water Conservation District in
  planning and holding three NYS DEC certification and training sessions for
  municipal officials and contractors in sediment and erosion control on
  March 27, 2018, June 19, 2018, and January 29, 2019. A total of 203
  persons were trained and certified including HHPC's Executive Director
  who renewed his certification.
- Monitored changes in regulations and advised member municipalities as necessary. HHPC's Executive Director served as the official NYS DEC representative for all of Long Island's MS4 Operators to participate in discussions regarding revised MS4 Stormwater permit.
- Observed for unusual discharges or conditions while conducting weekly water quality monitoring (late spring to fall) that might indicate inadequate erosion and sediment control from construction sites.

#### MCM #6 - Good Housekeeping

- Assisted the Nassau County Soil and Water Conservation District in
  planning and holding three NYS DEC certification and training sessions for
  municipal officials and contractors in sediment and erosion control on
  March 27, 2018, June 19, 2018, and January 29, 2019. A total of 203
  persons were trained and certified including HHPC's Executive Director
  who renewed his certification.
- Worked with the Town of Oyster Bay to replace septic systems at Tappen Beach.
- Worked with the Town of Oyster Bay to incorporate nitrogen and bacteria filtration devices in 37 catch basins in the Powerhouse Drain subwatershed as part of a highway improvement project. This contract was awarded in early 2019.
- Participated with the Nassau County Soil and Water Conservation District in the distribution of two professional videos (one 30 minutes and one 5 minutes) entitled Stormwater Pollution and Green Infrastructure Solutions along with an accompanying brochure.
- Worked with the Nassau County Soil and Water Conservation District to offer low cost native plants to municipalities.
- Continued to work with the Town of Oyster Bay, the Village of Sea Cliff and the City of Glen Cove to maintain pet waste stations provided by HHPC.
- Coordinated a successful effort to obtain state funds in the FY 2020 budget for one or more additional shellfish pathogen laboratories on Long

Island. This will allow for more bacteria testing and more accurate pathogen TMDLs.

#### OTHER

- Worked with the Long Island Sound Study Citizens Advisory Committee to establish water quality monitoring of embayments as a priority and to develop a mechanism for regular (non-grant) funding to support water quality monitoring efforts and are continuing to work to develop a unified system of monitoring and reporting around Long Island Sound.
- Assisted the Long Island Sound Study Citizens Advisory Committee in its
  efforts to secure federal funding and reauthorization for the Long Island
  Sound Restoration Act and the Long Island Sound Stewardship Act
  including meetings with Congressional representatives in Washington DC
  on November 28, 2018.
- Continued to serve as a member of the Long Island Nitrogen Action Plan's Nassau County Subwatershed Planning Advisory Workgroup.
- Continued to assist Nassau County and its consultants with the
  preparation of a sewer feasibility study for the eastern watershed of
  Hempstead Harbor and to address illicit discharges of pathogens into a
  stream that has caused the closure of Crescent Beach in Glen Cove.
- Promoted a "Scoop the Poop Long Island" Facebook page to educate the public on pet waste issues.

#### MS4 Municipal Compliance Certification(MCC) Form

MCC form for period ending March 9, 2 0 1 9

		SPI	DES	$\mathbf{ID}$						
Name of MS4	County of Nassau	N	Y	R	2	0	Α	0	2	2

#### **Section 4 - Certification Statement**

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

This form must be signed by either a principal executive officer or ranking elected official, or duly authorized representative of that person as described in GP-0-08-002 Part VI.J.

First Name  K e n n e t h	MI Last Name  G A r n 0 1 d
Title (Clearly print title of individual signing report)	
C o m m i s s i o n e r o f	Public Works
Signature	
	Date 0 4 / 3 0 / 2 0 1 9

Send completed form and any attachments to the DEC Central Office at:

MS4 Permit Coordinator Division of Water 4th Floor 625 Broadway Albany, New York 12233-3505
