Dear County Executive Blakeman, Supervisor Clavin and Superintendent Tierney,

I am writing on behalf of the residents of the apartment complex at 1888 Foster Meadow Lane ("the complex"), Elmont.

Residents complain that the complex regularly floods during heavy rainstorms. Residents report that this flooding has caused problems to the complex and the grounds on multiple occasions, including a storm last September that left residents of the complex out of their homes for weeks. Residents believe that the flooding appears to be from a partially ajar storm water drain, located behind the complex on the property of the Town of Hempstead's Westover Gardens Apartment Complex, and partially caused by water runoff from the Water Authority of Western Nassau County's property, located behind the complex.

Residents are concerned that continuous flooding may cause more serious problems to the complex. Therefore, residents and I respectfully request a meeting with representatives from the Town of Hempstead, Nassau County and the Water Authority of Western Nassau County to visit the site to determine the cause of the flooding and assess how this problem can be resolved. Please email or call my office with availability for this meeting.

Thank you for your anticipated courtesy and cooperation. Please keep me advised as to the status of this request.

Sincerely,

A handwritten signature in black ink that reads "Carrié Solages".
