## Help Line

### Nassau County Behavioral Health Helpline (516) 227-TALK (8255)

#### Mobile Crisis Intervention Team for Adults and Children

Crisis intervention services, applicable to adults, children and adolescents, are intended to reduce acute symptoms and restore individuals to pre-crisis levels of functioning. Examples of services are screening, assessment, stabilization, triage, and/or referral to an appropriate program or programs. The mobile crisis team also has the ability to work with the police to arrange for the transport of a person to the hospital.

#### Mobile Crisis

(516) 227-TALK (8255)  
60 Charles Lindbergh Avenue  
Uniondale, NY 11553  
[Crisis hotline and services](#)

#### Home Based Intervention for Children

Provides intensive in-home services to families where one or more children are at risk of psychiatric hospitalization. Over a 4-6 week period the objective is to teach problem solving skills to the family, and linkage to community based supports. The counselor is available to the family 24 hours per day, 7 days a week.

#### South Shore Child Guidance Center - Pathways Program

91 Guy Lombardo Avenue  
Freeport, NY 11520

#### Sagamore Children's Center

197 Half Hollow Road  
Dix Hills, NY 11746  
(631) 370-1701  
Fax: (631) 370-1714  
[www.omh.ny.gov](http://www.omh.ny.gov)

## **Crisis Respite Residential Services for Adults**

A licensed residential (24 hours/day) stabilization program, which provides services for acute symptom reduction and the restoration of patients to pre-crisis level of functioning. These programs are time limited for persons until they achieve stabilization (generally up to 30 days). Crisis residences serve persons experiencing rapid or sudden deterioration of social and personal conditions such that they are clinically at risk of hospitalization but may be treated in this alternative setting.

### **Mental Health**

## Single Point of Access (SPOA) for Care Coordination

The SPOA is designed to simplify the process to access care coordination so that there is a single point and a single referral form used for accessing this service. There are three types of SPOAs - Children's, Adult Case Management and Adult Housing. All SPOA applications are reviewed and processed to provide for the identification of individuals in need of services. The SPOA process manages service access and utilization.

### Adult:

**Nassau County Department of Human Services  
Office of Mental Health, Chemical Dependency  
and Developmental Disabilities Services**

60 Charles Lindbergh Boulevard, Suite 200

Uniondale, New York 11553-3687

Fax: (516) 227-7076

[www.nassaucountyny.gov](http://www.nassaucountyny.gov)

## Health Homes, Care Coordination

Health Home Care Management program provides coordinated, comprehensive medical and behavioral health care to Medicaid-enrolled adults with chronic conditions. Home Health Care Management assures access to appropriate services, improves health outcomes, reduces preventable hospitalizations and emergency room visits, promotes the use of health information technology and avoids unnecessary care. Health Home Care Managers are expected to provide comprehensive care management, health promotion, transitional care including appropriate follow-up from inpatient to other settings, patient and family support, and referrals to community and social support services. Health Home Care Managers promote optimal health and wellness for adults diagnosed with severe mental illness. Wellness and recovery goals are attained by implementing a person-centered approach to service delivery and ensuring linkages to and coordination of essential community resources.

**EQUIVALENT SERVICES ARE AVAILABLE TO THOSE WHO DO NOT HAVE MEDICAID**

### Health Homes

Fax (516) 227-7076  
[www.nassaucountyny.gov](http://www.nassaucountyny.gov)

### Children's Mental Health In-Home Services

Through Health Homes, Care Management services work with children that have been diagnosed with a serious emotional disturbance (SED), complex trauma, HIV/AIDS or two chronic health conditions (i.e., asthma, diabetes, heart disease, high blood pressure, substance abuse, or obesity). Care Management works with the child/family and providers of services to identify service needs, developing an overall rehabilitation goal, and writing service plans with the child/family that include strategies and objectives to address their identified needs. Care management facilitates service delivery, including acquiring benefits, helping child/families make and keep appointments and assisting child/family in arranging needed behavioral health, physical health and psychiatric rehabilitation services and finding appropriate school placement, vocational training or employment. Services also provide linkage to services that prevent or resolve crises in order to prevent unnecessary use of emergency rooms and/or inpatient services, and assuring crisis intervention services 24 hours per day, 7 days/week.

Equivalent services are available for children who do not have Medicaid through Non-Medicaid Care Coordination. CCCT (Clinical Care Coordination Team) is designed to meet the clinical and case management needs of high-risk youth for whom the traditional outpatient system has proven ineffective. These youths typically refuse to participate in therapy, often are school-avoidant, and frequently have limited social contacts. CCCT provides in-home clinical services, including individual therapy, family therapy, and psychiatric consultation, evaluation and monitoring with a goal of returning the child to outpatient treatment.

CCSI (Coordinated Children’s Services Initiative) works directly with youth who are served by multiple systems and who are at risk of placement in at least one of these systems. The goal is to reduce the rate of residential placement and optimize their functioning in the community.

HCBS provides intensive services to children at risk for admission to institutional levels of care such as hospitalizations and Residential Treatment Facilities. An Individualized Care Coordinator (ICC) works with the family to create a customized plan to meet their needs and maximize strengths. They coordinate the other services: respite, skill building, intensive in-home, 24-7 crisis response, and family support that’s provided by Parent Advocates who have personal experience raising a child with special needs. Support groups, workshops, family activities, and an evidence-based parenting class are also offered. The program applies for Medicaid if the child isn’t enrolled and since some requirements are “waived”, only the child’s income is considered.

## **Assisted Outpatient Treatment (AOT)**

**AOT is a court mandated outpatient program designed to assure that those who cannot live safely in the community, due to non-compliance, receive the clinical care and case management they need.**

**Nassau County Department of Human Services  
Office of Mental Health, Chemical Dependency  
and Developmental Disabilities Services**

## Community Residential Programs

Community Residential Programs provide a therapeutic living environment in community based facilities for individuals who have emotional and or behavioral problems but do not require inpatient psychiatric hospitalization. These structured, supervised treatment programs may include individual, group, family and other treatment modalities as appropriate.

There is a shared intake process with a universal application form (<http://www.spahousingli.org/doc/Application.pdf>) for the following housing programs.

## Alternative Adult Housing Options

Agency-owned or operated facilities that provide an alternative living environment for adults with emotional disabilities or substance abuse disorders. Group residences for adults with disabilities may be licensed by the state and may be distinguished according to the level of service residents require. Service levels depend on the self-care skills residents possess, their limitations in the areas of physical coordination and mobility, and the presence and extent of behavior problems including disruptive or self-injurious behavior.

### Family Care

A family setting that supports the adjustment to community living and often can divert hospitalization.

## Children's Mental Health Housing

### Children's Community Residential Programs

*NOTE: A complete Children's Single Point of Access (SPOA) application must be completed and sent to the address and/or fax number listed above to access any of the services listed below. A copy of the SPOA application [www.nassaucountyny.gov](http://www.nassaucountyny.gov) and HIPPA form <https://www.nassaucountyny.gov> can be downloaded and completed. For additional information please call 516-227-7057.*

#### Teaching Family Homes

##### Catholic Charities

Teaching Family Homes serve children ages 5-18. A specially trained, live-in married couple teaches the skills necessary for children to live successfully in a family, attend school and live productively in the community. With continuous training and supervision, a therapeutic environment is maintained which allows for treatment and family style living. There is an emphasis on working closely with the child's family to attempt to reunite the family upon the child's discharge.

#### Community Residences

##### Family and Children's Association - Lakeview House

A residential program that provides a therapeutic milieu environment to adolescents ages 13-17 with serious emotional disturbance. It is an out of home placement that provides a structured therapeutic environment and restorative services to assist in stabilizing and maintaining their symptoms and behaviors of their mental illness and reunite the family upon discharge.

##### Mercy First - Merrick House

**The Community Residence is staffed 24 hours a day with awake staff. It houses eight male youth ages 9-14 with serious emotional disturbances. Residents can learn the skills of emotion management and self-care that will enable them to return to their families. In addition, they work with staff on developing their independent living skills, socialization skills, behavior management, medication management, and more. Staff and youth continue to incorporate the Sanctuary Model into the fabric of the Merrick Community Residence program. This is accomplished by youth using Sanctuary tools and trauma sensitive interventions both in the residence and with their families at home.**

##### WellLife Community Residence

The Community Residence is a 24-hour awake staffed program. It provides direct supervision and guidance to eight emotionally disturbed adolescent males ages 13-17. The program provides an intensive therapeutic environment and restorative services including but not limited to behavior management, counseling services, independent living skills, daily living skills, socialization skills, medication management, health services and family support services. The goal of the program is to teach the youth necessary skills to be able to return home with their families or to community based placements.

##### SCO Family of Services - Deer Park Community Residence

The program provides an intensive therapeutic environment through 24-hour coverage by staff trained in behavior management, child/adolescent development and the treatment of mental illness. Additional therapeutic linkages are provided through a strong community involvement with outpatient mental health settings, medical providers and educational/recreational settings. The goal of this program is to provide a structured, supportive and therapeutic environment that will equip these children with skills necessary to live at home or in a family like setting in the community. Co-Ed ages 13-17 years.

##### Residential Treatment Facility

RTF provides fully integrated mental health treatment and special education services under the direction of a psychiatrist in a well supervised residential setting. RTFs can serve youngsters between the ages of 5 and 21 years of age, but each program generally serves only a portion of this total range. Most youngsters are served for an extended stay, between 6 months and 2 years. . Access to an RTF is through the Preadmission Certification Committee (PACC) under the guidance of the Office of Mental Health.

## Outpatient Treatment Services

A partial hospitalization program shall provide active treatment designed to stabilize and ameliorate acute symptoms, to serve as an alternative to inpatient hospitalization, or to reduce the length of a hospital stay within a medically supervised program. A partial hospitalization program shall provide the following services: assessment and treatment planning, health screening and referral, symptom management, medication therapy, medication education, verbal therapy, case management, psychiatric rehabilitation readiness determination and referral, crisis intervention services, activity therapy, discharge planning and clinical support services.

## **Personalized Recovery Oriented Services – PROS** **Comprehensive PROS with Clinic**

Personalized Recovery Oriented Services (PROS) is a comprehensive recovery oriented program for individuals with severe and persistent mental illness. The goal of the program is to integrate treatment, support and rehabilitation in a manner that facilitates the individual's recovery. Goals for individuals in the program are to: improve functioning, reduce inpatient utilization, reduce emergency services, reduce contact with the criminal justice system, increase employment, attain higher levels of education and secure preferred housing. There are four "service components" in the program: Community Rehabilitation and Support (CRS), Intensive Rehabilitation (IR), Ongoing Rehabilitation and Support (ORS) and Clinical Treatment.

## Clinic/Outpatient Treatment

A clinic treatment program shall provide treatment designed to minimize the symptoms and adverse effects of illness, maximize wellness, and promote recovery. A clinic treatment program for adults shall provide the following services: outreach, initial assessment (including health screening), psychiatric assessment, crisis intervention, injectable psychotropic medication administration (for clinics serving adults), psychotropic medication treatment, psychotherapy services, family/collateral psychotherapy, group psychotherapy, and complex care management. The following optional services may also be provided: developmental testing, psychological testing, health physicals, health monitoring, and psychiatric consultation.

Prevention Services
---------------------

Prevention staff provide oversight and guidance to our Nassau County sub-contractual network of school-based and community-based chemical dependency prevention programs. These funded programs develop age appropriate prevention strategies based upon the identified risk and protective factors within the individual, family, school and community domains. Program services are available to children, parents, families, staff and community members. Services may include, but are not limited to, early intervention, counseling, information and/or educational presentations, evidence-based curricula implementation and community capacity-coalition building. Prevention staff are also available to provide resource information to Nassau County residents.

### Prevocational, Vocational and Employment Services and Programs

Vocational rehabilitation is a process that prepares people for employment by helping them choose a vocational role and function that is consistent with their abilities, achievements, interests, and functioning capacity. The specific goals of a vocational rehabilitation program vary with the needs of the target population. The process includes the following services: vocational testing, assessment, counseling, prevocational activities, training, educational services, life skills/employability referrals, job referrals and placement, and post-placement counseling and follow-up. Programs provide these vocational rehabilitation services directly or by referring the client to an appropriate resource.

[www.nycourts.gov](http://www.nycourts.gov)

Program provides legal presentation without charge to patients in a psychiatric facility.

**Discharge Planning**

Specific discharge procedures are required under the laws and regulations of the NY State Office of Mental Health to insure continuity of care. Discharge plans are individually designed with client input to assure that individuals receive appropriate post hospital services. Discharge Coordinators from the Nassau County Department of Mental Health work collaboratively with the inpatient units and may participate in the pre-discharge planning conferences.

## Developmental Disabilities

The New York State Office for People With Developmental Disabilities (OPWDD) is responsible for coordinating services for more than 128,000 New Yorkers with developmental disabilities, including intellectual disabilities, cerebral palsy, Down syndrome, autism spectrum disorders, and other neurological impairments. It provides services directly and through a network of nonprofit service providing agencies, with about 80 percent of services provided by the private nonprofits and 20 percent provided by state-run services.

**In order to initiate services one should contact OPWDD at:**

**OPWDD- Central Intake Front Door (631) 434-6100**  
**OPWDD- Central Intake Housing (631) 434-602**
