

BRUCE A. BLAKEMAN
NASSAU COUNTY EXECUTIVE

PROPOSED 2026 CAPITAL BUDGET

2026-2029 CAPITAL IMPROVEMENT PLAN

OCTOBER 2025

BRUCE A. BLAKEMAN
NASSAU COUNTY EXECUTIVE

OFFICE OF THE COUNTY EXECUTIVE
THEODORE ROOSEVELT EXECUTIVE & LEGISLATIVE BUILDING

October 15, 2025

Presiding Officer Howard J. Kopel
Minority Leader Delia DeRiggi-Whitton
Members of the Nassau County Legislature and the People of Nassau County

Re: 2026-2029 Capital Improvement Plan

In accordance with Article III, Section 310 of the County Charter, as amended by Local Law 13-2001 and by public referendum further amended by Local Law 11-2003, I submit my proposed Capital Improvement Programs ("CIP") for fiscal years 2026-2029. This document includes the following:

The Capital Budget for FY 2026; and
The Four-Year Capital Improvement Plan for FY 2026 through 2029.

The proposed Four-Year Capital Plan will provide an investment of \$1.6 billion for general capital improvements and \$558.1 million for our sewer system in 397 different capital projects. In 2026 alone, the County anticipates spending County funds totaling \$27.8 million in improvements to County buildings, \$21 million for Nassau Community College, \$15.7 million for equipment, \$31.5 million for County Infrastructure, \$20.5 million in County Parks, \$40.9 million for Public Safety, \$52.9 million on County Roads, \$26.8 million on technology upgrades, \$56.1 million on Traffic system upgrades, and \$5.7 million on transportation upgrades.

Major projects that are anticipated to start in 2026 include a Countywide sewer infrastructure rehabilitation project, upgrades to the Sheriff's Department radio communication system, a guiderail evaluation and replacement project, and the expansion of the County's traffic signal communications network.

Thank you for your consideration.

Respectfully yours,

A handwritten signature in blue ink, appearing to read "B. Blakeman", with a stylized flourish at the end.

FINANCIAL OVERVIEW

The *2026 Nassau County Capital Budget* and *2026-2029 Capital Improvement Plan* present the planned capital investment of \$1.6 billion for general fund capital improvements and \$558.1 million for the sewer and storm water district fund through 2029. These investments will renew and enhance the County's extensive infrastructure and public facilities.

The Capital Budget and Plan advances projects to improve the health, safety, and quality of life of County residents, make government more efficient and responsive to the needs of citizens, and improve our community. Projects include enhancements to County facilities, rehabilitation of roadways, drainage improvements, and the construction and redevelopment of park facilities.

An annual capital budget and plan is required by Section 2219 of the Nassau County Charter. The purpose of this document is to present the priorities of the County Executive to citizens and the Legislature and to provide information about the goals and financing of each project.

The first year of this plan is the 2026 Capital Budget. The annual budget, to be approved by the County Legislature, is the total amount that may be expended on capital projects in 2026. Unspent funds that have been budgeted in previous years (the "rollover") may also be expended in the current budget year. The out years of the Plan, 2027-2029, represent planned future expenditures.

HIGHLIGHTS

In 2026, the County will continue to focus on completing projects that have already begun. The projects in the plan not only provide for the County's own infrastructure needs, but also create new jobs for County residents. This document presents information about all the projects that are currently underway, requests additional funds for projects when appropriate, and provides a financial snapshot on projects in progress. The following are highlights of the document and the County's capital program:

In 2026, the County has a proposed budget of \$299.1 million on general capital projects. This represents all County capital spending with the exception of the sewer and storm water and the Environmental Bond Act program. Through 2029, the County anticipates expending \$1.6 billion for general fund capital projects.

In addition to the general fund capital projects, in 2026 the County has budgeted \$94.3 million for the sewer and storm water program.

There are fifteen new projects included in these Capital Budgets and Capital Improvement Plans, representing a total cost of \$31.7 million of debt in 2026.

APPROVAL REQUIRED

The County Legislature's approval of the 2026 Capital Budget is required by the Nassau County Charter through the passage of a Capital Budget Ordinance. Approval is required for the budgeted amounts for each project in the first year of the Capital Plan (the 2026 Budget).

CAPITAL PROJECTS

Capital projects are those that represent a major investment in County assets. In Nassau County, projects may be included in the capital budget if their cost exceeds \$100,000 or if their useful life exceeds 5 years. The capital budget typically funds projects that are not included in the operating budget because of their high cost and irregular occurrence. Capital projects are usually major physical improvements such as construction, renovation, or acquisition of buildings or property or purchases of long-lived equipment or technology assets.

While the County uses a variety of funding sources for its capital program, a majority of the County's capital projects are funded through debt. The issuance of debt is an appropriate method of infrastructure financing because debt provides for "intergenerational equity" where projects are financed over the period that they are used, rather than only by today's taxpayers. Debt is also used because capital expenditures tend to be large and "lumpy" – irregular relative to the incremental growth of the operating budget.

The issuance and structure of debt by municipalities in New York State is governed by Chapter 33A of the New York State Local Finance Law. Debt may be issued for capital improvements and other discreet purchases, but may not remain outstanding longer than the period of probable usefulness (PPU) of each project as determined by statute. For a bond issue comprising several uses, the issue may not remain outstanding longer than the weighted average of the PPUs of each object or purpose.

THE 2026 CAPITAL BUDGET AND 2026-2029 CAPITAL IMPROVEMENT PLAN

Nassau County is budgeting \$299.1 million in 2026 and \$1.6 billion from 2026-2029 on general capital projects. Other major categories of expenditures include the Sewer and Storm Water District, and the Environmental Bond Act (Open Space). Funding for the entire capital program is shown in the following tables.

FUNDING AMOUNTS FOR THE TOTAL CAPITAL PROGRAM, 2026-2029

	2026	2027	2028	2029	Total FY2026 - 29
General Capital	\$299,074,378	\$455,540,602	\$493,447,886	\$365,450,859	\$1,613,513,725
Sewer and Storm Water Resource District	\$94,258,529	\$150,125,833	\$180,062,500	\$133,700,060	\$558,146,922
Environmental Bond Act	\$26,913	\$0	\$0	\$0	\$26,913
Total	\$393,359,820	\$605,666,435	\$673,510,386	\$499,150,919	\$2,171,687,560

NASSAU COUNTY CAPITAL PROGRAM, 2026-2029

Funding for capital projects comes from a variety of sources. In the 2026 Budget and the 2026-2029 Capital Improvement Plan, the majority of funding will come from the issuance of long-term debt.

FUNDING SOURCES FOR THE TOTAL CAPITAL PROGRAM, 2026-2029

	2026	2027	2028	2029	Total FY2026 - 29
County Debt	\$302,849,156	\$524,527,935	\$571,489,386	\$407,288,419	\$1,806,154,896
Non County (Grants, etc.)	\$90,510,664	\$81,138,500	\$102,021,000	\$91,862,500	\$365,532,664
Total	\$393,359,820	\$605,666,435	\$673,510,386	\$499,150,919	\$2,171,687,560

The County's General Capital Programs total \$1.6 billion from 2026-2029, with \$299.1 million in 2026. A majority, \$1.3 billion, of funds from 2026-2029 to support this program will come from debt. Approximately \$319.6 million will come from non-County sources.

FUNDING SOURCES FOR THE GENERAL CAPITAL PROGRAM, 2026 – 2029

	2026	2027	2028	2029	Total FY2026 - 29
County Debt	\$236,954,656	\$381,902,102	\$398,926,886	\$276,088,359	\$1,293,872,003
Non County (Grants, etc.)	\$62,119,722	\$73,638,500	\$94,521,000	\$89,362,500	\$319,641,722
Total	\$299,074,378	\$455,540,602	\$493,447,886	\$365,450,859	\$1,613,513,725

A description of all of the sources of funding is as follows:

G.O Bonds - The majority of the capital program is funded through long-term debt. The County issues General Obligation Bonds that are backed by the County's taxing power.

Non-County Funding (State and Federal Grants) - Grants are received from other governmental entities for the construction and reconstruction of physical assets as well as the purchase of capital equipment.

Uses of Funds

In 2026, the County will advance projects to maintain its infrastructure. To further this goal in 2026 carryover as previously stated will be utilized for 2026, \$299.1 million for general capital projects, and \$94.3 million for the sewer and storm water program, for a total of \$393.4 million has been budgeted.

2026 Capital Budget

Over the four year period from 2026-2029, the County anticipates spending \$2.2 billion on its capital program. This does not include the carry-forward.

2026-2029 Capital Improvement Plan

From 2026-2029, a majority of General Capital county debt expenditures will be for public safety \$32.96 million, roads \$38.7 million, and buildings \$26 million.

2026 General Capital Budget

Useful Life

The issuance and structure of debt by municipalities in New York State is governed by Chapter 33A of the New York State Local Finance Law. Debt may be issued for capital improvements and other discreet purchases, but may not remain outstanding longer than the period of probable usefulness (PPU) of each project as determined by statute. For a bond issue comprising several uses, the issue may not remain outstanding longer than the weighted average of the PPU's of each object or purpose.

2026 General Capital by PPU

Sources of Funds

In 2026, the majority of the funds (\$302.8 million for the entire capital program) to support the capital program will come from the issuance of debt.

Over the four-year period from 2026-2029, the County will finance its capital program with \$1.8 billion in debt, and \$365.5 million in non-County funds (i.e. grants).

CAPITAL PROJECT IMPLEMENTATION

The Financial Services Unit, located within the Department of Public Works evaluates all new proposed capital projects, in preparation for the proposed capital budget, reviews status of capital projects against the approved budget and project schedule, and project scheduling. The Office also works directly with project managers and the Office of Management and Budget to coordinate capital spending, and anticipated project funding needs.

Capital Projects

The 2026 Capital Budget and Plan includes 15 new capital projects.

Project Title	2026	Remaining Cost	Estimated Total Project Cost
Equipment			
Crime Laboratory Equipment and Software	\$ 75,710	\$ 652,480	\$ 728,190
Parks			
Loft's Pond Park, Baldwin Improvements	\$ -	\$ 1,000,000	\$ 1,000,000
Brookside Preserve Improvements	\$ -	\$ 1,000,000	\$ 1,000,000
Public Safety			
Sheriff's Department Radio Project	\$ 2,500,000	\$ 2,000,000	\$ 4,500,000
District Attorney Fleet Replacement	\$ 700,000	\$ -	\$ 700,000
Medical Examiner Investigations Scene Response Truck and Trailer	\$ 300,000	\$ -	\$ 300,000
Roads			
Merrick Road, Massapequa Streetscape	\$ 500,000	\$ 4,000,000	\$ 4,500,000
Resurfacing Various County Roads	\$ -	\$ 89,000,000	\$ 89,000,000
Traffic			
Traffic Signal Communications Phase III	\$ 325,000	\$ 9,000,000	\$ 9,325,000
Countywide Guiderail Evaluation and Replacement	\$ 1,500,000	\$ 5,500,000	\$ 7,000,000
Frost Mill Road, Mill Neck Traffic Safety Improvements	\$ 200,000	\$ -	\$ 200,000
Traffic Signal Expansion Phase XII	\$ 350,000	\$ 21,600,000	\$ 21,950,000
Incident Management Phase VI	\$ 225,000	\$ 9,000,000	\$ 9,225,000
Transportation			
NICE - Grant Match	\$ -	\$ 4,200,000	\$ 4,200,000
Collection			
Countywide Sewer Infrastructure Rehabilitation	\$ 25,000,000	\$ 75,000,000	\$ 100,000,000

Closed-Out Projects

Projects may be closed out when they are completed or are no longer being advanced. Any cash remaining in these projects is used to decrease debt. The list of closeout projects is being developed in coordination with the Office of Management and Budget.

Guide to the 2026 Capital Budget and 2026-2029 Plan

Project Categories:

In order to group similar projects together and to make it easier to determine how much the County is spending in any particular area, the Capital Budget and Capital Improvement Plan is divided into the following categories:

1. **General Capital** - The general capital program includes projects that will make improvements to County infrastructure projects fall into one of the following categories:
 - a. **Buildings** - This category includes improvements to County buildings, including building rehabilitations and electrical upgrades.
 - b. **Education** – This category, which used to be included in the infrastructure category until this year, includes all of the capital improvements at Nassau Community College.
 - c. **Equipment** - The purchase of vehicles and other equipment is included in this category.
 - d. **Infrastructure** - Major infrastructure improvements, including new bridges, are in this category.
 - e. **Parks** - The construction and rehabilitation of parks facilities are in this project group.
 - f. **Property** - This category includes property acquisition and use studies.
 - g. **Public Safety** - Improvements to the Nassau County Corrections Center, Police Department and Fire Service Academy are in this category.
 - h. **Roads** - This includes improvements to the County’s roads.
 - i. **Technology** - Improvements to technology systems, such as new computer systems to improve the way that the County does business, are in this category.
 - j. **Traffic** - This includes traffic signal improvements.
 - k. **Transportation** – Purchases related to the running of the NICE bus, including the buying of new buses are included in this project category, as well as overall planning initiatives related to the HUB.
2. **Sewer and Storm Water Resource District** - The Authority issues its own bonds and uses these funds to make improvements to the sewer and storm water systems. The following three categories are used for this funding source.
 - a. **Collection** - Collection projects include improvements and upgrades to all pump stations and sewer lines owned and operated by Nassau County.
 - b. **Disposal** - Disposal projects include improvements and upgrades to the County’s sewage treatment plants.
 - c. **Storm Water** - Storm Water projects include improvements and upgrades to creeks, ponds, storm water basins, and other drainage that are used to prevent flooding during severe rain.
3. **Environmental Bond Act. (Open Space)** - Funded through two special assessments approved by County voters, \$150 million will be expended to preserve open space.

Guide to Charts and Tables

The following sections have two basic components: (1) summary tables showing Budget and Plan information for projects; and (2) detailed project information and descriptions.

The summary tables are structured as shown below; each data field is explained in the following paragraphs.

Guide to Tables

1. General Information

This provides the project category, project number, and project name.

2. Previously Approved

These data fields are not required by County Charter, but in combination with the Budget and Plan, provide a better picture of the total finances of each project.

- Cumulative Budget to Date – this is the total project budget for each project. This is the previously approved budget amount.
- ITD (Incurred to Date) Project Expenditures – this is total project expenditures, including encumbrances, incurred to date.
- Carry Forward – The carry forward is the remaining budget authority for a project. Budget is the total amount that can be expended through the budget year. Unused budget authority “rolls” to the next year. A negative number indicates that there is an encumbrance in place that requires future budgeted funds.

3. Current Year Budget

These fields are required elements of the CIP, and define the maximum permitted to be spent on a given project in the current fiscal year.

- 2026 County Debt: that portion of the budget to be funded by bond proceeds.
- 2026 County Self-Funding: that portion of the budget to be funded out of the General Fund.
- 2026 Non-County: that portion of the budget to be funded by grants or other funding sources
- 2026 Total: The total budget for a project, including County Debt, County Self-Funding, and Non-County funds.

4. Capital Plan

This presents the anticipated budget for each fiscal year from 2026 through 2029. The fourth column is the proposed total from 2026 to 2029.

5. Capital Authorization

This is a summary of what has been previously authorized by the legislature and what authorization is required.

Guide to Project Descriptions

Each project that has been included in the 2026 Budget has a one-page description designed to capture basic qualitative and financial information. These descriptions include the following information:

90023 Various County Buildings Backflow Prevention

Project Description

In accordance with the New York State Sanitary Code, Part 5 and the Nassau County Public Health Ordinance, all facilities which are served by the public water supply shall have devices to prevent backflow of potential contaminants into the public water supply. The County has an ongoing project to install these devices in various County buildings. This project will install backflow prevention devices in the remainder of the County facilities.

PPU	10
Legislative District	County Wide

Operating Budget Impact

It is anticipated that this project will not impact the operating budget.

ORDINANCES

Ordinance Number	Total Approved Bond	Amount Borrowed	Amount Unissued
046-1993	\$1,742,715	\$1,742,715	\$0
358-2005	\$3,257,285	\$2,085,840	\$0
9A-2023	\$737,226	\$0	\$737,226
37-2024	\$1,600,000	\$0	\$1,600,000
	\$7,337,226	\$3,828,555	\$2,337,226

PRIOR YEAR APPROVED FUNDING

Total Approved Budget	County Debt	Self Funding (Paygo)	Non-County Funds	Previous Authorization
\$6,475,000	\$6,475,000	\$0	\$0	\$7,565,781

PROPOSED PLAN FUNDING SOURCE

	Obligations Incurred to Date	Carry Forward	2026	2027	2028	2029	2026 - 2029
County Debt			\$0	\$500,000	\$500,000	\$0	\$1,000,000
Non-County			\$0	\$0	\$0	\$0	\$0
TOTAL	\$3,924,461	\$2,550,539	\$0	\$500,000	\$500,000	\$0	\$1,000,000

Total Project Cost (Thru 2027)	County Debt	Self Funding (Paygo)	Non-County Funds	New Authorization	Proposed Authorization
\$7,975,000	\$7,975,000	\$0	\$0	\$0	\$7,565,781

1. General Information

- Project number and title;
- Project description: qualitative description of what the project is and what it is meant to do;
- PPU: period of probable usefulness, the estimated life of the asset as defined by Local Finance Law for the purpose of determining the maximum amortization period of debt issued for the project;
- Requester: County agency that requested the project.
- Legislative district;
- Operating budget impact: description of operating budget increases or savings that would result from project implementation.

2. Ordinances

- This includes the numbers and amounts of bond ordinances that have been passed for the

project.

- b. A special bond ordinance message may be displayed here, if applicable.

3. Prior Year Approved Funding

- a. Total Approved Budget: The total amount of the budget that has been approved by the Legislature.
- b. County Debt: The portion of the Total Approved Budget that is from Debt.
- c. Self Funding (Paygo): The portion of the Total Approved Budget that is Operating money.
- d. Non County Funds: The portion of the Total Approved Money that comes from grants and reimbursements.
- e. Previous Authorization: The total project cost under the approved Capital Plan.

4. Proposed Plan Funding Source

- a. Obligations Incurred to Date: The total amount of expenditures and encumbrances against the project as of October 1, 2025.
- b. Carry Forward: This is the difference between the total project budget and the obligation incurred to date. When negative, this indicates that the encumbered amount includes an encumbrance that requires future budget authority.
- c. Capital Plan: This is the total of all funding sources anticipated for each project for the 2026-2029 period.
- d. Total Project Cost (Thru 2029): This is the total project budget that is proposed through the end of the current Capital Plan.
- e. County Debt: This is the total amount of County Debt that will be used to fund the project through the end of the plan.
- f. Self Funding (Paygo): This is the total amount of operating money that will be used to fund the project through the end of the plan.
- g. Non-County Funds: This is the total amount of grant and reimbursement money that will be used to fund the project through the end of the plan.
- h. New Authorization: This is the amount of the additional authorization that is requested to be added to the project.
- i. Proposed Authorization: This will be the new amount that has been authorized for the project.

Capital Budget and Plan Summary

The 2026 Capital Budget is listed in summary form on the following pages. The format of the tables has been described above. Additionally, each project is listed by category within the Project Detail section.

Appendix A contains the 2026-2029 Budget Schedule for all projects that are in the 2026 Capital Improvement Plan. These tables include information on the previously approved budget, the new 2026 budget request, the capital plan from 2026-2029 and authorizations previously approved and required.

	Proposed										Capital Plan			Capital Authorization		
	FY 2025 Carry Forward					FY 2026 New Budget					FY 2026 - FY 2029			Previously Authorized		
	Cumulative Budget (Pre 2026 Budget)	Expenditures Through 2025	Carry Forward*	2026 County Debt	2026 County Self-Funding	2026 Non-County	2026 TOTAL	2027	2028	2029	FY 2026 - FY 2029	New Auth Required	Total Authorization

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

New Projects

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan include 15 new projects that will address the County's infrastructure needs, create jobs, improve security and sustainability, and improve the quality of life for County residents and visitors. For 2026, the total budget for new projects exceeds \$31.6 million. For the 2026-2029 Capital Improvement Plan period, the total budget for these new projects is over \$253.6 million. Highlights include a Countywide sewer infrastructure rehabilitation project, upgrades to the Sheriff's Department radio communication system, a guiderail evaluation and replacement project, and the expansion of the County's traffic signal communications network.

14012 Crime Laboratory Equipment and Software

Project Description

This project will be utilized to update the Crime Laboratory with new and updated technologies. The project will be used to procure and update current STRmix DNA mixture interpretation and statistical software in 2026 for the Biology/DNA section of the laboratory. Software will be updated from version 2.6 to version 2.12 to allow for significant performance and memory efficiencies and scientific improvements. Improvements are outlined in the attached v.2.12 document below. In 2027, the crime lab will procure an Evofinder Automated Ballistic Identification system for the Firearms section. This instrumentation and software will allow for automated virtual comparison of cartridges and bullets within a local database as well as export to other laboratories utilizing this technology. The laboratory currently does not have instrumentation with this capability. This will be a one-time purchase of instrumentation and software with no additional licensing or maintenance fees required. Equipment is further outlined in the Evofinder data sheet attached below.

61589 Resurfacing Various County Roads

Project Description

Resurfacing is undertaken to rehabilitate existing road pavements in order to provide for better and safer surfaces for the traveling public and to reduce maintenance costs. The program objective is to resurface each County roadway once during a 15-year cycle, depending upon traffic volumes and surface wear. To achieve this goal on the approximately 500 centerline miles or 2000 lane miles of County roadways, it is necessary to resurface over 125 lane miles each year, which this project is estimated to do. The County expects a reimbursement after the completion of the individual contracts will be available from a State program named CHIPS (Consolidated Highway Improvement Program).

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will reduce operating expenditures as the new road surface will be less costly to maintain.

ORDINANCES *No bond ordinances have been authorized for this project.*

62182 Traffic Signal Communications Phase III

Project Description

This project will allow for the expansion of the County's existing traffic signal and ITS communications network by upgrading old, outdated copper cable with new fiber optic cable linking traffic signals with the Traffic Management Center in Westbury. This will allow County staff to monitor traffic signal activity and respond to signal outages or other traffic interruptions quickly and efficiently. It will also enable Traffic Management staff to modify traffic signal timing from the Traffic Management center in order to reduce vehicular delays and reduce travel times. County-wide project.

PPU	20
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget.

62468 Traffic Signal Expansion Phase XII

Project Description

This project will rebuild and upgrade traffic signals, communications and ITS Infrastructure along Shelter Rock Road, Searingtown Road and Herricks Road. These upgraded traffic signals will include upgraded pedestrian facilities, fiber optic communications, and traffic surveillance cameras. In addition, the newly upgraded signals will be connected to the County's Traffic Management Center in Westbury to improve traffic signal coordination thus reducing vehicle congestion.

Buildings

All Nassau County facilities require periodic monitoring and evaluation of their electrical systems, plumbing systems, HVAC systems, fire protection and alarm systems, and roofing systems, as well as the performance of periodic maintenance and general upkeep.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 36 projects that will address the County's buildings infrastructure needs so that the County can provide state-of-the-art services to our residents and visitors. For 2026, the total budget for Buildings projects is over \$27.8 million. For the 2026-2029 Capital Improvement Plan period, the total budget for these projects exceeds \$207.7 million. Highlights include the completion of the new Nassau County Family and Matrimonial Court, upgrades to structures countywide including electric components, HVAC, plumbing, fire protection and security, office improvements, elevators, roofs, and more.

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

**New Projects that are proposed to be part of the 2026 Capital Budget and 2026 - 2029 CIP are bolded.

90023 Various County Buildings Backflow Prevention

Project Description

In accordance with the New York State Sanitary Code, Part 5 and the Nassau County Public Health Ordinance, all facilities which are served by the public water supply shall have devices to prevent backflow of potential contaminants into the public water supply. The County has an ongoing project to install these devices in various County buildings. This project will install backflow prevention devices in the remainder of the County facilities.

PPU	10
Legislative District	County Wide

Operating Budget Impact

It is anticipated that this project will not impact the operating budget.

90025 Rehabilitation of Aquatic Center Building

Project Description

The Aquatic Center is in need of an extensive amount of renovation in its main pool area. This is to repair damage caused by excessive airborne levels of chlorine due to an improperly designed/installed HVAC system. The current system has corroded and is in urgent need of rehabilitation.

PPU	10
Legislative District	2

Operating Budget Impact

Operating impact will likely increase as the original HVAC system was undersized.

90045 Building Vehicle Exhaust System

Project Description

The current Public Safety Center's vehicle exhaust system is not functioning. This system is a OSHA required system to prevent occupants of the building from breathing vehicle exhaust. The system provides exhausting for approximately 20 Fire Marshal, Fire Communications, and NCPD Bomb Squad Vehicles. These vehicles require a temperature controlled environment due to the sensitive detection and computer equipment onboard. After completing work at 1194 Prospect, this project will be used to investigate other County facilities, and bring them up to proper standards, as necessary.

PPU	20

90625 Various Asbestos & Lead Abatement

Project Description

This project funds the repair, encapsulation and removal of asbestos containing materials (ACM) and lead containing materials (LCM) from various County buildings. These materials, when disturbed or having been deteriorated over time, could pose a health hazard to County employees and the general public. Further, Federal and State laws require corrective actions when these materials are found in a deteriorated condition. This project provides the funding for immediate actions, which may include an assessment of buildings to determine the extent of contamination, the development of a response plan, the preparation of abatement design plans and specifications, and the abatement of the hazardous material.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

90638 Nassau County Housing Improvements

Project Description

Nassau County Housing includes 60 units throughout the Nassau County Parks and Preserves and 60 units in the Nassau County Veterans Housing Complex at Mitchel Field. Capital improvements are necessary to maintain the safety, marketability and historic integrity of the properties. The improvements will preserve the properties so they can then be used by County residents, not for profits, veteran and military families and allow the County to derive the economic benefit of the rental income stream. The required improvements include exterior painting; roof replacements; interior and exterior renovations; window replacements; walkway repairs; playground improvements and landscaping upgrades.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have a negligible impact to the County's operating budget.

Education

Nassau Community College, the largest single-campus community college in the state and part of the State University of New York (SUNY) system delivers a top-notch education to nearly 20,000 day and evening students and approximately 10,000 continuing and professional students each year. The College maintains over 1.5 million square feet of building space including miles of sidewalk and roadways and over 6 acres of parking lots.

The 2026 Capital Budget and 2026 – 2029 Capital Improvement Plan includes 40 projects that will address Nassau Community College's infrastructure needs, creating jobs, beautifying our infrastructure, addressing safety and improving the quality of education for our students. For 2026, The total budget for Education projects is \$21 million, including \$10.5 million in non-County funds. For the 2026-2029 Capital Improvement Plan period, the total budget for these projects is over \$272.8 million. Highlights include renovations to continued modernization of Cluster buildings, Academic Department renovations, space consolidation, fire alarm upgrades, and other various facility upgrades.

70050 NCC Master Plan Phase II Construction

Project Description

This project will allow for the two buildings currently under construction to be completed as follows: installation of telecommunications system (telephones, surveillance & data networking); completion of the dining facility; the furnishings of signage & graphics for rooms and buildings; lighting protection systems; and educational monitors & equipment. Any remaining funds may be used to address additional rehabilitation work required.

PPU	20
Legislative District	County Wide

Operating Budget Impact

This project will have no direct impact on the County operating budget.

70071 NCC Sports Fields and Physical Education Facility Renovation

Project Description

This project will fund the installation of new athletic fields and renovate outdated sections of the physical education building in line with the recently completed master plan for the facility. Phase 1 will update the fields as they present an opportunity to generate revenue.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget. Fields will be revenue producing

70073 NCC Fire Alarm Upgrade

Project Description

The purpose of this project is to modernize the campus' aged fire alarm systems with a new code compliant centralized system which incorporates ADA requirements. Existing systems are 20 to 60 years old and are considered obsolete. The new fire alarm systems will be integrated with two systems that were installed in 1997 in the G and CCB buildings. The new system will incorporate features such as strobe lights for the hearing impaired and alarm pull stations at required heights for the handicapped. It will also provide faster response to alarm locations and alerting the local fire department.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have a minimal impact on the operating budget.

70074 NCC Rehabilitation Water Damaged Buildings Phase I

Project Description

This project protects the health and safety of the NCC faculty, staff and public. During the past several years, the Cluster buildings have experienced severe water damage, which in turn has caused floors to become detached, wall systems to be damaged, and pipe insulation to be saturated with water. Long periods of water saturation have damaged built in cabinetry and fixtures.

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will have no direct impact on the County operating budget.

70080 NCC Security System Expansion

Project Description

This project will extend the existing security system to the Physical Education Complex and adjacent exterior parking areas. A previous capital project created a central monitoring station in the College Center building and placed cameras and door contacts throughout the CCB and Building G. The system was recently extended to the Library and the Physical Plant. The Physical Education Complex is the largest building on campus and has many remote locations. The facility is used extensively by outside entities for sporting events and gatherings. The gymnasium is the site for the Nassau County Legislature induction, the site for Nassau County Department of Health to inoculate first responders in the case of a biological emergency and is also designated as a shelter for Nassau County residents during and after a hurricane. The building has experienced significant vandalism. The installation of a complete security system would assure the operation of this facility during an emergency. Additional funds will allow continued phases of work.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

70086 NCC Road and Parking

Project Description

Multiple phases of parking lot rehab has been completed and additional funding will now allow NCC to address the North lots, install campuswide security gates and provide improved roads and pedestrian access walkways.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This will reduce operating costs by reducing maintenance costs.

70088 NCC Cluster Modernization

Project Description

This project will fund design work for the renovation of Clusters C and D and the office wing. Cluster C is currently vacant and awaiting renovation. This additional funding will allow renovation of infrastructure and mechanical systems shared by Clusters C and D and save future renovation and phasing costs.

PPU	25
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget.

70091 NCC Public Safety Offices

Project Description

This project will build a new, permanent facility for Public Safety, now housed in a series of pre-fab units. The department has substantially grown and requires a larger facility, better suited to its current technology

PPU	10
Legislative District	County Wide

Operating Budget Impact

A centrally located Public Safety facility would likely increase operating efficiency.

70092 NCC Road and Parking Paving

Project Description

This project will provide for roadway improvements and re-paving requirements at the College. Included are re-paving and roadway improvements to Library Rd. & adjacent spur streets, Hazelhurst Ave., Selfridge Ave, Avenue M, Avenue N, 6th Street, 9th Street, Nassau-V Parking Lot (Witt St & Courtney St.), Bookstore Parking Lot, Education Drive, Bradley Hall Parking Lot and Approach, Blenn Boulevard. There may also be construction of a Network Road to connect the South Parking Field and the North Parking Fields.

PPU	10
Legislative District	County Wide

Operating Budget Impact

Improved roadways will require less maintenance.

70093 NCC Window Replacement

Project Description

The western portion of Nassau Community College campus consists of many low brick buildings which were transferred to the County by the Navy more than 40 years ago. These buildings were converted to College use but most have not been renovated. The windows on these buildings are original condition and are single glazed casement or double hung frames. This project will replace these windows.

PPU	10
Legislative District	County Wide

Operating Budget Impact

New windows will prevent water intrusion and will lower the operating costs for these buildings.

70096 NCC Infrastructure and Master Plan

Project Description

This project will be for an evaluation and assessment of the entire infrastructure of the Nassau Community College campus, as well as an update of the Campus Master Plan, last completed in 2002. In order to qualify for State funding, the State University of New York requires the community colleges have their Master Plan updated every 10 years; NCC's plan was completed in 2002. Additionally, the College needs a complete infrastructure assessment to be done to assist with future capital planning and prioritizing of planned projects.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget.

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

**New Projects that are proposed to be part of the 2026 Capital Budget and 2026 - 2029 CIP are bolded.

11511 Health Department Equipment Replacement

Project Description

This project is for the replacement of laboratory equipment that is needed to support the mission of the Health Department. The average age of the equipment requiring replacement is 18 years. The incorporation of new equipment will introduce updated technology and automated techniques that will substantially improve productivity without the need for additional staff.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will reduce operating expenditures as the new equipment will be more efficient and require less ongoing maintenance than the equipment that is being replaced.

14010 Medical Examiner Case Management Database Update

Project Description

Update and revision of the Medical Examiner's case management database because it is no longer supported. In addition the update will provide an expansion of the current system to manage mass casualty incidents and provide for the full digitization of records and case reporting.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget.

98060 Road Maintenance Equipment Replacement

Project Description

This project is needed to replace equipment that is beyond its useful life of service. The equipment being replaced has met the replacement guidelines set by the department. This equipment includes light and heavy duty trucks, sweepers, payloaders, grass tractors, basin cleaning equipment, trailers and various road maintenance equipment.

PPU	15
Legislative District	County Wide

Operating Budget Impact

New equipment is typically more efficient to operate than that which is being replaced. Therefore, this project will likely reduce operating expenditures.

ORDINANCES

Only the details for the 10 most recent bond ordinances are shown, but the totals are for all ordinances.

98065 DPW Fleet Garage Equipment

Project Description

The current equipment used by DPW's Fleet Garage Unit is past its useful life, and does not meet new standards. Equipment that could be replaced include tire machines, wheel balancers, and diagnostic scan tools, vehicle lifts, A/C machines, tool boxes and other various shop equipment items. There are safety concerns with older equipment and new EPA regulations that need to be kept up with.

PPU	10
Legislative District	County Wide

Operating Budget Impact

There would be savings to the operating budget because a wider variety of tasks could be done in-house.

98092 Snow Removal Truck Replacement

Project Description

This project will replace old, unserviceable, costly pieces of snow equipment. The majority of these vehicles will be dump trucks used for plowing and sanding Nassau County roads. We will also purchase some specialized equipment, such as payloaders and sweepers.

PPU	5
Legislative District	County Wide

Operating Budget Impact

The new snow removal truck is anticipated to be more efficient than that which is being replaced. This project is expected to reduce operating expenses.

98180 Mosquito Control Equipment

Project Description

This capital project will include purchase of low ground pressure excavating and ditching tracked vehicles for use on unstable ground and in environmentally sensitive areas; grass and vegetation mowing apparatus for salt marsh areas and along drainage areas; heavy duty four wheel drive vehicles for mosquito control surveillance in salt marsh areas; a small crane for cleaning debris from submerged drainage facilities; and marine equipment for mosquito control surveillance of south shore islands and hassock areas. With such equipment, it is anticipated that the mechanized operations will be more efficient operations, as equipment downtime will be reduced.

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will increase operating expenses as the equipment will need to be operated and maintained.

98341 Office Equipment Replacement Program

Project Description

This project is to establish a continuous annual program to replace each large piece of office equipment every five years. This would require replacing 20% of the County copier fleet which now stands at 520 copiers total. The project would keep fleet copiers current with new technology and prevent mass replacement as the copiers outdate their useful life expectancy.

PPU	5
Legislative District	County Wide

Operating Budget Impact

The new equipment will be more efficient to operate.

98343 BOE Voting Machine Upgrade

Project Description

Nassau County is required to ensure that all polling places are compliant with the Department of Justice's ADA Polling Place Guidelines. Under the law, all existing machines will no longer be used. The Nassau County Board of Elections is in the process of updating all of its voting machines and many of their procedures to be compliant with the Help America Vote Act (HAVA). This project will be for the purchase of either Optical Scan Machines or Direct Recording Electronic Machines (DRE Machines) which have been certified by the State Board of Elections. Computer servers and other equipment necessary to conducting elections that are not included with the machines will also have to be purchased. Also included in this project will be an extensive voter education and poll worker training program and a community outreach program which will establish two mobile demonstration units to be able to reach the greatest number of people possible.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have a minimal impact on the operating budget.

98345 Printing & Graphics Equipment Replacement

Project Description

The core of this project is to eliminate antiquated offset printing presses which range from 34 years to 16 years old including bindery and finishing equipment that range from 48 years to 19 years old. Eliminating traditional offset printing equipment will also eliminate the use of harsh chemicals, inks, solutions and oxy dry sprays and coaters.

PPU	5
Legislative District	County Wide

Operating Budget Impact

New equipment could lower maintenance costs.

98347 Traffic Management Equipment

Project Description

This project will be used for the acquisition of equipment to enhance the capabilities of the County's Traffic Management Center. This equipment may include, but not be limited to, surveillance camera trailers (to better adjust light patterns during events), a field operations trailer, and a fiber optic cable repair trailer.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the operating budget.

98349 Countywide Equipment Acquisition or Replacement Program

Project Description

A County department needing to replace equipment that does not fall within one of the stated purposes of a project contained within the County's Capital Program are all too often spending operating funds to repair aged equipment well beyond its useful life. Such equipment is often unique to a department and not in sufficient quantity to justify the creation of a lifecycle replacement project. Therefore, with several departments expressing similar acquisition or replacement needs for equipment that may be unique or exclusive to its mission, the County seeks to make resources available for such acquisitions or replacements in accordance with Local Finance Law.

PPU	5
Legislative District	County Wide

Operating Budget Impact

By making capital funding available, departments can stop making, or avert the need to make, costly repairs to aged equipment well beyond its useful life and/or reduce operating costs driven by the operation of inefficient equipment.

ORDINANCES

Ordinance Number	Total Approved Bond	Amount Borrowed	Amount Unissued

Infrastructure

This Capital Improvement Program balances the need to keep all County infrastructure in a state of good repair while also supporting the ongoing growth and development of the County.

The 2026 Capital Budget and 2026 – 2029 Capital Improvement Plan includes 24 projects that will address the County’s infrastructure needs, creating jobs, beautifying our infrastructure, addressing safety, and improving the quality of life for Nassau residents and visitors. The 2026 total budget for Infrastructure projects exceeds \$31.5 million. For the 2026-2029 Capital Improvement Plan period, the total budget for these projects is \$339.2 million. Highlights include the Bridge Rehabilitation Program, upgrades to Nassau County Parking Field 14, and the Long Beach Bridge.

63036 Rehabilitation of Cuttermill/Bayview Bridge

Project Description

This project will rehabilitate the existing three-span bridge and part of the approach roadways and sidewalks in the Village of Great Neck Plaza, located between Great Neck Road and Ascot Ridge. The work includes: replacement of the bridge deck overlay, replacement of approach slabs, repairs to abutments, and replacement of abutment bearings and other incidental work. The middle span is over the existing Long Island Railroad tracks (Port Washington Branch).

81060 County Storage Tank Replacement Program

Project Description

This ongoing program is a replacement of a former program financed by the Board of Supervisors Ordinance 466-1987. The scope of this program includes tank replacements required due to age of tank or failure of periodic tightness testing as required by Federal, State and County regulations. Funding must also be provided for remedial investigations and actions, which are mandated at locations where leaking storage tanks are discovered.

PPU	15
Legislative District	County Wide

Operating Budget Impact

It is anticipated that this will reduce impacts on operating budget as the installation of county storage tanks will minimize adverse impacts of failing tanks.

91079 Motor Parkway Multi-Use Trail

Project Description

This project includes design and construction of a 1.4 mile segment of the Motor Parkway Trail, a multi-use trail linking to other segments of the Motor Parkway Trail in central Nassau County. The design concept calls for as much as a 12 foot wide bituminous concrete path linking to other portions of the trail and providing important alternative transportation options and links to communities, open space, educational and cultural institutions and employment centers.

PPU	15
Legislative District	13

Operating Budget Impact

This project will have a negligible impact on the operating budget.

Parks

More than 70 parks, preserves, museums, historic properties, and athletic facilities are available throughout the County comprising 6,000 acres of land. The Park's system provides a tremendous variety of experiences and activities for all residents and the general public.

The 2026 Capital Budget and 2026 – 2029 Capital Improvement Plan includes 42 projects that will refurbish and improve the County's vast parks system, creating jobs, beautifying our environment, creating recreational opportunities, and improving the quality of life for Nassau residents and visitors. For 2026, the Capital Budget is over \$20.4 million. For the 2026-2029 Capital Improvement Plan period, the total budget for these projects exceeds \$65.0 million. Highlights include improvements to the Mitchel Field Rifle Range, and enhancements at the County operated pools.

41420 Roslyn Grist Mill Restoration

Project Description

This request is to retain an architectural firm, which specializes in historic restoration projects, to produce full architectural plans for the restoration of this significant building listed on the National Historic Register. There will be limited or no County funding for this project. Private donations and grant money are being sought for the design and construction of this restoration work.

PPU	5
Legislative District	18

Operating Budget Impact

It is anticipated that this project will reduce the amount of annual maintenance required at the Mill and will, therefore, reduce annual operating expenditures.

41829 Various Parks Outdoor Lighting Rehabilitation

Project Description

This is a multi-year program to replace outdoor park and vehicular lighting systems in parks. Existing systems are old, damaged, and inefficient. This creates unsafe conditions and unusable facilities. Dark areas attract vandalism and other security problems. Most of the existing system is over 25 years old with faulty wiring resulting in frequent shorts and outages which increases maintenance costs. Modern lights and controls are also more energy efficient resulting in decreased energy costs.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have reduce maintenance costs in the operating budget.

41855 Parks Equipment Replacement

Project Description

This project is to replace equipment that is outdated in parks and preserves. Current equipment is worn or unsuitable to maintain certain types of landscape. The equipment being replaced is beyond its useful life of service. Replaced equipment will be used for mowing meadows and lawns, maintaining trails, chipping dead trees, and removing snow from paths.

PPU	5
Legislative District	County Wide

Operating Budget Impact

New equipment is typically more efficient to operate than that which is being replaced. Therefore, this project will likely reduce operating expenditures.

41858 County Pools Improvements and Code Compliance

Project Description

This project is needed to reconstruct various pool components throughout the County. There are pools that have features that are in need of replacement or reconfiguration. Potentially hazardous conditions need to be corrected at some pools, and chemical storage areas that comply with code need to be constructed at other pools. A directive from the DEC will require chlorine containment areas in all park pool facilities which utilize liquid chlorine to treat pool water. Nickerson Beach and Whitney Pond might need to convert to a tablet chlorine system if construction of a containment area is too expensive at these sites. Work is also required at slides and interactive pools located in North Woodmere, Cantiague, and Wantagh Parks.

PPU	15
Legislative District	County Wide

Operating Budget Impact

Pools will attract more users if they are in good repair, increasing revenues.

ORDINANCES *Only the details for the 10 most recent bond ordinances are shown, but the totals are for all ordinances.*

41861 Various County Park Buildings - Infrastructure Improvements

Project Description

This project will rehabilitate various park buildings, including the County's museums. The infrastructure (HVAC, electrical, plumbing, etc.) in many Parks' buildings is outdated and will be modernized through project funds.

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will replace outdated systems, thereby reducing maintenance, and operating costs.

Public Safety

Public Safety investments include building, vehicle replacement, communications and other tools to assist the Police and other law enforcement agencies in achieving their mandate to protect the public of Nassau County.

The 2026 Capital Budget and 2026 – 2029 Capital Improvement Plan includes 45 projects that will address the County's Public Safety needs, addressing safety and security, helping reduce and prevent crime and improving the provision of emergency services to our residents. The 2026 total budget for Public Safety projects will exceed \$40.9 million. For the 2026-2029 Capital Improvement Plan period, the total budget for these projects exceeds \$144.6 million. Highlights include the improvement of the Local Municipality Interoperable Radio System, Police fleet replacement, improvements to the Correctional Center, Fire Service Academy Master Plan, and more.

10040 Opioid Treatment Clinic

Project Description

This project will fund a study to find a location, and eventually fund the construction, of a new County facility to treat people with opioid addictions.

PPU	25
Legislative District	County Wide

Operating Budget Impact

This project will create a new County facility, which will increase operating costs.

ORDINANCES

50320 Marine Bureau Repower Vessels

Project Description

This project will allow the Nassau County Police Department's Marine Bureau to repower their fleet. Due to the age and condition of the current engines used in the Marine Bureau, it has become necessary to repower these vessels. These engines have been rebuilt several times and have exceeded their projected life expectancy. In addition, the current engines use outdated technology and no longer comply with the new, more stringent EPA pollution guidelines. This will also prolong the useful life of the patrol boats for about another 10-15 years.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This will reduce operating costs by reducing maintenance costs.

ORDINANCES

Ordinance Number	Total Approved Bond	Amount Borrowed	Amount Unissued
16A-2010	\$600,000	\$473,302	\$126,698

50570 Police Department Computer Aided Dispatch System

Project Description

The current Computer Aided Dispatch (CAD) system is proprietary and not supported by the vendor. Its functionality is limited and technical upgrades which will permit us to continue operations cannot be purchased. If we do not replace the current system forthwith, the 911 system will cease functioning and public safety will be threatened. Routine operations, such as NYSPIN plate checks, alarm interface, CAPER dispatch, and records management for archive as mandated by the District Attorney will not be supported. If the current system fails, it cannot be restarted and we will be without an automated 911/CAD system.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

ORDINANCES

Only the details for the 10 most recent bond ordinances are shown, but the totals are for all ordinances.

50590 Police Department Interoperable Radio System

Project Description

This project is for the purchase of a new public safety two-way radio system. The two-way radio system is critical to the Police Department's ability to provide public safety services to the residents of Nassau County. The new system is to include the purchase of mobile data terminals. The present police radio system infrastructure is over 20 years old. Reception and transmission of radio messages especially on the North Shore of the County fails to consistently meet acceptable safety standards. The NCPD is currently in Phase II of its analysis with the consulting firm of Booz-Allen & Hamilton, Inc. Phase II consists of establishing a long-term strategic plan, system design, development and issuance of an RFP, support during the selection process, and system implementation and acceptance.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

50619 Police Department Ambulance Replacement

Project Description

This project will initiate a four-year program of ambulance purchases to replace high-mileage, unreliable ambulances with high quality ambulances that are suitable for future chassis change-overs (replacing the truck chassis only rather than the entire ambulance at the end of the life cycle). This request is to complete the planned replacement of failing Police Department ambulances in order to incur recurring long-term savings through the use of chassis change-overs.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will likely decrease annual operating expenses because the new ambulances will require less maintenance than those being replaced.

50622 Police Department Specialty Vehicle Replacement

Project Description

This project is for a replacement program for unreliable, high mileage Police Specialty Vehicles. Included are Emergency Service Rescue Trucks, fleet trucks, 4 wheel drive vehicles, buses, trailers, tow trucks, flat bed trucks, bucket trucks, cargo vans, specialty vans, surveillance vehicles, station wagons, and other related specialty vehicles. Failure to implement a reasonable life cycle replacement policy for these vehicles has caused the specialty vehicle fleet to become unreliable.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will likely decrease annual operating expenses because the new vehicles will require less maintenance than those being replaced.

ORDINANCES *Only the details for the 10 most recent bond ordinances are shown, but the totals are for all ordinances.*

50680 Police Department Precincts & Auxiliary Precincts Renovation and Modernization

Project Description

Currently the physical plant of four of the Police Department's eight station houses is inadequate to handle necessary police services. Inadequacies related to the infrastructure cause delays in the processing of prisoners, preparation of reports and the administration of police services. To the extent that a generic plan for the replacement/renovation of the existing structure can be crafted, this project is designed to address the physical plant of four Police Precinct station houses, facilities which are integral to the delivery of police services at the community level.

PPU	5
Legislative District	County Wide

Operating Budget Impact

The operating budget impact will be negligible.

50700 Police Department Headquarters Renovation

Project Description

This project will be for critical upgrade and improvement work needed for Nassau County Police Headquarters. The work will include; new windows for the entire building. These are original to the building. Most of the windows do not operate properly and are dangerous. A new air conditioning and heating system, this is also original to the building. The current system is beyond its useful life and cannot adequately be repaired. The system leaks throughout the building causing water damage to the building. A new roof, the current roof is past its useful life and is leaking in various parts of the building causing water damage.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will reduce operating costs, as less maintenance will be required after the work.

51037 Correctional Center Master Plan

Project Description

The Correction Law requires that the Office of the Sheriff maintains a safe and secure facility to house inmates. Staff at Nassau County Correctional Center (NCCC) is responsible for maintaining a list of projects. These ever changing lists are comprised of projects directly related to new needs, maintenance and renewal. The project list must support the current and future needs of the jail. Project Rationale in recent years have become a basic component of the capital budget process. The key objective is to help reduce the amount of maintenance and renewal. These projects require completion so deficiencies can be properly addressed and repairs made to maintain the NCCC daily operation. Funding these requests will reduce future capital requests and will result in overall security, safety, and operating efficiencies.

PPU	5
Legislative District	County Wide

Operating Budget Impact

It is anticipated that this Capital Plan Budget will add efficiencies while also reducing operating costs.

52031 Fire Comm Radio Project

Project Description

The replacement of these units is necessary to allow us to continue to provide emergency communications to our first responders in the field and to protect the citizens of Nassau County. It is vital that this replacement plan continue with the purchase of transmitters and repeaters which have reached their life expectancy and no longer meets Federal Communications Commission specifications. When one of these transmitters or repeaters fail, we must rely upon a unit which is located further from the area we must serve. This provides a degraded radio signal which means some message may not get through. Replacement of these units at this time is critical to continued safe operations.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project will increase efficiencies and reduce operating costs.

52032 Fire Comm Computer Aided Dispatch

Project Description

This project will permit Fire Communications to dispatch Fire Marshal units through vehicle mounted Mobile Display Terminals. This would allow for swifter response to fire and hazardous materials emergencies. The benefits of Mobile Terminals have been proven through their use by the NCPD. This will allow for the Fire Marshal's Office to modernize to this level.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have a minimal impact to the County's operating budget. An annual maintenance contract would be necessary to maintain this computer equipment.

52033 Public Safety Center Fire Marshal Vehicle Garage Maintenance/Improvements**Project Description**

This capital project will provide for the upkeep and maintenance of the Fire Marshal Vehicle Garage at the Public Safety Center. This project will include, but is not limited to, the replacement/improvements of overhead, roll-up doors over the garage doorways. This garage houses the critical response vehicles of both Fire Marshal HazMat and Police Bomb Squad. Millions of dollars of sensitive meters and other response equipment is contained within these vehicles and other areas of this garage. Keeping this garage area well maintained and secure is mission critical to the response of hazmat and other incidents.

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will decrease operating expenses due to reduced maintenance costs.

Roads

Nassau County owns and maintains approximately 1,600 lane miles of roadway. Roads are programmed for continuous condition evaluation and assessment for annual resurfacing projects on a priority basis.

The 2026 Capital Budget and 2026 – 2029 Capital Improvement Plan includes 39 projects that will address Nassau’s roadways and road infrastructure needs, creating jobs, addressing safety, mobility and accessibility, streetscapes and beautification and improving the quality of life for our residents. The 2026 budget for Roads will exceed \$52.9 million. For the 2026-2029 Capital Improvement Plan, the total value will be over \$253 million. Highlights include road resurfacing throughout the County, improvements to Merrick Avenue and Babylon Turnpike, and streetscapes to improve local downtowns.

60045 Park Street Drainage Improvements, Atlantic Beach

Project Description

This project is located in a low lying tidal area on a barrier beach. Current drainage is insufficient and local roads and properties experience flooding which is compounded during storm events. The area being investigated for this project runs from Albany St. to Clayton Ave. At this point alternative solutions are being evaluated and could result in some type of combination of them.

PPU 30

Legislative District 4

Operating Budget Impact

Project will decrease maintenance costs and extend the longevity of the road surface thereby reducing operating expenses.

61082 Brookside Avenue Improvements, Roosevelt

Project Description

This project will improve Brookside Avenue through Roosevelt (connecting Freeport and Uniondale) by replacing deteriorated pavement, installing additional drainage where needed, and adding left turn lanes to improve safety at the intersections of Cramer Court, and Centennial Avenue. New curb will be constructed to improve drainage and to provide a consistent road width, also increasing safety. Acquisition of property will be minimal or none, although temporary working easements are expected. The request is for design and construction costs.

PPU	15
Legislative District	1

Operating Budget Impact

Operating expenses will be lessened as the new surface will require less maintenance than the current one.

61570 Remove and Replace Curbs and Sidewalks

Project Description

Resurfacing is undertaken to rehabilitate existing road pavements in order to provide for better and safer surfaces for the traveling public. This project will include removal and replacement of concrete curbs and sidewalks uplifted by overgrown tree roots which will reduce maintenance costs and tripping hazards. The program objective is to resurface County roadways with curb and sidewalk replacement for the next four years.

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project is not anticipated to significantly affect the operating budget.

61587 Resurfacing Various County Roads

Project Description

Resurfacing is undertaken to rehabilitate existing road pavements in order to provide for better and safer surfaces for the traveling public and to reduce maintenance costs. The program objective is to resurface each County roadway once during a 15-year cycle, depending upon traffic volumes and surface wear. To achieve this goal on the approximately 500 centerline miles or 2000 lane miles of County roadways, it is necessary to resurface over 125 lane miles each year, which this project is estimated to do. The County expects a reimbursement after the completion of the individual contracts will be available from a State program named CHIPS (Consolidated Highway Improvement Program).

PPU	15
Legislative District	County Wide

Operating Budget Impact

This project will reduce operating expenditures as the new road surface will be less costly to maintain.

Technology

Investment in Information Technology is essential to all County operations and improves access to County information and services for all residents and business operators within the County. The 2026 Capital Plan continues the advancement of technology throughout Nassau County.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 20 projects that will address Nassau's technology needs, allowing the County to operate more effectively and meet the needs of our residents more efficiently. The 2026 budget for Technology projects is \$26.8 million. For the 2026-2029 Capital Improvement Plan period, the budget is \$52.4 million. Highlights include the ERP Financial System, IT Department equipment upgrades, eGovernment improvements, financial system upgrades, and information system upgrades.

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

**New Projects that are proposed to be part of the 2026 Capital Budget and 2026 - 2029 CIP are bolded.

97008 DPW Management Information System

Project Description

This project supports the acquisition and upgrade of the County's Department of Public Works integrated financial management and accounting system. Additionally, equipment to enhance the office operation with regard to financial planning and project management will be procured from this project.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will likely increase efficiency and reduce operating expenditures.

97103 eGovernment

Project Description

Online government services offer one of the few means for the County to enhance services to constituents while simultaneously reducing cost. The purpose of this project is to convert the agency sites into the new website in order to provide a harmonious look to users while also allowing each department the ability to maintain and update their own content. Once the remainder of the agencies are integrated, Nassau's site will rank as the top county portal in New York, and among the best in the nation. This funding will also support the development of more applications to be made available online. According to the 3,300 constituents surveyed, they want to have the ability to submit a HUD application, apply for subdivision permits, apply/pay for handicapped parking permits, purchase GIS premium services, and search and download public records.

PPU	5

97104 Disaster Recovery Plan

Project Description

In the course of reviewing the business and information technology process the County determined that no viable Countywide continuity and disaster recovery plan was currently in effect. Currently the Police Department and Nassau Community College have DR plans but they do not have offsite recovery. This project would allow Nassau, Suffolk and the state to implement a DR plan across Long Island. The purpose of this project is to provide the County with the ability to restore data center operations, and business continuity for selected County Services, in the event of a disruption occurring as a result of a crisis, or an emergency situation. This project will provide the County with the ability to restore data center operations in the event of a disruption occurring as a result of an emergency situation.

PPU	5

97114 Traffic Parking Violations Agency Computer System Replacement

Project Description

This project is to replace the current computer system that provides backend processing of all Traffic Parking Violations Agency transactions. It will include hardware, software, licenses and other enhancements. The current system is 10 years old and is limited by its technical features, its collection component, and its ability to process default judgments. The new system will enable the TPVA to handle its increasing requirements for traffic and parking collection, and the processing of default judgments. The new system will also feature enhanced coding and scanning capabilities, advanced report writing and accounting functions, and more comprehensive system administration features.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will improve efficiencies through increased productivity and transaction processing. Operating expenditures will likely be reduced due to less reliance on outsourcing services.

97117 CAMDR

Project Description

The CAMDR (Computerized Asset, Maintenance, DPW and Real Estate) project will provide a technology solution that addresses all aspects of facilities and infrastructure management. Included services will be work management, equipment maintenance, inventory control, real estate and space management, and utility billing and tracking. The integrated system enables County agencies to make strategic decisions regarding asset life-cycle costs, construction and renovation management, and budget management. Benefiting agencies include DPW, Real Estate, IT, Parks, and facilities management functions County-wide.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project should have no significant impact on the operating budget.

97118 Server and Equipment Consolidation

Project Description

This capital project supports effort to consolidate IT facilities by funding several different programs. This includes the implementation of new computer blade technology that will allow IT to retire upwards of 120 discrete servers. In addition, it will enable the data center to implement a new backup and restoration process that will improve the overall data integrity and potentially reduce the cost of operations for this process. The project also includes funds for the purchase of equipment so that we can test and validate systems before placing them into production.

PPU	5
Legislative District	County Wide

Operating Budget Impact

It is believed this project will not impact the operating budget.

97119 Network Infrastructure

Project Description

This capital request is to provide additional funding to implement a new network plan for County buildings and facilities. This plan includes the upgrade and installation of equipment. Several facilities on the County network have equipment that is approximately 10 years old and is no longer supported by the manufacturer/vendor. In addition, to developing an overall network plan, over 25 Parks locations were added to the County network.

PPU	5
Legislative District	County Wide

Operating Budget Impact

There will be an increase in the operating budget due to the new technologies being implemented.

97123 Correctional Center Management System

Project Description

This project is for the replacement of the current Inmate Tracking System with a new Correctional Center Management System. The current system is an antiquated Mainframe system that cannot be upgraded or modified to expand functionality/upgrade processes. The Corrections Department which is a critical part of the Criminal Justice Vertical must have the ability to share information with County departments in the Vertical as well as other municipalities. The current system is 20+ years old and does not meet the needs of managing the intake, housing and release of inmates in Nassau County. The new Correctional Center Management System will use innovative and best practice standards to enable data sharing with other criminal justice systems as well as streamline processes and eliminate duplicate data.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will increase efficiency, thereby reducing the operating budget.

97124 Integrated Information Management System

Project Description

This project is to create automation for integration and information sharing inter and intra the justice community. Interoperability will be achieved through the development of strategic planning, appropriate policies and procedures, and governance. The project will create a technical middle (middleware) system that will introduce architectures and technology that meet national standards and best practices and justice information and identification technologies. By supplying more relevant, timely information to guide decision-making and facilitate action, a knowledge-driven public safety system will help make the interactions between stakeholders more efficient and successful.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will increase efficiency, thereby reducing the operating budget.

97126 Countywide Document Management Program

Project Description

This project will establish a cost effective program for converting, maintaining, accessing and manipulating important documents generated and stored by the county. The program will provide on-site conversion services for all Nassau County agencies and their existing documents, to create an Enterprise Information System (EIS) to house the documents and serve as the electronic document management system. Various Nassau County departments have indicated a requirement for electronic document management systems, and the IT Department desires to meet those requirements while also striving to reduce the cost of government services and increase productivity. This program will create a Technology Document Management System that will allow for all Nassau County agencies to meet their electronic document obligations and reduce the amount of paper handling currently involved in day to day business. This program spans several mandates and promotes the benefit of the Paperwork Reduction ACT; United States Code #44. In addition, it coordinates and compliments the information sharing and consolidation efforts currently underway for all government projects.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will increase efficiency, thereby reducing the operating budget.

97139 Nassau Forward ERP Financial System

Project Description

The Nassau Forward Project will enable the County to replace the current County financial system, Nassau Integrated Financial Systems (NIFS), with a new financial software that will leverage industry best practices in order to significantly improve the efficiency and effectiveness of the County's accounting, reporting and business processes. Presently, NIFS cannot produce Governmental Accepted Accounting Principal-compliant financial statements for the County's \$3.5 billion operating budget. As a result of system deficiencies, there are many "work arounds" to NIFS requiring repetitive manual input, and additional reconciliations which are costly and create a high risk of error. A modern financial based Enterprise Resource Planning (ERP) software will present fully integrated functionality with shared data in a single database and centralized modules to manage tasks. Additionally, an ERP software solution will allow the County to provide more timely and accurate financial statements and performance metric reporting. This project is expected to span 4 years through implementation.

PPU	5
Legislative District	County Wide

Operating Budget Impact

Licensing and hosting costs will likely have increased expenses to the County's operating budget.

97140 VOIP Phone System Replacement at Nassau County Correctional Facility

Project Description

There are presently 900 phones at the jail which are past their useful life and parts to repair these phones are unavailable. This system can no longer be supported. The existing phones have a per month cost per device and with a new phone, the cost is per 100 devices. The present phone system is a security hazard to health and well being to all persons at the facility.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This will reduce the annual cost of phones at the jail.

97142 Fiber Optic Management System

Project Description

The Traffic Management on-street fiber optic network spans the entire County. With the fiber network constantly expanding the system now has thousands of miles of both underground and overhead fiber cables. The current system of tracking fiber locations and splices is no longer adequate to manage a network this size. This new Fiber Optic Management System is a third-party software platform that will allow accurate and efficient means of maintain the fiber network which will allow staff to quickly react to problems in the field and will provide an easier way to view current infrastructure and plan for future expansion.

PPU	5

Traffic

There are 1,580 traffic signals, 16,000 traffic signs, 110 traffic management cameras and 360 additional devices countywide over a total of 1,600 lane miles countywide.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 55 projects that will address Nassau's traffic infrastructure and safety needs, addressing safety, accessibility and mobility and improving the quality of life for our residents. The 2026 total budget is \$56.2 million. For the entire 2026-2029 Capital Improvement Plan period, the budget will be nearly \$192.4 million. Highlights include traffic signal construction, improvements and modifications, pavement marking replacement, refurbishment and enhancement, installation of variable message signs, traffic safety and streetscape improvements countywide, traffic sign replacement and installations, traffic studies, pedestrian safety improvements, and more.

62017 Traffic Signal Construction & Modification

Project Description

The County owns and operates approximately 1,600 traffic signals and 350 other control devices throughout the County. Additions and modifications must be made to these signals in conformance to the NYS Vehicle and Traffic Law and MUTCD to safeguard the public in constantly changing traffic conditions.

PPU	20
Legislative District	County Wide

Operating Budget Impact

This project is anticipated to have no impact on the operating budget.

62023 South Shore Traffic Signal Improvements

Project Description

In October 2012, Superstorm Sandy hit Long Beach and the south shore of Nassau County. As a result, 134 traffic signals, ancillary equipment, and communication infrastructure were compromised. The Long Beach and South Shore Signal Replacement Project will replace the traffic signaling and communication infrastructure. Emphasis will be placed on incorporating mitigation measures to prevent damage from future storms similar to Sandy. The objective of the project is to have a traffic signaling system that improves safety, maximizes roadway capacity, and minimize traffic delays.

PPU	20
Legislative District	County Wide

Operating Budget Impact

This project will have a negligible impact on the operating budget.

62153 Federal Aid Durable Marking Program

Project Description

Under previous capital projects (62150 and 62152) Nassau County was able to secure Federal funds to pay 80% of construction costs associated with refurbishing of pavement markings. This project is for the installation of new thermoplastic pavement markings at intersections throughout Nassau County. These markings are installed in compliance with State codes to improve safety and increase the efficiency of these intersections.

PPU	10
Legislative District	County Wide

Operating Budget Impact

This project has no impact on the operating budget.

62228 Baldwin DRI – Merrick Road Traffic & Pedestrian Safety Improvements

Project Description

This project will design and construct roadway and pedestrian safety enhancements along Merrick Road in Baldwin, between Harrison Avenue and Pershing Boulevard. Improvements will facilitate safer circulation between pedestrians, bicyclists, transit riders, and vehicular traffic along the well-traveled corridor. This project was prioritized by the Baldwin community during the New York State Downtown Revitalization Initiative (DRI) process and has received a grant award of \$1.5 million.

62313 Traffic Sign Replacement - Phase V

Project Description

Traffic warning and regulatory signs are required by the Vehicle and Traffic Law to be installed on County Roads. The material needed to complete this work has historically been procured via 100% County funded projects. Under a previous project, the County Department developed and installed a sign management system to manage the inventory of over 15,000 traffic signals. The system has enabled us to better manage our sign inventory. The development of the system and the subsequent sign replacements identified by the system are eligible for Federal Aid. This project will make use of the system to create annual lists of signs that need to be replaced. The purchase of necessary materials to replace the signs will be funded through this project. The cost of sign materials purchased under this project will be 80% reimbursed with Federal dollars.

62457 Traffic Signal Expansion Phase IX

Project Description

This project will rebuild and upgrade Traffic Signals, Communications and ITS Infrastructure along Long Beach Road south of Merrick Road. These upgraded traffic signals will include upgraded pedestrian facilities, fiber optic communications, traffic surveillance cameras and variable message signs. In addition, the newly upgraded signals will be connected to the Traffic Management Center in Westbury to improve traffic signal coordination thus reducing vehicle congestion.

62464 Countywide Traffic Signal Timing Program - Phase I

Project Description

Due to the impacts of the global pandemic on travel habits there is a need for a countywide review of the adequacy of existing traffic signal timings along all County roadways. This project would review existing traffic volumes and develop traffic signal timings plans to best accommodate the change in traffic patterns.

62502 Traffic Safety Master Plan

Project Description

Safely moving vehicles, pedestrians and cyclists throughout the County's roadway system continues to be a priority. Historically, safety concerns expressed by the residents were addressed in most cases on an individual basis. Changes in the way people communicate, i.e. email and other social media, has led over the last 10 years to a significant rise in the number of traffic safety related inquiries. Currently the number of inquiries outpace the ability to respond in a timeframe that satisfies the public. It should be noted that there are policies in place to expedite inquiries that are identified has an immediate safety concern.

In order to address this issue, a road corridor safety master plan will be initiated in 2020. The intent of the Master Plan would allow the Department to programmatically address both current and future inquiries related to road corridor safety and will look at accident history's for these corridors. Additionally, this work will prioritize traffic system equipment replacement and be used in conjunction with the design of the Resurfacing Program.

PPU	5
Legislative District	County Wide

Operating Budget Impact

This project will have minimal impact on the County's operating budget.

62551 Traffic Management Enhancement

Project Description

The purpose of this project is to revitalize the Signal Management System using the legacy database from NCIT, as well as create a Traffic Management App for public use to disseminate real time traffic information to users based on their geographical location. Using the legacy database, the Signal Management System will be updated and the new front end will include the ability to access all records from the field including signal, maintenance, ITS, complaint history, a post-storm related triage module for gathering, reporting, and documenting damage, and the ability to dispatch our field personnel (signal and ITS maintenance) by sending them the incident directly to a tablet in their vehicles. This will streamline call taking, assignments, and improve efficiency of the field maintenance staff.

Transportation

Nassau County's transit system, Nassau Inter-County Express (NICE), operates and maintains a fleet of 281 fixed route buses, 108 paratransit/shuttle buses, four facilities and has over 17 million riders.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 23 projects that will address Nassau's transit needs, improving the provision of countywide transit services to help our residents get around and mitigate increases in roadway congestion. For 2026, the total budget for Transportation will be over \$536 million. For the 2026-2029 Capital Improvement Plan period, the budget will be \$22.0 million. Highlights include design of transit improvements for the Hub area, and enhancements to the NICE Bus system.

61144 Nassau County Shared Mobility Management Plan

Project Description

Emerging technologies and changes in modal preference are leading to a rapidly changing transportation landscape. The quickly expanding and diversifying range of motorized and non-motorized mobile application-based shared transportation services present an opportunity for Nassau County to comprehensively and proactively manage such services. To fully realize the benefits of shared-mobility, Nassau County seeks to prepare and implement a Shared-Mobility Management Plan. The Plan will review and inventory existing and emerging shared-mobility services (motorized and non-motorized), and comprehensively evaluate infrastructure compatibility and necessary improvements, hosting partnerships, economic benefits and policy/legal issues. The Plan will provide recommendations for capital improvements (infrastructure), funding sources, and key locations for piloting shared-mobility services within the County. The Plan will also provide a framework for evaluating new services for implementation.

91030 Purex Site Redevelopment

Project Description

The former Purex property (now County-owned), located at 650 Commercial Avenue, Garden City, is uniquely situated to provide additional fueling/charging areas for the County's public bus operation, as it is adjacent to the Mitchel Field Operating Facility. The site is currently improved with a stormwater treatment facility and ancillary structures used for environmental remediation. The project calls for all structures and facilities on the site to be abandoned and removed, and the site restored to facilitate surface parking and fueling/charging areas for the County's bus fleet and service vehicles.

91091 Nassau Hub Study

Project Description

This project will explore transit options in the central portion of the County with a 2.9 square mile area, whose boundaries are Old Country Road to the north, Hempstead Turnpike to the south, Clinton Road to the west and Merrick Avenue to the east. The alternatives that will be evaluated include light rail, a fixed guide way loop, and a circulator bus service and shuttle buses that would connect existing facilities and new development in a pedestrian/transit-friendly environment. Potential transit service would connect with a LIRR commuter rail station.

92035 Nassau Hub Transit Initiative

Project Description

This project will build on the findings from the Nassau Hub Alternatives Analysis by providing funds for the Final Design and Project Management phases for the Initial Operating Segment (IOS) of a new Bus Rapid Transit (BRT) service that will connect Rosa Parks Hempstead Transit Center, Roosevelt Field and the LIRR Westbury Station to the new development on the Nassau Coliseum property. Final design is the last phase in the Federal Transit Administration's (FTA) project development process that once completed will allow Nassau County to request Federal funds to help cover construction costs for the new BRT service.

PPU	5

Sewer and Stormwater - Collection

Nassau County's Wastewater Treatment System consists of three (3) treatment facilities that are rated for peak flow at 148 million gallons per day (MGD). The assets include the collection systems consisting of 3,103 miles of pipes and connections as well as pumping stations that distributes sewage to each of the above listed Plants.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 15 projects that will address Nassau's Sewer and Stormwater Resource District Collection infrastructure needs. The 2026 total budget for the sewer and Stormwater Collections projects will be over \$55.8 million. For 2026-2029, the total budget will be \$182.7 million. Highlights include sewer repairs, upgrades to Long Beach pump stations and force mains, and other pump station upgrades countywide.

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

**New Projects that are proposed to be part of the 2026 Capital Budget and 2026 - 2029 CIP are bolded.

30051 SD2 Interceptor Corrosion Survey & Rehabilitation

Project Description

The interceptor sewers (approx. 60 miles) for Disposal District II (SD2) were installed from 1949 through 1955. Pipe material consisted primarily of reinforced concrete in sizes ranging from 18 inch to 72 inch diameters. Pipe failures have occurred due to crown corrosion caused by chemical erosion (hydrogen sulfide). Recent in-house investigations in the Oceanside area indicate corrosive pH readings that warrant further evaluation and remedial action. The proposed five (5) year program of interceptor evaluation, repair and rehabilitation will identify structural deficiencies and implement immediate and short term actions to address the deficiencies. Visual and closed-circuit television inspection of pipes and manholes as well as laboratory analysis of pipe samples will be conducted.

35101 Lateral Sewer Repair

Project Description

This is a four year program to evaluate, repair and rehabilitate approximately five miles of small diameter sanitary sewers, for the protection of groundwater from domestic sewage and industrial wastes.

PPU	40
Legislative District	County Wide

Operating Budget Impact

The operating impact will likely be reduced as new sanitary sewers will reduce maintenance.

35109 Force Mains/Pump Stations Long Beach

Project Description

With the new NYSDEC regulations regarding Nitrogen Level Output into non ocean water bodies, many smaller municipal plants will be unable to continue to process sewage. In order to ensure services to County residents, the County will purchase the Long Beach Sewage Treatment Plant, convert it into a pump station, and send the sewage to a County Sewer treatment plant for treatment.

PPU	40
Legislative District	4

Operating Budget Impact

This project will increase the operating impact as it will incorporate new facilities into the County's network.

35131 Cedarhurst Pump Station

Project Description

This project will study and possibly create a stormwater pump station at Hanlon Dr. and Peninsula Blvd in the Village of Cedarhurst, in coordination with the Governor's Office of Storm Recovery and the Village of Cedarhurst. This proposed pump station is derived from the Five Towns Drainage Improvement Study and is intended to mitigate flooding along Peninsula Blvd. and the surrounding areas. This project is funded by and conceived through the NY Rising Community Reconstruction Program of the Governor's Office of Storm Recovery.

PPU	40
Legislative District	7

Operating Budget Impact

This will create a new pump station that will incur additional costs.

35135 Collection System Infiltration and Inflow

Project Description

Infiltration and inflow (I/I) is extraneous water that was not intended to enter the wastewater collection system, and therefore, adds unwanted strain and cost to the treatment process. In response to a modified agreement (No. CO 1-20170626-244-M1) between the New York State DEC and Nassau County, this project will evaluate the entirety of the South Shore WRF and Cedar Creek WPCP wastewater collection systems for I/I. Together these systems comprise of approximately 2,800 miles of pipes and provides service to approximately 1,200,000 people. The goal of this large-scale study is ultimately implementation and construction of I/I reduction measures.

PPU	40
Legislative District	County Wide

Operating Budget Impact

This project will increase efficiencies and reduce operating costs.

98041 SSW Motorized Equipment Replacement

Project Description

This project is a capital equipment replacement program for the Bay Park Sewage Treatment and the Cedar Creek Water Pollution Control Plants. Based on age, mileage and recommended factors for equipment replacement by the American Public Works Association, various equipment used by DPW must be replaced. Examples of equipment to be replaced are sewer rodders, flush trucks, pick-up trucks, vans, heavy trucks, snow plows, sanders, front-end loaders, compressors, cranes, generators, etc.

PPU	10
Legislative District	County Wide

Operating Budget Impact

New equipment is typically more efficient to operate than that which is being replaced. Therefore, this project will likely reduce operating expenditures.

Disposal

Nassau County's wastewater collection system includes 58 sewage pumping stations, 3,103 miles of sewers, approximately 72,480 manholes, and about 300,000 individual service connections.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes nine projects that will address Nassau's Disposal infrastructure needs, improving the quality of life for our residents. The 2026 budget will be \$34.2 million. For the 2026-2029 Capital Improvement Plan period, the budget is \$328.4 million. Highlights include equipment upgrades at Cedar Creek, and the digester rehabilitation.

35100 Bay Park & Cedar Creek Digester Rehabilitation

Project Description

This project would focus on the cleaning of the existing anaerobic digesters at the Bay Park Sewage Treatment Plant and the cleaning and rehabilitation of the existing anaerobic digesters numbers 5 through 9 and their associated digester control building at Cedar Creek Water Pollution Control Plant. Additionally, the replacement or rehabilitation of existing heat exchangers, the replacement of sludge circulation pumps and recirculation gas compressors and any other associated equipment that is at or near the end of its useful life at either facility will be evaluated. The cleaning and rehabilitation of these digesters will allow for the continued operation of these units for the foreseeable future. These digesters and the methane gas produced are a key part of the energy management program at both Bay Park and Cedar Creek.

PPU	10
Legislative District	County Wide

Operating Budget Impact

New equipment operates more efficiently and lowers operating costs.

35114 Wastewater Facilities Improvements

Project Description

This project will fund needed improvements at the County's wastewater facilities. It will allow for the replacement of outdated systems, as well as the addition of new systems, both as needed. Major upcoming projects include the Marine Bulkhead Replacement; Sludge Dewatering Facility Improvements; Preliminary Treatment Improvements.

PPU	20
Legislative District	County Wide

Operating Budget Impact

This project will reduce the operating budget due to a reduction in maintenance cost.

3B116 Bay Park Outfall District Structure Pipeline Rehabilitation

Project Description

This project is for the rehabilitation of the Bay Park Sewage Treatment Plant (BPSTP) outfall distribution structure and pipeline located in Reynolds Channel. Constructed in the 1960's, these structures have not been thoroughly evaluated since that time. Recent investigations by County personnel have determined that the concrete distribution structure has deteriorated to a strength substantially below its design strength. Additionally, due to an apparent obstruction of the tide gate, the tidal pumps are operating excessively resulting in accelerated wearing of mechanical components and increased energy and maintenance costs.

PPU	40
Legislative District	County Wide

Operating Budget Impact

Operating impact and improved operations will be determined during the study.

Storm Water

Investment in drainage infrastructure is necessary to maintain the quality of life that Nassau residents deserve.

The 2026 Capital Budget and 2026-2029 Capital Improvement Plan includes 27 projects that will address Nassau's Storm Water infrastructure needs, improving the quality of life for our residents. The 2026 budget is \$4.2 million. For 2026-2029, the budget is \$47.1 million. Highlights include a drainage assessment master plan, drainage improvements along roadway countywide, and ground water studies.

35103 Various County Parks Pond/Bulkhead Replacement

Project Description

This project will address the storm water aspects of project 41823 which is as follows: This is the second phase of a multi-phased plan to dredge and replace rotted bulkheads in various pond parks. These facilities are a critical part of the County's storm water runoff drainage system. Dredging is needed to remove deposits of sand and sediment that naturally occurs as originally engineered. This project will include : Baxter Pond, Milburn Pond, Roosevelt Pond, Mill Pond, Tanglewood Preserve, Silver Lake, and Lofts Pond.

PPU	20
Legislative District	County Wide

Operating Budget Impact

The operating impact for this project is being evaluated.

35106 Rehabilitation of Various Public Works Waterbodies

Project Description

This project will restore waterbodies that functions as a drainage facility and have been impacted by the effects of storm water runoff. The runoff carries sediment which has been accumulating in these water bodies to the point where their drainage function has been compromised, potentially leading to flooding issues. Improvements will be made to the drainage function of each location by restoring their capability to pass/retain the storm water volumes generated during rain events.

PPU	40
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

35125 Whitney Drain Rehabilitation Phase II

Project Description

This project is for the rehabilitation of Whitney Drain. The Whitney Drain is an open drainage corridor which runs through the former Whitney Estate to Whitney Pond, Manhasset Valley Pond and eventually discharges into Manhasset Bay. The banks of this corridor have experienced severe erosion due to the frequency, volume, and speed of storm water runoff from the drainage area. Without proper stream bank stabilization the sediment that is caused by the erosion will continue to be carried to Whitney Pond, Manhasset Valley Pond and Manhasset Bay. Current bioengineering techniques will be used to protect the channel thereby reducing safety and liability concerns. Approximately a half mile of the three quarter mile drain corridor will be rehabilitated. Planned improvements will make maintenance of the drainage corridor easier and will reduce the potential for future dredging projects of water bodies downstream from this corridor.

PPU	40
Legislative District	10

Operating Budget Impact

It is anticipated that the rehabilitation of the Whitney Drain will reduce maintenance costs.

80019 Storm Water Pump Stations Construction

Project Description

This project will address construction and rehabilitation needs at Nassau County storm water pumping stations. This is to assure reliable operation of the stations and to alleviate flooding concerns. Existing deficiencies need to be corrected. The pumping stations have not been overhauled in many years and are subject to mechanical and electrical failures. They must also comply with current codes. At present, operation of these stations is unreliable during rainfall events presenting safety concerns and County liability issues. These pumping stations are located in Syosset, Garden City, New Hyde Park, Floral Park, Woodmere, and Woodbury.

PPU	40
Legislative District	County Wide

Operating Budget Impact

New equipment is typically more efficient to operate than that which is being replaced. Therefore, this project will likely reduce operating expenditures.

82001 Drainage Stream Corridors Reconstruction

Project Description

The purpose of this project is to initiate a program to reconstruct the County's 27 miles of drainage stream corridors. These drainage stream corridors carry storm water runoff from local streets through various ponds and streams to the bays surrounding the county. The drainage stream corridors are in need of reconstruction due to excess sand in the stream bed, erosion on the stream banks, disrepair of concrete headwalls, and overgrowth of vegetation. The implementation of this work will reduce the County's liability due to erosion and flooding on private properties, reduction in mosquito breeding areas, and facilitate normal maintenance.

PPU	40
Legislative District	County Wide

Operating Budget Impact

This project will have no impact on the operating budget.

82008 Rehabilitation of Storm Water Basins

Project Description

This project involves the rehabilitation of Nassau County owned Storm Water Basins. This work is necessary in order to restore their drainage capacity to prevent/avoid flooding and erosion conditions. These basins were selected based upon the severity of their condition, which presently burdens the County with potential liability concerns. In addition, the capital project will address minor work that is beyond the capabilities of in-house staff.

PPU	40
Legislative District	County Wide

Operating Budget Impact

This project will decrease the annual maintenance required and, therefore, reduce operating expenditures.

ORDINANCES

Only the details for the 10 most recent bond ordinances are shown, but the totals are for all ordinances.

82010 Implementation of Storm Water Management Program

Project Description

The United States Environmental Protection Agency (USEPA) issued the Final Rule for the Phase II Storm Water Regulations in February 1999. These regulations require operators of small municipal separate storm water systems (the County of Nassau is included), to file a permit with New York State to discharge storm water to the surface waters of the United States. A requirement of the Permit is the development and implementation of a Storm Water Management Program (SWMP). This project will allow the County to implement various best management practices over the initial five year permit cycle for the six minimum control measures outlined in the County's SWMP.

PPU	10
Legislative District	County Wide

Operating Budget Impact

The operating budget will be impacted by the management plans developed as part of this project.

82015 Five Towns Drainage Improvements

Project Description

Nassau County will prepare a drainage study to provide necessary data to reduce flood damages and risks to the people of the villages and hamlets in the southwestern portion of Nassau County commonly referred to as the Five Towns. These villages and hamlets are the Villages of Cedarhurst, Lawrence, Hewlett Neck, Hewlett Bay Park and Woodsburgh and the Hamlets of Woodmere, Hewlett, and Inwood. The report produced will document and map the stormwater drainage infrastructure systems in the region, identify system limitations and provide recommendations for system improvement to mitigate stormwater and tidal flooding.

PPU	40
Legislative District	County Wide

Operating Budget Impact

This project will have a negligible impact to the County's operating budget.

82017 Bay Park/East Rockaway Drainage Improvements

Project Description

This project will prepare a Hydrologic and Hydraulic (H&H) drainage improvement study and plan to gain a watershed understanding of the hydrology and hydraulics affecting the Village of East Rockaway and the Hamlet of Bay Park in the Town of Hempstead. The Plan will identify a hierarchy of feasible alternatives that address stormwater infrastructure limitations. The selected firm will also be required to take potential implementation alternatives into thirty (30) percent design. The H & H study will develop a plan to document and map the stormwater drainage infrastructure system in the region, identify system limitations, and provide recommendations for system improvements to mitigate stormwater and tidal flooding. This drainage study report will study the watershed and define stormwater tributary areas, calculate runoff volume and discharge rates of existing stormwater infrastructure, and make recommendations to address system limitations and future demand (assuming development and flood mitigation interventions). The study includes three parts: existing system capacity; alternative mitigation solutions; and benefit cost analysis and budget. The report will include large scale mapping, observations, evaluations, proposed improvements, impacts, costs and benefits of identified engineering solutions. Specific recommendations for drainage infrastructure upgrades stemming from the drainage improvement study will be requested, at the discretion of the County and GOSR, to be advanced to thirty percent (30%) design.

ENVIRONMENTAL BOND ACT

In August 2004, the Nassau County Executive and the Nassau County Legislature recognized the urgent need to identify financial resources to protect the County's remaining open space, natural resources, parklands, and drinking water, and to advance the remediation of contaminated properties around the County. The County Executive and Legislature unanimously adopted Local Law 14-2004 to conduct a referendum on a \$50 million Environmental Program called the 2004 Environmental Bond Act. In November 2004, this referendum appeared on the ballot, and was

overwhelmingly approved by 77% of the voters of Nassau County. This approval led to the creation of the Nassau County Environmental Bond Act Program.

The effort was repeated in September 2006 whereby the County Executive and Legislature unanimously adopted Local Law 10-2006 to conduct a referendum on a \$100 million Environmental Program to supplement the first. In November 2006, this referendum appeared on the ballot, and was also approved by 77% of the voters of Nassau County.

The Nassau County Department of Public Works has been charged with oversight of both Environmental Bond Act programs. Projects consist of approximately 151 Open Space Acquisitions; Brownfield Remediation, Park Improvement, and Storm Water Quality Improvement projects. Twenty-three (23) of these projects were for the purchase of Open Space; Fifty-three (53) of these projects are the subject of inter-municipal partnerships, in which the County is working with other municipalities to carry out projects on their property. The remaining seventy-five (75) projects will be performed by the County resources.

*ITD Expenditures includes encumbrances. When the Carry Forward for a project is negative, this indicates that there is no carried over budget authority and the encumbrance includes authorized funds that, would require additional budgeting in future years.

**New Projects that are proposed to be part of the 2026 Capital Budget and 2026 - 2029 CIP are bolded.

9E100 Environmental Bond Act - 2004

Project Description

The purpose of this project is to preserve Nassau's remaining open space from development, to provide adequate and diverse kinds of parklands and park facilities for County residents for both active and passive recreation, to protect the county's water resources and to provide for cleanup of Brownfield's in the County.

THE CAPITAL PLANNING PROCESS

The Capital Improvement Plan designates funding for five general kinds of expenditures, as follows. Each of these activities represents an important part of the capital program:

Design and construction charges – Costs associated with the design and construction of capital assets, such as rehabilitation of buildings, improvements to County parks and road improvements.

Equipment purchases - Major items such as printing equipment, vehicles, bullet proof vests, computer systems, and snow removal equipment for the County is purchased from the capital budget.

Internal labor and management charges - County staff play an important role in advancing the capital program. Therefore, these expenditures are appropriately included in the capital budget.

Charter Requirements for the Capital Budget and Plan

1. "Details, descriptions, and projections" of proposed capital projects
2. Descriptions and projections of proposed project funding sources
3. A report on the outstanding indebtedness of the County and NIFA, including a schedule of debt service payments
4. A schedule of authorized but unissued bonds
5. Projections of outstanding debt assuming implementation of the capital budget and plan

The Capital Program Management Cycle

The purposes of the County's capital budget and planning process are as follows:

To direct resources to the County's strategic priorities, including the consolidation and rehabilitation of the County's buildings, the ongoing improvement of the County's infrastructure, and the expansion of the County's information technology capacities;

To maintain reliable County services through long-term strategic planning rather than through short-sighted ad-hoc project approvals characteristic of crisis management;

To provide Nassau County government officials with a management tool that allows the exploration of options as needs change and new obligations arise; and

To comply with the constraints, and advance the objectives, of the County's 2026-2029 Multi-Year Financial Plan ("MYP").

The current capital program management cycle includes the following elements:

Project prioritization - Within the framework of the MYP and operating budget, the Capital Review Committee sets priorities among the County's capital projects. These priorities are applied differently for projects that are in progress and those that are proposed. Capital projects that are already in progress

represent resources that have already been expended and otherwise committed; to stop projects mid-stream would mean at least partially squandering capital funds. So generally, projects in progress are allowed to continue the following year unless there is a compelling reason not to, or unless funding is to be transferred from one project to another. Any remaining debt capacity (i.e. previously authorized but unissued debt), after meeting the financial needs of projects in progress, is allocated to new projects based on priorities, including the following:

- Health and safety risks: any projects to correct existing or potential hazards to the public or to County employees are top priorities.
- Legal mandates: projects may be required to meet obligations of a consent order requiring, for example, improvements to the sewer system, or renovations for compliance with the Americans with Disabilities Act.
- Impact on the requesting agency's ability to carry out its mission or the County's ability to meet public needs.
- Impact on the County's operating budget: potential to enhance revenues or reduce costs makes a project a higher priority, while projects that will result in increased operating budget costs are a lower priority.
- Non-County funding sources: the priority of a project increases if County funds can leverage a significant investment of other dollars.
- Potential economic impacts: positive impacts for business or community development heighten the priority of a project.

Budget development – The capital budget will be based on the competing needs of new and current projects, available proceeds, and levels of new debt to be issued.

Legislative approval – Section 310 requires submission of the Capital Plan and Budget on October 15 of each year. The Plan will then be open for public inspection, discussed in public hearings, and voted on by December 15. During the course of a project, the County Legislature typically conducts at least five different reviews of the same project:

- Approves the inclusion of a project in the Capital Plan;
- Adopts the capital budget that funds the project;
- Passes a bond ordinance authorizing the issuance of debt for the project (there may be multiple bond ordinances, with timing and amounts at the discretion of the Legislature);
- Approves a contract for the design of the project (e.g., an architecture or engineering contract);
- Approves a contract for construction of the project.

Project implementation – Responsibility for the implementation of capital projects falls primarily on the Department of Public Works (DPW). The Division of Engineering oversees the planning and design for County buildings, roadways, bridges, and related infrastructure, including traffic control systems as well as all sewer and storm water projects. However, equipment purchases are typically administered by the Purchasing Department, and land acquisition (condemnation) is managed by the County Attorney's Office. Other project types / purchases may be handled centrally by another department or by the "client" agency as appropriate.

Project monitoring and reporting – Capital program monitoring and reporting mechanisms and procedures are important tools to enhance accountability for project progress and facilitate the identification and resolution of potential problems, provide sufficient information to effectively coordinate capital funds with projects, and help meet the needs of stakeholders, including project managers, County

“clients,” finance staff, Legislators, and County residents. Responsibility for monitoring capital expenditures is decentralized. DPW is also responsible for tasks such as contract and payment processing; most tracking at the individual project level is carried out by DPW. Specific financial functions require the participation of other offices; e.g., the Office of the Treasurer is responsible for bond issuance and arbitrage monitoring; the Comptroller is the last stop in the approval process for payment of vouchers.

POLICIES RELATED TO THE CAPITAL PROGRAM AND THE COUNTY’S DEBT

Nassau County has established policy guidelines pertaining to the issuance and administration of debt. These policies are intended to help guide the County when it borrows funds in order to maintain and enhance the County’s infrastructure while minimizing the cost to taxpayers. As objectives are met, policy goals may be revised to reflect goals and objectives that will sustain fiscal stability over the long term.

The County’s Debt Policy is included in the Appendices of this document.

Nassau County Sewer and Storm Water Finance Authority

The Nassau County Sewer and Storm Water Finance Authority (the “Authority”) was established in 2003 by the State of New York (the “State”) under the Nassau County Sewer and Storm Water Finance Authority Act, codified as Title 10-D of Article 5 of the Public Authorities Law of the State as a public benefit corporation. The Authority has been established for the limited objectives of refinancing outstanding sewer and storm water resources debt issued by or on behalf of the County and financing future County sewer and storm water resources projects. The Authority may issue debt in an amount up to \$350,000,000 for such purposes (exclusive of debt issued to refund or otherwise repay Authority debt).

Most of the Authority’s revenues are derived through the imposition by the County of assessments for sewer and storm water resources services and payments in lieu of taxes. The County has directed each city and town receiver of taxes to pay all such assessments directly to the trustee for the Authority’s bonds. The Authority retains sufficient funds to service its debt and pay its operating expenses. Excess funds are remitted to the Nassau County Sewer and Storm Water Resources District (the “District”). The District is responsible for paying for the cost of the County’s provision of sewerage and storm water resources services.

As of October 15, 2025, the Authority had \$42.1 million of bonds outstanding.

Sewer and Storm Water Resources Capital Budget Spending

The 2026 Capital Budget includes \$94.3 million in Sewer and Storm Water Resource District Capital Spending. The source of funds for these projects includes borrowing proceeds and grants.

THE 2026 – 2029 CAPITAL FINANCING PLAN

Budget and Plan Funding Sources

General Obligation (G. O.) Improvement Bonds - The County pledges its faith and credit for the repayment of bonds that it issues. All of the taxable real property within the County is subject to the levy of ad valorem taxes, subject to applicable statutory limitations, to pay both the principal of and interest on its borrowings.

Prior Year Carryovers - These are budgeted funds from prior years that remain with a project until they are expended or until the project is completed.

Pay-As-You-Go - Pay-as-you-go projects are financed from current revenues to avoid issuing new debt and incurring debt service costs. However, these funds are not deemed available for capital projects unless they are included in the annual operating budget approved by the Legislature. The Administration will work to conserve financial resources and achieve stability in the County's operating budget while addressing the County's infrastructure needs. The County continues to work to maximize capital funds available from other sources, such as grants. CIP funding sources are as listed below.

Tax Levies (Sewer District) - The County's sewer and storm water resources district collects and treats wastewater from approximately 85 percent of Nassau County's population. The operation of the sewer and storm water district is funded from taxes levied in the geographic area served by the district.

Other sources of funding include:

Property Sale Proceeds – Funding for the County Building Consolidation Program includes proceeds of sales of County land and buildings that are no longer needed as a result of consolidation or changes in function;

Private Contributions – These are made to County projects by private corporations or individuals. Projects that fall under Recreation and Parks are most likely to receive such donations;

Grants – Certain County agencies/departments receive dedicated funds from State and/or Federal sources for specified projects. In some cases, the County receives funding from other sources and uses it to pay for projects during a project or following its completion; in other cases, the County passes funding to another entity that is implementing a project. These funds normally have special reporting requirements expected of the recipient agencies. Grant providers include the following:

Federal Transit Authority (FTA)

New York State Department of Transportation (NYSDOT)

Dormitory Authority of the State of New York (DASNY)

State Revolving Fund (SRF)

State Highway Improvement Program (SHIPS)

Consolidated Local Street and Highway Improvement Program (CHIPS)

The agencies and projects typically receiving support from these sources are: Community College projects, which frequently receive 100 percent matching funds from the State; traffic engineering projects, many of which receive federal grants for as much of 80 percent of project costs; and sewer district projects which receive SRF support.

For accounting purposes, Nassau County's capital expenditures are organized into two funds, one for general capital projects and one for sewer and storm water projects. SSW (capital) is used for sewer and storm water projects. Capital is used for all other projects and expenditures including judgments and reassessment costs.

Although sewer and storm water debt are faith and credit obligations of the County, in practice debt service on such debt is supported by a portion of sewer and storm water revenues. Sewer district projects that are eligible for funding by the State and Federal governments can be financed by loans made through the borrowing authority of the NYS Environmental Facilities Corporation ("EFC"), with debt service paid by the sewer district. The EFC's AAA credit rating and subsidized loan rates greatly reduce borrowing costs.

Budget and Plan Funding Uses

The CIP designates funding for five general kinds of expenditures, as follows.

Design and construction charges - These generally result in either a new facility, significant improvement to an existing facility, or new and enhanced infrastructure. The County is responsible for roughly 850 facilities, ranging from cabanas and police booths to courthouses and office buildings. It also owns about 1,850 lane miles of roadways, 108 bridges, and 1,600 traffic signals. Sewage district assets include two major water pollution control facilities, 37 wastewater pump stations, and approximately 3,000 miles of sanitary sewers.

Equipment purchases - Many types of equipment tend to fall within a capital budget because they are very expensive, either individually or in aggregate. They may also have long useful lives. For example, Nassau County purchases both sedans and more specialized vehicles such as front-end loaders from its capital budget, the aggregate value of which may reach several million dollars a year. New and enhanced technology can also be included in this category.

Internal labor and management charges - These costs are included in the capital budget based on the rationale that County employee administrative and managerial time required to implement capital projects (i.e. in-house design, selecting and managing design consultants, writing specifications, or inspecting construction) is appropriately counted as direct costs of the project. Thus, the cost of employee time directly related to a capital project is reimbursed from authorized project funds. These charges are not budgeted independently; rather, they are included in the total cost of each project.

CURRENT DEBT AND PROJECTED DEBT FINANCING OF THE CIP

The 2026 Capital Budget and the 2026-2029 Capital Improvement Plan are funded primarily by County debt. Based on the Capital Budget and Plan, the County anticipates non carryforward capital spending from debt of approximately \$237 million for the general fund, and \$65.9 million for the SSWRD in 2026; \$381.9 million, and \$142.6 million respectively in 2027; \$398.9 million, and \$172.6 million respectively in 2028; and \$276.1 million and \$131.2 million respectively in 2029.

The County will continue to review and evaluate funding sources and projected project spending to maintain the fiscal soundness of the capital program. The County also maintains the flexibility to curtail parts of the capital program, if necessary, to ensure that there are adequate resources to advance high-priority projects.

The following graph shows the County's (All Funds) projected debt service obligations from 2026 through 2035.

The following chart shows the debt service required for existing debt and new requirements for this capital program. In 2026, it is projected the County will pay approximately \$303.0 million in debt service. Additional information can be found in Appendix D.

Existing and Future Debt Service Obligations
Projected as of September 15, 2025

AUTHORIZED BUT UNISSUED BONDS

While debt may be authorized for a capital project, it is not issued until it is needed for project expenditures. The table below provides the amount that has been authorized but is currently unissued for various categories of projects. Note that these categories are not the same as the ones in which projects have been grouped for the 2026 Budget, even though some of the names are the same.

**Summary of Bonds Authorized But Unissued
As of September 30, 2025
(In Thousands)**

<u>Purpose</u>	<u>Amount Authorized But Unissued</u>
Community College	\$64,362
Information Technology	41,800
Infrastructure	535,176
Land and Acquisition	12,824
Parks and Recreation	69,884
Public Safety	200,192
Sewer and Storm Water	910,761
Property Tax Refunds and Other Judgments and Settlements	<u>26,350</u>
Total	\$1,861,349

- (1) Assumptions used to generate budget for debt service; size, timing and rates of actual borrowings may vary.
(2) The County may substitute Bond Anticipation Notes for Bonds to finance the Capital Plan.
(3) Projects for the SSWRD may be funded through borrowing by either the County, NYS EFC, or the NC SSWFA.
(4) Third and final long-term tranche for the Bay Park conversion project.

APPENDIX E – COUNTY DEBT POLICY

DEBT

INTRODUCTION

The County's Debt Policy is based on best practices which takes into account guidance from rating agencies and the GFOA. The County reviews this policy on an annual basis.

The County shall structure all debt issuances, and establish all terms and conditions related to such debt issuances, in accordance with New York State Local Finance Law. The Debt Policy provides that the County will structure debt issuances to achieve relatively level debt service while matching debt service to the useful life of the projects. The County will avoid the use of bullet or balloon maturities except in those instances where these maturities serve to make existing overall debt service level (to the extent permissible under Local Finance Law). The County may elect a more rapid or other debt service structure, such as declining debt service (i.e., level principal amortization, accelerated principal), at its discretion. The County prioritizes capital spending in order to manage the total amount of debt service and debt outstanding.

The County is committed to full and transparent financial disclosure. The County will cooperate fully with rating agencies, institutional and retail investors, and the public to produce and share clear and accurate financial information. The County is committed to meeting continuing disclosure requirements on a timely and comprehensive basis.

The County's ratings as of September 2025 were: "Aa2" (stable outlook) from Moody's Investors Service; "AA" (stable outlook) from S&P Global Ratings; and "AA" (stable outlook) from Fitch Ratings.

GOALS AND OBJECTIVES

The adoption of clear and comprehensive Financial Policies enhances the financial management of the County. The Debt Policy helps ensure that County financings satisfy certain clear and objective standards. These standards seek to protect the County's financial resources, which are necessary to meet long-term capital needs.

The goals and objectives of the County's Debt Policy are to:

- Guide the County and its managers in policy and debt issuance decisions
- Maintain appropriate capital assets for present and future needs
- Promote sound financial management
- Protect and enhance the County's credit rating
- Ensure the legal and prudent use of the County's debt issuance authority
- Evaluate debt issuance options

PURPOSES FOR WHICH DEBT CAN BE ISSUED

Capital Borrowing: The County issues debt for projects identified in its Capital Plan. The Capital Plan includes funding for buildings, equipment, infrastructure, parks, property, public safety, roads, technology, traffic, transportation, sewer and storm water, and open space preservation. The County issues general obligation bonds to fund its capital projects. The County has issued system revenue bonds through its Sewer and Storm Water Finance Authority to fund certain sewer and storm water projects.

Working Capital Borrowing: In the past, the County funded some working capital expenses with bond proceeds. In 2025 the County continued to meet its goal to fund all judgments and settlements, including tax certiorari payments. Since 2016, the County has not borrowed to finance termination payments.

Cash Flow Borrowing: The County borrows for cash flow purposes (Revenue Anticipation Notes and/or Tax Anticipation Notes) as necessary to address a timing difference between receipt of revenues and payment of expenses. The County has not issued cash flow notes since 2021 and does not anticipate that it will need to do a cash flow borrowing in 2026.

DEBT LIMITATIONS/AFFORDABILITY

The 2026 Proposed Budget includes \$303.0 million for County and NIFA debt service expenses in the County's Major Operating Funds. The 2026-2029 Proposed Multi-Year Financial Plan projects that in 2029, the County will have \$320.9 million in County and NIFA debt service expenses.

Debt Service as a Percentage of Expenses

Goal: The County's tax-supported debt service will not exceed 10% of general governmental expenses within the Major Operating Funds.

Tax-supported debt service shall include any debt service on cash flow notes and general obligation bonds, which are not self-supporting from a user fee revenue stream. Any long-term financing lease obligations, which may be subject to annual appropriation by the County, will also be included in calculations of tax-supported debt service.

Status: The County projects debt service expenses in the Major Operating Funds to be 7.02% of 2025 expenses and 7.08% of 2026 expenses. The 2026-2029 Proposed Multi-Year Financial Plan projects that in 2029, debt service expenses as a percentage of total expenses will be 7.10%. In 2021, NIFA refunded its own debt and County debt which significantly reduced debt service expenses in 2021 and 2022. For purposes of this ratio, debt service excludes sewer-related debt, and expenses exclude interdepartmental transfers.

Net Direct Debt as a Percentage of Full Valuation

Goal: The County's tax-supported net direct debt will not exceed 1.50% of the full valuation of taxable real property in the County.

Status: The County projects the tax-supported net direct debt of the County's Major Operating Funds to be 1.00% of the full valuation of taxable real property in the County as of December 31, 2025.

Net Direct Debt per Capita

Goal: The County's tax-supported net direct debt per capita will not exceed \$2,564 as of December 31, 2025. The County will increase the target value by 2% per year to take into account the effect of inflation.

Status: The County projects tax-supported net direct debt per capita to be \$2,130 as of December 31, 2025.

BOND STRUCTURE

The County shall structure all debt issuances, and establish all terms and conditions related to such debt issuances, pursuant to New York State Local Finance Law, and will invest all unspent bond proceeds pursuant to the terms of the County's Investment Policy. The following shall generally apply to the County's bond issuances.

Terms: All capital improvement projects financed through the issuance of debt shall be for a period not to exceed the useful life of the project.

Capitalized Interest: Occasionally, certain financings may include the use of capitalized interest from the issuance date until the County has beneficial use and/or occupancy of the financed project. The County shall not fund (capitalize) interest beyond three years or a shorter period if further restricted by law. The County may apply, at its discretion, interest earnings to extend the term of capitalized interest but in no event beyond the term allowed by law.

Debt Service Structure: Debt issuance shall be planned to achieve relatively level debt service while matching debt service to the useful life of projects. The County shall avoid the use of bullet or balloon maturities except in those instances where these maturities serve to make existing overall debt service level (to the extent permissible under Local Finance Law). The County may elect a more rapid or other debt service structure, such as declining debt service (i.e., level principal amortization) at its discretion.

Call Provisions: In general, the County's debt will include an early redemption (or "call") feature, which is typically no later than ten years from the date of delivery of the bonds. The County will avoid the sale of non-callable bonds absent careful, documented evaluation by the County in conjunction with its financial advisor with respect to the value of the call option.

Original Issue Discount: The County will permit an original issue discount if it determines that such discount results in a lower true interest cost on the bonds and that the use of an original issue discount will not adversely affect the project funding.

Deep Discount Bonds: Deep discount bonds may provide a lower cost of borrowing in certain markets. The County will carefully consider their value and effect on any future re-financings due to the lower-than-market coupon associated with deep discount bonds.

Derivative Structures: Although State law does not empower the County to enter into interest rate exchange agreements (i.e. swaps), NIFA and NHCC are each statutorily empowered to do so. The County will consider the use of derivatives as a hedge against future interest rate risk or to create “synthetic” fixed rate or variable rate debt, when appropriate and as may be provided by Local Finance Law. The County will not use derivative structures for speculative purposes. The County will consider the use of derivative structures when it is able to gain a comparative borrowing advantage of 25 basis points or more and is able to quantify and understand potential risks.

TYPES OF DEBT

When the County determines that the use of debt is appropriate, it will consider the following criteria to evaluate the type of debt it issues.

Long-Term Debt: The County may issue long-term debt (general obligation bonds) to finance capital projects. Long-term debt will be structured matching debt service to the useful life of the projects. In the past, the County also funded some working capital expenses with bond proceeds.

Short-Term Debt: Short-term borrowing may be utilized for the temporary funding of operational cash flow deficits or anticipated revenues (defined as an assured source with the anticipated amount based on conservative estimates). The County will determine and utilize the least-costly method for short-term borrowing subject to the following policies.

- **Bond Anticipation Notes (BANs)** may be issued as interim financing prior to the issuance of long-term debt. The BANs shall not mature more than five years from the date of issuance. In the event BANs are not retired with long-term debt, they shall mature within six months after substantial completion of the financed project.
- **Tax or Revenue Anticipation Notes (TANs or RANs)** shall be issued only to meet cash flow needs.
- **Other Short-Term Debt** may be used when it provides an interest rate advantage or as interim financing until market conditions are more favorable.

Lease Purchase Obligation: Lease purchase obligations, including certificates of participation or lease revenue bonds, shall be considered as an alternative to long-term vendor leases. Such debt shall be subject to annual appropriation. To reduce the cost of lease borrowing and to improve control over leases, the County may adopt a master lease program.

Variable Rate Debt: To maintain a predictable debt service burden, the County may give preference to debt that carries a fixed interest rate. The County, however, may consider variable rate debt. The percentage of variable rate debt outstanding (excluding debt which has been converted to synthetic fixed rate debt) shall not exceed 20% of the County's total outstanding debt, unless there is an offsetting amount of operating cash earning a floating interest rate, in which case the amount of, and investment strategy for, the County's operating cash will be taken into consideration. The following circumstances may result in the consideration of issuing variable rate debt.

- **High Interest Rates:** Interest rates are above historic averages.
- **Variable Revenue Stream:** The revenue stream for repayment is variable and is anticipated to move in the same direction as market-based variable interest rates, or the dedication of revenues allows capacity for variability.
- **Adequate Safeguards Against Risk:** Financing structure and budgetary safeguards are in place to prevent adverse impacts from interest rate shifts. Such structures could include, but are not limited to, interest rate caps and short-term cash investments in the County's General Fund.
- **Financial Advisor Analysis:** An analysis from the County's financial advisor evaluating and quantifying the risks and returns involved in the variable rate financing recommends variable rate debt as the lowest-cost option.
- **As a Component to Synthetic Fixed Rate Debt:** Variable rate bonds may be used in conjunction with a financial strategy which results in synthetic fixed-rate debt. Prior to using synthetic fixed-rate debt, the County shall demonstrate that the true interest cost is at least 25 basis points lower than traditional fixed-rate debt.

REFUNDING

The Deputy County Executive for Finance and/or Budget Director, with assistance from the County's financial advisor, shall have the responsibility to analyze outstanding debt for refunding opportunities. The County will consider the following issues when analyzing possible refunding opportunities.

Debt Service Savings: The County establishes a minimum present value savings threshold of 2% of the refunded principal amount when discounted at the arbitrage yield rate. The present value savings will be net of all costs related to the refinancing. If present value savings is less than 2%, the County may consider the option value captured as a percent of total savings. In such case, if the option value captured as a percent of total savings exceeds 70% and present value savings is less than 2%, the County may opt to complete a refunding. Debt service savings may be taken in equal amounts over time or on an upfront or deferred basis, at the County's discretion.

Restructuring: The County will refund debt when it is in the best financial interest of the County to do so. Such refunding will be limited to restructuring to meet unanticipated revenue shortfalls, achieve cost savings, mitigate irregular debt service payments, release reserve funds, or remove unduly restrictive bond covenants.

Term of Refunding Issues: The County will refund bonds within the term of the originally issued debt. However, the County may consider maturity extension when it is necessary to achieve a desired outcome, provided that such extension is legally permissible. The County may also consider shortening the term of the originally issued debt to realize greater savings. The remaining useful life of the financed projects should guide this decision.

Escrow Structuring: The County shall utilize the least costly securities available in structuring refunding escrows unless the benefit of open market securities outweighs any additional costs. A certificate will be provided by a third-party agent stating that the securities were procured through an arms-length, competitive bid process (in the case of open market securities), that such securities were more cost-effective than State and Local Government Obligations (SLGs), and that the price paid for the securities was reasonable within Federal guidelines. Under no circumstances shall an underwriter, agent, or financial advisor sell escrow securities to the County from its own account.

Arbitrage: The County shall take all necessary steps to optimize escrows and to minimize negative arbitrage in its refunding. Any resulting positive arbitrage will be rebated, as necessary, according to Federal regulations.

METHODS OF ISSUANCE

The County will determine the method of issuance on a case-by-case basis.

Competitive Sale: In a competitive sale, the County's bonds shall be awarded to the bidder providing the lowest true interest cost (lowest net interest cost for notes) as long as the bid adheres to the requirements set forth in the official notice of sale.

Negotiated Sale: The County recognizes that it is advantageous to sell some securities through negotiation. In its assessment of a negotiated sale, the County shall consider the following:

- Bonds issued as variable rate demand obligations
- A structure which may require a strong pre-marketing effort such as a complex transaction or a "story" bond
- Size of the issue, which may limit the number of potential bidders
- Market volatility is such that the County would be better served by flexibility in timing a sale in a changing interest rate environment
- Capital appreciation bonds or zero coupon bonds

Private Placement: Occasionally, the County may elect to privately place its debt. Such placement shall only be considered if this method is demonstrated to result in a cost savings to the County relative to other methods of debt issuance, or if there is limited or no market access.

CREDIT ENHANCEMENT

The County seeks to maintain the highest possible credit rating for all categories of short-and long-term debt that can be achieved without compromising delivery of basic County services and achievement of County policy objectives. The County recognizes that external economic or other events may affect the creditworthiness of its debt.

The County will consider the use of credit enhancements (as listed below) on a case-by-case basis, evaluating the economic benefit versus cost for each case.

Bond Insurance: The County may purchase bond insurance when such purchase is deemed prudent and advantageous. Use of bond insurance shall be based on the all-in proceeds of the insured bonds versus the all-in true interest cost and proceeds of the uninsured bonds. In the case of a competitive sale, the County will permit bidders for its bonds to purchase bond insurance. The County's financial advisor, on behalf of the County, will pre-qualify insurance companies to facilitate bidders' ability to purchase bond insurance.

In the instance of a negotiated sale, the County may solicit quotes for bond insurance from interested providers. The County will select the provider whose bid is most cost-effective and whose terms and conditions governing the guarantee are satisfactory to the County.

Debt Service Reserves: As of the date of this policy, the County does not have any revenue bonds or other debt outstanding which require a reserve for debt service. (The Nassau County Tobacco

Settlement Corporation's debt does have a reserve requirement for debt service.) If the County develops such programs in the future, it may fund a reserve fund from bond proceeds, subject to Federal tax regulations and in accordance with the requirements of credit enhancement providers and/or rating agencies. The County may purchase reserve equivalents (e.g., a reserve fund surety or letter of credit) when such purchase is deemed prudent and advantageous. The County, with its financial advisor, shall evaluate such equivalents in comparison to cash funding of reserves on a net present value basis.

Letters of Credit: The County may enter into a letter-of-credit (LOC) agreement when deemed prudent and advantageous. The County will prepare and distribute to qualified banks a request for proposals, which includes terms and conditions that are acceptable to the County.

UNDERWRITER SELECTION

Senior Manager Selection: The County shall select a senior manager for any negotiated sale. The selection criteria shall include, but not be limited to, the following

- The firm's ability and experience in managing transactions similar to that contemplated by the County
- Prior knowledge and experience with the County
- The firm's ability and willingness to risk capital and demonstrate the availability of such capital
- Quality and experience of personnel assigned to the County's engagement
- Financing plan presented
- Underwriting fees

Co-Manager Selection: The County may select co-managers applying the same criteria as the senior manager. In addition to their qualifications, co-managers appointed to specific transactions will be a function of the transaction size and the necessity to ensure maximum distribution of the County's bonds or notes.

Selling Groups: The County may establish selling groups in certain transactions. To the extent that selling groups are used, the Deputy County Executive for Finance and/or Budget Director, at his or her discretion, may make appointments to selling groups from within the pool of underwriters or from outside the pool, as the transaction dictates.

Underwriter's Counsel: In any negotiated sale of County debt in which legal counsel is required to represent the underwriter, the appointment will be made by the senior manager with input from the County.

Underwriter's Discount: The Deputy County Executive for Finance and/or Budget Director, with assistance from the County's financial advisor, will evaluate the underwriter's discount against comparable issues in the market. If there are multiple underwriters in the transaction, the Deputy County Executive for Finance and/or Budget Director will determine the allocation of the underwriter's discount.

The underwriter's discount, including expenses, will be determined prior to the sale date. The senior manager shall submit an itemized list of expenses. The senior manager must substantiate any additional expenses.

Evaluation of Underwriter Performance: The County will evaluate each bond or note sale after completion to assess the following: pricing of the bonds or notes in terms of the overall interest cost and on a maturity-by-maturity basis; and the distribution of bonds or notes and sales credits.

Syndicate Policies: For each negotiated transaction, the Deputy County Executive for Finance and/or Budget Director, with assistance from the County's financial advisor, will prepare syndicate policies governing the upcoming sale.

- **Group Net Transactions:** The liabilities / revenue percentages allocated to the underwriters shall be determined in advance of the pricing
- **Net Designated Transactions:** Designation rules and limits will be determined in advance of the pricing
- **Retail Orders:** Retail orders are typically given first priority in County sales, and these orders are typically fully credited to the firm placing the order. The definition of retail will be determined in advance of the pricing. The treatment of orders placed by "professional retail" will be determined in advance of the pricing. Additionally, the County may elect to hold a retail order period for any negotiated issue, and may allocate a minimum percentage offered to retail investors at the final price, if so subscribed.

Expectations of the Senior Manager: The County shall require the senior manager to:

- Equitably allocate bonds or notes to other managers and the selling group
- Comply with Municipal Securities Rulemaking Board (MSRB) regulations governing the priority of orders and allocations
- Within 24 hours of receiving the verbal award, submit to the Deputy County Executive for Finance and/or Budget Director a detail of orders, allocations, and other relevant information pertaining to the County's sale

CONSULTANTS

Bond Counsel: County debt issuances will include a written opinion of legal counsel affirming the County's authorization to issue the debt and that the County has met all legal requirements necessary for issuance. The opinion will also include a determination of the debt's State and Federal income tax status. Counsel with extensive experience in public finance and tax issues will prepare the approving opinion and other documents relating to the issuance.

Financial Advisor: The County shall select a financial advisor (or advisors) to assist in its debt issuance and debt administration processes. Selection of the County's financial advisor(s) shall generally be based on, but not limited to, the following criteria, but as shall be further described in any procurement document

- Experience in providing consulting services to entities similar to the County
- Knowledge and experience in structuring and analyzing bond issues
- Experience and reputation of assigned personnel
- Fees and expenses

Conflicts of Interest: The County requires that its consultants and advisors provide objective advice and analysis, maintain the confidentiality of County financial plans, and be free from any conflicts of interest.

Disclosure by Financing Team Members: All financing team members will be required to provide full and complete disclosure relative to agreements with other financing team members and outside parties. The extent of disclosure may vary depending on the nature of the transaction. However, in general terms, no agreements shall be permitted which could reasonably be perceived as a conflict of interest.

(1) Payments under County guarantees in connection with NHCC debt are not included in the chart.

(2) Includes debt service payable on the bonds issued to EFC without regard to the subsidy provided by the State.

Statement of Constitutional Taxing Power

(In Thousands)

<u>Year Roll Completed</u>	<u>Full Valuation of Real Estate ^(d)</u>
2024	\$296,900,031
2023	280,046,851
2022	226,654,224
2021	211,662,546
2020	<u>248,424,030</u>
Total	\$1,263,687,682
Five-Year Average Full Valuation	\$252,737,536
Tax Limit ^(a)	\$5,054,751
Total Exclusions ^(b)	199,021
Total Taxing Power for 2023 Levy	5,253,772
Tax Levy 2024 ^(c)	544,064
Tax Levy Subject to Tax Limit	345,043
Percentage of Taxing Power Exhausted	6.83%

- (a) The State Constitution limits the tax on real estate to one and one-half per centum of the average five-year full valuation, and provides that the State Legislature may prescribe a method to increase this limitation to not to exceed two per centum. The tax limit was raised to two per centum by provisions of the County Law and a resolution adopted by the County Board of Supervisors, predecessor to the County Legislature.
- (b) Interest on and principal of indebtedness supported by real property taxes for fiscal year 2024 is excluded from the calculation of real estate taxes limited under the provisions of Article VIII, Section 10 of the State Constitution.
- (c) Includes the tax levies for the General Fund, the Police Headquarters Fund, the Fire Prevention Fund, Environmental Bond Fund, Community College Fund and Storm Water Fund.
- (d) Full valuation figures for 2020 through 2024 are verified by the Office of the State Comptroller.

The New York State constitution limits the total indebtedness that can be incurred by the County to 10% of the average full valuation of real estate for the latest five years. As shown in the table below, the County has substantial additional debt issuance capacity.

Main Funds = General, Fire Commission, Police Headquarters, Police District, EBA and the College

Consolidated = Main Funds plus Sewer and Storm Water Resources District, Sewer and Storm Water Finance Authority, EFC,

NHCC & Tobacco Authority

(4) Based on MYP. Excludes interdepartmental transfers

DEBT GLOSSARY

Arbitrage Rebate Liability

A requirement imposed by the Tax Reform Act of 1986 whereby the issuer of tax-exempt bonds must pay the IRS an amount equal to its profit earned from investment of tax-exempt bond proceeds at rates exceeding the tax-exempt borrowing rate, unless the Issuer meets one of the exceptions set forth therein. The tax-exempt borrowing rate (or “bond yield”) is calculated pursuant to the IRS code together with all income earned on the accumulated profit pending payment.

Balloon Maturity

A later maturity within an issue of bonds, which contains a disproportionately large percentage of the principal amount of the original issue.

Bond Anticipation Notes (BANs)

Notes issued by a governmental unit, usually for capital projects, that are typically repaid from the proceeds of the issuance of long-term bonds.

Bullet Maturity

A maturity for which there are no principal and/or sinking fund payments prior to the stated maturity date.

Call Provisions

The terms of the bond giving the issuer the right to redeem all or a portion of the bond prior to its stated date of maturity at a specific price, usually at or above par.

Capitalized Interest

A portion of the proceeds of a bond issue which is set aside to pay interest on the same bond issue for a specific period. Interest is commonly capitalized for the construction period of the project.

Competitive Sale

A sale/auction of securities by an issuer in which underwriters or syndicates of underwriters submit sealed bids to purchase the securities. Contrast to a negotiated sale.

Continuing Disclosure

U.S. Securities and Exchange Commission Rule 15c2-12 requires issuers of most municipal bonds, including the County, to agree in writing, at the time the bonds are issued, to provide continuing disclosure to the marketplace for the life of the bonds. This continuing disclosure agreement obligates the issuer to provide annual reports and current material event disclosures.

Credit Enhancement

Credit support purchased by the issuer or buyer to raise the credit rating of the issue. The most common credit enhancements consist of bond insurance, direct or standby letters of credit, and lines of credit.

Debt Service Coverage

Net revenue available for debt service divided by debt service.

Debt Service Reserve Fund

The fund in which moneys are placed which may be used to pay debt service if pledged revenues are insufficient to satisfy the debt service requirements.

Deep Discount Bonds

Bonds priced for sale at a substantial discount from their face or par value.

Derivatives

A financial product whose value is derived from some underlying asset value.

Designation Policies

Outline how an investor's order is filled when a maturity is oversubscribed when there is an underwriting syndicate. The senior managing underwriter and issuer decide how the bonds will be allocated among the syndicate. There are four primary classifications of orders, which form the designation policy: Retail orders, Group Net orders, Net Designated orders, and Member orders.

Escrow

A fund established to hold moneys pledged and to be used to pay debt service on an outstanding issue.

Expenses

Compensation to senior managers for out-of-pocket expenses, including underwriter's counsel, DTC (Depository Trust Company) charges, CUSIP (Committee on Uniform Securities Identification Procedures) fees, investor roadshow, dealer fees, and day-loan charges.

Letters of Credit

A bank credit facility wherein the bank agrees to lend a specified amount of funds for a limited term.

Management Fee

The fixed percentage of the gross spread which is paid to the managing underwriter for the structuring phase of a transaction.

Members

Underwriters in a syndicate other than the senior underwriter.

Negotiated Sale

A method of sale in which the issuer chooses one underwriter to negotiate terms pursuant to which such underwriter will purchase and market the bonds.

Original Issue Discount

The amount by which the original par amount of an issue exceeds its public offering price at the time it is originally offered to an investor.

Pay-As-You-Go

Financing a project with operating funds as opposed to bond proceeds.

Present Value

The current value of one or more future cash flows discounted at an appropriate interest rate.

Private Placement

The original placement of an issue with one or more investors as opposed to being publicly offered or sold.

Selling Group

The group of securities dealers who participate in an offering not as underwriters but rather who receive securities, less the selling concession from the managing underwriter, for distribution at the public offering price.

Syndicate Policies

The contractual obligations placed on the underwriting group relating to distribution, price limitations, and market transactions.

Underwriter

A dealer who purchases new issues of municipal securities from the issuer and resells them to investors.

Underwriter's Discount

The difference between the price at which bonds are bought by the Underwriter from the issuer and the price at which they are reoffered to investors.

Variable Rate Debt

Debt that bears interest which changes at intervals according to an index or a formula or other standard of measurement.

INVESTMENT AND CASH MANAGEMENT POLICIES

The laws of the State of New York (the State) permit the County to invest in the following investments:

- Special time deposit accounts in, or certificates of deposit issued by, a bank or trust company located and authorized to do business in the State;
- Through a deposit placement program, certificates of deposit in one or more “banking institutions”, as defined in Banking Law Section 9-r;
- Obligations of the United States of America;
- Obligations guaranteed by agencies of the United States of America, where the payment of principal and interest are guaranteed by the United States of America;
- Obligations of the State (or public authorities of the State as may be provided by law);
- With the approval of the State Comptroller, obligations issued pursuant to Local Finance Law Section 24.00 or 25.00 (i.e., tax anticipation notes and revenue anticipation notes) by any municipality (other than the County), school district or district corporation in the State;
- Obligations of the County, but only with moneys in a reserve fund established pursuant to General Municipal Law Section 6-c, 6-d, 6-e, 6-f, 6-g, 6-h, 6-j, 6-k, 6-l, 6-m, or 6-n;
- In the case of a capital reserve fund established for a County improvement district, obligations of the County issued for the purposes of such district.

The law further requires that all deposits and investments at a bank or trust company, including all demand deposits, certificates of deposit and special time deposits made by officers of the County that are in excess of the amount insured under the provisions of the Federal Deposit Insurance Act, including pursuant to a deposit placement program in accordance with law, be secured by a pledge of eligible securities, a pro rata portion of a pool of eligible securities, an eligible surety bond, an eligible letter of credit, or irrevocable letter of credit, as those terms are defined by law.

Occasionally, the County Legislature adopts resolutions setting forth the County’s investment policy in accordance with the above statutory limitations, which policy currently substantially mirrors the list above. The primary objectives of the County’s investment activities are, in priority order, to (1) conform with all applicable federal, State and other legal requirements (legality); (2) adequately safeguard principal (safety); (3) provide sufficient liquidity to meet all operating requirements (liquidity); and (4) obtain a reasonable rate of return (yield).

The County’s investment policy authorizes the County Treasurer to purchase obligations subject to repurchase agreements in accordance with guidance promulgated by the State Comptroller.

Eligible securities used for collateralizing deposits shall be held by (the depository or a third party) a bank or trust company subject to security and custodial agreements.

All monies collected by any officer or employee of the County are required to be deposited in such banks as have been authorized in accordance with the County Charter. It is the policy of the County that all moneys collected by any officer or employee of the County shall be immediately transferred to the County Treasurer except as is otherwise provided by law. The County routinely

prepares cash flow projections, which identify funds that are available for investing and the County's short-term borrowing requirements.
