BRUCE BLAKEMAN
COUNTY EXECUTIVE

ANDREW PERSICH
BUDGET DIRECTOR

OFFICE OF MANAGEMENT AND BUDGET
ONE WEST STREET
MINEOLA, NEW YORK 11501
(516) 571-0413
FAX: (516) 571-6016

TO: Department Heads/Fiscal Staff
FROM: Andrew Persich, Budget Director
DATE: May 27, 2026
SUBJECT: Fiscal 2027 Budget Process

The OMB 2027 Budget development process will begin with a Seminar on Wednesday, **June 24th** at 11:00 am at the **Legislative Chamber**.

The 2027 Budget development instructions will be made available in the Presentation and Budget Manual and will be posted to the Office of Management and Budget Website: <https://www.nassaucountyny.gov/4338/Manuals-and-Seminars> by **June 26th, 2025**. Please contact your budget analyst if you require additional instructions on using the Budget Prep/ APEX system or have other questions.

Listed below are key dates in the Fiscal 2027 Budget Development Calendar.

Fiscal 2027 Budget Development Calendar

Date	Activity
05/29	Departmental Narratives Due Back to OMB
06/19	CPAR Schedules Due Back to OMB
06/24	Budget Seminar – Legislative Chamber at 11:00 am
06/26	Apex/Budget Prep Opens
07/01	Multi-Year Plan Update Released
07/17	Budget Submissions Due Back to OMB
07/31	Grants Budget Submissions Due Back to OMB
08/03-08/14	Review Budget Submissions/Departmental Meetings
08/28	Interdepartmental Service Agreements (ISAs) Due Back to OMB
09/15	Proposed Fiscal 2027 Budget and 2027-2030 Multi-Year Plan Released
TBD	Legislative Budget Hearings
10/30	Deadline for Legislature to Adopt Budget and Multi-Year Plan

ENTERING DATA IN B-PREP

ENTERING BUDGET DATA

- Go to the Budget Input Tab in the APEX application
- There are two options to enter data:
 - Option 1: Index Code level by Object
 - Option 2: Control Center level by Object
 - Both options summarize the total head count entered for Full-time, Part-time and Seasonal within the Index Code that you are working on
 - You can switch between the two options to input the data
- Enter Total Departmental Requests NOT adjustments to the targets
- Departments should explain budgetary needs by using Edit & Notes in APEX
- If additional codes need to be added contact Jeff Nogid or Nadiya Gumieniak.

OPTION 1:

Department Request Input Screen

Other Input Methods: Index Code & Object

Index Code: Object: Dept:

FISCAL 2027 BUDGET PREPARATION MANUAL

ENTERING CONTRACT DATA

- Select DE in the Object drop down menu
 - You will not be allowed to enter a number at the sub-object level
- Click the ‘View Details’ link, in light blue, to access the detail screen. If the ‘Budget Subobject’ column is red, then there is detail from prior years.
- Prior Year submissions are listed by vendor – NO PRIOR YEAR AMOUNTS ARE INCLUDED
- Mandated/Non-Mandated must be selected in order to submit

(MUST FILL OUT ALL FIELDS OR DATA WILL CLEAR WHEN SUBMITTED)

- If mandated, you must specify the Local Law or Authority in the notes
- Enter reimbursement rate if applicable
- After you finish entering your contract information click “Submit” then click “Go Back” and check your submission in the “Dept. Request Amt.” column

PERFORMANCE MANAGEMENT /CPAR MEASURES

Performance Management links a department’s strategic goals and service objectives with measurable performance metrics that enable the department to measure performance, manage key areas of concern, and make informed resource allocation decisions. During the annual budget process, each department should reconfirm their goals and objectives, evaluate prior performance and establish performance measures that will serve as a useful management tool to gauge progress toward goals and toward achieving continuous improvement. In 2027, “Department-owned” performance measures will be monitored monthly and reported in the County Performance and Accomplishment Report (CPAR).

Existing 2026 Departmental CPAR performance measures, along with current performance targets and data, have already been provided. For the Fiscal 2027 submission, existing and newly proposed CPAR performance measures must be consistent with the goals and objectives described in your Departmental narrative.

Each Department should be able to describe how a submitted CPAR performance measure specifically relates to a given goal and objective. In addition, CPAR measures should be:

- Numeric and monitored on a monthly or quarterly basis
- Within the Department’s direct managerial control or influence
- Assigned a realistic annual target (given the current economic environment) with the expectation for year-over-year improvement where feasible

The 2027 CPAR performance measures should be updated and submitted on the Excel spreadsheet that has been provided by Raquel Rosen of the Performance Management Unit.

If you are proposing a new CPAR measure, enter data in each column of the spreadsheet and provide backup for the goal and objective on the qualitative write up.

The due date for Fiscal 2027 CPAR schedules was June 19, 2026. If your department has not yet submitted theirs, please do so as soon as possible. If you have any questions regarding these instructions, please contact Irina Sedighi or Raquel Rosen.

SHARED SERVICES BUDGET GUIDELINES

Just-In-Time / Staples Office Supplies and Grainger Supplies

Departments must budget their Staples office supply needs in sub-object code DD300 for each control center within their department. If purchasing miscellaneous items not listed in the Staples catalog or items restricted by the County from being ordered from Staples, you may budget under a different DD sub-object code and order via an ADPICS requisition.

Similarly, departments must budget their Grainger supply needs in sub-object code DD400 for each responsibility center within their department. If they are purchasing miscellaneous items not listed in the Grainger catalog or items restricted by the County from being ordered from Grainger, they may budget under a different DD sub-object code and order via an ADPICS requisition.

If departments do not budget properly in DD300 or DD400 and later determine they need to purchase Staples/Grainger items, a delay will occur in arranging for budgeted funds to be transferred from other DD lines. The process to transfer the funds requires the Department of Shared Services to send a request to the Comptroller's Office to transfer funds from the other DD line to the new line. Upon confirmation from the Comptroller's Office that the funds have been transferred, Shared Services must then open a corresponding account at JP Morgan Chase on behalf of that index code/sub-object code. Only upon confirmation that Chase has opened the appropriate line of credit and issued a new account number, can Shared Services advise vendors what the new corresponding account number is for their records. In addition, Vendors also require time to update the department's profile. The overall process can often take several days to a couple of weeks to complete. This delay can be avoided if departments comply with the correct procedure.

Toner cartridges may be ordered through Just-In-Time (Staples). Specialty papers and toners, not available through Staples, should also be budgeted separately and ordered via an ADPICS requisition. If you have any questions, please contact the Office of Shared Services.

EXCLUDED / RESTRICTED ITEMS FROM JUST-IN-TIME

Audio Visual	Furniture, Files, Lamps	Surge Protectors
Bathroom Supplies	Hand Trucks	Telephones & Cell Phones
Binding Systems	Letter Folders	Televisions
Boards	Light Bulbs	Time Recorders

Directory of BB, DD and DE Sub-Object Codes

A copy of the Sub-Object Code directory for BB, DD, and DE are provided below.

The following list outlines the valid sub-objects available in the financial system (NIFS). An expanded list of sub-objects is also available within NIFS.

General Definition:

BB-Equipment: Equipment represents tangible purchases made by the County to assist and support County agencies and departments in performing and successfully executing their missions.

DD-General Expenses: General Expenses include a wide range of products and services required by departments to support service delivery. They include office, maintenance, medical, postage, recreational, automotive supplies, and gasoline.

DE-Contractual Services: A Contractual Service is work performed by an independent contractor for Nassau County. An independent contractor has specialized knowledge, expertise, experience, or capabilities. The County has determined that an outside entity is the best option to perform the appropriate service.

AN IMPORTANT NOTE ABOUT EQUIPMENT, GENERAL EXPENSES & CONTRACTUAL SERVICES (BB, DD & DE CODES)

In recent years, the Comptroller's Office has identified instances where the DD accounts have been used to record purchases of Equipment. Purchases of equipment are to be recorded in the BB object code. Purchases of supplies and general expenses are coded to the DD code. All contractual services are to be recorded in the appropriate DE code.

CAPITAL AND OPERATING BUDGET INTEGRATION

LINKING CAPITAL PROJECTS TO OPERATING BUDGET AND SERVICE DELIVERY IMPACTS

It remains our goal to achieve better integration between capital projects and operating budget and service delivery impacts. To achieve this, Departments proposing capital projects will document how the outcomes of capital projects impact operating costs and service delivery. These impacts should leverage opportunities for expense savings and enhanced revenue performance as well as incorporate any additional costs that may result from completion of the capital project. The Government Finance Officers Association (GFOA) considers this linkage an important standard in effective budgeting and has made documentation of capital budget impacts a mandatory criterion in their evaluation of quality and best practices in budgeting.

Departments proposing capital projects are required to submit a thorough and reasonable analysis to justify the County's capital investment. This analysis will ensure that such an investment is financially sound, captures all operating impacts and provides measurable improvement toward meeting service delivery objectives.

The Capital Project Submission Process

The capital project submission process requires the submitting department to calculate the project's impact on the operating budget, should the project be approved. To promote better communication of the effect that projects will have on the operating budget, the submitting departments must complete the Fiscal and Service Impact *Memorandum* (formerly the "Fiscal & Service Impact Worksheets"). The memorandum must include a narrative description of the project and provide as much detail on the project's impact on both fiscal and constituent services as can reasonably be determined.

The memorandum must be given to the Office of Management and Budget and the Capital Program Office. OMB will ensure that the impacts adhere to the budget and multi-year plan targets. OMB will review the finances and service impacts in the context of the overall submission. Subsequent analysis and data may be requested from the submitting department to allow OMB to develop a recommendation.

FY 2027 Operating Budget Impacts

Your Operating budget submission should include a projection of the cost impact for capital projects scheduled to be completed/operational in **FY 2026 and FY 2027**. The projection should be consistent with the information provided on the Fiscal and Service Impact Memorandum. The memo that was submitted at the time the capital project was requested should be reviewed and if necessary, update the fiscal and constituent services impacts to reflect the current projections (which should be consistent with your budget submission) and provide these projections to OMB.

Department of Information Technology Budget Guidelines

The Department of Information Technology (NCIT) is a service department that provides technology solutions and services to County departments and agencies. NCIT plays an integral role in supporting County operations by designing, implementing, and supporting technological solutions that improve the overall business efficiencies of each agency.

Equipment (Capital Funded)

When equipment is needed, an authorized representative from your department should submit a request to the NCIT Help Desk by calling 1-HELP (1-4357) or send an email to Helpdesk@nassaucountyny.gov. An IT Project Manager, along with the Equipment Manager, will visit you, address your needs, and create an equipment needs list that will be in line with your associated software. Only after the approval of funding will IT be able to move forward on your requests.

Software and Maintenance Contracts (DE)

All information technology maintenance agreements are centralized and managed by NCIT. An annual review to capture all maintenance agreements will be conducted and maintained by the NCIT. Any software or technology solution requested for by an agency must be coordinated through NCIT. Departments with existing software maintenance handled by NCIT should review those agreements and advise IT's accounting unit of any changes, including costs.

All requests should be submitted by an authorized representative from your department to the NCIT Help Desk by calling 1-HELP (1-4357) or emailing Helpdesk@nassaucountyny.gov. Typical funding sources include operating funds, grants, and technology-related capital projects.

Software needs will be identified by the individual department with the assistance of an IT Project Manager. Approval by the IT Department is necessary. You will be contacted by an IT Project Manager to assist you in identifying your needs and requirements and preparing the submission of your request with the required justification.

Technology (Grant Funded)

Equipment or software purchases that are part of an approved grant budget must be coordinated with NCIT to eliminate duplication of hardware, software, or services. We need to ensure that all information technology software and hardware purchases are consistent with both the standards of the NCIT Department as well as the County's overall strategic direction.

Technology (Capital Funded)

If you are planning a capital project in your department, the IT Department will need to work with you to develop the best utilization of available funds. An IT Project Manager will assist you with your technology project requests, justifications, and the necessary IT approval process.

Interdepartmental Service Agreements

The process for developing 2027 Interdepartmental Service Agreements (ISA) between interdependent County departments will follow the same process as 2026.

The development and processing of ISA's will take place through the ISA application located in Apex at the following: <https://apex5.nassaucountyny.gov/ords/f?p=DASH>.

All departments are required to provide interdepartmental forecasts; however, ISAs will only be required for primary buyer units/departments. Only primary buyer units/departments will be allocated an Interdepartmental Charge (HF) budget. Primary buyer units/departments are defined as either a cost segment of a major county operating fund or are routinely eligible for federal and state reimbursement of expenses. For GRANTS, please use revenue code BW for inter-fund charges revenue and expense code HH for inter-fund charges expense.

Primary Buyer Units/Departments

- Assessment Review Commission
- Department of Assessment
- Economic Development Grant Units
- Fire Commission
- All Health and Human Services Departments
- Nassau County Traffic and Parking Violations Agency
- Office of Community Development
- Office of Housing
- Office of the County Clerk
- Police District
- Police Headquarters
- Public Works
- Records Management

Primary seller departments (noted below) will prepare their ISAs as required in the ISA instructions (see sample on following pages) for primary buyer unit/departments only. Once the Seller department ISA has been approved, the ISA manager for the indicated Buying department will be notified through the app. This will be an iterative process until both departments sign off on the ISA. At this point the app will notify appropriate OMB staff to be incorporated in the budget.

Primary Seller Departments

- Information Technology (including Printing Graphics and Mail Services)
- Police Headquarters

- Records Management
- Public Works
- Shared Services
- Sheriff's Department

Other departments (sellers and buyers not described above) may participate in this process but only if the ISA is fully agreed to in advance by both parties.

ISA Application Instructions

Seller Departments will initiate the ISA process for the buying departments.

Form Definitions

- If you are not able to gain access because you are a new employee or part of a new department, please contact OMB at ISAOMB@nassaucountyny.gov.
- The ISA # will be automatically generated once the ISA is submitted. As you work on an ISA please make sure to hit save on a regular basis. Unsaved changes will not be available if you exit without saving.
- The Division is the cost center for the department if applicable.
- The ISA Manager is usually someone on the fiscal staff of the buyer and seller departments. If the ISA manager is not found in the dropdown, please contact OMB at ISAOMB@nassaucountyny.gov.
- The Period is the time frame of performance; in most cases this will be annual (12 months).
- The Requirements and Specifications should briefly explain what service or product is being provided and what the quality and schedule expectations are.
- The Resource Plan should identify what resources (staffing, equipment, vendors, etc.) will be dedicated to the accomplishment of the Requirements and Specifications. Please upload backup/detail documentation for the charges. These will be provided to the buying department. Only one file may be uploaded. Any upload will overwrite previous uploads.
- The Reporting Requirements establish the necessary level of communication/coordination for the successful completion of the ISA. The type and content of status reports should be identified. Monthly status reports are recommended but quarterly status reports may be more appropriate.
- The Price defines the cost (Salary, Fringe Benefits and OTPS expenses) of providing the services or products defined by the ISA. For ISA purposes available fringe benefit rates should be applied to salary expenses. Current rates may be found under the RESOURCES tab in the application.

Indirect Costs

Seller Departments that need to claim indirect costs expense should refer to the most recent indirect cost rate allocation spreadsheet which is located on the website under the RESOURCES tab.

The Seller Account Information is the selling department’s appropriate index, revenue object and revenue sub-object codes (BJ - in most cases 7800 designated “Interdepartmental Revenues”). The Buyer Account Information is the buying department’s index code along with the expenditure object code HF and appropriate sub-object code for the service or product being provided.

PROCESS

- Login is the username and password you use to log into your computer.
- The Selling Department has to initiate an ISA under the “ISAs” tab, by clicking Add New ISA +

FISCAL 2027 BUDGET PREPARATION MANUAL

Once the ISA is approved by Budget, there will be a print button available on the top right for the selected ISA.

The **ISA Summary Forms** tab is provided for user reporting purposes where all of the Department's ISAs can be printed.

Contact Irina Sedighi with any questions.

GRANT BUDGET PLANNING - 2027

The FY 2027 Budget Summary Book will include the FY 2027 Grant Plan which will be based on the information contained in the Grant Budget Planning system as input by each of the departments. All approved, pending, and potential grant awards anticipated during 2027 and projected for 2028 through 2029 must be entered into the 2027 Grant Budget Planning System.

During the 2027 Budget Preparation season, Departments should list **all** grants, including those that they are considering applying for in late 2026 through 2027. Values entered are considered projections/estimates based on the best information the department has at the time. The Administration and OMB will not hold departments to these projections.

If Departments have questions regarding the input requirements, they can contact Daniela Capozzo.

Guidelines for Grant Budgeting

Departments must complete the Grant Plan Basic Information Form and Grant Amounts detail for each grant. The 2027 Budget will be pre-populated for those grants that had been created/entered for the 2027 Budget plan with a 2028 out year plan. If there is a prepopulated 2027 Grant entry, then the Department will have to review previously entered information and revise accordingly before final submission.

To get started, select the 2027 year from the Grant Year dropdown table and a resulting list of prepopulated grant line items will be listed. Click on the “pencil icon” to the left of each Grant line item to open the Grant Basic Info Screen.

If Departments need to enter new grants, then the submitter must click on the “Create” button to the right of the screen which will then bring you to the Grants Basic Input Screen. As a reminder, Departments should be careful in entering the Grant Name and Grant Code fields exactly as it was entered in the prior year in order for the base expense and revenue details to be displayed in the next budget screen.

Details will have been pre-populated from prior year entries. Departments need to review the previous entries to ensure if they are still valid and correct. There will be required fields that need to be completed by the Departments. Departments will not be able to apply changes or finalize submissions unless all required fields are entered.

If a grant is no longer valid, click the Delete button. Departments will have the opportunity to save changes by clicking “Apply Changes” button before final submission. Once Departments are satisfied with each individual grants plan submission, they can finalize submission by clicking on the “Confirm Grant Info has been updated” button.

Grant Plan Basic Info form Grant Amounts

Grant Year 2027

Fringes (AB) and Indirect Costs: Most grants include salary appropriations. If there is a salary (AA) appropriation, the grant should also include all fringe costs eligible for reimbursement by the grant. If departments are unsure of the fringe rate, please contact Jeff Nogid or Raquel Rosen for the appropriate rate. Based on each grant reimbursement criteria, the grant manager should review charging direct and indirect costs. Include only indirect costs that will be reimbursed by the grant.

For grants received from another department within the County, as a sub-grantee, each department receiving grant funds must submit a separate budget. Examples are the Urban Area Security Initiative and State Homeland Security Grants through Emergency Management, where the programs provide funds to County departments to implement programs designed within categories of the functions that the sub-grantee department provides.

The expense appropriation is the annual budget for the grant, and the revenue is the funding source (federal, state, or local). The revenue needs to equal the expense total. The revenue and expense must be entered at the sub-object code level:

- Federal: funds received from the Federal Government
- State: funds received from New York State including pass-thru funds from the Federal Government
- Other Non-County Sources: funds received from sources excluding Federal, New York State or Nassau County

Enter the projected (or actual if available) total amount of the grant funding expected for each year.

Definitions

Direct Costs: Includes all items that can be categorically identified and charged to the specific project, such as personnel, fringe benefits, professional services, travel, equipment, supplies, communications, computer time, and publication charges.

Contract Costs: Grants may allow for utilizing outside professional services to meet the goals and objectives of the grant. If the DE sub-object is to be input into the Grants Budget Planning System, then additional information will need to be included in the notes sections. Specifically, note the Vendor name (if available for existing multi-year contracts) and what type of services are being procured. If vendors have yet to be procured, then input what type of services are to be procured.

After all direct costs have been determined and assigned to the grant and other activities as appropriate, what remains are:

Indirect Costs: Includes costs not readily identifiable to a specific project or activity. The costs of maintaining buildings, grounds and equipment, accounting services, and general administrative expenses are considered types of indirect costs. Such costs may or may not be allowed by a funding source, and others may place a ceiling on the percentage allowed in each grant situation. Indirect costs are generally calculated as a percentage of the total direct costs of the project minus any capital or equipment expenses. Indirect costs are comprised of three types:

1. **Departmental Indirect Costs:** These are costs incurred by the department that do not benefit the grant objective 100%, (e.g., personnel costs for a department director who oversees the grant, among other functions; an attorney who works in the department and devotes a portion of his/her time to the grant, etc.). Refer to the most recent indirect cost rate allocation spreadsheet which is located on the website.
2. **Countywide Indirect Costs:** These are the costs of central government services distributed through the central service allocation plan that will be distributed by OMB for Grants once 2022 is finalized (MAXIMUS Federal OMB A-87 Central Services Cost Allocation Plan)
3. **Other Department Costs: Indirect Costs –** These costs include the following:

Fleet Maintenance	Building Occupancy
Purchasing	Records Management
Information Technology	Postage Charges
Printing Charges	Gasoline
