Emergency Services

Help Line

Nassau County Behavioral Health Helpline (516) 227-TALK (8255)

Mobile Crisis Intervention Team for Adults and Children

Crisis intervention services, applicable to adults, children and adolescents, are intended to reduce acute symptoms and restore individuals to pre-crisis levels of functioning. Examples of services are screening, assessment, stabilization, triage, and/or referral to an appropriate program or programs. The mobile crisis team also has the ability to work with the police to arrange for the transport of a person to the hospital.

Mobile Crisis

(516) 227-TALK (8255)
60 Charles Lindbergh Boulevard
Uniondale, NY 11553

Home Based Intervention for Children

Provides intensive in-home services to families where one or more children are at risk of psychiatric hospitalization. Over a 4-6 week period the objective is to teach problem solving skills to the family, and linkage to community based supports. The counselor is available to the family 24 hours per day, 7 days a week.

South Shore Child Guidance Center - Pathways Program

17 West Merrick Road
Freeport, NY 11520
(516) 868-3030
Fax: (516) 868-3374

Crisis Residential Services for Adults

A licensed residential (24 hours/day) stabilization program, which provides services for acute symptom reduction and the restoration of patients to pre-crisis level of functioning. These programs are time limited for persons until they achieve stabilization (generally up to 30 days). Crisis residences serve persons experiencing rapid or sudden deterioration of social and personal conditions such that they are clinically at risk of hospitalization but may be treated in this alternative setting.

Single Point of Access (SPOA) for Care Coordination

The SPOA is designed to simplify the process to access care coordination so that there is a single point and a single referral form used for accessing this service. There are three types of SPOAs - Children's, Adult Case Management and Adult Housing. The SPOA process provides for the identification of individuals most in need of services, and manages service access and utilization.

Adult:

Health Homes, Care Coordination, Assertive Community Treatment and Intensive In-home Supports

Health Home Care Management program provides coordinated, comprehensive medical and behavioral health care to Medicaid-enrolled adults with chronic conditions through care management and integration that assures access to appropriate services, improves health outcomes, reduces preventable hospitalizations and emergency room visits, promotes use of health information technology (HIT), and avoids unnecessary care. Health Home Care Managers are expected to provide comprehensive care management, health promotion, transitional care including appropriate follow-up from inpatient to other settings, patient and family support, referral to community and social support services. Health Home Care Managers promote optimal health and wellness for adults diagnosed with severe mental illness. Wellness and recovery goals are attained by implementing a person-centered approach to service delivery and ensuring linkages to and coordination of essential community resources.

Children's Mental Health Intensive In-Home Services

Children & Youth Intensive Case Management (ICM) and Supportive Case Management (SCM)

Families are assigned a case manager who comes into the home twice a month to help families identify any needs they may have and connect them with services to help them address their child's mental health needs. Crisis intervention is available 24/7.

Clinical Care Coordination Team for Children (CCCT)

CCCT is ideal for families whose child is refusing outpatient mental health treatment. CCCT provides in-home clinical services, including individual and family therapy, psychiatric consultation, evaluation and monitoring with the goal of returning the child to outpatient treatment.

Coordinated Children's Service Initiative (CCSI)

CCSI is ideal for families whose child is involved in multiple systems (PINS, CPS, Juvenile Justice, etc.). The goal of the program is to coordinate services between all systems involved to improve the child's functioning within the home, school, and greater community.

Home and Community Based Services for Children (HCBS Medicaid Waiver)

HCBS provides intensive services to children at risk for hospitalization. An Individualized Care Coordinator works with the family to create a customized plan to meet their needs and maximize their strengths. The ICC coordinates other services such as respite, skill building, intensive in-home sessions, 24/7 crisis response, among other services.

Assisted Outpatient Treatment (AOT)

AOT is a court mandated outpatient program designed to assure that those who cannot live safely in the community, due to non-compliance, receive the clinical care and case management they need.

Alternative Adult Housing Options

Agency-owned or operated facilities that provide an alternative living environment for adults with emotional disabilities or substance abuse disorders. Group residences for adults with disabilities may be licensed by the state and may be distinguished according to the level of service residents require. Service levels depend on the self-care skills residents possess, their limitations in the areas of physical coordination and mobility, and the presence and extent of behavior problems including disruptive or self-injurious behavior.

Family Care

A family setting that supports the adjustment to community living and often can divert hospitalization

Children's Mental Health Housing

Children's Community Residential Programs

NOTE: A complete Children's Single Point of Access (SPOA) application must be completed and sent to the address and/or fax number listed above to access any of the services listed below. A copy of the SPOA application and HIPPA form can be downloaded at Our Office Website.
For additional information please call 516-227-7057.

Teaching Family Homes

Catholic Charities

Teaching Family Homes serve children ages 5-17. A specially trained, live-in married couple teaches the skills necessary for children to live successfully in a family, school and community. With continuous training and supervision, a therapeutic environment is maintained which allows for treatment and family style living. The staff works closely with children and parents alike to successfully reunite the child with their family upon discharge.

Community Residences

Family and Children's Association - Lakeview House

A residential program that provides a therapeutic environment to adolescents ages 13-17 with serious emotional disturbance. With a 24/7 staff, Lakeview House works closely with the children and families to stabilize and maintain symptoms and behaviors in order to successfully reunite children with their families.

Mercy First - Merrick House

With a 24/7 trained staff, Merrick House provides a structured therapeutic environment to manage and maintain symptoms and behaviors for children ages 9-14. Residents can learn the skills of emotion management and self-care that will enable them to return to their families.

Pederson-Krag Community Residence

The Community Residence is a 24-hour awake-staffed program that provides direct supervision to children ages 13-17. The program provides an intensive therapeutic environment that provides counseling, teaches medication and behavior management skills, socialization skills, along with many other services with the goal of the child returning to their families as soon as they are ready.

SCO Family of Services - Deer Park Community Residence "Shining Point"

"Shining Point" serves children ages 13-17 with a 24-hour awake staff. The goal of this program is to provide a structured, supportive and therapeutic environment that will equip these children with skills necessary to live at home or in a family-like setting in their own community.

Residential Treatment Facility

RTF provides fully integrated mental health treatment and special education services under the direction of a psychiatrist in a well supervised residential setting. RTFs can serve youngsters between the ages of 5 and 21 years of age. A SPOA application **must** be completed and reviewed by the SPOA Committee. In addition, access to an RTF is through the Preadmission Certification Committee (PACC) under the guidance of the Office of Mental Health.

Outpatient Treatment Services

A partial hospitalization program shall provide active treatment designed to stabilize and ameliorate acute symptoms, to serve as an alternative to inpatient hospitalization, or to reduce the length of a hospital stay within a medically supervised program. A partial hospitalization program shall provide the following services: assessment and treatment planning, health screening and referral, symptom management, medication therapy, medication education, verbal therapy, case management, psychiatric rehabilitation readiness determination and referral, crisis intervention services, activity therapy, discharge planning and clinical support services.

Personalized Recovery Oriented Services – PROS Comprehensive PROS with Clinic

Personalized Recovery Oriented Services (PROS) is a comprehensive recovery oriented program for individuals with severe and persistent mental illness. The goal of the program is to integrate treatment, support and rehabilitation in a manner that facilitates the individual's recovery. Goals for individuals in the program are to: improve functioning, reduce inpatient utilization, reduce emergency services, reduce contact with the criminal justice system, increase employment, attain higher levels of education and secure preferred housing. There are four "service components" in the program: Community Rehabilitation and Support (CRS), Intensive Rehabilitation (IR), Ongoing Rehabilitation and Support (ORS) and Clinical Treatment.

Prevention Services

Prevention staff provide oversight and guidance to our Nassau County sub-contractual network of school-based and community-based chemical dependency prevention programs. These funded programs develop age appropriate prevention strategies based upon the identified risk and protective factors within the individual, family, school and community domains. Program services are available to children, parents, families, staff and community members. Services may include, but are not limited to, early intervention, counseling, information and/or educational presentations, evidence-based curricula implementation and community capacity-coalition building. Prevention staff are also available to provide resource information to Nassau County residents.

Skills Development Services for Adults

Prevocational, Vocational and Employment Services and Programs

Vocational rehabilitation is a process that prepares people for employment by helping them choose a vocational role and function that is consistent with their abilities, achievements, interests, and functioning capacity. The specific goals of a vocational rehabilitation program vary with the needs of the target population. The process includes the following services: vocational testing, assessment, counseling, prevocational activities, training, educational services, life skills/employability referrals, job referrals and placement, and post-placement counseling and follow-up. Programs provide these vocational rehabilitation services directly or by referring the client to an appropriate resource.

Legal Services

Provides free legal services for clients with a mental illness on civil legal matters, primarily relating to government entitlement and landlord/tenant problems.

Nassau-Suffolk Law Services Committee, Inc. - Mental Health Law Project

1 Helen Keller Way
Hempstead, NY 11550
(516) 292-8100
Fax: (516) 292-6529

Program provides free legal services to clients with a mental illness on civil legal problems (i.e. not criminal) primarily relating to governmental entitlement, landlord/tenant problems, adult homes and residents' rights & other legal problems which affect the mentally ill.

Mental Hygiene Legal Service

170 Old Country Rd # 500
Mineola, NY 11501
(516) 493-3976
Fax: (646) 963-6640

Program provides legal presentation without charge to patients in a psychiatric facility.

Discharge Planning

Specific discharge procedures are required under the laws and regulations of the NY State Office of Mental Health to insure continuity of care. Discharge plans are individually designed with client input to assure that individuals receive appropriate post hospital services. Discharge Coordinators from the Nassau County Department of Mental Health work collaboratively with the inpatient units and may participate in the pre-discharge planning conferences.

Discharge Planning for Adults

Nassau County Department of Human Services, Mental Health, Chemical Dependency and Developmental Disabilities Services

Developmental Disabilities

The New York State Office for People With Developmental Disabilities (OPWDD) is responsible for coordinating services for more than 128,000 New Yorkers with developmental disabilities, including intellectual disabilities, cerebral palsy, Down syndrome, autism spectrum disorders, and other neurological impairments. It provides services directly and through a network of nonprofit service providing agencies, with about 80 percent of services provided by the private nonprofits and 20 percent provided by state-run services.

In order to initiate services one should contact OPWDD at:

OPWDD- Central Intake Front Door (631) 434-6100
OPWDD- Central Intake Housing (631) 434-6022
