As lifelong Long Island residents residing in Bellmore for the last 48 years we are very much against the construction of the casino. The consequences for traffic, congestion, quality of life, air pollution, depleting our aquifer will outweigh the benefits for construction unions, developers and some politicians. We love the suburban natural beauty that Long Island still has. Please don't further degrade it.

Please~!!! Do not pass this Casino into law!!

We cannot have this in Nassau County. It will destroy our way of life that we have tried to preserve for so long!!

It will bring crime and pollution and massive traffic issues.

We do NOT need this in Nassau County!!

If passed I will definitely move out of Nassau County !!

This is not something that will benefit our community, or a way of life in Meadow. The traffic congestion, and it will bring along with the crime, the gambling addictions, the overcrowding, and the other undesirable issues that tend to happen when you introduce this kind of business to a small community. As a taxpayer a longtime resident this is not what I would like to see.

A proposed casino for Nassau county, I think, would be a bad idea, despite a possible economic boost, because it would create more traffic than we already have in that area. Also it would attract more people to Long Island. Long Island already has too many people living here, and is already overly developed. Also, Long Island already has a casino. I am a concerned resident of Long Island. Thank you

Doug Wallace

If any of our politicians CARE even one iota for the people who live in the surrounding communities of the proposed casino, they will rethink this MOST ill advised monstrosity. At the very least our water and air would be seriously compromised. The traffic in the area is already horrible. So I say NO!NO!NO!to this HUGE MISTAKE.

I live less than 2 miles from the proposed sight of the Casino and I am deeply concerned about all the negative impacts this casino will bring to my home and the surrounding businesses, schools, and homes in the area. There are no positive benefits of the increase in traffic, crime, environmental demands and decreased home value to name a few. Please don't let this happen.

Sincerely,

Barbara Debold

This casino is a travesty against the people of Nassau County and must not be allowed to pass. My family and friends from out of state refuse to travel here during the daytime, holidays etc because of the excessive amount of traffic constantly found on the Brooklyn, Queens and Long Island parkways. Voting down this casino is a no brainer for our county. Besides the huge problem with traffic on our inadequate roadways, the social problems that this casino will bring will far outweigh any benefit to the citizens living in this county. If you care at all about our county, please vote NO on behalf of your constituents.

Thank you

All, definitely not crazy about the casino but if the town of Hempstead politicians years ago would of let Charles Wang develop the site like he wanted, most on his dime you would had the islanders stay there with a beautiful hotel complex you wouldn't be where you are now. Something needs to be done about this wasted piece of unused parcel. Come up with a better solution otherwise the casino will move forward even without the public's approval.

We do not want or need this kind of facility in our neighborhood. It's going to run crime in and lower the value of our homes. We also have overcrowding in to contend with as is once this proposition goes through. It will be unbearable. I vote my family votes my friends vote, and we're all voting for this casino.

Dear legislators,

As a resident of Nassau County this proposed casino is extremely concerning to me and the residents of the nearby communities. Our quality of life will be severely impacted in an unacceptable way. Traffic is already congested in this area not to mention roads and infrastructure being taxed to the brink. The nearby schools, college campuses, communities and people will suffer greatly from the increase in traffic and influx of people . Crime will rise to intolerable levels just from studying the impact on Atlantic City of the casinos there. This is just not a good fit for this site, period! As this site belongs to the taxpayers we demand you listen to our voices and decline to advance this ill conceived plan

Sincerely,
Paul Rezler

Attention:

I am strongly opposed to having this casino in our county on Long Island.

Nassau county has many other progressive needs for our residents than a casino.

We need to pay more attention to medical , educational, research, job/career training and educational facilities for our own residents, both adults and young people . I think we could again use some fine roller skating rinks and better swimming pools in our communities for our young people to enjoy !

This is not the Jersey Shore !

Thanks for your consideration

We the residents of Nassau county strongly demand that our elected officials respect our opinion about casino. It will increase traffic and bring drugs and crime in our neighborhoods. Especially right next to two colleges like Hofstra and Nassau county [college.it](#) will hurt our children and expose them to gambling instead of focus on their education. We demand NO CASINO.

We live in Westbury and have heavy traffic due to the three colleges, mall, galleria and more shops being built. The Meadowbrook parkway, and streets around us are over burdened already. The last thing we need is a casino between two colleges. Please say No!

This is to let you know that I am against the proposed casino.
One more gambling establishment is not needed. Rather than enriching developers and contractors money could be better spent improving living and working conditions for the community.
Do the right thing by your constituents and do not proceed with this plan.

Save Nassau County ! Say NO to sneaky and duplicitous Nassau County Executive Bruce Blakeman and Blakeman's longtime political megadonor benefactors at the Las Vegas Sands Corporation and their massive Nassau Hub gambling casino scheme that would ruin Nassau County and bring misery to its residents !

If any of our politicians CARE even one iota for the people who live in the surrounding communities of the proposed casino, they will rethink this MOST ill advised monstrosity. At the very least our water and air would be seriously compromised. The traffic in the area is already horrible. So I say NO!NO!NO!to this HUGE MISTAKE.

I live less than 2 miles from the proposed sight of the Casino and I am deeply concerned about all the negative impacts this casino will bring to my home and the surrounding businesses, schools, and homes in the area. There are no positive benefits of the increase in traffic, crime, environmental demands and decreased home value to name a few. Please don't let this happen.

Sincerely,

Barbara Debold

This casino is a travesty against the people of Nassau County and must not be allowed to pass. My family and friends from out of state refuse to travel here during the daytime, holidays etc because of the excessive amount of traffic constantly found on the Brooklyn, Queens and Long Island parkways. Voting down this casino is a no brainer for our county. Besides the huge problem with traffic on our inadequate roadways, the social problems that this casino will bring will far outweigh any benefit to the citizens living in this county. If you care at all about our county, please vote NO on behalf of your constituents.

Thank you

All, definitely not crazy about the casino but if the town of Hempstead politicians years ago would of let Charles Wang develop the site like he wanted, most on his dime you would had the islanders stay there with a beautiful hotel complex you wouldn't be where you are now. Something needs to be done about this wasted piece of unused parcel. Come up with a better solution otherwise the casino will move forward even without the public's approval.

We do not want or need this kind of facility in our neighborhood. It's going to run crime in and lower the value of our homes. We also have overcrowding in to contend with as is once this proposition goes through. It will be unbearable. I vote my family votes my friends vote, and we're all voting for this casino.

Dear legislators,

As a resident of Nassau County this proposed casino is extremely concerning to me and the residents of the nearby communities. Our quality of life will be severely impacted in an unacceptable way. Traffic is already congested in this area not to mention roads and infrastructure being taxed to the brink. The nearby schools, college campuses, communities and people will suffer greatly from the increase in traffic and influx of people. Crime will rise to intolerable levels just from studying the impact on Atlantic City of the casinos there. This is just not a good fit for this site, period! As this site belongs to the taxpayers we demand you listen to our voices and decline to advance this ill conceived plan

Sincerely,
Paul Rezler

Attention:

I am strongly opposed to having this casino in our county on Long Island.

Nassau county has many other progressive needs for our residents than a casino.

We need to pay more attention to medical , educational, research, job/career training and educational facilities for our own residents, both adults and young people . I think we could again use some fine roller skating rinks and better swimming pools in our communities for our young people to enjoy !

This is not the Jersey Shore !

Thanks for your consideration

We the residents of Nassau county strongly demand that our elected officials respect our opinion about casino. It will increase traffic and bring drugs and crime in our neighborhoods. Especially right next to two colleges like Hofstra and Nassau county [college.it](#) will hurt our children and expose them to gambling instead of focus on their education. We demand NO CASINO.

Amir zafar

I live, work and vote in Nassau county. It is NOT ok to bring a casino to our county! Vote No to the casino.

It is crazy to even contemplate having a casino in Nassau county. The county will be destroyed by the people who will come to the casino, as well as the temptations it brings to our children to get addicted to gambling. Further, I am concerned for the safety of my young daughters.

If approved, I will be moving out of New York to avoid the disasters this casino poses to me and my family.

Thank you,
Beth Karcher

#NoToCasinoAtColiseumSite #ItsNOTaDoneDeal

NO TO CASINO AT COLISEUM SITE!!!: The proposed construction of a casino at the site of Nassau Veterans Coliseum in the predominantly Black and Brown community of Uniondale, New York, would be a destructive decision that could negatively impact neighboring Hofstra University, Nassau Community College, and the Sloan Kettering Cancer Center Nassau. Casinos have long-term colleagues such as gambling addiction, crime, and prostitution, that are not in the best interest of the residents of Nassau County, the students at Hofstra University, and Nassau Community College. As well as the struggling cancer patients at Sloan Kettering Cancer Center Nassau. This effort could rob, rape, and ruin the lives of many broken, battered, and bruised Nassau County residents, students from home and abroad, and cancer patients, fighting the forward fight to survive.

Efforts to weaken the Black and Brown vote through redistricting in America's largest township, the Town of Hempstead, and one of America's richest counties, Nassau County, literally adds insult to injury. The corrupt trinity of environmental racism, classism, and sexism, baptized in pure greed wants possession of the very soul of our beloved township and county. The concerned residents of the Town of Hempstead and Nassau County must stand up, speak up, and seriously fight the forward fight for our future and survival.

To Whom It May Concern;

I realize something needs to be done with the Nassau Coliseum property. This is not new news. Nope. Once upon a time, not all that long ago, a gentlemen named Charles Wang wanted to do some really nice things at the property that were smaller in proportion to this. But, Kate Murray led the brigade to get in his way time and time again until he gave up and took the Islanders to UBS.

Until recently, I had heard no new development ideas for the propety. Perhaps that is not entirely accurate to say, but for me, no news. Now, here we are with this monstrosity of a project that will destroy the quality of life on this island. This is suburbia. Which is what those of us who live out here and pay high taxes for want. If this comes to fruition, suburban life as we know it will disappear. If I wanted to stay in Sunnyside, Queens where I lived when my family was still small, I would have a fraction of the taxes I have today. But, we wanted more room, a yard and the ability to drive to where we needed to go without all the congestion.

750,000K in water pumped into this place every week? You cannot be serious! Can this island even handle this project? The Army Corp of Engineers has to come to our shorelines every couple of years and certainly after every big storm to reinforce our shoreline as it erodes more and more every year. I grew up in East Rockaway in a house that was built up high on the property. In ths 70s & 80s it never flooded from seepage. Since the early 90s the water table underneath the house has eroded so badly that every time it rains hard for more than one day, my father has to sit and man the sump pump to make sure no water gets in. Can this island even withstand this type of project for the long haul. In my opinion, I don't think so.

So, yes. There needs to be something new and vital at the property. But, instead of trying to backdoor the residents/taxpayers with this monstrosity...how about you try to bring communities together? The whole thing smells of corruption and corporate greed. Backdoor deals that benefit the few while destroying the quality of life of tens of thousands.

Please reconsider.

Thank you~
Lenore Rust

Having a gambling casino (and much more) in the center of Nassau County will be a cancer that will spread outward to adjoining areas, destroying the specialness of what we have. A casino, like a cancer, will negatively infect and impact what is a healthy living and working situation. In not necessarily order of importance, but all very important issues to all of us: (1) increased traffic causing hardship and frustration to all who travel through & near the area, to say nothing about the addition of distracted booze-laden bettors to the roads; (2) the exposure of the students of the very near-by colleges, high schools and other educational institutions to the many casino patrons who bring, and will spread, their own problems to the surrounding areas; (3) the constant increased demand on our already fragile water supply system will result in serious long-term complications; and (4) the fact that a casino will richen the coffers of Sands, it does so from the pockets of those who can least afford it either addictically or financially. All of these reasons, and there are more, will spread the cancer to negatively affect every citizen of a great county for this and all future generations.

Hard Rocks Casino project at Citifield has been unanimously approved by the the 5 local community boards in direct influence of that plan. Nice to see that those Communities have a voice. Better know as the Metropolitan Plan, it's the right location, perfect operator, and right plan for the plot adjacent and around Citifield. If Casino licenses are issued by the NYS Gaming Commission for both the Sands Nassau Hub and Citifield Flushing NY, Sands and Hard Rock would be in direct competition for the same pool of tourists and gamblers. If you have experienced a Hard Rock Resort anywhere in the world they are renowned for their high standards of hospitality, entertainment, and fiscal responsibility. I'm not ready to roll the dice and bet my future on the Sands project as the winner of this game! Just like NCMC and the Nassau Colliseum under Nassau Countys oversight will fail miserably and we the taxpayers will have to live with the consequences!

Comment: So many assumptions in the DEIS. So much information omitted. I oppose the Integrated Casino Resort Project. There are better alternatives that will benefit all Nassau County Residents but the people we rely on to protect our interests and preserve our surban way of life are looking for a quick fix. They will bankrupt your future in more ways than you could imagine. Get the full details here: <https://www.nocasinonassau.org>

I live directly across the proposed casino. Apparently this decision is based on big money and political favors. The people did not get to vote on what is wanted . We can write and voice our opinions but who is ultimately deciding. There are so many better things that could be done with this property other than a problematic casino. The sands is spending money on publicity and spreading their false community charity around , for now. Wait until they bring traffic, pollution and corruption to the community. Then the taxpayers will have to pay to clean it up.

Here's another interesting fact.

The SANDS DEIS guarantees Nassau County 54 Million Dollars per year over the lease term. According to US Census figures there are 476056 households in Nassau County. If All the funds went Directly to each household we would receive \$118 DOLLARS per year. After the County takes its share to cover projected costs very little funds will go back in our pockets even if the projected windfall was quadrupled. Are the risks to our Health and Quality of life worth the risks this project presents. Know the facts!

No one has ever asked for a casino. We already have unlimited sources of wasting money, along with plenty of legitimate ways to spend free time.

The most disingenuous and insulting aspect of Sands proposal is their nutso idea of an addiction center "right on the premises!" Is that supposed to be impressive? It would be like Alcoholics Anonymous having meetings in bars. Pretending to be virtue signaling is worse than actually virtue signaling.

The traffic in that area is already horrible and that's on a day without an accident or construction.

We must remember that the basic premise of gambling is that most people lose, most of the time.

There should never have been a 5 minute discussion of this absurd idea.

Sincerely,
Patty Knap

We don't need another filthy gambling addiction casino on Long Island. Will you ever stop raping the land?? You are going to destroy the tiny bit left of the beautiful Hempstead Plains & the native wildlife, all for greed. Do you ever listen to what the people want, or will you continue to push forward as greedy rich politicians lining your own pockets. Pathetic!! Nobody wants a shitty garbage towering glass casino.

I hope this email finds you well.

As a 33-year-old fourth-generation Black American Long Islander, a Kellenberg Memorial graduate, and someone who participated in Hofstra extracurricular activities from childhood, I find the proposal to build a casino here deeply disappointing and a betrayal of what remains of our community's legacy. My grandfather, Charles Penner (Pena), contributed to this area's rich history by building and flying aircraft in what is now the Cradle of Aviation Museum. A casino on this land dishonors his contributions and the proud heritage of families like mine who have been staples of this community for generations. Personally, I've experienced the devastating effects of addiction, having lost my father to struggles with drugs and alcohol—issues that have already taken a toll on our neighborhoods. A casino would only exacerbate these problems, preying on vulnerable residents while enriching a select few with no regard for the wellbeing of Uniondale, Hempstead, and Roosevelt.

The Black community in these areas deserves investment in institutions that uplift and empower, not establishments that risk further destabilization. Let us preserve and celebrate our land, focusing on initiatives that inspire growth, pride, and opportunity—not greed and exploitation. We refuse to let this area become another example of neglect, like parts of Queens. This community deserves better. I am also attaching images that highlight my mother's and father's history of living in Uniondale to further illustrate my family's deep roots and enduring connection to this community.

Sincerely,
Felicia Stephens

My name is Sally Gallo. I am a resident of Garden City. I am against building a casino in the backyard of our town. It will bring traffic and lots of other problems. I urge you as our representatives to VOTE NO! NO CASINO! I will be following what happens and will vote out anyone in the county government who chooses to make our life here in this town miserable. Please listen to the families here who want to stay and not be forced to leave.

NO CASINO!!!

Thank you.

Sally Gallo

I am strongly opposed to the proposed Sands Casino. As a resident of Garden City, I am greatly concerned with the horrific traffic on Old Country Road and Meadowbrook Parkway. Traffic crawls or is at a standstill a good part of the day. Our roads cannot support a casino that would attract more people from the metropolitan area. In addition to the aggravation of spending time in traffic, the additional vehicles will only adversely affect our air quality and health of our residents.

In addition, Garden City's water supply will be greatly affected. The quality of our water has not been good in recent years and could not support such a mega enterprise as the Sands Casino.

Please do what is right for your constituents and not what is in the best interest of Sands.

Thank you,
Pat Forie

Nassau county is a suburb of the five boroughs of the City of New York.
I see how every space available has been built upon in the Boroughs, causing a congested style of living!
Nassau County should not follow the City's path!!!!

k you,

t Kaplan

resident of Nassau County}

We DO NOT want the casino in Nassau County. It will create pollution, congestion, crime, gambling addiction, traffic, & all negative effects!!! It is too close to Hofstra University & will negatively affect the students. It will bring bad people into our area! We DO NOT want it. Paul Eisen, Wantagh, New York. GO AWAY!!!!!!

I live in the area for 50 years
The traffic on Hempstead turnpike is terrible.
It's gotten worse in the past 10 years.
And now a casino????with busses cars. Ubers..
It will be a nightmare.
I'm sure the money will be a really big factor...
But we'll see..

To whom it may concern:

I am voicing my opposition to the Sands casino at Nassau Coliseum.

This casino will endanger our water supply, increase traffic congestion and increase crime to the area.

Thank you,

Ricardo Companioni
Nassau resident

We have lived in Nassau County our entire lives. We are against this casino for many reasons....too close to colleges that I have attended, too much traffic for the Meadowbrook Parkway to handle, etc. etc. All one has to do is look to Atlantic City and see how the surrounding area looks next to those casinos. And we do not want the Hempstead Plains to suffer any further damage. Our Nassau County taxes are some of the highest in the nation. We should not have to put up with additional traffic and other issues this casino will bring. I can see no advantages to this Casino for the people who live here.

Thank you
Kathleen Balabanick

I am very concerned about our environment if the Sand's Casino is approved. The amount of water and waste, traffic and I'm sure crime will go up reducing our home value. Two colleges are located near this area and I'm certain it will distract many students. Please vote NO!

Thank you.

Dear Nassau County Legislators:

I've lived in Nassau County all my life and never once have I heard anyone say, "What we really need here is a casino!" We have every conceivable form of leisure, entertainment, sports, beach, music...etc....along with endless ways to waste money and develop addictions.

Every town that has brought in a casino was told the premises would be beautiful, safe, have adequate traffic flow in and out, bring employment, blah blah blah. Take a look at Atlantic City. Residents there were told the same glowing pack of lies we're being told now. We already have unusually low unemployment in our county, and any new employment at a casino would only be pulling jobs from neighboring residents etc. Of course business at casino bars and restaurants is only pulling it away from already existing establishments.

The surrounding area is already jam packed with traffic, especially at rush hour. The influence on neighboring college kids and other young adults is all negative from throwing away money and then returning to hopefully win it back, drinking, and DUIs. Fathers spending time and money at casinos are pulling both away from their families, and that shows up in divorce statistics around casinos. The effects on our aquafr will be immense, and effects on area birds and small animals have been highlighted by the environmental impact study done in Nov. 2024.

Lowered property values and foreclosures are more inevitabilities. Crime also increases in casino areas as losers try to recoup their losses.

At one hearing I was at, a man stood up to share the devastating consequences of growing up with a father who was addicted to gambling. He said it destroyed his family. He'd barely finished his statement when a guy from Sands, sitting up front, popped up very excitedly as if he had some great news. "Oh! Well I want you to know that we are perfectly willing to put in an addiction center RIGHT THERE ON THE PREMISES!!" Was he expecting people to applaud? He was actually serious...hey, tell everyone they're welcome to come to the support group or gamers meeting or whatever they'd call it, listen to a lovely talk, and then roll across the hall for hours of gambling. Hello? Does Alcoholics Anonymous have meetings in bars?? How stupid do they think we are?

We already have some Queens-like encroachment going on in Elmont and New Hyde Park. The absolute last thing we need is a huge tacky neon-signed addiction center surrounded by enormous parking lots and packed highways.

Please do everything you can to stop this nightmare.

Sincerely,
Patty Knap

Hello,

I realize something productive and useful needs to be on the Coliseum property if the Coliseum itself no longer drives a meaningful revenue. But, this will destroy suburban life as we have known it here on Long Island with no hope of recovering. Stop the short term quick fix answers that only benefit the few that are brokering the deal.

Come up with a vision that will enhance life on Long Island. That will be a part of the future as we move forward and bring prosperity not only to those who negotiate and create such a deal, but, to the community of Nassau County and Long Island as a whole.

I went to one of the very early meetings that Blakeman held regarding the idea of the Casino on the Coliseum property. At the time, I thought it might be good for the economy. Quite the contrary. Representatives from Suffolk County who had been a part of the Jake's 58 Casino project were quick to clue us in that a Casino is a bad idea. Why?

High rise in crime. Human Trafficking. This left me stunned. I had no idea a casino was a place where human trafficking took place. Right near several colleges and a few high schools? You cannot be serious.

Furthermore, there are not enough resources to sustain proper care of those who work and play at the Casino. At that meeting I attended, it was made very clear, the surround communities do not have the police, fire or EMS resources to properly cover a property of this magnitude outside the scope of the communities they serve. So answer me this, how will this benefit Long Island if the taxes go up to hire enough resources?

This whole thing has been done through back channels and back doors. Blakeman sends out a flyer to every home in Nassau County touting all the great things he's doing and

**THERE IS NO MENTION OF THE
SANDS CASINO PROJECT.**

Sincerely,

Lenore Hickam-Rust

Dear County Legislators,

I strongly oppose the casino project at the site of the Nassau Coliseum. The Draft Environmental Impact Study (DEIS) clearly demonstrates that there are overwhelmingly

negative environmental, societal, economic, and financial impacts that will impose destructive costs on our environment, our local economy, and our social fabric – costs that will be imposed on my community in exchange for insufficient benefits.

I urge you to protect Nassau County's future and your legacy by voting to stop this ill-conceived project.

Sincerely, David Garcia, Hempstead, NY

I strongly oppose the Sands Casino development for many reasons, in particular the horrendous traffic issues and pollution that it will cause. Add to this the ensuing crime that always follows and the inevitable increase in gambling addiction, and there is no way to justify supporting a casino on the doorstep of so many established communities.

I assure you that I and my neighbors will remember those legislators, in whichever party, who choose to ignore the concerns of their constituents and vote for this monstrosity that will do nothing but damage our way of life and lower property values.

Hello,

I am reaching out as a Massapequa Park resident, board member of Long Island Progressive Coalition, & graduate of UMass Biochemistry and molecular biology. I am in horror of the fact Nassau is considering damaging 100 acres of nature preserve for the benefit of a casino.

I have previously expressed my disapproval of the casino and do not believe it will actually help residents. Regarding the environmental impact I encourage the rereviewal of your own EIS document.

Save Hempstead Plains and East Meadow Brook Riparian Corridor!

These natural spaces provide more fiscal benefit than a casino would with trees/plants having been studied to decrease the local temperature of an area. These lands also help LI aquifer process rain back into the ground.

Despite scientific advancements we are not better than nature at purifying water and air. The casino will cause more injuries not just from the soon to be intoxicated drivers but also from the impact of the nature around us.

The county is stronger than Blackman's private motives for this casino.

Save the plains and corridor!

As with many, many others, I am writing to voice my opposition to the proposed Sands development at the Nassau Coliseum site.

There are so many reasons to be extremely concerned about this proposal. A casino and all the implications of this type of business is only one area of concern. The lack of concern about what a casino will do to the surrounding area, as well as the young people of Nassau County, goes without saying. You know the evidence about the impact of gambling but you seem to have no concerns.

As important, is the sheer size and scope of the project. This will forever change the nature of Nassau County, creating it as an urban area which will then turn into urban blight, as has happened with many similar developments.

What is most disturbing to me is the fact that the Nassau County Legislature has done absolutely nothing to assess what is the best use of this property. NO RFPs requested, no innovative development contests designed and no attempts at all to see what the possibilities might be. The dereliction of your duty in the project speaks loudly to your lack of interest in doing what is best for all residents of Nassau County. Generations to come will pay the price for your lack of leadership.

Sincerely,
Judy Courtney

I strongly oppose the Sands casino project at the site of the Nassau Coliseum. The Draft Environmental Impact Study (DEIS) clearly demonstrates that there are overwhelmingly negative environmental, societal, economic, and financial impacts that will impose destructive costs on our environment, our local economy, and our social fabric – costs that will be imposed on my community in exchange for insufficient benefits.

Dear Sands Casino & Co.,

With the NYC mass transit infrastructure already in place (including subways and buses), ample land space in Queens and closer to the rest of NYC's mass-transit accessible dense population center, the proposed casino in Nassau makes little sense when contemplating a commuter-comparison.

Leave the city, the city and leave the suburbs the suburbs. Accordingly, should you build in Queens, more Nassau county residents will visit a Queens located casino than a Nassau located casino - it just makes more logistical sense to not deal with additional street congestion and parking versus mass transit access.

Please give this "No to the casino (in Nassau county)." your very thoughtful consideration.

Sincerely,

Daniel P. McLaughlin & Family
32 Euston Rd.
Garden City, NY 11530

To whom it may concern,

I strongly oppose the casino being built at the Nassau coliseum hub. I work for the city and it already takes me almost 2 hours to get to Brooklyn. The traffic volume in Nassau county is absolutely unbearable! It takes New York years to complete any major roadwork and expanding the roadway will not accommodate the additional traffic for a massive casino. The residents of the county will be forced to bear the burden of this project for your own financial gain.

No to the casino

Thank you in advance,
Shawn Roser

To those responsible for the Sands Casino decision:

Having read extensively about the pros and cons of the proposed Sands Casino in Nassau County, I am STRONGLY OPPOSED.

Without repeating all the clear and accurate reasons why this is a horrendous idea, not the least of which is the horrors that large scale gambling brings to a community, I and all of my Garden City family feel it is highly important for all office holders responsible for voting on this issue to vote against it at every turn.

While it is always possible to disagree in our democracy, this is the first time I am writing on any such issue and it is so important to me, that I will strongly consider not voting for any office holder, in all future elections, who votes FOR or supports the Sands Casino proposal.

Regards,

John Daley

My family and I are strongly opposed to the casino planned for the Nassau Coliseum site. There are so many overwhelmingly negative impacts including traffic, pollution, crime etc. etc. that it makes one highly suspicious of the motivations behind any legislator's affirmative vote. We will not support the reelection of any legislator who votes for the casino.

The experiences of other locations that have brought in casinos clearly demonstrate that there are very few benefits to the local communities. Monticello, New York and

even Atlantic City, New Jersey are prime examples. Why would we want to do this to ourselves?

The new medical facilities that have been built and are proposed for the area will be strongly affected. I can't imagine the traffic I'll face when I go to the Memorial Sloan Kettering building for treatment. Hempstead Turnpike is a nightmare already.

Again I implore you NOT to allow the casino. The only ones who will benefit are Sands. The county executive is always touting Nassau County's success. Are we really so desperate that we have to make a deal with Sands Casino for revenue?

STOP THE MADNESS. VOTE NO.

Kathleen O'Malley

When I was pursuing my engineering degree, we were required to read To Engineer is Human, a book focused on engineering failures. As I reviewed the Sands DEIS, it kept reminding me of that book. I do not support this project, and I believe you shouldn't either.

As someone who grew up in Garden City and now moved back to raise our two small children, we want NOTHING to do with a casino in close proximity to our community. This is a giant overreach to think a casino in Nassau County is appropriate. There are obvious reasons behind so much opposition, including and not limited to congestion, traffic, gambling addiction, increase in crime, human trafficking, drug dealing and other illicit activity. Casino's attract some of the worst kinds of humans that pollute the surrounding area with nefarious activity. The people behind the project, and big gambling in general are only concerned with shareholder profits and filling their own bank accounts and will leave our community with the aftermath to deal with. Build a park, a community center, a learning center or literally ANYTHING other than a ridiculous casino here in our neighborhood.

Sir/Madam:

I have been a resident of Garden City for over 30 years and I wish to register my total opposition to the proposed Casino development at the Nassau hub. My opposition is based on traffic congestion, increased air pollution and further threats to our water aquifer on Long Island. The proposed casino would result in over 20,000 visitors on a daily basis and would further tax our already jammed roads. The resulting traffic would worsen air pollution in the area resulting in a deterioration in our public health environment in the surrounding neighborhoods. Furthermore, our Long Island aquifer is already under stress and we cannot afford a further increase water consumption that this development would entail.

I feel that the draft environmental review did not sufficiently address the above issues and that the report did not meet the standards necessary for a complete environmental review of the proposed project.

Traffic and environmental concerns must be addressed. Hempstead Turnpike is already encountering heavy traffic, as well as Merrick Avenue. The need for affordable housing and not a casino should be a priority. You boring are moving away due to the high cost of housing. Rentals are not affordable for anyone.

To whom it may concern,

I am a builder who lives in Wantagh. This Casino is not a good idea for this land and area. It is not good for long islanders and for Casino owners. This place will wind up being a terrible place, bringing down the area by attracting people with problems. My 37 years of looking at areas to invest and build tells me that this is a mistake for Long Island. This will be just another reason to leave Long Island.

Sincerely,

Bobby Coyle

Dear Nassau County Legislators:

I strongly oppose the Sands casino project at the site of the Nassau Coliseum. The Draft Environmental Impact Study (DEIS) clearly demonstrates that there are overwhelmingly negative environmental, societal, economic, and financial impacts that will impose destructive costs on our environment, our local economy, and our social fabric – costs that will be imposed on my community in exchange for insufficient benefits.

PLEASE DON'T DESTROY OUR NEIGHBORHOODS!! Nassau County is no place for a Casino.

One can not over exaggerate my objection to a casino being permitted in Nassau County. It continues to amaze me that Government executives and legislators alike promote activities that not so long ago caused people to be arrested. Perhaps as an alternative these same officials can find ways to reduce spending to avoid the need to seek additional revenue by implanting a coliseum of vice in our mist. I'm sure advocates will point to good construction jobs etc and the benefits they will bring to the area. Frankly these jobs by their nature are short lived, yet local communities will be subjected to the ongoing negative impact having Sands as a neighbor will bring. Of course supporters will sugarcoat and downplay any potential detriment. However, one needs simply to witness the activity taking place in known gambling hubs eg. Las Vegas, Reno, Atlantic City, and know they are not being truthful. Further you have one of LI's major universities adjacent to the property not to mention local and neighborhood schools nearby. What kind of messaging are we sending our young people by bringing yet another vice into their community. As a resident I am truly disheartened at the thought our elected officials are actually considering this. Those who would vote in favor are doing so based on a rational that doesn't exist - it will not improve the quality of life in Nassau County, in fact just the opposite will occur. Bottom line, the extra revenue Sands could generate for our county is simply not worth it.

Sincerely,
Bart Brown

Dear Nassau County Legislators,

I oppose the building of Sands Casino in Nassau County. Long Island is notorious for its bad traffic and the casino will only make it worse. As someone who lives at the junction of Clinton Road and Stewart Avenue, and grapples daily with the traffic by-products of the mall, Old Country Road and the highways, I can only presume that an event space that draws thousands of people daily will increase the number of cars on the road, the number of people violating red lights and traffic laws, and the number of people stuck in jams on the road.

I implore our legislators- please vote for the good of the people actually living AROUND the Nassau Coliseum space.

Thanks for your time and service to our county,
Erin Debrich

Dear Nassau County Legislators:

Elected officials, policymakers should be focused on protecting our communities and putting public safety first. Building a mega Casino (24/7/365 use), one of the largest in the country would be a good way to wreck the local economy. I strongly oppose the Sands casino project at the site of the Nassau Coliseum.

The Nassau Hub Sands-SEQRA files (2.2 GB (2,397,271,293 bytes)) demonstrate that there are too many negative impacts to the proposed casino development. This gargantuan development would not be appropriate at The Nassau Hub site, with respect to adjacent commercial enterprises, residential neighborhoods and educational institutions.

The adjacent parkways and expressway (Meadowbrook State, Northern State, Grand Central, Southern State, LIE) are bumper-to-bumper moving parking lots during work days, holidays, warm sunny weekends. Local roads are not much better either for those who live in surrounding areas.

Stop this ill-conceived project.

Sincerely, Myron Barniak
East Meadow resident

I strongly oppose the Sands casino project at the site of the Nassau Coliseum. The Draft Environmental Impact Study (DEIS) clearly demonstrates that there are overwhelmingly negative environmental, societal, economic, and financial impacts that will impose destructive costs on our environment, our local economy, and our social fabric – costs that will be imposed on my community in exchange for insufficient benefits.

Michael Torregrossa

Please rethink this area for the casino

It is close to two colleges and a high school. We do not want these young people anywhere near a casino.

It is in an area that already has traffic congestion.

I live in East Meadow which will be severely impacted.

There are better places for this to be built.

Thank you

To any of you that are listening or care.....SHAME ON YOU FOR EVEN THINKING OF COMPROMISING THE CONSTITUENTS OF NASSAU COUNTY!!!!....I don't pay my taxes to live in this beautiful town of East Meadow to have my property values decrease....my neighborhood to be in fear of prostitution,drug sales, drunk drivers, increased traffic congestion, environmental pollution, the loss of beautiful natural land and wildlife, the unlimited and excessive consumption of water, the potential of the students in schools in the area of becoming addicted gamblers or losing students because responsible parents will not let their children go to a school that close to a den of iniquity. WAKE UP AND PREVENT THIS FROM HAPPENING!!!!.....The promise of money filling the coffers here in Nassau county is bogus...the only thing thats happening is the lining of the pockets of those corrupt enough and with no moral values to accept money from this despicable evil... Thank you for your time.....Deirdre H Benoit

I am adamantly OPPOSED TO THE DEVELOPMENT BY THE LAS VEGAS SANDS OF A CASINO at NASSAU COLISIEUM for the following reasons.

I have lived in Garden City for 27 years and have been adversely affected by the LIRR building a Third track. I attended the beginning meetings over 15-20 years ago when the MTA/LIRR was touting the praises of a Third Track. Years later, the adverse effects of this track and the construction behind it, have significantly changed the landscape of anyone living near the railroad. During construction, they cut down 100 foot oak trees, which put a cement

factory in clear sight. These trees did not need to be cut down but were for the convenience of the track workers. These can never be replaced. The trees were replaced with 105 foot poles that ruined the real estate value of our property. How did this happen?

A SEQRA was done, which I have read and it listed some negative effects that would be possible. The LIRR made promises of grandeur with no adverse effects. The contractors hired by the LIRR/ 3TC then decided the almighty dollar was more important than following what was planned in the SEQRA. What ever was the cheaper way of building the Third Track that was the option taken. DO YOU THINK LAS VEGAS SANDS will be any different?

The almighty dollar will prevail and the promises of an aquifer, an expanded Meadowbrook Parkway and pollution controls will go out the window and never happen. It will be TOO EXPENSIVE to implement these proposed ideas in the plan. What are the repercussions for not following the DEIS? NONE

The adverse effects of ruining Nassau County Water supply, the pollution, the traffic will happen and it will be too late.

The DEIS probably didn't even really list other adverse effects because let's face it, what firm is going to go against the almighty Nassau County power structure.

In conclusion, the DEIS is extremely misleading and you can count on at least half of these negative impacts coming to fruition.

Do you know what is right in your hearts and do NOT ALLOW a Casino to be built near hospitals and schools in Nassau County.

Dear Nassau County Legislators:

I strongly oppose the Sands casino project at the site of the Nassau Coliseum. In the near future, gambling will go on-line. There's no need for casino in 10-20 years. Please have a long term vision and build something at Nassau Coliseum site that last a long long time. Thank you.

Sincerely,
Germany Feng

Respectfully to Nassau County,

I am not in favor of further development on the so called Hempstead Plains area.

Although it would be sad to see some of the last open, undeveloped land disappear, I am most worried about the increase in traffic, congestion and aggravation this construction and development would cause.

Nassau County development must be done smartly. This automobile centered project turns even more of the area - including the Nassau Arena, Roosevelt Field, Hofstra University, Nassau Community College, Museum Row into a giant parking lot. The lack of viable public transportation is a problem - and will lead to even more congestion on Hempstead Turnpike, Meadowbrook and Wantagh Parkway - as well as Old Country Road.

Is the further commercialization of this area really worth the worse quality-of-life?

I see no additional investment in Nassau County Parks.

The “environmental” accommodations in the project plans really are bare minimum and still do compromise the Plains land.

This is seen by many people as steamrolling a project that does no good for the people of Nassau. Only Benefits are for real estate and other business interests.

I live in Uniondale for the last 32 years about four blocks from the coliseum. I thereby request that you voted no for the casino, because after reading the DEIS report where Sands is telling the kind of damage the construction will do to the environment, I truly hope that you will reconsider your previous votes.

Dear Nassau County Legislators:

I strongly oppose the Sands casino project at the site of the Nassau Coliseum.

The DEIS hearing was without fairness

You are all a bunch of corrupt hogs trying to slop up at the public trough

You barred me from the meeting because the room was too full but you were sure to allow your patrons at the Sands the opportunity to enter in front of me. I am sure their care for the fire code will mirror their care for Nassau's environment

Dear Nassau County Legislators,

I strongly oppose the Sands casino project at the site of the Nassau Coliseum. As a student at Hofstra University, I do not want a giant casino next to my school. The Coliseum is better kept as is or turned into housing.

The casino deal is a tax scam. Sands and Legislators have not been open about the fact that Sands is exempt from the regular taxes everybody else has to pay. This is outrageous. People are struggling to afford rent while a multi-billion dollar corporation pays less taxes than us!

Everything about this deal has been secret. Nearly two years have passed since the deal was announced and a copy of the contract between Sands and Nassau County STILL hasn't been released. All criticism of the project is being suppressed, and it is STILL unpopular with most residents around the Coliseum.

The deal document needs to be made public, and the deal needs to be torn up and rewritten so that Sands is paying their fair share. I don't want a casino in the first place, but if Sands wants to set up a casino in our county, then they're going to have to pay standard taxes and pitch in like the rest of us for the privilege of being in our wonderful country.

Be advised that further votes in favor of the Casino project means that I will not vote for you or support you with time or money in the upcoming county election.

Sincerely,
Matthew Adarichev
