AUTOMARK PROCEDURES

Using the AutoMARK

AUTOMARK PROCEDURES

Using the AutoMARK

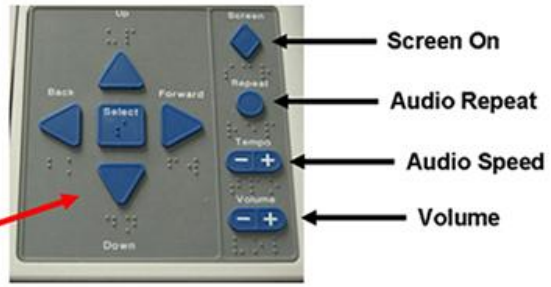

How does it work?

1. Insert your paper ballot into the AutoMARK.
2. Your ballot will appear on the touch screen.
3. If you would like the ballot read to you, plug in and put on the headphones.
4. Touch the screen or use the keypad to move through the ballot and select your choices.
5. You may use your own personal A/B - style switch to access the AutoMARK.
6. Verify your selections and press "Mark Ballot". The AutoMARK will mark and return your ballot.

AUTOMARK PROCEDURES

Using the AutoMARK

The 'Screen On" Button turns the screen black. This can be used when a voter asks for your help but doesn't want you to see their selections

Headphones would get plugged into the front of the machine as shown

Navigating the AutoMARK to mark a ballot using the keyboard

AUTOMARK PROCEDURES

Using the AutoMARK

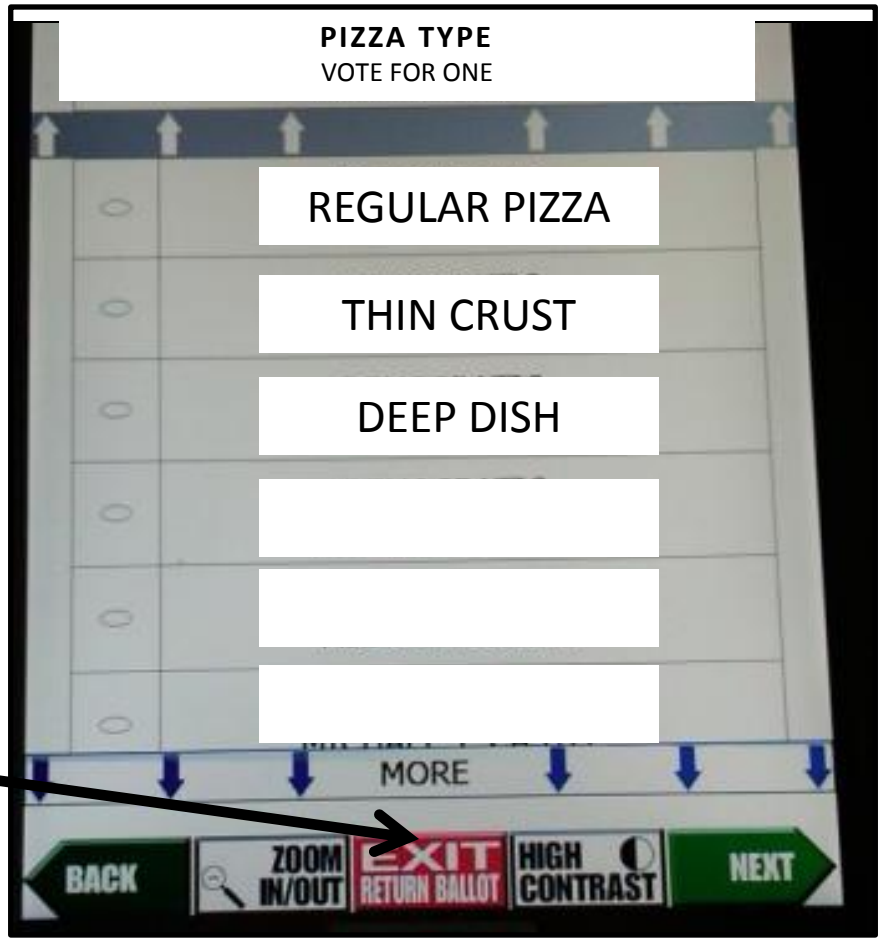

Reversing the color of white on black for those in need of <u>contrast</u>

AUTOMARK PROCEDURES

Using the AutoMARK

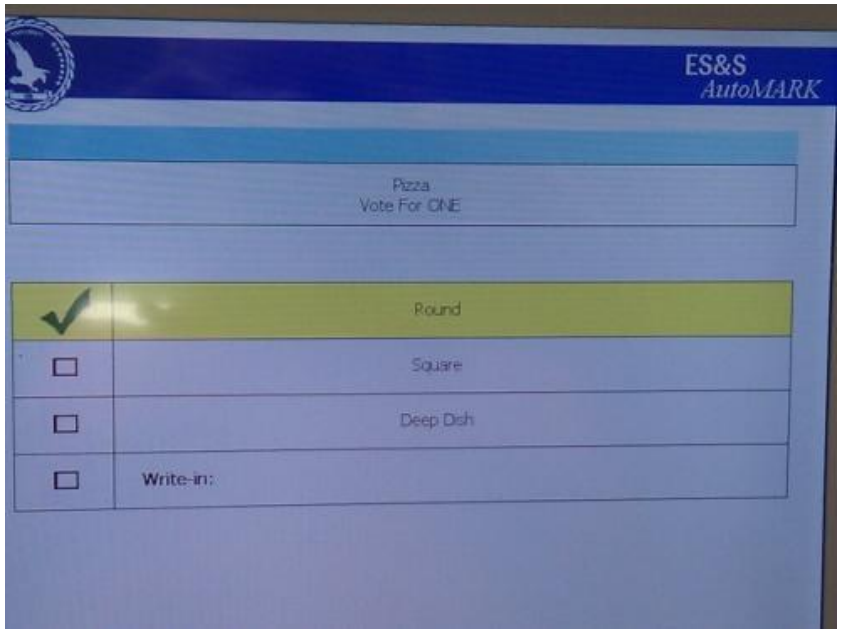

If the voter changes their mind and decides not to use the AutoMARK even though the ballot is in the machine, they can get the ballot back by pressing the ***'EXIT RETURN BALLOT'*** *button*

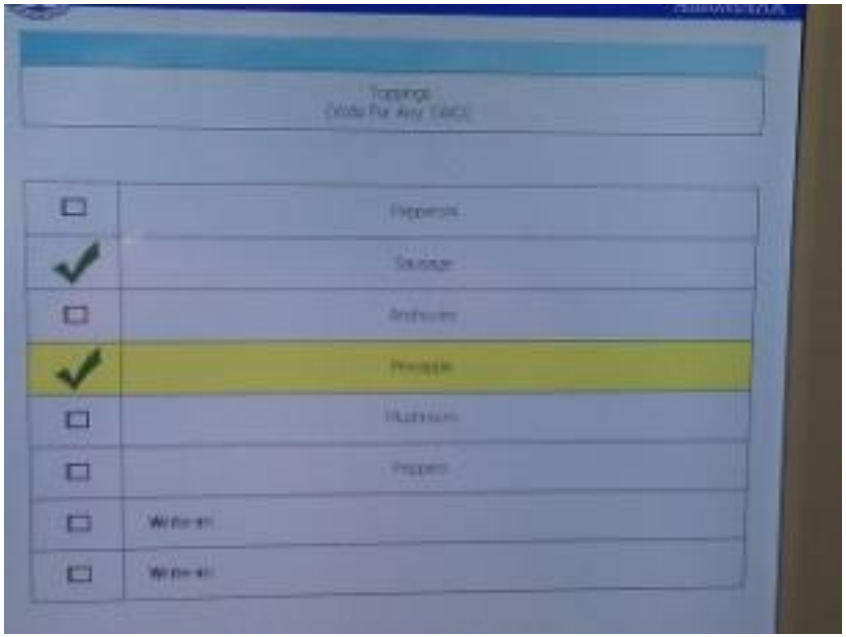

Navigating the AutoMARK to mark a ballot using touch screen

AUTOMARK PROCEDURES

Using the AutoMARK

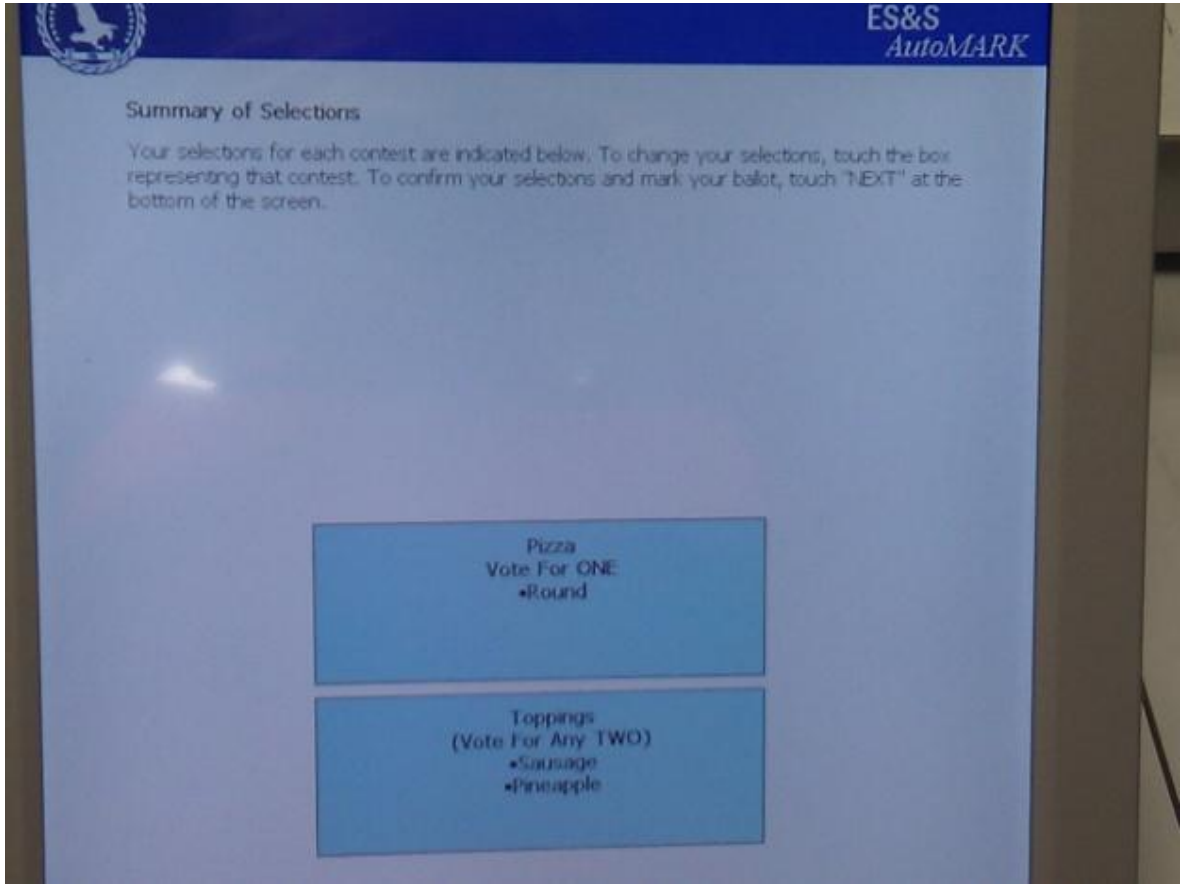

AutoMARK notifies voters if they don't vote for all the offices or if they didn't view all the candieates listed for that office. The AutoMARK stops the voter from over voting

AUTOMARK PROCEDURES

Using the AutoMARK

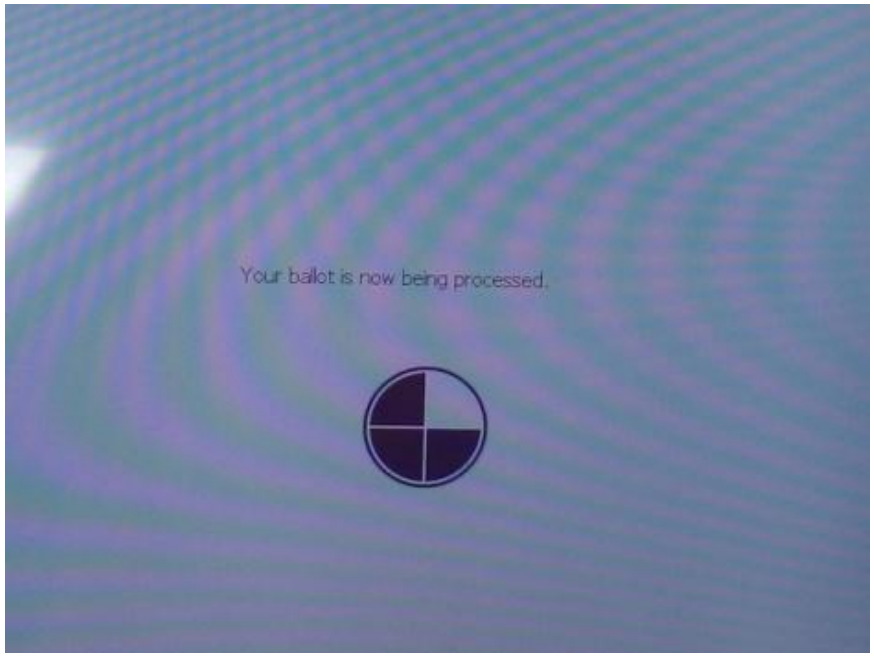

AutoMARK summarizes the voter's choices, giving the voter an opportunity to make any changes before the ballot is printed

AUTOMARK PROCEDURES

Using the AutoMARK

Once Ballot is printed, the voter still has to scan the ballot into DS200 for it to be counted
