Using the AutoMARK
Using the AutoMARK

How does it work?

1. Insert your paper ballot into the AutoMARK.
2. Your ballot will appear on the touch screen.
3. If you would like the ballot read to you, plug in and put on the headphones.
4. Touch the screen or use the keypad to move through the ballot and select your choices.
5. You may use your own personal A/B - style switch to access the AutoMARK.
6. Verify your selections and press "Mark Ballot". The AutoMARK will mark and return your ballot.
Using the AutoMARK

The ‘Screen On’ Button turns the screen black. This can be used when a voter asks for your help but doesn’t want you to see their selections.

Headphones would get plugged into the front of the machine as shown.

Ballot Style #1
Voting Instructions
The AutoMARK Voter Assist Terminal is designed to help you mark your optical scan ballot. Touch the NEXT arrow button in the lower right hand corner of the screen to view the first contest. Touch the name of a candidate or choice to make your selection. If write-in's are allowed, you will be presented with an on-screen keyboard to enter a write-in candidate's name. You may use the BACK arrow button in the lower left hand corner of the screen to return to the previous screen. Once you have made your selections, a summary screen will be displayed. From there you can verify your selections before having your ballot marked.

Reversing the color of white on black for those in need of contrast
AUTOMARK PROCEDURES

Using the AutoMARK

If the voter changes their mind and decides not to use the AutoMARK even though the ballot is in the machine, they can get the ballot back by pressing the 'EXIT RETURN BALLOT' button.

Navigating the AutoMARK to mark a ballot using touch screen
AutoMARK notifies voters if they don’t vote for all the offices or if they didn’t view all the candidates listed for that office. The AutoMARK stops the voter from over voting.
Using the AutoMARK

AutoMARK summarizes the voter’s choices, giving the voter an opportunity to make any changes before the ballot is printed.
AUTOMARK PROCEDURES

Using the AutoMARK

Once Ballot is printed, the voter still has to scan the ballot into DS200 for it to be counted
