***All removals/abandonments, installations etc. must be done in accordance with Articles XIXV of the Nassau County Public Health Ordinance (NCPHO). This form is to be used to schedule the permanent closure of any petroleum tank, as defined in Articles XI and/or XV of the NCPHO. Petroleum tanks located at facilities permitted under Article XV of the NCPHO may be subject to additional tank closure requirements. It is strongly recommended that you contact this office in order to verify the status of any tank that is to be removed.**
