

CASE DESCRIPTION
Naval Weapon Industrial Reserve Plant Remediation Project

The U.S. Navy has requested that the County grant permanent easements over the following stormwater basins in relation to progressing its Naval Weapon Industrial Reserve Plant Remediation Project to remediate the groundwater plume:

1. SWB 173 (Section 51, Block 349, Lot 33) ;
2. SWB 173 Extended (Section 51, Block 349, Lot 1);
3. SWB 162 (Section 51, Block 408, Lot 11);
4. SWB 282 (Section 51, Block 407, Lot 30); and
5. SWB 188 (Section 51, Block 404, Lot 2).

Each of these easements is located in Wantagh within close proximity of Seamans Neck Road. I have confirmed County ownership of these parcels on GIS.

The Navy seeks to construct and operate temporary and permanent treatment system components on these basins, including but not limited to the creation of a laydown areas, wells, piping, and clean water discharge locations.

I have attached DPW approval hereto. In addition, I have attached some supporting documentation for informational purposes. We are still in the process of negotiating the final easement form.

Please calendar these easements for NCAC §11-8 approval at the next OSPAC meeting.
